Mine Host Snowden, proprietor of the caravansery of that ilk, has a venerable and well authenticated relic for which he would not take considerable money. The relic in question is nothing less than the first brickmaker's trowel ever used in the trade in Peterboro. As is known to our readers an old brick building was recently dismantled on Charlotte street, the first hotel as well as the first brick building erected in the then village of Peterboro.

As the workmen demolished this old building, embedded between two large stones in the foundation, showing by its position that it had evidently slipped down and been forgotten, and afterwards covered by mortar, was found the trowel, its iron blade almost eaten away by rust. As this was found imbedded in the lower part of the foundation, in this the oldest brick building, it is easily to be supposed Mr. Snowden's relic and its history is authentic.

C. C. Association.

Chemong Cottagers to Ask for Charter of Incorporation.

It is currently reported that the Chemong Cottagers Association will, at an early date, seek for incorporation by the Toronto Legislature. A committee composed of Messrs. R. M. Dennistoun and L. M. Hayes has been appointed to enquire into the subject and report at the next meeting of the Cottagers' Association, when the matter will be gone into and thoroughly discussed.

Mr. W. J. Hopwood, secretary of the Association is writing the Provincial Fisheries Department, at Toronto, calling attention to the illegal fishing in Chemong Lake each spring, when it is contended, spears are used as well as jack lights and a large number of the finny tribe destroyed. The authorities at Toronto will also be asked to see that a large deposit of bass is made in Chemong Lake to improve the fishing, the same as 800 bass were recently placed in the waters of Clear and Stony Lakes.

It is also proposed to request the Dominion Government to build a new wharf at the park, in which case a fine yacht club house will be put up and a yachting association formed. The club house would be large and well appointed in every respect and would be a credit to the park.

—Mr. Fred Peake, Campbellford, a well-known horseman and frequent judge at the more important races, was in the city yesterday on business.

LITTLE CREDIT TO JAPS

VICTORY OVER RUSSIANFLEET IS NOT HIGHLY REGARDED

Manila Military Authorities Say Gross Incompetence is Manifest in Ships Which Put in There.

Kansas City, Mo., Aug. 9.—Dr. Hal Creel, lieutenant and assistant surgeon in the marine hospital service, and now acting as quarantine officer at Manila, has written an interesting letter to his brother, George Creel, describing the conditions of the three Russian warships that sought refuge in Manila Bay after the naval battle of the Sea of Japan. Dr. Creel says:

"Manila is all 'excite' today. Last three Russian ships entered the bay and slowly made their way to anchorage. This morning I boarded them and an awful sight they were. It wasn't necessary to be told that they had come flying down from the disastrous battle in the Corean straights—the atmosphere was pregnant with sorrow and calamity."

"All three ships had suffered terribly from the Japanese leadstorm, not one possessing anything like the original quota of men. The Jemtchurg, cruiser, had two officers and twelve of the crew killed and forty wounded. The Aurora, cruiser, had its captain killed together with thirteen of the crew and a total of eighty wounded. The Oleg, cruiser, confessed to fourteen killed and forty wounded.

DESPAIR SHOWN BY OFFICERS.

"But it wasn't the wounded men filling the hospitals and lying in huddled heaps about the decks, nor the great, gaping holes in the sides of the ships that saddened so immeasurably—it was the agony of despair written on the face of every officer. I talked with the captain of the Oleg—he had a hand shot off—and while I asked no questions he volunteered a few remarks. He was quite gray, his face was seamed by lines so deep as to resemble scars, and there was that in his eyes which made one want to cry. All the officers seemed the same. The crews, however, were animals in their stolidity and indifference—low types of humanity.

"Seven hours, so the captain said, did the engagement last, and to the credit of all three ships, most of the holes were forward. The Jemtchug was little injured, but the other two were hulled time and again—great, gaping holes—while the superstructure was simply riddled with finer shot. Apparently the Russians had to pay all their attention to torpedo boats, several menacing each ship, while the Jap cruisers stood off and targeted them at their leisure.

"It seems incredible that so few Japanese boats were sunk, but a look at the gunners furnished an easy reason. And then, too, it was apparent that other than the shipbuilders made a large profit, for the 'armor plate' was not thick enough for the respectable tramp steamer. Even the smaller shot plowed right through.

NO EVIDENCE OF LUXURY.

"There was no evidence of the much talked of luxury and champagne style on board the ships. Brown bread was the place de resistance in the cabin as well as in the forecastle, and all the officers had mended and patched uniforms while the cabins were turned into reserve coal bunkers. I noticed stricken on the Oleg—they were quite well attended, and everybody seemed decidedly in earnest. The priest on the Greek church—wore a most fantastic blue silk affair, resembling a kimono, with a startling assortment of yellow stars and comets fastened over it.

"The military authorities here do not give the Japs much credit for the victory, declaring that the world has never seen grosser incompetence than that displayed by the Russians. Instead of the battle gray usually donned by warships the Russian cruisers were all painted black with white funnels. What better mark could be wished? And they were not cleared for action, although hourly expecting battle.

Progressive Company.

Under Direction of Capable Management, the Street Railway Company Instals a Telephone System.

That the local Street Railway Company leave no stone unturned for the safety of their passengers and the betterment of their traffic is daily exemplified. The company has now installed a complete telephone system in connection with their lines to facilitate business and ensure safety for the passengers, having had phones placed in position at the corner of George and Charlotte sts., corner of Charlotte and Park streets, at the switch on Melbourne street, Jackson Park line, and at Jackson Park. These were in use last night, and a man is stationed at each instrument. The object is to find out when a car is at these points if the line ahead is clear. If so the car proceeds on its way and there is no danger of meeting another car and having to reverse the cars and after returning to the last passed switch, wait their turn for the single track.

Telephones will also be placed on the George street line at McDonald's mill, at the switch on Romaine St., and at the exhibition grounds. These will be particularly useful on days of heavy traffic to and from the Exhibition grounds or boat excursions.

Mr. Learmonth, the manager is meeting not only with success in his handling the car service and all details that concern the public; but is the recipient of frequent encomiums from patrons of the road. As there has been some considerable gossip about town to the effect that the C.P.R. was backing the proposed extension to Young's Point for which survey is now being made. The Times yesterday asked Mr. Learmonth if there was any foundation for the report, and was informed by him that the C.P.R. had nothing whatever to do with the extension, financially or otherwise.

Mr. Learmonth says the Radial Railway Company when the Young's Point line is built, will give an hourly service during the summer months, and will endeavor to keep the entire road open and in operation during the winter if the expenses of snow cleaning are not too heavy.

Marksman Home.

Col. Sergt. Moore Returns From Bisley.

Col.-Sergt. Moore, who so ably sustained the honor of our local regiment, before the targets of Bisley, is once more at home.

Sergt. Moore arrived in Montreal on Sunday morning with Messrs. Elliott, Crowe, McConnell and Russell of the team. Though he made an excellent record at Bisley considering that this was his first year, he displayed a due modesty in discussing it. He considered it a fact to be proud of however, that Canadians had won the Kolapore Cup.

All of the teams shot better than in previous years and the average was remarkably high. The ammunition was much better than formerly and the men are apparently becoming more acquainted than formerly with the rifle.

Col.-Sergt Moore had the honor of being reviewed by, and in close proximity to, some of the greatest men in England, including His Majesty King Edward, the Duke of Connaught Lord Roberts, and other highly placed and distinguished generals. Sergt Moore brings back with him, not only the happiest recollections of his trip, the satisfaction of having done well for both his country and his native city, but a goodly pile of dollars won by his unerring eye and steady aim.

In addition, as a member of the Kolapore team, he gets a silver bowl and a gold medal worth fifty dollars, from the Dominion Government.

There is some talk of his comrades of the 57th giving him a reception; this is the least honor that can conscientiously be shown to a man who has done as well abroad, and who has brought the name of his home prominently before the eyes of readers wherever newspapers are printed.

East Peterboro

Ald. Batten Does Not Like the Term "5th Ward" as Applied to Our Recent Acquisition

Ald. Batten, and he is not alone in this way of thinking, does not like the expression "Fifth Ward," used to designate our transOtonabee suburb, and would like to hear the quondam Ashburnham spoken of as "East Peterboro."

He brought the matter up at the last Council meeting and said that a number of persons had spoken to him about it, and they were of the opinion that the term by which that part has been known since the union is neither dignified nor pretty, and the name suggested by him as a substitute would be preferable. He asked the newspapers of the city to refer to the proposed change. What is the matter with referring to the former Ashburnham locally as "the East Side?" This would do away with the obnoxious term 5th Ward, and still not make it appear as though our eastern neighbors belonged to a different town. The City of Chicago and other American cities are divided into "Sides," as the North Side, South Side, etc., why not borrow a good idea from the Yankees sometimes?

The Eagle Screams

American Colony at Stony Lake Wrathy Because a Star Spangled Banner is Removed.

On Monday night an American flag conspicuously displayed at McCracken's Landing, was torn down, and has disappeared. The members of the American colony are very indignant over what they consider an outrage. There is so far, no clue, to the actors in the event, the flag, which is described as a handsome one, having mysteriously disappeared.

The Americans are our guests and welcome guests at that, but aredeaglism is apt to run rampant at times in too conspicuous display of a foreign flag, without sufficient accompanying relish in the shape of the flag of our own country. They might recall that a very few weeks ago a Canadian vessel captain at an American port was compelled to lower the Canadian flag, although it had every legal and moral right where it flew. Let our visiting friends from the other side of the border remember that moderation is good in all things.

"Was Arrest Illegal"

Mr. Archie Moore Explains His Action in Regard to the Trouble with the Boy at Ball Game.

(To the Editor of The Times.)

Dear Sir,—In your issue of yesterday appears an article under the heading, "Was the arrest Illegal?" and which article is entirely without foundation. I am employed by the managers of the Athletic Park, as constable to prevent the boys from damaging the property, and stealing into the grounds. I have also been requested by Mr. Harry Neil and Mr. T. Rehill to keep the boys off their buildings, and intend to perform my duties to the best of my ability.

While Monday's ball game was in progress, a number of boys, intent on seeing the game by stealing into the grounds, repeatedly climbed the side of the bridge, and went under the bridge crossing the creek. At the east side of the grounds, which has been boarded up and strings of wire strung across the top to prevent any one from gaining admission. This boy, with others, had been ejected twice, having broken off the boards and stolen through, and when put out threw considerable unbecoming back talk, which certainly shows that the boy is either neglected, as regards to his bringing up, or that his parents have little knowledge as to his conduct when away from the parental roof. This boy, the son of Joseph Stewart, of the city police force, has caused me considerable trouble at previous games, and on Monday, he was more determined than ever to get in regardless of destruction of property. Seeing this I gave chase and captured him, and placed him in care of the gentleman at the ticket office, who let him go, the lad going home and telling his officious father, who it is alleged considerably abused the gentleman at the wicket, one of the Peterboro Old Boys, who must certainly have a poor impression of the police of this town, if they are to be judged by the conduct of Joseph Stewart.

Mr. Stewart, when asked for admission fee at the entrance, refused to pay and walked in in civilian clothes, wearing a large straw hat.

Now if the athletic associations of this town, get no more support and encouragement than that received from Mr. Stewart and his boy, the town and its sporting associations would soon become defunct, and no police protection would be required—hence no trouble.

Of course boys will be boys, but unruly boys, who exhibit unseemingly conduct, and seek admission by destruction of property, should be dealt with by the police magistrate.

The management of the grounds are not running the park for pure accommodation without remuneration, but are giving the general public clean sport for a small admission, hardly enough to keep the grounds up. The small boys are generally admitted free shortly after games commence, or often some sympathetic true sport will pay a dollar, towards the good cause, and the boys are all let in but otherwise if admitted before the game they cause no little trouble by annoyance to the players, crowding onto the field or running at large in the grand stand, and it is impossible to control them after they are admitted.

Of course Mr. Stewart, as every person knows has an old sore against me, and has used various threats against me, but this explanation ought to convince him that both he and his son were wrong, as the public, at least those who attend the games, already know that I have only done my duty and are prepared to stand by me. Thanking you Mr. Editor for your valuable space, I am,

Yours truly,
ARCHIE R. MOORE.

A Street Car Track Complaint

Of course, a great deal depends on your own taste in the matter of newspapers. If you want a publication that serves up so much gore and so many thrills in every issue, it is money thrown away to buy the Tribune. If however, you are looking for a daily history of the world, carefully collated and sifted and presented in the most attractive form that the facts and the laws of good taste will permit, you cannot make any mistake in reading the Tribune every day. But the Daily Tribune is more than a continuous history. It contains special articles on nearly every subject which is supposed to interest intelligent and clean-minded people, to say nothing of the illuminating and instructive editorial articles and reviews of books, music and the drama. Just by way of experiment, why don't you invest $1 and get the Daily and Sunday Tribune by mail for a month? With the Sunday Tribune goes a handsome illustrated supplement and a Magazine, with colored covers, equal to anything sold for ten cents.

Russia Must Prepare to Continue the War

Says M. Witte, Senior Peace Envoy from the Czar, to the Correspondent of a Russian Newspaper.

Boston, Mass., Aug. 8.—M. Witte, peace mission, arrived here at 11.15 o'clock to-night.

Mr. Wilenkin and two secret service officers were driven to the north station, where they boarded the train for Portsmouth. Before the train left, M. Witte addressed several former residents of Russia, who cheered him. He asked his hearers whether they preferred this country to Russia. Several of the audience replied that they liked America better, as there were more opportunities for advancement.

M. Witte acknowledged the cheers of the party by removing his hat.

As the train pulled out one of the Hebrews shouted: "Give freedom to the Jews!"

WITTE AT PORTSMOUTH.

Portsmouth, N.H., Aug. 8.—Sergius Witte, senior member of the Russian peace mission, arrived here at 11.15 o'clock to-night.

PEACE PARLEY TO BE FUTILE.

New York, Aug. 8.—The American prints the following from its correspondent in Portsmouth:

"While your paper that Russia must be prepared to continue the war."

This is the message of M. Witte, senior peace envoy from the Czar, to his fellow countrymen on the eve of the opening of the peace conference.

Not only does it express the view of M. Witte, but it accurately presents the opinion of Baron Rosen, M. Witte's colleague, as to the outcome of the meeting with Japan's plenipotentiaries.

Moreover, it was uttered last Friday night on the return of M. Witte from his informal visit to President Roosevelt, with whom he may be presumed to have discussed the peace terms of Japan in a general way.

RUSSIANS FORTIFYING ON THE AMUR RIVER.

Preparing to Resist New Japanese Movement --Some Forty Thousands Prisoners Being Sent From Sakhalin.

Tokio, Aug. 9.—It is reported that the Russians are vigorously fortifying the mouth of the Amur River. A mixed division has been despatched from Habalovsk to Nicolaievsk to reinforce the garrisons in the vigimity. It is understood that the channels approaching the river have been mined.

SAKHALIN PRISONERS NUMBER

The disposition of the convicts on Sakhalin Island is now under consideration. They will probably be taken to the Russian coast and will there be transferred to the Russian authorities. Under a pre-arrangement the Russian prisoners of war on the island, 40,000 in all, are being transported to Japan.

ADDITIONS FOR JAP NAVY.

News received from Port Arthur says that the former Russian cruiser Bayan will start from that place under tow for Japan about August 15. The Poltava and Peresviet, former Russian battleships, will leave in a week under their own steam.

The torpedo-boat destroyer Yayoi was successfully launched at Yokosuka to-day. Her dimensions and armament are similar to the class of destroyers now in course of construction at the naval yards of Japan.

A Serious Charge.

William Taylor Arrested for Threatening to Take Mrs. Wilder's Life

William Taylor of Chamberlain St. was arrested yesterday afternoon by P.C. Miller, on a charge of threatening to take the life of Mrs. Sarah B. Wilder of the same street. The prisoner claims that his arrest is due to disputes between the women of the different families. Shortly after his arrest, Taylor was admitted to bail in the sum of $200, himself in $100 and a surety for the same amount.

He will be able to explain matters to his Worship at this morning's court, which sits at nine o'clock.

Official Inspection

General and Divisional Superintendents of the C.P.R. Here on Business.

For the past two days, Messrs. H. P. Timmerman, general superintendent and A. McAuley, roadmaster of the C.P.R. have been inspecting the company's property here, using a motor car, which they have with them to go over the branch lines and sidings.

The inspection has been satisfactory and the visitors found everything in good shape.

They are accompanied by a private car which is stationed at the C.P.R. depot.

Smith Local Optionists are Discussed

Several letters have lately appeared in our local papers insinuating that the recent prosecutions against a local hotelman, were investigated and engineered by certain rivals in business. This publicity of so almost straight a charge has naturally started considerable talk on the streets regarding these prosecutions. There now seems almost a consensus of opinion that the charges against the hotelman in question were made at the instance of, and through pressure brought to bear by certain advocates of local option in the township of Smith. If these rumors be well founded it is about time for the Smith local optionists to reserve their superfluous energies for the conduct of their own affairs, as the local police authorities are well able to look after the town's law and mortality without aid from outsiders.

Weather Note.

Fine and warmer.

How Consumption Starts

Tired When You Wake--Languid All Day—Nerves Worn Out —Snap All Gone

Your limbs feel "draggy" and excessively weak. A night's sleep seldom brings satisfying rest. Continuous headaches, exhaustion and nervous sensations destroy your health. Soon every spark of vitality is used up. Then you catch tuberculosis.

Start to-day. Build up, get new nerve force, and overcome this process of decay. Use Ferrozone, which physicians consider the most vitalizing, uplifting tonic ever made.

Ferrozone cures because it can furnish the body with sufficient nutriment and building material.

Think of the instant effect—at once the appetite increases, delightful color in the cheeks proves that rich, red blood is being circulated. Tired muscles are invigorated, flesh and weight are added. Nerve force develops, and bounding, joyous health is firmly established.

This is certain—Ferrozone restores lasting strength from any cause. The experience of Mr. Thos. Dowd, of Schreiber, Ont., proves this:

"Household worries and cares had about exhausted my strength. I was weak and miserable. My cheeks lacked the color of health, and occasionally I had spells of rheumatism. Then my appetite fell off, and nothing could tempt me to eat. Worn-out feelings, chills and despondency filled my very being. I became anaemic and dwindled down to a shadow. Consumption was very near. Ferrozone put strength in my body with a rush. It built me up, strong, virile and happy, and I have been well ever since."

Ferrozone cures sickness by curing the real cause—lack of blood and nerve tone. It keeps people at their best—fit, ready and anxious for work. In 50c. boxes only, six for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

PETERBORO AUGUST 9 1905

HOW THE JAPANESE NEGOTIATE

On the eve of the peace conference it is interesting to recall the Japanese method of negotiation. There is only one example of this, the treaty of Shimonoseki in 1895. It may be said that Japan will not deal with a European power as she dealt with China. But why not? She has beaten Russia as badly as she beat China and the Russian empire is in nearly as great a state of demoralization and anarchy as China was in then. Moreover, the Russian method of negotiation by endless lying evasion and delay is very much like the Chinese. It seems rather natural that Japan should meet it in the same way.

We all know the story of how the Japanese envoys sent the first Chinese envoys home because their credentials were not satisfactory. When Li Hung Chang came with full powers and was received he asked for an armistice. Japan refused until peace negotiations should have made some progress and declared her terms. Li Hung Chang declared them impossible and Japan immediately prepared to renew the war.

All this took only three days, from March 21 to March 24. On that day a Japanese fanatic wounded the Chinese envoy. Covered with shame, Japan offered an unconditional armistice for twenty-one days as an atonement for the outrage. This was the only concession made in the whole negotiation and China owed it to the act of a madman. It is not likely that anyone in Portsmouth will take a pot shot at M. Witte.

The negotiation was resumed April 1. Proposals and counter proposals were made, each power demurring to many items in the terms proposed by the other. After ten days of sparring, Japan brought out her final terms, requiring a final and categorical reply within four days from April 10. From this time the Japanese envoys left all discussion to Li Hung Chang returning a curt and uniform "No" to every argument and appeal. The Chinese gave way on April 13 and the treaty was signed on April 17. This seems to be a promise of quick work at Portsmouth.

Some details of the debate are interesting. The Japanese talked in epigrams. Li Hung Chang claimed that the indemnity was too large. "If the war goes on it will be larger," said Marquis Ito. Li Hung Chang complained of the 5 per cent interest charged on deferred payments. "Pay at once and no interest will be charged," said Ito. Li Hung Chang asked to be allowed to dispute other points. Ito answered, "Dispute them if you like, our decision cannot be altered."

There is not much chance for lying, evasion and delay with negotiators who take this tone. We trust that M. Witte has a copy of the official minutes of the Shimonoseki debate with him on the steamer.

ADVERTISE IN THE TIMES.

The City Council

Reports of Board of Works and Finance Committee as Presented at Monday Night's Meeting

BOARD OF WORKS REPORT.

Ald. Adams presented the following report;

Gentlemen,—Your Board of Works beg leave to report as follows;

1. Tenders were received for crushing and delivering stone as follows;
R. Kennedy, $3 per cord.
John Gibson, $2.79 per cord.
T. A. Rehill, $2.85 per cord.
Your committee accepted Mr. Gibson's tender and authorized the solicitor to prepare an agreement with him, and to prepare a by-law to authorize the execution of the agreement.

2. We recommend that the petitions to have sewers constructed on the lanes between Park street and Boswell avenue, and between Boswell avenue and Pearl avenue, be accepted, provided an agreement is furnished, prepared by the city solicitor from Mrs. Elizabeth S. Burnham and Mrs. Elizabeth S. Boswell agreeing to pay half the cost of the sewer between Charlotte and King streets on Downie and Park streets from the points as designated by the city engineer where the sewer would strike Park street, where Downie street joins it to King St. When a sewer is constructed on that part of Downie and Park St. with an additional undertaking to purchase the debentures, issued at four per cent., at par for the work on the lanes as far as now laid out, and also for similar sewer work when the remainder of the park lots are laid out in streets and lanes to the boundary, provided the city solicitor is satisfied with it and provided the solicitor reports that laying the sewers on the lanes will not make the municipality responsible for accidents that might occur on the lanes.

3. We recommend that Mr. Willis Chipman be paid $200 on account of work in connection with the Ward Five sewer and outlet and sedimentation tank.

4. We recommend that the matter of purchasing sand necessary for building the granolithic sidewalks be left to the chairman of the Board, and that it be paid for on his certificate.

5. We recommend that a plank sidewalk of old material be laid on the east side of Park street from Wolfe street to Knox church.

6. We recommend that Mr. F. Bartlett be appointed inspector of the construction of sewers and sedimentation tank in Ward 5, and that he be paid $3 a day for each day that work is actually being done and inspector's services required, on the certificate of the City Engineer, and that his duties commence when he is notified by the chairman and engineer.

7. We recommend that the engineer be authorized to purchase sufficient gravel to repair the decks of the Brock street and Hunter street bridges, and have the bridges repaired.

8. The following petitions for the construction of granolithic sidewalks having been examined and found to be sufficiently signed, we recommend that they be granted.

On the east side of Park street, from Hunter street to Brock street.
On the south side of McDonnell street, from Downie street to Donegal street.
On the east side of Downie street, from McDonnell street to London street.
On the east side of Downie street, from Hunter street to Simcoe street.
On the east side of Dickson street, from McDonnell street to Murray street.

9. We examined a petition for the construction of a sewer as a local improvement on Brock street, from Downie street to Reid street, and it being sufficiently signed, we recommend that it be granted.

10. We recommend that the matter of purchasing gravel for use on the streets in Ward 5 be left to the chairman.

11. The agreement between the Peterborough Hydraulic Power Company and the city respecting the Dickson dam bridge having been executed, we instructed the Street Commissioners to repair the bridge for the use of foot passengers.

The report was adopted as read.

FINANCE REPORT.

Ald. Mason presented the following report;

Gentlemen,—Your Finance Committee beg leave to report as follows;—

1. Your committee received a letter through the City Solicitor for the arbitrators between the county and city with regard to the union of Ashburnham to the town, asking that the city put in any claim it may have before September 1st next, and we referred the matter to the chairman of this committee and Ald. Adams, to act with the solicitor.

2. We recommend that the following accounts be paid;

Wm. Hamilton Mnfg. Co.	$ 16 15
J. & W. Metheral	19 60
Adamson & Dobbin	6 24
The Peter Hamilton Co.	14 30
The China Hall Co.	50
Ormond & Walsh	7 75
Fitzgerald & Co.	12 60
Wm. Hetherington	5 70
Kingan Hardware Co.	13 30
B. Shortly	5 25
Tully, Merrell & Meredith	73 00
Roland Dense	5 75
Peterborough Hardware Co.	7 20
W. H. C. Higgins	13 75
Review Printing & Pub. Co.	28 70
County of Peterborough	90 00
T. Mitchell	40 00
N. Russaw	13 00
A. McDonald	500 25

Robert Fair & Co.	13 00
Duncan & Deuse	4 70
McCollum Bros.	13 00
W. H. Hill	4 00
Alexander & Miller	54 00

3. We recommend that the payment of the following accounts be confirmed, namely;—

Canadian Municipal Journal	$36 00
The Peterboro Light & Power Co	2 00

The report was adopted as read.

Ayer's Hair Vigor. Hair turning gray? Why not have all the early, rich color restored? Ayer's Hair Vigor will do this every time. Not a single failure. Stops falling hair also. J. C. Ayer Co., Lowell, Mass.

The Outing Magazine for August

During the fierce heat of August we try—if not bodily, at least mentally—to get away from frenzied finance, political strife, and all other nerve racking influences, and to do this we must read such matter as deals with the healthier side of life.

The Outing Magazine is pre-eminent in this field. The opening superbly illustrated article, When the River Calls, by L. D. Sherman recounts the pleasures of a canoe trip down the Connecticut and informs the thousands of would-be campers, who are going into the woods at this season of the year, just how it should be done. But trouts, and by far the vast majority, who can not escape from glaring streets, are not forgotten.

What an important institution the free public bath-houses along New York's water-front are, can be realized after reading The Bathers of the City, by Ralph D. Paine. Nearly three million baths were taken in three months last year at the absurdly small cost to the city of a trifle more than one cent a bath.

The Romance of Red Fox, like old wine, grows better as it grows older and is one of the strongest pieces of fiction Charles G. D. Roberts has yet done. The excitement, the charm and the dangers of mountain climbing are all vividly described by George D. Abraham, who also has many useful hints for the novice on where and how to climb and what kind of equipment is necessary.

All those who followed the events of the great international yacht race will be interested in reading Wilson Marshall's story of How the Emperor's Cup was Won as told to Arthur Goodrich, the Outing Magazine's representative in England. Mr. Marshall, owner of the Atlantic, went over as a passenger on his boat and made careful notes of the voyage.

Edwyn Sandys, under the punning title A fit of the Blues, pictures a day with two old salts and the gamy bluefish, ending up with a chaotic storm and a rescue.

In the great middle-West a veritable old-time miracle is being wrought on our great deserts where millions of acres of once barren sand wastes are transformed by irrigation into fertile farms and orchards. The Winning of the Desert, by Day Allen Willey gives some idea of what his work means to the farmer in increased output per acre and huge profits.

Automobiles according to H. P. Burchell are the greatest incentive to good roads that we have, as every year their importance as a means of country travel is becoming more evident. This article is illustrated by Edward Penfield in pen and ink.

This number of the Outing Magazine also contains a piece of humor by Crayton McCants, and a piece of tragedy by Wm. Macleod Raine—The Apache Kid—and the Regular School and College World, by Ralph D. Paine.

The Editor's View-Point is both timely and extensive, treating of the second expedition headed by Delon Wallace and sent by the magazine into Labrador, College and International Sports and other important topics.

How to work and feed your dog in summer; Make Poles, Slings and Chums; Rafts for Bathers, and take photographs at the sea-shore, are some of the practical articles that go to make up two most complete and fascinating number.

WEST & TRUAX, Wholesale Druggists, Toledo, O.
WALDING, KINNAN & MARVIN, Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75c. per bottle. Sold by all Druggists.

Hall's Family Pills are the best.

Loses $10.48

Mr. H. E. Smart, a Toronto gentleman who spent Sunday in this city, had the misfortune to lose a cheque for $210.48. It was made payable to him at the Bank of Commerce, Toronto, and he had endorsed it. Mr. Smart has taken precaution to notify the banks here of his loss, and in view of this fact it would appear useless for anyone finding the cheque to present it for payment, whereas if it was returned to its proper owner a suitable reward would be given.

WANTED

Doctor's Residence and Practice in Peterborough. Anyone desirous of selling kindly communicate at once. All correspondence strictly confidential.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 10 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

[2] If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

How to Visit Colorado

Go first to Denver. It is the State capital, as well as the largest, wealthiest and most metropolitan city between the Missouri River and the Pacific Coast. The city itself is very interesting, and from it start practically all the trains over the various roads into the mountains.

Many of the most enjoyable one-day trips in Colorado begin and end at Denver. The cost of these little journeys is not great.

After you have familiarized yourself with Denver and its surroundings will be soon enough to decide where to go for the rest of your visit. The question must be considered from several standpoints—altitude, hotel accommodations, accessibility, amusements, etc.

Our Colorado literature will help you in deciding where to go and what to do. Sent free for the asking.

Vacation Guide
To Vacation-Land

Each year several millions of people study and plan their summer's outing. Know any such, not far away?

This ad is for the undecided. Out in Colorado there are glorious times awaiting the vacation visitor. There are mountains to climb, burros to ride, fish to catch, games to play, trips to take and sights to see.

I have a booklet entitled "Under the Turquoise Sky," in which is told all about how pleasant, healthful and economical a sojourn in the ideal vacation-land may be. It gives a list of Colorado hotels and boarding houses, and tells how best to reach there—in fact it has eighty pages brimful of useful information.

Low rates to Colorado via the Rock Island in effect all summer long. Specially reduced on certain dates.

Use coupon below if you wish the book and information.

NERVOUS DEBILITY

OUR NEW METHOD TREATMENT will cure you, and make a man of you. Under its influence the brain becomes active, the blood purified so that all pimples, blotches and ulcers heal up; the nerves become strong as steel so that nervousness, bashfulness and despondency disappear; the eyes become bright, the face full and clear, energy returns to the body, and the moral, physical and sexual systems are invigorated; all drains cease—no more vital waste from the system. The various organs become natural and manly. You feel yourself a man and know marriage cannot be a failure. We invite all the afflicted to consult us confidentially and free of charge. Don't let quacks and fakirs rob you of your hard-earned dollars. WE WILL CURE YOU OR NO PAY.

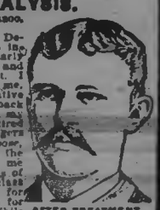
NO NAMES USED WITHOUT WRITTEN CONSENT.

THREATENED WITH PARALYSIS.

Peter E. Summers, of Kalamazoo, Mich., relates his experience:

"I was troubled with Nervous Debility for many years. I lay it to the discretion and excesses in early youth. I became very despondent and didn't care whether I worked or not. I imagined everybody who looked at me, guessed my secret. Imaginative dreams at night weakened me—my back ached, head pains in the back of my head, hands and feet were cold, tired in the morning, poor appetite, fingers were shaky, eyes blurred, hair loose, memory poor, etc. Numbness in the fingers set in and the doctor told me we feared paralysis. I took all kinds of medicines and tried many first-class physicians, wore an electric belt for three months, went to Mt. Clemens for baths, but received little benefit. While at Mt. Clemens I was induced to consult Drs. Kennedy & Kergan though I had lost all faith in doctors. Like a drowning man I commenced the New Method treatment and it saved my life. The improvement was like magic. I could feel the vigor going through my nerves. I was cured mentally, physically and sexually. I have sent them many patients and will continue to do so."

BEFORE TREATMENT



AFTER TREATMENT

CURES GUARANTEED OR NO PAY.

We treat and cure VARICOCELE, STRICTURE, NERVOUS DEBILITY, BLOOD DISEASES, URINARY COMPLAINTS, KIDNEY AND BLADDER DISEASES.

CONSULTATION FREE. BOOKS FREE. If unable to call write for a Question Blank for Home Treatment.

PETERBORO, ONTARIO

Mr. Geo. Wilson Dead.

Senior Editor of the Port Hope Guide Passes Away.

It was heard with deep regret by many of our readers that, after an illness extending over many months, Mr. George Wilson, for many years editor and proprietor of the Port Hope Daily Guide, has died at the ripe age of 81 years.

Mr. Wilson spent practically his lifetime in the newspaper business, which he made a success of. About a month ago his wife died, and he was so ill at that time that he was not told of her death until after her funeral.

The late Mr. Wilson was very highly respected in Port Hope, and wherever he was known, and the news of his death will be received with regret throughout the Dominion.

His four sons are in the newspaper business, two in Lindsay, one in Port Hope and one in Toronto. The funeral took place yesterday afternoon in Port Hope. The business will still be conducted by Mr. Wilson, Jr., who for some years has taken the active management.

Port Hope Accident

Car Containing Bones Falls From the Lofty Viaduct and is Totally Smashed.

On Sunday a peculiar accident barred all traffic for some time on the G.T.R. viaduct near the harbor. A brake-beam dropped on the wheel of a passing freight train and caused the wreck.

The train was just pulling onto the bridge when the accident happened. One of the cars was thrown across the opposite track on the viaduct, while another went clear of the structure and crashed to the street below, a drop of about twenty-five feet. The car was badly smashed by the fall, and its contents, a large quantity of old bones, were distributed over the street. A wrecking crew was summoned to the scene as five cars were derailed.

An Ennismore Fire

Mr. P. J. Scollard Loses His Sheds and Stables by Fire.

Mr. P. J. Scollard, of Ennismore, has had a heavy loss, not only in actual money represented but by the most unfortunate time of year for a farmer's, fire. Mr. Scollard who lives at the Cross, in the fertile township of Ennismore, was on Sunday the victim of fire through lighting during the heavy thunder storm that swept over this part of the country. A few minutes after the lightning struck Mr. Scollard's outbuildings they were wrapt in a seething mass of flames. The church bell was rung and a bucket brigade was formed, but their efforts were devoted largely to saving the house and store, the outbuildings being too far gone to save.

No definite information is available as to the extent of the loss, but it is understood that the sheds and stables, with the greater part of the contents are destroyed, and that there was no insurance.

Fortunately the dwelling and store were saved.

"303" Wins Again.

Mr. Milne Hamilton Wins Second Series in the Dennistoun Flag Contest.

As will be remembered by our readers, Mr. Milne Hamilton, in the Chemong Park yacht race for the pennant presented by Mr. Dennistoun, won the first of the series the previous week. On Saturday the second race of the series was sailed under favorable auspices, both as regards wind and interest exhibited by spectators.

Mr. Milne Hamilton, was again successful with his speedy craft "303" but Mr. Hopwood made it close with the "Arrow," only one minute and a half separating the two. Mr. R. M. Dennistoun's boat was third.

The course was six miles in length and triangular in shape, the first buoy being off the Government wharf the second near the floating bridge and the third near the Ennismore shore. There was a splendid breeze blowing from the northwest and the race was a most exciting one.

Return That Cat.

Mrs. Bradburn, 658 Bethune Street is Anxious to Get Back Her Kitten Stolen Recently.

Mrs. Cora Bradburn, who resides at 658 Bethune street, writes The Times to say that Saturday or Sunday evening, a little girl, accompanied by two ladies, carried away a kitten belonging to one of her little girls. Mrs. Bradburn says her little girl is in such distress over the loss of her cat, she would consider it a personal favor if the parties taking the kitten away would return it.

It may seem a small matter to give publicity in the public press, but parents of small children are well aware that the loss of a favorite pet is often the cause of more grief to little ones than a large sum of money would be to their elders. If the party who took this cat away still has it, she should return it to the address without delay. The little owner of the kitten has already called at many houses in her neighborhood seeking her pet.

FRENCH AND ENGLISH MONEY

It Is Helping China in Railway Development

Washington, Aug. 1.—Despite the disposition of China to build her railways without foreign aid, the State Department is calling attention to the foreign commercial ventures recently launched under British auspices. Last September, the American minister at Pekin, in reference to the Canton-Hankow Railway, communicated to the State Department the information that the Chinese government had promised that British and American capitalists should have preference, if foreign capital was found necessary in extending the railway to Chung King. The department states it is now in receipt of advice that English and French capitalists have come to an agreement with a view to joining in the construction line to Szechuan.

THE

Montgomery Mountain Mining Company

BULLFROG

promise to be one of the greatest producers yet discovered in the TONOPAH, GOLDFIELD BULLFROG DISTRICT.

This district records the greatest discovery of Gold that has ever been made in the history of mining

This Company is a legitimate Mining enterprise, managed by honest, capable mining men.

The property is on the Montgomery Mountain, adjoining the MONTGOMERY SHOSHONE mine, which has only been operated ten weeks and which is now

Shipping Ore that runs TWENTY-THREE HUNDRED DOLLARS to the Ton.

The Capital of the Company is $1,250,000, divided into 1,250,000 shares of a par value of $1.00 each fully paid and non-assessable, 300,000 shares of which are in the Treasury.

The Officers and Directors are

President and Treasurer, D. H. PERRY, Salt Lake City, formerly President of the Salt Lake Stock and Mining Exchange

Vice-President, Hon. JOHN SPARKS, Governor of Nevada.

Directors: D. E. HUFFLEY, General Passenger Agent, Ogden Short Line R. R., Salt Lake City; Hon. JOHN SPARKS, Governor of Nevada; E. E. EDWARDS, of the firm of Vermilyea, Edwards & Stanley, Attorneys-at-Law, Goldfield, Nevada.

The Company refers by permission to

McCormick & Co., Bankers, Salt Lake City; John S. Cook & Co., Goldfield, Nevada; Ormsby County Bank, Carson City, Goldfield & Tonopah, Nevada.

We believe this property and its stock will have an advance that will be as sensational as was the Original Tonopah immediately after its development.

We can supply orders for a limited number of shares at 75 cents per share. This price expires July 10th, after which it will be raised. For information or stock apply to Thos. Patterson & Co., Fiscal Agents, Peterborough, or.

D. D. PEERY COMPANY, Brokers, Goldfield, Nevada

APPEARANCE

Is such an important feature on the table. It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table.

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength

Brig[illegible] Disease

A Cur[illegible]ous Merit That Gi[illegible]t Effect Found at l[illegible]

[illegible] is more stealthy or [illegible] Bright's Disease. [illegible]ver it claims more victims [illegible] and war combined.

In the beginning it is marked by puffiness under the eyes, yellow, sallow skin and pain in the back. The urine becomes scanty, often contains sediment, causes great irritation and pain.

Reader, if you are troubled with these symptoms, get Dr. Hamilton's Pills at once. This vitalizing medicine will fast restore brilliance to your dull anxious eyes. Exhaustion will be replaced by surplus vigor. Your back pains and urinary disorders will cease.

Renewed life is put into the kidneys, and Bright's Disease passes away forever.

Permanent Cure in Every Case.

"I was stricken with Bright's disease two years ago," writes Mrs. G. E. Matthewson, Middletown. "I grew worse. Sugar was almost eleven per cent. and the doctors gave me up.

"After using Dr. Hamilton's Pills one week I began to mend.

"Dr. Hamilton's Pills have made a well woman of me, and I know others who have been cured also by this medicine."

Why suffer any longer? Dr. Hamilton's Pills will restore you to robust good health. No medicine in the world so efficient for diabetes, Bright's Disease and affection of the kidneys, liver and bladder. Price 25c. per box, or five boxes for $1, at all dealers, or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A. and Kingston, Ont.

To-day's Game

Turn out and see the semi-final championship game this afternoon between Peterboro and Midland. The locals must win, and the visitors are determined to take home victory. It will be a great game.

Millbrook Station to be Rebuilt.

Our readers will remember that Millbrook, a few months ago, suffered a severe loss in having its G.T.R. station completely destroyed by fire. Since that conflagration, the villagers have had to put up with a superannuated passenger car for transacting all the functions appertaining to station business.

This is soon however to give place to a modern station building upon the construction of which a force of fifteen men will begin work this week. It is to be surrounded by cement walks, and it will be in keeping with the handsome structures which the G.T.R. have along their lines.

$10--First of the Season--$10

Four special seashore excursions from Suspension Bridge, Niagara Falls, to Atlantic City, Cape May, Ocean City or Sea Isle City, via Lehigh Valley Railroad, July 11, August 4 and 11, and Sept. 1. Tickets only $10 for the round trip. Good 15 days. All trains via Philadelphia. Tickets allow stop-over returning. Tickets good on regular express trains leaving Suspension Bridge at 3.50 and 7.15 a.m., 6.30 and 10.15 p.m. For tickets, Pullman berths and further particulars, apply Robt. S. Lewis, Canadian Passenger Agent, 10 King street east, Toronto, Ont.

Peterborough Business College

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 80 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

WM. PRINGLE

Personal

—Mr. Kells in on a visit to Toronto.

—Ald. Leary was in Toronto yesterday on business.

—Mr. A. Stevenson left for Toronto yesterday morning.

—Mr. and Mrs. White left yesterday on a trip to Chicago.

—Mr. T. E. Bradburn, M.P.P., went to Toronto yesterday.

—Mr. W. Armstrong is spending his holidays up the Lk.

—Mr. and Mrs. E. J. Hickey are visiting friends in Port Hope.

—Mr. R. E. Layfield is taking a short trip through the lakes.

—Mr. Louis Potvin left yesterday to spend his holidays in Bracebridge.

—Mr. and Mrs. W. A. Creasmur went up the lakes yesterday for a short visit.

—Mr. Charles Frost is in Toronto on a short business and pleasure trip.

—Mr. Clifford Cornwell, of Toronto, is the guest of his sister, Mrs. F. J. Might.

—Miss Edna Hall, Toronto, is the guest of her friend, Miss Edna Pratt, Water street.

—Mr. Art. Graham returned to Toronto after spending the holiday with friends in the city.

—Mrs. Geo. Panter and son left yesterday morning to visit friends in Rochester and Watertown, N.Y.

—Miss Madge Davidson left yesterday on a trip to Collingwood, Go-Home Bay and Muskoka points.

—Senator John Dolson and Miss Flood of Lindsay, were in the city yesterday, guests at the Snowden House.

—Mr. W. J. Crossen, manager of the Crossen Car Company, Cobourg, who has been seriously ill for the past two weeks, is much better, and there are now fair chances of his ultimate recovery.

New Pictures. New Musical Selections. Great attractions at Jackson's Park to-night. Full car service both ways.

Cheap Rate to Toronto

On August 14th, Peterboro's Civic holiday, the Canadian Pacific Railway Company will issue tickets to Toronto and return at $2.45, and Niagara Falls and return at $7.20. Tickets good going only on train leaving Peterboro at 8 a.m., connecting with boat leaving Toronto at 11 a.m. Toronto tickets good returning August 15th. Niagara Falls tickets good returning August 16th. For tickets and all information see W. McIlroy, City Passenger Agent, 393 George street.

Second Bowler Personall Conducted Excursion.

To California and Lewis Clark Exposition, Portland, Oregon, August 29th to Sept. 24th, 1905. $150 including transportation, meals in Dining Car, sleeping car accommodation on train and at hotels for above period. As party will be limited to 125, early reservation is necessary. For full particulars call on Grand Trunk agents, or address E. C. Bowler, Room 308 Union Station, Toronto.

Mr. Kerr Grateful to St. Joseph's

Mr. George Kerr of Toronto, whose wife has been ill in St. Joseph's Hospital for the past two weeks, and who himself has been in the city during this past few days, returned home last night. He wishes to take this opportunity of thanking the nurses of the hospital for their kind attention to his wife, who has been under treatment in that institution for the past fortnight, and who is improving satisfactorily under their care.

Mr. Moore Leaves To-day for Buffalo

Mr. S. S. Moore, recently city editor of the Evening Review leaves this morning to accept an important position on the editorial staff of the Buffalo Courier. Mr. Moore is a well posted, versatile and hustling member of the fraternity of journalists, and will probably make his mark in the newspaper world of the United States. He takes with him the best wishes of many friends and admirers who hope confidently to hear of his future success.

New Pictures. New Musical Selections. Great attractions at Jackson's Park to-night. Full car service both ways.

7½ Per Cent. of Taxes Paid

The taxes this year are coming in very satisfactorily, as Tax Collector W. J. Green reports that he has already collected $81,830.45 of taxes, out of the $114,000 on the roll. This is over 71 per cent. of the taxes, and the showing is a remarkably good one, indicating as it does that the people prefer to pay their taxes and get the two per cent. discount for the amount paid before August 1. The showing this year is the best proportionately, in the history of the town, the people apparently being in a better financial position than they have ever been before.

Local Incidents

AT THE TIMES MAN ON THE STREET.

—The steam road roller is at work on Brock street hill.

—The next sittings of the Division Court will be held in Peterboro on Friday, September 8th.

—A party of eight Peterboro people who have spent the last two days huckle berry picking back of Buckhorn, have returned with over one hundred quarts.

New Pictures. New Musical Selections. Great attractions at Jackson's Park to-night. Full car service both ways.

—Messrs. J. J. Turner & Sons have been awarded the contract for decorating the town of Paris in honor of the Old Boys' Reunion on August 14th and 15th.

—Mr. C. W. Scott, formerly of Messrs. Coulthart, Scott & Co., Oshawa, but now License Commissioner of South Ontario, was in the city yesterday, a guest at the Oriental.

—The fall assizes, jury sittings, will be held in Peterboro on Monday, October 9th, Hon. Mr. Justice Street presiding. The non-jury sittings will be held on Monday, November 13th, Chief Justice Sir William Meredith presiding.

BAD BLOOD

Reveals itself in many ways. Sometimes the impurities in the blood mark and mar the skin with blotches, pimples, boils or other eruptions. Sometimes the result of bad blood is rheumatism or a debilitated condition which is popularly described as

"feeling played out, hardly able to drag myself around."

The impurities and poisons which corrupt the blood, clog the liver and cloud the skin are removed by the use of Doctor Pierce's Golden Medical Discovery. It does more than eliminate the poisons; it increases the activity of the blood-making glands so that there is an increased supply of pure, body-building blood. It brightens the eyes, cleanses the skin, and gives new, physical energy.

Accept no substitute for Dr. Pierce's Golden Medical Discovery.

"I thank God for the good your medicines have done me," writes Mr. James M. Sizemore, of Mitchell, Lawrence Co., Ind., Box 501. "I was not well for two years. My throat was always sore, head ached, and back ached nearly all the time. My weight was 155 pounds. I was taken sick with typhoid fever, and when the fever left me I had such a pain in my left side I could not breathe without pain. I thought I must die. My wife went to the drug store and procured a bottle of Dr. Pierce's Golden Medical Discovery and a vial of his 'Pleasant Pellets.' I discontinued the use of my doctor's medicine and began with the 'Golden Medical Discovery' and 'Pellets.' I at once began to feel better; the pain soon left my side and I could breathe with ease. In a week or so I felt so good I could not stay in the room. I began to walk about the streets; I felt better each morning. After a month's use of the medicine I was well. That was over a year ago. Now I weigh 184 pounds and feel better than ever in my life."

Dr. Pierce's Pleasant Pellets cure constipation.

—There was a large crowd in attendance at Jackson Park last evening to see the new series of moving pictures. Some of the views were amusing. The 57th Band rendered good music.

—A lady visitor to the city yesterday, whilst getting off a Charlotte street car after her very evidently first ride on such a conveyance, asked the conductor, "How do you get to where the steamboat starts; is it down somewhere near them big pig pens?"

—The City of Peterboro yesterday brought up a large crowd of excursionists from Hastings on the annual picnic of St. George's church. The visitors were taken over the lift lock, and spent a few hours in the city. Yesterday was Hastings' civic holiday, and the excursionists thoroughly enjoyed the outing.

House-Moving By-Law

(To the Editor of The Times.)

Dear Sir,—Please allow me space in the columns of your paper to refer to the House Moving By-law presented to the council by Alderman Crowe.

In the first place he wants permission to be given by the chairman of the Street and Bridge Committee for the removal of buildings along the streets, which to my mind is all right.

The next item is the time limit which no one can exactly count on, as in moving buildings the time limit is mostly guess work.

The next item is the obstruction on the streets caused by the moving of these buildings. Can Alderman Crowe, or any other member of the council, complain of any trouble having been caused through me by the removal of any building on the public highway? The greatest care has always been taken by me to prevent any obstruction or damage to the streets.

There is one question I wish to refer to; Has the publice ever been put to any inconvenience by the putting down of sewers, waterworks, street car tracks, sidewalks, etc.? In looking over the list of buildings which I have moved in the town of Peterboro and Ashburnham, the corporation is reaping the benefit of over $100,000 assessment, whereas if they had not been moved may have been destroyed and brought no value to the town.

When Alderman Crowe was seeking the position he now holds in the council he professed to be a friend of the laborer and to do his best to promote their interests. Will this tax help them?

Trusting that other members of the council will do justice to the by-law.

I am, yours truly,
A. McCARTHY.

STREET CAR TRACK COMPLAINT

(To the Editor of The Times.)

Dear Sir,—I wish you would let me have the use of your paper to draw attention to a neglect of the Street Railway people. Every one knows that the company is now run pretty well, and that they are making good money, as they are making money, and got their privilege from the town very cheap, they should be made to do a little to protect the drivers and carts that use the streets and have as much right to the streets as them. In many places their tracks are standing two or three inches above the level of the road so that a cart or waggon having to cross the tracks is in danger of having its wheels ripped off or axles broken whenever the track is crossed. The council should make the railway authorities keep their tracks on a level with the street, so rigs could cross the tracks without having their wheels in danger.

Yours truly,
DRIVER.

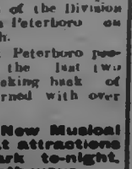
Police Court



OFFICIALS

Chief of Police, G.L. Reed
Magistrate [illegible]

The only case brought before the Magistrate yesterday morning, was that of a local marble cutter who had been "on a bender" last week, and who made night hideous by his hilarity and loud voiced cuss words. The L.M.C. pleaded guilty and enriched the city's finances to the tune of $6.15. These jags may be fun whilst they last but the harvests come with regularity and expense.

There is to be still another hint given those local hotelmen who do not seem to think the license law is made to be observed, that this connection of the sort is erroneous. A Hunter street hotelman will have to answer a charge of selling to minors on Friday next.

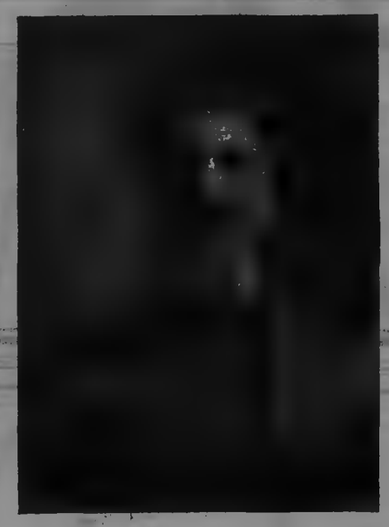
TEN YEARS



The Story of My Wonderful Success.

Reads Like a Fairy Tale-Yet Full of Convincing Truths

An Opportunity of a Lifetime for the Investor.

TAKE ADVANTAGE OF IT.

I ask every reader of this paper to write me I want to send you my free book entitled "Ten Years"—"The Story of My Wonderful Success." It tells about one of the greatest and most promising investment opportunities ever offered. It tells how my business grew from less than $25 00 capital to its present proportions.

I believe I have the best proposition from an investor's standpoint that could be placed before you. For ten years I have been teaching men and women to live according to the laws of Nature My book is the history of my life. It shows what energy and ambition can accomplish in the world of affairs. It is intensely interesting to any man or woman who has a few dollars to invest in a legitimate enterprise

I started business in the City of Brooklyn in 1896. My capital amounted to less than $25 00. My first year's business netted me over $1,000 00. Last year I paid dividends to my partners of 15 per cent. Five years ago my business had grown so large that I was compelled to remove to larger quarters. I am now at 63-65 Clark St., Brooklyn, N.Y.—in connection with Hotel St. George. Experts pronounce my institution to be the best appointed of its kind in the country. I estimate the equipment of the Mac Levy Institute of Physical Culture to be worth at least $40,000 00.

I want to have a building of my own that will enable me to accommodate my increasing business. To erect this building I need capital, but more important than this to increase my business to the proportions which I desire, I need the co-operation of men and women thr ughout the country and the world.

Co-operation is the Secret of Success

I recognize it. I believe that with thousands of co-operators throughout the country I can build my business to tremendous proportions to the benefit of the shareholders and myself.

The Mac Levy Company is incorporated under the laws of New York for $150,000.00. They are proprietors of The Mac Levy Institute of Physical Culture and The Mac Levy Gymnasium Equipment Company.

The last named branch of the business of the Mac Levy Company is comparatively new. I have been at work for several years to establish such a department in connection with teaching Physical Culture. The most difficult part of forming the Equipment Company has been accomplished. The business is now in condition to be pushed on a large scale. Hundreds of thousands of dollars are spent yearly on new gymnasiums and their equipment. The profits are large. A company of this kind has an immense field in which to work. Competition is slight. It is evident that the Mac Levy Gymnasium Equipment Company can build an enormous business.

The Mac Levy Company operates during the summer months at Steeplechase Park, Coney Island, and at Averne Hotel, Averne-by-the-Sea, L. I., as well as at our Brooklyn Institute. I also does an extensive mail business, I teach people how they should live and exercise My students are scattered all over the United States, and in English speaking countries.

A PROBLEM

which arrises in the minds of every man and woman is how to secure a comfortable income in the earlier years of their life, that they may reap the full benefits which such an income affords.

I have long thought that there are hundreds of people in moderate circumstances who would like to invest a few dollars in an Institution of this kind. It is to such people that I intend this announcement shall appeal I am offering a block of the Treasury Stock of this company to the public at its par value. My reasons for doing this are that I wish to erect a building and to extend the business of The Mac Levy Institute of Physical Culture and The Mac Levy Gymnasium Equipment Company.

I WANT YOU AS MY PARTNER

I need your help and suggestion. I want you to work with me and help me to secure a tremendous amount of new business.

I believe that if you could talk with me personally and go over the records of the business which I have done, see in black and white the figures which show the steady growth my business has experienced during the past ten years, examine my plans for future extension, and then look over the magnificient equipment of my Institute, and would want no further evidence that money put into my business would bring you the greatest possible returns consistent with safety and good management.

I ask you to write for my free book. I believe it will interest you. You have a few dollars tha you want to invest. Why let it stand idle earning only 3 or 4 per cent that Savings Bank pay their depositors? Put it to work. Join it with mine. This Company ought to pay at least.

TWENTY PER CENT. DIVIDENDS

within one year.

Write for my book to-day. NOW.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL. XXXIII, NO. 187 PETERBORO, ONTARIO, THURSDAY, AUGUST 10, 1905. PRICE TWO CENTS

No Armistice Granted, Japan Won't Agree.

Peace Conference Opened To-day, but Japan, with England's Approval, Won't Agree to a Truce--Need a President.

Portsmouth, N.H., Aug. 9 — The first session of the peace conference between the Russian and Japanese plenipotentiaries has concluded. The meeting lasted about one hour, during which time the credentials of each mission were examined respectively by the other. The credentials were found to be entirely satisfactory.

The only other business transacted was the agreement upon a program for future sessions. The next meeting will be held to-morrow at 9.30 a.m..

JAPANESE LEFT FIRST.

After the conference the envoys spent some time in their respective offices, leaving the General Stores building shortly after noon. They returned to Newcastle by launch. Baron Komura and Mr. Takahura were the first to leave the navy yard landing. The Russians followed shortly afterward, the trip to the hotel landing being made by the Russians and the Japanese in separate boats.

USE FRENCH AND ENGLISH.

The envoys have agreed that the English and French languages shall be used jointly and that the official minutes of the meeting shall be recorded in both languages. The official details of the daily program have not yet been made public.

EVERYTHING SATISFACTORY.

A correspondent of The Associated Press was received by one of the plenipotentiaries within ten minutes after the missions returned to Newcastle, and in reply to questions about the conference he said: "You can say that this morning's session was entirely satisfactory, far as it went. Our next meeting will be held tomorrow morning. Provided all goes well we will get down to business then."

"Terms were not discussed at today's meeting."

Portsmouth, N.H., Aug. 10. — No day which was to bring the initial meeting of Russian and Japanese peace plenipotentiaries at the navy yard here began delightfully as far as weather conditions were concerned. The sun rose in a clear sky, and although there was a prospect of the usual heat of August, there also was a promise of relief from the cool breeze. The members of both the Russian and Japanese missions were early around the table, and with the exception of M. Witte and Baron Rosen breakfasted in the main dining-room. As several of the Russians were coming out of the dining-room this morning they met two of the Japanese entering. They exchanged profound bows, but did not shake hands.

With the approach of the hour of meeting the feeling became more pronounced than before that an armistice would not be agreed upon until the success of the negotiations was assured. The known opposition of Japan to this formality and the hearty support which London is understood to have given Tokio, it is believed, has operated to minimize the wish of the Russians for a signed truce. Another cause for their willingness not to press for an armistice at the first meeting is believed to be the recent opposition said to have manifested itself among the Russian forces at the front against peace negotiations. It is felt that to ask them to sign a truce might have a bad effect upon their their spirits and serve to increase their opposition to the ending of the war.

A Disgusted Old Boy.

Boys and Men Bathing in Little Lake and Otonabee River in Nude Condition.

(To the Editor of The Times.)

Dear Sir,—Myself and several ladies and gentlemen visited the "old town" with the "Old Boys' Association" from Toronto. Several of our party had never been in Peterboro before. The gentlemen of the party undertook to show these strangers over taking in the city, we engaged canoes for a paddle on the river. We had but got nicely started when to our surprise we came across a lot of naked boys and men standing up on an old scow. When they saw us they made no effort at all to hide their nakedness, so we paddled away from this lot across the river, and ran into the same thing over there. I am sorry to say that all along both banks of the river, from Hunter street bridge to the lower lock, these naked bathers stood. Sunday our party visited the cemetery, and even out there we ran across the same disgusting sight. Monday we visited the baseball grounds to witness the ball game, thinking all the time we would at least spend our last day in Peterboro without encountering these low degraded beasts who think so little of themselves, or any one else, when to our surprise and horror, not fifty yards from the ball grounds stood six or seven nude men, in plain view of several hundred ladies and gentlemen who went to see the game. Peterboro is certainly no place to bring strangers to. Just to think of such disgraceful scenes, and at any time of the day before hundreds of visitors to our town, who certainly will form a very high opinion of our morality department, if there is any. I have travelled from one end of Canada to the other, and I am ashamed to say that my old town is the only onethat I know of that allows such disgraceful habits in broad daylight. I had heard this thing discussed several times in Toronto, but would not believe it, but now I have to after my last couple of days there. Is there no law in the town to prevent this. If not, something should be done at once. I felt so ashamed, after praising up the "old town" and inviting a party of friends down to show them the city, to run into such as I have just stated. At any rate, I for one, will not visit Peterborough again with friends until I know that I can go around in broad daylight without coming across such disgusting scenes as I have witnessed this last couple of days.

AN OLD BOY.

P.S.—Mr. Editor, you can publish this letter or not. If you do not care to do so, I wish you, for the good name of the town bring this matter before the proper authorities attention, and enforce men bathing in broad daylight in the center of the city to wear bathing suits, for it certainly was very embarrassing and disgusting to visitors to see the sights we were compelled to witness this last couple of days while in Peterboro.

Toronto, August 8th, 1905.

Wealth for Investors

Company Now Formed to Produce Chemicals Greatly in Demand

In these days of rapidly made fortunes there are good opportunities open to all men of intelligence. Nature has been bountiful in her supply of the raw materials, the production of which has put fortunes to the credit of those finding and developing the sources of nature's gifts. It is a well known story of the wealth that coal and oil have produced, but the by-products of both coal and oil are only beginning to be understood and successfully utilized. The Western Coal and Chemical Co., incorporated under the laws of Oklahoma, with head offices at Deadwood, So. Dakota, have an illimitable future before them. This company has been formed and incorporated to mine and deal in coal, oil and their by-products, with special reference to operating the valuable coal and oil lands in the State of Wyoming. This greatest source of future wealth will, however, be in the production of Cyanide of Potassium, on a large scale, from the waste products of coal and oil, by the use of the cheap fuel so abundantly present in the immediate neighborhood of their works. They will also make Chlorine in immense quantities at nominal cost from hitherto wasted by-products, and, as chlorine is now used in quantities, more noted for demand than supply, in reducing gold ores it is easily to be seen, that chlorine produced right among western gold mines, will be a paying proposition.

As is well known to our readers, the old time vegetable dies have now been superceded almost entirely by aniline dyes, made from coal tar; these aniline dyes will also form a large percentage of the products of this Western Coal and Chemical Company.

Cyanide today sells at from 22 to 25 cents per pound. The cost of producing cyanide, by this company at the coal fields will be about 9 cents per pound, leaving not only a great margin of profit, but a by-product in course of manufacture, that will also be of great value.

In the Black Hills mines alone 5000 pounds of chlorine is used every day; this would net the company a profit of $700 a day from one district alone. The company are now offering 2,000,000 shares of this stock, full paid and non-assessable, with no preferred stock, at $1.00 per share. For full particulars intending investors should communicate with Engelkardt & Dr Ruyel, Commercial Bank Bldg., 175 Dearborn St., Chicago, Ill.

Horse Kicked Her

Woodstock, Aug. 9.—Margaret Elva, the five-year-old niece and adopted daughter of Mr. and Mrs. James Hutson, went out alone in a field, near Innerkip, where some horses were pastured. She approached too near one, and it kicked her, striking her with terrible force on the head just above the ear, crushing in her skull and killing her.

A Good Program

Chemong Regatta for Aug. 22 Promises to Exceed All Records

Great interest is being taken throughout the city over the coming regatta at Chemong, to be held on Tuesday, Aug. 22d. The races are timed to begin at 1.30, and in the canoe races, a very sensible stipulation says that racing machines are debarred, only the regular style of usual canoe being accepted.

Several prizes have been donated by Commodore Macomb, Messrs. R. M. Denniston, Felix Wolf, R. M. Roy, Alex. Elliott, W. H. Hill, C.S. McClelland, G. H. Bull and other residents of Chemong Park.

The program is as follows:

Canoe sailing race—For open canoes single sail with lee boards and without rudder.

Canoe paddling, men's tandem.

Canoe paddling, ladies' tandem.

Canoe paddling, boys 16 years and under.

Canoe paddling, mixed tandem.

Rowing skiff, men's singles.

Dinghy race, special prize offered by Commodore Macomb.

Open sculling race—For Chemong Park challenge flag. Winner will receive a dated pennant.

Canoe paddling, men's single.

Canoe paddling, ladies' single.

Hurry scurry race.

Gasoline launches, 18 feet and under.

Gasoline launches over 18 feet.

Boys' swimming race, 16 years and under.

Crab race.

I.O.O.F. Grand Lodge,

Large Attendance of Delegates Hear Most Encouraging Financial Statement.

The Grand Lodge of the Independent Order of Oddfellows is now in executive session at Brockville. Yesterday the session opened, a large list of grand officers being present.

A hearty welcome to delegates was given by Lieut.-Col. Cole, P.G.M., in which he noted the grand progress of the order in Ontario, and concluded by introducing Mayor Stewart, who extended to the patriarchs the freedom of the city.

An address of welcome was also presented on behalf of Brock Encampment, Brockville. The Grand Patriarch replied, and the session was proceeded with. Telegrams of fraternal greetings were ordered to be sent to the Grand Encampment of the Maritime Provinces, at present in session at Halifax, N.S., and to the Grand Lodge of the Knights of Pythias, who are in session this week at London, Ont.

ENCOURAGIGN REPORTS.

The reports of the Grand Patriarchs, and Grand Scribe and Grand Treasurer were all of an encouraging character. The total membership is 4,412, against 229 when the Encampment met here first in 1870. The sum of $3,791.60 was paid out in relief. The invested sums of subordinates is $23,909.02, and the annual revenue is $10,601.62.

The financial statement for the year ending December 31st, 1904, showed total receipts, including a balance on hand at the end of the year of $316.31. For attendance at the last session of the Grand Encampment the representatives were paid in milage and per diem $657.05. The only other large item is $400, the salary of the Grand Scribe.

The election of grand officers was then held. Bro. G. C. Mortimer, Toronto, being elected Grand Patriarch.

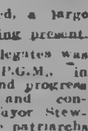
Peterboro does not seem to have held much place among the nominees for the grand officers, but this perhaps will be rectified by having this city named as the next meeting place.

Police Court

OFFICIALS

Chief of Police, C.I. Read

Magistrate, D.W. Dumble



Yesterday's court gave great amusement to the audience over a general laundry of soiled family linen. William Taylor, of 17 Chamberlain street, was charged by Mrs. Wilder, of No. 7, on the same street, with having threatened to kill her.

When the evidence came to be heard it showed that the whole matter resolved itself into one of those family disputes that will occur among neighbors in the suburbs of any town or city.

Mrs. Wilder, formerly Mrs. Hartley, was the first witness. She said that on August 7th she was digging potatoes in the garden back of her house at 7 Chamberlain street, along with her two children, a little girl and younger boy. Taylor was in his own yard adjoining. Taylor's hens were in her garden. Said her little boy to drive the hens out, which he did. Taylor came to the edge of her place. Called her a —— and said to his wife, "Can't you chase her in?" Mrs. Taylor chased her into the kitchen door of her own home at No. 7. Mrs. Taylor called her profane names and she shut the door in her own face. Taylor said, "I will burn both you and your shack." While Mrs. Wilder gave her evidence Mrs Taylor kept up an audible fire of remarks, largely composed of audible sniffs and "I'll show you." "Now you'll get it." The little Hartley girl gave evidence somewhat corroborative of what preceding witness had said.

Taylor, in evidence, said he told the little boy he (the boy), had stolen his onions and eggs. Taylor said since Mrs. Wilder came to the place she had been a regular nuisance. The river-drivers and other men came to his house at night asking for Mrs. Hartley's house. He emphatically denied using the language Mrs. Wilder attributed to him.

Mrs. Taylor grew very indignant over some of Mrs. Wilder's evidence. Said her husband did not threaten to burn Mrs. Wilder's shack, adding with outstretching yoke, and outstretched index finger pointed at the first witness, "Your old shack is not worth burning or you either. I am honest and work for my living, thank God. I don't have to reb my neighbor's garden!"

His Worship said that whilst Mrs. Wilder might be telling the truth as to Taylor's threats, both Taylor and his wife denied it under oath.

Mrs. Wilder or Hartley demanded that Taylor be bonded over to keep the peace, but his Worship did not seem to think this necessary. Whereupon Taylor asked for a warrant for Mrs. Wilders little boys arrest for robbing his garden and hen roost of eggs, but his Worship also denied this request saying the matter was too old. If ever any gentleman is in the position of being arbitrator between two angry women each seeming keen to have a handful of the others hair in her grasp, he could sympathize with the presiding magistrate yesterday. When the case had been decided and an adjournment of the court declared, the two ladies, who had, according to the evidence, and as strenuously denied by each, used language and names not usually found in works of polite etiquette, or Lord Chesterfield's letters, glared at one another and bandied personal remarks.

To save what looked like coming personal violence, P. C. Miller with good tact got the ladies to leave the court room by different doors.

It is anticipated that yesterday's trial will lead to further developments and counter charges.

After yesterday's court a lady living on Romaine street came to the police station and laid a charge of Sabbath desecration against certain young men living on her street, having it in particularly for a young man working in a local printing office. The charges run from card playing to remarks made to ladies passing along Romaine street on the Lord's day. The complainant is deadly in earnest, saying, "I have stood it as long as I can and it has got to stop."

Local Editor Honored

Mr. S. S. Moore, City Editor of The Review, Presented with Valable Locket.

As noted in yesterday's issue of The Times, Mr. S. S. Moore, who has so capably managed the local department of our esteemed contemporary the Evening Review, left yesterday for Buffalo, N.Y., to assume a responsible position on the editorial staff of the Buffalo Courier.

Mr. Moore, who has been very popular with both officials and employes of the Review was previous to his departure presented by the latter with a valuable gold locket.

The following appreciative address was read by Ald. T. J. Belgey while at the proper moment Mr. James Browne presented Mr. Moore, with the locket which was suitably engraved—

S. S. Moore, Esq.,

City Editor, The Daily Review,
Peterboro, Ont.

Dear Sir,—

We, the undersigned employes of the Review office, Peterboro, desire to express to you, in some tangible manner, our regard for you, and our regret that the pleasant relations of the past few years are to be changed by your removal to Buffalo.

We hope that you will find much honor and reward in the years to come, and that you will not altogether forget your friends on this side of the line.

We hope that when you wear this locket that it will bring to mind our hard fought battles on the field of sport.

May the best of your past be the worst of your future is our earnest desire and hope, and may the familiar phrase "Put me off at Buffalo" be your introduction to an agreeable and lucrative field of work.

Signed on behalf of the employes.

Mr. Moore was very much taken by surprise, but thanked the donors for their kind gift and address and expressed his regret at having to sever his connection with the Review employes. He assured them that he would not forget Peterboro or them.

GENERAL SPORTING GOSSIP

THE TURF—BASEBALL—LACROSSE—FOOTBALL

The Local Lacrosse Team Run Up a Big Score in the Semi-final Championship Game with Midland Yesterday Afternoon.

Peterboro won the first home semi-final championship game from Midland yesterday afternoon by a good margin, defeating their opponents by a score of ten goals to two, thereby giving them a good lead for the return match, which the visitors will have to travel at a rapid pace to overcome. But the fact that they will be playing on their own field at home counts considerably in their favor of pulling down the local's lead of nine goals in fact the visitors are tooted to be the "whole cheese" in their own back yard, and do not feel at all dismayed over yesterday's defeat.

It was remarked by a number of the players and quite confidently too, that they had good material at home, who would reinforce them on Monday, being unable to get away for the game here.

The management of the Peterboro lacrosse team are aware of the strength of the visitors on their own grounds, and will run a large excursion to Midland on Civic Holiday, the date of the return game. A cheap rate of $1.35 has been secured, and a big bunch is sure to accompany the team.

The crowd of spectators at yesterday's game was not so large as it should have been, but all went away satisfied. It was Peterboro all the way, especially in the first two quarters when the locals piled up a score of seven goals with Midland holding the circle—0. In these two quarters the locals played good lacrosse, but from this on, a number of the players showed lack of practice and did not play a snappy game. The visitors, however, were never considered dangerous as the Peterboro defence were certainly stonewall. Seldom did the rubber pass Donovan or Meagher on the defence, although Morgan got a few chances to warm up. The only goal netted by Midland was in the third quarter by a long shot from centre, McIntyre piercing the net, otherwise, O'Brien, in the goal for the locals had little to do, having but two or three difficult shots to stop.

From the face-off the ball travelled to Midland territory, and Stroud, Cavanah and Glover all had a pick at the net, but their shots were high or to the side, however, before three minutes actual play, Glover had scored on a pass from Judd.

In two and a half minutes Peterboro added another, McCabe doing the needful in a pass from Cavanah. This ended the scoring in the first quarter, 2—0. In the second quarter they came faster, the locals getting five while the visitors still squeezed the circle 0. McGrath made a nice pass to Glover, who scored in 1 1-2 minutes. McCabe scored on a pass from McGrath in one minute; Glover from McCabe in two minutes, Judd on pass from Glover one minute, McCabe from Judd five minutes, making a total of five goals, leaving the score 7—0 at half time. Only once in the first half, was O'Brien called upon to stop any dangerous shots, and that occasion was when Shaffer drove one at him from the side but it was taken care of.

In the last half the locals' combination and shooting was a little ragged, the result of need of practice. The visitors were completely demoralized as regards combination in the first half, partly because the Peterboros were playing too fast acrosse, but during the remainder of the game, especially in the 3rd quarter, when McIntyre, who was very conspicuous throughout the match, scored the visitors' first and only goal, they got into the game, and showed a marked improvement in their passing. The locals were held down to one goal in this quarter, McCabe scoring, and two in the last, Glover and McCabe doing the trick. Score 10—1.

For the visitors, Jock in goal, McIntyre, Shaffer and Coon were the pick.

Following was the line-up:

Midland.		Peterboro
Jock	Goal.	O'Brien
Aiken	Point.	Morgan
Gould	Cover-Point.	Meagher
McIntyre	Defence.	Donovan
McLaughlin		Mein
McFarland		Crowley
Hanley	Center	McGrath
Shaffer	Home Field	Judd
Thompson		Cavanah
Cook	Inside.	McCabe
Brown	Outside.	Stroud
Coon		Glover

Referee—Menniek, Orillia. Goal Umpires—Kempt and Davidson.

Field Captain—Peterboro, George Lynch.

THE PEACE SITUATION AS RUSSIA SEES IT.

The Japanese and Russian peace plenipotentiaries were introduced to one another by President Roosevelt on Saturday. Yesterday they arrived at Portsmouth, N.H., where the momentous issues of peace and war will be decided, and to-day they are meeting in actual conference and examining each others credentials. The result of this effort to settle the most bloody, war in history no one can positively forecast.

When the world first heard of the Czar's willingness to discuss these terms people were inclined to be cynical and pessimistic—Russia was only sparring for time, and would need a more terrible whipping before she would listen to reason; Japan would enforce her own terms with her strong right arm. The more hopeful feeling that succeeded this dubiousness has again given place to doubt, and while the world prays for peace it remains skeptical.

The probability of peace, however, appears to be reasonably bright. The arguments that must be urging Russia to come to terms may be stated thus;

Financiers more willing to loan her money to pay indemnity than to prosecute war, which cannot be long continued without more funds.

Command of the sea forever lost, and the chances of success on land at the vanishing point.

Impossibility of recovering lost ground for years, which could not be accomplished until the Siberian Railway is double-tracked and without an army of a million and a half men.

Probability of losing Harbin, Vladivostock, and portions of her Siberian Railway and Asiatic empire, after an overwhelming defeat of her army, if war is not soon terminated.

Need of reforms at home.

Opposed to these are many considerations that may tend to incline Russia to try once more. While not so weighty, perhaps, they may appear important to Russians. They may be stated thus;

Army in field, now greatly reinforced, has never fought a battle with General Linevitch in command.

If defeated army could withdraw toward Russia, where Japanese could not follow, Russia could then resume the war when she felt strong enough to succeed.

Japan, hitherto successful, is really feeling the financial and physical strain, and must soon become exhausted.

Return home of hundreds of thousands of troops, defeated and discontented, saturated with revolutionary ideas, would disarrange industrial conditions, and possibly precipitate civil war.

Russia, it will be seen, finds herself between the devil and the deep blue sea. No wonder she lacks decision.

U. S. Churches to Unite as One Body

Protestant Forces of America May be Marshalled in One Monster Army--Denominations Representing 18 Million Communicants to Hold Conference.

New York, Aug. 10.—Twenty-four religious denominations, containing 18,000,000,000 communicants have each appointed from five to fifty delegates to meet in this city on Nov. 15 to take part in an interchurch conference on federation. The meeting will be held in Carnegie Hall for a week, the object being the federation of the Protestant forces in America. President Roosevelt has expressed his sympathy with the movement, and it is expected that one or more members of his Cabinet will be able to take part in the discussions of the conference.

The many speakers on the program and the presiding officers include five bishops of the Protestant Episcopal Church, six bishops of the Methodist Episcopal Church, a bishop of the Reformed Episcopal Church a bishop of the Moravian body, representatives of the Presbyterian, Congregational, Baptist, and other denominations, two U.S. Supreme Court Justices, two Judges of State Courts, a U.S. Senator, a Congressman, a Governor, a Mayor, and several college presidents, and professors, editors, and ministers.

SUBJECTS TO BE DISCUSSED.

Among the issues to be brought before the Church and nation by the conference are religious education, the social order, evangelization, home and foreign missions, the fellowship of faith, the national life, and Christian progress. Besides declaring faith in the essential unity of the Protestant churches, several speakers will rehearse the practical workings of present federation movements in cities, rural districts, States, foreign lands and inter-denominational work. Denominational rallies, a platform meeting devoted to young people's movements, and a reception to the delegates at the Waldorf Astoria given by the half dozen denominational social unions in the city will be among the more popular features of the conference.

The chairman of the executive committee is Dr. Wm Henry Roberts of Philadelphia; the secretary, Dr. E. B. Sandford of New York.

—Miss Estelle Foy left yesterday evening for her home in Toronto, and will return in September to resume her classes in kindergarten music at the Conservatory.

TELEPHONE TALKS.

TO TELEPHONE USERS AND THE GENERAL PUBLIC,—

At the beginning of the investigation by the Parliamentary Select Committee the following statement was presented in evidence:—

"There is no doubt that the over-capitalization of THE BELL TELEPHONE COMPANY OF CANADA is the cause of the high rates charged to Telephone subscribers in the Dominion."

This statement was made one of the principal objects of investigation by the Committee. By the sworn testimony of the President of this Company, backed by financial records presented in detail the charge was demonstrated to be absolutely without foundation in fact.

The President in giving his evidence presented the following statement of the Company's capital expenditure:—

Exchange Capital per subscriber	$ 92.00
Toll line capital per subscriber	31.00
Real estate capital per subscriber	18.00
Total capital investment per subscriber	$141.00

A comparative statement on a similar basis of the capital expenditure of several of the larger Independent Telephone Companies of the United States was also presented, showing their investment as follows.—

	Per subscriber.
Cuyahoga Tel. Co., Cleveland	$349.00
Pittsburgh & Allegheny Tel. Co.	360.00
Kansas City Home Tel. Co	380 00
Home Tel. Co. of Louisville	357 00

Not a single authoritative record, either by comparison or otherwise, was presented in support of the charge that this Company is over-capitalized.

The facts as demonstrated by the most general comparisons and by experience of all practical Telephone men are entirely to the contrary. The capitalization of the Bell Telephone Company of Canada is, upon every basis of comparison, the lowest of any general system, whether corporation, government or municipal, of which records have been produced.

The charge of over-capitalization which has been persistently made has therefore been most effectually refuted.

THE BELL TELEPHONE COMPANY OF CANADA.

The Scourge of Consumption

Thousands Are Dying—If Tired Languid or Run Down Get Protection Before Too Late

No child, man or woman is safe from consumption unless their blood is pure, rich and nourishing.

Allow the blood to become thin, and immediately the whole system grows weak. The lungs are deprived of resisting power and the ever-present tubercular bacilli develops.

The most positive protection against consumption is Ferrozone, which restores the blood to full strength. Weak organs are instantly strengthened. Worn-out tissues are rebuilt. New life is given to the lungs and all danger of consumption is destroyed.

Mrs. E. J. Richardson, Manotick, Ont., tells as follows of her enormous gain in health from Ferrozone:—"For two years I was not well. I was thin and anaemic. Towards spring I fell into a condition of nervous exhaustion. A dead tired-ness hung over me like a load of lead. Housework of any kind I simply couldn't do. A bad cough developed that worried me greatly for I thought it might be tubercular. When I first read of Ferrozone I was convinced it was good. I took it regularly for eight weeks and the change in my condition was wonderful. My cheeks filled out and became clear and rosy. I gained eight pounds and now am strong and vigorous as possible."

Ferrozone feeds, nourishes and tones up the body—it sends the thrill and vim of robust health from head to foot—makes you feel better at once. Won't you use Ferrozone? Price 50c. per box, or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

PETERBORO AUGUST 10 1905

THE LANGUAGE OF THE WORLD

Nothing more indicative of the changing character of the times has occurred than the remark of the Japanese peace envoy, concerning the language to be used during the progress of the negotiations. He expresses the hope that English will be the medium of communication and adds that he does not speak French.

A diplomat that does not speak French! The idea seems absurd. For centuries the French language has been the bona fide of diplomatic intercourse. It is the tongue of the courtier who in the salon desires to bestow a graceful compliment, or who, around the council table, endeavors to cloak his real meaning and mislead his opponent. In Europe and, it might be added, in the United States, a knowledge of French is considered absolutely necessary to a complete education, and in the national capital a member of the diplomatic corps who did not speak French would be regarded as totally unfit for his position. Things are evidently different in Japan. No French for the Japanese diplomat, if you please. He wants the good old Anglo-Saxon, a language in which thought is expressed with distinctiveness and force. He discards the traditions of centuries and plunges into the language of the New World.

The time is coming when English will be the universal tongue. This is almost the case at the present time. When our fathers were young no one could make a satisfactory tour of the Continent unless he was able to speak and understand French. Today, except in some remote corner where civilization has not penetrated, a knowledge of French is not essential. Along all the highways of travel English is spoken by a large proportion of those who deal with the tourist class. The vast number of Americans who visit Europe and whose knowledge of the language is very limited has made it necessary for foreigners to learn English. In Germany the teaching of the English language is considered essential and in mercantile houses it has been found that only through a knowledge of English can the German manufacturers hope to compete with their British and American rivals. The activity of the English in Africa has done much toward the spread of the language in that continent and the same result has been attained in other quarters of the world through the establishment of English colonies.

The observant Japanese, building up an Occidental nation in the Orient, have evidently been impressed with this modern tendency toward the universal use of the English language. They are keeping pace with events.

GIVES EVIDENCE OF BECOMING A GREAT SHIPPER

Interesting Report of Mining News of the Goldfield and Contiguous Districts--Progress is Reported All Along the Line.

The big hoist and pump for the Goldfield Diamond Company is expected in the district about the 20th of this [illegible] will be installed at the shaft on the Headcenter claim. Sinking will then be resumed. The Gold Coin ledge has been traced on to the Blue Bird, one of the company's claims, and as soon as a desirable point is selected the sinking of a shaft will be begun. This practically gives the Goldfield Diamond two mines as the new shaft will be [illegible] feet from the Headcenter claim.

HAVE AN EXCELLENT PROPERTY.

Four miles east of the town of Bullfrog, and in the vicinity of Crystal Springs, the United Bullfrog Mines Company is working a group of claims which gives promise of developing into a first-class property. On the Hill-side claim, one of the group, a crosscut tunnel has been run in a distance of 35 feet, and the last information received from the superintendent indicates that the hanging wall of the ledge has been struck and a good grade of milling ore encountered. This ledge on the surface gave assay returns running from a few dollars to $24 per ton in gold. Water is plentiful on the ground and it is the intention of the company, whose directorate consists of such well known mining men as Malcolm Macdonald, James F. Mitchell, Donald B. Gillis and J. T. Leonard, to put up a first-class mill when ore bodies sufficient to justify it have been opened up, and of this there is but little doubt.

FOUND SKELETON OF A DEER.

Last week while running a tunnel on the ledge of one of the claims of the United Bullfrog Mines Company, and when in a distance of 35 feet, the force uncovered the bones and antlers of a deer, all in a fair state of preservation. How long they had been there and what action of the earth had occurred to cover them up is a problem that will have to be determined by archaeologists and geologists.—From the Goldfield Review, July 27th.

Speaks well for the United Bullfrog Mines Co. By the above article it is to be noted that Malcolm MacDonald, the great mining engineer of the Montgomery Shoshore M. Co., and Donald B. Gillis, manadger of the Montana Tonopah, have accepted directorates in the company, and with James F. Mitchell as president of this company, will surely be one of the big ones.

Thos. Patterson & Co. are agents for these companies.

HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

Hall's Family Pills are the best.

The New-York Daily Tribune

Of course, a great deal depends on your own taste in the matter of newspapers. If you want a publication that serves up so much, gore and so many thrills in every issue, it is money thrown away to buy the Tribune. If however, you are looking for a daily history of the world, carefully collated and sifted and presented in the most attractive form that the facts and the laws of good taste will permit, you cannot make any mistake in reading the Tribune every day. But the Daily Tribune is more than a continuous history. It contains special articles on nearly every subject which is supposed to interest intelligent and clean-minded people, to say nothing of the illuminating and instructive editorial articles and reviews of books, music and the drama. Just by way of experiment, why don't you invest $1 and get the Daily and Sunday Tribune by mail for a month? With the Sunday Tribune goes a handsome illustrated supplement and a Magazine, with colored covers, equal to anything sold for ten cents.

Goldwin Smith's View

London, Aug. 9.—The Pall Mall Gazette, commenting upon Prof. Goldwin Smith saying that the Opposition in England seems in danger of forfeiting certain victory by its impatience and the mistake it will make to allow the leadership to lapse into the hands of Mr. John Redmond, says; "Mr. Smith's rebuke to the English Radicals is that they are in too great a hurry. Mr. Smith's reason for offering temperate advice is one which may very well appeal to the soberer heads among them."

The Minister of Commerce of France has nominated a commission to consider ways and means for organizing an international exhibition in Paris in 1909, to be devoted to working class life.

Mr. Ted Cavanagh Kept Hustling.

Mr. Timothy, better known as "Ted" Cavanagh, has gone to Sault Ste Marie, with 112 men for the Frank Peary Lumber Company. He has been in Quebec for five days hiring men. Twenty-two were engaged at Peterboro, and went through to Sault Ste. Marie on Monday.

Sault Ste. Marie on Monday. Mr. Cavanagh is under contract to supply 165 men for the Cleveland Saw Mill Co., and 150 men for the North Shore Lumber Co., as well as more men for the Frank Peary Co. This will mean another trip east as Mr. Cavanagh stated that it is impossible to secure men in this district.

Local Made Boats Win Prizes

At the recent Sturgeon Point regatta, it is interesting to learn, Peterboro made craft won both first and second prizes against all comers. Mr. Hogwood's dinghy taking first and Mr. Milne Hamilton's second place. The fact that in a six-mile race the Peterboro boats walked away from their Toronto and other competitors is no small compliment to the superiority of the goods turned out by the Peterboro Canoe Company.

We omitted to state in yesterday's account of the fire, whereby the old shack on King and Bethune streets was burned down, that some Italians were living in the place without having attended to the formality of asking permission of the owners. Their furniture consisting of one partly emptied keg of lager was saved. The swarthy sons of Italy had their goods and chattels, to wit, the aforesaid keg, out before the firemen arrived.

Ayer's Sarsaparilla. Good for anything? Ask your parents, grandparents, neighbors, your own doctor. We will leave it to any of them. Best blood medicine. Best nerve tonic. J. C. Ayer Co., Lowell, Mass.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority to some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department not to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses (2), (3) or (4) must cultivate 20 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 40 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 1st of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

How to Visit Colorado

Go first to Denver. It is the State capital, as well as the largest, wealthiest and most metropolitan city between the Missouri River and the Pacific Coast. The city itself is very interesting, and from it start practically all the trains over the various roads into the mountains.

Many of the most enjoyable one-day trips in Colorado begin and end at Denver. The cost of these little journeys is not great.

After you have familiarized yourself with Denver and its surroundings will be soon enough to decide where to go for the rest of your visit. The question must be considered from several standpoints—altitude, hotel accommodations, accessibility, amusements, etc.

Our Colorado literature will help you in deciding where to go and what to do. Sent free for the asking.

Portland

Exposition

Now open for the summer. Interesting because it demonstrates the progress made by that wonderful country—the Pacific Northwest. Interesting, too, because it affords a chance to see, cheaply and satisfactorily, the many places of interest in our Western States.

Go via Rock Island System and stop off in Colorado—visit Salt Lake City—Yellowstone National Park—and California. Round-trip rate from Chicago $56.50; from St. Louis $52.50, going and returning direct; slightly more to go via California in one direction. Cheap rates for side rides to every nearby point of attraction. Very low to Alaska also.

The Rock Island has three routes—through New Mexico, through Colorado or via St. Paul and Minneapolis.

Use coupon below if thinking about a western trip.

Rock Island System

VARICOCELE & STRICTURE

No other disease is so prevalent among men as Varicocele. As it interferes with the nutrition of the sexual organs it produces weakness, loss of semen through the urine, decay of the organs, pains in the loins, aching in the back, nervousness, despondency, bashfulness, palpitation of the heart, constipation, and a combination of these results in complete LOSS OF MANHOOD. Thousands of young and middle-aged men are troubled with STRICTURE. If you have reason to believe you are afflicted with it, don't neglect it. It will ruin you. Don't let doctors experiment on you by cutting, stretching or tearing it. Our NEW METHOD TREATMENT dissolves the stricture tissue, hence it disappears and can never return. We cure Varicocele and Stricture without operation or loss of time. The treatment may be taken at home privately. Send for our Free Illustrated Book on VARICOCELE and STRICTURE. WE GUARANTEE TO CURE OR NO PAY.

Kidneys & Bladder

All sexual complaints affect these organs, hence the kidneys are a great source of disease. Have you aching or weakness over the small of the back, tendency to urinate frequently, deposit in urine, coldness of hands or feet, a drowsy feeling in the morning. Don't neglect your kidneys. Our NEW METHOD TREATMENT is guaranteed to cure any disease of these organs or no pay.

☞ No Names Used Without Written Consent.

O. W. Jones, of Jackson Mich., says: I had varicocele in the secondary stage and also stricture of 8 years' standing. I was operated on twice, undergoing great suffering, but only got temporary relief. I was finally advised to try the NEW METHOD TREATMENT of Drs. K. & K. The enlarged veins disappeared in six weeks, the stricture tissue was removed in eight weeks and my sexual energy and vitality returned so I was a man in every respect. I recommend you doctors with my whole heart."

CURES GUARANTEED. NO CURE NO PAY.

Before Treatment. After Treatment.

We treat and cure Nervous Debility, Lost Manhood, Varicocele, Stricture, Blood Diseases, Kidney and Urinary Complaints. Consultation Free. Books Free. Write for Question List for Home Treatment.

WHAT RUSSIA IS WILLING TO GIVE

War Expenses and Return of Manchuria to China Included

SITUATION IN FAR EAST

It is Claimed That Japan Has Greatly Overstrained Her Resources Already

St. Petersburg, Aug. 9.—The return of Manchuria to China, the cessation of contributions by Japan over Korea, and the payment of a milliard of roubles ($515,000,000) as war expenses, not as an indemnity, are declared to be the limit to which M. Witte is authorized by the Czar to go in negotiating for peace at the Portsmouth Conference.

Fear is expressed lest even these concessions will alienate the army, as well as the war party, from the Czar. Prince Volonsky, who voices the sentiments of the war party, is quoted as saying:

"Our situation in the Far East is now better than ever. We have there half a million men, 2,000 guns, and plenty of supplies. Since the capacity of the army is now doubled, these assets are continually increasing.

"Japan is not in a position to make any more sacrifices. It has overstrained itself already by its efforts in Sakhalin and the Amur region. Its occupation of these places is ephemeral, because of the Tartar Strait and the Amur river will soon be covered with ice, ten feet thick, and the Japanese warships will have to go home. It will be an easy matter then for us to cross over and drive out the invaders. The beleaguering of Vladivostock would only weaken Oyama to a dangerous degree, and already a hurried advance is impossible.

"Japanese finances are in a worse condition than ours. The Americans in discounting the large indemnity which they supposed Russia would pay, opened to the Mikado unlimited credit, but the reception which they have now given to M. Witte shows a remarkable change in American opinion. Russian and American interests on the eastern coast are identical. Russia herself offers an unlimited field for American enterprise. The Czar, the people, and the press are anxious for the friendship of Americans."

SENDS HIS MOTHER TO JAIL

Bosanquet Man Turns Her Adrift at Age of Seventy

Watford, Ont., Aug. 9.—That poverty is a crime was illustrated by an incident that occurred in town this week. A few months ago an old lady, over 70 years of age, bent with the weight of years and hard work came to town from Bosanquet to make her home with her son. He was in poor circumstances, and her work refused to provide for her any longer. She then applied to the local authorities for assistance. They considered that she was not properly a charge upon the town, and had her taken over to the reeve of Bosanquet. That official declined to receive her, and on the following day she was carted back to town. On Tuesday morning she was brought before the police magistrate and committed to Sarnia jail as a vagrant.

This is a sad commentary on our boasted civilization. In a land abounding with plenty and that contributes hundreds of dollars towards bettering the condition of the heathen in foreign lands, we permit an unfortunate and helpless old woman, whose only offence was poverty, to be committed like a common felon to a cell. The incident is a disgrace to common humanity, and discreditable to a degree to all responsible for its taking place.

The Work Advances

Post Office Addition Shows Signs That Something May be Expected

Yesterday it really looked as though another step had been taken towards completion of the cupboard to the north of our post office. Four scaffold-poles were unloaded right in the yard. A staff of men, with real picks and bona fide shovels dug four holes in the ground, real holes, deep holes. Into these holes the poles were put; the earth was shovelled back and seemingly packed down.

ACT II.

The mail carrier, Mr. Alex Reid perceiving these poles, found two of them interrupting the progress of His Majesty's mails. In the twinkling of an eye his sturdy arms flew wrathfully the offending poles, and lo! Presto! two of the poles flew from the ground and back to where they belong. Still the good work goes on! With good health and longevity the contractor will see this job done.

MANY RUSSIAN IMMIGRANTS

Thirty-six Per Cent More Than in Any Other Year

New York, Aug. 9.—S. P. Sargent, United States Commissioner General of Emigration states that, while in 1903 857,046 immigrants came to the United States from all countries, and in 1904 812,870, the entrance figures for the last fiscal year, ending June 30, 1905, were 1,027,421 an increase of 39 per cent.

Of those who were denied admittance in all parts of the country there were in 1903, 8,709, in 1904, 7,994, and in 1905, 11,566, an increase of 32 per cent. Of Russian immigrants there were this year 36 per cent. more shown by the records. In 1903 there were 136,093, in 1904, 165,141, and in 1905, 184,897 persons coming from Russia.

Commissioner General Sargent is on his way to Honolulu. He wishes if possible to effect the return of 6,000 Japanese who left the Hawaiian Islands to come to the United States.

THE
Montgomery Mountain Mining Company
BULLFROG

promise to be one of the greatest producers yet discovered in the TONOPAH, GOLDFIELD BULLFROG DISTRICT.

This district records the greatest discovery of Gold that has ever been made in the history of mining.

This Company is a legitimate Mining enterprise, managed by honest, capable mining men.

The property is on the Montgomery Mountain, adjoining the MONTGOMERY SHOSHONE mine, which has only been operated ten weeks and which is now

Shipping Ore that runs TWENTY-THREE HUNDRED DOLLARS to the Ton.

The Capital of the Company is $1,250,000, divided into 1,250,000 shares of a par value of $1.00 each fully paid and non-assessable, 300,000 shares of which are in the Treasury.

The Officers and Directors are
President and Treasurer, D. H. PERRY, Salt Lake City, formerly President of the Salt Lake Stock and Mining Exchange.
Vice-President, Hon. JOHN SPARKS, Governor of Nevada.
Directors, D. E. BURLEY, General Passenger Agent, Ogden Short Line R. R., Salt Lake City; Hon. JOHN SPARKS, Governor of Nevada; E. E. EDWARDS, of the firm of Vermilyea, Edwards & Stanley, Attorneys-at-Law, Goldfield, Nevada.

The Company refers by permission to
McCormick & Co., Bankers, Salt Lake City; John S. Cook & Co., Goldfield, Nevada; Ormsby County Bank, Carson City, Goldfield & Tonopah, Nevada.

We believe this property and its stock will have an advance that will be as sensational as was the Original Tonopah immediately after its development.

We can supply orders for a limited number of shares at 75 cents per share. This price expires July 10th, after which it will be raised. For information or stock apply to Thos. Patterson & Co., Fiscal Agents, Peterborough, or.

The Glenara Gold Mining Co.

Capitalization, 1,500,000 Shares — Stock Fully Paid and Non-Assessable
Par Value, $1.00 Per Share. — Treasury Stock, 700,000 Shares.

This Company was organized in March, 1905, under the laws of Arizona, with a capital of 1,500,000 shares. The par value of these shares is $1.00 each. They are full paid and forever non-assessable. The Company owns approximately seventy-five acres of territory in the Goldfield district. By reference to the map you will note that every acre is within the producing area, and with the systematic development this large acreage is to receive, there is no doubt that the stockholders will very shortly see the Company on a producing basis.

We desire to say right here that this Company is organized for legitimate mining, and not stock jobbing purposes, and among the directors are some of the best known mining men in the West. It is their one desire to make the GLENARA GOLD MINING COMPANY a great success at the earliest possible moment.

It is for the purpose of raising funds to vigorously develop the Company's holdings that some Treasury stock is now offered for public subscription. Out of a capitalization of 1,500,000 shares, 700,000 shares have been placed in the treasury. This treasury reserve insures the company a large working fund, if needed. It is the belief of the management, however, that it will not be necessary to dispose of over 50,000 shares of the treasury stock. The present outlook is such that the management believe that the mine will be on a paying basis before many weeks have passed.

The Property of The Glenara Gold Mining Company Consists of the Following:

The Glenara Group consists of four claims located in the Goldfield mining district of Nye County, Nevada. These claims are known as the Kentucky Bell, Mabel M., Lone Jack and Jane Doe, covering about seventy-five acres. This group of claims is located on a system of ledges over a mile and a half in length and about half a mile wide. These ledges are the same as those traversing the Kendall, Tonopah Club, Vernal, Quartzite, Black Butte, New York, Brooklyn, Jumbo, Vernal, Penn and Federal.

The surface indications at the time of location were of the very best, however, good float being found upon the ground and good pannings are obtainable, all of which indicate that the property can be developed into a paying proposition. The ground has been thoroughly prospected and the sinking of the shaft begun on the Kentucky Bell claim. There is a force of men sinking a shaft as rapidly as possible. Good ore has been encountered running from $3 to $18 per ton, increasing in value with depth, and it is safe to say that a strike may be looked for any day.

Taken as a whole, the investment offered by the Glenara Gold Mining Company is equal to any prospective company in the district. The claims are exceptionally well located, covering a large area, the management is conservative and honest, and is working hard for the success of the company.

The proposition will stand the very closest investigation, and, in fact, an investigation by prospective investors WILL MEAN AN INVESTMENT. WE COURT INVESTIGATION.

The allotment of stock is very small, and if you desire to become interested with this enterprise, it will be necessary for you to communicate with us at once.

The work on the property is being pushed to the utmost, and any day may bring news of a strike which will advance the price of the stock.

For prospectus and full particulars, address

R. H. B. WARBURTON, Fiscal Agent,
Office, 522 McPhee Building. DENVER, COLORADO

RICH GOLDFIELD STRIKE

Twenty eight tons of rich gold ore averaging $210.15 have just been received at the Goldfield Reduction Works from Curtis lease on property adjoining end line of Gold Run claim of the FINANCIER'S SECURITY GOLD MINING CO., same ledge runs through this property. Stock is now being sold at FIVE CENTS PER SHARE. Ask for copy of "Facts" and photos of this company's excellent holdings. To keep posted send for our free Market Letter.

Western Coal and Chemical Company

Incorporated under the Law of Oklahoma all stock full paid and Non-Assessable, all stock alike—No Preferred Issues.

Capital Stock, $2,500,000 2,000,000 Shares of $1.00 each par value
5,000 Shares of $1.00 each, par value.

The object for which this company has been formed and incorporated is to mine and deal in coal, and oil and kindred products, with special reference to the operation of valuable coal and oil lands in the State of Wyoming. But a larger and even more lucrative proposition is presented in the utilization of cheap fuel and waste products for the production of Cyanide of Potassium on the larger scale at a cost so low as to defy competition. Along with the production of Cyanide the company will be in a position to turn out large quantities of Chlorine at a nominal cost, this Chlorine being of the utmost value in the reduction of gold ores throughout the vast area of which this company's mining district represents the center.

The rentability of this enterprise may be better illustrated yet by the following figures which leave out all profits that might come from the sale of coal, coke, power, coal-tar, gas, ammonia, etc. The net income per year of a plant of the capacity which it is proposed to erect, would be in a round number $235,000.00. These figures indicate that the capital invested will be returned in a period of less than six months, or in other words, THE INTEREST UPON THE INVESTED CAPITAL WILL BE OVER 200 per cent. Not among a thousand mines is there one mine that will yield such an enormous income from such a small investment. And such a quick return cannot fail to bring the price of the shares up to par, and above that, in a few months from the start.

References of the highest order on request.

For further particulars, applications for stock, etc., address

EUGELHARDT & DE RUYTER,
Commercial Bank Building. - - 175 Dearborn St., Chicago, Ill.

NICKEL AND COPPER

A Few Thousand Treasury Shares

Only are left to be sold before all offerings are WITHDRAWN FOR FIFTEEN MONTHS' TIME.

You can buy the few remaining shares now at $1.00, but fifteen months hence you will probably pay from $5.00 to $20.00 per share.

THERE IS NOTHING EXTRAORDINARY

In shares advancing as above stated in mining propositions, for it is an old story of phenomenal advances in mining shares, Granite Mountain going from ten cents to $75 per share, Calumet & Hecla from $1.00 to $900.00, and so on down the list.

CONSIDER FOR A MOMENT

What this company offers—It controls to-day an actual territory of nearly Three thousand acres of land known to be immensely rich in nickel and copper ores, all in a district known and proven to be sixth among the greatest copper districts in the world. This company will control at least a thousand acres more. In all nearly five thousand acres, which will not be mined out in two hundred years

WE STAND READY TO PROVE

That this company offers to day the most meritorious mining proposition presented in ten years' time

Write or call for full particulars. All shares registered by International Trust Company, Boston.

International Nickel and Copper Co., Ltd., Suite 93, Journal Building, Boston, Mass.

W. K. HALL, Fiscal Agent, Peterborough.

THE BEST YET!!!

We have given our clients some good things in mining stocks during the past two years, but we believe one of the best propositions we have ever handled is

DILLON OIL MINING & DEVELOPMENT CO'Y., OF CANEY, KANSAS

Call and get full particulars. Watch for description of this property in The Times.

Thos. Patterson & Co.,
FISCAL AGENTS, PETERBOROUGH.

"TONOPAH"
HOME CONSOLIDATED
STOCK WILL ADVANCE
WHY?

Because it is shipping ore from its Alta mine. Are there many mines shipping ore? We guess not. Just compare the prices the stocks are selling at. If you invest, buy stock in a shipper.

From San Francisco, Wasp, July 22nd. W. K. HALL, Peterboro, Ont., has some of this stock for sale.

Yours very truly,

W. J. ARKELL & Co.

Exhaustion All Gone!

To-day She is Buoyant With Health and Vital Energy Given by A Medicine Suited to the Female Sex.

There is no medicine for health and strength that accomplishes so much as Dr. Hamilton's Pills. For womanly troubles they have no equal. Miss Katie E. Emerson, one of Brockton's popular young ladies, in the following letter voices the conviction of hosts of her friends:

"Two months ago I was completely used up. I was weak and miserable. My strength was gone, and I had no appetite or energy left. What I needed was a blood purifier and systematic tonic which I found in Dr. Hamilton's Pills. To-day I am brimming over with spirits and virile good health that came from using Dr. Hamilton's Pills."

No one can over-estimate the true worth of Dr. Hamilton's Pills. Their enormous curative power makes one marvel. You soon have richer blood, better appetite, better complexion, freedom from weakness and perfect health. Dr. Hamilton's Pills are sold everywhere 25c. per box, or five boxes for $1. By mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

WM PRINGLE

Falls Heir to Fortune

Mr. Michal Brennan, a Peterboro Citizen; Gets a Pretty Windfall Amounting to $75,000

The friends of Mr. Michael Brennan, who a few years ago was well known to many of our citizens and who was formerly employed by the Sisters of the Congregation of Notre Dame, in the convent here, is now a comparitively wealthy man. A brother in the United States, who he has not seen in years, has died and left him heir to the tidy sum of $75,000 in cash.

Mr. Brennan has been residing in Lindsay for the past few years, where it is understood he has relatives, who will also receive a good share of the fortune bequeathed by the dead relative, which, besides the $75,000 in cash, also includes valuable real estate interests across the line.

Wedding Bells

Miss Eva Eileen Frise Becomes the Radiant Bride of Mr. George Robertson.

At 176 McDonnell street, the residence of Mr. John Frise, yesterday morning, a very pretty ceremony was performed at nine o'clock, when his youngest daughter, Miss Eva Eileen, was united in marriage to Mr. George Robertson. The nuptial knot was tied by Rev. J. S. Stacey, of Oshawa, in the presence of the immediate relatives of the young couple.

The bridesmaid was Miss Alberta Frise, sister of the bride, while Mr. R. S. Merril, assisted the groom. The bride looked charming in a gown of point d'esprit over white silk. She carried a bouquet of white roses. The bridesmaid's gown was of white organdie, and her bouquet of pink roses.

Many beautiful and costly presents testified to the high esteem in which the young couple are held.

Mr. and Mrs. Robertson left on the 11.45 G.T.R. train on a wedding trip to Beamsville, St. Catharines and other places. They will on their return take up residence at 353 McDonnel street.

A Semi-Centennial

Fifty Years Ago the First Cricket Match was Played in This Country.

Those of our readers interested in the national game of England, cricket, will be interested to learn that fifty years ago yesterday the first cricket match was played by Peterboro cricketers.

This match was between Peterboro and a team composed of players gathered from Metcalf, New Ommemee, and Lindsay. The match played at Metcalf, was witnessed by over 3,000 people, who came from all parts of this and nearby counties, who showed great enthusiasm over the game. Judge Weller was wicket-keeper, the late Mr. Mutins V. Clementi and late Mr. Fred Bailey were the local battery, with Mr. H. T. Strickland as mid-wicket. Messrs. Harry Strickland and W. H. Wrighton made 56 runs between them when they went in together. Dr. Irons of Ommemee, played a rattling game for the opponents of our team.

Mr. Strickland when asked by a Times' representative yesterday which team won, replied somewhat indignantly "Why Peterboro of course!"

A Building Boom

Peterboro Now Erecting More Residences Than Ever at One Time in Its History.

Even a stranger or casual observer cannot but notice the intense activity surrounding building trades of all classes this year in Peterboro. At the north, west and south sides of the city, everywhere in fact, new houses are springing up like mushrooms. Hunter street beyond Park street is a scene of great activity. Mr. H. W. Morphet's new residence is nearing completion, while splendid progress is being made with the five large houses being erected by Mr. E. R. Wood of Toronto. Mr. Harry Thompson is also putting up an attractive dwelling opposite Mr. Morphet's. At the point facing Park street, Messrs. Dr. Morrison, W. G. Morrow and Robert Neill are building three well-appointed houses, which will be for sale. They are bounded by Brock, Hunter, Donegal and Park streets. Another dwelling similar to those in course of erection will be constructed next year.

It speaks well for the confidence that our monied men have in the city to see so large and broadcast investments being made in real estate.

Cheap Rate to Toronto

On August 14th, Peterboro's Civic holiday, the Canadian Pacific Railway Company will issue tickets to Toronto and return at $2.00, and Niagara Falls and return at $3.20. Tickets good going only on train leaving Peterboro at 8 a.m., connecting with boat leaving Toronto at 11 a.m. Toronto tickets good returning August 15th. Niagara Falls tickets good returning August 16th. For tickets and all information see W. McElroy, City Passenger Agent, 348 George street.

Sisters of St. Joseph in Retreat.

The Sisters of St. Joseph, including the community in charge of the local Roman Catholic institutions, as well as those from Cobourg and Lindsay convents, are in retreat in this city. The retreat will close on August 15th, the Feast of the Assumption, and on that date the young ladies will receive the habit of the order, and six candidates will receive their vows. Rev. Father Devine, S.J., of Montreal, is preaching the retreat.

A Good Mining Stock Investment

As many of our readers are interested financially in mining stocks, it would perhaps be to their future benefit to read the adv., in another column of this issue, of the Glenara Gold Mining Co. This company is incorporated under the laws of Arizona with a stock of 1,500,000 shares at $1 per share, fully paid and non-assessable. The Glenara property consists of four good claims in the Goldfield district of Nye County, Nevada. The experimental developments show that this proposition is above the average and holds out strong inducements to investors. The company are now sinking a shaft as rapidly as money and muscle can accomplish it. Gold running from $8 to $18 per ton has already been encountered, and as is usually the case, this ore increases in value as the shaft is sunk deeper. Those interested should at once communicate with Mr. R. R. B Warburton, 522 McPhee Bldg., Denver, Col., as the present issue of stock is limited in amount and restricted as to time at the present price.

$500 Reward For Women who Cannot be Cured.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay $500 in legal money of the United States, for any case of Leucorrhea, Female Weakness, Prolapsus, or Falling of Womb which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

"I used four bottles of your 'Favorite Prescription' and one of 'Golden Medical Discovery,'" writes Mrs. Elmer D. Shearer, of Mountjoy, Lancaster Co., Pa., "and can say that I am cured of that dreaded disease, uterine trouble. Am in better health than ever before. Everyone who knows me is surprised to see me look so well. In June I was so poor in health that at times I could not walk. To-day I am cured. I tell everybody that Dr. Pierce's medicines cured me."

FREE. Dr. Pierce's Common Sense Medical Adviser is sent *free* on receipt of stamps to pay customs and mailing *only*. Send 50 one-cent stamps for the cloth-bound volume. Address World's Dispensary Medical Association, Proprietors, Buffalo, N. Y.

Turf Club Helps Local Exhibition

Mr. R. J. Munroe, president of the Peterboro Turf Club, was round among the hotels yesterday, collecting the amount ($200) necessary to pay rent of the grounds for the Peterboro Industrial Exhibition for this fall. It has been the custom for years for the local hotelmen to raise this amount for the said purpose. Last year with only one of two exceptions they paid in $10 each for this purpose. The exhibition, we believe, takes place in September.

Opera House Building Progressing

The walls, and good substantial walls they are, of the fine new opera house are rapidly climbing heavenward under direction of the contractor, Mr. J. J. McPherson. There are about fifteen bricklayers at work, and they keep the helpers busy bringing brick and mortar. In the rear where the stage is to be situated, a maze of scaffolding has been erected, and the wall there has been built up over fifteen feet. But on the sides the walls have only attained a height of eight or ten feet. It is estimated that if the weather holds fairly good, the work will be completed in six weeks.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—The Trades and Labor Council met last night.

—Local farmers report that raspberries this year are a failure.

—The annual retreat of the clergy of St. Peter's Cathedral, will be held from Aug. 21—26.

—The sacrament of baptism has been administered to 96 infants in St. Peter's cathedral since the first of the year.

—Mr. Geo. J. Chalmers, 542 Water street, is engaging men for the Turner Lumber Company to go to South River.

—Canada Flakes' officers will henceforth be shaded whilst engaged in the mill office, the fine broad verandah roof on the north side being completed.

—The Jackson Park entertainment still draws as large an attendance as ever. Last night fully 4,000 people enjoyed the music and pictures which were both above the average.

—The printers' annual picnic takes place Saturday afternoon, Aug. 19th. The steamer Water Lily will convey the members of the art preservative and their friends up the Trent Valley Canal to Dam No. 5.

—The Peterboro Light and Power Company is placing an electric light at the corner of Smith and Downie streets, which will light up what has hitherto been a neglected portion of the city.

—A large number of citizens intend going down on the City of Peterboro this afternoon to attend the garden party and bazaar of St. George's church at Gore's Landing. The City will leave the Wolfe street wharf at 1.30 o'clock and call at Ashburnham wharf, returning the same evening.

—The new granolithic walk on the Brock street side of Victoria Park is completed and adds greatly to the neat appearance of the surroundings. A new walk is now being put down on the Murray street side in front of St. Paul's church, the Collegiate Institute and Central school.

Personal

—Mr. and Mrs. Robt. Hall went up the lakes yesterday.

—Mr. W. G. Ferguson went up the lakes yesterday afternoon.

—Mr. P. A. Kerr has returned to the city from Byng Inlet.

—Mr. and Mrs. C. B. Routley went up the lakes yesterday afternoon.

—Mr. Chas. Anderson left for Rossdale yesterday morning to spend a few days.

—Mr. M. A. Turner has returned from the lakes.

—Miss R. L. Robertson leaves tomorrow on a two weeks' visit to friends in Toronto and Hamilton.

LOOK OUT FOR GERMS NOW.

Summer Months Call for Constant Vigilance and Use of Mi-o-na

In the summer months constant vigilance is necessary, or dangerous disease germs will be absorbed from food or drink.

The so-called summer complaints and bowel troubles do not come to people with a healthy stomach, for there Nature kills the disease germs with the natural juices secreted by the healthy digestive organs.

Persons with a weak stomach and poor digestion in the summer season live in constant fear of germs of disease. Let these people use Mi-o-na before each meal, and the stomach and the whole digestive system will be strengthened so that disease germs will have no effect whatever. You can eat what you want and all you want without any fear of indigestion or bowel trouble, if you take a Mi-o-na tablet before each meal.

When there are pains or distress after eating, headache, belching of gases, sour food, and bad taste in the mouth, dizziness, heart-burn, specks before the eyes, furred tongue, sleeplessness, and debility or weakness, it shows that the stomach needs the help of Mi-o-na. Just one little tablet out of a 50 cent box of Mi-o-na before each meal for a few days, and you will regain perfect health and strength, and be proof against the germs of summer diseases.

Ask Wm. Medill to show you the guarantee under which he sells Mi-o-na. It costs nothing unless it restores health.

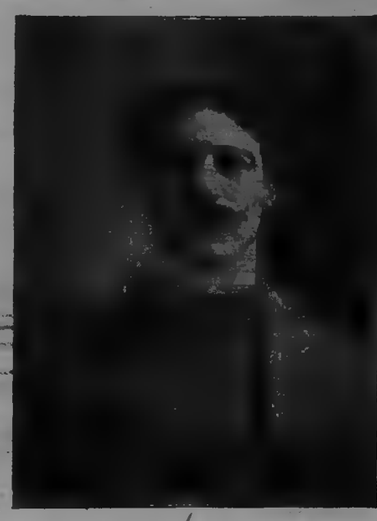
TEN YEARS



The Story of My Wonderful Success.

Reads Like a Fairy Tale-Yet Full of Convincing Truths

An Opportunity of a Lifetime for the Investor.

TAKE ADVANTAGE OF IT.

I ask every reader of this paper to write me. I want to send you my free book entitled "Ten Years"—"The Story of My Wonderful Success." It tells about one of the greatest and most promising investment opportunities ever offered. It tells how my business grew from less than $25.00 capital to its present proportions.

I believe I have the best proposition from an investor's standpoint that could be placed before you. For ten years I have been teaching men and women to live according to the laws of Nature. My book is the history of my life. It shows what energy and ambition can accomplish in the world of affairs. It is intensely interesting to any man or woman who has a few dollars to invest in a legitimate enterprise.

I started business in the City of Brooklyn in 1896. My capital amounted to less than $25.00. My first year's business netted me over $1,000.00. Last year I paid dividends to my partners of 15 per cent. Five years ago my business had grown so large that I was compelled to remove to larger quarters. I am now at 63-65 Clark St., Brooklyn, N.Y.—in connection with Hotel St. George. Experts pronounce my institution to be the best appointed of its kind in the country. I estimate the equipment of the Mac Levy Institute of Physical Culture to be worth at least $40,000.00.

I want to have a building of my own that will enable me to accommodate my increasing business. To erect this building I need capital, but more important than this to increase my business to the proportions which I desire, I need the co-operation of men and women throughout the country and the world.

Co-operation is the Secret of Success

I recognize it. I believe that with thousands of co operators throughout the country I can build my business to tremendous proportions to the benefit of the shareholders and myself.

The Mac Levy Company is incorporated under the laws of New York for $150,000.00. They are proprietors of The Mac Levy Institute of Physical Culture and The Mac Levy Gymnasium Equipment Company.

The last named branch of the business of the Mac Levy Company is comparatively new. I have been at work for several years to establish such a department in connection with teaching Physical Culture. The most difficult part of forming the Equipment Company has been accomplished. The business is now in condition to be pushed on a large scale. Hundreds of thousands of dollars are spent yearly on new gymnasiums and their equipment. The profits are large. A company of this kind has an immense field in which to work. Competition is slight. It is evident that the Mac Levy Gymnasium Equipment Company can build an enormous business.

The Mac Levy Company operates during the summer months at Steeplechase Park, Coney Island, and at Averne Hotel, Averne-by-the-Sea, L. I., as well as at our Brooklyn Institute. I also does an extensive mail business. I teach people how they should live and exercise. My students are scattered all over the United States, and in English speaking countries.

A PROBLEM

which arrises in the minds of every man and woman is how to secure a comfortable income in the earlier years of their life, that they may reap the full benefits which such an income affords.

I have long thought that there are hundreds of people in moderate circumstances who would like to invest a few dollars in an Institution of this kind. It is to such people that I intend this announcement shall appeal. I am offering a block of the Treasury Stock of this company to the public at its par value. My reasons for doing this are that I wish to erect a building and to extend the business of The Mac Levy Institute of Physical Culture and The Mac Levy Gymnasium Equipment Company.

I WANT YOU AS MY PARTNER

I need your help and suggestion. I want you to work with me and help me to secure a tremendous amount of new business.

I believe that if you could talk with me personally and go over the records of the business which I have done, see in black and white the figures which show the steady growth my business has experienced during the past ten years, examine my plans for future extension, and then look over the magnificent equipment of my Institute, and would want no further evidence that money put into my business would bring you the greatest possible returns consistent with safety and good management.

I ask you to write for my free book. I believe it will interest you. You have a few dollars that you want to invest. Why let it stand idle earning only 3 or 4 per cent that Savings Bank pay their depositors? Put it to work. Join it with mine. This Company ought to pay at least.

TWENTY PER CENT. DIVIDENDS

within one year

Write for my book to-day. NOW.

Czar Authorizes Witte to Make Peace to Pay Indemnity and Give Over Railway

But Refuses to Cede Sakhalin Which Japanese Will Insist Upon--Russia Suddenly Changes Front, and is Ready to Come to Terms --The Japanese Have Handed the Russians the Conditions of Peace in Writing.

THE PEACE NEGOTIATIONS ARE NOW NEARING A CRISIS

St. Petersburg, Aug. 11.—Despatches received here from Portsmouth, N.H., indicate that Minister Pokotiloff's arrival has resulted in an important modification in Mr. Witte's views. Mr. Witte is now willing to make terms with Japan conditioned upon the surrender of the Chinese Eastern Railway between Harbin and Port Arthur, and to satisfy the financial demands of Japan, if reasonable, provided Russia is permitted to retain Sakhalin.

These terms have been communicated to Peterhof, and are satisfactory to the Emperor.

The above despatch indicates that Russia is very desirous of making peace, practically the only serious obstacle to which is the Japanese demand for the cession of Sakhalin, which she will never relinquish. The despatch is from the Associated Press and is probably reliable. M. Pokotiloff is the Russian Minister to China, and he is unusually well-posted as to conditions in the East. He has probably informed M. Witte that the chances of Russia's ultimate success if the war is continued are absolutely nil.

IMPRESSION EXISTS THAT JAPAN IS SPARRING FOR MORE TIME.

Portsmouth, N.H., Aug. 11.—In glorious sunshine, shortly after nine o'clock to-day, the peace plenipotentiaries started for the navy yard, to hold their second session, at which, according to general belief, Japan might be expected to show her hand to her adversary. Upon the moderation or stiffness of the terms, every one here realized, will depend the continuation of the war in the far east.

In some well-informed quarters however, doubt existed whether the Japanese would to-day disclose their terms. For some reason the impression existed that Baron Komura was sparring for a little more time.

Indeed, it had been vaguely intimated that some minor preliminaries regarding procedure remained to be settled, and that the whole day, possibly, might be consumed in decision upon these details.

THE JAPANESE HAVE HANDED OVER THEIR PEACE TERMS

Portsmouth, N.H., Aug. 11.—The Japanese have handed the Russians the conditions of peace in writing.

Portsmouth, N.H., Aug. 11.—Eljiro Takasugi, professor of English at the Imperial University of Tokio, in an interview following a lengthy conference with Mr. Sato, who has been the spokesman so far for the Japanese Peace Mission, said that Japan's terms would include the immediate evacuation of Manchuria, the cession of the Island of Sakhalin, and an indemnity of one billion dollars. Vladivostock also will be demanded. The indemnity, Mr. Takasugi said, might be reduced if peace can be brought about in no other way. Mr. Takasugi said; "The Portsmouth conference will end in a treaty of peace."

HAVE PREPARED THEIR DIPLOMATIC PLANS WITH SECRECY.

The Japanese envoys gave not the slightest hint of what was to be expected. With all the secrecy observed by Oyama, in planning a forward movement against the Russian Commander-in-Chief in Manchuria, Baron Komura and his suite have prepared their diplomatic campaign here.

M. Witte and his colleagues are in the dark. They can only wait and watch for the decisive moment to arrive. It is known, however, that they went to the meeting this morning strongly inclined to believe that for some reason their adversaries would not reveal their position to-day.

LIGHTNING'S TERRIBLE HAVOC.

The Electric Fluid Sets in Flames Mr. Jas. W. Lillico's Barns, Causing Heavy Loss, and Plays Havoc Generally

The storm of Wednesday night brought in its trail a series of disaster and heavy loss to farmers in the surrounding country.

Perhaps the most severe blow was that given to Mr. Jas. W. Lillico, son-in-law of Mr. John Irwin, of the post office, a well-known farmer of North Monaghan, whose place is on lot 8, con., 12, of that township, and a little west of the city limits.

Shortly after midnight Mr. Lillico, aroused from sleep by reverberations of the earth shaking thunder claps, arose from bed and, looking out of his window, as a particularly vivid flash of lightning tore through the air, saw a forked volume of the fluid strike one of his straw barns.

Mr. Lillico at once went to investigate and find what his sudden and unwelcome visitation would result in. The truth was instantly revealed in what first looked like a small blaze at the floor of the barn; however, within a very few seconds his attention was called, by the fast increasing light, to the roof which had suddenly burst into flame.

The structure being composed of, and filled with, inflamable materials, quickly was completely enveloped in fire beyond the possibility of control or extinguishment. From the flames spread to his other barns, one a large one, 58 by 53 feet, the two smaller buildings being 40 by 30 feet, which were all reduced to ashes.

It is particularly distressing that his large barn contained hay and grain, as well as a full grown valuable calf, twenty-seven pigs, seventy turkeys and some sixty chickens, all of which were destroyed by the fire, in spite of strenuous efforts at rescue. All his farm implements, including a brand new mowing machine were also destroyed.

Mr. Lillico had some difficulty in saving his horses; in the barn were his mare and a fine colt. When he went to the rescue of these Animals Mr. Lillico anticipated the usual trouble with horses in case of fire, and procured first a piece of blanket with which to blind the frightened animals; he first took the colt to the door and turned to get his blanket to put it over the animal's eyes. However, as he turned, the colt sprang impulsively through the cordon of fire to safety beyond; the mare, however, gave more trouble, and had to be assisted to safety with a club. Mr. Lillico's cows were fortunately grazing in the field when the fire took place. Although his cows were saved, Mr. Lillico anticipates great inconvenience from this source, as he derives a good revenue from his cream and dairy products, having sold some $10 worth of cream and from $5 to $8 worth of butter weekly. Cows, like human beings, are victims of habit, so as Mr. Lillico's cows have always been milked in one particular barn, he will now, every evening, be compelled to drive his milch cows to the barn of a neighbor.

By pulling off some boards from his burning barn, Mr. Lillico was enabled to save 16 of his hogs, the remainder however, with their protector, the pig pen, would not budge and were burnt.

Mr. Lillico had great difficulty in saving his residence on account of the heavy wind blowing at the time, however the opportune down-pour of rain assisted him in his work. The barns and contents were insured in the Anglo-American Insurance Co., but this will not begin to repay one-half his loss.

Another Barn Destroyed

Mr. Edward Howson, who lives some three miles from Springville, was also a heavy loser by last night's electrical energy, his fine barn being set on fire by lightning and razed to the ground.

Mr. Howson lost all the season's crop which he had harvested. The same barn was burned a few years ago, the stone wall being used on which to erect the present structure. Mr. Howson is a young man and had only a small insurance on the building and contents. The barn alone was worth $500. The storm in his section was very severe.

Mr. Jackson's Loss.

Henry Jackson, of Best's Station, reports that James Doube of the 3rd con. of Emily, on the "Missing Link," of the G.T.R., also had a barn destroyed with two head of cattle, by lightning, during Wednesday's storm.

Edward Shaw, who resides about two miles west of Omemee, is also a heavy loser. The storm was most severe in that section of the country and Mr. Shaw suffered the loss of his large barn and outbuildings. Half his season's crops was stored in his barn and he also lost his farm implements and several head of cattle.

From all accounts received by The Times this severe storm seems to have concentrated its energies upon this section of the country.

In the city itself comparatively little damage was done; the Cordage Company being the only sufferer to any extent, and their loss was confined to a very small sum, a transformer being burnt out.

The Bell Telephone Company and Peterboro Light and Power Companies have reason to congratulate themselves on the complete manner in which their lines are built, as they neither received any damage throughout their vast systems of wires.

SWimming Contest?

Mr. Strickland May Swim Against Miss Annette Kellerman, the Australian Swimmer.

Those of our readers who recently took pride in the swimming record made by Mr. H. F. Strickland, an old Peterboro boy, but now in Toronto, when he swam from Lakefield to the Lift Lock in four hours and forty minutes will be interested to learn that a possible match is on the tapis between him and Miss Annette Kellermen, the Australian female champion swimmer.

Mr. Strickland had an interesting letter in the Toronto News, in which he doubts the records attributed to this expert lady.

The News says;—

"Mr. H. F. Strickland of this city, has written to tell in doubt the accuracy of a statement made in these columns a short time since with regard to the swimming achievements of an Australian lady, Miss Annette Kellermann, who was said, on the authority of the English newspapers to have covered twelve and three-fourths miles in three hours, fifty-four minutes and sixteen seconds.

Another paper says;—

"So far her record is one continuous report of victories. At 15 she won the amateur mile championship of Australia, in still, salt water, in 29 minutes, which was three minutes and 49 seconds faster than any woman in the world had done. She then made two and a quarter miles in 46 minutes and 30 seconds. When she had acquired all the amateur Australian championships, Miss Kellermann became a professional.

"In the last three years she won every Australian long-distance swim making five miles in one hour, 8 minutes and 3 seconds and ten and a quarter miles in 4 hours and 23 minutes. So far her other speed records are 100 yards in one minute and 18 seconds, the best ever made by a woman, and a quarter mile in 7 minutes and 2 seconds, although she prefers the long-distance tasks. She is also the holder of many championship prizes won in her diving contests."

Mr. Strickland may meet this accomplished exponent of the art of swimming when she arrives, and will doubtless make a good showing.

DO NOT WANT MODIFICATION

Labor Convention to Petition Congress re Chinese Exclusion

Washington, Aug. 11.—At a labor convention, to meet in Toronto, in a few days, steps will be taken to have Congress petitioned to prevent any further modification of Chinese exclusion laws. Labor leaders charge that a conspiracy has been entered into by enemies of organized labor to break down barriers against Chinese immigration for the purpose of weakening labor organization in this country. It is charged that the boycott of American goods in China may be used as a pretext for relaxing the rigor with which Chinese exclusion laws have been administered. President Roosevelt, in response to the boycott has directed that more liberal treatment be accorded to Chinese students and merchants who visit the United States and as a result, it is declared, Chinese not entitled to enter are pouring into San Francisco. Samuel Gomphers, president American Federation of Labor, will take charge of the fight.

WILL MAIL THE RESULTS

Junior and Senior Teachers and Matriculation Examinations

The results of the recent junior and senior teachers' and matriculation examinations will be mailed from the Education Department, Toronto, on the 15th instant. The reports of candidates who wrote at high school centres will be sent to the high school principals. Candidates who wrote at other centres will obtain their standing from the public school inspector in whose district the centre is situated.

In the case of junior matriculants a complete statement of the standing of each candidate in every subject will be given. From these statements the candidate and the registrar of any college will be able, without further reference to the department, to determine the candidate's right to matriculation under the rules imposed by such college.

The result of the scholarship examinations are announced by the universities. Candidates entitled to senior teachers' certificates on the result of the scholarships examination will have their certificates forwarded to the high school principals in about a week. All appeals must be in by September 7th.

FEELING IN RUSSIAN CAPITAL

War of Extermination Will Follow if Peace is Not Declared

St. Petersburg, Aug. 11.—M. Witte has sent a cable despatch to the Czar declaring it to be his conviction that only humanity moved President Roosevelt to take action leading to the present peace conference.

He says that the American people sincerely sympathize with Russia, and that the chances of agreement with the Japanese envoys appear brighter since the sentiment for peace on reasonable terms, which prevails everywhere in the United States will do much to bring about an understanding.

At today's meeting of the Council of Ministers and dignitaries at Peterhoff, only two votes were cast for continuance of the war. The majority voted for the payment of a money indemnity and against the ceding of territory.

A Minister who was present at the meeting said; "In order to save millions of innocent lives and unending miseries which must continue from a continuation of the war, we are ready to make sacrifices for peace.

"But if Baron Komura wants our money, our land and our honor, thus making peace dearer than war, he must take the responsibility for the innocent blood that will be spilled. We are all convinced of American sincerity, and are all grateful to President Roosevelt, whose mediation is likely to save Russia from suffering the terrors of a civil war, a foreign war, and famine simultaneously."

CHINA BEWILDERED

Wished to Participate in the Peace Negotiations

Pekin, Aug. 11.—The Chinese government is much bewildered over its inability to participate in the peace negotiations at Portsmouth. To a certain degree, an estrangement toward Japan has resulted, and Japanese irritation at the unpleasant situation as expressed by Count Okuma and others has deeply impressed the Chinese government.

China's Foreign Minister, Na Tong has called upon the Japanese minister to China, and expressed his deep regret, saying that his government desires a renewal of the former close relationship between the two nations. The Foreign Minister also invited the Japanese minister, and all the Japanese legation to his villa for lavish entertainment.

RUSSIA DOES NOT LOOK FOR PEACE

General Belief In St. Petersburg That the War Must Be Continued

EXPECT JAPAN TO PAY

Peasantry Unanimous in Saying Mikado Ought to Give Indemnity

St. Petersburg, Aug. 11. — Russia awaits the Portsmouth conference with more curiosity than interest. There is little expectation in official and unofficial circles that peace will be the outcome. One naturally seeks for motives of bluff in the attitude of indifference and skepticism, and the prevailing war talk, but these are entirely absent. The idea that Russia, under any necessity, must seek peace as an unsuccessful belligerent simply does not exist anywhere. This national habit of mind which forgets or ignores disagreeable facts is one of the amazing and important features of the situation. It has largely changed Russian opinion since President Roosevelt mailed the negotiations, especially since the indemnity was mooted.

THINK JAPAN SHOULD PAY.

Some investigation of the peasant opinion in various parts of the country has been made the last fortnight. This counts for little, but it is interesting to know what the ignorant moujik says.

"Yes, the war should be stopped. Japan should pay us to make peace, because she has been successful so far. We cannot both lose and pay."

When suggested that Japan would demand the payment of her war expenses, the peasants unanimously repudiate the idea and declare that the war should continue until Russia gains eventual success.

According to historic precedents this may seem merely ludicrous, but it represents the ideas of the Russian masses. If therefore the czar rejects the Japanese demands for an indemnity he will have the country really behind him for the first time in prosecuting the war.

HOPE FOR AN ALLIANCE.

It should be understood that there is no anti-Japanese party at present in Russia. The idea that M. de Witte may induce Japan to make a friendly alliance on liberal terms, but without indemnity, appeals strongly to a certain section here, who see in the suggestion the only possibility of peace.

It is significant that the newspaper Slovo, the reputed organ of Grand Duke Alexander Mikhailovitch, which was suppressed a fortnight ago for a month, reappears today. It prints an article by Prof. Migoulino saying;

"Should Russia consent to pay an indemnity masked by any other name it would mark the beginning of the bankruptcy which already is threatening Russia. It is more a question of the degradation of Russia, which already is degraded to the utmost extent, but now arises the question of averting economical bankruptcy. Russia wants peace, but a solid peace, which alone could be created by an alliance with Japan."

The writer adds the hope that M. de Witte's instructions apply to an alliance and nothing else. One is probably justified in ascribing considerable significance to this utterance.

CZAR IS STILL OBDURATE.

The prevailing belief in general and diplomatic circles is that the kaiser advised the czar to make peace and grant domestic reforms. The czar is obdurate on the peace question, but there is every indication that he maintains his determination to reject even the mildest terms Japan is likely to propose. There is, in fact, no exception whatever in St. Petersburg, except possibly at the American embassy, that peace will result from the Portsmouth deliberations.

It should not be inferred that the Russian authorities in the least regret President Roosevelt's action in inviting the conference. They consider he has done Russia a great service in enabling her to put the situation before the country in a manner which will greatly strengthen the hands of the government for carrying on the war. That is all Russia really expects as a result of the conference.

Maloney Remanded

The Man Who Stole Money from Mr. Fred Cook, the Local Painter, Pleads Guilty

Tim Maloney, yesterday morning was up before County Magistrate George Edmison on a charge of stealing samples and money to the value of $60 from Mr. Fred Cook the local painter. Maloney pleaded guilty, but as Mr. Cook is out of town, the case was enlarged until next Tuesday.

The offence occurred in February last, and Maloney suddenly left Peterboro. He went from here to Cape Vincent, N.Y., and after staying there a while migrated to Brantford, where he fell into the hands of the authorities.

Mr. R. E. Wood appeared for the Crown and Mr. F. D. Kerr for the defendant.

Maloney was in town last winter and got employment from several merchants painting signs on their windows. In the spring he also visited here, representing himself as a detective in the employ of the C.P.R.

Maloney's record does not appear to be of the best as he is alleged to be wanted by the police in a number of towns and cities throughout the country.

Japanese Buying Canadian Cattle

Stratford, Ont., Aug. 11.—Three representatives of the Japanese Government have purchased from W. W. Ballantyne, Downie Township, three young Ayrshire bulls and four heifers for breeding purposes on the Government farm near Tokio.

Old Boy's Reception.

An Old Boy Explains the Flat Failure of Our Recent Old Boy's Reception.

(To the Editor of The Times.)

In the Evening Review of to-day's date I see an alleged conversation with "a prominent citizen," wherein the latter advocates having "A bumper reception" to the Peterboro Old Boys, in 1906. Now, sir, I heartily agree with prominent citizen in the abstract, but in recent memory of our "Old Boys" reception a few days ago I cannot agree with him in considering such a proposition tenable under existing circumstances. There are two insuperable barriers against the successful accomplishment of so desirable an object. The great majority of our old boys come from or may be expected to come, from Toronto. In that city the Peterboro Old Boys' Association has for its chief executive, gentlemen, who, whilst most prominent in business affairs are too engrossed with their own affairs to spare the time to work up enthusiasm over any sentimental or non-productive (to themselves) a scheme. New and younger blood must be infused among those in charge of our old boys in that city to get any enthusiasm worked up. On the other hand the parsimonious grant made by our City Fathers towards receiving our absent sons and relatives, not only made a laughing flasco of this year's old boys' day in Peterboro, that will take years to live down and be forgotten by those who did come.

The whole attitude of our present Council seems directly aimed at driving money from, instead of attracting it to our city. In years gone by, with a more intelligent aggregation of men in our civic chairs, thousands of people every year used to come to Peterboro on excursions, were appropriately received and welcomed. Now, not a holiday comes but the whole trend of travel, and fluctuation of money, is away from this city.

When the time comes for electing the successors to our present Council let us get men out who have the interests of the city more at heart than thoughts of position without commensurate services rendered, and whose whole thoughts are not centered in personal petty gain.

OLD BOY.

Monogenarian Dies

Sudden Death of Henry Goddard at the Age of 80 Years.

On Wednesday evening, Henry Goddard, died suddenly at the House of Providence, where he has been an inmate for the past three years. Mr. Goddard had just finished shaving himself when he fell over in a faint, but was caught before dropping on the floor. He expired within half an hour. The deceased was a laborer and before coming to Peterboro resided for some years in Hastings. He was born in Montreal, and so far as known leaves no relatives hereabouts. The funeral took place this morning. Mr. Goddard was a man who, although he was almost 80 years old, did not have the appearance of being over seventy and was active for his age. Heart failure was the cause of death.

WHERE LABOUR IS IN DEMAND

16,000 Men Required in the Northwest

HARVEST BEGINS AUG. 25

Official of the C. P. R. Expect That Ontario Will Supply 8,000 of the Men Required

Montreal, Aug. 11.—The official advices received by the Canadian Pacific Railway Company as to the number of men that will be required to harvest the wheat crop in the west, places the figure at about 16,000. Probably 13,000 of these will be needed in the province of Manitoba and 3,000 in the Territories. None will be required before August 25, which is the date it is estimated that harvesting will begin generally.

Last year the number of harvest hands taken west fell short of 15,000, so that there will be an increase of about 1,500 men this season. No difficulty is anticipated in securing the requisite number, as the railways are being deluged with applications from men desirous of going west to secure work.

The first excursion by the C. P. R. will be run from the Maritime Provinces on August 19, and will embrace all stations on the Canadian Pacific Atlantic division. Following it will be two on August 29, from Toronto and all stations on the line west of Ontario capital, excepting Guelph city, and from all stations south of the line of the Grand Trunk between Toronto and Sarnia. Two more excursions to feed the western demand for labor will leave September 2, from all stations north-west of Toronto and on September 4 another will follow from Toronto and points east and north to Sharbot Lake. On the same date special excursions will be run from points east of Toronto, on the Grand Trunk, as far as Kingston. Northern Ontario, in the neighborhood of the Soo and Sudbury, will be covered on September 6, and the same day the eastern section of the province, that is to say, from points on the Grand Trunk east of Kingston, will send its hundreds of laborers. The province of Quebec will be probably the last territory from which excursions will be run, as the present schedule fixes September 8 for excursions from all parts of the C. P. R. and Grand Trunk and other railway lines in the province.

Usually Quebec province sends a smaller contingent of laborers than either Ontario or the Maritime Provinces though the number varies widely. It is expected that Ontario will contribute 8,000 of the men required, the Maritime Provinces from 4,000 to 6,000, and Quebec the remainder. They will all be distributed from Winnipeg this year, instead of being carried through in entire train loads to points further west, as formerly.

The crop reports sent in from the west continue to be very optimistic in tone, and nothing has yet transpired to dampen the hope that the year will be a record one for wheat.

TELEPHONE TALKS.

TO TELEPHONE USERS AND THE GENERAL PUBLIC,—

The condition of the telephone business in Canada was described by a witness at the opening of the Parliamentary enquiry as....

"A monopoly owning and controlling the local and long distance lines."

The real condition is, that neither in the past nor the present has there been a monopoly of the telephone business in Canada. It has been strictly a case of "the survival of the fittest."

During the past twenty years more than a hundred companies have been authorized by Dominion, Provincial and Municipal authority to do a telephone business in Canada, particularly in the provinces of Ontario and Quebec, where this Company has been chiefly operating, of which ninety-two are in operation to-day, as disclosed by the evidence before the Special Committee.

The field is, and has been free to all, and those who have embarked in the business have lacked neither scope nor public encouragement.

Several companies organized by men of prominence in this country, backed by large capital, have offered the keenest possible competition to this Company, but without success. The failures have been many and disastrous.

It was stated in evidence before the Special Committee that the City of Toronto has during the past ten years advertised in the press of Canada and the United States for a company to furnish a competing telephone service in that city. Other cities in the Province have done likewise.

Promoters have time and again sought to exploit the Canadian field.

The law permits municipalities to furnish its citizens with telephone service.

In view of these facts, we are justified in claiming that the Company has achieved its present position in fair competition.

The secret of this success has been enterprise in exploiting the business, integrity in the administration of the financial affairs of the Company, economy of management, giving service superior to all competitors, and maintaining reasonable rates. It is by a continuance of this policy, and by meeting, where practicable, every demand of the Public for future extensions and development, that we hope and expect to maintain our present position with our patrons, the Canadian People.

THE BELL TELEPHONE COMPANY OF CANADA.

TIREDNESS MEANS DANGER

ndicates Faulty Blood and Worn Out Nerves—Build Up or Total Collapse Will Surely Follow

When you're tired all day, bothered by trifles, exhausted with nervousness, be sure there is something wrong.

You need bracing up, need more nourishment in the blood, need a powerful medicine to vitalize the nerves and distribute force and staying power to all over-worked organs.

The most marvelous success is Ferrozone, a nourishing tonic so scientific as to be the admiration of every physician. Ferrozone performs wonders for people in poor health; acts directly on the blood, enriching it with strength and new life that is at once dispatched to all parts of the body. Ferrozone feeds the nerves and vital energies, supplies force, determination, and joyous, buoyant spirits.

A case where there was lassitude and lack of strength is told by Mr. David Brown, of post-office box No. 30, Ireton, Ont.: "About a year ago my health commenced to fail. My hands and feet seemed always cold. I felt worn-out and exhausted, weak as a little child. My face twitched. My limbs and arms commenced to lose their sense of feeling and finally my left side was perfectly numb. All my color left. My appetite ran down. Ferrozone was the first to give me any help. I improved with it very quickly. It toned up the blood and started circulation, so that the numbness gradually disappeared. My condition was perfectly cured by Ferrozone, and I have been well ever since. (Signed) "David Brown."

SPECIAL NOTICE.—To get satisfactory results be sure you get Ferrozone only. Fifty cents per box, or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

Weekly Times

The Weekly Times is published every Friday each week throughout the year, and has a large circulation throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Weekly Times publishes all the news of each week, local, district and foreign.

The Weekly Times will be sent to any address at $1 per year, strictly payable in advance. Single copies 2 cents each.

PETERBORO AUGUST 11 1905

UNIVERSAL FRIENDSHIP

The quality of mercy is not finer, nor its dimensions broader, than the quality of Kaiser Wilhelm's friendship these days. He is now preparing for more cordial relations with England, according to report. His friendship for Russia was manifested only week before last, when he had barely finished making up with France after their little tiff over the Moroccan situation. The Kaiser, instead of a militant ambition, may cherish aspirations to become the exponent of universal peace, possibly stimulated thereunto by the example of his imperialistic twin, Theodore Roosevelt, on this side of the water.

Should a suggested alliance of England France and the United States, into which self interest would surely Russ aand Japan, come to pass, the Kaiser and his country would be decidedly out in the cold — unless he chose to come in, like a very small and reluctant minority, at the last to make agreement and peace unanimous. The alliance between the three powerful countries would leave him little choice, and it may be that, perceiving the possible trend of international relations, he prefers to be the leader in the movement. To be sure, the big triple alliance is but a dimly suggested possibility, but the logic of it is powerful; it could hardly fail to insure world-peace. Looking to the end of universal peace, it would be universally commendable — except possibly to the country which might not be consulted. It would not be bad policy for the Kaiser to undertake the making of world-friendship, and he could come nearer to achieving it than anybody. French diplomacy can be induced to meet him half way; England would pleasantly acquiesce after a debate. The United States would not seriously hesitate to enter such a comprehensive arrangement for the elimination of war.

But, Shades of Frederick the Great and of Bismarck! is the aggrandizement of Imperial Germany to be turned into a peace propaganda that will leave nothing to arms anywhere, and by the bristling and belligerent Billy The universe could not be more startled and diverted if our own Colonel of the Rough Riders betook himself to a retreat and monastic meditations. Both gentlemen are becoming exceedingly tame and proper these days, and there is no telling what may happen to either of them.

MEMBERS HAVE TAKEN FRIGHT

The Farmers' Sun thinks that public opinion is able to make itself felt even by a Parliament which has yet four years to run. W. F. Maclean has handed his extra thousand for indemnity over to the Hospital for Sick Children in Toronto, Mr. Telford, the member for North Grey, has given the half of his to a local agricultural society. Hon. Geo. E. Fisher vehemently declares that he did not sign the round robin in favor of the increase and Mr. Lalor, the member for Haldimand, says that not only did he refuse to sign the request for an addition, but that he was opposed to what was done and was prevented from voicing his opposition in the House owing to illness in his family, which detained him at home while the grab was being made. A number of members, whose names are not mentioned, are also said to have refused to accept the extra amount voted.

With the possible exception of Mr. Lalor, the attempt to evade responsibility will not succeed. Not one word of protest was uttered in the House by a single member when the grab went through. Every member of the House at the time is, therefore, as fully responsible as is the Government of the day for the steal. Members who were not present are equally responsible unless unavoidably absent. Constituents of the absentees should thoroughly satisfy themselves that the excuse for absence is sufficient, and the only satisfactory guarantee of the sufficiency of these excuses should be a promise, and the fulfillment of the promise later on, to move next session towards restoring the indemnity to the old figure.

Meantime, it is encouraging to note that public opinion, when fully aroused, can make itself felt. This shows that the responsibility for wrong-doing after all rests upon the people. They have the power to prevent wrongful legislation, and if they suffer legislative evils it is their own fault.

A Cigaret Fiend

Montreal, Aug. 9.—Rodolfo Paquet, a young man aged 21 years, died on Friday last after suffering a succession of violent cramps in the stomach, and Dr. Lacombe has since pronounced the death due to nicotine poisoning. The youth was abnormally addicted to the use of cigarets, and it is said that he consumed as many as six packages daily. A week prior to his death he was suddenly seized with cramps, and after being carried from his place of work to his house, suffered intense agony almost up to the time of death.

HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & Co., Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75c. per bottle. Sold by all Druggists.

Hall's Family Pills are the best.

Farmer's Heavy Loss

Bowmanville, Aug. 9.—During the electrical storm that passed over this district Sunday morning early the barn of Mr. Leslie Short, near Foley village, was struck by lightning and set on fire, all the farm buildings being burned, with contents, including farm machinery, implements, about forty tons of hay, a milch cow, two calves, twenty-five hogs, cream separators, and one hundred bushels of barley and other grain. Mr. Short had a miraculous escape from instant death.

Annual Meeting.

Big Bend Lumber Company Hold Annual Meeting in this City.

On Tuesday some fifty shareholders, representing about 90 per cent. of the stock of Big Bend Lumber Co., whose mills are at Arrowhead, B.C., met in annual session in the offices of Messrs. Hall, Medd & Davidson, in this city.

The financial statement of the year was presented, and the operations had been of such a satisfactory nature that a dividend of eight per cent. was declared.

The old Board of Directors was re-elected, the members being Messrs Thos. Ludgate and Joseph Ludgate, of Arrowhead, B.C.; George S. McCarter, Revelstoke, B.C., Wm. Flavelle and Geo. A. Jordan, Lindsay; H. W. Richardson, Kingston, J. Smith, Millburn, N.Y.; R. H. Hall, and Adam Hall, Peterboro.

At a subsequent meeting of the directors the officers were elected as follows;

President—Thos. Ludgate.
Vice-President and Manager — Adam Hall.
Secretary-Treasurer—H. Kirk.

The capacity of the mills is 100,000 feet per day, and the whole band mill is splendidly equipped. The power is derived from a battery of boilers of 100 horse power.

The prospects of the company are of the brightest, and a dividend of eight per cent. has been declared.

SEALED TENDERS addressed to the undersigned, and marked on the envelope "Tenders for Island No. 24," will be received until Monday, the 21st day of August next, at noon, for the purchase of an Island in the Township of Smith County of Peterborough and Province of Ontario, comprising an area of 61.35 acres and known as Salmon Trout Island, No. 24.

The tenderers should state the amount they are willing to pay in cash for this Island and an accepted cheque for ten per cent of the amount tendered should accompany each tender, which the successful tenderer in the event of failure to complete the purchase within one month from the date of the award shall forfeit to the Department.

The highest or any Tender, will not necessarily be accepted, and the unauthorized insertion of this advertisement in any newspaper will not be paid for.

J. D. McLEAN,
Secretary.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority to some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or corresponding township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 40 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1893.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the North-west Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba or to any of the Dominion Lands Agents in Manitoba or the North-west Territories.

W. W. CORY,
Deputy Minister of the Interior

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

How to Visit Colorado

Go first to Denver. It is the State capital, as well as the largest, wealthiest and most metropolitan city between the Missouri River and the Pacific Coast. The city itself is very interesting, and from it start practically all the trains over the various roads into the mountains.

Many of the most enjoyable one-day trips in Colorado begin and end at Denver. The cost of these little journeys is not great.

After you have familiarized yourself with Denver and its surroundings will be soon enough to decide where to go for the rest of your visit. The question must be considered from several standpoints—altitude, hotel accommodations, accessibility, amusements, etc.

Our Colorado literature will help you in deciding where to go and what to do. Sent free for the asking.

VARICOCELE & STRICTURE

No other disease is so prevalent among men as Varicocele. As it interferes with the nutrition of the sexual organs it produces weakness, loss of semen through the urine, decay of the organs, pains in the loins, aching in the back, nervousness, despondency, bashfulness, palpitation of the heart, constipation, and a combination of these results in complete LOSS OF MANHOOD. Thousands of young and middle-aged men are troubled with STRICTURE. If you have reason to believe you are afflicted with it, don't neglect it. It will ruin you. Don't let doctors experiment on you by cutting, stretching or tearing it. Our NEW METHOD TREATMENT dissolves the stricture tissue, hence it disappears and can never return. We cure Varicocele and Stricture without operation or loss of time. The treatment may be taken at home privately. Send for our Free Illustrated Book on VARICOCELE and STRICTURE. WE GUARANTEE TO CURE OR NO PAY.

Kidneys & Bladder

All sexual complaints affect these organs, hence the kidneys are a great source of disease. Have you aching or weakness over the small of the back, tendency to urinate frequently, deposit in urine, coldness of hands or feet, a drowsy feeling in the morning? Don't neglect your kidneys. Our NEW METHOD TREATMENT is guaranteed to cure any disease of these organs or no pay.

No Names Used Without Written Consent.

C. W. Rowe, of Jackson, Mich., says: I had varicocele in the secondary stage and two strictures of 8 years' standing. I was operated on twice, undergoing great suffering, but only got temporary relief. I was finally advised to try the NEW METHOD TREATMENT of Drs. K. & K. The enlarged veins disappeared in six weeks, the stricture tissue was removed in eight weeks and my sexual energy and vitality returned so I was a man in every respect. I recommend you doctors with my whole heart."

CURES GUARANTEED. NO CURE NO PAY.

Before Treatment. After Treatment.

We treat and cure Nervous Debility, Lost Manhood, Varicocele, Stricture, Blood Diseases, Kidney and Urinary Complaints. Consultation Free. Books Free. Write for Question List for Home Treatment.

DRS. KENNEDY & KERGAN
148 SHELBY STREET; DETROIT, MICH.

The Glenara Gold Mining Co.

Capitalization, 1,500,000 Shares — Stock Fully Paid and Non-Assessable
Par Value, $1.00 Per Share. — Treasury Stock, 700,000 Shares.

This Company was organized in March, 1905, under the laws of Arizona, with a capital of 1,500,000 shares. The par value of these shares is $1.00 each. They are full paid and forever non-assessable. The Company owns approximately seventy-five acres of territory in the Goldfield district. By reference to the map you will note that every acre is within the producing area, and with the systematic development this large acreage is to receive, there is no doubt that the stockholders will very shortly see the Company on a producing basis.

We desire to say right here that this Company is organized for legitimate mining, and not stock jobbing purposes, and among the directors are some of the best known mining men in the West. It is their one desire to make the GLENARA GOLD MINING COMPANY a great success at the earliest possible moment.

It is for the purpose of raising funds to vigorously develop the Company's holdings that some Treasury stock is now offered for public subscription. Out of a capitalization of 1,500,000 shares, 700,000 shares have been placed in the treasury. This treasury reserve insures the company a large working fund, if needed. It is the belief of the management, however, that it will not be necessary to dispose of over 50,000 shares of the treasury stock. The present outlook is such that the management believe that the mine will be on a paying basis before many weeks have passed.

The Property of The Glenara Gold Mining Company Consists of the Following:

The Glenara Group consists of four claims located in the Goldfield mining district of Nye County, Nevada. These claims are known as the Kentucky Bell, Mabel M., Lone Jack and June Bug, covering about seventy-five acres. This group of claims is located on a system of ledges over a mile and a half in length and about half a mile wide. These ledges are the same as those traversing the Kendall, Tonopah Club, Vernal, Quartette, Black Butte, New York, Brooklyn, Jumbo, Vernal, Penn and Federal.

The surface indications at the time of location were of the very best, however, good float being found upon the ground and good panning's are obtainable, all of which indicate that the property can be developed into a paying proposition. The ground has been thoroughly prospected and the sinking of the shaft begun on the Kentucky Bell claim. There is a force of men sinking a shaft as rapidly as possible. Good ore has been encountered running from $3 to $18 per ton, increasing in value with depth, and it is safe to say that a strike may be looked for any day.

Taken as a whole, the investment offered by the Glenara Gold Mining Company is equal to any prospective company in the district. The claims are exceptionally well located, covering a large area; the management is conservative and honest, and is working hard for the success of the company.

The proposition will stand the very closest investigation, and, in fact, an investigation by prospective investors WILL MEAN AN INVESTMENT. WE COURT INVESTIGATION.

The allotment of stock is very small, and if you desire to become interested with this enterprise, it will be necessary for you to communicate with us at once.

The work on the property is being pushed to the utmost, and any day may bring news of a strike which will advance the price of the stock.

For prospectus and full particulars, address

R. H. B. WARBURTON, Fiscal Agent,

Office, 522 McPhee Building. DENVER, COLORADO

Western Coal and Chemical Company

Incorporated under the Law of Oklahoma all stock full paid and Non-Assessable, all stock alike—No Preferred Issues.

Capital Stock, $2,500,000 2,000,000 Shares of $1.00 each par value 5,000 Shares of $1.00 each, par value.

The object for which this company has been formed and incorporated is to mine and deal in coal, and oil and kindred products, with special reference to the operation of valuable coal and oil lands in the State of Wyoming. But a larger and even more lucrative proposition is presented in the utilization of cheap fuel and waste products for the production of Cyanide of Potassium on the larger scale at a cost so low as to defy competition. Along with the production of Cyanide the company will be in a position to turn out large quantities of Chlorine at a nominal cost, this Chlorine being of the utmost value in the reduction of gold ores throughout the vast area of which this company's mining district represents the center.

The rentability of this enterprise may be better illustrated yet by the following figures which leave out all profits that might come from the sale of coal, coke, power, coal-tar, gas, ammonia, etc. The net income per year of a plant of the capacity which it is proposed to erect, would be in a round number $326,000.00. These figures indicate that the capital invested will be returned in a period of less than six months, or in other words, THE INTEREST UPON THE INVESTED CAPITAL WILL BE OVER 200 per cent. Not among a thousand mines is there one mine that will yield such an enormous income from such a small investment. And such a quick return cannot fail to bring the price of the shares up to par, and above that, in a few months from the start.

References of the highest order on request.

FAMINE IS NOW FEARED

Pussia Faces Want at Home and War Abroad

MAY NOT ACCEPT RELIEF

Women in Worst Districts Demand Return of Husbands—Government Will Pay No Attention to Condition Until Forced to do so by Disease

St. Petersburg, Aug. 11.—It is feared that there will be a recurrence of the great Russian famine of a few years ago, when Rev. T. DeWitt Talmage and a number of Americans visited this country and distributed provisions with a bountiful hand. At that time hundreds of thousands of Russians suffered because of the shortage of the crop, and the world-wide relief was gladly accepted by the government. Now that the war with Japan is on, it is doubtful whether the government will be willing to confess its weakness and allow outside aid and assistance, now matter how many people may be starving in the interior of Russia.

According to the reports at hand from the provinces, there will be a total failure of the crop in many districts of Central, Eastern and Northern Russia, and as a result the famine in store for the affected districts will undoubtedly far surpass those of 1891 and 1897.

From the governments of Vyatka Kamamatoff, Samara, Yekaterinoslav, Yamhoff, Orel and Ryazhan the Zemstvos report a total failure of the crops so far as winter and summer corn, peas, beans and cattle food are concerned.

A bad harvest is predicted from the governments of Moscow, Novgorod, Tula, Kursk, Tver and Tskoff, while on the other hand Southern Russia has a fair harvest.

But the misfortunes in the districts of Central, Eastern and Northern Russia are likely to be all the worse because the men in the districts mentioned have been called in as reserves, and all that remain behind are women, children and old men, incapable of work and unable to procure bread for themselves and for their families.

In consequence, the women of many villages have revolted and have marched in crowds to the local police stations, where they declared that they did not want to die, and that they would not leave the Central police stations until their husbands were restored to them.

Up to the present time the government has maintained an attitude of absolute inactivity towards all of these manifestations, and it is believed that nothing will be done until, as usual, it is too late and until famine, typhus and scorbut have broken out.

—Mr. Alf. Cox, of Toronto, is visiting in the city on his way back from the lakes.

CONCESSIONS ARE NOW BEING MADE

Trying to Ally Dangerous Conditions Prevailing in the Caucasus

SOME ELABORATE REFORMS

Viceroy is Travelling Among the People and Hearing Grievances

Odessa, Aug. 11.—The Viceroy, Count Vorontzoff Dashe, is making great concessions in the Caucasus in an effort to allay the dangerous conditions that prevail. He travels personally among the people and seeks information from them as to how they may be benefitted. Notables of the different nationalities, under the Viceroy's guidance, have elaborated a series of the most urgent administrative and fiscal reforms which are to be brought at once to the attention of the central government. Count Dashe indorses these proposals, and advocates their speedy application. He has also promised to use his influence in securing a careful consideration of the languages of the Caucasus in order that they may not be crushed out.

In spite of all this energetic and competent work in the interest of reform, the Caucasus continues in a state of revolution. Sometimes the opposition of the people is violent, and it is always daring and determined. It is even thought that strikes are more general to-day than at any previous time. The railway workers on the Southern Railway, and on the Trans-Caucasian line, which cover 1,500 miles, have been idle for twelve days, and the business in the cities, through which they pass, has been at a standstill, while the ports of Baku, Batum and Novorossisk have suspended operations. French, Austrian, Italian and English steamship companies refuse to accept goods destined for these cities. The population of the region is thoroughly warlike, and police and military patrols are frequently over-powered. Altogether it is deemed improbable that Count Dashe, able and unique though he has shown himself to be, will succeed in restoring order in the Caucasus, until the general conditions of the Empire are placed upon a settled basis by government recognition of the demands of the people.

—Lindsay Post says: Mrs. T. McGinnis and children, of Chicago, are in town, guests of her cousin, Mrs. Jos. Brown, and other friends. They left to-day to visit Peterboro friends.

This district records the greatest discovery of Gold that has ever been made in the history of mining

This Company is a legitimate Mining enterprise, managed by honest, capable mining men.

The property is on the Montgomery Mountain, adjoining the MONTGOMERY SHOSHONE mine, which has only been operated ten weeks and which is now

Shipping Ore that runs TWENTY-THREE HUNDRED DOLLARS to the Ton.

The Capital of the Company is $1,250,000, divided into 1,250,000 shares of a par value of $1.00 each fully paid and non-assessable, 300,000 shares of which are in the Treasury.

The Officers and Directors are
President and Treasurer, D. H. PERRY, Salt Lake City, formerly President of the Salt Lake Stock and Mining Exchange.
Vice-President, Hon. JOHN SPARKS, Governor of Nevada.
Directors: D. E. FURLEY, General Passenger Agent, Ogden Short Line R. R., Salt Lake City; Hon. JOHN SPARKS, Governor of Nevada; E. E. EDWARDS, of the firm of Vermilyea, Edwards & Stanley, Attorneys-at-Law, Goldfield, Nevada.
The Company refers by permission to
McCormick & Co., Bankers, Salt Lake City; John S. Cook & Co., Goldfield, Nevada; Ormsby County Bank, Carson City, Goldfield & Tonopah, Nevada.

We believe this property and its stock will have an advance that will be as sensational as was the Original Tonopah immediately after its development.

We can supply orders for a limited number of shares at 75 cents per share This price expires July 10th, after which it will be raised. For information or stock apply to Thos. Patterson & Co., Fiscal Agents, Peterborough, or.

D. D. PEERY COMPANY, Brokers, Goldfield, Nevada

NICKEL AND COPPER

A Few Thousand Treasury Shares

Only are left to be sold before all offerings are WITHDRAWN FOR FIFTEEN MONTHS' TIME.

You can buy the few remaining shares now at $1.00, but fifteen months hence you will probably pay from $5.00 to $20.00 per share.

THERE IS NOTHING EXTRAORDINARY

In shares advancing as above stated in mining propositions, for it is an old story of phenomenal advances in mining shares, Granite Mountain going from ten cents to $75 per share, Calumet & Hecla from $1.00 to $900.00, and so on down the list.

CONSIDER FOR A MOMENT

What this company offers—It controls to-day an actual territory of nearly Three thousand acres of land known to be immensely rich in nickel and copper ores, all in a district known and proven to be sixth among the greatest copper districts in the world. This company will control at least one thousand acres more. In all nearly five thousand acres, which will not be mined out in two hundred years

WE STAND READY TO PROVE

That this company offers to day the most meritorious mining proposition presented in ten years' time

Write or call for full particulars. All shares registered by International Trust Company, Boston.

International Nickel and Copper Co., Ltd., Suite 93, Journal Building, Boston, Mass.

W. K. HALL, Fiscal Agent, Peterborough.

"TONOPAH" HOME CONSOLIDATED

STOCK WILL ADVANCE

WHY?

Because it is shipping ore from its Alta mine. Are there many mines shipping ore? We guess not. Just compare the prices the stocks are selling at. If you invest, buy stock in a shipper.

From San Francisco, Wasp, July 22nd, W. K. HALL, Peterboro, Ont., has some of this stock for sale.

Yours very truly,

W. J. ARKELL & Co.

ADVERTISE IN THE TIMES

THE BEST YET!!!

We have given our clients some good things in mining stocks during the past two years, but we believe one of the best propositions we have ever handled is

DILLON OIL MINING & DEVELOPMENT CO'Y., OF CANEY, KANSAS

Call and get full particulars. Watch for description of this property in The Times.

Thos. Patterson & Co.,
FISCAL AGENTS, PETERBOROUGH.

APPEARANCE

Is such an important feature on the table. It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table.

Got New Vitality Increased Appetite

True Strength, Vigor and Buoyant Health Quickly Followed the Use of DR. HAMILTON'S PILLS.

By purifying and nourishing the blood, Dr. Hamilton's Pills quickly impart new vigor to all week organs. The kidneys and liver are stimulated, disease-breeding poisons are carried off, the entire body is renewed and restored.

Lack of appetite is changed into keen zest for food. Digestion and assimilation are made perfect. Thus all you eat is turned into nourishment and building material.

Read the evidence published here; it tells just how Dr. Hamilton's Pills cure the sick and help the weak:

Vital Energy Increased.

"I always felt 'drowsy" and tired. When I arose in the morning my limbs ached and I felt sick. "I didn't enjoy my meals and couldn't digest properly. The Blood and Nerve Pills strengthened my stomach, purified my blood, made me feel like new. No better medicine exists.

[Mrs.] L. M. Morang, Sidney, C. B.

By relying on Dr. Hamilton's Pills you are sure of strong vitality, nourishing blood, bright, cheery spirits. The marvel of this medicine is that it keeps you well—prevents and wards off sickness of every kind.

Dr. Hamilton's Pills keep thousands of people healthy. Won't you use them also? Sold everywhere in 25c. boxes or five boxes for $1, by mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

As party will be limited to 125, early reservation is necessary. For full particulars call on Grand Trunk agents, or address E. C. Bowler, Room 908 Union Station, Toronto.

The New-York Tribune Farmer

The Tribune Farmer has no superior anywhere in this wide world as a publication for farmers and their families. It does not, to be sure, tell how to extract green cheese from the moon, but everything worth knowing about the theory or practice of farming is treated by men recognized as experts in their various lines. But The Tribune Farmer does more than supply such valuable information. It keeps the farmer in touch with all the latest improvements by text and pictures, and pays special attention to the work being done at agricultural colleges all over the country. Besides all this it has features to interest the women folk. The price is $1 a year. For a free sample copy send a postal card to The New-York Tribune, New York.

Peterborough Business College
larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. A fine school where you have much prospects.

NOW IS THE TIME TO ENTER

If you cannot attend call or write for particulars regarding our correspondence courses.

W. H. PRINGLE

Canoe Lumber Dear.

Basswood Lumber Now Costs $20 to $40 Per Thousand Feet.

In conversation with a Times' representative yesterday, one of the leading local canoe manufacturers reported that this season's output is about exhausted. The demand for the remainder of this season will be almost completely confined to orders from lumbering operations.

At this season the demand for tourists' canoes and general use almost ceases. The employes will now be mainly engaged, for a time, in setting over and culling the lumber for building stock, and for canoes for next summer's orders.

Our informant deplored the excessive prices now exacted for good basswood and cedar lumber. Basswood that a few years ago could be readily purchased freely for $15 a thousand, now is scarce at from $20 to $40 per thousand. Average basswood lumber can be bought for $20 to $25, but for the quality required for canoe building, as high as $40 is not considered, since an extra long lumber is wanted to save frequent joints in building.

Collegiate Institute Fire

Firemen Make Record Speed to Extinguish the Fire at Our Local Seat of Learning.

About 8.30 last night an alarm of fire brought the fire laddies from the various ice-cream parlors and confectioners' places, where firemen most do congregate, in one two three time. The brigade, judging by the furious clanging and clamor of the bell made, if possible better time than usual in their natural desire to save life and property.

Up Water street the horses and men flew on their philanthrope errand to McDonnel street. Here the dire intelligence reached their startled hearing that the Collegiate Institute was in flames. With renewed vigor the horses were lashed to further effort until the Institute was reached. Here a moment's search revealed the cause of the alarm Mr. Fife had lighted and left lighted a gas jet in the chemical room, and the flicker on window panes had given some one the impression that a fire was in progress.

The brigade went back to the ice-cream and softly cussed.

The men hope that no bibulous individual will, some of these nights, mistake the moon for a fire as the boys would not connect that distance.

To Cobourg by Trolley.

Report Says a Syndicate Has Purchased Defunct Cobourg and Peterboro Railroad.

It was rumored in the city yesterday that a syndicate has purchased not only the right of way of the now obsolete Peterboro, Cobourg and Mumora Railroad, but that the gentlemen interested have even bought the piers, many of which are half under water in Rice Lake.

There is reason for believing this rumour to be well founded, although the personel is not as yet been made public.

Mr. Learmonth, Manager of the Peterboro Radial Railway yesterday denied that his company contemplated an extension to Cobourg as noted, saying that whilst their charter would permit them building to Rice Lake, their present energies in extension would be, at present, more towards the line to Young's Point and Lakefield.

To accomplish the Peterboro-Cobourg extension would be comparitively a cheap undertaking as the old road bed is in good shape and fairly well graded. Of course such a line would have to meet the ice question which destroyed the old Rice Lake bridge, but modern methods and engineering skill have accomplished much since that bridge was built.

Cheap Rate to Toronto

On August 14th, Peterboro's Civic holiday, the Canadian Pacific Railway Company will issue tickets to Toronto and return at $2.25, and Niagara Falls and return at $3.30. Tickets good going only on train leaving Peterboro at 8 a.m., connecting with boat leaving Toronto at 11 a.m. Toronto tickets good returning August 15th. Niagara Falls tickets good returning August 16th. For tickets and all information see W. McElroy, City Passenger Agent, 243 George street.

A Pretty Loca Custom

A correspondent writes The Times complaining about the ladies leaving off their hats whilst in public. We cannot see why the fair ones should be debarred from showing a woman's crowning glory, her sunny or raven locks, and putting her hat away in her bureau to save it from the ravages of sun and rain. It gives the city quite a summer resort appearance to strangers to see our ladies bareheaded thoroughly at home on the sidewalk or pavement.

MECHANIC AND COFFEE

The Old Coffee Troubles Left When He Quit.

"Since quitting coffee I am nearly and well at 65 and go to my work every day and feel stronger and better in every way than I used to when I was considerably younger.

"I am a mechanic and have been a great lover of coffee and used it all my life until a few months ago when I made up my mind that it was hurting me. I suffered from constipation, indigestion and kidney troubles and I used to bloat up and have pains in my back.

"Something had to be done, and I quit coffee, the old kind, I mean, and began to use Postum Food Coffee. In a few weeks I was a well man again. My bowels became regular, my food digested comfortably, the bloating, the pains in my back no longer troubled me and my kidneys resumed healthy, normal action. That improved condition remains. I am sure I owe it to Postum Coffee, for I have used no medicines.

"I like Postum much better than the old kind. It seems to be more satisfying and I and my whole family drink it morning, noon and night. This is my honest statement of what Postum has done for me." Name given by Postum Co. Battle Creek, Mich.

There's a reason.

Get the little book, "The Road to Wellville," in every pkg.

When a woman gives up it is because she has gone to the utmost limit of strength and endurance. It is a marvel how women will stagger on under the daily household burdens when the whole body is racked with pain.

For the nervous, run-down condition which so many women experience, as a result of overstrain in household cares, there is no medicine can equal Dr. Pierce's Golden Medical Discovery. It strengthens the weak stomach by curing diseases of the organs of digestion and nutrition. It purifies the blood of poisons which cause rheumatism and other painful diseases. It nourishes the nerves, and builds up the body with sound, healthy flesh.

There is no alcohol in "Golden Medical Discovery" and it is entirely free from opium, cocaine and all other narcotics.

Accept no substitute for the "Discovery." There is nothing "just as good" for weakness, nervousness and debility.

"I want the whole world to know what Dr. Pierce's medicines have done for me," writes Mrs. Helen Hardgrove, of Sanga, Knox Co., O., "I had many of the ills of woman's life. My lungs and throat troubled me besides, and I had rheumatism. About a year ago I had to give up work I was so bad. I had heard so much about your medicine I thought I would try it. I took four bottles of your 'Golden Medical Discovery' and 'Pellets,' and by the time I had taken half of the first bottle I began to gain, and kept on getting better. And now I have no more of my old ailments and am entirely cured of rheumatism. I feel like a new woman."

Dr. Pierce's Common Sense Medical Adviser is sent *free* on receipt of stamps to pay expense of customs and mailing *only*. Send 21 one-cent stamps for the book in paper covers, or 50 stamps for cloth binding. Address Dr. R. V. Pierce, Buffalo, N. Y.

Personal

—Dr. M. A. Morrison is up the lakes.

—Mr. H. P. Kennedy is in Montreal on business.

—County Magistrate George Edmison is at Stony Lake.

—Mr. R. N. Smart, of Port Hope, was in the city yesterday.

—Havelock Standard says: Miss Nellie Griffin of town, spent Monday with friends in Peterborough.

—Mr. R. E. Layfield, who has been spending a few days up the lakes has returned.

—Mr. E. E. Shortell, who has been in Belleville for the past few days, has returned to town.

—Port Hope Times says: Mr. and Mrs. Lewis, of Peterborough, visited friends in town last week.

—Mr. A. A. Haskill's party is back from their three weeks' trip to Stony Lake.

—Mr. and Mrs. Dawson Kennedy are guests at the Morgan House, McCracken's Landing.

—Mrs. J. Warren, of Harper, Ont., is visiting her daughter, Mrs. J. H. Kimberly, on Bolivar street.

—Mr. John Braden, Inspector of the Excelsior Life Co., Toronto, an old Peterboro boy, is in the city on business.

—License Inspector Cochrane after a day's visit to the city, has returned to his summer resort at Stony Lake.

—Mrs. H. P. Kennedy and her sister, Miss Barker, and Master Maxwell Kennedy, are spending a few days at Stony Lake.

—Mr. W. F. Green returned yesterday from a three-weeks' fishing trip on Stony Lake. He reports the fishing as poor this season. His party only caught nineteen maskinonge during the trip.

—Mr. Frank Perry of the Peterboro Lock Works staff, accompanies his brother George, who has been visiting the city for the past two weeks, to New York. Frank will see the elephant in the eastern Metropolis for the next two or three weeks.

—J. C. Hayhoe, C. O. McKeown, Toronto; C. E. Shaughenbouk and wife, Newcastle, Pa.; Chas. H. Sawl-Welland, P. D. O'Brien, wife and child Chicago; Mr. and Mrs. D. A. Stewart, H. G. Stewart, Pittsburg, Pa., are guests at the Snowden House.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—The Galway Fall Fair is announced for Sept. 14th and 15th.

—Wanted a waist to fill a belt now at police headquarters.

—Nothing doing in either the court or police circles yesterday morning.

—Dainty souvenirs, suitable for the tourist trade at moderate prices, Times Bookstore.

—Ald. Leary despairs of having the desired change of Central Park lots made for some time to come.

—Messrs. Robt. Fair & Co., shop alterations are being rapidly pushed to completion, the new front will be placed in position within a few days.

—In the annual report of Ontario Faire and Exhibitions for 1905, published by the Department of Agriculture, Toronto, appears among the portraits of the present officers a very good picture of Mr. D. Hughes-Charles, one of the auditors.

—Mr. Purser, postmaster at Buckhorn, was in the city yesterday. He reports the very best of fishing at Buckhorn this season. One of the latest arrivals by yesterday's boat went fishing and landed a 23-lb 'lunge as a starter.

Mr. and Mrs. Routley Home

Mr. and Mrs. C. H. Routley who accompanied the Canadian Manufacturers' excursion to England, are home again.

They spent some time in the interior portion of England, and then made an extended visit to the Continent, including a visit to the Alps, of Switzerland, and a journey through Germany and Belgium.

Illuminated Parade on Monday

One of the prettiest features of the coming Stony Lake Regatta on Monday next will be the illuminated parade in which hundreds of canoes and steam launches, appropriately decorated will participate. The affair is creating a general interest and will, to judge from present prospects, be attended in large numbers by cottagers and campers. The parade will start from the Juniper Island shore, and will be in the nature of a huge flotilla. Those attending in canoes and skiffs will be towed about among the islands by the yachts, and the piano will be taken out to lend an additional musical charm to the delightful affair. This feature will also be supplemented by vocal choruses.

$10—First of the Season—$10

Four special seashore excursions from Suspension Bridge, Niagara Falls, to Atlantic City, Cape May, Ocean City or Sea Isle City, via Lehigh Valley Railroad, July 21, August 4 and 11, and Sept. 1. Tickets only $10 for the round trip. Good 15 days. All trains via Philadelphia. Tickets allow stop-over returning. Tickets good on regular express trains leaving Suspension Bridge at 3.50 and 7.15 a.m., 6.20 and 10.15 p.m. For tickets, Pullman berths and further particulars, apply Robt. S. Lewis, Canadian Passenger Agent, 10 King street east, Toronto, Ont.

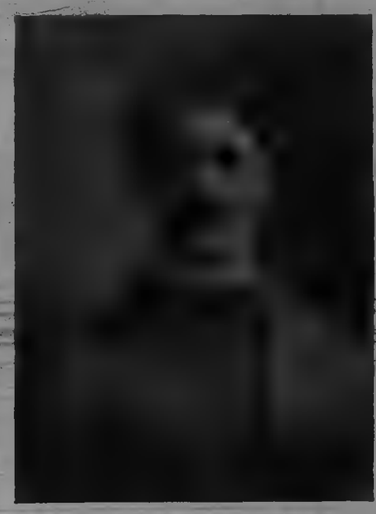
TEN YEARS



The Story of My Wonderful Success.

Reads Like a Fairy Tale-Yet Full of Convincing Truths

An Opportunity of a Lifetime for the Investor.

TAKE ADVANTAGE OF IT.

I ask every reader of this paper to write me I want to send you my free book entitled "Ten Years"—"The Story of My Wonderful Success." It tells about one of the greatest and most promising investment opportunities ever offered. It tells how my business grew from less than $25.00 capital to its present proportions.

I believe I have the best proposition from an investor's standpoint that could be placed before you. For ten years I have been teaching men and women to live according to the laws of Nature My book is the history of my life. It shows what energy and ambition can accomplish in the world of affairs. It is intensely interesting to any man or woman who has a few dollars to invest in a legitimate enterprise

I started business in the City of Brooklyn in 1896. My capital amounted to less than $25.00. My first year's business netted me over $1,000.00. Last year I paid dividends to my partners of 15 per cent. Five years ago my business had grown so large that I was compelled to remove to larger quarters. I am now at 63-65 Clark St., Brooklyn, N.Y.—in connection with Hotel St. George. Experts pronounce my institution to be the best appointed of its kind in the country. I estimate the equipment of the Mac Levy Institute of Physical Culture to be worth at least $40,000.00.

I want to have a building of my own that will enable me to accommodate my increasing business. To erect this building I need capital, but more important than this to increase my business to the proportions which I desire, I need the co-operation of men and women thr ughout the country and the world.

Co-operation is the Secret of Success

I recognize it. I believe that with thousands of co operators throughout the country I can build my business to tremendous proportions to the benefit of the shareholders and myself.

The Mac Levy Company is incorporated under the laws of New York for $150,000.00. They are proprietors of The Mac Levy Institute of Physical Culture and The Mac Levy Gymnasium Equipment Company.

The last named branch of the business of the Mac Levy Company is comparatively new. I have been at work for several years to establish such a department in connection with teaching Physical Culture. The most difficult part of forming the Equipment Company has been accomplished The business is now in condition to be pushed on a large scale. Hundreds of thousands of dollars are spent yearly on new gymnasiums and their equipment. The profits are large. A company of this kind has an immense field in which to work. Competition is slight. It is evident that the Mac Levy Gymnasium Equipment Company can build an enormous business.

The Mac Levy Company operates during the summer months at Steeplechase Park, Coney Island, and at Averne Hotel, Averne-by-the-Sea, L. I., as well as at our Brooklyn Institute. I also does an extensive mail business. I teach people how they should live and exercise My students are scattered all over the United States, and in English speaking countries.

A PROBLEM

which arrises in the minds of every man and woman is how to secure a comfortable income in the earlier years of their life, that they may reap the full benefits which such an income affords.

I have long thought that there are hundreds of people in moderate circumstances who would like to invest a few dollars in an Institution of this kind. It is to such people that I intend this announcement shall appeal. I am offering a block of the Treasury Stock of this company to the public at its par value. My reasons for doing this are that I wish to erect a building and to extend the business of The Mac Levy Institute of Physical Culture and The Mac Levy Gymnasium Equipment Company.

I WANT YOU AS MY PARTNER

I need your help and suggestion. I want you to work with me and help me to secure a tremendous amount of new business.

I believe that if you could talk with me personally and go over the records of the business which I have done, see in black and white the figures which show the steady growth my business has experienced during the past ten years, examine my plans for future extension, and then look over the magnificient equipment of my Institute, and would want no further evidence that money put into my business would bring you the greatest possible returns consistent with safety and good management.

I ask you to write for my free book. I believe it will interest you. You have a few dollars tha you want to invest. Why let it stand idle earning only 3 or 4 per cent that Savings bank pay their depositors? Put it to work. Join it with mine. This Company ought to pay at least.

TWENTY PER CENT. DIVIDENDS

within one year

Write for my book to-day. NOW.

Oyama Awaits Word Plans Laid for Attack

As Soon as Negotiations Break Off the Japanese Field Marshal Will Fight Linevitch--Oyama's Plans are Perfected.

Portsmouth, N.H., Aug. 13.—If the negotiations are broken off Oyama will immediately give battle to Linevitch. The Associated Press learns from an unimpeachable source that Oyama's plans are perfected, his armies are ready and only await the signal that a rupture has occurred to launch his attack. So pessimistic is the feeling among those in the confidence of both sides that the prediction was made to the Associated Press correspondent that if a meeting should be held this afternoon it might be the last and that the history of the Washington conference would be abruptly concluded to-day.

FACTS ABOUT CANADA

One Thousand Condensed Statements Regarding Canadian Resources

VALUABLE PAMPHLET ISSUED

Dominion Department of Agriculture Circulates This Information

Canadian Americans and British Americans generally who have no recent opportunity to study the facts in connection with Canada's growth and progress will be interested in acquiring some up-to-date facts and figures in this respect. A neatly bound little pamphlet with a patriotic front page design, has been recently issued by the exhibition branch of the Dominion Department of Agriculture. It is entitled "One Thousand Facts About Canada," and from it the following extracts which unless specially stated, are for the fiscal year ending June 30, 1904, are taken. We purpose giving a column of these facts each week till concluded.

Canada contains one-third of the area of the rBitish Empire.

Canada has nearly a million square miles of practically unexplored area.

Canada is bounded by three oceans.

Canada's sea coast line equals half the circumference of the earth.

Canada has 13,000 miles of coast line —7,000 being in British Columbia.

Canada is 3,500 miles wide and 1,400 miles deep.

Canada is larger in area than the United States, as large as 30 United Kingdoms and as large as 18 Germanys.

Canada is larger than Australia.

Canada's four organized Territories are larger than France and Germany.

Canada's three northern districts of Mackenzie, Ungava and Franklin are larger than China (proper).

Canada has a continuous waterway of 2,384 miles from the mouth of the St. Lawrence to the head of Lake Superior.

The Mackenzie River is, with its tributaries, 3,500 miles long—equal to the distance from Liverpool to Halifax.

Canada has 6,000 miles of waterways from the St. Lawrence to the Mackenzie, with only 150 miles of a break.

Victoria City is half-way between London and Hong Kong.

The two new Provinces of Saskatchewan and Alburta will have 275,000 square miles each.

The Yukon District is almost as large as France.

The boundary line between Canada and the United States is 3,000 miles long—1,000 by land, 1,400 through water.

Canada's population by the first census of 1665 was 3,251.

Canada's population at Confederation, 1867, 3,500,000.

Canada's population, 1901, 5,371,315.

Canada's population, estimated, on June 30, 1904, 5,641,238.

Canada began the twentieth century with the same population as the United States began its nineteenth.

Canada has forty countries and nationalities represented in her population.

Canada has 139,101 more males than females.

Canada has more than one half of the white population of all Britain's colonies.

Canada has enfranchised 16 per cent. of her population.

Canada has 87 per cent of Canadian-born people, 4,671,815.

Canada has 8 per cent of Britishborn people; 465,839.

Canada has therefore, 95 per cent of British-born subjects; 5,077,654.

Canada's population is 74 per cent rural, 26 per cent urban.

Canada has 21 centres of 5,000 population and over, 21 of population of 10,000 and over.

Canada's centre of population is near Ottawa, and is moving west.

Canada's western population 50 years ago, 5,000. Today it is estimated at 800,000.

Canada's western population is 75 per cent British and Canadian born; 25 per cent foreign born.

One out of every 3 1-2 in Canada is of French descent.

Quebec Province has 1,322,115 of French descent and 250,000 British.

There are 10,000 French descent in the Canadian west.

Density of population to square mile: Prince Edward Island, 51.6; Nova Scotia, 33.0; New Brunswick, 11.8; Ontario, 9.9; Quebec, 4.8; Manitoba, 3.9; British Columbia, 0.4

IMMIGRATION STATISTICS.

Canada received 130,330 immigrants, fiscal year to June 30, 1904.

Canada has received half a million immigrants in nine years.

Canada received in 1904, 50,374 from Great Britain, 45,171 from United States.

Sixty per cent of the immigration of 1904 was agricultural in its character.

Seventy-five per cent of the immigrants of 1904 speak English.

Canada paid $6.71 per head to bring in and locate the 1904 immigrants.

MANY WIVES DESERTED

New York Magistrate Draws Attention to Growing Evil

New York, Aug. 13.—One hundred deserted wives appearing before him yesterday in the West Side court led Magistrate Pool to demand that lawmakers of this state should give their most serious attention to this growing evil. "Sixty thousand wives in Manhattan alone are abandoned every year," said the magistrate. "Every morning police courts are crowded with women, leading from one to six children, begging magistrates for warrants for their husbands. Evil of wife desertion has grown to menacing proportions."

Russian Cruiser Variag Raised

Tokio, Aug. 13.—The Imperial Navy Department has announced the successful flooting of the cruiser Variag. In view of the difficulties encountered there is a strong feeling of generral satisfaction over the raising of the vessel.

Graveyard of the Atlantic

Halifax, N. S., Aug. 14.—The steamer Havana has returned from Sable Island with Captain Farquhar, who has gone thither exploring for wrecks. Captain Farquhar located a wreck, presumably the State of Virginia, lost 26 years ago. The vessel was, of course, broken up, but her engines were still standing. Captain Farquhar secured a ton of copper, but owing to the rough weather, was obliged to leave.

FRENCH ADVISE FOR INDEMNITY

Paris Press Urging Payment of Japanese Demand

Paris, Aug. 14.—Not for a long time has America been watched by European eyes with such keen attention as at present. From being a matter of secondary interest American news has suddenly become a subject of primary importance.

If the French papers had made a wager to decide which could publish the most details about the Russo-Japanese negotiations at Portsmouth, N.Y., they could not display more ingenuity, energy and enterprise not to be left behind. In fact the Paris papers now collect more American cable dispatches than a day than they did formerly in a month.

This interest is mainly due to uneasiness about the issue of the peace conference, though there is no real ground for anxiety, as M. Hademan points out in a very sensible article in today's Matin.

"You will see," he remarks, "the matter will be arranged satisfactorily. It is even extremely probable that both sides were more or less in agreement before the plenipotentiaries left. One of the most asinine stupidities that has been uttered in connection with the peace negotiations is the report that Russia cannot pay a war indemnity as it would be a humiliation. Why is it more humiliating to pay an indemnity than to accept any other conditions imposed by the victor?

"On the contrary, there is a certain advantage in being able to get out of a tight place by a financial sacrifice. It's all because of the preliminary declarations, which are necessarily worthless, in 1871 Jules Favre declared that France would not part with an inch of territory nor a stone of a fortress. Every one knows what happened.

"The Russians, therefore, would do well to examine the Japanese proposition calmly and discuss it in a similar spirit, for Russia has reached a point in her history when she has not means to indulge in a policy of sentiment."

GRAVE CHARGES AGAINST WITTE

Juliette Adam, Famous Authoress, Says Statesman Will Sell His Country

HE IS RUSSIA'S NEMESIS

Will Conclude Peace, But a Shameful Peace—Secret Head of Revolution

Paris, Aug. 14.—Juliette Adam, known also as Juliette Lamber, the famous author of "Jess et Pascal," of which a new edition has just been the light may be considered the sworn enemy of Sergius Witte, the Russian peace plenipentiary. In an interview she does not hesitate to express herself in the most disparaging terms regarding the Russian statesman. She said to a press representative;

"Witte is the Nemesis of Russia. He will succeed in concluding peace, but it will be a deplorable peace for his country. Just now he is playing the part of the apostle. He talks with great complacency and declares that he will not conclude a shameful peace for Russia. This is only a farce. He does not believe himself a word of what he says. He has gone to America with the determined purpose of damaging his own country and signing a dishonorable peace.

"No one ignores that Witte is the agent of Germany and England. He is also the soul and the secret head of revolution in Russia. He is now working for the same cause he has been defending for a long time and will not be satisfied until he has succeeded in obtaining the triumph of revolution. He has set before himself a well defined program, which has already given some results according to the Marx theory, of which he is an ardent apostle. He has already ruined agriculture in Russia, and the Russo-Japanese war, which is his own work, has arrived in time to prepare the triumph of the revolution. He will not hesitate in the least to become the agent of Japan in order that his Machiavelian plans may succeed."

FARM LABORERS' EXCURSIONS 1905

Latest advices from Winnipeg state that the Wheat Crop of Manitoba and the Canadian Northwest will exceed all previous seasons; a great number of Eastern laborers will be required to assist at harvesting. A Farm Laborers' Excursion will be run from points;

GOING DATES.

August 29, 1905.—Stations south of but not including, main line Toronto to Sarnia

September 5, 1905.—Main line Toronto to Sarnia and stations north (except north of Cardwell June, and Toronto on North Bay Section.)

September 4, 1905.—From all points Toronto and east to and including Sharbot Lake and Kingston, and north of Toronto and Cardwell June. on North Bay and Midland Divisions.

Tickets will be sold to female as well as to male laborers. Tickets will not be sold at half rate to children.

With each ticket the purchaser will be given a Farm Laborers' Verification Certificate, and an extension coupon. At Winnipeg the special trains will be met by farmers, and by representatives of the Manitoba Government. Laborers may engage with them at Winnipeg, and on presentation of extension coupon, signed by a farmer stating that the holder has engaged to work as a Farm Laborer, ticket agent will issue free ticket from Winnipeg to C.P.R. station nearest the point where he has engaged to work, and on arrival at such station he must deposit the Farm Laborers' Verification Certificate with the C.P.R. agent. If anyone has made prior arrangement to work with friends, or with some farmer with whom they worked previously, they will be issued free ticket as above, and may check their baggage through from starting point to C.P.R. station nearest the point of work, provided such point is not beyond Moosejaw, Sheho, Lipton, Prince Albert, or Estevan, as free tickets will not be issued, nor baggage checked to points beyond these stations.

After a laborer has worked for at least thirty days, and has certificate signed by the farmer with whom he has worked, such certificate will be honored prior to Nov. 30th for a ticket to return to starting point by same route as on going journey, on payment of $11.50

No lbs. baggage, wearing apparel only, will be allowed on each ticket, and each piece of baggage checked should bear the name of the owner, and show their home address. It will be readily understood that some difficulty may be experienced in handling some thousands of pieces of baggage at one station. Therefore, when possible, baggage should be carried in hand grips and these passengers should take in the cars with them. It is expected that special passenger trains (particulars to be announced later) for the accommodation of laborers will be run on the main lines, and tickets will not be accepted on regular trains. Further information will be supplied on application to C. B. Foster, D.P.A., C. P. Railway, 71 Yonge St., Toronto. Intending excursionists should notify agent ticket agent at once.

Chicago Wants Him.

Doctor Johnston, the Local Veterinary Surgeon, Gets Flattering Offer From Chicago.

As many of our readers are aware and more will soon learn, if the discoverer remains in the city, Doc. Johnston, the well-known veterinary surgeon, also noted as the owner of Donna Belle, the fast mare that has shown her great speed to some of Canada's fast ones this season, has discovered a remedy for that dread scourge consumption that cures

It is an open secret that there are people alive and well to-day who but for Johnston's discovery would be now silent in the grave.

On Saturday the doctor was in receipt of a very flattering offer from one of the largest and most widely advertized medical concerns in Chicago. The company had their attention drawn to this remedy though seeing an account in a Peterboro paper noting the recent case where a penalty was imposed upon the doctor for practising medicine without the necessary diploma from the C.P. & S. Toronto.

The Chicago company instituted some enquiries which led to them making Mr. Johnston a very good offer, with salary and commission for his services and prescriptions, or to pay a good sum outright for the ingredients of his cure. Dr. Johnston is now considering their offer, but hesitates to leave Peterboro where he has his large veterinary practice and a lucrative racing connection, he has also some patients he is treating gratis for consumption, whom he feels loath to leave before fully cured.

If the doctor decides to leave for Chicago he will probably take Donna Belle with him.

Police Court OFFICIALS

Chief of Police, G.T. Reed
Magistrate, D.W.Dunlop

At Friday's court the first case tried was one of the perennial pavement for the pedestrian cases.

A boy named Benjamin Billington leaded guilty to riding on the pavement and was given ten days in which to collect the necessary $3 that such scorching now costs.

Mr. Jas. Flynn, the Hunter street boteiman, was charged with having supplied intoxicating liquor, in a licensed house, apparently a manor. Mr. H. D. Hall carried on the prosecution. Mr. Flynn pleaded not guilty.

Albert Might, the first witness, a boy of 14, was in Flynn's hotel on the morning of the 7th and got 10 cents worth of porter. Was supplied by the bartender, who gave it to him in a pail. The porter was for Mrs. Scriver. Got the porter in the sitting room off the bar. Mr. Flynn handed in a number of orders that had been sent by Mrs. Scriver for liquor. Witness has been there for liquor before for Mrs. Scriver. There were twelve orders for Mrs. Scriver's liquor.

Mr. Hall called his Worship's attention to a clause in the act which says that obtaining an order does not entitle a boy to be supplied with liquor.

Flynn explained he did not know the law had been changed to forbid liquor supplied to a minor on orders.

His Worship explained that he could not undertake to change the law. $10 fine with costs of $3.10.

Flynn, on pronouncement of the fine, walked away to leave the court room, but was called back to face a second charge of selling liquor to the same boy on another day. The boy's evidence on the second charge was a little hazy as to dates. His Worship thought the first conviction would be sufficient warning and dismissed the case.

PEOPLE WILL SAY IF UNION WITH SWEDEN SHALL BE DISSOLVED

Great Effort to get Representative Vote in Norway on Referendum

Christianna, Aug. 14. — Throughout Norway great exertions are being put forth to secure the widest possible participation, next Sunday, in the referendum on the question of dissolution of the union with Sweden.

The difficulties in the way of securing a full vote are rather formidable, because of the long distances in rural districts, and the short time that has been given for arousing the people to the importance of the occasion. It will be a serious task to get many countrymen away from their homes. Large numbers of peasants are employed at this time of the year on farms far up in the mountains.

Many residents of the cities are absent. The fisheries have taken thousands away to sea. In spite of all these difficulties, however, a heavy poll is expected. In many places that have been canvassed every man on the list of electors will vote, and will declare against the union. There are 485,000 electors in Norway, of whom 52 per cent voted at the last election of the Storthing. It is now expected that the poll next Sunday will be still greater, in spite of the awkward circumstances under which it is taken. All political parties are co-operating in the work, and are in hearty accord in all respects.

The railways and steamships will transport electors without cost to the voting places. The election expenses will be met by private subscriptions. A bad impression has been created by Swedish attempts to influence ignorant people by spreading abroad Swedish proclamations translated into the Norwegian language. These proclamations declare that Norway will be in danger of conquest by the great powers of Europe, if it attempts to maintain its independence.

Senator Cox Rides to Guelph

Toronto, Aug. 14.—Senator Cox took his first long distance ride on an automobile last Wednesday. He rode from Guelph to Toronto in a car driven by Mr. Ricketta and accompanied by Mr. T. A. Russell.

The Senator was in Guelph when the automobile arrived there, and as he couldn't wait for the train out; so he took the automobile, which was a packard belonging to his son, Mr. E. W. Cox. People who saw the Senator arrive in town about dark aver that he wore goggles. This is the first time the Senator ever wore goggles.

As to long-distance automobiling the president of the Bank of Commerce was particularly delighted. It is not known as yet what effect this will have on the roll ing stock of the Grand Trunk Pacific.

All Hope is Now Abandoned.

St. Petersburg, Aug. 14.—Despatches from Portsmouth make it clear that unless there is a very substantial abatement of the demands of the Japanese plenipotentiaries, which is unlikely, the peace conference will come to a sudden conclusion. The two nations are so wide apart that all hope of agreement has been practically abandoned here.

THE BIRTHDAY OF HEIR CELEBRATED IN FESTIVE MANNER.

St. Petersburg, Aug. 14.—The first anniversary of the birth of the Grand Duke Alexis, heir to the Russian throne, was celebrated in a festive manner throughout Russia today. In St. Petersburg the troops paraded to the music of a triumphal march written in honor of the birth of the czarevitch. Banners are flying in all the streets and the capital is brilliantly illuminated to-night. All the government offices, with the exception of the foreign office, were closed to-day and the ministers of state, the heads of departments and all all persons whose rank entitles them to admission to court went to Peterhof to offer their felicitations to the emperor and empress and to participate in a special natal mass.

Japan Must Modify Her Peace Conditions

Russia's Answer was Handed to the Japanese Plenipotentiaries at the Portsmouth Conference Saturday Morning--The Session was a Short One and Pessimism Reigned.

The meeting of the Peace Conference was brief. It lasted a little more than an hour. The Russian reply was delivered by M. Witte, and the meeting was adjourned to give Baron Komura and his colleagues opportunity to examine the document. M. Witte indicated that he would expect the same expedition in the Japanese response as had been observed in the preparation of the Russian reply, and this was readily assented to. The Russian plenipotentiaries immediately returned to the hotel, while the Japanese remained at the navy yard.

The Japanese plenipotentiaries have agreed to make their response to the Russian reply at 3 o'clock this afternoon, or at the same time to-morrow.

Portsmouth, N. H., Aug. 12.—The Russian reply to the Japanese conditions of peace was delivered by M. Witte to Baron Komura this morning.

The heat was already almost unendurable when the Japanese and Russian plenipotentiaries set out for the navy yard about 9 o'clock.

Mr. Witte and Mr. Takahira, who have suffered particularly from the unprecedented heat wave, looked almost worn out. Baron Komura with Mr. Takahira and Mr. Witte with Baron Rosen, were taken to the navy yards in automobiles, while the secretaries and attaches of the missions went over in a launch. The latter greeted each other on the wharf with smiles, but there was little cordiality and no fraternalizing. The few remarks exchanged were simply the polite amenities and complaints against the weather.

PESSIMISM REIGNED.

When they entered the launch, they were perforce compelled to speak again to each other, as they were taking their seats, but before the launch had gone 200 yards the attempt to keep up the conversation ended. Perhaps among the Russians the reserve was less noticeable than among the Japanese. But there was little to choose between them in this respect. Their strained attitude toward each other could have been manifest to the most indifferent observer. It seemed a bad augury. Indeed pessimism, black pessimism reigned.

It was already well understood that Mr. Witte's reply upon the two main points was a firm, but courteous refusal. The Russians had made no concealment of that, and such indications as came from their headquarters breathed a spirit of implacable resolution to adhere to the refusal. Indeed there were open intimations that unless the Japanese modified their positions upon these points the attempt to negotiate peace must result in failure, and predictions were freely made among the Russian correspondents that next week would see the end.

HOW CANADA FLAKES ARE MANUFACTURED

Peterboro Cereal Company will Erect an Elevator with Capacity of 80,000 to 90,000 Bushels.

Peterboro seems to hold the record for industries that begin on a comparitively small scale, but which soon expand and get a world wide reputation for their products, but which do not know the meaning of either failure or stagnacy. One of our most recent industries that now shows every indication of quick development and compulsory enlargement to supply the growing demand for their products, is the Peterboro Cereal Co., the home of Canada Flakes and several brands of widely asked for flour, including "Mikado," "Star" and Delight, the latter two being pastry flour.

By courtesy of the executive The Times was, on Saturday shown through their modern and most perfect plant. A trip through this hive of industry is a revelation in the wondrous ingenuity of modern machinery and methods, as well as lesson in cleanliness of manufacture.

The most interesting part perhaps of the great mill, to one not aufait in machinery, is that portion devoted to the manufacture of Canada Flakes. The most striking incident of a look through this mill is the perfect cleanliness not only of the whole premises and machinery, but of the various processes through which the wheat passes before it is boxed up as Canada Flakes, every step in the various treatments of the grain seems to include some cleaning process, for eliminating dust or imperfect grains.

The wheat, carried by automatic elevation to the top of the mill, goes through several cleaning processes, and their huge metal tanks are filled with the perfectly husked and dustless wheat. This wheat is then soaked with filtered water over night to partially soften it. Then through shutes it is brought to long boiling machines and cooked. Even cleaning this process, which cooks the grain thoroughly without breaking the grains, the steam is prevented by jackets from touching the wheat. When thoroughly boiled the hot grain passes through a cooling process, by which an up and down draft of cold air is forced by electric motors, through the wheat to cool and draw off the steam generated by the damp grain in cooking. When cold, the grain is carried automatically to the top floor of the building, and in a vast iron cauldron, in which revolves a double S steel mixer, is thoroughly impregnated with and enriched by the addition of the extract of malt and sweetening mixture. The revolving mixer so completely mixes in the malt and other added ingredients that every particle of the resultant combination is the same.

The mixture is then carried by shutes to the rollers which flatten out the grains thinner than the finest tissue paper, but each flattened grain retaining its individuality and not pressed into another.

THE TOASTING.

By endless pure white cotton broad belts the flattened flakes are then brought to the immense steel ovens. As they fall from a hopper into the ovens, they are automatically spread, in regulated depth on a series of screens, which are constantly in motion over the scores of gas jets specially adapted to the purpose.

To ensure thorough dryness and uniformity in toasting, the flakes are carried, inside the oven by endless screens, passing from top to bottom, and nearer the gas flames, as specially regulated speed. This part of the preparation is unique with this factory, hence the regular evenness and appetising brownish tint of the Canada Flakes.

Then the flakes are conveyed by a specially adapted elevator shute to the packing room, where girls chosen for cleanliness and neatness pack them in the now familiar Canada Flakes cartoons.

As each package is filled automatically with the flakes, the package passes along on an endless belt, even with and in the center of the long packing tables, to the girls who turn down and seal the ends of the package.

As the open filled package passes towards the operations, a girl drops one of the fine silver plated white metal spoon in the carton with its contents.

These spoons are now in great demand and are of a very superior quality. The company recently purchased 1,000 gross, weighing three and one-half tons, of these spoons, and are now nearly out of them, but others are on the way here.

THE ELEVATOR.

The company are now arranging to erect a large elevator to handle their immense shipments of wheat. The elevator will be erected just to the east of the present building; this will give the elevator easy access from the switch recently run in from the C.P.R. spur line and will prove of great advantage.

It will have a capacity of about 80,000 bushels of wheat.

The Peterboro Cereal Co. have, a very large connection with some of the most prominent western mills and handle a great many carloads of western flour made from the hard North-West and Manitoba wheat. The eastern mills, with very few exceptions have not the proper machinery for doing the best work in grinding the hard western wheat, their rollers and stones being more adapted to the softer Ontario and eastern grower grain. The company have concluded arrangements whereby they have secured the services of Mr. Albert N. Reay, formerly manager of the "Force" Company, who will act as their Montreal representative. They have now seven travellers out on the road in this country with depot managers in England. Although the company have only been in active operations for so short a time they have great difficulty in supplying the demand for Canada Flakes in this county alone.

The large package, neat appearance, enclosed silver spoon, and, above all, the unqualified superiority of Canada Flakes over all other similar preparations will, from the fast growing demand in all probability necessitate in the near future at least a doubling of this company's plant.

The New-York Tri-Weekly Tribune

For those who want to get the New-York news and news of things the world over and don't want to spend the money or time in buying and reading a metropolitan paper seven days in the week The Tri-Weekly Tribune fills the bill. It is issued on Monday, Wednesday and Friday of every week, and contains the essence of The Daily Tribune for the whole week. To those who are interested in the prices of flour, grain, wheat, cotton, livestock, butter, cheese, eggs and other farm products, its market reports are invaluable, because of their correctness. Price $1.50 a year. For a free sample copy send a postal card to The New-York Tribune, New York.

COMBINATION OFFER.

Harper's Bazar, with The Tri-Weekly Tribune, one year.... ....$1.50
The Metropolitan Magazine, with the Tri-Weekly Tribune, one year. 1.50
All three for $2.50

SAVINGS DEPARTMENT

Interest on deposits of $1 and upwards will be allowed at the rate of 3 per cent. per annum, credited half-yearly.

The Bank of Ottawa

ASSETS OVER $23,000,000.00.

No Paper To-morrow

All Thin, Pale Women

Can Learn the Cause of Their Nervous, Used-up Condition

With women, ill-health is usually traceable to nerve exhaustion. Feeling run-down and tired most of the time is nature's warning that more nerve-force is needed.

You must build up solid flesh, the body, vitalize the nerves, get more flesh and blood.

It is the wonderful nutriment and tonic quality in Ferrozone that enables it to cure so many sick women. It increases the appetite, adds weight and strength, restores lost color and develops a surplus of nerve force that defies sickness of any kind. There is living proof in Mrs. [illegible] Terbenche, Vic of Prescott, Ont. Read her statement:

"A year ago my health failed. I grew thin and exceedingly pale. At night it was difficult to obtain restful sleep. My appetite was variable and indigestion bothered me considerably. I became nervous and suffered from heart palpitation. You could scarcely believe the benefit I derived in one week from Ferrozone. Color came back to my cheeks. My vitality and appetite increased, renewed nerve force and better spirits came also. Ferrozone did a world of good and made me well.

Remember this: No alcoholic stimulant can nourish and build up like Ferrozone. Fifty cents per box or six boxes for $2.50. At all dealers, or N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

Morning Times

The paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to 7 o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $2 per year, strictly in advance.

PETERBORO AUGUST 14 1905

THE WHEAT CROP

Crop estimates from Northwest indicate that records are to be broken, and the continued prosperity of the farmers is assured. Experts believe that the country will yield a hundred million bushels of wheat.

While millions of bushels defy the imagination we may learn something by comparison. The statistical year book of Canada puts the wheat production of Ontario, New Brunswick, Manitoba and the Northwest Territories for 1900 at [illegible] bushels.

These figures show that the gain during the last year has been enormous. The United States at present leads the world in wheat production, but the same rate of gain by Canada will in a few very short years displace the country to the south of us of that position.

While the progress has been great during 1905, the increase in production for 1906 should be greater still. Land is being taken up at a greater rate, and the immigration of agriculturists is larger.

LIVING A 100 YEARS

A London specialist, who declares there are more centenarians in the world than the general public suspects and that there ought to be a good many more than there are, has down the following simple rules for long living:

"Be moderate.

"Do not worry.

"Take plenty of sleep.

"Take plenty of exercise.

"Eat plenty of sugar, rice, peas, fruit, potatoes, bread and milk.

"Almost any person possessing a healthy constitution could live to be a hundred," says the above specialist.

Mr James Crichton-Brown in a paper lately read before the public health congress in London declared that "it is a good working hypothesis to regard the natural life of man as 100 years. Three eminent authorities thus assure all escape for death at the early age of 30 or 35.

The patriarch who has attained his ninth score has but to put a blooming youth with at least 30 years of hard hustle still before him.

He who at that proverbially ripe age thinks he has finished his life job and contentedly lies down to pleasant death is a miserable "quitter."

But these eminent specialists, who talk so learnedly, are after all only theorists. Neither of them has yet attained 100 years himself or anywhere near it. Perhaps long before they reach the century mark that now looks so magic to them their error will be buried with them.

For more thousands of years than can be accurately computed men have made it their chief concern to live just as long as they can. Previous few, in modern times in Leeds, have succeeded in passing the years. So the secret cannot be as simple as it is made to them.

"Among the negro races," says the London specialist who has laid down the law of rules, "centenarians are extremely numerous and it is mainly because they unconsciously follow these rules. They sleep so much for instance, that a negro centenarian only spends 56 of his years out of the 24 hours, while [illegible] awake for 75 years of the time."

But the specialist fails to give any rules by which a white man may follow this example. Nor is there any argument given to combat the natural feeling that one might as well be dead as asleep.

Maybe each individual is good for just so much wear and tear.

And really it doesn't matter so much how long we live as how well we live.

WEED OUT THE UNWORTHY

The determination of the Provincial Department of Agriculture to raise the standard of the agricultural fairs of Ontario will be generally approved. Some of the exhibitions held annually are all that they should be, educational in character and stimulating in example. But many are unworthy the bonus received from the Provincial Treasury, being in the hands of men out for a little glory and a good time, and merely the gathering places of fakirs and professional exhibitors who exercise a baneful influence in their respective spheres. Societies with substantial buildings, large grounds, all the needful accommodations, and directories that base their claims for public support upon prize lists that show due regard for the interests of the farmer should survive; all others should go. It would be only fair to make the Provincial grant proportionate to the amount offered by the individual society. The grants are now unevenly distributed proving a source of annoyance to societies honestly endeavoring to meet the obligations imposed upon them. The government can rectify this abuse, and it can also hold all organizations down to fixed rules, a departure from which will mean the withdrawal of the bonus. A weeding out process will do good, and it is to be hoped the Hon. Nelson Monteith will proceed with his contemplated reforms and persevere in his work until our agricultural fairs are representatives of the wealth, culture and enterprise of the Province.

THE BRITISH ASSOCIATION IN SOUTH AFRICA

Some four hundred members of the British Association, perhaps the world's most famous scientific body, are now on the ocean sailing to South Africa where this year's meeting of the Association is to be held. Twice before, in 1842 and in 1897, the association has met in Canada, but except for those two visits practically meetings during over half a century have always been on the soil of the United Kingdom. It is a remarkable sense of the unity of the British Empire which leads the great body this year to travel so far and into the [illegible] world.

The official itinerary covers about two months and a half. The official sessions of the association will be divided between Cape Town and Johannesburg, at each of which places the president of the association, Professor G. H. Darwin, will deliver half of his presidential address. At many other places, however, semi-official sessions will be held, including Durban, Pretoria, Kimberley and Victoria Falls, the latter place marking the furthest advance the association will make into the heart of Africa.

If a generation is enough to transform the jungles of interior Africa into the meeting place of the greatest of scientific associations, who will say that Lhassa, the North Pole or the highest peaks of the Himalayas may not be similarly honored long before our middle-aged men can grow gray hairs.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion land in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which land to be entered is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following classes:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years.

[2] If the father (or mother, if the father is deceased), of any person who is entitled to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If the settler has obtained a patent for his homestead, and has also obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or corresponding township.

A settler who avails himself of the provisions of clauses [2] [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 40 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Offices in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba; or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

How to Visit Colorado

Go first to Denver. It is the State capital, as well as the largest, wealthiest and most metropolitan city between the Missouri River and the Pacific Coast. The city itself is very interesting, and from it start practically all the trains over the various roads into the mountains.

Many of the most enjoyable one-day trips in Colorado begin and end at Denver. The cost of these little journeys is not great.

After you have familiarised yourself with Denver and its surroundings will be soon enough to decide where to go for the rest of your visit. The question must be considered from several standpoints—altitude, hotel accommodations, accessibility, amusements, etc.

Our Colorado literature will help you in deciding where to go and what to do. Sent free for the asking.

K&K NOT A DOLLAR NEED BE PAID K&K
ESTABLISHED 20 YEARS
UNLESS CURED

THE MASTER SPECIALISTS OF AMERICA

We know the diseases and weaknesses of men like an open book. We have been curing them for 20 years. We have given our lives to it, and thousands upon thousands of men restored to Vigorous Vitality are today living monuments to the skill, knowledge and success of Drs. Kennedy & Kergan. We never hold out false hopes, we never undertake a case we cannot cure. We have made so thorough a study of all the diseases of men—of Varicocele, Stricture, Blood Poisons, Hydrocele, Nervous Debility, Paralysis, Bladder, Urinary and Kidney Diseases, General Weakness, Loss of Vitality, and have cured so many thousands of cases that if there is a cure for YOUR disease you will get well. When we take a case there is no such thing as failure. We charge nothing for consultation and our knowledge, skill and experience are at your service. We will explain to you How and Why We Can Cure You; why the diseases of men require the knowledge and skill of Master Specialists. We do not require to see you personally with your case as we know from experience in treating thousands of cases exactly what to prescribe for your symptoms. Don't be discouraged if you have treated without success with Quacks, Fakirs, Free Belts, Free Trials, etc. You must get cured—and Doctors alone can cure you. Our New Method System of treatment has stood the test for 20 years—why should it fail in your case. If your case prove incurable you need not pay us a dollar. We refer you to any Bank in this city as to our financial standing. If you cannot call write for a Question Blank for Home Treatment. Consultation Free. Booklets sent Free.

Drs. KENNEDY & KERGAN,
148 SHELBY STREET, DETROIT, MICH.

The Glenara Gold Mining Co.

Capitalization, 1,500,000 Shares. Stock Fully Paid and Non-Assessable
Par Value, $1.00 Per Share. Treasury Stock, 700,000 Shares.

This Company was organized in March, 1905, under the laws of Arizona, with a capital of 1,500,000 shares. The par value of these shares is $1.00 each. They are full paid and forever non-assessable. The Company owns approximately seventy-five acres of territory in the Goldfield district. By reference to the map you will note that every acre is within the producing area, and with the systematic development this large acreage is to receive, there is no doubt that the stockholders will very shortly see the Company on a producing basis.

We desire to say right here that this Company is organized for legitimate mining, and not stock jobbing purposes, and among the directors are some of the best known mining men in the West. It is their one desire to make the GLENARA GOLD MINING COMPANY a great success at the earliest possible moment.

It is for the purpose of raising funds to vigorously develop the Company's holdings that some Treasury stock is now offered for public subscription. Out of a capitalization of 1,500,000 shares, 700,000 shares have been placed in the treasury. This treasury reserve insures the company a large working fund, if needed. It is the belief of the management, however, that it will not be necessary to dispose of over 50,000 shares of the treasury stock. The present outlook is such that the management believe that the mine will be on a paying basis before many weeks have passed.

The Property of The Glenara Gold Mining Company Consists of the Following

The Glenara Group consists of four claims located in the Goldfield mining district, of Esmeralda County, Nevada. These claims are known as the Kentucky Bell, Mabel M., Lone Jack and June Bug, covering about seventy-five acres. This group of claims is located on a system of ledges over a mile and a half in length and about half a mile wide. These ledges are the same that are traversing the Mandall, Tonopah Club, Vernal, Queenie, Black Butte, New York, Brooklyn, Jumbo, Vernal, Penn and Federal.

The surface indications at the Glenara location were of the very best, obtainable, all of which indicate that the property can be developed into a paying proposition. The ground has been thoroughly prospected and the sinking of the shaft begun on the Kentucky Bell claim. There is a force of men sinking a shaft as rapidly as possible. Good ore has been encountered, ranging from $3.00 to $16 per ton, increasing in value with depth, and it is safe to say that a strike may be looked for any day.

Taken as a whole, the investment offered by the Glenara Gold Mining Company is equal to any prospective company in the district. The claims are exceptionally well located, covering a large area. The management is conservative and honest, and is working hard for the success of the company.

The proposition will stand the very closest investigation, and, in fact, an investigation by prospective investors WILL MEAN AN INVESTMENT. WE COURT INVESTIGATION.

The allotment of stock is very small, and if you desire to become interested with this enterprise, it will be necessary for you to communicate with us at once.

The work on the property is being pushed to the utmost, and any day will bring news of a strike which will advance the price of the stock.

For prospectus and full particulars, address

R. H. B. WARBURTON, Fiscal Agent,
Office, 522 McPhee Building. DENVER, COLORADO

Western Coal and Chemical Company

Incorporated under the Law of Oklahoma all stock full paid and Non-Assessable, all stock alike—No Preferred Issues.

Capital Stock, $2,500,000 2,000,000 Shares of $1.00 each par value

The object for which this company has been formed and incorporated is to mine and deal in coal, and all and kindred products, with special reference to the operation of valuable coal and oil lands in the State of Wyoming. But a larger and more immediate proposition is presented in the utilization of cheap fuel and waste products for the production of Chlorine or Potash on the larger scale at a cost so low as to defy competition. Along with the production of Chlorine the company will be in a position to turn out large quantities of Chlorine at a nominal cost. This Chlorine being of the utmost value in the reduction of gold ores is the feature of the business by which this company's rating should be measured.

The profitability of this enterprise may be better illustrated by the following figures which leave out all profits that might come from their sales of coal, coke, power, coal-tar, gas, ammonia, etc. The output of a plant of the capacity which it is proposed to build would in a round number, $276,000.00. These figures indicate that the capital invested will be returned in a period of less than six months. [illegible] OVER 100 per cent. Not among a thousand mines in their ore mine that will yield such an enormous income from such a small investment. And such a quick return cannot fail to bring the price of the shares up to par and above that in a few months from the time.

For further particulars, applications for stock, etc., address

FRESH MASSACRE OF RUSSIAN JEWS

Village of Rishkahn, Near Kishineff, Said to Be in Ruins

MANY KILLED AND INJURED

The Government Has Carefully Guarded Against News of Outrage Leaking Out

London, Aug. 12.—Reports of a new massacre of Jews near Kishineff have reached the Russian revolutionary Committee here.

According to reports, the village of Rishkahn, a suburb of Kishineff, is in ruins, many Jews have been slain, and hundreds injured in a series of Anti-Semitic riots.

A mob led by rabid Jew-baiters, attacked the homes of Jews, destroyed their property, beat, and in many cases killed helpless inmates, and left ruin and distress throughout the place.

The village looks as if a cyclone had struck it. No word of the new massacre has been permitted to reach the outside world through regular channels, by the Russian Government. Those spared by the mob have been forced to flee for their lives, while many injured have taken refuge in the hospitals of Kishineff.

News of a serious collision between Russian troops and Jews is also reported from Zhitomar. No particulars are given, but it is believed a number of persons were killed and wounded.

MONARCH ASSURANCE TO SUMMONS MONETARY TIMES

Mr. T. Ostrom, Managing Director, Calls Its Attacks Ridiculous and Unwarranted

Montreal Herald: Mr. T. Marshall Ostrom, managing director of the Monarch Life Assurance Company of Toronto, has taken out a summons against the Monetary Times for the publication of alleged defamatory article appearing in that journal in its issue of Aug. 4.

Mr. Ostrom, who is at present in Montreal, expressed himself as being very indignant concerning the article in question, declaring his position in regard to settling the matter through the courts.

"I have consulted with our solicitors," said Mr. Ostrom, "over this ridiculous and unwarranted attack and they have advised me that they intend issuing a summons for conspiracy. This summons will be issued on my return to Toronto, it not before. I will now take civil proceedings because journals publishing such unwarranted

ROCKEFELLER'S LATEST MOVE

It is Said He Will Further Endow Chicago University

Cleveland, Aug. 12.—The World says today: At conferences now taking place at Forest Hill between John D. Rockefeller and President Wm. R. Harper, of Chicago University, plans are being formulated for the further endowment of that educational institution by Mr. Rockefeller.

President and Mrs. Harper arrived in Cleveland yesterday. The visit of the Harpers to the home of Mr. Rockefeller is it is said to be one of a social nature, but it is known that plans involving the outlay of $50,000,000 are under consideration by Mr. Rockefeller who designs to make the university of Chicago the greatest seat of learning of the world.

BELIEVES HE HAS ELOPED

Mrs. Rose, of Ottawa, Has Doubts about Her Husband

Ottawa, Ont., Aug. 12.—Mrs. Maurice Rose, of 92 Stanley street, is under a belief that her husband, who has not been seen since Saturday last, has eloped with Mrs. [illegible] Pierce, of 64 Rideau street, who disappeared on the same day. Both left Saturday. Neither Rose nor Mrs. Pierce have been heard from since, and the husband's friends assert with some certainty that they have gone together. Rose was seen at Brockville on Saturday, and [illegible] Pierce was seen at Gananoque on Sunday. Rose is a sporting man, and Mrs. Pierce is a woman who now resides in Rochesterville. He and Mrs. Rose were married twelve years ago but had no children. Mrs. Pierce, whose husband died a few years ago, is also childless.

Changes in House of Commons

Ottawa, Aug. 12.—(Special.)—Chief Architect Fuller is at work in a short time lay before Hon. Charles Hyman, Minister of Public Works, a rough sketch of the proposed additions to the House of Commons. Besides increasing the accommodation for members, Mr. Fuller would like to make provision for a dining room on the upper floor of the proposed new wing.

ABLAZE WITH REVOLUTION

Red Flag Floats Over the City of Riga

St. Petersburg, Aug. 12.—Riga is ablaze with revolution. Red flags are floating from factories and public houses. Neighboring Baltic cities are lending to the movement against the Government. Business houses are closed, Cossacks and workingmen are shooting each other in the streets.

Riga has been declared to be in a state of rebellion and martial law has been declared. A military governor has been appointed.

JAPAN JUMPS IN

Reaping Harvest Owing to American Goods Boycott

Shanghai, Aug. 12.—The boycott of American goods by Chinese merchants in this city is complete. Trade is stagnated by it, and not only are American goods affected, but there is also a strong reaction against European commodities. The Japanese merchants are taking advantage of the situation and are doing a rushing business.

SEALED TENDERS addressed to the undersigned, and marked on the envelope "Tenders for Island No. 24," will be received until Monday, the 21st day of August next, at noon, for the purchase of an island in the Township [illegible] County of Peterborough and Province of Ontario, comprising an area of 51.25 acres and known as Salmon Trout Island, No. 24.

The tenderers should state the amount they are willing to pay in cash for this island and an accepted cheque for ten per cent of the amount tendered should accompany each tender, which the successful tenderers in the event of failure to complete the purchase within one month from the date of the sale shall forfeit to the Department.

The highest or any Tender will not necessarily be accepted, and the unauthorized insertion of this advertisement in any newspaper will not be paid for.

J. D. McLEAN,
Secretary.

THE
Montgomery Mountain Mining Company
BULLFROG

promise to be one of the greatest producers yet discovered in the TONOPAH, GOLDFIELD BULLFROG DISTRICT.

This district records the greatest discovery of Gold that has ever been made in the history of mining.

This Company is a legitimate Mining enterprise, managed by honest, capable mining men.

The property is on the Montgomery Mountain, adjoining the MONTGOMERY SHOSHONE mine, which has only been operated ten weeks and which is now

Shipping Ore that runs TWENTY-THREE HUNDRED DOLLARS to the Ton.

The Capital of the Company is $1,250,000, divided into 1,250,000 shares of a par value of $1.00 each fully paid and non-assessable, 300,000 shares of which are in the Treasury.

The Officers and Directors are
President and Treasurer, D. H. PERRY, Salt Lake City, formerly President of the Salt Lake Stock and Mining Exchange.
Vice-President, Hon. JOHN SPARKS, Governor of Nevada.
Directors: D. E. BURLEY, General Passenger Agent, Ogden Short Line R. R., Salt Lake City; Hon. JOHN SPARKS, Governor of Nevada; E. E. EDWARDS, of the firm of Vermilyea, Edwards & Stanley, Attorneys-at-Law, Goldfield, Nevada.
The Company refers by permission to
McCormick & Co., Bankers, Salt Lake City; John S. Cook & Co., Goldfield, Nevada; Ormsby County Bank, Carson City, Goldfield & Tonopah, Nevada.

We believe this property and its stock will have an advance that will be as sensational as was the Original Tonopah immediately after its development.

We can supply orders for a limited number of shares at 75 cents per share. This price expires July 10th, after which it will be raised. For information or stock apply to Thos. Patterson & Co., Fiscal Agents, Peterborough, or

D. D. PEERY COMPANY, Brokers, Goldfield, Nevada.

NICKEL AND COPPER

A Few Thousand Treasury Shares

Only are left to be sold before all offerings are WITHDRAWN FOR FIFTEEN MONTHS' TIME.

You can buy the remaining shares now at $1.00, but fifteen months hence you will probably pay from $5.00 to $20.00 per share.

THERE IS NOTHING EXTRAORDINARY

in the advancing values stated in mining propositions, for it is an old story of phenomenal advances in mining shares, Granite Mountain going from ten cents to $7.5 per share, Calumet & Hecla from $1.00 to $300.00, and so on down the list.

CONSIDER FOR A MOMENT

What this company offers—it controls to-day as actual territory of nearly Three thousand acres of land known to be immensely rich in nickel and copper ores, all in a district known and proven to be sixth among the greatest copper districts in the world. This company will control at least o thousand acres more. In all nearly five thousand acres, which will not be lined out in two hundred years

WE STAND READY TO PROVE

that this company offers to-day the most meritorious mining proposition presented in ten years' time.

Write or call for full particulars. All shares registered by International Trust Company, Boston.

International Nickel and Copper Co., Ltd., Suite 93, Journal Building, Boston, Mass.

W. K. HALL, Fiscal Agent, Peterborough.

"TONOPAH"
HOME CONSOLIDATED
STOCK WILL ADVANCE
WHY?

Because it is shipping ore from its Alta mine. Are there many mines shipping ore? We guess not. Just compare the prices the stocks are selling at. If you invest, buy stock in a shipper.

From San Francisco, Wash., July 22nd, W. K. HALL, Peterboro, Ont., has some of this stock for sale.

Yours very truly,

W. J. ARKELL & Co.

THE BEST YET!!!

We have given our clients some good things in mining stocks during the past two years, but we believe one of the best propositions we have ever handled is

DILLON OIL MINING & DEVELOPMENT CO'Y., OF CANEY, KANSAS

Call and get full particulars. Watch for description of this property in The Times.

Thos. Patterson & Co.,
FISCAL AGENTS, PETERBOROUGH.

APPEARANCE

is such an important feature on the table. It makes a heap of difference whether you have a good or a poor looking Sugar on the table.

St. Lawrence Extra Granulated

is the whitest and best looking Sugar to be had and besides, it has the advantage of the highest quality and greatest strength.

IMPORTANT NOTICE TO FISHERMEN

We have in stock the full line of Lowe's famous Buffalo double and single Star Baits, also the celebrated Delaney Baits by the [illegible] Allcocks Artificial Gimp Flies just the thing for Fishing. Orders [illegible] for live Bass.

Try to Escape Bright's Disease

Look Well to Your Kidneys—Keep Them Healthy and Thus Avoid Incurable Diabetes and Bright's Disease

If you would avoid Bright's disease take Dr. Hamilton's Pills at once—no delay about their action which is swift and thorough. In every case complete cure attends their use.

Read the following symptoms—they tell if your kidneys are sick or well—whether or no you require a medicine such as Dr. Hamilton's Pills:

WATCH YOUR WATER!
Does it smell bad?
Is it red bloody?
Painful and too frequent?
Does it drip?
Discolor the linen?
After standing 24 hours, if the urine is cloudy, highly colored, stringy, contains sediment like brick-dust then
YOUR KIDNEYS ARE DISEASED.

To protect your system against the further inroads of kidney complaint rely on Dr. Hamilton's Pills. They give instant relief to the backache, those dragging sensations, desire to urinate too often or too seldom. You'll feel invigorated and braced, your appetite will improve, sleep will be restful. No medicine on earth will do you more lasting good. Price 25c. per box, or five bottles for $1, at all dealers, or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

As party will be limited to 125, early reservation is necessary. For full particulars call on Grand Trunk agents, or address E. C. Bowler, Room 308 Union Station, Toronto.

The New-York Tribune Almanac

Of course, it is possible to worry through life without keeping a Tribune Almanac at your elbow, but it is worth while—does it pay? For 25 cents a year this publication supplies you with a really marvellous amount of information, and the man who has it is an authority in his neighborhood. He doesn't have to be "guessing" or "supposing" about election pluralities, the names of Cabinet Ministers, Senators, Congressmen, Governors or Judges. He doesn't have to rely upon his memory when anything comes up about the big events of the preceding year or in relation to our army or navy, or sporting records, or, in fact almost anything else of record worth knowing. If you never examined The Tribune Almanac just invest a quarter for once, and see how well pleased you'll be. The 1906 ne will be on sale January 1, and may be had from your newsdealer, through your local paper or direct from The Tribune Office, New York.

—Mr. J. E. Lecours, of Montreal, is visiting at Belle Chasse, Mr. Le Brun's cottage at Stony Lake.

Peterborough Business College
larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

W. H. PRINGLE

To-day's Program.

What Our Citizens will Do With Themselves To-day.

Civic holiday, comes like Christmas, but once a year, and in this city is as conscientiously observed as a holiday, with the exception, that, owing to the season, more people enjoy themselves away from their domestic hearths. To-day, this city will be almost as the deserted ruins of Pompeii for population there being so many attractions abroad.

In this connection it does seem a pity our citizens and Council do not put their heads together and devise some means of bringing people the city in place of having thousands of persons and consequent pockets full of good dollars going to enrich other towns. It was not always thus! Peterboro in days gone by used to have attractions and events that not only brought visitors with their money, but attracted attention from the press of Ontario.

There is a fairly broad cluster as to where one may go and escape the sun-baked streets of our city.

COBOURG.

The shoulders run a special excursion train to Cobourg, where the fresh breezes of Lake Ontario and the many sights of interest will doubtless prove a welcome change to many. This train leaves here at 8.15 a.m., returning, leaves Cobourg at 7.30. The return fare is 85 cents for adults and 45 cents for children. An additional attraction at Cobourg on Monday will be the first annual summer horse show, which promises to be a grand success. The picnic will be held in Victoria Park, a beautiful piece of park on the lake shore.

MIDLAND.

The lacrosse team will, no doubt take a large number on their excursion to the rapidly growing and large shipping port of Midland. The club has engaged a special train for Midland, where they play their second semi-final game, will carry one of the largest crowds of the day. The special train will leave the G.T.R. station at 8.15 a.m., and returning will leave Midland at eight o'clock. This will give a good eight hours in the Georgian Bay town, and will afford ample opportunity to see the game and the sights of the town. The redturn fare, $1.35, is exceedingly cheap for the 100 miles.

BELLEVILLE.

The I.O.F. of Peterboro, will today repeat their great success of last year, and run an excursion to Belleville and the Thousand Islands. The train will leave here at 7.20 a.m., and returning the special train leaves Belleville at eight p.m. The return fare will be $1.65 for adults, and 85c. for children. The trip to Belleville will be made by train, and from there a steamer will be taken affording a delightful trip down the St. Lawrence.

NIAGARA FALLS.

Court Littlejohn, C.O.F., has an excursion to Niagara Falls. The special train leaves here at 6.20 by the G.T.R., and the return fare to Niagara Falls is $2.20, and to Toronto $2.05. A special train will carry passengers home the same night, but the privilege of remaining over in Toronto until Tuesday is given.

The A.O.H. and Catholic Order of Foresters will take their friends to the beautiful gem of the Otonabee, Jubilee Point. The City of Peterboro and Water Lily with barges will leave the Wolfe street wharf at 8.30 and calling at the end of the car line. The return fare is fifty cents, and without doubt the excursion will be well patronized.

GORE'S LANDING.

The Baraca Bible class of the Murray street Baptist church, have decided to run an excursion to Gore's Landing and Harwood on Civic Holiday, and the steamer Rainbow has been chartered for the trip, and will leave the Wolfe street wharf at 7.45, calling at the end of the car line. The return fare for this trip will be fifty cents.

STONY LAKE.

There is also the Stony Lake regatta, to take the attention of those inclined to aquatic sports. The return fare will be train, 30 cents; and boat, 75 cents, and the trains leave at 8.30 and 11.55 a.m.

Both railways give special holiday single fare rates, good for any train Saturday, Sunday or Monday to return on Tuesday.

Angry Contemporary.

The Lakefield News Takes Great Exception to Our Account of a Trip to Rice Lake

The last issue of that ambitious little country journal "The Lakefield News" contains a very severe reprimand for our having the presumption to note a few of the pleasures to be gained by taking a trip to Rice Lake or Jubilee Point. The News says sneeringly that the little account of a trip over the beautiful waters of the lower Otonabee and Rice Lake was "An advertisement pure and simple of the Calcutt Line of steamers." This nice little paper also takes exception to an insinuation it discovers, regarding the lack of courtesy shown by the crews of the Stony Lake steamers; we might respectfully ask our esteemed contemporary to note that the "crews of the steamers are not included in the frequent complaints that reach this office, as noted in the article that causes the News's back to bristle so.

You can get
STRENGTH
to stand Hot Weather
FROM
POSTUM
FOOD COFFEE
Trial is proof.

We do note, however, ecing that Beer News gets up and rears, that the main trouble with the Lakefield steamers, in which we do not include the T.V.C. Navigation boats was not touched on their attack on our little inoffendical account of a trip to Rice Lake, viz., the frequent and lawless, not to say dangerous overcrowding of the boats on which Stony Lake visitors are compelled frequently to risk their lives. Why did the News omit, in their impertinent criticism of our innocent little article to include this persistent violation of law and decent regard for human life. Well, Well, Beer News, we would not give away secrets of the paper business, we all know that in country weeklies printing will count. We will—even risk the News accusing us of being advertising agents if we compare the southern hotel accommodations as being equally as good as those of Kawartha Lakes.

A Tennesse gentleman, whose fortune runs into figures that require a telescope to follow them, called at The Times sanctum yesterday, and gave his experience at Gore's Landing, including a trip by the Peterboro steamers for this city—there we go again advertising. The Calcutt Line of boats, in which he spoke most favorably of the pleasures to be gained by a trip to the Landing. This gentleman who has been a globe trotter, and has seen the world as it is round, told us that never was he more comfortable or better looked after then at Ed. Harris hotel at Gore's Landing. He said he had been at a Stony Lake hotel, and all they thought of there was getting the ready dollar, and praying for the next boat to arrive. He also said in regard to his trip to Rice Lake ——— —— —— —— but not we are not advertising any line of steamers gratis.

We might respectfully add that Stony Lake should be spelled Stony, without the "e."

—Hastings Star:—Miss Josephine Gordon, of Peterboro, is the guest of Mrs. T. McGuire. Mrs. J. Londerville and Mrs. Henderson, of Peterboro, are the guests of the former's parents, Mr. and Mrs. H. Puffer.

An Up-to-Date Newspaper

One of the brightest and most intelligently managed papers in the Dominion is the London Free Press, one of our most esteemed and heartily welcomed exchanges. It is a-propos to give a passing notice to the semi-centennial number, 56 page issue commemorative of the fiftieth anniversary of London's incorporation as a city. The engraving and semi-tone prints in this number are truly chef d'oeuvres of the lithographer's art, and would be a credit to any sheet in the world. It is such enterprise as the London Free Press exhibits that is now up-building this Canada of ours.

$10—First of the Season—$10

Four special seashore excursions from Suspension Bridge, Niagara Falls, to Atlantic City, Cape May, Ocean City or Sea Isle City, via Lehigh Valley Railroad, July 11, August 4 and 11, and Sept. 1. Tickets only $10 for the round trip. Good 15 days. All trains via. Philadelphia. Tickets allow stop-over returning. Tickets good on regular express trains leaving Suspension Bridge at 2.50 and 7.15 a.m., 6.20 and 10.15 p.m. For tickets, Pullman berths and further particulars, apply Robt. S. Lewis, Canadian Passenger Agent, 10 King street east, Toronto, Ont.

Illuminated Parade on Monday

One of the prettiest features of the coming Stony Lake Regatta on Monday next will be the illuminated parade in which hundreds of canoes and steam launches, appropriately decorated will participate. The affair is creating a general interest and will, to judge from present prospects, be attended in large numbers by cottagers and campers. The parade will start from the Juniper Island store, and will be in the nature of a huge flotilla. Those attending in canoes and skiffs will be towed about among the islands by the yachts, and the piano will be taken out to lend an additional musical charm to the delightful affair. The features will also be supplemented by vocal choruses.

How to Help Your Girls.

The anxious mother of the family oftentimes carries the whole burden of responsibility so far as the home medication of common ailments of the girls or boys are concerned. The cost of the doctor's visits are very often too great for consideration. At such times the mother is invited to write to Dr. R. V. Pierce, of Buffalo, N. Y., for medical advise, which is given free. Correspondence is held strictly confidential.

$500 REWARD FOR WOMEN
WHO CANNOT BE CURED.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay $500 in legal money of the United States, for any case of Leucorrhea, Female Weakness, Prolapsus, or Falling of Womb which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

WORLD'S DISPENSARY MEDICAL ASSOCIATION, Proprietors, Buffalo, N. Y.

Take Dr. Pierce's Pleasant Pellets instead of any other laxative.

TEN YEARS

The Story of My Wonderful Success.

Reads Like a Fairy Tale—Yet Full of Convincing Truths

An Opportunity of a Lifetime for the Investor.

TAKE ADVANTAGE OF IT.

I ask every reader of this paper to write me I want to send you my free book entitled "Ten Years"—"The Story of My Wonderful Success." It tells about one of the greatest and most promising investment opportunities ever offered. It tells how my business grew from less than $25.00 capital to its present proportions.

I believe I have the best proposition from an investor's standpoint that could be placed before you. For ten years I have been teaching men and women to live according to the laws of Nature. My book is the history of my life. It shows what energy and ambition can accomplish in the world of affairs. It is intensely interesting to any man or woman who has a few dollars to invest in a legitimate enterprise.

I started business in the City of Brooklyn in 1896. My capital amounted to less than $25.00. My first year's business netted me over $1,000.00. Last year I paid dividends to my partners of 15 per cent. Five years ago my business had grown so large that I was compelled to remove to larger quarters. I am now at 63-65 Clark St., Brooklyn, N.Y.—in connection with Hotel St. George. Experts pronounce my institution to be the best appointed of its kind in the country. I estimate the equipment of the Mac Levy Institute of Physical Culture to be worth at least $40,000.00.

I want to have a building of my own that will enable me to accommodate my increasing business. To erect this building I need capital, but more important than this to increase my business to the proportions which I desire, I need the co-operation of men and women throughout the country and the world.

Co-operation is the Secret of Success

I recognize it. I believe that with thousands of co operators throughout the country I can build my business to tremendous proportions to the benefit of the shareholders and myself.

The Mac Levy Company is incorporated under the laws of New York for $150,000.00. They are proprietors of The Mac Levy Institute of Physical Culture and The Mac Levy Gymnasium Equipment Company.

The last named branch of the business of the Mac Levy Company is comparatively new. I have been at work for several years to establish such a department in connection with teaching Physical Culture. The most difficult part of forming the Equipment Company has been accomplished. The business is now in condition to be pushed on a large scale. Hundreds of thousands of dollars are spent yearly on new gymnasiums and their equipment. The profits are large. A company of this kind has an immense field in which to work. Competition is slight. It is evident that the Mac Levy Gymnasium Equipment Company can build an enormous business.

The Mac Levy Company operates during the summer months at Steeplechase Park, Coney Island, and at Averne Hotel, Averne-by-the-Sea, L. I., as well as at our Brooklyn Institute. It also does an extensive mail business. I teach people how they should live and exercise. My students are scattered all over the United States, and in English speaking countries.

A PROBLEM

which arrises in the minds of every man and woman is how to secure a comfortable income in the earlier years of their life, that they may reap the full benefits which such an income affords.

I have long thought that there are hundreds of people in moderate circumstances who would like to invest a few dollars in an Institution of this kind. It is to such people that I intend this announcement shall appeal. I am offering a block of the Treasury Stock of this company to the public at its par value. My reasons for doing this are that I wish to erect a building and to extend the business of The Mac Levy Institute of Physical Culture and The Mac Levy Gymnasium Equipment Company.

I WANT YOU AS MY PARTNER

I need your help and suggestion. I want you to work with me and help me to secure a tremendous amount of new business.

I believe that if you could talk with me personally and go over the records of the business which I have done, see in black and white the figures which show the steady growth my business has experienced during the past ten years, examine my plans for future extension, and then look over the magnificient equipment of my Institute, and would want no further evidence that money put into my business would bring you the greatest possible returns consistent with safety and good management.

I ask you to write for my free book. I believe it will interest you. You have a few dollars that you want to invest. Why let it stand idle earning only 3 or 4 per cent that Savings Bank pay their depositors? Put it to work. Join it with mine. This Company ought to pay at least.

TWENTY PER CENT. DIVIDENDS
within one year

Write for my book to-day. NOW.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL. XXXIII, NO. 191. PETERBORO, ONTARIO, WEDNESDAY, AUGUST 16, 1905. PRICE TWO CENTS

Peace Negotiations Are Progressing.

Japan Secures Control of Korea--Russia Agrees to Evacuate Manchuria and to Hand Over Chinese Eastern Railway.

Portsmouth, N.H., Aug. 15.—Good progress was made with the peace negotiations yesterday, three of the twelve articles which constitute the Japanese conditions of peace having been agreed to by M. Witte and Baron Rosen on behalf of Russia. Neither of the two articles to which M. Witte in his reply returned an absolute negative was reached. The crisis, therefore, instill to come. It may be reached today, as the cession of Sakhalin comes fifth in the list.

THREE STEPS TOWARD PEACE.

The three "articles," as they are officially designated in the brief communications authorized to be given to the press, which have been disposed of, are in substance as follows;

First—Russia's recognition of Japan's "preponderating influence" and special position in Korea, which Russia henceforth agrees is outside of her sphere of influence. Japan binding herself to recognize the suzerainty of the reigning family, but with the right to give advice and assistance to improve the civil administration of the Empire.

Second—Mutual obligation to evacuate Manchuria, each to surrender all her special privileges in that Province, to respect the "territorial integrity" of China and to maintain the principle of equal opportunity for the commerce and industry of all nations in that Province in other words, the "open door."

Third—The cession to China of the Chinese Eastern Railway from Harbin southward.

CHANGE OF VIEW IN GREAT BRITAIN

The Free Trade Feeling is Gradually Giving Way to Reason

EDUCATIONAL CAMPAIGN

Mr. Watson Griffin Tells Something Of What Canadian Manufacturers Heard on Their Visit

Montreal, Aug. 16.—Mr. Watson Griffin, who was in England with the Canadian Manufacturers Association returned on the Virginian, and is at the Windsor.

Mr. Griffin, who was afforded special opportunities of investigating the progress of the Preferential Trade movement by those in charge of Mr. Chamberlain's campaign, said

"In considering the present attitude of the British people on the tariff question, it must be remembered that until very recently public opinion in the United Kingdom was almost unanimously in favor of free trade. There were a few earnest advocates of protection and Imperial preferential trade, but they could hardly obtain a hearing for their views Free trade was part of the average Englishman's religion, and was as sacred to him as the pigtail is to the Chinaman. Taking this fact into consideration, any one who goes about in the United Kingdom must be impressed with the extraordinary change that is taking place in public sentiment. The supporters of protection and Imperial preferential trade are still in a minority, but a very large number of people, who are not yet convinced, are beginning to regard it as a debatable question. Perhaps the most interesting development, from a Canadian point of view, is the fact that some of the most pronounced opponents of Imperial preferential trade in England now admit that protection is necessary for Canada. This view was privately expressed to members of our party in every town we visited, but they said Britain's position is different from that of Canada, and the policy which is best for Canada might be unsuitable for the United Kingdom.

QUIET BUT EFFECTIVE WORK.

"When Mr. Chamberlain first declared himself in favor of Imperial preferential trade, it was the sensation of the day and the newspapers, of course, devoted a great deal of space to it. It is no longer a sensation, and the newspapers give less space to tariff news than they did a year ago. For this reason many people suppose that the movement has had a set back, but this is far from true. A great deal of quiet work is being done by the tariff reformers, and public opinion in favor of protection is steadily gaining ground. While we were in London, the Tariff Reform League held their annual meeting in Albert Hall. There were thirty thousand applications for tickets of admission, and only about ten thousand could be accommodated. Mr. Chamberlain received a most enthusiastic reception, and every utterance in favor of preferential trade by any of the speakers was heartily applauded

"Mr. W. K. George, as president of the Canadian Manufacturers' Association, stated clearly wherever we went that protection was necessary for Canada, and that we could not abandon it for the sake of preference in the British market; but he pointed out that Canadians desired, so far as possible, to develop trade with Britain in preference to foreign countries, and that we believed an arrangement for mutual preferential trade might be arrived at which would be satisfactory to both to the United Kingdom and the colonies. Mr. W. K. McNaught, chairman of the tariff committee of the association, spoke to the same effect.

SATISFIED WITH CANADA'S POSITION.

"In conversation with a number of leading men connected with the tariff reform movement I was assured that they considered the attitude of the Canadian Manufacturers' Association on the question of preferential trade quite satisfactory. They all expressed the hope that the ultimate result of imperial preferential trade would be free trade within the Empire, but they fully recognized that this would be impossible at present. When told that the only way in which Canada could now increase the preference to the Mother Country was by raising the tariff higher against foreign countries, they accepted this statement as reasonable, under present conditions.

"The tariff reformers do not expect a Conservative victory in the next general elections, but they say the defeat of the Government will not be due to Mr. Chamberlain's attitude on the tariff question, but to a variety of other causes. They believe that the tariff reform movement will make far greater progress when the Conservatives are in opposition, and that in a few years they will return to power with a mandate from the people to protect British industries from unfair foreign competition, and at the same time gives the colonies a preference.

"The British people in general show extraordinary gratitude for the part played by Canadians in the South African war, but they think Canada should contribute toward the support of the Imperial Navy. 'A factory in Canada, employing a large number of men, would be worth as much to the Empire as a factory in England, if the Canadian people contributed as much to the support of the navy in proportion to population, and wealth as the British people do,' said a wealthy British manufacturer to me, and he undoubtedly voiced the general feeling. A really generous Canadian contribution toward the naval defence of the Empire, would create intense enthusiasm for Canada in the United Kingdom, and would be far better appreciated than an increased tariff preference. Canada's naval contribution should not take the form of a grant of money to be expended by the British Government. Our Government should ask the great British shipbuilders, who have had experience in building warships, to tender for the construction of a number of warships in Canada during a period of years to be agreed upon. The money expended would largely be paid out in Canada for wages and material, and would not be lost to the country. It would aid in the establishment of great shipyards, which would build merchant vessels as well as warships."

DO NOT MISS

The Great Canadian National Exhibition at Toronto this year. Specially low rates via Grand Trunk.

—The local canoe companies yesterday had grave thoughts as to getting out models for an ark during the heavy and persistent downpour.

Prospects are Bright.

Cheering Intelligence of Good Gold Deposits Being Found in a Mine Owned Here.

It will be pleasing news for the local owners of the Big Dipper Mine Co. to learn that the prospects are now brighter than ever anticipated.

Mr. J. A. Jamieson, superintendent of the Big Dipper Gold Mining and Milling Company's property in Barrie township, Frontenac county, writes that the work now in progress is laying bare very rich deposits of ore, the free gold being found in as large particles as average pin heads. The prospecting [illegible] the north side of the [illegible] wide vein shows that there are two stringers putting out from the main vein carrying free gold. This side of the vein will be the place to sink the working shaft, and, although the shaft is now only down ten feet, there is already a fine showing. Mr Jamieson a day or two ago shipped off a scalp of quartz on the hanging wall, which was plastered with gold. The quartz is coming in place at the bottom of shaft on the granite side and looks very encouraging.

Mr. Jamieson hopes soon to instal the air compressor at the entrance to the tunnel, which is now 50 feet in; by the aid of this power the men will more quickly reach the veins containing deposits of gold bearing quartz, from which several good pannings of gold have been taken. The large percentage of the ore is free milling and "the Big Dipper mining property will soon be among the best dividend paying mines in this or any other country," concludes the superintendent.

Successful Regatta

Annual Stony Lake Regatta Surpasses All Records in Attendance and Events.

The Stony Lake regatta held on Monday, Civic Holiday, surpassed any previous meeting of the kind held on Kawartha Lakes.

Much pleasure was expressed by the thousands who witnessed the various races and contests, and great excitement, being provoked over the variously well contested events.

Every kind of small craft, from the lordly steam launch to the plebian punt surrounded the starting point and followed, laden with excited men and fair visaged ladies, as the many entries sped forward to victory or defeat. The weather discretionary must have been bribed by the committee in charge, as it was an ideal day for such a contest and display of aquatic patronage.

The first race was for dinghies, the prize being a silken flag. There were five entries for this race over a three-mile course. The start was made at seven minutes past two p. m. Milne Hamilton, of Chemong, won the event, finishing at 3.02 p.m. Mr. Acton was second, finishing at 3.06 p.m. The other starters finished as follows; A. A. Hollingshead, Chemong, 3.06 1-2 p.m.; J. L. Hopwood, Chemong, 3.07 p.m.; Mr. Hopkins, Sturgeon Point, 3.07 1-2 p.m.

The open sailing event was declared off until Friday owing to several fouls.

The canoe sailing race was won by Mr. Hopkins, with Hubert McHaffie second and G. Rockham third. The race was a good one.

The boys' tandem canoe race resulted as follows; Eakins and Rice 1, Brown and Watson 2, Ray and Cummings, Chemong 3.

The ladies skiff race was marked by an exciting finish between the leading two, Miss Isabelle Hay, of Chemong won in a close finish from Miss Margery Scrieber.

Another good race was the men's singles, Harry Simpson, of Lakefield, won with N. G. Bell, of Peterboro, second; F. L. Roy, Peterboro, third and J. M. Watt, Peterboro, fourth.

The boys' tandem skiff race was easy for Loch and Chalk, Henderson and Fraser were second.

The ladies' single canoe was won by Miss Helen Hall. Miss Allison Hamilton was second.

Messrs. Charles Gordon and Harry Simpson, of Lakefield won another when they annexed the men's double canoe race. Gordon and Galvin, also of Lakefield, were second.

The crab race in which the contestants paddled in the bow of their canoes was interesting. Jas. Eakins was first, H. Simpson, Lakefield, second.

Jacobs won the Indian canoe race from Smoke in easy fashion.

The boys' swimming race was won by C. Loch, of Peterboro, defeated H. Chalk and Curry after a good contest.

The mixed tandem canoe race was a fine one and the finish was close. Miss Gwen Hall and Norman Hall were first; Miss Helen Hall and Hon. Lawrence Graham second, and Miss Attwood and Mr. J. M. Delafosse 3rd.

Norman Bell won the upset race very cleverly, righting his boat and crossing the line before the others had got the water out of their canoes. J. Eakins was second.

The punt race was captured by Fred Collins after a tight contest. J. S. Kaugman was second, R. R. Rogers third and F. Burnham fourth.

Little Miss Marion Schreiber won the ladies' swimming race with Miss Gwen Hall second, and Miss Annette Collins third. The race was an exciting one.

The last race was the men's swimming race, which was marked by one of the closest finishes of the day. Fred Collins won by a head from Harry Rogers.

During the afternoon two unsuccessful attempts were made to start the ladies' tandem.

Those in charge of the regatta are to be congratulated upon the success of the affair and the speedy manner in which the events were run off. The several upsets were the only disagreeable part of the program, but fortunately everyone could swim and there was no danger.

Those to whom the success of the regatta is in a great measure due, are the following officials:

Starter—R. B. Rogers, F. Addison.

Judges—J. R. Stratton, S. Henderson, John Nugent, W. J. Hopwood.

Clerk of course — Hon. Lawrence Graham.

Time keepers—Benjamin Shrigley, A. Gibson.

Committee—R. B. Rogers, H. Buck, S. Henderson and J. S. Knapman, secretary.

A Lenient Judge.

Tim Maloney Pleads Guilty to Two Charges and Allowed to Go.

As noted in a former issue of The Times, Timothy Maloney, charged with appropriating money and goods, the property of Mr. Fred Cook, had his trial enlarged until yesterday, as Mr. Cook was out of the city at the time of his former trial. His adjourned trial took place in the county police court yesterday morning with Judge Edmonson presiding.

Maloney was charged with having collected $4.50 without authority from customers of his employers, and also with having failed to return a sample case and contents to Mr. Cook.

Mr. E. A. Peck appeared for Maloney and he and Crown Attorney R. E. Wood agreed to allow the prisoner to plead guilty to both charges.

Magistrat Edmison took a lenient view of the case. He convicted Maloney on both charges, but remanded him for two months for sentence on condition that in the meantime he refund the $5.40 and also return the grip and samples. If Maloney makes restitution in that time, he will be allowed continued liberty. He is now out of jail.

Killed by Quicklime.

Toddling Child Meets Death by Falling Into Mortar Box of Quicklime

A horrible accident occurred in Lindsay on Monday morning, which threw a mantle of gloom over a large portion of the citizens of Lindsay.

Mr. Reese Williams, of the north ward, is erecting a fine new house on William street north, and on Saturday at noon hour the masons put some water in the mortar box so as to have the lime boiling and ready for use when they returned to work. While away the young son of Mr. Arthur Williams, only one year and ten months old, was missed, and shortly afterwards he was heard screaming and evidently suffering agony. The child had gone over to the new house to play and while doing so toppled over into the box filled with hot and steaming lime.

The poor little boy was very badly burned, both legs and both hands being frightfully roasted, and his face and one eye were also badly burned.

He was most tenderly cared for, and Dr. White was called, but could do little beyond easing his sufferings, which terminated Tuesday morning.

EUROPE THREATENED BY DREAD CHOLERA

Warning Cry Has Been Sounded by Director of the Sanitary Service

AMERICANS HURRYING HOME

Physicians Say That the Threatened Invasion of Cholera May Be Warded off by Sanitary Methods

Paris, Aug. 16.—Your correspondent interviewed a number of medical authorities on the question; is Europe threatened by a cholera epidemic? which has become acute since Dr. Chautemesse, director general of the sanitary service, sounded his warning cry, that sent to many Americans, journeying in Europe, home in a hurry. Here followed the opinions.

VERY SERIOUS

Dr. Kermorgant, sanitary inspector of the French colonies; I think the professor's warning deserves consideration by all sanitary officers throughout Europe and America, but I'm also of opinion that the threatened invasion can be warded off, if the necessary official in the various countries do their duty fully."

CELEBRATED CHOLERA STUDENT.

One of the most famous students of cholera in Europe, Dr. Choppin, of the colonial sanitary service said: "My experience in Persia (1904), when that country was under the sway of cholera epidemic, teaches me this; Cholera cannot make a long stand against sanitary campaign. It must succumb, run away, allow itself to be stamped out if the sanitary officers display the necessary energy and, above all, take preliminary measures in time. In France, Italy, Spain, Austria, and Russia such epidemics as cholera, black-pox, etc., are mainly spread by pilgrimage and shrine worshippers, who mix their religion with dirt and neglect of all sanitary precautions. If cholera is marched toward us, the governments of Europe could unite in forbidding all religious processions for the present.

WATCH RUSSIAN AND TURKISH FRONTIERS.

"It will also be necessary to have the Russian and Turkey frontiers, by land and water, watched by competent sanitary officers, while ships hailing from Asiatic and Persian ports and caravans should be subjected to strict sanitary measures."

Spain, Italy and Germany (Hamburg) ten years ago, and its working satisfies us. Not a single case of cholera was smuggled into France. And, as we expected, the traveling public, itself helped us drawing our attention to a copassenger who did not seem well." The doctor concluded, "I admit my learned colleague asserts; the danger is great, indeed, but if all sanitary officers, and all private physicians as well do their duty, the nations of Europe need have no fear."

Peterboro Wins the Round by Eight Goals

About 250 People Take in the Lacrosse Club's Excursion to Midland to Witness the Return Game of the Semi-Finals with the Team of That Place--Terrible Exhibition of Cannabilism.

About 250 people took in the lacrosse excursion to Midland on Civic Holiday to witness the return game of the semi-finals with the team of that town and the locals. The train pulled out about 8.10 with a jolly good crowd of sports on board. When Lindsay was reached and a stop was made to take on a few passengers here, some Lindsay sports broke the news that the Midland team was about to be reinforced by half a dozen ringers from Orillia and other places. And that Peterboro had better get prepared to get their bumps, for Midland was out to win at all costs.

Soon every Peterborite on board had the news, and when Orillia was reached, expected to see the ringers get aboard, but not a single soul was taken on. The train sped on until the destination was reached about 11.30. Dinner was partaken of and the excursionists wended their way about the town to see the many (?) points of interest. Here and there a little knot of Midland citizens were congregated, discussing the probable result of the game, and more than once the remark was made "Well you fellows will go home with a different tale to tell, it will be no 10-to-1 story." However, the boys took everything in a cheerful way and showed few signs of worry.

THE GAME.

The Peterborites went into the game with a lead of nine goals but Midland was quite confident of overcoming this with the addition of the ringers substituted to fill weak spots. The game started at a good pace, but was not kept up, the Midland aggregation worked hard but the visitors lacked ginger and the absence of Glover off the home scored to break up the whole system of play. Jack McCabe was placed on the defence were he did good service, but throughout the game the defence allowed themselves to be drawn out, something that used to be impossible for a home to do, and as a result the local team worked around them to the sides and scored several of their goals. Had Nat not been for the good work of the Peterboro field captain, who did his utmost, and only with the hardest kind of work kept the players on the move, and continually drummed up the Peterboro boys, who seemed to have fallen into a lethargy, the Midland team would have run up a large score. Not until towards the end of the game did the home come.

(Concluded on page four.)

Now Midland is a busy little place of about 4,000 population, and one man-eater, the principal industries being a large smelter and their many saw-mills.

Little did the Peterboro excursionists expect, when they saw the tents of the Morris & Rowe circus at Lindsay, that they were to witness such an inhuman and degraded exhibition of man-eating or cannabilism as actually took place at the lacrosse match in the park at Midland.

The visitors were certainly at a loss to know where this wild-man (Atkins) had escaped from. Many tried to solve the mystery by the appearance of the circus at Lindsay, and that from there he had made his escape to Midland. Others volunteered to sail the bay in view of finding his place of abode, as it was thought by many that he must be isolated from the rest of the civilized world on a small island, but lack of time, owing to the delay in the game when this big thickly set fellow, of 225 pounds, endeavored to eat Crowley, and partly because of fear of running amuck with some other monstrosity, prevented many from venturing far from the hotel.

THE MAN-EATER GETS IN HIS WORK.

About one o'clock the parade of influx of players for the Midland team started from the railway station, headed by the great and mighty Atkins, closely followed up by Cook, Fred Rider, of Acton, Robinson, of the Chippewas, Jock, of Penetang, and Referee Penniek, of Stouffville, who was an eye-witness of the the Atkin's cannabal perpetration, and who is said to have had full knowledge of the importation of the principal actors who were applauded by the Midland people during the performance in the afternoon, at which Atkins figured so prominently in an act which, any imbecile would be loth to perform.

HE ALSO EATS SUSPENDERS.

About four o'clock in the afternoon the game started and was closely contested throughout as the score six to five indicates, was clean and free from roughness, but for the few occasions when Atkins tried to bore down on Best and Judd, but was sent to the fence, and in the third quarter when like a wild beast he tried to devour Bill Crowley, and commenced by chewing him in the breast, biting his neck, and digging his fingernails into his face, with the result that it is badly marked and bruised from being kicked. This is nothing new for Atkins, as he tried to eat Cavanah at the game in Peterboro, but his grinders found Bill's suspenders undigestable meat.

RED JUDD NEARLY SCALPED.

Bill Judd, better known as "Red," the smallest player on the field, weighing 115 pounds chased after the ball to the side near the bush (it may have been Atkins' home), when the man-eater seeing this great opportunity for a victim, followed him. Red secured the rubber and seeing what was chasing him ran past Atkins like a flash of fire, his hair standing straight in the air, as he received a poke in the neck and slammed across the caranium, from his pursuer's stick, but Judd never turned, on he sped, and was heard to give a sigh of relief as he reached the center of the field in safety.

ACT OF CANNABILISM.

In the beginning of the last quarter Atkins got in his work proper. The ball travelled to Midland territory, Atkins got it and started up the field until he met Crowley, evidently thinking him Cavanah, and eager to finish a cannabile job commenced in Peterboro, was looking for every opportunity. Crowley checked his attack and the ball fell out, Atkins dropped his stick and dug in, to defend himself. Crowley seized him about neck, and as they fell Atkins resorted to biting and left terrible marks on his breast and neck. In the scuffle he played have with Crowley's face with his finger nails, and as they lay on the ground someone, it is alleged to have been Cook, did the act of a dreg by kicking Crowley in the face and side. The crowd ran onto the field and it looked serious for awhile, but finally they dispersed and Crowley was in search of his lacrosse stick when Atkins followed him down the field, hurling the remark at him, "Are you looking for me," with this he received a sudden jolt under the jaw, and it looked like more trouble but the field was cleared, Crowley going to have the wounds inflicted by this act of pallconery dressed by a doctor when all traces of venemous substance from Atkins' bite were washed off by medicinal solutions, Crowley returned to the hotel and Atkins was severely critized by Midland citizens, ladies hissing him and calling him all sorts of fiendish names. The citizens of Midland and many of the members of the lacrosse team in very indignant terms spoke of this deplorable incident deeply regretting that such an occurrence should happen their town and strongly urged the management of the Peterboro lacrosse team to take some action against Atkins. Many were of the opinion that it would end lacrosse forever in Midland. One citizen in a joking way, said he was at a loss to know how Atkins brain could be so undeveloped to allow such degradation of morals when fish are so plentiful in Midland.

Automobile Regulations

Provincial Secretary Has Issued Regulations for Conduct of Automobilists.

The Chief of Police was yesterday in receipt of large placards from the Provincial Secretary's Office, Toronto, giving latest legal regulations controlling the actions and stating the privileges of the haughty owners of auto-cars. These regulations are too long to give verbatim here, but a few extracts might be mentioned, among which are practically the following;

No automible owner or driver must run their machines on the public roads or streets in a race on on a wager. Auto drivers must take reasonable care not to frighten horses or other animals, must slow down when a horse approaches, or seems frightened, and must not go any further towards such horse until under control of its driver. Must show, on demand their permit, corresponding with the automobile's given number, that as paper permits may become spoiled by weather or wet, the department supplies a metal "marker," with the auto's number inscribed. The onus of proof, where an accident takes place from a horse being frightened by an auto, rests with the horse's driver that the animal was frightened by the new fangled auto. The first offence for non-compliance with the regulations, is punishable with a fine of $25, and for the second or further offenses, a fine of $25, with the possibility of the auto owner or driver, putting one month "in limbo."

TELEPHONE TALKS.

TO TELEPHONE USERS AND THE GENERAL PUBLIC,—

Is The Bell Telephone Company of Canada over-capitalized?

In an attack upon the Company made by a witness before the Select Parliamentary Committee, the charge indicated by the above query was made, being expressed in the following terms:

"Another reason for the excessive charges is the fact that the development of the telephone has passed through several stages since the date of the original patents, and at each stage the apparatus in use became obsolete, rendering it necessary in the larger exchanges for the company to practically reconstruct their system and install improved plant. There being no adequate depreciation fund in existence to cover the cost of this reconstruction, the expenditure upon this work has been charged to capital account, thereby increasing the amount upon which dividends had to be earned, with the result that to-day the plant of the local system could be duplicated for about one-third of the total capitalization and bond issue."

From this statement, which applies to the "local systems" or exchanges as distinct from the long-distance service, it would appear that the Company has not been receiving for its service a sufficient revenue to provide an adequate depreciation fund. Yet the charge immediately preceding the above, and upon which the argument of over-capitalization is based is to the effect that the Company's rates in cities are too high!

There is the frank admission, as will be seen, that The Bell Telephone Company has been doing pioneer work in Canada, and in doing so has kept pace with the constant evolution in telephonic apparatus; but coupled with this admission is the charge that the cost of these continuous changes has been improperly charged to capital account, thereby increasing the burden of present and future subscribers. There is every indication that the changes of apparatus will continue to be necessary as improvements at the present time are constantly being made and require more expensive changes in equipment than ever before in order that the best service obtainable may be provided.

The only logical sequence to the argument then, is that to provide a revenue with which to meet the demands made by these ever-recurring changes in equipment, rates must be raised. And yet the witness says that rates are already too high!

The charge of over-capitalization thus refutes itself. It is not based upon fact. The President of this Company in his sworn evidence, backed by indisputable records, showed that these improvements have not been paid for out of capital, and that the capitalization of the local exchanges of this company on the 31st of December, 1904, was only $92.00 per subscriber.

After twenty-five years of operation, all the time keeping pace with the advancement in the art of telephony, the Bell Telephone Company of Canada, instead of being over-capitalized as claimed, has really the lowest capitalization per subscriber of any general system of which records have been produced. There is no evidence in support of the claim that a duplicate system could be put in for less than the amount for which the Bell Telephone Company is capitalized, or even for the same amount.

A dollar of substantial value for every dollar of capital is the foundation stone upon which this company has been reared, and it is to-day its strength.

THE BELL TELEPHONE COMPANY OF CANADA.

When Run-down "Draggy," Used-up

You Lack the Vigor, Courage and Staying Power that "Ferrozone" Can Supply

Night comes and it's hard to sleep. Morning dawns and the anxious, tired feeling is still there. Don't neglect this gradual decline; it can't cure itself. But by forming rich, pure blood, Ferrozone will quickly supply the nutriment and building material your system craves.

Instantly you are aware that some powerful force is building up your depleted energies. Day after you feel braced, toned, strengthened. Search the world over and you won't find anything to tone up a weak system like Ferrozone. Physicians claim it is the most strength-giving, uplifting medicine ever discovered.

No more spells of tiredness, but bounding, joyful health when you take Ferrozone, of which Mrs. H. S. Gold, of Bowsman, Man., speaks in the following words of praise:

"I state my case because I think it may assist other women to health. A year ago I was almost a wreck. I was pale and emaciated, suffering from nervousness, and dyspepsia. Little things going wrong in the house bothered me. The doctor advised different treatments, but they didn't help. He said my low condition was due to weakness that might never be cured. Ferrozone had a peculiar grateful effect and built me up quickly. The ills I suffered from are cured. I am now strong and vigorous and was made so by Ferrozone."

Why not cast aside the claims of sickness and enter the bright, happy life of robust health. Let Ferrozone help you—let it cure you once and forever. Price 50c. per box or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to 7 o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

HOW A RUSSIAN BLUFF WAS CALLED?

This is not the first time Russian envoys have gone into peace conference swearing they would never consent to terms they accepted afterwards. The secretary of Lord Beaconsfield in the Berlin congress of 1878, after the war between Russia and Turkey, was Montagu Corry, afterwards Lord Rowton. The Nineteenth Century has a story by some one in his confidence of how the British premier called Russia's bluff.

Beaconsfield went into the conference with the "four points" which were finally embodied in the treaty. The Russian envoys rejected every one of them. Beaconsfield waited for the other powers to support him, but no one moved. Then, Lord Rowton says, he quietly instructed his secretary to arrange for travel to London the following Sunday, when the congress would not sit. He would see the queen Monday and war would be declared at once. The secretary found that the only way to make the journey Sunday was to order a special train from Cologne for Lord Beaconsfield and himself.

The government railroad officials reported this significant order at once to the ministers. Bismarck knew what it meant and got busy with Count Schouvaloff, the Russian envoy. That personage was under secret instructions from the czar to yield anything rather than fight England. Bismarck told him that it was the four points of war, and he yielded all of them at the next meeting. Bismarck having given Beaconsfield a hint not to use the special train.

The Portsmouth conference is not a general congress and no intermediaries will be present. But we imagine that the Japanese terms will be presented in the same spirit as Beaconsfield's four points. Perhaps the president is in position to tell M. Witte what will happen if they are rejected, and perhaps even if he does not know. What if the Anglo-Japanese alliance were to be renewed and strengthened at the psychological moment of the conference?

A GROWING TROUBLE

The Canadian west has a big problem before it—a rapidly growing trouble which must be met, says the Hamilton Spectator. Thirty thousand harvest hands will be necessary to gather the enormous wheat crop, the cutting of which has already begun in some districts. And the question is, Where are these men to be procured? And, if they are procured this year, a greater number will be required next year and the year following. A large number of the young men who will go to the west to the harvest will take up land and remain there to increase the wheat next year, and these, too, will want help next harvest. How in this growing demand for special labor during one month in the year to be met?

In Ontario, where mixed farming is in vogue, the farmers can employ help all the year round, and he has it ready for his harvest. But in the western wheat fields the farmer has nothing to employ men at during the greater portion of the year, and he is really pressed for want of help only at harvest time. The farmers of the west cannot go on depending upon help from Ontario. As we have mentioned many of the young men who go from here to the harvest will remain there to augment the demand for harvest hands and to increase the trouble, while others will be satisfied, after a season or two in western grain fields, to remain at home and attend to their own farms.

Machinery has done a great deal to enable the western farmer to do the maximum of work with the minimum of human labor. But agricultural machinery seems to have reached the limit of improvement. For many years no important innovation has been made. Certain is it that the inventor has not kept pace with the need of the farmer of western Canada, and the cry is for men.

There is the soil—"the best that lies out of doors;" there is the climate—perfect for growing grain; there is the grain itself, "Manitoba Number One Hard"—the best in the world; but where are the harvesters?

That is the problem the people of the Canadian West have to solve, and the worst of it is that, year by year, it is growing greater and greater. The greater the cut the more difficult it is to find the harvester. It may be that the people of the west may devise some scheme by which agricultural laborers may be employed permanently—all the year round. That would mitigate the trouble. But can even that be done?

The New-York Tribune Weekly Review

The Tribune Weekly Review is a handsome sixteen page weekly issued by the New York Tribune Association. It costs five cents a copy, but may be had for a whole year for $1. There is no other such publication sold anywhere for the money. It gives the essence of the week's news, with clean cut, sane and intelligent comment, and it keeps you up to date on everything worth knowing in politics (domestic and foreign) and in literature, art and music. For free sample copy send a postal card to The Tribune, New York.

COMBINATION OFFER.

MANY WIVES DESERTED

New York Magistrate Draws Attention to Growing Evil

New York, Aug. 13.—One hundred deserted wives appearing before him yesterday in the West Side court led Magistrate Pool to demand that lawmakers of this state should give their most serious attention to this growing evil. "Sixty thousand wives in Manhattan alone are abandoned every year," said the magistrate. "Every morning police courts are crowded with women, leading from one to six children, begging magistrates for warrants for their husbands. Evil of wife desertion has grown to menacing proportions."

Graveyard of the Atlantic

Halifax, N. S., Aug. 14.—The steamer Havana has returned from Sable Island with Captain Farquhar, who has gone thither exploring for wrecks. Captain Farquhar located a wreck, presumably the State of Virginia, lost 26 years ago. The vessel was, of course, broken up, but her engines were still standing. Captain Farquhar secured a ton of copper, but owing to the rough weather, was obliged to leave.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If a settler was entitled to and has obtained entry for a second homestead the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses (2), (3) or (4) must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 20 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba or any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior

N. B.—In addition to Free Grant Lands, to which the Regulation above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

How to Visit Colorado

Go first to Denver. It is the State capital, as well as the largest, wealthiest and most metropolitan city between the Missouri River and the Pacific Coast. The city itself is very interesting, and from it start practically all the trains over the various roads into the mountains.

Many of the most enjoyable one-day trips in Colorado begin and end at Denver. The cost of these little journeys is not great.

After you have familiarized yourself with Denver and its surroundings will be soon enough to decide where to go for the rest of your visit. The question must be considered from several standpoints—altitude, hotel accommodations, accessibility, amusements, etc.

Our Colorado literature will help you in deciding where to go and what to do. Sent free for the asking.

The Glenara Gold Mining Co.

Capitalization, 1,500,000 Shares — Stock Fully Paid and Non-Assessable

Par Value, $1.00 Per Share. — Treasury Stock, 700,000 Shares.

This Company was organized in March, 1905, under the laws of Arizona, with a capital of 1,500,000 shares. The par value of these shares is $1.00 each. They are full paid and forever non-assessable. The Company owns approximately seventy-five acres of territory in the Goldfield district. By reference to the map you will note that every acre is within the producing area, and with the systematic development this large acreage is to receive, there is no doubt that the stockholders will very shortly see the Company on a producing basis.

We desire to say right here that this Company is organized for legitimate mining, and not stock jobbing purposes, and among the directors are some of the best known mining men in the West. It is their one desire to make the GLENARA GOLD MINING COMPANY a great success at the earliest possible moment.

It is for the purpose of raising funds to vigorously develop the Company's holdings that some Treasury stock is now offered for public subscription. Out of a capitalization of 1,500,000 shares, 700,000 shares have been placed in the treasury. This treasury reserve insures the company a large working fund, if needed. It is the belief of the management, however, that it will not be necessary to dispose of over 50,000 shares of the treasury stock. The present outlook is such that the management believe that the mine will be on a paying basis before many weeks have passed.

The Property of The Glenara Gold Mining Company Consists of the Following:

The Glenara Group consists of four claims located in the Goldfield mining district of Nye County, Nevada. These claims are known as the Kentucky Bell, Mabel M., Lone Jack and June Bug, covering about seventy-five acres. This group of claims is located on a system of ledges over a mile and a half in length and about half a mile wide. These ledges are the same as those traversing the Kendall, Tonopah Club, Vernal, Quartzite, Black Butte, New York, Brooklyn, Jumbo, Vernal, Penn and Federal.

The surface indications at the time of location were of the very best, however, good float being found upon the ground and good assays are obtainable, all of which indicate that the property can be developed into a paying proposition. The ground has been thoroughly prospected and the sinking of the shaft begun on the Kentucky Bell claim. There is a force of men sinking a shaft as rapidly as possible. Good ore has been encountered running from $3 to $15 per ton, increasing in value with depth, and it is safe to say that a strike may be looked for any day.

Taken as a whole, the investment offered by the Glenara Gold Mining Company is equal to any prospective company in the district. The claims are exceptionally well located, covering a large area; the management is conservative and honest, and is working hard for the success of the company.

The proposition will stand the very closest investigation, and, in fact, an investigation by prospective investors WILL MEAN AN INVESTMENT. WE COURT INVESTIGATION.

The allotment of stock is very small, and if you desire to become interested with this enterprise, it will be necessary for you to communicate with us at once.

The work on the property is being pushed to the utmost, and any day may bring news of a strike which will advance the price of the stock.

GRAVE CHARGES AGAINST WITTE

Juliette Adam, Famous Authoress, Says Statesman Will Sell His Country

HE IS RUSSIA'S NEMESIS

Will Conclude Peace, But a Shameful Peace—Secret Head of Revolution

PARIS, Aug. 14—Juliette Adam, known also as Juliette Lamber, the famous author of "Jean et Pascal," of which a new edition has just seen the light may be considered the sworn enemy of Sergius Witte, the Russian peace plenipentiary. In an interview she does not hesitate to express herself in the most disparaging terms regarding the Russian statesman. She said to a press representative;

"Witte is the Nemesis of Russia. He will succeed in concluding peace, but it will be a deplorable peace for his country. Just now he is playing the part of the apostle. He talks with great complacency and declares that he will not conclude a shameful peace for Russia. This is only a farce. He does not believe himself a word of what he says. He has gone to America with the determined purpose of damaging his own country and signing a dishonorable peace.

"No one ignores that Witte is the agent of Germany and England. He is also the soul and the secret head of revolution in Russia. He is now working for the same cause he has been defending for a long time and will not be satisfied until he has succeeded in obtaining the triumph of revolution. He has set before himself a well defined program, which has already given some results according to the Marx theory, of which he is an ardent apostle. He has already ruined agriculture in Russia, and the Russo-Japanese war, which is his own work, has arrived in time to prepare the triumph of the revolution. He will not hesitate in the least to become the agent of Japan in order that his Machiavellian plans may succeed."

FRENCH ADVISE FOR INDEMNITY

Paris Press Urging Payment of Japanese Demand

Paris, Aug. 14—Not for a long time has America been watched by European eyes with such keen attention as at present. From being a matter of secondary interest American news has suddenly become a subject of primary importance.

If the French papers had made a wager to decide which could publish the most details about the Russo-Japanese negotiations at Portsmouth, N.Y., they could not display more ingenuity, energy and enterprise not to be left behind. In fact the Paris papers now collect more American cable dispatches in a day than they did formerly in a month.

This interest is mainly due to uneasiness about the issue of the peace conference, though there is no real ground for anxiety, as M. Hademan points out in a very sensible article in today's Matin.

"Japan will not be unreasonable. The matter will be arranged satisfactorily. It is even extremely probable that both sides were more or less in agreement before the plenipotentiaries left. One of the most asinine stupidities that has been uttered in connection with the peace negotiations is the report that Russia cannot pay a war indemnity as it would be a humiliation. Why is it more humiliating to pay an indemnity than to accept any other conditions imposed by the victor?

"On the contrary, there is a certain advantage in being able to get out of a tight place by a financial sacrifice. It's all because of the preliminary declarations, which are necessarily worthless, in 1871 Jules Favre declared that France would not part with an inch of territory nor a stone of a fortress. Every one knows what happened.

"The Russians, therefore, would do well to examine the Japanese proposition calmly and discuss it in a similar spirit, for Russia has reached a point in her history when she has not means to indulge in a policy of sentiment."

Careless Water Sprinklers

There are many complaints made to The Times this summer of the careless manner in which drivers of the city watering carts, seem to delight in wetting passers by, who may be going over the crossings. Yesterday a Times representative standing on a crowded corner, saw a driver of one of our city sprinklers, as though deliberately, positively spoil a lady's smart summer frock, and, at the same time thoroughly drench a gentleman, a guest of a leading, local hotel; as the driver saw the incident he simply smiled in a self-satisfied manner and went on to look for other victims. Is it not possible for these carters to close the valve of their water-cart outlet whilst going over a crossing, and thus avoid spoiling clothes and making a muddy walk way to spoil still other dresses.

DON'T SEE THE JOKE

An Ontario Man Shocked at a "Brute Encounter" in Montreal

The Montreal Star says; "Eyes, but they see not," applies to an Ontario man who has written to Mayor Lapolle.

This man from Little Britain, Ont., visited Montreal recently, and while there he went to what he calls "Sohmer's Gardens," where he witnessed what he says was a brutal encounter between two children, eight years old, at which thousands of people shrieked and laughed.

These puny youths delivered blows which might have felled forest oaks, yet the police did not interfere, and the Ontario man was grieved, sorely grieved.

He went back to Little Britain with a mission. It was to stop "child-fighting" in Canada. The man wrote a letter to Mayor Laporte, and the letter was given Mr. Jules Grenier, assistant to the city clerk, to investigate. He found that the children were dwarfs, 28 and 30 years of age, that the boxing match was a burlesque, but that Little Britain missed the point.

A letter explaining the joke was forwarded to the Little Englander yesterday.

SEALED TENDERS addressed to the undersigned, and marked on the envelope "Tenders for Island No. 24," will be received until Monday, the 21st day of August next, at noon, for the purchase of an Island in the Township of Smith County of Peterborough and Province of Ontario, comprising an area of 51.25 acres and known as Salmon Trout Island, No. 24.

The tenderers should state the amount they are willing to pay in cash for this Island and an accepted cheque for ten per cent of the amount tendered should accompany each tender, which the successful tenderer in the event of failure to complete the purchase within one month from the date of the award shall forfeit to the Department.

The highest or any Tender, will not necessarily be accepted, and the unauthorized insertion of this advertisement in any newspaper will not be paid for.

THE

Montgomery Mountain Mining Company

BULLFROG

promise to be one of the greatest producers yet discovered in the TONOPAH, GOLDFIELD BULLFROG DISTRICT.

This district records the greatest discovery of Gold that has ever been made in the history of mining. This Company is a legitimate Mining enterprise, managed by honest, capable mining men.

The property is on the Montgomery Mountain, adjoining the MONTGOMERY SHOSHONE mine, which has only been operated ten weeks and which is now

Shipping Ore that runs TWENTY-THREE HUNDRED DOLLARS to the Ton.

The Capital of the Company is $1,250,000, divided into 1,250,000 shares of a par value of $1.00 each fully paid and non-assessable, 300,000 shares of which are in the Treasury.

The Officers and Directors are

President and Treasurer, D. H. PERRY, Salt Lake City, formerly President of the Salt Lake Stock and Mining Exchange

Vice-President, Hon. JOHN SPARKS, Governor of Nevada.

Directors: D. E. BURLEY, General Passenger Agent, Ogden Short Line R. R., Salt Lake City; Hon. JOHN SPARKS, Governor of Nevada; E. E. ERICKSON, of the firm of Ericksen, Edwards & Stanley, Attorneys at Law, Goldfield, Nevada.

The Company refers by permission to

McCormick & Co., Bankers, Salt Lake City; John S. Cook & Co., Goldfield, Nevada; Ormsby County Bank, Carson City, Goldfield & Tonopah, Nevada.

We believe this property and its stock will have an advance that will be as sensational as was the Original Tonopah immediately after its development.

We can supply orders for a limited number of shares at 75 cents per share. This price expires July 10th, after which it will be raised. For information or stock apply to Thos Patterson & Co., Fiscal Agents, Peterborough, or.

D. D. PEERY COMPANY, Brokers, Goldfield, Nevada

GERHARD HEINTZMAN PIANO

CANADA'S PREMIER PIANO AND NATIONAL INSTRUMENT

For Catalogue, Prices, etc., address the manufacturers direct, or W. H. ISAAC, 228 Dublin St., Peterboro, Local Salaried Representative.

Gerhard Hientzman, Limited.

97 Yonge Street, Toronto.

NICKEL AND COPPER

A Few Thousand Treasury Shares

Only are left to be sold before all offerings are WITHDRAWN FOR FIFTEEN MONTHS' TIME.

You can buy the few remaining shares now at $1.00, but fifteen months hence you will probably pay from $5.00 to $20.00 per share.

THERE IS NOTHING EXTRAORDINARY

In shares advancing as above stated in mining propositions, for it is an old story of phenomenal advances in mining shares, Granite Mountain going from ten cents to $75 per share, Calumet & Hecla from $1.00 to $900.00, and so on down the list.

CONSIDER FOR A MOMENT

What this company offers—It controls to-day an actual territory of nearly **Three thousand acres of land known to be immensely rich in nickel and copper ores, all in a district known and proven to be sixth among the greatest copper districts in the world.** This company will control at least one thousand acres more. In all nearly five thousand acres, which will not be mined out in two hundred years

WE STAND READY TO PROVE

That this company offers to day the most meritorious mining proposition presented in ten years' time.

Write or call for full particulars. All shares registered by International Trust Company, Boston.

International Nickel and Copper Co., Ltd., Suite 93, Journal Building, Boston, Mass.

W. K. HALL, Fiscal Agent, Peterborough.

"TONOPAH"

HOME CONSOLIDATED

STOCK WILL ADVANCE

WHY?

Because it is shipping ore from its Alta mine. Are there many mines shipping ore? We guess not. Just compare the prices the stocks are selling at. If you invest, buy stock in a shipper.

From San Francisco, Wasp, July 22nd. W. K. HALL, Peterboro, Ont., has some of this stock for sale.

Yours very truly,

W. J. ARKELL & Co.

ADVERTISE IN THE TIMES

THE BEST YET!!!

We have given our clients some good things in mining stocks during the past two years, but we believe one of the best propositions we have ever handled is

DILLON OIL MINING & DEVELOPMENT CO'Y., OF CANEY, KANSAS

Call and get full particulars. Watch for description of this property in The Times.

Thos. Patterson & Co.,

FISCAL AGENTS, PETERBOROUGH.

APPEARANCE

Is such an important feature on the table. It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table.

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

HERE IS A CURE FOR

Sleeplessness

Weak, Listless, Sleepless Men and Women Cured Every Day by Dr Hamilton's Pills.

The physical suffering and mental anguish that victims of sleeplessness endure is indeed a sad story. But in Dr. Hamilton's Pills there is swift relief from this awful condition. Thousands have proved the merit of this grand medicine, among them Mrs. G. T. Lyons, one of the best known residents of Geneva, who writes: "My health ran down and I was unable to sleep. I had headache and pains in different parts of my body. In the morning I was weary and exhausted—no rest or comfort came from the snatches of sleep I got.

"Dr. Hamilton's Pills braced me at once. After the first night I got refreshing sleep, that extreme weariness left me and I recovered very fast.

"No medicine I ever used gave such telling results as Dr. Hamilton's Mandrake and Butternut Pills."

Don't let sleeplessness drive you crazy, take Dr. Hamilton's Pills and get well. You will increase in flesh, your appetite will be vigorous, force and energy will be instilled into your nervous system.

By nourishing and purifying the blood and by stimulating the action of the kidneys, liver and stomach, Dr. Hamilton's Pills accomplish wonders. Try a 25c. box, or five boxes for $1, at all dealers, or N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Furnished room, having all modern conveniences, and centrally situated, to rent. Apply at Times Bookstore.

Funeral Notice.

Miss Emma Lemay, whose untimely death occurred in Millbrook on Tuesday, a niece of Mr. Joseph Hatten, city, will be interred this afternoon. The funeral will take place at two o'clock from the residence of Joseph Hatten, 351 McDonnel street, to Lakefield cemetery.

A Truly English Gathering

Mrs. George Smith, gardener, and Mr. T. E. Bradburn's lodge, North Monaghan, who came to this country from Reddinz, England, about two years ago, on Civic Holiday celebrated his 60th birthday by an outing at Jackson Park. About thirty relatives including his children and grandchildren, participated in an afternoon's enjoyment.

The New-York Tribune Almanac

Of course, it is possible to worry through life without keeping a Tribune Almanac at your elbow, but it is worth while—does it pay? For 25 cents a year this publication supplies you with a really marvellous amount of information, and the man who has it is an authority in his neighborhood. He doesn't have to be "guessing" or "supposing" about election pluralities, the names of Cabinet Ministers, Senators, Congressmen, Governors or Judges. He doesn't have to rely upon his memory when anything comes up about the big events of the preceding year or in relation to our army or navy, or sporting records, or, in fact almost anything else of record worth knowing. If you never examined The Tribune Almanac just invest a quarter for once, and see how well pleased you'll be. The 1906 ne will be on sale January 1, and may be had from your newsdealer, through your local paper or direct from The Tribune Office, New York.

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 80 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have most prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence courses.

WM PRINGLE

Read to Royalty.

Rev. W. L. Armitage, Formerly Rector of All Saint's Church Reads the Lesson in Quebec.

Quebec, Aug. 15.—His Serene Highness Prince Louis of Battenberg, attended morning service Sunday morning in the English Cathedral with his Excellency, the Governor-General and Lady Grey. The other occupants of the vice-regal pew were Lady Evelyn Grey, Lady Mo.l.y, Lady Mary Parker, Colonel, Mrs. and Miss Hanbury Williams, and Mr. and Mrs. R ss, Capt. Newton was in attendance. The cathedral was literally filled to overflowing.

Morning prayers were read by Rev. W. L. Armitage, rector of Peterboro, Ont., formerly of All Saints church, Peterboro, and the sermon was preached by Rev. Mr. Bigge.

MOOSE JAW HOTEL.

At Moose Jaw, in the Canadian Northwest, at the junction of the two electric road with the main line of the C. P. R., is a modernly appointed hotel, elegantly furnished and has fine ample rooms for the use of Commercial guests without charge. For pamphlet let descriptive of hotels, how to reach them, dates and time tables, write to C. B. Foster, D.P.A., C.P.R., 71 Yonge Street, Toronto, Ont.

Sewers Caved in by Rain.

Last night it was reported to the police station that the sewer had caved in on the corner of Smith and Water streets, where Mr. McIlmoyle is erecting a house. Another cave-in was reported yesterday on Sherbrooke street near Mr. Barlow's residence. The Street and Bridge Committee should have those washouts attended to this morning, and save possible loss of life or limb.

Doc. Johnston Still in Doubt

Dr. Johnston, V.S., last night informed The Times that he is still considering the offer made by the Chicago concern, as noted in Tuesday's issue of this paper, for him to undertake the management of a branch of the firm, and manufacture his consumption cure that has done so much good here. It is likely, however, that the doctor's connections here will decide against his leaving unless the Chicago people enlarge their offer.

The Machine Telephone Company

In the Review of Friday two columns and more are devoted to a long and detailed description of the workings (!) and beauties of the Machine Telephone. What our citizens would have been more interested in would have been, say, two or three lines devoted to explaining why the Machine Co. don't get busy, or when some definite prospects may be held as to holding conversations over their lines. It may be interesting to hear a graphic description of the celestial regions, with detailed accounts of wonderful music in store for those who do not fall by the wayside from cussing at this company that builds but don't work; but how to get there is of more importance.

Exciting Hippodrome Contests with the Norris and Rowe Greater Circus

In the exciting hippodrome contests and races involving blooded, pedigreed racing stock as well as various animals, the smaller stock of the Norris & Rowe shows, has given way to the large stock, for the greater circus is no longer a dog and pony show. These features have been obliterated entirely and the show is now a big circus in every meaning of the term. The close of the circus performance this season will witness startling, closely contested and furious dashes around the hippodrome track with the stock ridden by some of the most expert riders and equestrians of the world. These specialties are always more than satisfying with the Norris & Rowe shows and more attention has been paid this feature this year than ever before. The noted riders taking part in these contests and who are positively guaranteed to appear at every performance are; Rose Dockrill, Frank Miller, Geo. Holland, Dolly Miller, Austin King, Wm. Sutton, Jos. Haines, M'lle Julien, and Estella Settler. Contests of endurance between man and horse running at top speed; vaulting and hurdle races over immense barriers, bare-back races, carrying acts, principal acts, jockey acts, Roman standing races, flat races and feats of intricate expert equestrian will be exemplified. Then there will be the always entertaining races of the elephants, llamas, camels, dromedaries, monkeys, tajirs, etc., in trials of speed. As an incentive to realistic effort, Messrs. Norris & Rowe are awarding prizes of money and medals to successful contestants and this spurs the riders to greater effort and thrills the audiors with greater excitement. The Norris & Rowe Greater Circus will exhibit at Peterboro, Saturday, Aug. 26th.

Personal

—Miss Archer, Nubidge street, leaves today on a visit to Shanty Bay.

—Mr. Bert Gibson, son of Mr. John Gibson, city, is home from New York on a visit.

—Mr. Angus McPherson has gone on his holidays to Marmora, where he will meet Mrs. McPherson.

—Miss Minnie Pearce has returned from a six week's visit with friends in Rochester and Toronto.

—Lindsay Post says; Mrs. Harry Brault, Jr., of Peterboro, is the guest of her mother, Mrs. W. McNott, St. Paul street, for a couple of weeks.

—Mr. Jas. J. Sheehy, who some years ago was engaged in the dry goods business in this city, but now living in Chicago, is renewing acquaintance with old friends here.

—Miss Sarah Robinson, daughter of Mr. T. W. Robinson, Juniper Island, is very ill with an attack of appendicitis. The ball following on the regatta, was brought to an early termination owing to Miss Robinson's condition.

—Lindsay Post says; Miss O'Neill and Miss Thompson, of Peterboro, are the guests of Miss Bain, Glenelg street. Mr. and Mrs. J. D. Flavelle and family returned Friday evening from the Old Country, and are resting at Sturgeon Point. They spent a delightful holiday.

—The Fire, Water and Light Committee met yesterday evening.

Successful Students.

List of Those Who Wrote Here on the Departmental Examinations in July.

Principal Edgecombe was yesterday in receipt of results of the recent departmental examinations held at the Collegiate Institute here in this city last July. The Times would offer its respectful congratulations to the students named below, and its commiseration and hope for the future, for those who were unsuccessful.

Following were the fortunate ones;

Junior Matriculation — M. Burgess, J. Corkery, J. Crossman, J. Davidson, Lena Dentie, H. Edmison, Max File, Zeta Harper, Hazel Sanderson.

Partial Junior Mat. — Max Cameron, Garnet Greer, H. Hall, W. Hayes, B. Miller, M. Montgomery, M. Robertson.

Senior Teachers' Exam. — Part I. D. M. Davidson, H. Theobald. Part II. D. M. Davidson, Kathleen Martin, S. Waghorne, Irene Shaw (with honors).

Senior Matr.—W. R. Turner.

Junior Mat.—Zeta Harper, English, French and German; John Corkery, Mathematics and Chemistry.

ATHLETIC WORLD

BY OUR SPORTING EDITOR.

The Game at Midland.

Continued on page 3.

out of it, and then they began to play their opponents to a standstill.

In the first quarter each team scored two goals, in the second Midland scored two and Peterboro one, making the score at half-time read 4—3. In the 3rd quarter each team scored one and in the last added one more to their number, making the score at the finish read six to five, in Midland's favor, Peterboro winning the round by eight goals. Eleven players decorated the fence. Peterboro—Meagher, McCabe 3, McGrath; Midland—McLaughlin, Cook 2, Rider, Atkins 2.

Following is the line-up:—

Peterboro.		Midland
	goal.	
O'Brien	point	Jack
Morgan	cover-point	Atkins
Meagher	1st defence	Freeman
Mein	2nd defence	McIntyre
Donovan	3rd defence	McLaughlin
Crowley	center	Gould
Ford	3rd home	Shaffer
McGrath	2nd home	Brown
Cavanah	1st home	Cook
Judd	outside home	Woodhouse
Best	inside home	Robinson
McCabe	Field captain	Rider
Lynch	goal umpire.	Thompson
W. S. Davidson		Simpson

Referee—Pennock, Stouffville.

Time keepers — Peterboro, Dr. Wightman; Midland, W. H. Duncan.

Penalty time keeper—P. McDonaugh, Beaverton.

The journey home was made in good time Peterboro being reached before 12 o'clock.

On the way to Midland, a short distance past Lindsay, the train collided with two cows with the usual result that some poor farmer is minus in his live stock assets. About 20 miles further on billy the goat butted into the engine and met his fate.

Police Court

OFFICIALS

Chief of Police, G.I. Hood

Magistrate, D. W. Dumble

Yesterday morning, as was only to be expected after two successive holidays, his Worship, Mr. Dumble, had quite a cornucopia of cases, of course, with a fair sprinkling of cases resulting in the too great hilarity seemingly inseparable from, and consonantant on a public festivity.

Frank Meehan, a tag, who on the 25th of last January was committed, from this city, as a vagrant, to the Central Prison, Toronto, and who only exchanged his loud if not elegant stripes of that resort for civilian's muft on July 26th, was yesterday haled before the local cadi on the same old charge renewed. His Worship once more gave Meehan a railroad pass and credentials entitling him to six months more of the Central's hospital and open air cure—on the stone pile.

A case of common drunk paid the price, $2 with $4.60 costs, of his little over-indulgence.

Two cheaper drunks paid $2 each into the city treasury, for taking that last schooner over and above their capacity to carry.

$10—First of the Season—$10

Four special seashore excursions from Suspension Bridge, Niagara Falls, to Atlantic City, Cape May, Ocean City or Sea Isle City, via Lehigh Valley Railroad, July 11, August 4 and 11, and Sept. 1. Tickets only $10 for the round trip. Good 15 days. All trains via Philadelphia. Tickets allow stop-over returning. Tickets good on regular express trains leaving Suspension Bridge at 3.50 and 7.15 a.m., 6.20 and 10.15 p.m. For tickets, Pullman berths and further particulars, apply Robt. S. Lewis, Canadian Passenger Agent, 10 King street east, Toronto, Ont.

—The four cars burnt at the Street Car barns on Sunday night, were fully insured.

—The annual Harvest Festival Thanksgiving Service will be held in St. John's church on Thursday, 14th September.

—Lindsay Post says; The local Salvation Army members are organizing a string band, consisting of violins, guitars, mandolins, auto harps, etc. They are rehearsing and will be a great help to the army.

HURRY UP!

Everywhere one hears that expression "hurry up!" It is a genuine Americanism expressive of the "rush" in which we live. Nothing is swift enough for us. We race against steam and lightning and find them slow. We grudge the time given to eating, and rush through meals as though life depended upon our haste.

Life does depend on our haste, but not in that sense. Look at the obituary columns of the papers and see how many prominent men are carried away by "stomach trouble," "acute indigestion" and other related diseases. Their lives have in general been sacrificed to the haste and rush of business which overlooked the fact that food can only nourish the body when digested and assimilated and that the digestive and assimilative processes *can't be hurried.*

Dr. Pierce's Golden Medical Discovery, cures diseases of the stomach and the associated organs of digestion and nutrition. The source of all physical strength is food, properly digested and perfectly assimilated. By enabling the perfect digestion and assimilation of food "Golden Medical Discovery" increases and enriches the blood supply and sends new strength to every organ of the body.

"I was at one time as I thought almost at death's door," writes Mr. J. S. Bell, of Leando, Van Buren Co., Iowa. "I was confined to my house and part of the time to my bed. I had taken quantities of medicines but they only seemed to feed the disease; but I must say that 'Golden Medical Discovery' has cured me, and to-day I am stouter than I have been for twenty years. I am now forty-three years old."

FREE. Dr. Pierce's Medical Adviser sent *free* to you on receipt of stamps to pay expense of customs and mailing *only.* Send 50 one-cent stamps for cloth-bound book, or 21 stamps for paper-covered to Dr. R. V. Pierce, Buffalo, N. Y.

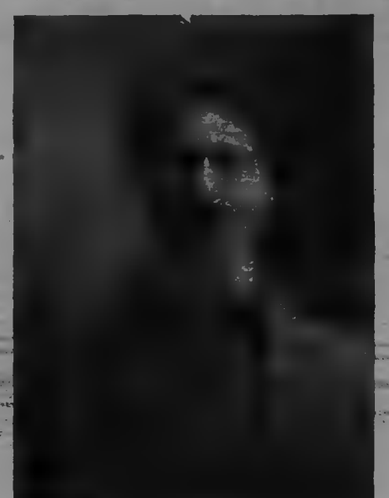
TEN YEARS



The Story of My Wonderful Success.

Reads Like a Fairy Tale-Yet Full of Convincing Truths

An Opportunity of a Lifetime for the Investor.

TAKE ADVANTAGE OF IT.

I ask every reader of this paper to write me. I want to send you my free book entitled "Ten Years"—"The Story of My Wonderful Success." It tells about one of the greatest and most promising investment opportunities ever offered. It tells how my business grew from less than $25.00 capital to its present proportions.

I believe I have the best proposition from an investor's standpoint that could be placed before you. For ten years I have been teaching men and women to live according to the laws of Nature. My book is the history of my life. It shows what energy and ambition can accomplish in the world of affairs. It is intensely interesting to any man or woman who has a few dollars to invest in a legitimate enterprise.

I started business in the City of Brooklyn in 1896. My capital amounted to less than $25.00. My first year's business netted me over $1,000.00. Last year I paid dividends to my partners of 15 per cent. Five years ago my business had grown so large that I was compelled to remove to larger quarters. I am now at 63-65 Clark St., Brooklyn, N.Y.—in connection with Hotel St. George. Experts pronounce my institution to be the best appointed of its kind in the country. I estimate the equipment of the Mac Levy Institute of Physical Culture to be worth at least $40,000.00.

I want to have a building of my own that will enable me to accommodate my increasing business. To erect this building I need capital, but more important than this to increase my business to the proportions which I desire, I need the co-operation of men and women throughout the country and the world.

Co-operation is the Secret of Success

I recognize it. I believe that with thousands of co-operators throughout the country I can build my business to tremendous proportions to the benefit of the shareholders and myself.

The Mac Levy Company is incorporated under the laws of New York for $150,000.00. They are proprietors of The Mac Levy Institute of Physical Culture and The Mac Levy Gymnasium Equipment Company.

The last named branch of the business of the Mac Levy Company is comparatively new. I have been at work for several years to establish such a department in connection with teaching Physical Culture. The most difficult part of forming the Equipment Company has been accomplished. The business is now in condition to be pushed on a large scale. Hundreds of thousands of dollars are spent yearly on new gymnasiums and their equipment. The profits are large. A company of this kind has an immense field in which to work. Competition is slight. It is evident that the Mac Levy Gymnasium Equipment Company can build an enormous business.

The Mac Levy Company operates during the summer months at Steeplechase Park, Coney Island, and at Averne Hotel, Averne-by-the-Sea, L. I., as well as at our Brooklyn Institute. I also does an extensive mail business. I teach people how they should live and exercise. My students are scattered all over the United States, and in English speaking countries.

A PROBLEM

which arrises in the minds of every man and woman is how to secure a comfortable income in the earlier years of their life, that they may reap the full benefits which such an income affords.

I have long thought that there are hundreds of people in moderate circumstances who would like to invest a few dollars in an Institution of this kind. It is to such people that I intend this announcement shall appeal. I am offering a block of the Treasury Stock of this company to the public at its par value. My reasons for doing this are that I wish to erect a building and to extend the business of The Mac Levy Institute of Physical Culture and The Mac Levy Gymnasium Equipment Company.

I WANT YOU AS MY PARTNER

I need your help and suggestion. I want you to work with me and help me to secure a tremendous amount of new business.

I believe that if you could talk with me personally and go over the records of the business which I have done, see in black and white the figures which show the steady growth my business has experienced during the past ten years, examine my plans for future extension, and then look over the magnificent equipment of my Institute, and would want no further evidence that money put into my business would bring you the greatest possible returns consistent with safety and good management.

I ask you to write for my free book. I believe it will interest you. You have a few dollars that you want to invest. Why let it stand idle earning only 3 or 4 per cent that Savings Bank pay their depositors? Put it to work. Join it with mine. This Company ought to pay at least.

TWENTY PER CENT. DIVIDENDS

within one year

Write for my book to-day. NOW.

Signs of Agreement on Railway Question

Russians Ready to Agree to Cede China Eastern Railway to Cnina if it Can Use it as a Lever on Remaining Questions.

Portsmouth, N.H., Aug. 17.—Beginning to-day, the peace plenipotentiaries are to be served with breakfast in their dining-room at the naval stores building at the Navy Yard. Heretofore a luncheon and afternoon tea had been served in the dining-room, and the arrangements have proven very attractive. Breakfast will be ready each morning at 9.30.

The Japanese envoys, after a trip from Newcastle in an uncovered motor car, though a cold rain prevailed, arrived at the aNvy Yard at 9.40 to-day. The Russian commissioners reported there a few minutes afterward. It is understood that the subject to be considered to-day was number seven of the peace conditions, which is that relating to the cession of the Chinese Eastern Railroad to China.

ACCEPTED CONDILIONALLY.

The article before the plenipotentiaries to-day, number 7, covering the question of the cession to China of the Chinese Eastern Railway, which runs south from Harbin to Dalny, where it connects with the Shanhaikwan-Tien Tsin road, was conditionally accepted by the Russian reply, but agreement to it was bound up with considerations involving the fate of the whole negotiations, and it is certain to lead to long and earnest discussion. Russia will not admit the Japanese contention that the road is wholly a Government line.

SIGNS OF AGREEMENT.

Portsmouth, N.H., Aug. 17. —The morning session of the Peace Commissioners of Russia and Japan today ended at one o'clock. During the entire time the discussion was upon article seven of the peace terms, which refers to the cession of the Chinese Eastern railroad to China.

The following statement of the conference was made by Mr. Korostovetz at the close of the morning session. In the morning sitting of August 16 the conference has taken up the discussion of article seven. The discussion not having been finished, the conference has taken a recess at one o'clock. The session will be resumed at 3."

The exchange of views this morning was of a very earnest character, and it is expected that the discussion of article seven will consume all of the afternoon session. Indeed, at the time the envoys adjourned for luncheon they were not at all certain that they would be able to complete the discussion today.

WILL GIVE UP ROAD.

All the shares of the railroad corporation are owned by the Russo-Chinese Bank. The Government's interest in the road, however, will probably not be denied, but it will be urged that so far as it is private property it is not confiscable. The Russian contention will be backed up by evidence. Mr. Gerg, the Vice-Director and Attorney of the Russo-Chinese Bank, while here, attached to the mission as one of Mr. Witte's secretaries, is also here to protect the interests of the bank. Nevertheless, in the long run, Russia, it can be regarded as certain, is prepared to give up the road, remunerating the Russo-Chinese Bank if necessary, as with the loss of Port Arthur and Dalny and the evacuation of Manchuria its raison d'etre for strategic and military purposes ceases.

CHINA MUST REWARD JAPAN.

Its surrender to China, however, involves a large monetary profit for Japan, which can properly claim remuneration from the Celestial Kingdom for the restoration of the road, the re-building of the bridges, and the change in guages.

A BAD IMPRESSION

Visitors Per G.T.R. Must Think Our Civic Officials Blind or Inefficient

As all our citizens are aware, there are scores, and often hundreds of visitors arrive, daily, in Peterboro, by the G.T.R. The first sight that necessarily greets the vision of such visitors is the disgraceful condition of the first street crossing they pass on the way to George St, or the principal hotels.

Yesterday several gentlemen, meeting at the corner of Charlotte and Aylmer streets, not only stopped to pass uncomplimentary remarks on the condition of this corner, but actually sent a small boy to procure a stick with which to measure the depth of water lying in two puddles where the man-hole is placed on Aylmer street, over the sewer. There proved to be just seven inches of water immediately over the man-hole, and between the street car tracks was quite five inches of semi-liquid mud. Not only was this artificial lake condemned but the street car tracks were a subject of adverse criticism. Along Charlotte street, the main feeder to the Grand Trunk Railway, at intervals, the tracks are fully four inches higher than the roadbed level. This creates a standing danger to all wheeled vehicles which have occasion to cross this street, wheels being in danger of dislocation or disruption. We understand that the rail danger is not so much the fault of the street railway people as of our Streets Inspector.

Next to George street, our main thoroughfare the principal streets demanding attention are those leading to the railway depots, both on account of the bad impression necessarily made on the recollection of strangers and by way of the great traffic in freight and passengers. In front of the Queen's Hotel there is a nice mud puddle that would be well adapted to raising ducks but looks bad fronting on a public place of accommodation.

CLAIMS HE WAS KIDNAPPED

The Case Has Now Become an International Affair

Brockville, Ont., Aug. 17.—Wm. Harris, of Ogdensburg, was arrested on May 18th for illegal fishing, and is now serving a four months' sentence in St. Lawrence county gaol for violating the game laws. He complains that he was arrested on Canadian soil and forcibly taken to the other side. His protest that he was illegally deprived of his liberty by being kidnapped in Canada was submitted to the Canadian Secretary of State. He transmitted the complaint to the Governor-General, who in turn fyled the protest with the British Ambassador at Washington. He called on the Secretary of State of the United States, and that officer submitted the matter to Governor Higgins.

Commissioner Whipple was called upon for an explanation, and through him the protest came back to Game Inspector Hazen, at Ogdensburg, who made the arrest. Hasen claims Harris returned voluntarily, but whether he did or no he is likely to finish his sentence before the red tape is unwound.

SPORT BUT NO FISH.

A Leading Civic Official Catches Fish But Returns Without Any to Eat or Show.

It may seem incongruous that a fisherman should go a-fishing, catch lots of fish and still return to his summer residence with only the smell of those his labor, boat, tackle and friends caught; still such was exemplified a few days ago at Chemong. A prominent official of this city, whose place of business is not a thousand miles from the fire hall owns a fine sailing boat and the said official is fond not only of hunting the delusive deer, but of hauling in and subsequently eating the hard-fighting black bass.

A few days ago this official, whom for want of a better name, and for short we will christen Tom, got a hankering for the taste of a freshly caught bass. He got his fine boat out, rigged up his tackle, procured a can of bait and set forth to decimate Chemong's finny denizens. On the way to his wharf, meeting a friend, who with a large party, was cottaging near him, he asked him to come along. They went, they fished, they captured a splendid bass, they returned. As the two slipped from Tom's boat, his friend thanked him for the trip, and gently inserting a thumb and index finger through the bass' gills, carried him off to camp. Tom, a few minutes after met another friend, camped along with his friend of the recent trip. They went fishing with precisely the same result. As Tom rowed to his own wharf, without e'er a bass the hunger came on him again, and once more he set forth to fish. Just as he was about to anchor and get busy, he was hailed by a third member of the party to which his two former fellow fishermen belonged, and rowing over took him a-fishing. Once more luck awaited their efforts, and two bass were captured. On arrival at Tom's dock, his third partner in the fisheries slipped his right thumb through the gills of one and his left through those of the other bass and, thanking Tom, departed for his cottage. This experience was actually in evidence with still a fourth friend from the other camp, but by this time the sun had sunk below the western horizon and Tom had bacon for supper, and the work of cleaning boat and tackle after it.

We are having type specially cast with which to print his expressions of that evening.

CORRESPONDENCE

Surburbanite Wants More Adequate Police Protection in Residental Districts

(To the Editor of The Times.)

Dear Sir,—This city certainly has been blessed with great luck as regards its non-visitation by diseases and chances. We have, for its numerical strength, a very good police force, but in my opinion the force is insufficient to properly patrol our streets. The city is rapidly spreading and extending its closely gathered residence district.

As a resident in the more remote part of the town I frequently feel uneasy at the enforced lack of police protection. There are only the chief and three assistant police to patrol so large an area of thickly populated residence districts; with so limited a number of officers to patrol the city, day and night, their efforts are naturally directed towards guarding the central portion of the town, and the residences at a distance must, perforce, take their chances. We must sooner or later add to the police force or suffer many losses through discoveries of our unprotected condition by the light fingered gentry.

Why not have Mr. T. Miller, at present a relieving officer on the force, appointed to the permanent staff? He is a sober, fearless man, well posted in his duties, and above all, well acquainted with the city from boyhood. By the addition of another officer, the residential parts of the town could be protected, and another evil done away with, the indecent exposures daily made on the river and lake shores by baked bathers.

Yours truly,

SUBURBS.

THE DOUKHOBORS ADJUDGED INSANE

Men of the Party Will Shortly Be Removed to the Asylum at Brandon

FANATICISM IS PUZZLING

Remainder of the Colony at Yorkton is Opposed to the Prairie Wanderers

Winnipeg, Man., August 17. — The male leaders of the Doukhobor pilgrimage have been adjusted insane, and will be removed from Yorkton to the Brandon asylum. The latest example of Doukhobor fanaticism is in some respects more puzzling. Under the leadership of some men who have already given the authorities trouble, sixteen men, sixteen women, and five children collected from various villages north and southeast of Yorkton, marched to within two miles of the town drawing a waggon laden with rough provisions. At the ford of Little White River and some two miles from the town the whole party disrobed and made a bonfire of their clothing, burning the waggon at the same time. They then proceeded, with the intention of marching through the town. Word was sent in by telephone to the police, and Sergeant Jungel sent constables to arrest the movement.

It appears that a young girl of eighteen or twenty refused to remove her clothing and was stripped by the older woman, there being three old women in the party besides a girl of twelve or thirteen years of age.

When the officers arrived on the scene the Doukhobors were lined up in three rows, the little children being carried, some by men and some by women. The Mounted Police prevented further progress of the party. They were chanting hymns, and were by no means disconcerted by the group of citizens who had gone out to view the extraordinary spectacle and assist the police.

It was a pitiful sight. The women looked worn out with marching and insufficient food. The police had sent to town for blankets, and when these arrived the citizens commenced to dress the Doukhobors in the conventional garb of the Indian. The Doukhobors resisted, the women clinging to the men, but the men were finally dragged away and the women and children loaded into a dray.

Several times before the men were all put into a second dray the women, throwing their blankets off, jumped to the ground. They were soon put back and when the men saw the women being moved off they quickly mounted the other dray and were taken off. They chanted hymns all the way.

The men were placed in cells and the women and children in the courtroom at police headquarters.

It was noticeable that though the men threw their blankets off during the day they were glad enough to draw them around their shoulders in the cool early morning hours. They refuse to wear or eat anything which has in any way been in contact with machinery. They are being fed on peanuts, the only thing they will eat. Apparently they are the people whose views are too peculiar even for the Doukhobors, for they have been driven from the village for indulging in their orgies, and refusing to work. They are evidently looking for a warmer country, a paradise without the curse of labor, a garden where they need toil for neither food nor clothing, and are so dense and ignorant that they deliberately set on this primitive notion.

They cast off their garments in imitation of Adam and Eve, stating that they are following their example. The men and women are not generally husbands and wives. They recognize no such ties. They call themselves brothers and sisters.

GOLD IN IRELAND

VERY LARGE DEPOSITS IN OLD DONEGAL

The Minerals of Ireland Offer a Chance to Investors--Finders are Reticent

Dublin, Aug. 17.—Quite a sensation was created last week when the statement was circulated that large deposits of gold had been discovered in Donegal. It is well known that Ireland is rich in mineral resources that were never been developed. It is curious that capitalists have never exploited the minerals of Ireland, which Sir Robert Kane, one of the greatest authorities on the subject, declared to be sufficiently abundant to well repay working.

The finders of the Donegal treasure are reticient as to particulars, but rumor says that the find is a rich one. However this may be, there is many a gold mine of another kind lying undeveloped in Ireland. If all the people of the country would do what Gaelic Leaguers are doing—supporting exclusively home manufacture—the increase in Ireland's income would exceed the output of the richest gold mine in South Africa. But it is hard to bring this part home to the average man. His imagination is excited by the idea of a gold mine, but he cannot realize that if he would buy Irish soap and matches and tweeds and tobacco, the effect would be as beneficial to his country as if a diamond or a gold mine were discovered in the country.

MR. SCHWAB GOES TO EUROPE

Will Try to Close Armor Plate Contract With Russia

Braddock, Pa., Aug. 17.—Charles M. Schwab, while in Braddock yesterday to attend the funeral of Mr. T. M. Wagner, told his friends that he would sail for Europe on Tuesday, and would visit Mr. Andrew Carnegie, at Skibo Castle. Mr. Schwab will take with him some engineers, and he is going abroad for the purpose of closing his armor plate deal with Russia. The fact that he is to call on Mr. Carnegie has given rise to a report that the Carnegie armor plate plant is to do a great deal of Russian armor plate work. One of the biggest contracts in years is expected.

REVIVES DURING AUTOPSY

A Supposed Corpse Suddenly Returns to Life

Des Moines, Ia., Aug. 17.—Louis Viel surprised several physicians and nurses at Mercy hospital by suddenly regaining life. Shortly after post mortem on him began Dr. Conklin happened to take hold of the supposed dead man's heart and pinch it slightly. Almost instantly the organ began to throb at a natural rate.

The incisions made were quickly closed. Viel regained consciousness a few hours later and will soon be able to leave the hospital.

CANADIAN FORTIFICATIONS

A Fort to be Constructed in Kingston Harbor

Ottawa, Aug. 17.—It is stated in military circles that the Dominion will follow up the erection of a new battery at Quebec by constructing a fort near Kingston, which will command the entrance to the great lakes. It is also probable that measures will be taken to safeguard the Canadian Pacific terminus at Vancouver. This work which will probably consist of the erection of forts on either side of Burrard Inlet, will not be taken up for some time. The question of building a fort to protect the harbor of St. John, N. B., has been postponed for the present. The erection of these fortifications is in accordance with the recommendations of the committee of Imperial officers, who looked into the question of the defences of Canada some years ago.

WEDDING BELLS.

Miss Mae B. Glass, 780 Water Street Becomes the Bride of Mr. A. H. Goard.

Yesterday shortly after the noon hour a very pretty ceremony was enacted at the residence of Mr. Mr. and Mrs. Edward C. Howson, 780 Water street, when Miss Mae B. Glass, a sister of the hostess, was joined in the holy bonds of matrimony to Mr. Arthur S. Goard, of Hartney, Man.

The fair bride leaning upon the arm of her brother-in-law, Mr. Edwin B. Howson, and attended by two pretty little flower girls, Lola Howson, niece of the bride, and Ruth Goard, a cousin of the groom, walked into the parlor where the ceremony was performed by Rev. Mr. Goard, of Hartney, Man., the groom's uncle, in the presence of about 25 guests. The bride's gown was a handsome imported one of hand-embroidered mull, trimmed with lace, and she carried a pretty bouquet of white roses. Immediately after the ceremony the happy couple, with their friends sat down to a dainty wedding breakfast, served by Caterer Long, when the usual congratulatory toasts were drunk. The bridal couple left on the 5.15 train for Hartney, Man., where they will make their new home. They were followed by the good wishes of a large circle of friends in both Peterboro and Toronto with whom the bride was always a favorite.

There were a number of guests from Hartney, Toronto and other outside places. The presents were very numerous and beautiful, including a gold watch given by the groom to his bride.

RUSSO-AMERICAN RELATIONS GAIN

Heavy Orders for Manufactures From U. S. Have Been Arranged For

WHAT FAILURE MEANS

Russian Official States That Interior Reforms Will be Hastened Thereby

St. Petersburg, Aug. 17.—According to Russian official opinion, while Japan's overbearing attitude, and the heavy terms which she seeks to impose on Russia, render peace doubtful, the conference will be highly useful to the world as proving Russian sincerity and Japanese rapacity. America's disinterestedness and fairness are recognized by all. Russo-American relations have gained greatly by the conference. Already arrangements are under way for many heavy orders of American manufacturers, and large railway loans are being arranged in the United States. Count Ignatieff, who is not only one of Russia's famous statesmen, but who has taken the deepest interest in the present state of the country, said today "Failure of the negotiations at Portsmouth will hasten interior reforms. In discussing the Bouligan project at the conference at Peterhof, I told the Czar, 'I am your faithful servant; therefore, I warn your Majesty that the trip which I have just made through the Empire has convinced me that procrastination and juggling in regard to the granting of a constitution threatens the existence of the house of Romanoff.'

"The Czar became pale at my words and rose from his seat. Then he quietly ordered that the discussion be continued.

"Nobody is against the plan of popular representation in the national assembly, but only a majority of the council insists that it be unrestricted and democratic. The delay is actually caused by technical difficulties. M. Bouligan is to leave the Ministry of the Interior and devote himself to the origin of the National Assembly. General Trepoff will become Minister in his stead, and will be succeeded by General Klergels as Governor of St. Petersburg."

VENEZUELA BUYING GUNS.

Government Places $1,000,000 Order With French Company

Caracas, Venezuela, Aug. 17.—The government has signed a $1,000,000 contract with the Schneider Company of Creusot, France, for eight batteries of 75 millimeter campaign guns and four batteries of mountain guns of the same caliber.

OLD RESIDENT GONE.

Death of Mr. Thos. McWilliams, for Over 50 Years a Resident of This County.

Yesterday one of the oldest, in point of continuous residence, citizens of the town and county, passed away, in the person of Mr. Thos. McWilliam, at the age of 57. He was taken suddenly and seriously ill with pneumonia a week ago, and his death came as a great shock to family and friends.

Mr. McWilliams was born and lived all his life in this county. Those left to mourn his loss are his wife, three daughters, Eliza and Edna, at home, and Mrs. R. F. Myers; four sons John and Willie, James and Thomas. There are also a brother, James, and a sister, Mrs. Z. Blodgett.

The funeral takes place to-morrow afternoon at 3 o'clock from the family residence, corner Locke and Lansdowne streets, and will proceed to Little Lake cemetery.

MAN FROM HAMILTON

Mysterious Stranger Visits England to Claim the British Throne by "Electrical Power."

London, Aug. 17.—The Mayor of Blackpool has just been waited on by a well-dressed gentleman, who wished to see him personally. He said he had come all the way from Hamilton, Ontario, to deliver a document to the Mayor. A heavily-sealed envelope was handed over, and the stranger left. Inside were fifteen well and closely written duplicated slips, with a letter enclosed, also heavily sealed, stating that the writer was prepared to swear before Mr. A. J. Balfour that the throne of England was occupied by one who had no claim to it, and that he who was once Prince of Wales was filled with electricity coming from electrical machines in the air, and that this electricity could cut the lines so that he would now be found somewhere in or near Blackpool.

Cut Was 15,000,000

The Dickson Company Cut, Although Large, Successfully Brought to the Saws by New Method

Lindsay Post says: Mr. Wm. Cresswell, forest superintendent for the Dickson Co., Peterboro, was in town yesterday. He reports that 15,000,000 feet of timber cut last winter has been successfully floated to the company's mills at Lakefield and Peterboro, and with less annoyance to Stony Lake cottagers and steamboat men than before, the result of a new method adopted by him of splitting the drives up into small blocks while passing among the islands. Mr. C. states that he has had two camps of men on the limits in Anstruther and Anson townships all summer cutting hemlock and basswood. In order that they may dry enough to float next spring, and he is now hiring men for another camp, whose work will be to haul and skid the logs cut by the early gangs. Mr. Cresswell will have six gangs. Mr. Cresswell will have six gangs of 50 or 60 men each in the limits all winter.

Hull Passes Waterworks By-law

Ottawa, Aug. 17.—The by-law to raise $45,80) by debentures for improvements to the Hull waterworks was passed on Monday without opposition. The city of Hull was visited by a serious epidemic of fever in the spring, which was attributed to the bad supply of water, and the improvements in contemplation are calculated to extend the intake, thereby guaranteeing a pure supply of water in the future.

Progress Towards Peace, How Treaty May Come

The peace conference comes to consider the Japanese peace proposals ad seriatim, dealing finally with the minor articles, and leaving the bones of contention for discussion after the floor has been cleared. Considerable progress has been made, and to-day or to-morrow the piece de resistance should be reached. The plenipotentiaries have already decided that the treaty of peace, if it be consummated, shall contain provisions placing Korea under the virtual protection of Japan, but leaving Russia all the privileges of the "most favored nation," also requiring the evacuation of Manchuria by the armies of both belligrents the maintenance of the "open-door" in that Province, and the transfer to Japan of the ninety-nine year lease of Liaotung Peninsula, including Port Arthur and Dalny. The conference deferred the discussion of the fifth article, which refers to the cession of Sakhalin, as each regards the other's contentions on that point as impossible. Apparently Japan has withdrawn article six—the demand for the interned Russian warships—or has moderated it, a development which we predicted the day after the terms were outlined. No doubt she will also withdraw or moderate her claim for fishing privileges, and the limitation of Russia's naval strength in the Pacific should Russia prove obdurate in her refusals.

The situation appears to have narrowed down practically to three vital questions, as we said it would a week ago to-day, namely the future of the China Eastern Railway, the cession of Sakhalin, and the payment of an indemnity. Those whose positions best qualify them to judge profess the greatest scepticism that an agreement pertaining to these matters is within reach, but they will prove to be mistaken if Russia and Japan are both determined upon peace on a reasonable basis. The problem, if it is to be solved, will probably be overcome by Japan accepting Sakhalin and the railway in lieu of the whole or part of her claim for the expenses of the war. Sakhalin she must have, and Russia will not humiliate herself by ceding it in the ordinary way as a condition of peace. Similarly, as both countries have pledged themselves to evacuate Manchuria, which would leave the railway unguarded. Russia may be allowed to further save her face by transferring the line to China, which, by secret arrangement, will pay a price for the same to Japan.

TELEPHONE TALKS.

TO TELEPHONE USERS AND THE GENERAL PUBLIC,—

Those who formulated the basis of the investigation by the Parliamentary Special Committee assumed as an indisputable fact that the enormous development of telephone service in the United States during the past ten years was due to the efforts of the Independent Telephone organizations. The statistics employed were from the most populous States in the Union compiled four years ago by people who were interested in competing Companies and prepared especially for the promotion of that movement.

The figures given do not represent present conditions. Many of the Companies referred to have since failed, others have been absorbed by the American Bell Telephone Company systems and the great majority of those which still survive have been endeavoring to increase their rates in order to maintain an existence. It is admitted that most of these Companies have been living upon capital and the inevitable result is now being realized. Scarcely a day passes but the press chronicles the disappearance of one or more Independent Telephone Companies in the United States. Millions of dollars have been lost through such failures and as was admitted in the statement presented to the Committee, hundreds of these Companies are now being driven into amalgamation and re-organization for self preservation.

The comparison of telephone development in the populous States of Ohio, Indiana and Michigan, with sparsely settled Canadian Provinces was manifestly unfair.

But if the comparison had been fairly made it would not have been disparaging to Canada and the enterprise of Canadian Companies.

The official reports of the Bell Telephone Company of Canada show that the number of Exchange subscribers has doubled in the past five years, while the mileage of the Long Distance Lines has also been very nearly doubled in the same time. It cannot be said that this record development was under the stimulus of competition.

The Company has this season thirty-six gangs of men employed in construction outside the Cities and Towns. Thirteen of these gangs are building Rural Lines. Nearly five hundred subscribers are being added weekly to the service. The Company's factories are just now being doubled in capacity and every provision is being made to keep pace with the demands of our growing country. This policy will energetically maintained until every person in the territory in which we operate, who requires a Telephone, will be supplied with good service at a reasonable charge.

We assert with some national pride and satisfaction that no Telephone Company on this continent is increasing its service more rapidly in proportion to its available field than we are doing in Canada.

THE BELL TELEPHONE COMPANY OF CANADA.

WHY SO WEARY ?

Always Restless and Weak Isn't Natural—But Its Dangerous

You have to work hard. This uses up lots of nerve force and tears down the body faster than it can build up.

The result is a half-dead feeling you can't shake off. Somehow you must get more vitality. The water in your blood must be turned into nutriment and building material.

This is just what happens in using Ferrozone, which renews the blood and nerves, and makes each organ do the work that nature expects of it.

Ferrozone quickly increases your weight, brings appetite and healthy color, instills a reserve of vigor into the system that defies weariness, exhaustion, debility, or sickness of any kind.

Ferrozone quickly increases your weight, brings appetite and healthy color, instills a reserve of vigor into the system that defies weariness, exhaustion, debility, or sickness of any kind.

The wonderful strengthening power of Ferrozone is proved in the case of Mrs. Edward Hill, of Orr Lake, Ont., who says:

"Two years ago I had a nervous breakdown. At night I tossed restlessly in bed, unable to get any rest from sleep. In the morning I suffered from over-powering weakness. My appetite was poor. I grew pale. Thin and despondent. A slight hacking cough also added to my burden.

"My doctor said to try Ferrozone, and it did me good in a few days. I increased in strength, the nervous sensations disappeared, and with my appetite came back my color and good spirits. I have gained over ten pounds in weight, and as my age is 56, I consider Ferrozone is a marvel." (Signed) Mrs. Edward Hill.

REMEMBER THIS: Ferrozone is a true tonic—not an alcoholic stimulant. Fifty chocolate-coated tablets in a box for fifty cents, or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to 7 o'clock.

The Times will be sent to subscribers in the district at 25 cents per month and to outside points at $3 per year, strictly in advance.

THE MEMORY OF TRAFALGAR

It is announced that in Great Britain and by Englishmen all over the world the one hundredth anniversary of the battle of Trafalgar, which put an end to Napoleon's ambition to invade England, falling on the 21st day of October next, will be celebrated in great style and it is expected with great enthusiasm.

The announcement coming about the time of the ceremonies in honor of the memory of Paul Jones, the great American admiral, recalls the profound respect of Napoleon when, in his gloom at the news of Trafalgar, he mourned the early death of Jones because "had he lived France would have had an admiral like Nelson." Death overtook Jones, it will be remembered, when he was about to enter the naval service of France.

Memory of Trafalgar will recall to many also the comparative frequency with which naval victories have practically determined the course of the world's history. Trafalgar unquestionably saved England from Napoleonic invasion, and had the invincible Corsican been enabled to dictate terms of peace or war in London there would have been no Russian disaster for him and no Waterloo.

Before that day the battle of the Nile foiled his early scheme for a great Eastern empire under the flag of France, compelling him to abandon his victorious army in Egypt and, returning to France almost as a fugitive, to leave the East wholly out of his plans thereafter. But for this the whole course of history probably would have been changed.

The great naval battle of Lepanto, in 1571, more even than the signal victory of John Sobieski under the shadow of the walls of Vienna, determined that the victorious career of the Turks and the faith of Mohammed had run its course, and from the struggle in that little Greek bay.

Five hundred years before our era the Greeks, under Themistocles, fought the colossal naval forces of Xerxes in the little bay of Salamis, a more gigantic maritime struggle for that age than the recent battle of the Sea of Japan was for this age, and, winning it, determined that Europe should not fall under the dominion of the great Persian.

Salamis, Lepanto, the Nile, Trafalgar—four times, with countless less colossal but greatly influential conflicts scattered over the time covered, has the entire historic development of the world not of a nation or two merely, been decided by victory at sea. Probably no four land battles, great as were Chalons and Waterloo and others, surpass these four in momentous consequences to so much of the world.

The greatest of the four in this regard was Salamis, yet there are some reasons to suspect that those who shall look back upon the battle of the Sea of Japan from 2,000 years hence may equal the Japanese victory as outmarshalling the Greek. Great as was the victory, the final verdict will rest more on the use the Japanese make of it than on the victory itself, and this truth goes far to measure the difference between the civilization of the age of Salamis and that of today.

QUASHING THE DRINK EVIL

In an Ontario village which shall be here nameless, says the London Free Press, "a many years ago" a general store keeper received religion during a revival, and in a fervid moment conceived it to be his duty to spill out all the wines and liquors in his cellar, as a protest against the demon of drink, foreseeing in his mind's eye by that act an end of the traffic. The news spreading like wild-fire, brought all hands to the scene with jugs and pails which were filled and refilled after all had well drunken. The result was a riotous orgy, in which the village was demoralized, work suspended, heads broken, and all the diabolism of a potion of ordinary distribution concentrated within a few days. Even the animals nosing in the gutters which drained off the refuse were "visibly affected," and lurched about unsteadily. In a few days the store-keeper's credit was gone; he was asked to pay and couldn't. His business became a wreck. This experience was partly repeated in Norristown, Pa., a few days ago, when 100 barrels of fine, old wine were emptied into the Schuylkill, providing a whole series of fish gone wrong, even the hisky German carp standing on their heads in the mud. The cause of the costly flooding of the river was the sale of the real estate of the Florida Wine Company to Ellwood Roberts, a consistent member of the Norristown meeting of the Society of Friends. The wine company had failed, and when he bought its property he found in its warehouses its treasures of rare vintage. True to his creed, he declared that this liquor must at once be poured out, and his order was obeyed.

EDITORIAL COMMENT

Boston people declare that the beetles brought over from Italy to prey on the gypsy moths cannot be blamed for turning up their toes over the task assigned them. As one has a capacity for only four caterpillars a day, the enormity of the job before them was very disheartening. It was an unpalatable stunt that was given them and dying seemed an easy way out of it.

A Vigorous Kick

(To the Editor of The Times.)

Sir,—Everyone acknowledges that the Peterboro Radial Railway Co. are enterprising in their efforts to give patrons a good show at Jackson Park, and incidentally increase the revenue of the car lines, but one thing is sadly wanted at that beautiful park to complete the pleasure of thousands who to there every fine afternoon. This need so sorely felt is hot water for those taking their lunch with them.

This is done every fine day in the week now, both by those walking and by patrons of the cars. The regulations of the park forbid lighting of fires in the park, and consequently children and ladies have to choose between the cold comfort of spring water for supper, or the surreptitious lighting of fires to heat their tea and coffee. That fires are lighted every evening is an open secret, as the caretaker, who really only attends to his work, cannot watch the many acres of wooded lands in this large park.

Mr. Sir, I am under the impression rightly or wrongly, that the street car company is supposed, under their agreement with the city on the lighting allowance, to furnish boiling water for those demanding it. It would cost the company but a trifle to supply a cheap stove, and enough fuel might be gathered in a day, by one man, to last three weeks right in the park; this would, at the same time, clean up the untidy-looking dead sticks that obstruct the park. The caretaker told the writer yesterday that if such accommodation, as suggested above, were placed in the park, he would give a helping hand to ladies and children desiring boiling water. On Monday fully three hundred people took their suppers, al fresco, in Jackson Park, and many complaints were heard on account of the street car people not complying with their supposed duty in supplying hot water. If it be not the duty of the street car management to supply this luxury or necessity, the council would earn gratitude, and perhaps even votes at next election, by supplying a much needed commodity at so small a price.

Yours truly,
T.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 30 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1899.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive at the Immigration Offices in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior

N. B.—In addition to Free Grant Lands, to which the Regulation above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

How to Visit Colorado

Go first to Denver. It is the State capital, as well as the largest, wealthiest and most metropolitan city between the Missouri River and the Pacific Coast. The city itself is very interesting, and from it start practically all the trains over the various roads into the mountains.

Many of the most enjoyable one-day trips in Colorado begin and end at Denver. The cost of these little journeys is not great.

After you have familiarized yourself with Denver and its surroundings will be soon enough to decide where to go for the rest of your visit. The question must be considered from several standpoints—altitude, hotel accommodations, accessibility, amusements, etc.

Our Colorado literature will help you in deciding where to go and what to do. Sent free for the asking.

STRICTURE AND KIDNEY DISEASE CURED.

G. E. WRIGHT.

"I had stricture for eleven years. It finally brought on Bright's Disease of the Kidneys. I had an uncomfortable shooting pain in the groin and feeling as though something was in the urethra. My back was weak and I could scarcely stoop over. Urine was full of sediment. Had a desire to urinate frequently. Family doctors, so-called specialists, patent medicines, electric belts, all failed. I was discouraged. I had spent hundreds of dollars in vain. Finally I consulted Drs. Kennedy & Kergan as the last resort. I had heard a great deal about them and concluded from the fact that they had been established over 25 years that they understood their business. I am delighted with the results. In one week I felt better and in a few weeks was entirely cured. Have gained sixteen pounds in weight."
G. E. WRIGHT, Lansing.

DRS. KENNEDY & KERGAN

Cor. Michigan Ave. and Shelby St., Detroit, Mich.

The Glenara Gold Mining Co.

Capitalization, 1,500,000 Shares — Stock Fully Paid and Non-Assessable
Par Value, $1.00 Per Share. — Treasury Stock, 700,000 Shares.

This Company was organized in March, 1905, under the laws of Arizona, with a capital of 1,500,000 shares. The par value of these shares is $1.00 each. They are full paid and forever non-assessable. The Company owns approximately seventy-five acres of territory in the Goldfield district. By reference to the map you will note that every acre is within the producing area, and with the systematic development this large acreage is to receive, there is no doubt that the stockholders will very shortly see the Company on a producing basis.

We desire to say right here that this Company is organized for legitimate mining, and not stock jobbing purposes, and among the directors are some of the best known mining men in the West. It is their one desire to make the GLENARA GOLD MINING COMPANY a great success at the earliest possible moment.

It is for the purpose of raising funds to vigorously develop the Company's holdings that some Treasury stock is now offered for public subscription. Out of a capitalization of 1,500,000 shares, 700,000 shares have been placed in the treasury. This treasury reserve insures the company a large working fund, if needed. It is the belief of the management, however, that it will not be necessary to dispose of over 50,000 shares of the treasury stock. The present outlook is such that the management believe that the mine will be on a paying basis before many weeks have passed.

The Property of The Glenara Gold Mining Company Consists of the Following:

The Glenara Group consists of four claims located in the Goldfield mining district of Nye County, Nevada. These claims are known as the Kentucky Bell, Mabel M., Lone Jack and June Bug, covering about seventy-five acres. This group of claims is located on a system of ledges over a mile and a half in length and about half a mile wide. These ledges are the same as those traversing the Kendall, Tonopah Club, Vernal, Quartzite, Black Butte, New York, Brooklyn, Jumbo, Vernal, Penn and Federal.

The surface indications at the time of location were of the very best, however, good float being found upon the ground and good pannings are obtainable, all of which indicate that the property can be developed into a paying proposition. The ground has been thoroughly prospected and the sinking of the shaft begun on the Kentucky Bell claim. There is a force of men sinking a shaft as rapidly as possible. Good ore has been encountered running from $3 to $18 per ton, increasing in value with depth, and it is safe to say that a strike may be looked for any day.

Taken as a whole, the investment offered by the Glenara Gold Mining Company is equal to any prospective company in the district. The claims are exceptionally well located, covering a large acreage, the management is conservative and honest, and is working hard for the success of the company.

The proposition will stand the very closest investigation, and, in fact, an investigation by prospective investors WILL MEAN AN INVESTMENT. WE COURT INVESTIGATION.

The allotment of stock is very small, and if you desire to become interested with this enterprise, it will be necessary for you to communicate with us at once.

The work on the property is being pushed to the utmost, and any day may bring news of a strike which will advance the price of the stock.

For prospectus and full particulars, address

Where They Went.

Many Excursions on Civic Holiday Depleted the City.

JUBILEE POINT.

About 400 members of Division No. 1, A.O.H., and of St. Peter's Court, C.O.F., with their friends, ran the second largest excursion of the season to Jubilee Point, on Civic Holiday.

The steamers City of Peterboro and Water Lily steamed out from the Wolfe street wharf at 8 o'clock, and a delightful sail was experienced to Jubilee Point, which was reached about 11 o'clock. With fishing, boating, dancing and dining, a very pleasant day was spent.

The picnic was graced by the presence of four clergymen, who mingled with the excursionists and contributed in no small degree by their presence to the success of the outing. They were,—Rev. Father Kelly, chaplain of A.O.H.; Rev. Father Gauvin, chaplain of C.O.F.; Rev. Father Feeney, Acton, Ont., and Rev. Father Bretherton, Hastings. The officers of the committee were Messrs. Chas. Murty, chairman; John Lanrahan, Secretary, and Joseph Kelly, treasurer.

COBOURG.

Over 600 of the Iron Moulders' Union and friends took in the excursion for Cobourg, gotten up, and anly managed by the brawny iron manipulators.

The Citizens' band, of Cobourg, met them at the station, and played them to Victoria Park, an ideal spot for a picnic. Many who brought baskets had dinner here, while others went to the different hotels, or were taken in hand by friends.

The chief event of the afternoon at the park was, however, the baseball game between the Charlotte St. Guild team and the Wharf Rats, of Cobourg. The struggle was witnessed by a large crowd, and victory perched upon the banners of the Guild nine. The score was 19—14.

In the evening the Cobourg band played the excursionists to the train. The platform at the station was thronged with people. The following were the officers of the energetic committee:— Messrs. R. Stockdale, chairman; John Robertson, secretary.

FORRESTERS ISLAND.

One of the most thoroughly enjoyable of all the civic holiday excursions was that conducted by Court Chemong, I.O.F., and had as its objective point, Deseronto, Foresters' Island and the Lake of the Mountain.

About 300 persons partipated in the trip, civic holiday the great majority of whom came from Peterboro. Five coaches. At Belleville the steamer "Alethe" of the Lake Ontario and Bay of Quinte Navigation Company, was boarded for the continuation of the journey, Mr. Horsey, the general manager of the Steamboat Company, accompanied the excursionists from Belleville, Deseronto was reached at noon, and dinner was taken there.

After spending an hour very pleasantly at Deseronto, the steamer was again boarded and the trip continued to Foresters' Island Park. From this lovely spot, the steamer took those, so deposed to the Lake of the Mountains, near Picton. The lake is 200 feet above the level of Lake Ontario.

The passengers on the steamer all spoke in kindest terms of the way they were treated on board, and the courtesy shown them by Capt. Rous, and Purser Coons. The committee in charge of the event was composed of Messrs. A Allison, D. Wallace, W. Miles, J. W. Buyers, G. W. Powell, E. Doss, J. Carr, B. Wheeler and Dr. Greer.

The Barraca Bible Class, of Murray street Baptist church had a very pleasant outing at Gore's Landing, per specially chartered steamer Rainbow.

NIAGARA FALLS.

The annual excursion conducted under the auspices of Court Littlejohn C.O.F., and which had for its objective point, Niagara Falls, was well patronized.

The special train which left here at 6.30 a.m., was well filled, and the crowd was augmented by persons from Omemee, Lindsay and other places between this city and Toronto.

The majority of the excursionists took the Chippewa, the largest of the Niagara River line fleet, across the lake to Lewiston and Queenston, although, some of them who went to Toronto on Sunday took in earlier boat.

During the boat passage some of the excursionists experienced all the discomforts of a veritable trip to Europe, the sea being high.

Largest Output on Record

On Friday last the local gas works manufactured 162,000 feet of gas. To do this the works had to be kept constantly running during the twenty-four hours. The consumption of gas in this city has increased 100 per cent within the past six months, this being caused by the increased demand for factory purposes. The Canadian General Electric Co. now using as much for their individual consumption as, a few years ago, was the total output of the Peterboro works. The Peterboro Cereal Co., for cooking Canada Flakes use some 600 to 700 feet an hour. Peterboro is now making as good gas as any city in the world, and better than 70 per cent of them.

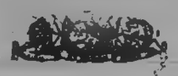
To Sell the Intercolonial

This is situated in the Canadian National Park, on the eastern slope of the Rocky Mountains, 4,500 feet above sea level, at the confluence of the Bow and Spray Rivers. A large and handsome structure with every convenience that modern ingenuity can suggest, costing half a million dollars. Open from May to October.

For pamphlet descriptive of hotels, how to reach them, rates and time tables, write to C. B. Foster, D. P. A., C. P. R., 71 Yonge Street, Toronto, Ont.

Doc. Johnston Still In Doubt

Dr. Johnston, V.S., last night informed The Times that he is still considering the offer made by the Chicago concern, as noted in Tuesday's issue of this paper, for him to undertake the management of a branch of the firm, and manufacture his consumption cure that has done so much good here. It is likely, however, that the doctor's connections here will decide against his leaving unless the Chicago people enlarge their offer.



SEALED TENDERS addressed to the undersigned, and marked on the envelope "Tenders for Island No. 24," will be received until Monday, the 21st day of August next, at noon, for the purchase of an Island in the Township of Smith, County of Peterborough and Province of Ontario, comprising an area of 51.75 acres and known as Salmon Trout Island, No. 24.

The tenderers should state the amount they are willing to pay in cash for this Island and an accepted cheque for ten per cent of the amount tendered should accompany each tender, which the successful tenderer in the event of failure to complete the purchase within one month from the date of the award shall forfeit to the Department.

The highest or any Tender, will not necessarily be accepted, and the unauthorized insertion of this advertisement in any newspaper will not be paid for.

J. D. McLEAN,
Secretary.

THE

Montgomery Mountain Mining Company

BULLFROG

promise to be one of the greatest producers yet discovered in the TONOPAH, GOLDFIELD BULLFROG DISTRICT.

This district records the greatest discovery of Gold that has ever been made in the history of mining

This Company is a legitimate Mining enterprise, managed by honest, capable mining men.

The property is on the Montgomery Mountain, adjoining the MONTGOMERY SHOSHONE mine, which has only been operated ten weeks and which is now

Shipping Ore that runs TWENTY-THREE HUNDRED DOLLARS to the Ton.

The Capital of the Company is $1,250,000, divided into 1,250,000 shares of a par value of $1.00 each fully paid and non-assessable, 300,000 shares of which are in the Treasury.

The Officers and Directors are
President and Treasurer, D. H. PERRY, Salt Lake City, formerly President of the Salt Lake Stock and Mining Exchange.
Vice-President, Hon. JOHN SPARKS, Governor of Nevada.
Directors, D. E. BURLEY, General Passenger Agent, Ogden Short Line R. R., Salt Lake City; Hon. JOHN SPARKS, Governor of Nevada; E. E. EDWARDS, of the firm of Vermilyea, Edwards & Stanley, Attorneys-at-Law, Goldfield, Nevada.

The Company refers by permission to
McCormick & Co., Bankers, Salt Lake City; John S. Cook & Co., Goldfield, Nevada; Ormsby County Bank, Carson City, Goldfield & Tonopah, Nevada.

We believe this property and its stock will have an advance that will be as sensational as was the Original Tonopan immediately after its development.

We can supply orders for a limited number of shares at 75 cents per share. This price expires July 10th, after which it will be raised. For information or stock apply to Thos. Patterson & Co., Fiscal Agents, Peterborough, or.

D. D. PEERY COMPANY, Brokers, Goldfield, Nevada

GERHARD HEINTZMAN PIANO

NICKEL AND COPPER

A Few Thousand Treasury Shares

Only are left to be sold before all offerings are WITHDRAWN FOR FIFTEEN MONTHS' TIME.

You can buy the few remaining shares now at $1 00, but fifteen months hence you will probably pay from $5.00 to $20 00 per share.

THERE IS NOTHING EXTRAORDINARY

In shares advancing as above stated in mining propositions, for it is an old story of phenomenal advances in mining shares, Granite Mountain going from ten cents to $75 per share, Calumet & Hecla from $1.00 to $900 00, and so on down the list.

CONSIDER FOR A MOMENT

What this company offers—It controls to-day an actual territory of nearly Three thousand acres of land known to be immensely rich in nickel and copper ores, all in a district known and proven to be sixth among the greatest copper districts in the world. This company will control at least o thousand acres more. In all nearly five thousand acres, which will not be ined out in two hundred years

WE STAND READY TO PROVE

That this company offers to-day the most meritorious mining proposition presented in ten years' time.

Write or call for full particulars. All shares registered by International Trust Company, Boston.

International Nickel and Copper Co., Ltd., Suite 93, Journal Building, Boston, Mass.

W. K. HALL, Fiscal Agent, Peterborough.

"TONOPAH"

HOME CONSOLIDATED

STOCK WILL ADVANCE

WHY?

Because it is shipping ore from its Alta mine. Are there many mines shipping ore? We guess not. Just compare the prices the stocks are selling at.—If you invest, buy stock in a shipper.

From San Francisco, Wasp, July 22nd, W. K. HALL, Peterboro, Ont., has some of this stock for sale.

Yours very truly,

W. J. ARKELL & Co.

ADVERTISE IN THE TIMES

THE BEST YET!!!

We have given our clients some good things in mining stocks during the past two years, but we believe one of the best propositions we have ever handled is

EXQUISITE COMPLEXION

Quickly Acquired if the System is Regulated by Dr. Hamilton's Pills

The power of Dr. Hamilton's Pills over the complexion is marvellous. As if by magic all blemishes, humors and impleé disappear. A clear, ruddy glow is quickly manifest on the cheeks, and looks that delight the eye come to stay. It is by purifying and enriching the blood, and thereby building up the constitution, that Dr. Hamilton's Pills accomplish so much in a short time.

"I can highly recommend Dr. Hamilton's Pills for the complexion, writes Miss E. M. Porter, of Clear View, Ia. Before using this medicine I had a very pale, murky complexion, and there was no redness or color in my cheeks. But Dr. Hamilton's Pills changed this and my looks have been much improved."

In every case of dull, sallow complexion, wherever, the skin is blotchy and rough, Dr. Hamilton Pills quickly prove their merit. You'll look better, feel vastly improved by relying on this great medicine, which is instant in effect. Price 25c. per box, or five boxes for $1, at all dealers, or by mail, from K. D. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

The Great Canadian National Exhibition at Toronto this year. Specially low rates via Grand Trunk.

All Saints' Tenders Opened

Tenders for the new All Saints' church were opened Tuesday night at a meeting of the Advisory Board. Architect J. E. Belcher was present, but none of the tenders was accepted, and the meeting was adjourned for the present without any definite action being taken. Those present were Messrs. Mulholland, McClellan, Bell, Wise, J. Edgar and the rector, Rev. Mr. Major.

New Wharf at Bensfort.

A new government wharf is being erected on the west side of the Otonabee river at Bensfort. The wharf is located north of the bridge, near William Smith's saw mill. It will have a frontage of forty feet, the piers being filled with stones and the top covering with heavy planking. Mr. Joseph Yelland and a force of men are rushing work on the dock which will be a great convenience to the people of Bensfort and vicinity.

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 80 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

W. H. PRINGLE

A SCALP HUNT.

City Fathers will Investigate Lights and Lamps of P. L. & P. Co.

The City Council are now donning their war paint and sharpening their knives preparatory to a scalp hunt among the braves of the Peterboro Light and Power Company. The casus belli is a charge made at Tuesday night's meeting that the company are not giving the city a square deal on the lamps, candle power and other appurtenances used in the light they are well paid for. A city father charged indignantly that their old lamps are only fit for junk, and dear at $1 each.

This is a matter that should be thoroughly investigated, as this city pays enough to get the best service. The councillors seem to be fully alive to their duty at times.

KNIGHTS OF COLUMBUS

Local Council Take Their Friends on a Very Pleasant Trip to Stony Lake.

Yesterday morning the local Council of Knights of Columbus, together with a number of invited guests boarded a few special coaches attached to the train for Lakefield, where they took the steamer Stony Lake for a cruise of the lakes. Among the party were noticed his Lordship Bishop O'Connor, Rev. Father McColl, of the cathedral; Ven. Archdeacon Casey, Lindsay; Rev. Father Kline, Brock; Rev. Father Feeney, Acton; Rev. Father Bretherton, Hastings; Rev. Father Fitzpatrick, Enniskmore; Messrs. M. O'Brien, Separate School Inspector; Dr. McNulty, H. LeBrun, John Corkery, G. H. Giroux, E. W. Argue, W. H. Blanchette, F. R. J. Macpherson, D. O'Connell, J. C. Sullivan, C. Young, J. McFadden, Jas. Anglesey, C. Morris and others.

About 100 took in the excursion and report having spent a pleasant day. The party touched at several islands on the trip, and had dinner at McCracken's Landing.

A LOCAL FREIGHT ROUTE.

Peterboro Radial Railway Receive Encouragement Towards Establishing a Freight Line.

As noted in previous issues of The Times, the surveying party, that have been spying out the land for the proposed extension of our local street railway system to Lakefield and Young's Point, have completed their field work and part of their report has been handed in to Mr. Learmouth, manager.

The company have not yet finally decided which side of the river will be chosen for their line; this will be influenced largely by inducements offered and prices asked for land, by residents along the route chosen.

Mr. Learmouth states that one man has already offered him, free right of way across a 300-acre farm, and the farmers generally are appreciating the great benefits which a radial electric line will give. It is the intention of the company to inaugurate a package freight and express business, and the farmers will be able to ship their milk, butter and eggs and other produce to the city. Stations will be erected along the line of the railway, and a regular freight service established.

Dr. Bonnell's Funeral

Concerning the last sad rites over the remains of a gentleman, who had many warm friends here, the Lindsay Post says; The funeral of Dr. Bonnell at Bobcaygeon on Sunday afternoon was one of the largest ever seen in the village, and was attended by friends from Lindsay, Peterboro, Fenelon Falls, Thornhope, Kinmount and other places. The steamer Menita took thirty-five passengers down from Lindsay and the steamer Kawartha carried twenty-two from Fenelon Falls. In addition, old friends drove in from all parts of the surrounding country to pay a last tribute of respect to the memory of one esteemed by all.

NEW MOVING PICTURES, balance of this week at Jackson Park.

Personal

—Mr. W. F. Davidson, Toronto, is the guest of Dr. Boucher.

—Mr. Harry Adams is visiting at Jubilee Point for a few days.

—Miss Helen Campbell, of Campbellford, is visiting friends in town.

—Mr. J. D. Flavelle, of Lindsay, the widely known curler is in the city.

—Mr. K. G. Loch, who is holidaying at Stony Lake, is down for a day or two.

—Mr. A. W. Crossman has returned after spending a holiday at Viamede, Stony Lake.

—Mrs. H. Dunn, who has been visiting in the city for some time, left Tuesday night for Calgary.

—Mr. John Jayes has returned from an extended trip to Bobcaygeon, Lindsay, Fenelon Falls and other places.

—Mr. John Fletcher, of Buffalo, vice-president of the Big Dipper Gold Mining Company, is in the city on business.

—Mrs. R. E. Layfield, of the Canadian General Electric Company, has returned from his annual outing at Stony Lake.

—Mr. Charles Ostrum, formerly of this city, but now engaged in a large real estate business in the State of Indiana, is spending a few weeks in the city and Kawartha Lakes.

—Lindsay Post says; Mr. W. A. Irvine, of Peterboro, paid our town a visit yesterday. Mr. Fred Skitch of Peterboro, is visiting his father, Mr. W. Skitch, Williams-st. north, for a couple of days.

—Mr. W. R. Morris, C.A., accompanied by Mrs. Morris, has gone to Dundas to attend the marriage of his brother, Mr. H. C. Morris, of the Canadian Bank of Commerce, Victoria, B.C.

—Mr. and Mrs. Chas. Turner left on Tuesday for Winnipeg, where they will in the future reside. Their sons Mr. Frank C. S. Turner and Mr. Bert Turner, hold good positions in that city. The many friends of Mr. and Mrs. Turner will wish them all prosperity in their new home.

—Mr. Geo. F. Jackson, chief inspector of equipment of the local Bell Telephone Co., has returned from his vacation spent deepting the bass and maskinonge, of Burleigh Falls and Kawartha Lakes. Mr. Jackson's family returned with him.

NEW MOVING PICTURES, balance of this week at Jackson Park.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—Nothing doing in police circles yesterday.

—Daughters of England meet tonight. A large attendance is anticipated.

—The next public holiday will be on Monday, September 4th, which is Labor Day.

—Broken stone has recently been placed on portions of Brock and Haggart streets.

—Rev. A. W. Behrendo will preach in St. John's church at both services next Sunday.

—Midland has an excursion booked for this city on the 29th inst. They will not be elsewed on arrival.

—The Radial Railway Company announce that there will be new moving pictures at Jackson Park every night this week.

—All the hardy agriculturists who had business in the city yesterday, wore the smile that won't come off Tuesday's rain caused the reign of the sunny smile.

—What is the difference between monopoly and a "hold-up?" For answer, apply to the residents on Chamberlain street, or the Fire, Water and Light Committee.

—Messrs. Flavelle & Grant's grain warehouse at Woodville narrowly escaped destruction by fire, Monday evening. A spark from a passing engine, causing the blaze.

—The annual harvest home festival of St. Luke's church will be held on September 28th, when Rev. Canon Welch of St. James' Cathedral, Toronto, will preach the sermon.

—Mr. James Dorris dropped his gold watch into the lake at the Jubilee Point wharf Monday, and did not recover it. A Hiawatha Indian is attempting to recover it by diving.

—American or Canadian visitors can procure a splendid souvenir of Stony Lake or Peterboro for little money at Times Book Store, George street.

—Take home to the little ones a souvenir of Peterboro or Stony Lake. In china, with views, suitably colored, or in fine line of appropriate cards or paddle pins. Prices right. Times Book Store.

—The Eagle Lake Hunting Party are at their lodge getting things in readiness for their annual fall hunt. It is understood that Mr. Cottingham took red paint with which to decorate the lodge.

—A few evenings ago Mr. J. S. Knapman mistook a loose plank at the Juniper Island landing for part of the wharf. His clothes were wet, and he was hauled out of the wetter water by an official of the Cottagers' Association.

—Rev. Mr. Ford, formerly of this city, his wife, and a guest at the parsonage, Glenoe, Ont., had a close call last Sunday. Lightning struck the parsonage twice, and seriously frightened the inmates. Mrs. Ford had a lamp knocked from her hand.

—Those citizens who took in the Niagara trip on Civic Holiday, and stayed over, returned yesterday morning. They report, that on the boat passage, although not falling among thieves, most of them gave up all they had.

—Mr. T. Cavanagh, proprietor of the Cavanagh House, Simcoe street, has just returned from the Sault after taking up 140 men to the Frank Perry Lumber Co. He is now preparing to hire a large gang for McArthur Bros. of the North Shore. He has a contract for 900 men for different firms in the west.

MOOSE JAW HOTEL.

At Moose Jaw, in the Canadian Northwest, at the junction of the Soo Pacific road with the main line of the C. P. R., is a modernly appointed hotel elegantly furnished and has fine sample rooms for the use of Commercial guests without charge. For pamhlet let descriptive of hotels, how to reach them, dates and time tables, write to C. B. Foster, D.P.A., C.P.R., 71 Tonge Street, Toronto, Ont.

Weather Notes.

Fine, wet, muggy changes in temperature.

A woman worn-out, who never has to lift a hand for herself, who does not know the meaning of the word "worry"! How can it be possible? That it is possible is proved by the experience of many a woman who, because of sleeplessness, nervousness, backache and other womanly ills, becomes an utter physical wreck.

Dr. Pierce's Favorite Prescription gives new life and new strength to weak, worn-out, run-down women. It establishes regularity, dries unhealthy drains, heals inflammation and ulceration, and cures female weakness. It makes weak women strong and sick women well.

"I suffered for five years with inflammation which caused violent pain and often I was so bad at times that I could not be about to attend to my daily duties," writes Mrs. Julius C. Bell, of Bathrost, Kingston, Ont. "Life was simply misery to me and I did not know which way to turn for relief. Had tried doctors but found they did not help me. My druggist advised me to try Dr. Pierce's Favorite Prescription—relating it in glowing terms. I decided to give it a trial and brought a bottle home. I am happy to say that after the use of the first bottle I felt so much improved I decided to take another and after that a third bottle. I have good reasons to be pleased, for I am to-day a well woman, work is easy and the world looks bright. I have perfect health, thanks to your medicine."

Sick women are invited to consult Dr. Pierce by letter, *free*. Address Dr. R. V. Pierce, Buffalo, N. Y.

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women.

Dr. Pierce's Pleasant Pellets should be used with "Favorite Prescription" whenever a laxative is required.

NOW IS THE TIME TO GET WELL

Nature Helps Mi-o-na Cure Stomach Trouble in Short Order

The summer months are the best in the whole year for the treatment and cure of stomach troubles. The out-door life, with natural exercise, the fruit and berries which are so freely eaten, all help to restore healthy action to the digestive organs.

Now when Nature will aid Mi-o-na in curing indigestion and giving strength to the stomach and whole digestive system, is the best time to use this remarkable remedy.

Taken before each meal, Mi-o-na will soothe and heal the inflamed and irritated lining of the stomach and solar-plexus and strengthen the nerves of the digestive tract. Used at any time of the year, it cures all diseases of the stomach, excepting cancer, but in the summer months it gives health and strength twice as quickly.

If you suffer with headaches, indigestion, flatulency, specks before the eyes fermentation, heart burn, dizziness, or have a variable appetite, and a general feeling of despondency or weakness, it shows clearly that the stomach is not digesting the food as it should. Instead of the food being assimilated and making rich, red blood and good solid flesh and muscle, it is turned in the stomach into a sour, slimy, fermenting mass that causes gases, distress after eating, and poisonous germs that fill the whole body with poor health.

Just one little tablet out of a 50 cent box of Mi-o-na for a few days, and all this will be changed for the better and health restored. Ask Wm. Madill to show you the Mi-o-na guarantee.

TEN YEARS

The Story of My Wonderful Success.

Reads Like a Fairy Tale-Yet Full of Convincing Truths

An Opportunity of a Lifetime for the Investor.

TAKE ADVANTAGE OF IT.

I ask every reader of this paper to write me. I want to send you my free book entitled "Ten Years"—"The Story of My Wonderful Success." It tells about one of the greatest and most promising investment opportunities ever offered. It tells how my business grew from less than $25.00 capital to its present proportions.

I believe I have the best proposition from an investor's standpoint that could be placed before you. For ten years I have been teaching men and women to live according to the laws of Nature. My book is the history of my life. It shows what energy and ambition can accomplish in the world of affairs. It is intensely interesting to any man or woman who has a few dollars to invest in a legitimate enterprise.

I started business in the City of Brooklyn in 1896. My capital amounted to less than $25.00. My first year's business netted me over $1,000.00. Last year I paid dividends to my partners of 15 per cent. Five years ago my business had grown so large that I was compelled to remove to larger quarters. I am now at 63-65 Clark St., Brooklyn, N.Y.—in connection with Hotel St. George. Experts pronounce my institution to be the best appointed of its kind in the country. I estimate the equipment of the Mac Levy Institute of Physical Culture to be worth at least $40,000.00.

I want to have a building of my own that will enable me to accommodate my increasing business. To erect this building I need capital, but more important than this to increase my business to the proportions which I desire, I need the co-operation of men and women throughout the country and the world.

Co-operation is the Secret of Success

I recognize it. I believe that with thousands of co operators throughout the country I can build my business to tremendous proportions to the benefit of the shareholders and myself.

The Mac Levy Company is incorporated under the laws of New York for $150,000.00. They are proprietors of The Mac Levy Institute of Physical Culture and The Mac Levy Gymnasium Equipment Company.

The last named branch of the business of the Mac Levy Company is comparatively new. I have been at work for several years to establish such a department in connection with teaching Physical Culture. The most difficult part of forming the Equipment Company has been accomplished. The business is now in condition to be pushed on a large scale. Hundreds of thousands of dollars are spent yearly on new gymnasiums and their equipment. The profits are large. A company of this kind has an immense field in which to work. Competition is slight. It is evident that the Mac Levy Gymnasium Equipment Company can build an enormous business.

The Mac Levy Company operates during the summer months at Steeplechase Park, Coney Island, and at Averne Hotel, Averne-by-the-Sea, L. I., as well as at our Brooklyn Institute. I also does an extensive mail business. I teach people how they should live and exercise. My students are scattered all over the United States, and in English speaking countries.

A PROBLEM

which arrises in the minds of every man and woman is how to secure a comfortable income in the earlier years of their life, that they may reap the full benefits which such an income affords.

I have long thought that there are hundreds of people in moderate circumstances who would like to invest a few dollars in an Institution of this kind. It is to such people that I intend this announcement shall appeal. I am offering a block of the Treasury Stock of this company to the public at its par value. My reasons for doing this are that I wish to erect a building and to extend the business of The Mac Levy Institute of Physical Culture and The Mac Levy Gymnasium Equipment Company.

I WANT YOU AS MY PARTNER

I need your help and suggestion. I want you to work with me and help me to secure a tremendous amount of new business.

I believe that if you could talk with me personally and go over the records of the business which I have done, see in black and white the figures which show the steady growth my business has experienced during the past ten years, examine my plans for future extension, and then look over the magnificient equipment of my Institute, and would want no further evidence that money put into my business would bring you the greatest possible returns consistent with safety and good management.

I ask you to write for my free book. I believe it will interest you. You have a few dollars tha you want to invest. Why let it stand idle earning only 3 or 4 per cent that Savings Bank pay their depositors? Put it to work. Join it with mine. This Company ought to pay at least.

TWENTY PER CENT. DIVIDENDS

Germany and France May Yet Disagree

Announcement of Loan Contract Again Revives a Feeling of Unrest--If Kaiser's Purposes are Pacific it is Time to Cry a Halt By Lovers of the Peace of the World

London, Aug. 17.—Germany's official announcement from Fez that the contract for a loan negotiated with the Sultan under the auspices of Count Tattenbach-Ashold, the head of the German mission to Fez, has been signed, revives the feeling in London that Germany and France may yet get into serious difficulty over Morocco.

It is noted that French opinion is becoming daily more restless, owing to rumors of German aggression. Englishmen think that the situation demands an official avowal of the Kaiser's policy. They fear that unless Germany shortly gives some proof of fidelity to the letter and spirit of the agreement of July 8, which contemplated an international solution of the Moroccan question within certain limits, France will lose confidence in the good faith of Berlin, as Japan finally lost confidence in the good faith of St. Petersburg, and then the French Government after the fashion of the Japanese Government, will take independent action to safeguard its interests.'

Englishmen do not admit the claim the proposed loan is purely a private matter. They contend that when German bankers lend money to the Sultan of Morocco, on the security of landed estates, the transaction inevitably carries German politics into Morocco, and gives the Fatherland a position in that Empire inconsistent with all Germany's official utterances on the subject.

Englishmen also refuse to accord validity to the German assertion that the negotiations began before the agreement of July 8 was concluded.

They take the ground that if the Kaiser's purposes are really pacific, as he has taken pains to assure Europe they are, he should call a halt in the proceedings in Morocco, which seem to suggest an attempt to confront the international conference, with accomplished facts favorable to Germany's case before the conferees.

THE FAVORED CHURCH.

Professor Goldwin Smith puts it this way; Let us know how we stand. The Catholic vote is very strong and controls the present Government, while it is itself controlled from Rome. What other claim has the Roman Catholic religion to special privilege In a commonwealth, the general principle of which it will probably be admitted is the equality of all religions before the law? Suppose the Anglican, the Presbyterian, or the Methodist Church were to claim special privilege and insist that it should be allowed to make a session used in our Public schools, would the claim be admitted? On what then does the Catholic claim for privilege rest? Certainly not on the special affinity of the tendencies which now reign at Rome, to the fundamental principles of a free commonwealth, of which on the contrary the Syllabus, their latest manifesto, is the most direct and rampant denial. Once more, then, let us know how we stand. Before we are dubbed fanatics and bigots, let us know on what, saving the power of the Catholic vote, the claim of the Catholic Church to educational privilege is founded.

CANADA'S CROPS ARE ENORMOUS

Shipping Business Will be the Greatest in the History of Dominion

U. S. HAS ALSO BIG CROP

Many Millions of Bushels of Grain to Be Shipped Through Montreal

Montreal, Aug. 18.—With the cutting of the grain in the Northwest only a week off, and with the prospect of the largest yield in the history of the Dominion, the Montreal grain brokers, shippers and others interested, are looking to one of the heaviest season's business they have ever experienced.

Naturally they will breathe easier when the next ten days have passed away and nothing detrimental has happened to the ripening crops. By that time the grain will be cut to a large extent and within four, or at the outside five weeks time, it should begin moving from the westward.

"Making a rough calculation, according to present information," said a prominent shipper on the floor of the Montreal Board of Trade today, "I can see nothing ahead but prosperity. Of course, there is the "IF" which stands in the way until the grain is housed, but eliminating this and making calculations accordingly, I think that we will have the greatest business the Dominion ever experienced.

ENORMOUS SHIPPING TRADE EXPECTED.

"If the United States crops materialize on anything like the scale anticipated then we will do an enormous shipping trade from this port in American grown corn and wheat as well as native grain. The present United States estimate of corn is no less than 2,574,000,000, while the wheat crop is estimated at 715,000,000 bushels, as compared with 552,000,000 last year.

"This difference in the wheat crop of the two years can well be placed as the shipping surplus, while an enormous amount of corn can be spared for export.

"In Ontario the wheat crop will be between twenty and twenty-two million bushels, which gives a surplus of ten millions for export, for their powers of consumption up there are about ten million bushels per annum. Then we will have all the crop for the Northwest Territories and Manitoba.

"If anything should happen to Russia, which is, after all, the North American continent's great rival in the grain business, we would be able to ship at high prices. In any event this surplus must be disposed of."

AMALGAMATION IN THE DRUG TRADE

Twelve Houses Said to Have Entered Into a Combination

CAPITALIZED AT $6,000,000.

Montreal Houses Say They Have Not Been Approached of Late Regarding it

Montreal, Aug. 18.—The amalgamation of at least a portion of the wholesale drug interests of Canada is said to be on foot, though so far the large wholesalers of Montreal have not been approached on the subject.

From St. John, N.B., comes the information that a combination of twelve of the wholesale drug houses is in the course of formation, that the capital stock is to be $6,000,000, and that Montreal is to be the corporation's headquarters.

When canvassed to-day the various wholesale druggists of the city stated that, while some such move had been attempted in the past, nothing had come out of it, and as for the present proposal they knew nothing concerning it.

Mr. W. S. Kerry, of Kerry, Watson and Company, stated to-day, that his firm had been approached many months ago on the subject, but nothing ever came of it, and since that time he had not been informed of any further development.

Mr. Henry Miles, of Leeming, Miles and Company, also said that he had heard nothing of the alleged amalgamation.

A prominent wholesale druggist, in discussing the situation, stated that the present status of the wholesale drug trade in Canada was very unsatisfactory indeed, and he was of the opinion that the average wholesaler, great or small, was making very little money. The travellers of the various houses were covering the same territory, selling goods at large expense, and often cutting prices to secure trade.

An amalgamation would be an excellent thing, but he doubted very much if the various elements would assimilate. It had been tried before, and had failed.

Asked as to the number of wholesale drug houses in Canada, this gentleman stated that there were about 35, and of this number 22 could be called important. They were distributed as follows:—

Maritime Provinces, four.
Montreal, four.
Quebec, two.
Toronto, three.
Hamilton, two.
Winnipeg, three.
London, one.
Kingston, one.
Victoria, one.
Vancouver, one.

In the present movement Mr. D. W. Bole, M.P., of Winnipeg, president of the Wholesale Druggists' Association, is said to be prominently identified.

GOOD FOR LOCAL WORKS

Introduction of Niagara Power to Toronto Will Greatly Benefit C.G.E. Works.

Our readers will read with interest the appended clipping taken from the financial page of the Toronto Star. The Star says; Canadian General Electric will benefit as much from the development of Niagara Power as Toronto Electric. When the power reaches Toronto it will secure hundreds of contracts to convert the present steam plants of Toronto's varied industries with electric power plants. Such contracts may run into the thousands, big and little. Then the electric road between here and Niagara will be built. Construction will start this fall. According to a recent decision of the management of the Electrical Development Company, the Niagara power lines will be carried westward to London, and will ramify through all western Ontario. A large quantity of business will develop here for the Canadian General Electric, both from the construction work and from the conversion of steam plants in the numerous towns and cities in western Ontario. The work ahead will reach quite a few million dollars. General Electric is selling at a comparatively low level, and as its prospects are excellent it could easily run up ten points.

WEDDING BELLS.

Mr. M. J. McDonnell, of Peterboro, is Married in Toronto to Miss Lillian O'Connor.

In reference to a Peterboro gentleman's marriage, the Toronto Globe says;

St. Michael's cathedral was the scene of a very pretty wedding yesterday morning, when Miss Lillian O'Connor, daughter of Mr. John O'Connor, was united in marriage to Mr M. J. McDonnell, of Peterboro. The bride was attired in white point d'esprit over taffeta silk, with a mushroom like hat, and carried a bouquet of white asters. The bridesmaid was Miss Margaret O'Connor, sister of the bride, while the groom was supported by his brother, Mr. C. J. McDonnell. The ceremony was performed by Rev. Father Rohdleder.

A NIAGARA S ORY.

A Local Irishman Suggests a Means of Prolonging Life on the Storm Tossed Steamer.

Among the excursionists who went to Niagara Falls on civic holiday were two sons of the "Old Sod." It was their first trip on stormy water since their first landing in Canada. As the boat tossed and pitched they both became very sick, and after a time frightfully nervous about the chances of ever getting back to Peterboro.

One of them produced a candle about two inches long from an inside pocket, and sticking it in the neck of a bottle the twain had with them lighted it, with the remark, "Tim as long as that blessed candle lasts the steamer is safe." His chum, looking dismally at their presumably source of safety, replied "Yes you're right, but blow the candle out and it will last till we get to land."

A CRUEL DRIVER.

Complaint Made to the Police About a Local Expressman's Horse.

Yesterday evening a local professional gentlemen came to the police office to lay an indignant protest against the cruelty to animals practised by the proprietor of one of our local parcels delivery carts. He described in graphic language the age and infirmities of the animal in question, saying that its age alone should debar it from the inhumane treatment it receives. He said he had seen its driver repeatedly using the whip, in order to get the superannuated bone pile to move. Its front legs are "gone," i.e., used up completely as far as service is concerned. The front legs bend at the knee joints as though the horse had cronic devotionitis.

The police will lay a charge of cruelty against the expressman, if he does not retire his steed to the glue factory or pasture.

Where Canada Comes In

Montreal, Aug. 18.—The Canadian Pacific Railway has received a cable message from Hong Kong which shows where the Chinese boycott of United States produce, may be a disguised blessing for Canada. There has been a large amount of United States flour shipped to China and the cable says that in consequence of the boycott there is active enquiry being made about Canadian flour to take the place of that formerly used. It looks as though a large and profitable market had suddenly opened up for Canadian millers.

Japanese Raise Seventy Ships

Victoria, B.C., Aug. 17.—News has been received from Port Arthur that over seventy vessels, including the battleships Peresviet, Poltava, Retvizan, Pobieda, and the cruisers Pallada and Bayan, have been raised, and the work of salving the merchant steamers sunk at the harbor mouth for blocking purposes has been let to Japanese firms.

REAL FIGHT FOR PEACE IS NOW IN PROGRESS

Peace Conference Believed to be Considering One of the Vital Questions--Indemnity the Great Theme--A Rock on Which It May be Wrecked.

Portsmouth, N.H., Aug. 18.—Five articles of the possible "Treaty of Washington" remained to be considered when the peace plenipotentiaries resumed their session at the Navy Yard this morning—Sakahlin, upon which it had been impossible to agree, and which has been passed over; indemnity, limitation upon Russia's sea power, the surrender of the interned warships, and the grant of fishing rights on the littoral of the maritime provinces. Remuneration for the cost of the war, it is believed, is number nine, the first article to come up to-day. How far it will be thrashed out before it is "passed over" is problematical. Fishing rights, Russia will yield. There only remain limitation upon Russia's sea power and the surrender of the interned warships. The final struggle is close at hand, and preparations are being made for it. When the remaining points of possible agreement are demonstrated then an adjournment will be taken probably until Monday, when the plenipotentiaries will show their last cards.

The Japanese are in the closest touch with their Government. They are keeping Tokio advised of every development of the proceedings. It was six o'clock this morning when last night's stream of cables to Japan was completed.

The peace conference began at 9.31 o'clock this morning. The envoys were served with breakfast at the naval store building preceding the session.

NO AGREEMENT REACHED.

The peace plenipotentiaries adjourned for luncheon at 1.30 o'clock having spent the entire morning discussing article nine, which, it is believed, includes the question of Japan's remburesement for the cost of the war. No agreement was reached, and the commissioners temporarily laid it aside and proceeded to discuss the following article.

An official statement of the proceedings follows;

"At the morning session of the conference of August 17 the plenipotentiaries discussed article 9. Not being able to reach an unanimous decision, the conference decided to record the divergence of views and proceeded to this discussion of the following article. The conference recessed until 3 o'clock.

COUNTY SHOULD PAY.

Efforts Being Made to Get the County to Pay a Fair Share Towards Entertaining Dairymen.

It is well known to all that owing to successful adaptation of modern agricultural implements and providential gifts of good harvests, our country cousins are now making their farms a veritable gold mine.

As noted in former issues of The Times, this city is to have the next annual session of the Eastern Ontario Dairyman's Association. The Dairymen's Association also embraces the buyers and other branches of the dairy industry, and there will be some 400 delegates in session for several days.

Now to properly entertain so large a number of visitors and send them away favorably impressed with both this city and county, will involve some considerable expense. The City Council are considering ways and means already to forestall such unavoidable expenditure, and will ask the county authorities to bear their burden of the expense.

This seems, and is beyond dispute a fair demand. The farmers, as intimated above are now prosperous, and the practical benefits inevitably to be gained by the meeting of this association is vastly more to their direct, as well as indirect, benefit than the very brief visit and consequent spending of our guests. The city clerk has corresponded with the county council regarding this matter and asked for a joint meeting with the city council when a sum to be given by each body will be decided on. It is expected that a meeting will be arranged for next week and that the two councils will be found ready and willing to do their share.

ATHLETIC WORLD

BY OUR SPORTING EDITOR.

BASEBALL.

The Oshawa ball nine will play a league game here on Saturday with the local team. Oshawa has given Bowmanville their bumps and are playing fast ball. The locals have got to win to be in the running, and a stiff game is on the boards for Saturday.

• • • •

LACROSSE.

Secretary Hall of the C.L.A. has notified the executive of the local club that if affidavits are forwarded substantiating the charges against the Midland team immediate action would be taken against that organization. The necessary affidavits were prepared and forwarded and will be dealt with at the meeting of The C.L.A. executive to-night. The dates of the semi-final games with the locals and the Young Torontos will be also fixed to-night.

HEAVY GUNS FOR CANADA

Said to Have Been Ordered in England for Immediate Construction

Ottawa, Aug. 17.—In outlining the policy of the Militia Council last season, Sir Frederick Borden stated that it was the intention to install a battery of heavy guns at Kingston and also one at the Pacific terminus of the Grand Trunk Pacific.

It is said that the guns have been ordered from England, and that the Kingston battery will be constructed and equipped forthwith.

BISLEY SHOOTING ON A WRONG BASIS

King's Prize Winner Might Be Useless on a Battle Field

London, Aug. 17.—Walter Winans, in the World, giving his views on rifle shooting at Bisley, says;

"The system of shooting is all wrong. It is absolutely contrary to the conditions of warfare. The Bisley champion is almost more useless at this front than the man who never before handled a rifle. Shooting at a big stationary target at long range is the worst possible training The Bisley man fires under the most artificial conditions. He lies down on his stomach, rests his elbow on the ground, and a baby could do that."

Interviewed on Winan's article, Sergeant Comber, the King's Prize winner, was asked if he thought of shooting at Bisley.

"To artificial," he replied, "certainly some of it is, For instance, the wearing of orthodoctic glasses in the last stage of the King's match. Ninety per cent. of the men wear them, but you do not use such in war. I have suggested to the National Rifle Association that they be prohibited.

TRADERS AND OUR TARIFF

Suggestion Made That They Should Present Their Views to Our Ministry

London, Aug. 17. — Edward Porritt, who recently toured Canada as a special correspondent of Commercial Intelligence deals with the approaching sessions of the Dominion Tariff Commission. He suggests that without delay the Associated Chamber of Commerce and the numerous chambers of the manufacturing centers of Great Britain should organize a movement for securing hearings before the Tariff Commission when in sessions. "I am aware," says Mr. Porritt, "that the suggestion may seem a bold one, and that it savors of interference on the part of the part of the manufacturers of Great Britain with the fiscal and commercial policy of Canada. But Canada herself has quite recently set a precedent which at once puts this aside."

THE SUCCESSFUL WAY

New Mining Proposition That Practically Ensures Success to Shareholders

In these times so redolent with "get rich quick" schemes, there are many mining propositions offered the public, some of which do return a golden harvest to investors and shareholders, but many more that, although based on seemingly reliable information and auriferous properties, result in loss. The malority of mining propositions now-a-days so widely advertised, many of which are genuine, are based on the result of chance. Money is wanted to develop apparently good claims; the property may prove rich beyond anticipation or, on the other hand, it may turn out barren of results.

The Kramer Gold Mining Co., with headquarters at Monte Vista, Colo., now own some rich and already partially developed claims which show grand returns in gold. Their future, and it is assured beyond a doubt, wealth lies in the conservative system they have inaugurated, viz., to lease ore-producing properties, with the privilege of purchase if so desired by the company. Many prospectors who own valuable claims they are unable to develop for lack of capital, fearing to sell or lease to irresponsible people who might injure the owner's title, readily consent to lease to a company with large capital on percentage of results. Millions may be taken out of a leased claim in a short time, and should the ore give out, those leasing it are so much ahead and have not sunk a large amount of capital in buying the claim.

The Kramer Gold Mining Co. have appointed the Peterboro Brokerage Co as their local representatives and have authorized them to sell for a limited time only, a block of shares, par value $1, at 25 cents per share, in quantities of not less than 100 shares to each purchaser.

PERFORMING BEARS

Norris & Rowe's Circus Contains a Troupe of Fierce Siberian Trained Bears

In the Norris & Rowe collection of trained wild animals they are exhibiting this year in their greater circus is a troupe of trained Siberian bears. Animal trainers can testify to the fact of the Siberian bears being the fiercest, largest, most blood-thirsty and intractable of all the bear tribe. It is not so very long ago that animal trainers refused to even attempt to subdue the Siberian bear and as they are the most costly of all bears, circus owners would not purchase any. Bartel, the celebrated animal importer of New York was fortunate enough to secure a troupe of magnificent specimens of these fierce brutes, but could not find a purchaser on account of the great price necessary and the unwillingness of professional trainers to handle them. However, Messrs Norris & Rowe heard of Bartel's lucky purchase and determined to acquire the bears. Clarence Norris went to New York and purchased the brutes as soon as he saw them. Bringing them to the winter quarters of the show, he set about their education. It was a long, hazardous undertaking, but he finally succeeded in training them to waltz, to box, to wrestle, to play see-saw with blood hounds, to lay on their backs and juggle barrels and pyramids, to ride bicycles and to dine at the table with him. The teaching of these bears to accomplish their sensational feats is considered to be the very zenith of wild animal training. The bears are securely muzzled at every performance, so no harm can come to the audience. This season the Norris & Rowe Greater Circus is giving a gigantic display of artistic, aerial, terrestial achievements, zoological exhibits and hippotromic triumphs. The fourth biggest circus in the entire world will exhibit at Peterboro, Saturday, August 26th.

NO ENGLISH NEED APPLY

London Paper on Alleged Prejudice Against Immigrants

London, Aug. 18.—The Daily Mail in an article headed "No English Need Apply," quotes from Canadian correspondents who emigrated from Britain giving various reasons for the alleged unpopularity of Englishmen in Canada. It is stated that this unpopularity is due to the exaggerated insularity of the Englishman and also to the United States leaven in the population.

One correspondent makes a great point of the fact that the Canadian Government values the British immigrant at seven shillings, but will pay one pound for a German immigrant.

SAVINGS DEPARTMENT

Interest on deposits of $1 and upwards will be allowed at the rate of 3 per cent. per annum, credited half-yearly.

PETERBOROUGH BRANCH - - GEORGE STREET

A. A. HOLLINGSHEAD, MANAGER.

Prince Louis of Battenberg Will Visit Toronto Aug. 29

Toronto, Aug. 17.—Prince Louis of Battenberg and his suite, with 140 bluejackets, five officers and four guns, will visit Toronto in time for the opening functions of the Exhibition. A telegram was received from Mark Kerr, flag captain to the Prince, this morning, accepting the city's invitation. The bluejackets offered for August 28th and 29th, which are Monday Tuesday, the first two days of the Exhibition, and the Mayor has wired asking that the dates be made the 29th and 30th. Monday is opening day and Tuesday, Controller Spence describes as "dead-head day," when those who come by invitation are present.

The Mayor has received two wires from the flag captain, the first of which reads;

"Prince Louis of Battenberg sends many thanks for very kind invitation to himself, staff and men. He regrets that he himself will not be able to be in Toronto on that date, but will be most happy to allow the men to go. If his Worship likes, the men who form the assault-at-arms will give a performance on the 28th and 29th. They consist of five officers, 140 men, and four guns. Prince Louis sends best greetings and thanks to his Worship and townspeople of Toronto."

The second telegram is an acceptance on the part of the Prince himself. It reads;

"Prince Louis of Battenberg has managed to arrange his program so as to have the great pleasure of being at Toronto on the 28th and 29th. He therefore accepts the Mayor and citizens' kind invitation. Please cancel the part of my previous telegram relating to his Serene Highness being unable to go."

Both telegrams are signed Mark Kerr, Flag Captain.

TELEPHONE TALKS.

TO TELEPHONE USERS AND THE GENERAL PUBLIC,—

We have already refuted the malicious charge that subscribers to the Bell Telephone Co. of Canada are paying a charge of $3.60 per annum interest on capital invested in expired patents. Let us now refer to the evidence which discloses that in the purchase of the original patents this Company acquired rights the use of which has saved it many thousands of dollars and that these rights are secured in perpetuity.

The Bell Telephone Company of Canada under the original purchase of patents also secured the right to all patents and inventions of Telephone apparatus which the American Bell Telephone Company may acquire for all time to come in the Dominion. It will be observed that this is broad enough to cover not only Telephones but Switchboards and every other Telephone device. We have thus acquired at a nominal first charge the results of the researches and experiments of the best talent in the service of the largest operating Telephone Company in the world. It carries with it the plans, drawings and specifications for all the elaborate and expensive equipment of a modern Telephone Exchange The saving to this Company in experimental work, in engineering and designing is worth to-day far more than the original amount paid under the agreement.

Instead of being a burdensome charge upon subscribers this is one of the reasons why this Company has been able to keep pace with inventions and improvements at the low rates prevailing in Canada without increasing the average capitalisation per subscriber. The acquirement of new apparatus after thorough test in the laboratories and in practical operation in the great systems of the United States is of inestimable advantage not only to this Company but to Telephone users in Canada. This advantage through foresight exercised twenty-five years ago in the framing of an agreement has been secured to the people of this country for all time.

THE BELL TELEPHONE COMPANY OF CANADA.

Pale and Anxious

Your Countenance Indicates the Body's Awful Struggle for Health.

Impossible to work or think clearly when there is no reserve of vigor, no nourishment in the blood, no supply of nerve energy.

The life of the half-sick man is pitiful, in fact, almost criminal, when bounding strength is so quickly derived from Ferrozone.

This nutritive tonic is guaranteed to strengthen all men, women and children. Weak organs get new force, vital energy is generated. Muscle and fat are added, healthy color is restored and the blood fairly tingles with new-found life.

Read the evidence of Jno. Carter, of 44 King St. East, Toronto, who says:

"After a severe attack of Grippe my health was almost shattered. I suffered constantly from nervousness and dyspepsia. At night I would waken with terrible palpitation and heart pains. Work became a great effort. At last in the morning I was so tired and weak I could hardly work another minute.

"Then came a bad attack of rheumatism which laid me up in bed. I could scarcely lift the weight of a pound and to stoop or bend was impossible. My druggist recommended Ferrozone, and he knew what he was talking about, for it rebuilt my strength, gave me abundant appetite, better blood, and new nerve energy. The rheumatism has disappeared. I weigh more, feel refreshed and vigorous, and am able to work ten hours a day. Ferrozone did it all."

You will be steadied, toned and strengthened for all time to come with Ferrozone. Get the genuine in 50c boxes or six for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U.S.A., or Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterboro are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year strictly in advance.

UNION LABEL

PETERBORO AUGUST 18 1905

A PROTESTANT FEDERATION

Representatives of twenty-four religious denominations, with an aggregate membership of 18,000,000 persons, will meet in New York on November 15 to confer on a proposition to federate the Protestant churches of America. The several branches of the Presbyterian Church in the United States seem to be on the eve of a federal union and their example is announced as one of the mainsprings of the wider movement. The New York meeting will be of interest to the members of all the religious bodies concerned and may be of real value.

The movement for the federation of the several bodies of Protestants is not new. It is in fact nearly as old as the Reformation itself. Most Protestants seem to believe that a union of the Protestant churches would work for good. In most of the missionary and charitable operations of these churches, a federation would bring about greater unity of endeavor and less dissipation of energy. But differences in relatively unessential matters of creeds and in forms of church organization persist. Each body professes willingness for fusion, but each seems inclined to impose conditions of fusion which would be unacceptable to the masses composing the other bodies. No one body seems to have been able to make such concessions in respect of its own creed and manner of church government as would be acceptable to all or any of the other bodies.

The movement has gained notable headway in Canada, but after solemn conclave marked by the best of good feeling, the representatives of the Presbyterian, Methodist and Congregationalist bodies, practically declared the present impossibility of organic union. It is not at all probable that the inspiration to the harmonizing of the energies of the churches will die away. On the contrary, if we may judge from the interchange of greetings between the representative courts of the several evangelical churches in Canada within the past few months, it is more likely to be a living force.

But organic union for the present seems to be an impossibility. A Protestant federation, on the other hand, might be possible because it would involve rather unity of effort than actual fusion. No wide difference of view lies between the several branches of the Protestant church. All the churches might agree upon much that would be common ground, and on this common ground a great deal of good work might be done, while each church maintained its autonomy.

A federation on these lines might lead ultimately to organic union, and the result of the New York conference will be awaited, therefore, with interest, not only by the Protestant church adherents in the United States, but by their brethren in Canada.

GERMANY'S COLONIES

Germany is declared to have spent more than $40,000,000 in the effort to close the war in its colony in Southwest Africa, and now it is obliged to face a revolt in East Africa, which may be as serious. Germany's colonial expansion has been enormously expensive, and should be considered by those who are inclined to sneer at the Government of the United States as having been a failure in the management of outside dependencies. Germany's failure has been attributed by a "knowledgeous" commentator to "the general lack of judgement of the men who have been sent out as administrators." Really, though, the main thing needed is more soldiers. A great deal of money has, of course, already been spent on military demonstration in South Africa, but a great deal more will have to go after it. A country cannot have possessions without an army and an expensive transport service, and without stealing its heart to soldiers dying in hostile climates. Our own Government, growing as it is in expansion, could teach the Kaiser on this subject.

KEENE.

The Sons of Rest met in their park on Saturday night last. The attendance was much larger than usual. Mr. Ney Wuis opened the meeting at the usual hour. He then rose to his feet with fire in his eyes and addressed the brethren as follows:

Brethren, it affords me much pleasure to see such a large meeting to-night, but if I must confess that I feel ashamed of some of the brethren for the manner in which they have conducted themselves of late. It is my intention to-night to fetch a few of you to your senses and don't you forget it. With these few intimations I will now take my seat and leave the meeting open for business.

Prospector Wood rose to his feet, and exposed a parcel which he claimed was an Indian relic of some kind, which he picked up on Sugar Island. He intimated that he was under the impression that it was a meal stone or mortar, used by Indians long ago. Hosier Roach asked him to let him examine it. Hosier looked at it, then he licked it, and exclaimed, "Oh, you donkey, it is a chink of rock salt that Mr. English placed there for his cattle to lick." The president fined Wood fifty dollars for rubbing the cattle of salt. Wood paid his fine and made a sneak out of the park.

Gingerale Kenealy laid a charge against Poney Moore for giving a false report. He said that Poney reported around the village last Sunday that a man was drowning in the river and it was only Ted Mulcahey practising hymns on Sandy's landing. Poney was fined $10c.

Brassspoliaher Johnson lodged a complaint against Fudy Wedlock for striking Fighting Archy on the head with a stone, inflicting an ugly gash. The president imposed a fine of $300 and warned Fudy to be more careful in the future, or he would put him where the dogs wouldn't bark at him.

Positive Legget rose to his feet and said he had a charge to make against Waxy McFarlane. He said that Waxy walked to Lakefield and picked several pails of huckleberries. He was fined $50.14, to be paid in less time than he could put patch on a boot.

Tom Deackey, county organizer, then rose and informed the brethren that he was very successful in organizing lodges. He started one in Warsaw, with a membership of two hundred and one in Consekong, with a membership of one-hundred, and was about organising one at Mather's Corners.

Patty Drummond laid a charge against Tanky Mach. He said that he put a frog in his boot, and a bumble bee in his hat, which made it rather interesting for him for a few minutes. The president said that he did not sympathize with him, as he understood that he had tied a fire cracker to a dog's tail and then lit it to see the dog run.

Wolf Howson asked the president to close the meeting, as the town clock had struck twelve. The president then asked Squire Scriver and Banker Lundy to sing the closing ode. They sang until the president closed his eyes and grunted out "Amen." The meeting was then declared closed until next Saturday night.

God Save the King.

A NEW WHEAT DISEASE

It is More or Less Prevalent From Texas to Canada

St. Paul, Aug. 17. — According to Profs. Leclere and Chilcott, of the Department of Agriculture, who are in South Dakota on a tour, the wheat crop of the United States is menaced by a new disease, known as "yellow berry." They report the disease prevalent in a greater or less extent through the wheat belt from Texas to Canada, being most noticeable in Kansas and Nebraska. The disease consists of a yellow spot on the wheat berry, sometimes covering half the berry. Its origin is a mystery. It does damage the quality of grain, but does not affect the yield.

Ayer's Cherry Pectoral. The best medicine ever made for the coughs and colds of children. Always keep it in the house. Prevents croup. Stops night coughs. Ask your doctor. J. C. Ayer Co. Lowell, Mass.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority to some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses (2), (3) or (4) must cultivate 30 acres of his homestead, or substitute 30 head of stock, with buildings for their accommodation, and have besides 40 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

How to Visit Colorado

Go first to Denver. It is the State capital, as well as the largest, wealthiest and most metropolitan city between the Missouri River and the Pacific Coast. The city itself is very interesting, and from it start practically all the trains over the various roads into the mountains.

Many of the most enjoyable one-day trips in Colorado begin and end at Denver. The cost of these little journeys is not great.

After you have familiarized yourself with Denver and its surroundings will be soon enough to decide where to go for the rest of your visit. The question must be considered from several standpoints—altitude, hotel accommodations, accessibility, amusements, etc.

Our Colorado literature will help you in deciding where to go and what to do. Sent free for the asking.

Little Journeys

At Little Cost

To the scenic land—short trips from Denver and Colorado Springs into the mountains—made in a day and at slight expense—that is one of the enjoyable pastimes of Colorado.

Denver has at least a dozen such trips that are worth while; for instance: Around the Georgetown Loop, to Platte Canon, to Greeley, to Boulder and to Ward "up the Switzerland Trail."

Colorado Springs will keep you occupied for as long a time as you can stay. You should go up Pike's Peak, over to Cripple Creek, to Manitou, through the Garden of the Gods and to North and South Cheyenne Canons.

You may also go beyond the state to Salt Lake City and Ogden. Special reduction for all these trips to summer visitors.

The trip to Colorado is also a pleasure. Quick, convenient service via Rock Island System. Two one-night trains daily from Chicago—one two-nights train. Through daily trains from St. Louis and Kansas City and through daily sleeping car service from Memphis.

Use this coupon if you want a good vacation help.

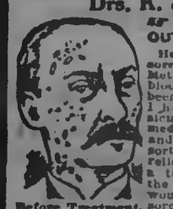
BLOOD DISEASES CURED

Drs. K. & K. Established 25 Years.



Before Treatment.

After Treatment.

☞ NO NAMES USED WITHOUT WRITTEN CONSENT.

He was surprised at how the sores healed—"I took your New Method Treatment for a serious blood disease with which I had been afflicted for twelve years. I had consulted a score of physicians, taken all kinds of blood medicine, visited Hot Springs and other mineral water resorts, but only got temporary relief. They would help me for a time, but after discontinuing the medicines the symptoms would break out again—running sores, blotches, rheumatic pains, looseness of the hair, swellings of the glands, palms of the hands scaling, itchiness of the skin, dyspeptic stomach, etc. I had given up in despair when a friend advised me to consult you, as you had cured him of a similar disease 5 years ago. I had no hope, but took his advice. In three weeks' time the sores commenced to heal up and I became encouraged. I continued the New Method Treatment for four months and at the end of that time every symptom had disappeared. I was cured 7 years ago and no sign of any disease since. My boy, three years old, is sound and healthy. I certainly can recommend your treatment with all my heart. You can refer any person to me privately, but you can use this testimonial as you wish." W. H. S.

We treat Nervous Debility, Varicocele, Stricture, Vital Weakness, Blood and Skin diseases, Urinary, Bladder and Kidney complaints of men and women.

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Are you any weakness? Our New Method Treatment will cure you. What it has done for others it will do for you. CONSULTATION FREE. No matter who has treated you, write for an honest opinion Free of Charge. Charges reasonable. BOOKS FREE—"The Golden Monitor" (Illustrated), on Diseases of Men. Sealed Book on "Diseases of Women" Free.

The Glenara Gold Mining Co.

Capitalization, 1,500,000 Shares — Stock Fully Paid and Non-Assessable

Par Value, $1.00 Per Share. — Treasury Stock, 700,000 Shares.

This Company was organized in March, 1906, under the laws of Arizona, with a capital of 1,500,000 shares. The par value of these shares is $1.00 each. They are full paid and forever non-assessable. The Company owns approximately seventy-five acres of territory in the Goldfield district. By reference to the map you will note that every acre is within the producing area, and with the systematic development this large acreage is to receive, there is no doubt that the stockholders will very shortly see the Company on a producing basis.

We desire to say right here that this Company is organized for legitimate mining, and not stock jobbing purposes, and among the directors are some of the best known mining men in the West. It is their one desire to make the GLENARA GOLD MINING COMPANY a great success at the earliest possible moment.

It is for the purpose of raising funds to vigorously develop the Company's holdings that some Treasury stock is now offered for public subscription. Out of a capitalization of 1,500,000 shares, 700,000 shares have been placed in the treasury. This treasury reserve insures the company a large working fund, if needed. It is the belief of the management, however, that it will not be necessary to dispose of over 50,000 shares of the treasury stock. The present outlook is such that the management believe that the mine will be on a paying basis before many weeks have passed.

The Property of The Glenara Gold Mining Company Consists of the Following:

The Glenara Group consists of four claims located in the Goldfield mining district of Nye County, Nevada. These claims are known as the Kentucky Bell, Mabel M., Lone Jack and June Bug, covering about seventy-five acres. This group of claims is located on a system of ledges over a mile and a half in length and about half a mile wide. These ledges are the same as those traversing the Kendall, Tonopah Club, Vernal, Quartzite, Black Butte, New York, Brooklyn, Jumbo, Vernal, Penn and Federal.

The surface indications at the time of location were of the very best, however, good float being found upon the ground and good pannings are obtainable, all of which indicate that the property can be developed into a paying proposition. The ground has been thoroughly prospected and the sinking of the shaft begun on the Kentucky Bell claim. There is a force of men sinking a shaft as rapidly as possible. Good ore has been encountered running from $3 to $15 per ton, increasing in value with depth, and it is safe to say that a strike may be looked for any day.

Taken as a whole, the investment offered by the Glenara Gold Mining Company is equal to any prospective company in the district. The claims are exceptionally well located, covering a large area; the management is conservative and honest, and is working hard for the success of the company.

The proposition will stand the very closest investigation, and, in fact, an investigation by prospective investors WILL MEAN AN INVESTMENT. WE COURT INVESTIGATION.

The allotment of stock is very small, and if you desire to become interested with this enterprise, it will be necessary for you to communicate with us at once.

The work on the property is being pushed to the utmost, and any day may bring news of a strike which will advance the price of the stock.

For prospectus and full particulars, address

R. H. B. WARBURTON, Fiscal Agent,

Office, 522 McPhee Building. DENVER, COLORADO

APPEARANCE

Is such an important feature on the table. It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table,

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

THE BEST YET!!!

We have given our clients some good things in mining stocks during the past two years, but we believe one of the best propositions we have ever handled is

DILLON OIL MINING & DEVELOPMENT CO'Y., OF CANEY, KANSAS

MURDERER MADE SIGNAL AFTER NECK WAS BROKEN

Clergymen Says Arrangement was Made With Him to Shut and Close Hand

New York, Aug. 17.—According to the World, the Rev. E. A. Meury, pastor of the Second Reformed Church, in Jersey City, made this astonishing statement yesterday.

"That to him and five others a murderer proved while being executed on the gallows that he retained consciousness, memory, and the power of voluntary motion after his neck was broken." The Rev. Mr. Meury has been chosen to serve on the sheriff's jury at the hanging of Edward F. Talley in the Hudson County Jail, and has been asked to minister religiously to the doomed man. He will serve on the jury, although he is strongly opposed to capital punishment. He said last night:

"I have seen seven unfortunates hanged. One was Paul, Genz, who was executed in the Hudson Court Jail, April 13, 1897, for the murder of Clara Armin. In the fight I shall make to abolish capital punishment in New Jersey I shall argue that sometimes a man is conscious after his neck is broken.

"Paul Genz was in my charge; he and I discussed the question whether a man's brain might be active after his cervical vertebrae were broken. Genz was certain he would be conscious after his neck was broken. He said to me: 'Watch me closely. After my body is jerked upward and I fall to the rope's end and my neck is broken. I will wait about a minute; then I will close my hand twice, then once, then twice again. I arrange this signal now so that none of the doubters who may be looking at me can say that my movements are only involuntary twitchings.'"

SIX MEN VERIFY STORY.

The clergyman continued: "When Genz fell after being jerked into the air by the fall of the weight his body stiffened. About three-quarters of a minute passed, then Genz closed his hands twice, opened them again, closed them once, then twice again. I distinctly saw his pinioned hands make the signal he said he would give me. So did six other men whom I had told Genz's promise of what he would do. The horror of it was almost over-whelming."

The then Sheriff Heller of Hudson County and Dr. Schneider were as positive as Meury that Genz made the prearranged signal.

WHITELAW REID FEARS FOGS

American Ambassador Has Leased Earl Cowper's Estate in Bedfordshire

London, Aug. 17. — Mr. Whitelaw Reid, the American Ambassador, has taken a lease of the late Earl Cowper's country seat, Wrest Park, near Ampthill, Bedfordshire, and Mr. Reid, and his family will take up their residence there for the winter or within a couple of months. The Ambassador has secured the property for the term of his stay in England, and proposes to spend the winter months there, as he is satisfied that the fogs and other discomforts of the London winter would seriously affect his health. The estate is 38 miles from London, and Mr. Reid proposes coming to London daily in his automobile.

CANADA'S WHEAT FOR ENGLAND

London Papers Sees Danger if Our Products go to the United States

London, Aug. 17.—Commenting on Professor Mavor's recent report on the wheat production of the Northwest, the Globe says: "The question is briefly, where in the future is Canada to find her chief markets for her wheat, in Great Britain or the United States? And upon the answer to this depends the further question which of the two is to have the lion's share in the trade advantage resulting from Canada's development. The refusal of England to respond to the Canadian preference and draw her supplies increasingly from her own children can only mean an alternative scheme of trade reciprocity between Canada and the United States of America. With the majority of its population non-British and united with a foreign population in closest relations in commercial and material interests Canada will be only nominally a portion of the British Empire, and probably not even that for any long period. The British democracy has this decision in its own hands. That decision, whichever way it goes, will have politically and commercially very far-reaching results.

TORN TO PIECES BY DOGS

Awful Death of Eskimo Woman and Her Child in Labrador

Halifax, N.S., Aug. 17.—Word has been received here from St. John's Nfld., that the steamer Kite, which has arrived there from the north, brings word from Okkak of a woman and child being eaten by Esquimo dogs. They were crossing to a neighbor's when the woman fell in an epileptic fit, and thirty angry dogs set upon them and tore them to pieces. Only the woman's bones were recovered for burial.

ADVERTISE IN THE TIMES

SEALED TENDERS addressed to the undersigned, and marked on the envelope "Tenders for Island No. 34," will be received until Monday, the 31st day of August next, at noon, for the purchase of an Island in the Township of Smith, County of Peterborough and Province of Ontario, comprising an area of 81.35 acres and known as Salmon Trout Island, No. 34.

The tenderers should state the amount they are willing to pay in cash for this Island and an accepted cheque for ten per cent of the amount tendered should accompany each tender, which the successful tenderer in the event of failure to complete the purchase within one month from the date of the award shall forfeit to the Department.

The highest or any Tender, will not necessarily be accepted, and the unauthorized insertion of this advertisement in any newspaper will not be paid for.

J. D. McLEAN,
Secretary.

Department of Indian Affairs,
26th July, 1906.

THE

Montgomery Mountain Mining Company

BULLFROG

promise to be one of the greatest producers yet discovered in the TONOPAH, GOLDFIELD BULLFROG DISTRICT.

This district records the greatest discovery of Gold that has ever been made in the history of mining.

This Company is a legitimate Mining enterprise, managed by honest, capable mining men.

The property is on the Montgomery Mountain, adjoining the MONTGOMERY SHOSHONE mine, which has only been operated ten weeks and which is now

Shipping Ore that runs TWENTY-THREE HUNDRED DOLLARS to the Ton.

The Capital of the Company is $1,250,000, divided into 1,250,000 shares of a par value of $1.00 each fully paid and non-assessable, 300,000 shares of which are in the Treasury.

The Officers and Directors are

President and Treasurer, D. H. PERRY, Salt Lake City, formerly President of the Salt Lake Stock and Mining Exchange.

Vice-President, Hon. JOHN SPARKS, Governor of Nevada.

Directors: D. E. BURLEY, General Passenger Agent, Ogden Short Line R. R., Salt Lake City; Hon. JOHN SPARKS, Governor of Nevada; E. E. EDWARDS, of the firm of Vermilyea, Edwards & Stanley, Attorneys-at-Law, Goldfield, Nevada.

The Company refers by permission to

McCormick & Co., Bankers, Salt Lake City; John S. Cook & Co., Goldfield, Nevada; Ormsby County Bank, Carson City, Goldfield & Tonopah, Nevada.

We believe this property and its stock will have an advance that will be as sensational as was the Original Tonopah immediately after its development.

We can supply orders for a limited number of shares at 75 cents per share. This price expires July 10th, after which it will be raised. For information or stock apply to Thos. Patterson & Co., Fiscal Agents, Peterborough, or.

D. D. PEERY COMPANY, Brokers, Goldfield, Nevada

GERHARD HEINTZMAN PIANO

CANADA'S PREMIER PIANO AND NATIONAL INSTRUMENT

Gerhard Hientzman, Limited.

97 Yonge Street, Toronto.

NICKEL AND COPPER

A few Thousand Treasury Shares

Only are left to be sold before all offerings are WITHDRAWN FOR FIFTEEN MONTHS' TIME.

You can buy the few remaining shares now at $1.00, but fifteen months hence you will probably pay from $5.00 to $20.00 per share.

THERE IS NOTHING EXTRAORDINARY

In shares advancing as above stated in mining propositions, for it is an old story of phenomenal advances in mining shares, Granite Mountain going from ten cents to $75 per share, Calumet & Hecla from $1.00 to $900.00, and so on down the list.

CONSIDER FOR A MOMENT

What this company offers—It controls to-day an actual territory of nearly Three thousand acres of land known to be immensely rich in nickel and copper ores, all in a district known and proven to be sixth among the greatest copper districts in the world. This company will control at least one thousand acres in ore. In all nearly five thousand acres, which will not be tied out in two hundred years.

WE STAND READY TO PROVE

That this company offers to day the most meritorious mining proposition presented in ten years' time.

Write or call for full particulars. All shares registered by International Trust Company, Boston.

International Nickel and Copper Co., Ltd., Suite 93, Journal Building, Boston, Mass.

W. K. HALL, Fiscal Agent, Peterborough.

"THE KRAMER" Gold Mining Co.

"THE SAFE WAY" IS "THE SUCCESSFUL WAY"

CAPITAL STOCK $1,000,000, fully paid and non-assessable.

Par Value of Shares $1.00. Incorporated under the laws of Arizona.

THE SAFE WAY

The Kramer Gold Mining Co. do not lease properties on chance, but lease with option to purchase within a reasonable time. Our contracts on property all contain clause carrying this privilege. Million may be taken out during term of long lease. We have experts in touch with all new discoveries of ore.

PROPERTIES NOW OWNED

We own the "Four Sisters" producing ore worth $5.00 to $68.00 per ton.

SHARES 25 CENTS

For a limited time we offer stock in lots of not less than 100 shares for 25 cents per share. Payable $10 per month, or 5 per cent discount for cash.

PETERBORO BROKERAGE CO.,
Fiscal Agents.

"TONOPAH" HOME CONSOLIDATED

STOCK WILL ADVANCE

WHY?

Because it is shipping ore from its Alta mine. Are there many mines shipping ore? We guess not. Just compare the prices the stocks are selling at. If you invest, buy stock in a shipper.

From San Francisco, Wasp, July 22nd, W. K. HALL, Peterboro, Ont., has some of this stock for sale.

Yours very truly,

W. J. ARKELL & Co.

RICH GOLDFIELD STRIKE

Twenty eight tons of rich gold ore averaging $210.15 have just been received at the Goldfield Reduction Works from Curtis lease on property adjoining end line of Gold Run claim of the FINANCIER'S SECURITY GOLD MINING CO., same ledge runs through this property. Stock is now being sold at FIVE CENTS PER SHARE. Ask for copy of "Facts" and photos of this company's excellent holdings. To keep posted send for our free Market Letter.

Dr. Hamilton Cures Rheumatism

You Use His Mandrake and Buttermilk Pills—He Guarantees a Lasting Cure.

Rheumatism begins and ends in the blood which at no time is ever free from poison. But if the kidneys are healthy, they will filter out the wastes and poisons.

In case of rheumatism, the kidneys are not doing their work. As a result poisons crystalize around the joints and cause pain almost akin to torture.

There can be no cure, no permanent relief until the kidneys are stimulated. First get them into working order. For this purpose Dr. Hamilton's Pills excel all other remedies; they heal and strengthen the kidneys as no other poisons depart from the blood and all medicine can do. Once the kidneys are renewed by Dr. Hamilton's Pills the trace of rheumatism disappears.

No Case is Too Chronic to Yield to the Marvellous Influence of Dr. Hamilton's Pills.

"I spent nearly three years experimenting with rheumatic remedies, writes Geo. R. Sunbury, of Portland. "I had almost given up hope, when I tried Dr. Hamilton's Pills—they completely cured me. No remedy could be better."

You will never regret using Dr. Hamilton's Pills. Get a supply today from your druggist, 25c. per box, or five boxes for $1. By mail to any address if price is forwarded to N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

New T.V.C. Dredge Emmerson.

The new dredge Emmerson is being fitted up at the locks below the lift lock. The machinery is now being placed in position and the dredge will be equipped and ready for service in about five weeks time. The Emmerson is a large dredge and the boiler from the dredge Otonabee is being transferred to her. A large force of men are at work on the job and when completed the dredge will be a valuable addition to the Trent Valley Canal plant.

China-American Boycott Helps Us.

As our readers are aware there is every likelihood of China practically boycotting exports of American-made products, in retaliation for their embargo against the almond-eyed celestials. This will probably help those of our local industries who manufacture for export, as Canadian-made goods would have a preferential admittance to China on those from the United States. The fact that there is every probability that in the near future the American Cereal Company will go into the manufacture of flour extensively is an evidence of the benefits which Peterboro will doubtless reap from the action of the Chinese.

MOOSE JAW HOTEL.

At Moose Jaw, in the Canadian Northwest, at the junction of the Soo Pacific road with the main line of the C. P. R., is a modernly appointed hotel elegantly furnished and has fine sample rooms for the use of Commercial guests without charge. For pamphlet let descriptive of hotels, how to reach them, dates and time tables, write to C. H. Foster, D.P.A., C.P.R., 71 Yonge Street, Toronto, Ont.

Is Car No. 13 Hoodooed?

Car No. 13, belonging to the local street car line seems to have the traditional "hoodoo" incumbent on this commonly supposed unlucky number. This car has had perhaps as many accidents, fortunately of a petty nature, as any three others of the system. Yesterday, morning another was added to the list, when it jumped the track at Charlotte street, and blocked the traffic on the Auburn-Exhibition grounds line for a good half hour. No damage was done.

Game Warden Fitzgerald Busy

Mr. George W. Fitzgerald, game warden for Eastern Ontario has returned from the northern part of Frontenac county. He was accompanied by Mr. James Brickwood, deputy warden at Kingston. A settler named Augustus Foster, who resides near the village of Parham in Hinchinbrooke townships, pleaded guilty and was fined $5 and costs for allowing his dog to chase deer. Mr. Fitzgerald has some information up his sleeve that will soon make other lawbreakers wish they had done otherwise.

$10--First of the Season--$10

Four special seashore excursions from Suspension Bridge, Niagara Falls, to Atlantic City, Cape May, Ocean City or Sea Isle City, via Lehigh Valley Railroad, July 11, August 4 and 11, and Sept. 1. Tickets only $10 for the round trip. Good 15 days. All trains via Philadelphia. Tickets allow stop-over returning. Tickets good on regular express trains leaving Suspension Bridge at 3.50 and 7.15 a.m., 6.20 and 10.15 p.m. For tickets, Pullman berths and further particulars, apply Robt. S. Lewis, Canadian Passenger Agent, 10 King street east, Toronto, Ont.

Hoodlums on the West Side.

Rowdyism is rampant by night in the western portion of the city. Young girls should not go about after dark without adult company. Our police force does well, but is too limited in numbers to patrol the outskirts. If blackguards who insult girls at night, could be caught at this cowardly work, such a penalty should be inflicted as would scare off these hoodlums from a repetition of such interference with unprotected girls, as when two girls returning together from Jackson Park on Wednesday night, were insulted and badly frightened on the west side by fresh young men (?)

Demand for Fishing Tackle

Mr. F. C. Cubitt, the Charlotte St. fishing tackle and sporting goods merchant, yesterday reported that this season has been unusually brisk in the demand for all kinds of fishing tackle. The most frequent calls have been for moderate price rods supplied with the best quality of lines. The demand for artifical baits has also exceeded his previous experience, the regular spoon bait being most in favor. Mr. Cubitt has now concluded arrangements for handling, at his store, four doors west of The Seawden House, a full line of guns, rifles and loaded shells with shot adapted to everything from a humming bird to a moose.

PUMPING OIL.

Abnormally Increased Demand for Gas Necessitates Increase of Work in Local Gas Works.

Yesterday those passing by the east end of Simcoe street, could have seen two men vigorously pumping oil from the dome of an oil tank car. It is usual for the Gas Company to unload the oil from those cars by gravitation, simply connecting a valve, generally located below the tank, with the three inch pipes running to their underground tanks in this street. The demand for gas, recently became so abnormally increased, the company have experienced some difficulty in obtaining a prompt supply in sufficiently large volume to meet their requirements, so, although other cars are on the way from the United States, they had to borrow a car from the Toronto Works for immediate use this week. These Toronto cars are not fitted with the same style of valves as are usual here, hence the necessity for "pumping" the thousands of gallons of oil by hand power.

It is the intention of the company to have a large tank sunk near the railroad, so that all kinds of oil tanks can be more speedily emptied, and thus obviate all danger of delay.

HEART RIGHT

When He Quit Coffee.

Life Insurance Companies will not insure a man suffering from heart trouble. The reason is obvious.

This is a serious matter to the husband or father who is solicitous for the future of his dear ones. Often the heart trouble is caused by an unexpected thing and can be corrected if taken in time and properly treated. A man in Colorado writes:

"I was a great coffee drinker for many years, and was not aware of the injurious effects of the HABIT till I became a practical invalid, suffering from heart trouble, indigestion and nervousness to an extent that made me wretchedly miserable myself and a nuisance to those who witnessed my sufferings.

"I continued to drink coffee, however, not suspecting that it was the cause of my ill-health, till, on applying for life insurance I was rejected on account of the trouble with my heart. Then I became alarmed. I found that leaving off coffee helped me quickly, so I quit it altogether and having been attracted by the advertisements of Postum Food Coffee I began its use.

"The change in my condition was remarkable, and it was not long till I was completely cured. All my ailments vanished. My digestion was completely restored, my nervousness disappeared, and, most important of all, my heart steadied down and became normal, and on a second examination I was accepted by the life insurance company. Quitting coffee and using Postum worked the cure." Name given by Postum Co., Battle Creek, Mich.

There's a reason, and it is explained in the little book, "The Road to Wellville," in each pkg.

Personal

—Mr. A. W. Sprague, Picton, is in the city.

—Mrs. Roland Deane is visiting relatives in Brighton.

—Miss Gertrude Hutchinson is holidaying at Chemung.

—Mr. Wm. Dunlop, Fenelon Falls, is visiting in the city.

—Mr. Joseph Maher has returned from a trip to Buffalo.

—Mr. J. R. Jamieson, of Hamilton was in the city yesterday on business.

—Mr. Wm. Irwin, who is summering at Stony Lake, was in the city yesterday.

—Miss Edythe McCormack, of Toronto, is the guest of Miss Katie Graham.

—Mr. H. B. Grubbe, of the Bank of Toronto staff is holidaying at Stony Lake.

—Miss Coleman, Superintendent of Nicholls' hospital, is visiting Mrs. Masson, Campbellfood.

—Mrs. Dr. Grant, who is spending the summer at her cottage, Stony Lake, was in the city yesterday.

—Messrs. D. Hughes Charles and J. H. McClellan and party went up to Stony Lake yesterday.

—Miss Jessie Long, of Orillia, is visiting in town, the guest of Miss Ada Richardson, Cedar street.

—Mrs. Joseph Johnston and her little son, Percy, are on an extended visit with friends in Buffalo.

—Miss D. E. Murphy, of Midland, is in the city, the guest of Mrs. Jas. Swanton, of the Montreal House.

—Miss Teresa Moran, of Campbellford, is spending a few days in the city, the guest of Mrs. A. H. Lehance.

—Miss Annie Wood and Miss Mary Erskine, east side, left yesterday for a trip to Halifax, Nova Scotia.

—Mr. Norman Darling returned to the city yesterday morning after spending a vacation at "Fort Royal" Stony Lake.

—Mr. and Mrs. T. H. G. Deane and family have returned from a week's holiday trip to Rochester, Buffalo, Niagara Falls and other places.

—Miss Ida Scott, Omemee, who was the guest of the Campbell family 252 Charlotte street, left last night for home.

—C. Pearce, Toronto; W. J. Wallace, Ottawa; D. O. Thomas, Montreal; Chas. E. Bucklin, Toronto; D. P. Green, Fort Erie, Peter Smith, Hamilton; C. E. Osborne, Toronto, are guests at the Snowden House.

—The Pittsburg party comprising Mr. and Mrs. William Price, Miss Price, Mr. and Mrs. J. Raymond Price, Miss McCunna and Miss Bailey of Duluth, who have been summering at Buckhorn, were guests at the Snowden House yesterday on route for their homes. They report having had a most enjoyable outing and will probably return next season.

CAUSE OF HAY FEVER

Hyomei the Only Cure Gives Change of Climate in Your Own Home.

Fifty years ago hay fever had not been named, but undoubtedly people suffered then as now with sneezing, watery eyes, excessive running at the nose.

The direct causes appear to be heat dust, and the pollen of flowers and the only treatment that physicians recommended prior to the discovery of Hyomei, was a change of climate.

Now by using Hyomei you can save an expensive trip to the mountains, and escape weeks of suffering. This remarkable treatment kills the germs of the disease and soothes and heals the irritated mucous membrane; it really gives you in your own home a change of climate, and hay fever sufferers know from past experience that this is the only thing that has afforded them relief. By breathing Hyomei a few times daily you can save the expense of a trip to the mountains and avoid the dangerous hay fever.

The complete Hyomei outfit costs but $1, extra bottles, 50 cents, and consists of a neat pocket inhaler, through which Hyomei is breathed and which will last a life-time, a medicine dropper and a bottle of Hyomei. Wm. Madill offers to refund the money if Hyomei does not do all that is claimed for it.

Local Incidents
BY THE TIMES MAN ON THE STREET.

—The Chief of Police has a parasol found some days ago, on a street car, who owns it?

—The Lady Maccabees will meet to-night in their hall on Hunter St. A full attendance is requested.

—Why is not hot water supplied instead of "hot air," for Jackson Park's thousands of visitors?

—Mr. Percy Blade landed a 29 3-4 pound lunge, while trolling in the Otonabee near Crawford's Grove yesterday morning.

—The members of Eko Camp who have been spending a few days near McCracken's Landing have returned to the city.

—The Peterboro Canoe Company is just completing a second order of canoes, which will shortly be shipped to Paris, France.

—There is every indication that many of our local young men will take in the C.P.R. harvest excursions to the North-West this fall.

—Gospel Hall Sunday School held their annual picnic yesterday afternoon at Jackson Park. A street car was chartered to convey the pupils to that resort.

—Mr. and Mrs. Hickson, of Bobcaygeon, celebrated their silver wedding on Friday of last week, and Mr. and Mrs. J. H. Moore on the following day.

—Miss F. Boswell, late of the Bell Telephone Company's staff, has resigned. She has entered the Nicholls hospital training school for nurses and commenced her duties this week.

—Auburn car No. 13, jumped the track at the corner of Charlotte and George streets yesterday morning at 10 o'clock and was off for half an hour, seriously interfering with the service.

—The Roads and Bridges Committee of the county council will meet on Saturday when it is probable that the question of a committee from the county body to confer with the city council concerning this question re the Eastern Ontario Dairymen's Association session in this city, will be considered.

—The J. C. Turnbull Co. are making extensive alterations and improvements in their fine George St. business. They are adding an up-to-date millinery department, for which the show cases and fixtures will be of the most modern and artistic make.

Police Court
OFFICIALS
Chief of Police, G.I. Rossel
Magistrate, D.W. Dumble

Yesterday morning only one case occupied the attention of his Worship, and provided mental nourishment for members of the Loafing Labor Club. The case was a charge of drunkenness preferred against Hector Baker. Mr. Baker pleaded guilty, and paid his reckoning $2.

Chief Rossel yesterday notified Mr. Sandy, local Grand Trunk agent, that his company will have to change their modus operandi as far as Stewart street crossing is concerned. There have been many complaints from business people and sleepers who have to cross the tracks on this street, that the G.T.R. seem to act as though they have a permanent right to block the walk-way for half an hour at a time. One day this week, the cars blocked all passage on Stewart St. for over forty minutes, a stoppage it was also complained to the police, that twice ago split about this locality, and half the train is often left standing on the crossing for half an hour at an time. The Chief is up in arms over these complaints, and intends stopping this interference with the rights of peaceful citizens. The penalty for such stoppage of a public highway is $50.

Cooling Off.

The man who would sit on a cake of ice to cool off would be considered crazy. Yet it is a very common thing for a person heated by exercise to stand in a cool draught, just to cool off. This is the beginning of many a cough which ultimately involves the bronchial tract and the lungs.

For coughs in any stage there is no remedy so valuable as Dr. Pierce's Golden Medical Discovery. It cures deep-seated, obstinate coughs, bronchitis, bleeding of the lungs, and like conditions which if neglected or unskillfully treated terminate in consumption.

There is no alcohol in "Golden Medical Discovery," and it is entirely free from opium, cocaine and other narcotics. Accept no substitutes for "Golden Medical Discovery." There is nothing "just as good."

"I took a severe cold which settled in the bronchial tubes," writes Rev. Frank Ray, of Nortonville, Jefferson Co., Kansas. "After trying medicines labeled 'Sure Cure,' almost without number, I was led to try Dr. Pierce's Golden Medical Discovery. I took two bottles and was cured, and have stayed cured.

"When I think of the great pain I had to endure, and the terrible cough I had, it seems almost a miracle that I was so soon relieved.

"That God may spare you many years and abundantly bless you is the prayer of your grateful friend."

Dr. Pierce's Common Sense Medical Adviser, containing 1008 pages, is sent *free* on receipt of stamps to pay customs and mailing *only*. Send 21 one-cent stamps for the book in paper covers, or 50 stamps for it in cloth binding. Address Dr. R. V. Pierce, Buffalo, N. Y.

TEN YEARS

The Story of My Wonderful Success.

Reads Like a Fairy Tale-Yet Full of Convincing Truths

An Opportunity of a Lifetime for the Investor.

TAKE ADVANTAGE OF IT.

I ask every reader of this paper to write me. I want to send you my free book entitled "Ten Years"—"The Story of My Wonderful Success." It tells about one of the greatest and most promising investment opportunities ever offered. It tells how my business grew from less than $25.00 capital to its present proportions.

I believe I have the best proposition from an investor's standpoint that could be placed before you. For ten years I have been teaching men and women to live according to the laws of Nature. My book is the history of my life. It shows what energy and ambition can accomplish in the world of affairs. It is intensely interesting to any man or woman who has a few dollars to invest in a legitimate enterprise.

I started business in the City of Brooklyn in 1896. My capital amounted to less than $25.00. My first year's business netted me over $1,000.00. Last year I paid dividends to my partners of 15 per cent. Five years ago my business had grown so large that I was compelled to remove to larger quarters. I am now at 63-65 Clark St., Brooklyn, N.Y.—in connection with Hotel St. George. Experts pronounce my institution to be the best appointed of its kind in the country. I estimate the equipment of the Mac Levy Institute of Physical Culture to be worth at least $40,000.00.

I want to have a building of my own that will enable me to accommodate my increasing business. To erect this building I need capital, but more important than this to increase my business to the proportions which I desire, I need the co-operation of men and women throughout the country and the world.

Co-operation is the Secret of Success

I recognize it. I believe that with thousands of co-operators throughout the country I can build my business to tremendous proportions to the benefit of the shareholders and myself.

The Mac Levy Company is incorporated under the laws of New York for $150,000.00. They are proprietors of The Mac Levy Institute of Physical Culture and The Mac Levy Gymnasium Equipment Company.

The last named branch of the business of the Mac Levy Company is comparatively new. I have been at work for several years to establish such a department in connection with teaching Physical Culture. The most difficult part of forming the Equipment Company has been accomplished. The business is now in condition to be pushed on a large scale. Hundreds of thousands of dollars are spent yearly on new gymnasiums and their equipment. The profits are large. A company of this kind has an immense field in which to work. Competition is slight. It is evident that the Mac Levy Gymnasium Equipment Company can build an enormous business.

The Mac Levy Company operates during the summer months at Steeplechase Park, Coney Island, and at Averne Hotel, Averne-by-the-Sea, L. I., as well as at our Brooklyn Institute. I also do an extensive mail business. I teach people how they should live and exercise. My students are scattered all over the United States, and in English speaking countries.

A PROBLEM

which arrises in the minds of every man and woman is how to secure a comfortable income in the earlier years of their life, that they may reap the full benefits which such an income affords.

I have long thought that there are hundreds of people in moderate circumstances who would like to invest a few dollars in an Institution of this kind. It is to such people that I intend this announcement shall appeal. I am offering a block of the Treasury Stock of this company to the public at its par value. My reasons for doing this are that I wish to erect a building and to extend the business of The Mac Levy Institute of Physical Culture and The Mac Levy Gymnasium Equipment Company.

I WANT YOU AS MY PARTNER

I need your help and suggestion. I want you to work with me and help me to secure a tremendous amount of new business.

I believe that if you could talk with me personally and go over the records of the business which I have done, see in black and white the figures which show the steady growth my business has experienced during the past ten years, examine my plans for future extension, and then look over the magnificient equipment of my Institute, and would want no further evidence that money put into my business would bring you the greatest possible returns consistent with safety and good management.

I ask you to write for my free book. I believe it will interest you. You have a few dollars that you want to invest. Why let it stand idle earning only 3 or 4 per cent that Savings Bank pay their depositors? Put it to work. Join it with mine. This Company ought to pay at least

TWENTY PER CENT. DIVIDENDS

within one year.

Write for my book to-day. NOW.

MAC LEVY

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL. XXXIII, NO. 194. PETERBORO, ONTARIO, SATURDAY, AUGUST 19, 1905. PRICE TWO CENTS.

Czar Must Decide, Sovereigns Hold Key

Conference Unable to Agree, Though Japs are Ready to Bargain--Will Appeal to Sovereigns and Decide on Monday.

Portsmouth, N.H., Aug. 19.—The morning session of the peace conference came to an end at 12.30. The envoys repaired to the luncheon room immediately.

Portsmouth, N.H., Aug. 19.—The peace conference began its session to-day at five minutes before ten o'clock, the plenipotentiaries having gone to the yard in their automobiles.

When the peace plenipotentiaries met to-day, it was practically with the tacit understanding that at the end of to-day's session they would adjourn until Monday.

The "prophets of evil," as those who persist in believing that all hope of a treaty is gone are called, predicted that to-day would witness the final rupture, and that, at most, there would be only one more meeting, not for a final effort to reach an accord, but to exchange the diplomatic amenities and bid each other farewell. This does not correctly represent the situation. Unless something entirely unforseen occurs to-day, the final struggle will be postponed until Monday, to give both sides time to hear the last word from their Governments.

SOVEREIGNS HOLD KEY.

No matter what the written "full powers" of plenipotentiaries extraordinary may be, those moderns days of the cable and the telegraph, which keep envoys in instant communication with their home Governments, have made more or less of a fiction of the "full powers" which, in the olden days were given to envoys, charged by their Governments with negotiating and settling international issues. Diplomatic negotiations are now conducted by emperors and governments rather than by emissaries. Envoys propose and emperors dispose.

Both sets of plenipotentiaries here are in continuous communication with their Governments. Accounts of to-day's proceedings are cabled nightly to Tokio and St. Petersburg, and in return the envoys are constantly receiving from both capitals. The reports of the Japanese are much longer and more complete than those of the Russians, and the secretaries of both delegations work day and night deciphering messages.

WITTE GETS A MESSAGE.

Just before M. Witte left for the conference chamber this morning he received a long cipher cable. Perhaps it contained the answer to the important communication sent after last night's conference. It was too late to decipher it at the hotel, and M. Witte thrust it into his portfolio and took it with him to the Navy Yard, where his secretaries could translate it.

Article 11, the limitation upon Russia's naval power in the far east, was pending when the plenipotentiaries reassembled. The indications were that it also would go over without final action. The last article which relates to fishing rights on the Russian littoral, may be yielded by the Russians, but neither article 10, the interned warships, nor articles 11 or 12 present insuperable difficulties. Everything now harks back to indemnity and Sakhalin. There, as from the first, is the crux. If they can be adjusted, the remainder will be child's play.

JAPS MAY COMPROMISE.

It is difficult to fathom the Japanese mind, but as stated in the Associated Press despatches last night, there have been vague moves in the conference chamber which indicate that they are willing to consider the disputed points together, and this is the basis of the main hope that they are ready to compromise.

When these points were thrown out, M. Witte did not "tip his hand." He watched like a hawk, but he wanted his adversaries across the table to commit themselves. They did not do so. Nevertheless, M. Sato reiterated to the Associated Press, this morning, before he went to the conference chamber that the disputed articles would be reverted to "later"—which means Monday.

AN ANCIENT WESTERNER

MR. JOHN MORROW SPEAKS OF SOUTHERN MANITOBA

A Great and Growing Country is This Portion of Canada--Crops are Enormous and Everybody is Happy.

The Times sanctum was yesterday morning pervaded with a breezy western atmosphere, accompanying the personality of Mr. John Morrow, of Boissevain, Man. It will be remembered that Mr. Morrow's wife is a Peterboro lady, formerly Miss Florence White. Mr. Morrow, who is Past Grand representative for Manitoba of the I.O.O.F., is visiting the city, en route to Philadelphia, where the Sovereign Grand Lodge I.O.O.F. meets September 15th to 22nd. He is accompanied on his trip by Mrs. Munro and their family.

When Mr. Morrow speaks of the "glorious Western Country," the air becomes charged with an intangible element of patriotic and hopeful trust in the future of that portion of the country where he settled some 23 years ago. Mr. Morrow combines a large law practice at Boissevain with farming operations on a large scale, mainly on the permutage plan, as is customary on the large estates in Southern Manitoba. A very common plan there is for men owning large blocks or sections of land to rent to a practical farmer, who owns, more frequently than not, his horses and stock. The farmer then, by stipulated agreement, seeds down part of the land in wheat or other grain, leaving as many acres lying fallow each year, and after his grain is cut and threshed, hauls it to the grain mill, railway or elevator, and ships it to the main centres of the trade, where it is graded, weighed and certificates of storage in warehouse or elevator issued. The farmer gives one-third of the gross proceeds to the owners of the land.

Mr. Morrow owns a section of land, 640 acres, six miles from where he lives, and other large farms at various distances and in other directions. In reference to the question of labor during harvesting, Mr. Morrow says that there is very seldom much difficulty in procuring hands enough to store the grain; he stated that whilst the railway harvest excursions bring a great influx of labor, that a large percentage of those patronizing these excursions are men who neither can nor want to work, but taking advantage of the cheap rates, simply loaf about the towns and cities until their return tickets are used. Regarding the values of land in his part of Southern Manitoba, 11 miles from the North Dakota boundary, Mr. Morrow says that, within the last five years, land has advanced one hundred per cent. in value. One farm that he paid $4,800 cash for, five years ago, he recently sold to a Swede farmer at $31 an acre, showing a raise in value in five years from $15 to $31 an acre. The houses and barns in his part of the country are far superior to those seen on Ontario farms, the houses being mainly of stone or cement blocks; the greater number of barns there are built up with cement blocks for some feet and then boarded. Their timber consists mostly of poplar and oak, the oak whilst not what is known as "scrub" oak, is hardly large enough for timber purposes.

Mr. Morrow has unbounded faith in the future of his adopted country, where good crops are raised yearly with little or no manuring, and land values show a steady upward tendency. In Boissevain, there has recently been erected a large elevator and flour mill with a capacity of 300 barrels a day. Mr. Morrow leaves the city today for Ottawa, on a visit to his mother, who lives in that town.

SHANKS MARE TO OTTAWA

Old Lady Has Reached New York, but May Receive Transportation

New York, August 18. — En route from Creston, W. Va., to Ottawa, and having walked from West Virginia to this city, Mrs. Martha Rafe, sixty years old, a stout, cheery, motherly looking woman, applied to the Department of Outdoor Poor yesterday for transportation the rest of the way to Canada. She was ready to walk the remainder of the distance if need be, for when Superintendent Meeks told her to wait till he could attend to her case she misunderstood him, and started out of the office, saying, "Well, if you all's can't do anything for me, I guess I can walk to Ottawa, same as I walked here from West Virginia."

Superintendent Meeks stopped her and when he heard her story he said he would interest United Charity in her case, and see if transportation to Ottawa could not be given her. According to Mrs. Rafe, she formerly lived with relations in Ottawa, but went to Oregon four years ago to obtain papers that would enable her to claim her pension as a soldier's widow. She failed in her efforts.

RECORDS OF ARMENIA

Caucasus Estimate of the Losses From Recent Disturbances

Tiflis, August 18.—The Armenian newspaper Mshak prints the following estimate of the losses which have resulted from the recent disturbances in Caucasus:

Nineteen villages wholly destroyed.
Twenty-two villages partly destroyed.
Two thousand buildings burned.
Two hundred and thirty-one persons killed.
Fifty-eight persons injured.
Nine persons missing.
Total loss, including ruined crops, $5,000,000.

Greatest damage was caused in the town of Nakhich, where 180 shops were pillaged or destroyed, 138 houses burned, and 20 safes blown open and rifled.

TO VISIT WHEAT FIELDS

Sir Michael Hicks-Beach will Make Personal Investigation

London, Aug. 19.—Sir Michael Hicks-Beach ex-Chancellor of the Exchequer, whose opposition to a preference for Canadian wheat has long been one of the greatest stumbling blocks in the way of Imperial reciprocity passes through the Canadian Northwest from Niagara at the end of the present month. He leaves Liverpool by SS Umbria, on Saturday. Sir Michael will then sail from Vancouver by SS. Empress of China on September 4, for Singapore, where he will be engaged in important arbitration matters.

Lord Robert Cecil, son of the late Marquis of Salisbury, who played an important part in the siege of Mafeking under Colonel Baden-Powell, sails on the SS. Victorian to-morrow, and accompanies Sir Michael Hicks-Beach to Singapore. Sir Edward Boyle will also be in the party.

A HORRIBLE CRIME

Mother Accused of Killing Her Two Boys

Grayling, Mich., Aug. 18.—The new Crawford county jail has as its sole woman inmate Mrs. Naomi Aldrich, of Frederic, who is charged with poisoning her two boys, aged 10 and 12 years, whose lives she had insured but a few days before their deaths. An analysis of the stomachs of the little fellows revealed arsenic. She had their lives insured for $50 apiece.

JAPAN GETS SEVENTY SHIPS

Five Russian Ironclads Saved and Blockade Vessels Will be Regained Doukhobors Coming

Victoria, B. C., Aug. 19.—News has been received from Port Arthur that over seventy vessels, including the battle ships Pereaviet, Poltava, Retvizan, Pobielda, and Pallada and the cruiser Bayan, have been raised, and the work of saiving the merchant steamers, sunk at the harbor mouth for blocking purposes has been let to Japanese firms.

A NEW LAKE IN SCOTLAND

Artificial Body of Water to be Constructed at Cost of $2,500,000

Edinburg, August 18.—A new Scottish lake is to be constructed on Rannoch Moor, Argyllshire, but its purpose is not to furnish attraction to tourists.

The lake is designed to furnish power for the Loch Leven Water and Electric Power Company, which will be utilized in the manufacture of aluminium.

It will be seven miles long, and will be situated 1,000 feet above sea level. It will cost about $25,000,000.

THE HARVESTING OPERATIONS

Indications That Average Crop Will Be Twenty Bushels to Acre

Winnipeg, Man., Aug. 19.—With the hum of the binder heard throughout Manitoba today, it is almost possible to say that successful harvesting of the great crop is assured. Cutting, however, is only general on high lands, and the stand on low lands, is in places, alarmingly backward. Reports from all parts, however, go to show that actual cutting results fully bear out the estimates and indicate that the general Manitoba average will be quite 20 bushels to the acre, while a considerably higher figure may be looked for in the Territories. Hot sunshine is required to ripen the grain rapidly so that harvesting operations may be rushed through before the coming of the early frosts.

Small Gets Into Brockville

Brockville, Ont., Aug. 18.—A. J. Small the Toronto theatrical manager, has secured possession of the discarded opera house from December of this year to May 15th in consideration of spending $500 on improvements. The building was closed several months ago by order of the Town Council, being considered been unsafe and unsanitary. Mr. Small has agreed to remodel the place subject to the approval of the Mayor, and when this is done a lease will be given him. Next year it is proposed to reconstruct the place on an extensive scale.

IS DEADLOCK A FINALITY? WHAT WILL CZAR DECIDE?

Is the deadlock at the peace conference a finality? The impasse which we intimated yesterday would result when the rival plenipotentiaries tried to outbrazen one another on the vital questions took place as expected, and no agreement was reached on the articles respecting indemnity, limitation of naval strength, or the transfer of the interned warships. Apparently the attitude of the envoys was so determined that there was no room for doubt that the conference was doomed to failure. In reality the bluffing game may have been being carried to the limit, as it was bound to be. Anyone with a knowledge of the methods of diplomacy, or the history of international peace negotiations, must know that the "darkest hour is just before the dawn," that a seemingly inflexible front is presented almost to the last by the side that finally yields. In this case, as we also predicted yesterday, the first suggestion of compromise came from the victors, who could afford to be generous. The latest inkling of news from the peace conference wired last night, indicated that the Japanese were all ready to group the four or five unsettled questions, including Sakhalin and the Chinese Eastern Railway, and to make another attempt to strike a bargain. This news is repeated in to-day's despatches. Our opinion that the consequence of this bargaining process would be a direct appeal to the Czar for instructions also appears to be confirmed. What the outcome will be, who can say? If we knew the contents of the long cipher message received by M. Witte to-day, we might have an idea. As it is we can only express a vague idea that Russia has been bluffing from the outset, and that the confident Japanese knew it; that Japan would gladly end the war if she could get Sakhalin, a protectorate over Korea, the Chinese Eastern Railway or its value, a certain degree of control in Manchuria, and some minor concessions; and that even the failure to secure a large indemnity would not prevent her making peace on such terms. But the Czar is so fickle-minded, we dare not venture to hazard what he will decide.

A Man Dies of Anthrax Outbreak Near Collingwood

Several Cattle Have Succumbed and the Authorities Have Taken Steps to Fight the Spread of the Disease--Many Animals May Have to be Killed.

Toronto, Aug. 18.—An outbreak of anthrax which has occurred near Collingwood has caused the death of six cattle and one man, and the community is becoming alarmed.

Yesterday Dr. Hodgetts, Secretary of the Provincial Board of Health, received a sample of the serum from Dr. McFaul of Collingwood, and a microscopic examination completed to-day confirmed the suspicion that the disease is anthrax. Another man is reported to be ill, but the disease is not regarded as contagious among human beings, and while precautions are being taken by the Board of Health, no difficulty is expected in checking its ravages in that line. It is a long time since a man has contracted the disease in this country. The man who died at Collingwood caught it in skinning some of the dead animals.

The Provincial Department of Agriculture was also notified of the outbreak to-day, and they at once referred the matter to the Ottawa Department, who have jurisdiction, as well as power to compensate owners of cattle for any that have to be destroyed to prevent the spread of the disease.

Dr. Hodgetts, in speaking of the disease to-day, said it was indigenous to South America, and when it is introduced into this country it is generally by means of hides. The disease germs are said to be capable of living for a long time. In active form in the animal it takes the form of ulcers.

BOY AT THE THROTTLE

Nine-Year-Old Has Exciting Sport with Locomotive

Marquette, Mich., August 18. — While the engineer and fireman of a locomotive went to dinner at Channing, John Dombrowski, a nine-year-old boy, climbed into the cab of the engine and, seizing the lever, pulled the throttle wide open.

The locomotive started down the track at a forty-mile gait. The boy then reversed the lever, but did not shut off the steam, and the engine rushed back and crashed into the caboose. Throwing the lever over again, the juvenile pilot once more started the engine ahead, running it through two switches and off the track.

ENLARGING PLANT.

The Home of Canada Flakes to Insta a Large Oatmeal Plant.

In addition to the large elevator, which as announced in The Times of Tuesday's issue, will at once be added to the already large and modern plant of the Peterboro Cereal Company, they will erect an addition to the east side of their mill on Simcoe street, in which will be installed machinery for turning out oatmeal, rolled oats and rolled wheat.

Estimates are now being obtained on the necessary plant and as soon as the contract for the machinery is given, the work on the new addition will be proceeded with. The exact size of the oatmeal annex has not yet been decided upon. Of course the company will continue the manufacture of Canada Flakes, which as a breakfast cereal is meeting with an enormous sale, and will later on go into the manufacture of shredded vegetables—just as soon as certain experiments in this line are satisfactorily completed by Prof. Bordeaux, State food analyst, of Michigan.

Emigration Scheme Scored

London, August 18.—The Financial News is very severe on an emigration scheme propounded by Coley Bromfield on his return from Canada, by which he intends to establish an emigration society, the chief feature of which is that members are to pay two shillings and six-pence weekly until their turn comes to be sent to Canada with a hundred pounds capital. After describing the scheme as a lottery, the Financial News says the central scheme of this business is not new. It has been worked for cheap jewellery many times. Even now it is systematically run on the continent for cash prizes. The new Ontario land colonization association is also scored.

WILL M'WILLIAMS RESIGN?

Dame Rumor Busy Over Mr. J. B. McWilliams's Future Official Status.

Dame rumor is a fickle and often an untrustworthy dame. Yesterday many people were all agog with excitement over rumors freely circulated that Mr. J. B. McWilliams, for the past thirty years in the employ of the Crown Lands Department of the Ontario Government, as agent and of late years as inspector, had been asked by Hon. Frank Cochrane, Minister of Lands and Mines, to send in his resignation to the department.

Another report was to the effect that Mr. McWilliams' resignation had not been called for, but that his services as inspector would be retained and that he would be removed to Toronto, where he could attend to his duties with greater convenience.

Mr. McWilliams was not in the city, having gone to Stony Lake, and neither rumor could be verified.

CHEMONG REGATTA

18 Different Events Included in a Splendid Program for Tuesday Next.

There is very indication that the next regatta at Chemong, which will be held on Tuesday afternoon next, will be eminently successful. Many speedy welders of the paddle and oar from the city and outside points have already signified their intention of competing. Following is the program:

1—Canoe sailing race, for open canoes, limited to 75 feet of sail area.
2—Canoe paddling, men's tandem.
3—Canoe paddling, ladies' tandem.
4—Canoe paddling, boys 16 years and under.
5—Canoe paddling, mixed tandem.
6—Rowing skiff, mens single.
7—Dinghy race, special prize offered by Commodore McComb.
8—Open sailing race, for Chemong Lakes Challenge Flag. Winner will receive a dated pennant.
9—Canoe paddling, men's single.
10—Canoe paddling, ladies single.
11—Canoe paddling, three men.
12—Gasoline launches, 18 feet and under.
13—Gasoline launches, over 18 ft.
14—Boys' swimming race, 16 years and under.
15—Crab race.
16—Canoe paddling, three ladies.
17—Hurry scurry race.
18—Rowing skiff, ladies' singles.

The rules and regulations are; Races will begin at 1.30 p.m. and proceed as rapidly as possible.

The order in which races will be started, to be at the discretion of the committee.

Events are open to amateurs only.

All canoes must be ordinary utility canoes.

Special prizes have been donated by Commodore Macomb, Messrs. R. M. Donnistoun, Feliz Wolf, R. M. Roy, Alex. Elliott, W. H. Hill, C. S. McClelland, G. H. Bugg, A. A. Hollinger and other residents of Chemong Park.

There will be first and second prizes for each event.

A dance will be held in the pavilion in the evening. Mr. Fred Roy is Hon. Secretary of Ball Committee.

There will be two marched events during the regatta, which should prove interesting. One is the canoe race in which four crews captained by Hon. Laurence Graham, Mr. Dale Fesse, Lakefield, Mr. Harry Rogers and Mr. Fred Roy will take part.

The other is the tandem canoe race between the Misses Allan of Sturgeon Point, and the Misses Hall of Stony Lake. The prize list is complete and the invitations to the ball which takes place in the evening at the pavilion, were issued to-day.

A HOT GAME.

Much Interest Taken in a Pool Match Played Yesterday.

Much interest was taken yesterday by lovers of the cue in a protracted pool match played in Mr. James Dolan's billiard room. The match sprang out of a friendly game played about 9.30 a.m., between Mr. LeFave, a local tonsorial artist and expert with the cue, and a visitor to the city from the State of Georgia. The two gentlemen played about as even a game as could be wanted, but the very evenness of their abilities soon led to a rivalry as to skill that naturally bred a suggestion to "make the game worth something." They played games for 25 balls, even up, and without even a stop for dinner continued play from 10 a.m., until 6 p.m.

Play and luck seemed to favor neither player; as soon as LeFave would get two or three games ahead, his opponent would catch up, and vice versa. Considerable money in side bets exchanged hands, but at the end of the match the players stood even.

The southerner remarked that Mr. Dolan's tables were very good for scientific play; the cushions being very well adjusted.

PROTECTION FOR COTTAGERS

Stony Lake Cottagers are to Form a More Useful Protective Association.

As is known to our readers, the Stony Lake Cottage Owners, and property lessees have now an association for mutual protection and amusement. Whilst the association has accomplished much for its members and the public in the way of summer entertainment, it has not succeeded in giving owners of summer residences in the lakes adequate protection during the winter months. Many cases of entering and theft of various kinds of articles has been in evidence every winter with little or no prosecution for the offenses. Yesterday several gentlemen, owners or renters of Stony Lake cottages were discussing prospects for the coming winter, more particularly regarding the best way in which to prevent a recurrence of those annoying thefts.

It seems that whilst all owners are anxious to have the cottages protected; as individuals each hesitates to take the initiative, fearing reprisals from those prosecuted, in the way of arson or other form of vengeance. It was proposed that a protective association, embracing all cottagers be formed; that a certain sum, not more than $2 or $3 each be subscribed annually towards, first engaging the services of one or more residents of Stony Lake to guard their summer homes, and chiefly to form a fund for a vigorous search for and conviction of those Stony Lake residents suspected of having rifled houses last and previous winters.

By making such detective protection, and punitive efforts in the name of all, it would not only divert actions of spite from falling on any particular individuals, but would stop the contemptible thefts of property that every winter are in evidence.

CAESAR YOUNG CASE MAY BE REOPENED.

Mr. Jerome Investigating Quarrel Between Nan Patterson and Morgan Smith.

New York, August 18.—The latest escapade of "Nan" Patterson, with Ralph Ash bids fair to be the means of re-opening Caesar Young's case.

The district attorney's office is investigating a quarrel between the ex-chorus girl and J. Morgan Smith, during which is charged astonishing remarks and innuendoes were made. Upon the result of this investigation will depend further action by Mr. Jerome.

The quarrel, which took place in the Hotel Gerard, would seem to have arisen over $800, said to have been won by J. Morgan Smith from Ralph Ash, at dice. Miss Patterson intervened and stopped the game. Then the quarrel began. Miss Patterson defended her admirer and defied Morgan Smith.

"They said many things that shocked and astonished me," said Ash in telling the story. "Things that Miss Patterson said to her brother-in-law, and things that the brother-in-law said to her, are in what the district attorney would like to know."

Several persons who heard the quarrel have left the city.

POLICY OF GRADUAL DEVELOPMENT BEST

Hon. F. W. G. Haultain Says it Should Commend Itself to People

SPEAKS OF POLITICAL FUTURE

Might Aspire to Continue Work He Has Been Doing for the Territories

Winnipeg, August 18.—Hon. F. W. G. Haultain, Premier of the North-West Territories, in an interview given at Regina, announced his policy in regard to the plans which he has decided upon.

Questioned as to his political aspirations, he said he had hoped he might be given an opportunity of serving the Province in the Legislature.

"In the Government?" was asked.

"Well, that," replied Mr. Haultain, "is a matter which does not rest altogether with me. I might not unnaturally aspire to doing work for the province, which up to this time I have been doing for the Territories."

"What attitude do you intend to take in the coming provincial elections?"

"I cannot possibility say, as I do not know under what conditions the elections will be held, but I hope to see candidates in every constituency advocating as far as possible, the following principles:

"Entire separation of Dominion and Provincial politics.

"Determined resistance to any interference by either Dominion political party in Provincial concerns."

"Full Provincial rights for Province. The educational clauses of the autonomy bills impose restrictions on the Province which in my opinion are a serious and unconstitutional invasion of Provincial rights. This question, with regard to which opposite opinions are held, should be settled by an appeal to the courts.

"The immediate transfer of the burden of the railways exemption, from the shoulders of the people of Saskatchewan to the shoulders of the people of the whole Dominion for whose benefit the Canadian Pacific Railway was undertaken.

"The immediate transfer of all lands still held by the Crown, for railway and other corporations, so that they may bear their fair share of taxation."

"The work of legislation and administration is never at an end, and I can refer to the general policy and methods of the North-West Government, as the best indication of my policy for the future. A policy of gradual development, ever pushing forward, but always keeping actual conditions in view, is one that should commend itself to the people of this country."

2,000 FARES NIGHTLY

Jackson Park Attendance Shows That the Street Railway People Are Keenly Alive.

Never in the history of this city, has any form of amusement received such enthusiastic and continued patronage, as the nightly exhibitions at Jackson Park.

Mr. J. H. Learmonth stated yesterday that the Radial Railway Company collect on an average 2,000 fares to Jackson Park each evening. The park has been a boon to those citizens who have not been able to escape the heat of the city by journeying to Stony Lake, or Chemong, or other popular summer resorts.

Some Good People

still follow antiquated methods of raising cake, biscuit, bread and pastry with home-made mixtures of what they suppose to be cream of tartar and soda.

They do not know that these articles as now sold in the groceries are almost anything else but cream of tartar and soda.

The best housekeepers use the Royal Baking Powder instead. Its scientific composition insures uniform results. Only by its use can the finest flavored, most wholesome cake, biscuit and pastry be produced. To any housekeeper who has not used the Royal Baking Powder we would like to send our Cook Book, free. Mark your request "For instruction."

ROYAL BAKING POWDER CO., NEW YORK.

Diseases of Women

OFTEN DUE TO

Deranged Kidneys

When the Kidneys Are Weak, It is Impossible for Any Women to be Happy or Healthy

If the girls and women who are silently suffering with what they suppose is "female trouble," would look to their kidneys they would soon find the source of their ill-health.

The kidneys are very closely allied with the female organs and if the vitality of the kidneys is in any way impaired, great suffering is sure to occur.

No better medicine is known for the kidneys than Dr. Hamilton's Pills of Mandrake and Buttermilk; they stimulate and strengthen the kidneys, and thereby assist the other organs to do nature's work. Instant benefit and certain cure are guaranteed in every case.

Sufferer, don't wait, begin treatment with Dr. Hamilton's Pills at once; they will cure you as they did Mrs. A. B. Coburn, a well-known resident of the town of Portland. Read her experience:

"For two years past I have been sickly and weak. My color was dull and sallow, and I felt exhausted and weary, as if all my strength were being eaten up with some hidden trouble. I heard of Dr. Hamilton's Pills and decided to use them. The change in a few days was surprising. They regulated my kidneys and bowels and cured all my suffering; to-day I am perfectly well."

Every woman can take Dr. Hamilton's Pills with safety and benefit. Their occasional use keeps the system in healthy, well regulated order. No medicine more gentle or more prompt in results. Now is the time to get Dr. Hamilton's Pills. 25c. per box or five boxes for $1, at all dealers, or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterboro are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year strictly in advance.

RUSSIA AND WORLD-OPINION

It will be a cold day when American sympathy goes out to any mere game of bluff played by the Russians, and if Russia's only object at Portsmouth is to play to an American gallery it may as well fold up its theatrical vestments and hie back home to the more serious game of war. A bona fide and straightforward effort on the part of both belligerents to negotiate peace is what the public opinion of not only this country but the world demands. Universal prejudice would be against either country which attempted to impose unreasonable terms. Genuine universal sympathy would go out to the whipped country if the victor showed an unbending exorbitance. Were Japan discovered to be wholly unjust its course would be intolerable.

On the other hand, Russia cannot surely expect to buy peace for nothing beyond what Japan has already in possession. If Japan were content with what it has already gained in the way of ports, possessions, railways, control and enhanced influence it could very comfortably end the war on its own account. To the victor belong the spoils, and Russia must recognize the principle.

Japan palpably has left room for compromise in making its demands. Yet, as they stand, they are not out of reason. They are of such a character as to impress upon Russia the necessity of making a reasonable fair counter-proposition. Russia cannot, with the world's approval, stop with submitting to the demands which are inevitable and a matter of course and denying all others. Peace or war, Russia has lost irrevocably some of the possessions which Japan proposes to retain. If Russia would reasonably negotiate for peace it must compromise as to other considerations.

Russia is apparently willing to yield up the spoils of war already won, but beyond that its attitude, at this time of writing, seems to be a Pickwickian plea for sympathy on the ground that Japan is cruelly unjust. Russian diplomacy never made a straightforward move in its history. In the present case it has shrewdly attempted to use publicity as a club to hammer down Japanese demands and to "work" the sympathy "racket" even before the demands were communicated. Indeed, the general bearing of Russia has suggested rather poignantly that it was not animated at Portsmouth by a genuine purpose to effect peace, but was taking advantage of the opportunity to play some melodramatic world-politics and especially to cultivate sympathy.

An insincere exhibition, a characteristic exhibition, of Russian diplomacy will disgust the world, and if Russia emerges from the Portsmouth parleys to resume the war, having given evidence of bad faith and unreasonable obstinacy, she will be vastly the loser both in world-esteem and in the ultimate settlement with Japan, when public opinion must inevitably be with the victor.

The world desires peace, but not at the expense of justice. Russia must pay a just price for peace or take the consequences.

TRAVEL ON HORSEBACK

Westerner and His Wife Cross Continent in Novel Way

London, Ont., Aug. 18.—Mr. and Mrs. H. S. Perley of Calgary passed through the city yesterday on their way east. Mr. Perley, who was clothed in buckskins, was provided with sidearms, and carried a Winchester slung from the saddle. Spurs, lasso, and other paraphernalia of the cowboy were visible. Mr. Perley rode astride and wore a dark suit. They had four broncbos, two of which they rode, the others being used as pack horses, and they carried a complete camping outfit. Mr. and Mrs. Perley left on June 1 on their way across the continent on horseback. They stopped a week or so in Winnipeg and then rode to Fort William, taking the boat there, and coming as far as Sarnia, reaching here this morning. Mr. Perley left for Hamilton, going thence to Toronto and on to Ottawa.

10 QUIT AMATEUR HOCKEY

Forrester of Barrie and Thessalon Has Decided to Play With Professionals

Toronto, Aug. 18.—"Grindy" Forrester, the well-known hockeyist, formerly of Barrie, last year with Thessalon, is in the city to-day on his way home after a month's holiday in the big towns.

Forrester is a natural-born hockey player, and his great wrist shooting made him the terror of all goal keepers in the O.H.A. He is big, fast and shifty, and well able to take care of himself.

"Grindy" says he doesn't get enough hockey in Thessalon and has decided to accept one of many offers received to play in the international Professional League. He will make his debut as a pro. this coming winter, and his friends know that he will be able to deliver the goods all right.

CAUSE OF HAY FEVER

Hyomei the Only Cure—Gives Change of Climate in Your Own Home.

Fifty years ago hay fever had not been named, but undoubtedly people suffered then as now with sneezing, watery eyes, excessive running at the nose.

The direct causes appear to be heat dust, and the pollen of flowers, and the only treatment that physicians recommended prior to the discovery of Hyomei, was a change of climate.

Now by using Hyomei you can save an expensive trip to the mountains, and escape weeks of suffering. This remarkable treatment kills the germs of the disease and soothes and heals the irritated mucous membrane. It really gives you in your own home a change of climate, and hay fever sufferers know from past experience that this is the only thing that has afforded them relief. By breathing Hyomei a few times daily you can save the expense of a trip to the mountains and avoid the dangerous hay fever.

The complete Hyomei outfit costs but $1, extra bottles, 50 cents, and consists of a neat pocket inhaler, through which Hyomei is breathed and which will last a life-time, a medicine dropper and a bottle of Hyomei. Wm Madill offers to refund the money if Hyomei does not do all that is claimed for it.

CHALLENGE FOR MINTO CUP

Western Canada Lacrosse Association Want Games With the Shamrocks of Montreal

Winnipeg, Aug. 18.—Secretary Treleaven of the Western Canada Lacrosse Association, to-day sent a challenge to Mr. P. D. Ross, one of the Minto Cup trustees, asking dates on behalf of the club winning the senior championship of the league.

The Minto Cup, emblematic of the world's lacrosse championship, is held by the Montreal Shamrocks, who have held it since first donated by the late Governor-General.

A Hamilton Arrest

Hamilton, Aug. 17.—The police today locked up James Russell, who is said to be one of the most notorious thieves in Canada. Russell is accused of attempting to hold up Thomas Barnes, a wealthy contractor, last October. Barnes was driving over the Mountain with $500 to pay his men, when a man pointed a revolver and ordered him to throw his hands up. Barnes made his escape.

To Sell the Intercolonial

Ottawa, Aug. 17.—The Dominion Government it is learned on high authority is seriously considering the advisability of disposing of the Intercolonial Railway. The Government, it is further learned, has several offers under consideration for the railway.

Occupation of Kamtschatka

London, Aug. 18.—The Daily Telegraph's Tokio correspondent says that the occupation of Kamtschatka will shortly be announced. The garrison there is one battalion.

THE MANAGEMENT

THE MONARCH LIFE ASSURANCE COMPANY made its debut under the immediate supervision and personal management of T. MARSHALL OSTROM, who may be termed the founder of the enterprise and the originator of the copyrighted policies now owned by the Company. Mr. Ostrom was unanimously chosen by the directors to fill the important position as Managing Director of the Company. It is he who has been indefatigable in his endeavors, and has put forth such splendid efforts in bringing the Company to its present prosperous condition. Mr. Ostrom, although the youngest Insurance Managing Director, has a thorough acquaintance with the intricacies of the management of life insurance business, which eminently fits him for his present position. He has no superior as a personal producer, and few equals in the organization and handling of the agents. He combines in a remarkable degree the faculty of taking hold of inexperienced agents and educating them to the art of the profession. His practical knowledge of all the details of life insurance business in every way fits him for the task of the building up into a successful life a new corporation.

In accepting the office Mr. Ostrom has undertaken a proposition of which he is most familiar, and the directors in appointing him concluded that "new times demand new methods and new men." Under this management, assisted by the capable Board of Directors, composed entirely of practical business men who have risen to their present positions solely by their own integrity, and a safe and progressive policy on conservative basis with all modern safeguards will be exercised to the interests of all concerned, and the ultimate placing of the Monarch Life Assurance Company with its especially attractive copyrighted policies as first in the list of Dominion's financial institutions.

INCORPORATION

THE MONARCH LIFE ASSURANCE COMPANY was incorporated by Special Act of Parliament of the Dominion of Canada. This Act became law on the 19th day of July, 1904. The Company is incorporated with a capital stock of $2,000,000, divided into 20,000,000 shares of 1000 each.

ORGANIZATION

Under the Act of incorporation the Company was permitted to organize as soon as $250,000 of the capital stock was subscribed for and $25,000 paid in thereon. This having been accomplished the Provisional Directors accordingly on December 7th, 1904, called a general meeting of shareholders, at which they elected a Board of Directors for the Company. It is stipulated in the Act that the Company must sell six thousand shares of the capital stock before it can commence to write insurance. Other companies under their Acts only had to have $250,000 subscribed.

THE COMPANY'S HEAD OFFICE

The Directors have secured for the Company a most convenient Head Office, situated on the ground floor in the Queen City Chambers, 32 Church Street, and are most advantageously fitted for the special needs and requirements of the Company.

BOARD OF DIRECTORS

The success of a Life Insurance Company depends upon the management. It not only requires experience but men especially adapted for the business.

The Directors of the Monarch Life Assurance Company are gentlemen who are known for their integrity and sterling business ability, and for their high standing in the financial, commercial, professional, and political life of this country. The Directors are men who by their own energy and industry in life have been successful, and their names are convincing of the Company's success. They are in close touch with the management and administration of the Company's affairs, as they, each and every one, have bought and paid for a large portion of the capital stock and consequently have a deep interest and are most anxious to build up a strong institution, such as the word "Monarch" implies—supremacy and great strength.

SUBSCRIPTION FOR CAPITAL STOCK

The authorized Capital Stock of the Monarch Life Assurance Company is $2,000,000 divided into 20,000 shares of $100 each.

The capital stock already subscribed for and that at a premium is 3,500 shares amounting to $350,000 par value.

The Company now being in a strong position the Directors have decided to offer to the public for subscription another block of 6,500 of the capital stock at a premium of $25 per share. Every share subscribed for by the general public and the management has been taken at a premium and the fund created by the premium on the stock is for the sole purpose of strengthening the financial standing of the Company. The Monarch Life Assurance Company therefore by these commendable means will commence business with its subscribed capital intact, and a substantial surplus on hand for the foundation of a strong and prosperous Company.

THE COST OF CAPITAL STOCK

The following table shows the amount payable to the Company upon their first call at a premium of $25 per share.

The first call of $35 per share.

In recent years life insurance companies commencing business have sold their stock at a premium of 25 per cent. to prevent impairment of the capital at the outset, making each share $125.00 or to sell at a premium of 25 per cent.; the directors of this Company have adopted the same wise course. The Monarch Life Assurance Company makes a call of $35.00 per share on the amount subscribed, $15.00 ($5.00 on account of stock and $10.00 on account of premium) being payable with application and $15.00 ($5.00 on account of stock and $10 of premium) payable in two months thereafter; and $5.00 on account of premium payable twelve months from date of application.

CONDITIONS OF INVESTMENT

Investors are reminded that the capital stock of established Canadian, English, or American Life insurance companies can be obtained only by paying large premiums for the same, and that the most favorable time therefore to invest in life insurance stock is when it reaches the advanced state of that enjoyed by The Monarch Life Assurance Company. No better or safer investment has ever been offered to the Canadian capitalists. Under our sound Canadian insurance law failure is impossible with a life company, not one single failure of a reglar life company established on the lines of the Monarch Life Assurance Company has ever occurred in Canada.

The Directors reserve the right to allot subscriptions for such amount as they may approve, and in such localities as they may select, and to close the subscription books at any time without notice. Advanced payments upon stock refused or over subscribed will be immediately refunded by the Company.

COPYRIGHTED PLANS

The advantages of The Monarch Life Assurance Company over all other life companies will be superior in every way. The Monarch Life Assurance Company own the copyrighted policies, viz.:

1—T. Marshall Ostrom's Life Option and Endowment policy, comprising five plans; you pay a life rate and the policy matures as an endowment.

2—T. Marshall Ostrom's House Endowment system, comprising five plans; if you own a lot and wish to build a home you can insure your life and have the money advanced to you to enable you to build, the rent saved will pay your insurance premium, and if you outlive the endowment period the house is yours, in case of death the house forms part of your estate, free from all encumbrances; policies mature in 5, 10, 15, 20, 25 years.

3—T. Marshall Ostrom's Endowment Real Estate Purchase System maturing 10, 15, and 20 years.

4—T. Marshall Ostrom's House Option.

5—T. Marshall Ostrom's Endowment Robinhood Club Plan.

6—T. Marshall Ostrom's Gold Bond System comprising several plans.

Consequently the Monarch Life Assurance Company is destined to meet with unparalleled success as these policies are original and up-to-date, and are what the public have been requiring for years. Besides the above plans the Monarch Life Assurance Company will offer to the public policies similar to those issued by all leading insurance companies.

All payments must be made by cheque, draft, post-office order payable to the order of the MONARCH LIFE ASSURANCE COMPANY.

NOTICE—Address all correspondence to

T. MARSHALL OSTROM, Managing Director,

DISTRICT NEWS

KEENE.

The Sons of Rest met in their park on Saturday night last. The attendance was much larger than usual. Minney Wale opened the meeting at the usual hour. He then rose to his feet with fire in his eyes and addressed the brethren as follows;

Brethren, it affords me much pleasure to see such a large meeting to-night, but if I must confess that I feel ashamed of some of the brethren for the manner in which they have conducted themselves of late. It is my intention to-night to fetch a few of you to your senses and don't you forget it. With these few intimations I will now take my seat and leave the meeting open for business.

Prospector Wood rose to his feet, and exposed a parcel which he claimed was an Indian relic of some kind, which he picked up on Sugar Island. He intimated that he was under the impression that it was a meal stone or mortar, used by Indians long ago. Hosier Roach asked him to let him examine it. Hosier looked at it, then he licked it, and exclaimed, "Oh, you donkey, it is a chink of rock salt that Mr. English placed there for his cattle to lick." The president fined Wood fifty dollars for robbing the cattle of salt. Wood paid his fine and made a sneak out of the park.

Gingerale Kenealy laid a charge against Poney Moore for giving a false report. He said that Poney reported around the village last Sunday that a man was drowning in the river and it was only Ted Mulcahey practising hymns on Sandy's Landing. Poney was fined $100.

Brassspollisher Johnson lodged a complaint against Fady Wedlock for striking Fighting Archy on the head with a stone, inflicting an ugly gash. The president imposed a fine of $300 and warned Fady to be more careful in the future, or he would put him where the dogs wouldn't bark at him.

Positive Legget rose to his feet and said he had a charge to make against Waxy McFarlane. He said that Waxy walked to Lakefield and picked several pails of huckleberries. He was fined $30.14, to be paid in less time than he could put patch on a boot.

Tom Decackey, county organizer, then rose and informed the brethren that he was very successful in organizing lodges. He started one in Warsaw, with a membership of two hundred and one in Consekong, with a membership of one hundred, and was about organizing one at Mather's Corners.

Fatty Drummond laid a charge against Yanky Mach. He said that he put a frog in his boot, and a bumble bee in his hat, which made it rather interesting for him for a few minutes. The president said that he did not sympathize with him, as he understood that he had tied a fire cracker to a dog's tail and then lit it to see the dog run.

Wolf Howson asked the president to close the meeting, as the town clock had struck twelve. The president then asked Squire Scriver and Banker Lundy to sing the closing ode. They sang until the president closed his eyes and grunted out "Amen." The meeting was then declared closed until next Saturday night.

God Save the King.

Chandos Council

Met at Caldwell's School House, Aug. 15th, 1905. Members all present. Reeve John Hales in the chair.

Minutes of Court of Revision and Council meeting read and signed.

Moved by G. A. Bullied, seconded by J. Trotter,—That all taxes for 1905 must be paid on or before the first day of February, 1906, and that this resolution be put in by-law No. 86.—Carried.

Moved by Geo. Campbell, seconded by J. Bullied,—That By-laws Nos. 86, 87, 89, pass their third reading and be signed by the reeve and clerk.—Carried.

Moved by Geo. A. Bullied, seconded by J. Bullied,—That Geo. Campbell be appointed to examine boundary hill on Aug. 29th, at 2 o'clock. To let a job if necessary not to exceed $10.—Carried.

Moved by Geo. Campbell, seconded by J. Bullied,—That John Trotter be appointed to examine Formerby Hill. To let a job if necessary, not to exceed $10.—Carried.

Moved by Geo. A. Bullied, seconded by J. Trotter,—That the clerk be authorized to notify S. L. Purdy if his trespass is not paid in one week from date the reeve will put it in the court's hands for collection.—Carried.

Moved by Geo. Campbell, seconded by G. A Bullied,—That Fred Bullied be appointed Collector of Taxes, under By-law 88.

Moved by J. Trotter, seconded by J. Bullied,—That By-law 88 be read the third time and passed.

Moved by G. A. Bullied, seconded by J. Trotter,—That the following orders be paid;

James Trotter, cedar culvert, $2.50; Thomas Mahoney, rebate taxes, $2.18; Walter Hawley, non-resident statute labor, $6.00; Wm. Bullied, putting in crossing, $10.00; Wm. James, Mrs. Tumbelton Board, $10.00; Geo Winters, measuring stumps in Purdy's trespas $1.50; Eph. Phillips, Gilmore statute labor, 1904, $1.00; Geo. Robinson, non-resident statute labor, $2.00; A Whitmore, rebate statute labor, $3.00; Jas J. Scott, rebate statute labor, $2.00; J. G. McFadden, rebate Bruce Coon's taxes $5.00; J. G. McFadden, rebate Thomas Kelly's taxes, $3.13; Henry Robinson, repairs Doxsee Bridge, $2.50; Spencer Russell, work on road division, $6.00.

TRADERS AND OUR TARIFF

Suggestion Made That They Should Present Their Views to Our Ministry

London, Aug. 17. — Edward Porritt, who recently toured Canada as a special correspondent of Commercial Intelligence deals with the approaching sessions of the Dominion Tariff Commission. He suggests that without delay the Associated Chamber of Commerce and the numerous chambers of the manufacturing centers of Great Britain should organize a movement for securing hearings before the Tariff Commission when in session. "I am aware," says Mr. Porritt, "that the suggestion may seem a bold one, and that it savors of interference on the part of the part of the manufacturers of Great Britain with the fiscal and commercial policy of Canada. But Canada herself has quite recently set a precedent which at once puts this aside."

PERFORMING BEARS

Norris & Rowe's Circus Contains a Troupe of Fierce Siberian Trained Bears

In the Norris & Rowe collection of trained wild animals they are exhibiting this year in their greater circus is a troupe of trained Siberian bears. Animal trainers can testify to the fact of the Siberian bears being the fiercest, largest, most blood-thirsty and intractable of all the bear tribe. It is not so very long ago that animal trainers refused to even attempt to subdue the Siberian bear and as they are the most costly of all bears, circus owners would not purchase any. Hartel, the celebrated animal importer of New York was fortunate enough to secure a troupe of magnificent specimens of these fierce brutes, but could not find a purchaser on account of the great price necessary and the unwillingness of professional trainers to handle them. However, Messrs Norris & Rowe heard of Bartel's lucky purchase and determined to acquire the bears. Clarence Norris went to New York and purchased the brutes as soon as he saw them. Bringing them to the winter quarters of the show, he set about their education. It was a long, laborious undertaking, but he finally succeeded in training them to waltz, to box, to wrestle, to play see-saw with blood hounds, to lay on their backs and juggle barrels and pyramids, to ride bicycles and to dine at the table with him. The teaching of these bears to accomplish their sensational feats is considered to be the very zenith of wild animal training. The bears are securely muzzled at every performance, so no harm can come to the audience. This season the Norris & Rowe Greater Circus is giving a gigantic display of artistic, aerial, terrestial achievements zoological exhibits and hippodromic triumphs. The fourth biggest circus in the entire world will exhibit at Peterboro, Saturday, August 26th.

THE SUCCESSFUL WAY

New Mining Proposition That Practically Ensures Success to Shareholders.

In these times so redolent with "get rich quick" schemes, there are many mining propositions offered the public, some of which do return a golden harvest to investors and shareholders, but many more that, although based on seemingly reliable information and auriferous properties, result in loss. The majority of mining propositions now-a-days so widely advertised, many of which are genuine, are based on the result of chance. Money is wanted to develop apparently good claims; the property may prove rich beyond anticipation or, on the other hand, it may turn out barren of results.

The Kramer Gold Mining Co., with headquarters at Monte Vista, Colo., now own some rich and already partially developed claims which show grand returns in gold. Their future, and it is assured beyond a doubt, wealth lies in the conservative system they have inAnimal trainers can testify to the fact augurated, viz., to lease ore-producing properties, with the privilege of purchase if so desired by the company. Many prospectors who own valuable claims they are unable to develop for jure the owner's title, readily consent to lease to a company with large capital on percentage of results. Millions may be taken out of a leased claim in a short time, and should the ore give out, those leasing it are so much ahead and have not sunk a large amount of capital in buying the claim.

The Kramer Gold Mining Co. have appointed the Peterboro Brokerage Co as their local representatives and have authorized them to sell for a limited time only, a block of shares, par value $1, at 25 cents per share, in quantities of not less than 100 shares to each purchaser.

BISLEY SHOOTING ON A WRONG BASIS

King's Prize Winner Might Be Useless on a Battle Field

London, Aug. 17.—Walter Winans, in the World, giving his views on rifle shooting at Bisley, says;

"The system of shooting is all wrong. It is absolutely contrary to the conditions of warfare. The Bisley champion is almost more useless at the front than the man who never before handled a rifle. Shooting at a big stationary target at long range is the worst possible training. The Bisley man lies under the most artificial conditions. He lies down on his stomach, rests his elbow on the ground, and a baby could do that."

Interviewed on Winan's article, Sergeant Comber, the King's Prize winner, was asked if he thought of shooting at Bisley.

"To artificial," he replied, "certainly some of it is. For instance, the wearing of orthoptic glasses in the last stage of the King's match. Ninety per cent. of the men wear them, but you do not use such in war. I have suggested to the National Rifle Association that they be prohibited.

RUSSO-AMERICAN RELATIONS GAIN

Heavy Orders for Manufactures From U. S. Have Been Arranged For

WHAT FAILURE MEANS

Russian Official States That Interior Reforms Will be Hastened Thereby

St. Petersburg, Aug. 17.—According to Russian official opinion, while Japan' overbearing attitude, and the heavy terms which she seek to impose on Russia, render peace impossible, the conference will be highly useful to the world as proving Russian sincerity and Japanese rapacity. America's disinterestedness and fairness are recognized by all. Russo-American relations have gained greatly by the conference. Already arrangements are under way for many heavy orders of American manufacturers, and large railway loans are being arranged in the United States. Count Ignatieff, who is not only one of Russia's famous statesmen, but who has taken the deepest interest in the present state of the country, said today "Failure of the negotiations at Portsmouth will hasten interior reforms. In discussing the Bouligan project at the conference at Peterhof, I told the Czar, 'I am your faithful servant; therefore, I warn your Majesty that the trip which I have just made through the Empire has convinced me that procrastination and juggling in regard to the granting of a constitution threatens the existence of the house of Romanoff.'

"The Czar became pale at my words and rose from his seat. Then he quietly ordered that the discussion be continued.

"Nobody is against the plan of popular representation in the national assembly, but only a majority of the council insists that it be unrestricted and democratic. The delay is actually caused by technical difficulties. M. Bouligan is to leave the Ministry of the Interior and devote himself to the origin of the National Assembly. General Trepoff will become Minister in his stead, and will be succeeded by General Klergels as Governor of St. Petersburg."

REVIVES DURING AUTOPSY

A Supposed Corpse Suddenly Returns to Life

Des Moines, Ia., Aug. 17.—Louis Viel surprised several physicians and nurses at Mercy hospital by suddenly regaining life. Shortly after post mortem on him began Dr. Conklin happened to take hold of the supposed dead man's heart and pinch it slightly. Almost instantly the organ began to throb at a natural rate.

The incisions made were quickly closed. Viel regained consciousness a few hours later and will soon be able to leave the hospital.

VENEZUELA BUYING GUNS

Government Places $1,000,000 Order With French Company

Caracas, Venezuela, Aug. 17.—The government has signed a $1,000,000 contract with the Schneider Company of Creusot, France, for eight batteries of 75 millimeter campaign guns and four batteries of mountain guns of the same caliber.

SEALED TENDERS addressed to the undersigned, and marked on the envelope "Tenders for Island No. 24," will be received until Monday, the 21st day of August next, at noon, for the purchase of an Island in the Township of Smith County of Peterborough and Province of Ontario, comprising an area of 81.25 acres and known as Salmon Trout Island, No. 24.

The tenderers should state the amount they are willing to pay in cash for this island and an accepted cheque for ten per cent of the amount tendered should accompany each tender, which the successful tenderer in the event of failure to complete the purchase within one month from the date of the award shall forfeit to the Department.

The highest or any Tender, will not necessarily be accepted, and the unauthorized insertion of this advertisement in any newspaper will not be paid for.

AMALGAMATION IN THE DRUG TRADE

Twelve Houses Said to Have Entered Into a Combination

CAPITALIZED AT $6,000,000.

Montreal Houses Say They Have Not Been Approached of Late Regarding it

Montreal, Aug. 18.—The amalgamation of at least a portion of the wholesale drug interests of Canada is said to be on foot, though so far the large wholesalers of Montreal have not been approached on the subject.

From St. John, N.B., comes the information that a combination of twelve of the wholesale drug houses is in the course of formation, that the capital stock is to be $6,000,000, and that Montreal is to be the corporation's headquarters.

When canvassed today the various wholesale druggists of the city stated that, while some such move had been attempted in the past, nothing had come out of it, and as for the present proposal they knew nothing concerning it.

Mr. W. S. Kerry, of Kerry, Watson and Company, stated to-day that his firm had been approached many months ago on the subject, but nothing ever came of it, and since that time he had not been informed of any further development.

Mr. Henry Miles, of Leeming, Miles and Company, also said that he had heard nothing of the alleged amalgamation.

A prominent wholesale druggist, in discussing the situation, stated that the present status of the wholesale drug trade in Canada was very unsatisfactory indeed, and he was of the opinion that the average wholesaler, great or small, was making very little money. The travellers of the various houses were covering the same territory, selling goods at large expense, and often cutting prices to secure trade.

An amalgamation would be an excellent thing, but he doubted very much if the various elements would assimilate. It had been tried before, and had failed.

Asked as to the number of wholesale drug houses in Canada, this gentlemen stated that there were about 35, and of this number 22 could be called important. They were distributed as follows:—

Maritime Provinces, four.
Montreal, four.
Quebec, two.
Toronto, three.
Hamilton, two.
Winnipeg, three.
London, one.
Kingston, one.
Victoria, one.
Vancouver, one.

In the present movement Mr. D. W. Bole, M.P., of Winnipeg, president of the Wholesale Druggists' Association, is said to be prominently identified.

MR. SCHWAB GOES TO EUROPE

Will Try to Close Armor Plate Contract With Russia

Braddock, Pa., Aug. 17.—Charles M. Schwab, while in Braddock yesterday to attend the funeral of Mr. T. M. Wagner, told his friends that he would sail for Europe on Tuesday, and would visit Mr. Andrew Carnegie, at Skibo Castle. Mr. Schwab will take with him some engineers, and he is going abroad for the purpose of closing his armor plate deal with Russia. The fact that he is to call on Mr. Carnegie has given rise to a report that the Carnegie armor plate plant is to do a great deal of Russian armor plate work. One of the biggest contracts in years is expected.

CLAIMS HE WAS KIDNAPPED

The Case Has Now Become an International Affair

Brockville, Ont., Aug. 17.—Wm. Harris, of Ogdensburg, was arrested on May 18th for illegal fishing, and is now serving a four months' sentence in St. Lawrence county gaol for violating the game laws. He complains that he was arrested on Canadian soil and forcibly taken to the other side. His protest that he was illegally deprived of his liberty by being kidnapped in Canada was submitted to the Canadian Secretary of State. He transmitted the complaint to the Governor-General, who in turn fyled the protest with the British Ambassador at Washington. He called on the Secretary of State of the United States, and that officer submitted the matter to Governor Higgins.

Commissioner Whipple was called upon for an explanation, and through him the protest came back to Game Inspector Hazen, at Ogdensburg, who made the arrest. Hazen claims Harris returned voluntarily, but whether he did or no' he is likely to finish his sentence before the red tape is unwound.

Where Canada Comes In

Montreal, Aug. 18.—The Canadian Pacific Railway has received a cable message from Hong Kong which shows where the Chinese boycott of United States produce, may be a disguised blessing for Canada. There has been a large amount of United States flour shipped to China and the cable says that in consequence of the boycott there is active enquiry being made about Canadian flour to take the place of that formerly used. It looks as though a large and profitable market had suddenly opened up for Canadian millers.

The Canadian Northwest

HOMESTEAD REGULATIONS

Any even numbered section of Dominion Lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler is entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 40 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive at the Immigration Offices in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

How to Visit Colorado

Go first to Denver. It is the State capital, as well as the largest, wealthiest and most metropolitan city between the Missouri River and the Pacific Coast. The city itself is very interesting, and from it start practically all the trains over the various roads into the mountains.

Many of the most enjoyable one-day trips in Colorado begin and end at Denver. The cost of these little journeys is not great.

After you have familiarized yourself with Denver and its surroundings will be soon enough to decide where to go for the rest of your visit. The question must be considered from several standpoints—altitude, hotel accommodations, accessibility, amusements, etc.

Our Colorado literature will help you in deciding where to go and what to do. Sent free for the asking.

Need a Change?

—and a Rest?

Undoubtedly you do—you may not be completely "down and out" but the chances are you need some rest and recreation. Go to Colorado for an outing—and go soon! The mountain air beats medicine—'twill set you right!

New service via Rock Island System—electric lights, electric fans. Three daily trains from Chicago, one from St. Louis, two from Kansas City. Through daily sleeping car from Memphis. Low rates all summer long—specially reduced on certain dates.

Only Rock Island trains run direct to Denver as well as to Colorado Springs and Pueblo. You don't have to go to Denver to reach the Springs—unless you want to.

Better send this coupon and plan to go.

BLOOD DISEASES

If you inherited or contracted any Blood Disease you are never safe unless the virus or poison has been eradicated from the system. At times you see alarming symptoms, but live in hopes no serious results will follow. Have you any of the following symptoms? Sore throat, ulcers on the tongue or in the mouth, hair falling out, aching pains, itchiness of the skin, sores or blotches on the body, eyes red and smart, dyspeptic stomach, sexual weakness—enlarged glands. Don't trust to luck. Don't ruin your system with the old fogy treatment—mercury, potash and patent medicines, which suppress the symptoms for a time only to break out again when happy in domestic life. Don't let quacks experiment on you. Our NEW METHOD TREATMENT is guaranteed to cure you. OUR GUARANTEES ARE BACKED BY BANK BONDS that the Blood or Skin disease will never return. Thousands of patients have been already cured by our NEW METHOD TREATMENT for over 30 years, and no return of the disease. No experiment, no risk—not a "patch up," but a positive cure. The worst cases solicited.

W. H. Patterson NO NAMES USED WITHOUT WRITTEN CONSENT. W. H. Patterson

HAD BLOOD POISON 12 YEARS

The New Method Treatment Cured Him after Drugs, Mercury, Hot Springs, &c., all failed.

Before Treatment After Treatment

Wm. H. Patterson, of Saginaw, Mich., relates his experience: "I do not like notoriety and especially of this kind, but I feel I owe this much to Drs. K. & K. for the great good they have done me. I had a carbuncle and other symptoms gradually developed. Pimples and ulcers formed, running sores broke out, hair became loose, pains in the bones and joints, dyspeptic stomach, foul breath, itchy skin, etc. It is needless for me to say I visited doctors till I grew tired. Their looks and promises only left me four months each time. It helped me temporarily, but in six months after returning home I was as bad as ever. Finally a Doctor friend of mine advised me to see Drs. Kennedy & Kergan. He said he had known of them for over 20 years, and as they made a specialty of these diseases and treated the worst cases by the hundred they ought to be expert in curing them. I was afraid of advertising doctors, but I took his advice. They agreed to treat me under a guarantee so to pay, investigated their financial standing and found they were perfectly responsible, so I commenced the new method Treatment. The eruptions disappeared in five weeks, the bone pains in four weeks and in four months I was entirely cured. Yes, sir, I can recommend the New Method Treatment for Blood and Skin Diseases."

CURES GUARANTEED OR NO PAY.

The Glenara Gold Mining Co.

Capitalization, 1,500,000 Shares — Stock Fully Paid and Non-Assessable

Par Value, $1.00 Per Share. — Treasury Stock, 700,000 Shares.

This Company was organized in March, 1906, under the laws of Arizona, with a capital of 1,500,000 shares. The par value of these shares is $1.00 each. They are full paid and forever non-assessable. The Company owns approximately seventy-five acres of territory in the Goldfield district. By reference to the map you will note that every acre is within the producing area, and with the systematic development this large acreage is to receive, there is no doubt that the stockholders will very shortly see the Company on a producing basis.

We desire to say right here that this Company is organized for legitimate mining, and not stock jobbing purposes, and among the directors are some of the best known mining men in the West. It is their one desire to make the GLENARA GOLD MINING COMPANY a great success at the earliest possible moment.

It is for the purpose of raising funds to vigorously develop the Company's holdings that some Treasury stock is now offered for public subscription. Out of a capitalization of 1,500,000 shares, 700,000 shares have been placed in the treasury. This treasury reserve insures the company a large working fund, if needed. It is the belief of the management, however, that it will not be necessary to dispose of over 60,000 shares of the treasury stock. The present outlook is such that the management believe that the mine will be on a paying basis before many weeks have passed.

The Property of the Glenara Gold Mining Company Consists of the Following:

The Glenara Group consists of four claims located in the Goldfield mining district of Nye County, Nevada. These claims are known as the Kentucky Bell, Mabel M., Lone Jack and June Bug, covering about seventy-five acres. This group of claims is located on a system of ledges over a mile and a half in length and about half a mile wide. These ledges are the same as those traversing the Kendall, Tonopah Club, Vernal, Quartzite, Black Butte, New York, Brooklyn, Jumbo, Vernal, Penn and Federal.

The surface indications at the time of location were of the very best, however, good float being found upon the ground and good pannings are obtainable, all of which indicate that the property can be developed into a paying proposition. The ground has been thoroughly prospected and the sinking of the shaft begun on the Kentucky Bell claim. There is a force of men sinking a shaft as rapidly as possible. Good ore has been encountered running from $3 to $15 per ton, increasing in value with depth, and it is safe to say that a strike may be looked for any day.

Taken as a whole, the investment offered by the Glenara Gold Mining Company is equal to any prospective company in the district. The claims are exceptionally well located, covering a large area; the management is conservative and honest, and is working hard for the success of the company.

The proposition will stand the very closest investigation, and, in fact, an investigation by prospective investors WILL MEAN AN INVESTMENT. WE COURT INVESTIGATION.

The allotment of stock is very small, and if you desire to become interested with this enterprise, it will be necessary for you to communicate with us at once.

The work on the property is being pushed to the utmost, and any day may bring news of a strike which will advance the price of the stock.

For prospectus and full particulars, address

R. H. B. WARBURTON, Fiscal Agent,

Office, 522 McPhee Building. DENVER, COLORADO

APPEARANCE

Is such an important feature on the table. It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table.

St. Lawrence Extra Granulated Sugar

Is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

THE BEST YET!!!

We have given our clients some good things in mining stocks during the past two years, but we believe one of the best propositions we have ever handled is

DILLON OIL MINING & DEVELOPMENT CO'Y., OF CANEY, 'KANSAS

Call and get full particulars. Watch for description of this property in The Times.

FISCAL AGENTS, PETERBOROUGH.

WILL PAY JAPAN MILLIARD ROUBLES

Czar Said to Have Instructed M. Witte to go Thus Far

THE OUTLOOK NOT BRIGHT

The Permission That Reigns in St. Petersburg Does not Reign at Peterhof

St. Petersburg, Aug. 17.—The peace outlook is brightening. Opinion at Peterhof is not tinged with the prevailing pessimism of this city. It is understood that M. Witte will offer to pay a milliard of roubles $510,000,000, as war expenses, and grant Japan a lease of Sakuhlin Island. Count Lamsdorff is understood to believe that Baron Komura will accept these terms, as otherwise a portion of the powers would impose on the Japanese Government a less advantageous peace.

Portsmouth, N.H., Aug. 18.—Mr Alexandre Briantchaninoff, correspondent of the St. Petersburg Slovo, writing on the questions involved in the surrender of the Eastern Chinese Railway, which is being considered by the peace conference today, and also regarding the general question of the restoration of Chinese sovereignty in the province says:

"Notwithstanding the secrecy so strictly observed regarding the discussion of the peace conference, it is now known that the second article discussed concerned the question of returning Manchuria to China and that the article has been agreed upon. So it is understood that Manchuria is going to be restored under the charming administration of China. For fear of Russia's enlargement she has been prevented from completing her work of civilization in that province, where she spent millions of Russian roubles, retaining in return only unpleasant memories, and now they say that it is better to give Manchuria to nobody than to Russia, for to return Manchuria to China means to return that province China means to return that province to the state of barbarism. It is, however, asked if even the railway which cuts this province in two long portions and which should be an instrument of civilization and of development of her riches, will be abandoned to Chinese neglect.

With regard to the Harbin-Liao Tung Railway line the institution of a Chinese administration can be understood as this line has no strategic legitimate value except for China. But it is quite different with the line uniting Vladivostok to Russia, which it is impossible for the Muscovite empire, because of its strategic value, to make dependent upon a Chinese administration. Technical researches have shown the enormous difficulty of uniting Vladivostok and Port Arthur with Europe around the Amur. So the civilized world welcomed the division of Russia to build a railway through Manchuria. Russia made this immense effort which, considering the policy of an open door, will be of great and equal advantage to the commerce of the whole world. It is therefore just that Russia should have the material guaranty that that railway line should not run the least risk of being destroyed or cut by the brigands or that it should suffer in case of a misunderstanding with China. The commerce of the world will gain very much if Japan should be entrusted with the guarding of the southern railway line and Russia with the protection of the north line, mutually pledging themselves to follow the policy of the open door in the whole province."

RUSSIA SHOULD CEDE SAKHALIN

London, Aug. 19.—Dr. Morrison cabling to the Times from Portsmouth, says:

"It seems to me that the Japanese terms, so far as at present known, are, in the words of a high authority, quoted in a previous despatch, both reasonable and moderate. I venture to assert that in China itself they will be regarded as unexpectedly moderate. No reasonable man can contend that Russia is justified in terminating the negotiations because she refuses to recognize as a fait accompli, and declines to assent formally to, the the cession of an island which is now in Japanese military occupancy, and which was the unfinished possession of Japan so recently as October, 1905. The cession of Sakhalin Island is incompatible with the dignity of Russia, says M. Witte who appears to resent as a national humiliation the loss of an island which has since its occupation by Russia, in virtue of the treaty of May 7, 1875, been exclusively used as a dumping ground for the worst class of Russian criminals, and the most irreconcilable of Russian political offenders.

TO FAIL ON SATURDAY.

"Two more days' debate on the three contentious clauses, closing on Friday night, and on Saturday a 'sauve d'adieu,' such is the estimate given to me by one as competent as anybody to forecast this clouded future, "But," he added, "you must be two men in one before you can form any complete opinion. In other words you must know what is going on in the Russian mind, as well as in the Japanese mind. This morning was a surprise to at least one of the two. We thought we should easily finish' article seven before lunch, but we did not. It had been thought also that when we reached the most serious clause of all the divergence of views would be so flagrant that no long discussion would seem worth while. Now we do not know what to think. We understand that the Sakhalin Island clause has been laid definitely on the shelf, but who can say that our friends the enemy may not take it down? So do not be surprised if the conference breaks up on Friday, or even to-morrow, nor surprised if it lasts over into next week. I think the latter most improbable, but I think anything possible." Then after a pause, "Except an agreement."

MAY GET INSTRUCTIONS.

Speculations are rife on the chances of fresh instructions from Tokio or St. Petersburg. Neither Japanese nor Russian will admit that any important changes are likely on his own side.

Evidently there has been serious danger of rupture yesterday, especially yesterday afternoon, but that was averted, and the sittings resumed to-day at 9.30. My informant added; "We have not considered the eighth articles of the Japanese demands. We have accepted seven out of eight. The cession of Sakhalin we have not admitted, and we shall never accept."

HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & Co., Toledo, O.

We the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by their firm.

NICKEL AND COPPER

A Few Thousand Treasury Shares

Only are left to be sold before all offerings are WITHDRAWN FOR FIFTEEN MONTHS' TIME.

You can buy the few remaining shares now at $1 00, but fifteen months hence you will probably pay from $5.00 to $20 00 per share.

THERE IS NOTHING EXTRAORDINARY

In shares advancing as above stated in mining propositions, for it is an old story of phenomenal advances in mining shares, Granite Mountain going from ten cents to $75 per share, Calumet & Hecla from $1.00 to $900 00, and so on down the list.

CONSIDER FOR A MOMENT

What this company offers—It controls to-day an actual territory of nearly **Three thousand acres of land known to be immensely rich in nickel and copper ores, all in a district knows and proven to be sixth among the greatest copper districts in the world.** This company will control at least o thousand acres n ore. In all nearly five thousand acres, which will not be lined out in two hundred years

WE STAND READY TO PROVE

That this company offers to day the most meritorious mining proposition presented in ten years' time.

Write or call for full particulars. All shares registered by International Trust Company, Boston.

International Nickel and Copper Co., Ltd., Suite 93, Journal Building, Boston, Mass.

W K. HALL, Fiscal Agent, Peterborough.

"TONOPAH" HOME CONSOLIDATED

STOCK WILL ADVANCE

WHY?

Because it is shipping ore from its Alta mine. Are there many mines shipping ore? We guess not. Just compare the prices the stocks are selling at. If you invest, buy stock in a shipper.

From San Francisco, Wasp, July 22nd. W. K. HALL, Peterboro, Ont., has some of this stock for sale.

Yours very truly,

W. J. ARKELL & Co.

ADVERTISE IN THE TIMES

THE

Montgomery Mountain Mining Company

BULLFROG

promise to be one of the greatest producers yet discovered in the TONOPAH, GOLDFIELD BULLFROG DISTRICT.

This district records the greatest discovery of Gold that has ever been made in the history of mining

This Company is a legitimate Mining enterprise, managed by honest, capable mining men.

The property is on the Montgomery Mountain, adjoining the MONTGOMERY SHOSHONE mine, which has only been operated ten weeks and which is now

Shipping Ore that runs TWENTY-THREE HUNDRED DOLLARS to the Ton.

The Capital of the Company is $1,250,000, divided into 1,250,000 shares of a par value of $1.00 each fully paid and non-assessable, 300,000 shares of which are in the Treasury.

The Officers and Directors are

President and Treasurer, D. H. PERRY, Salt Lake City, formerly President of the Salt Lake Stock and Mining Exchange.

Vice President, Hon. JOHN SPARKS, Governor of Nevada.

Directors: D. F. BURLEY, General Passenger Agent, Ogden Short Line R. R., Salt Lake City; Hon. JOHN SPARKS, Governor of Nevada; E. E. EDWARDS, of the firm of Vermilyea, Edwards & Stanley, Attorneys-at-Law, Goldfield, Nevada.

The Company refers by permission to

McCormick & Co., Bankers, Salt Lake City; John S. Cook & Co., Goldfield, Nevada; Ormsby County Bank Carson City, Goldfield & Tonopah, Nevada.

We believe this property and its stock will have an advance that will be as sensational as was the Original Tonopah immediately after its development.

We can supply orders for a limited number of shares at 75 cents per share. This price expires July 10th, after which it will be raised. For information or stock apply to Thos Patterson & Co., Fiscal Agents, Peterborough, or.

YOU ARE AILING

Find the Cause for the Weakness and Nervous Dread That Overshadows Your Life.

You can't keep up forever.

Sooner or later Nature will rebel against the strain that is imposed on your overworked system. So far, will power and nerve may have tied you over, but the end is probably near at hand.

To-day the common complaint with weak men and women is lack of kidney vitality. Here you have the cause of your ill-health.

Wouldn't it be wise to use a time-tested remedy like Dr. Hamilton's Pills—they cure that "ailing" feeling in one night. Next morning you feel like new—bright, fresh and happy. Appetite improves, dull, sallow color grows ruddy and clear, proving that great good is being done by this scientific medicine.

Thus writes Mrs. D. F. Fowler, from Yarmouth: "I feel good to-day. Head heavy, my color was sallow, and there was quite a bad taste in my mouth. I had various pains all through my body, and an annoying headache as well.

"After one dose of Dr. Hamilton's Pills there was a decided change. I felt better my appetite returned, and that exhaustion and depression gradually left me. Life seemed brighter and happier after I used Dr. Hamilton's Pills, and strongly recommend such a good medicine."

Mrs. Fowler's letter is a message to you and all others in poor health. You can't do better than follow her advice. Dr. Hamilton's Pills you certainly need; then why not get them now and enjoy the abundant good health they are sure to bring you? Price 25c. per box, or five boxes for $1.00. At all dealers, or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

WM. PRINGLE

MOOSE JAW HOTEL.

At Moose Jaw, in the Canadian Northwest, at the junction of the Soo Pacific road with the main line of the C. P. R., is a modernly appointed hotel elegantly furnished and has fine sample rooms for the use of commercial guests without charge. For pamphlet let descriptive of hotels, how to reach them, dates and time tables, write to C. B. Foster, D.P.A., C.P.R., 71 Yonge Street, Toronto, Ont.

Hot Water for Jackson Park.

There were rumors on the street yesterday that the Street Railway Company, owing, in part to our representations as to the necessity for hot water in Jackson Park, are going to instal a system of supplying this much needed article. If so, the company will lose no money by their comparatively trifling expenditure, as public opinion will keep their act in mind.

Printers' Picnic To-day

This afternoon is the great annual outing of the local printers. They and their friends leave at 1.30, by the steamer Water Lily, over the lift lock to dam No. 5. It is anticipated there will be a large attendance, and it was thus that all present will have enjoyed the outing and have more fun than several barrels of monkeys.

Local Participant in Circus Parade

When the circus parade, a week from to-day passes along our streets, one of the most interesting features in the long line will be a well put on advertisement of Canada Fishes made in this city. A versatile local gentleman, who will draw the attention of every child along the route, has now on the way from New York a specially ordered and appropriately paraphrenalia and costume. Look and laugh.

Farriers to Meet in London.

Mr. R. H. McGill, Peterboro, provincial secretary and organizer of the Master Horse Shoers Association, is sending out notices to the effect that the fourth annual convention will be held on Labor Day, Sept. 4th, in the Sherwood Hall, Richmond St., London. This convention promises to be the largest and most successful ever held in the history of the Association. Business of great importance will be brought up, and preparations are in progress for a royal entertainment of the delegates.

Mad Hallucinations

Buffalo, N.Y., Aug. 19.— Thomas Quigley, a well-to-do Canadian of Hastings Ont., who wandered from his home to Olean, N.Y. several days ago and was locked up in that city on a charge of insanity, recovered his senses yesterday, and was given freedom. He will return to his Canadian home to-day. He was without money on his arrival in Olean, and is now at a loss to account for his recent wanderings. His relatives have sent him money. Quigley, it is alleged, had a delusion that his family was down a sewer.

Returned After 18 Years Absence

Yesterday The Times had a friendly call from Mr. David McIntosh, who is visiting friends in Warsaw, after an absence of 18 years in the State of Florida. Mr. McIntosh speaks very highly of the future of his adopted country, but still retains a warm spot in his affections for the old county and town of Peterboro. He will spend some weeks with his friends in Warsaw before returning to the land of sand, orange groves, and incidentally disastrous frosts.

Victoria Park Improvements.

Superintendent Henderson of the Water Works yesterday had a gang of men engaged in removing the hydrant for the foot of Victoria Park on Water street. The hydrant is one of the old-fashioned kind that were first used in Toronto and contains a double valve at the bottom of it, which as Mr. Henderson remarked "is as much use as two tails on a pig. The cut-off valve is also being changed and fitted with a metal box to prevent freezing, and also to allow the whole park system to be simultaneously emptied in the fall.

$10--First of the Season--$10

Four special seashore excursions from Suspension Bridge, Niagara Falls, to Atlantic City, Cape May, Ocean City or Sea Isle City, via Le High Valley Railroad, July 11, August 1 and 11, and Sept. 1. Tickets only $10 for the round trip. Good 15 days. All trains via Philadelphia. Tickets allow stop-over returning. Tickets good on regular express trains leaving Suspension Bridge at 2.50 and 7.15 a.m., 6.20 and 10.15 p.m. For tickets, Pullman berths and further particulars, apply Robt. S. Lewis, Canadian Passenger Agent, 10 King street east, Toronto, Ont.

Obituary.

On Wednesday one of the old residents of Peterboro, in the person of Mrs. Margaret Ferguson, passed away in the city of Hamilton, at the age of 80 years. Mrs. Ferguson was the relict of the late James H. Ferguson, formerly post master of the local office, and successor to his father, who was the first official to occupy that position in Peterboro. The deceased lady will be remembered by many of the old residents as the daughter of Mr. Sharpe, well known here. The deceased had spent the latter years of her life in Hamilton. A daughter, Miss Charlotte, of Montreal, and a son, Dr. Jas. H. Ferguson, with the U.S. Army in the Philippines, survive her. The funeral was private, and took place on the arrival of the noon C.P.R. train and proceeded to the Little Lake cemetery for interment.

A PROMINENT MERCHANT OF MONTREAL

Says: "I Believe Pe-ru-na Has No Equal."

Pe-ru-na Is a Systemic Catarrh Remedy, Especially Valuable to the Declining Powers of the Older People.

In old age the mucous membranes become thickened and partly lose their function.

This leads to partial loss of hearing, smell and taste, as well as digestive disturbances.

Peruna corrects all this by its specific operation on all the mucous membranes of the body.

One bottle will convince any one. Once used and Peruna becomes a life-long stand-by with old and young.

Mr. Charles F. Benetsson, Truscdall, Mo., writes: "I have followed your instructions for the past month and am now as well as I can be at the age of eighty-four years. I thank you for your valuable instructions and advice. I first used Peruna fourteen years ago when my health was so bad that I had no hope of staying many days, and after using it I began to pick up. It has helped me ever since. I feel well, but will always have Peruna as my companion."—Charles F. Benetsson.

As Well As Can Be At the Age of Eighty-four Years.

Pe-ru-na Proved a Life-Saver.

Mr. Louis Byrens, auctioneer, commission merchant and business broker, 436½ Richmond street, London, Ont., writes.

"I had been a sufferer with what physicians diagnosed as chronic catarrh. I thereby lost the necessary speaking faculties, which almost caused me to discontinue the business of auctioneer.

"After spending several hundred dollars for various medicines and doctor bills without avail, your wonderful remedy, Peruna, was recommended to me.

"After using several bottles of this life-saver, I found relief, and I am again capable of conducting my auction sales. I wish to convince others, likewise afflicted; of the merits of your great remedy."—Louis Byrens.

Happy Results Follow Use of Pe-ru-na.

Mr. Alex McKenzie, Montreal, Ont., bookkeeper for the Jewelry and Importing Co. and Scribe for the I. O. O. F., Jeanne of Arc Court No. 1850, writes:

"As I have used Peruna with happy results, I am glad to endorse it. My system is at times an easy subject to catarrhal colds. Especially if I am out in inclement weather or become suddenly chilled.

"When I get a cold I take Peruna, and it is only a question of a day or two until I am fully restored."—Alex McKenzie.

JAMES CURRIE.

Mr. James Currie, a prominent merchant of Montreal, Can., writes from 1336 Notre Dame street, as follows:

"I have used your Peruna for catarrh and find it an excellent remedy for coughs and colds. I believe it has no equal. My wife has used several bottles and she recommends it very highly. We keep it in the house continually for family use and would not be without it at twice its cost."—James Currie.

A Valuable Medicine for Coughs and Colds.

Mr. Louis Monpetit, 231 St. Elizabeth Ave., St. Henry, Montreal, is President of the St. John Baptist Society and a leading merchant on the St. Lawrence Market. He writes as follows:

"I would consider myself very ungrateful if I did not acknowledge the great merit of your wonderful medicine, Peruna.

"I contracted a severe cold by remaining too long in my ice house, and became so afflicted with a bad cough that I was obliged to remain indoors for a time.

"A friend brought me a bottle of Peruna. I began taking it and immediately received benefit from it. In a very short time my cold and cough were gone and I was restored to my usual health.

"I attribute my speedy recovery to the use of Peruna and I have no hesitation in saying I believe Peruna to be a valuable medicine for coughs and colds, and would cheerfully recommend it."—Louis Monpetit.

Peruna can be purchased of all first class druggists at $1.00 per bottle.

Pe-ru-na For Catarrh of the Bronchial Tubes.

Mr. W. B. Walby, Hotel Windsor, Ottawa, Ont., writes:

"I have been taking Peruna for catarrh of the bronchial tubes for three weeks, and was truly surprised to find that it effected a complete cure.

"I had heard good reports of this medicine, but had never really known of its valuable qualities until I tried it for myself, and found it such a fine remedy that I feel like writing you this.

"You have no doubt hundreds of endorsements, but no one is more sincere nor pleased to indorse it than I am, because I have found it of such benefit to myself."—W. B. Walby.

Pe-ru-na Contains No Narcotics.

One reason why Peruna has found permanent use in so many homes is that it contains no narcotics of any kind. Peruna is perfectly harmless. It can be used any length of time without acquiring a drug habit. Peruna does not produce temporary results. It is permanent in its effects.

Address Dr. S. B. Hartman, President of The Hartman Sanitarium, Columbus O. All correspondence held confidential.

BADLY DOG-BITTEN

Mr. G. McKeivor Bitten Severely by His Collie Dog.

Mr. George McKeivor, a highly respected resident of Douro township on Thursday afternoon sustained injuries of a most distressing nature by being bitten three times upon the arm by a dog.

Mr. McKeivor, who was working in a field at some distant part of his residence, ordered his collie dog, a valuable animal to go home, when the dog resenting the command to leave, attacked his owner, inflicting many bites on the arm. As Mr. McKeivor was entering the house, to have his wounds attended to, the dog made another savage attack upon him, seizing him by the shoulder.

Dr. Douglas, of Warsaw, was at once summoned, and in attendance upon the injured man, whose early recovery is hoped for by his many friends. The wounds were yesterday in a very much swollen and inflamed condition, and considerable anxiety is entertained as to complications which may ensue.

MR. THOS. HOPE DEAD.

Oldest Resident of Otonabee Passes Away at the Age of 95.

The oldest citizen of Otonabee, Mr. Thomas Hope, con. 3, near Village, one of the sturdy settlers who hewed out a home from the forest primeval, has passed away at the ripe old age of 95, the determination of a well spent life coming on Wednesday last.

The late Mr. Thomas Hope, was born in Northumberland, England, on Dec. 17th, 1810. He was the son of the late John Hope, who emigrated to America in 1815, and settled in New York for five years. In 1821 John Hope came to Canada, and settled the same year on lot 29, con. 3 of Otonabee. He was only a boy of 11 years old, when he came to this country.

The immediate cause of death was gangrene, resulting from an injury to one of his feet. His wife having predeceased him in 1883, Mr. Hope leaves to mourn his loss, his children, Margaret, Jane, Katie, Walter, John and William and another son, all residing in Otonabee, and his surviving brother and sisters. Those who still survive are Robert, of Otonabee; John, of Otonabee; George, of Milton; Jane, of Orwell; Richard of Otonabee, and Mrs. Bateson, living near Minden; Mrs. James Hope, corner of London and Division streets, is a sister-in-law, of deceased.

The funeral will take place this afternoon at two o'clock.

Personal

—Rev. J. H. Teney, of Omemee, was in the city yesterday.

—Rev. Father Whiobe, parish priest of Campbellford, was in the city yesterday.

—Mrs. Donaldson, of Rochester, is in the city, the guest of her brother, Mr. Wm. Croft.

—Miss A. Holmes, of Cobourg, is in the city the guest of Mrs. E. H. White, Rubidge street.

—Miss Will Inglis and sons from "Inglis Falls" are visiting Mrs. Leary, Melbourne street.

—Mrs. Burton H. Brooks, of Columbus, Ohio, is the guest of her parents Mr. and Mrs. W. H. Wrighton.

—Lieutenant Ingester Gen. Cochrane, who is holidaying at Eagle Mount, Stony Lake, was in the city yesterday morning.

—Dr. [illegible], of New York, who has a cottage at Stony Lake, and party were registered at the Oriental Hotel yesterday.

—Father McGuire, Downeyville, who has been attending the forestry convention at Boston, is in the city on his way home.

—Miss Alice Irwin of Rochester, N.Y., who has been visiting with friends at 198 Charlotte street, left for home yesterday.

—Mr. R. W. Irwin, formerly of this city, is home renewing acquaintance with old friends. Mr. Irwin is now on the staff of the National Gas and Water Co., at Wheeling, W. Va. He has his wife and family with him and are the guests of Mrs. Joseph Gray, 198 Charlotte street.

—The Hon. J. R. and Mrs. Stratton gave an "At Home" in the Juniper Island pavilion on Thursday night, in honor of the anniversary of their silver wedding. There was a large attendance, many people from the city going up specially for the event.

Local Packing House Busy

That Peterboro is fast becoming a more important business center than ever is denoted by still another fact. On Wednesday there were 1,400 hogs delivered at the packing house on the George Matthews Company, Limited, which constitutes a record. The increase in the price of hogs during the past week has had the effect of bringing out a large quantity, and on the day mentioned the local packing house had to handle the goodly number as above of porkers of all grades and weights.

CLEANING

House is one of the duties that a weak woman looks forward to with dread. As a rule, she knows that she must pay for the over-strain with days or weeks of womanly suffering.

Doctor Pierce's Favorite Prescription makes weak women strong and sick women well.

$500 REWARD! FOR WOMEN

WHO CANNOT BE CURED.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay $500 in legal money of the United States, for any case of Leucorrhœa, Female Weakness, Prolapsus, or Falling of Womb, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

"I took two bottles of your 'Favorite Prescription' and two of the 'Golden Medical Discovery' and am feeling well," writes Mrs. Dan McKenzie, of Lorway Mines, Cape Breton Co., Nova Scotia. "I had uterine trouble, also pain in the side and headache. After taking your medicine I was cured. You may publish this or use it in any way you think best, as I cannot speak too highly of Dr. Pierce and his medicines."

FREE. Dr. Pierce's Common Sense Medical Adviser is sent *free* on receipt of stamps to pay expense of customs and mailing *only*. Send 21 one-cent stamps for the book in paper covers, or 50 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

HELP WANTED MALE

LEARN TELEGRAPHY and R. R. Accounting $50 to $100 a month. Salary assured our graduates under bond. Our six schools are the largest in America, and endorsed by all railroads. Write for catalogue. MORSE SCHOOL OF TELEGRAPHY, Cincinnati, O., Buffalo, N.Y., Atlanta, Ga., La Crosse, Wis., Texarkana, Tex. San Francisco, Cal.

MARRY I seek husbands for several bachelor girls and widows of beauty and refinement, some worth $5,000 to $50,000, all are rich and beautiful homes. Full particulars Free in plain sealed envelope. Mrs. W., 697 W Fulton St., Chicago.

BUSINESS CHANCES

MANAGER—Branch Offices, Peterboro and other cities; an entirely new believe will prove greatest money-earning and wealth producing business propositions ever opened to American public. Company will forever own all powers, advantages and every source of profit in a modern city, under unity of ownership. Superior to any cooperative combination plan ever formed. Representatives should earn $5,000 to $10,000 first year and continue to increase. Small amount of cash required. Our booklet, "The Powers and Advantages of Industrial Concentration" and full information mailed free. INVENTORS' AND FINANCE COMPANY, (Reg. Dept.) Hoboken, N.J.

ROOMS TO LET

SINGLE and double rooms to let, newly furnished with all modern conveniences. Apply at R. A. Hamilton, 351 Water treet.

SANTAL-MIDY

TEN YEARS

The Story of My Wonderful Success.

Reads Like a Fairy Tale—Yet Full of Convincing Truths

An Opportunity of a Lifetime for the Investor.

TAKE ADVANTAGE OF IT.

I ask every reader of this paper to write me. I want to send you my free book entitled "Ten Years"—"The Story of My Wonderful Success." It tells about one of the greatest and most promising investment opportunities ever offered. It tells how my business grew from less than $25.00 capital to its present proportions.

I believe I have the best proposition from an investor's standpoint that could be placed before you. For ten years I have been teaching men and women to live according to the laws of Nature. My book is the history of my life. It shows what energy and ambition can accomplish in the world of affairs. It is intensely interesting to any man or woman who has a few dollars to invest in a legitimate enterprise.

I started business in the City of Brooklyn in 1896. My capital amounted to less than $25.00. My first year's business netted me over $1,000.00. Last year I paid dividends to my partners of 15 per cent. Five years ago my business had grown so large that I was compelled to remove to larger quarters. I am now at 63-65 Clark St., Brooklyn, N.Y.—in connection with Hotel St. George. Experts pronounce my institution to be the best appointed of its kind in the country. I estimate the equipment of the Mac Levy Institute of Physical Culture to be worth at least $40,000.00.

I want to have a building of my own that will enable me to accommodate my increasing business. To erect this building I need capital, but more important than this to increase my business to the proportions which I desire, I need the co-operation of men and women throughout the country and the world.

Co-operation is the Secret of Success

I recognize it. I believe that with thousands of co-operators throughout the country I can build my business to tremendous proportions to the benefit of the shareholders and myself.

The Mac Levy Company is incorporated under the laws of New York for $150,000.00. They are proprietors of The Mac Levy Institute of Physical Culture and The Mac Levy Gymnasium Equipment Company.

The last named branch of the business of the Mac Levy Company is comparatively new. I have been at work for several years to establish such a department in connection with teaching Physical Culture. The most difficult part of forming the Equipment Company has been accomplished. The business is now in condition to be pushed on a large scale. Hundreds of thousands of dollars are spent yearly on new gymnasiums and their equipment. The profits are large. A company of this kind has an immense field in which to work. Competition is slight. It is evident that the Mac Levy Gymnasium Equipment Company can build an enormous business.

The Mac Levy Company operates during the summer months at Steeplechase Park, Coney Island, and at Averne Hotel, Averne-by-the-Sea, L. I., as well as at our Brooklyn Institute. I also does an extensive mail business. I teach people how they should live and exercise. My students are scattered all over the United States, and in English speaking countries.

A PROBLEM

which arises in the minds of every man and woman is how to secure a comfortable income in the earlier years of their life, that they may reap the full benefits which such an income affords.

I have long thought that there are hundreds of people in moderate circumstances who would like to invest a few dollars in an Institution of this kind. It is to such people that I intend this announcement shall appeal. I am offering a block of the Treasury Stock of this company to the public at its par value. My reasons for doing this are that I wish to erect a building and to extend the business of The Mac Levy Institute of Physical Culture and The Mac Levy Gymnasium Equipment Company.

I WANT YOU AS MY PARTNER

I need your help and suggestion. I want you to work with me and help me to secure a tremendous amount of new business.

I believe that if you could talk with me personally and go over the records of the business which I have done, see in black and white the figures which show the steady growth my business has experienced during the past ten years, examine my plans for future extension, and then look over the magnificent equipment of my Institute, and would want no further evidence that money put into my business would bring you the greatest possible returns consistent with safety and good management.

I ask you to write for my free book. I believe it will interest you. You have a few dollars that you want to invest. Why let it stand idle earning only 3 or 4 per cent that Savings Bank pay their depositors? Put it to work. Join it with mine. This Company ought to pay at least

TWENTY PER CENT. DIVIDENDS

within one year

Write for my book to-day. NOW.

HOPE OF PEACE GONE THE WAR TO GO ON

Russia, Her National Pride Aroused by Japan's Demands, Ready to Renew Combat

THE CZAR'S SOLEMN PLEDGE TO THE ARMY

Emperor Drives at Midnight to Guards' Camp After Learning the Mikado's Conditions.

St. Petersburg, August 21. — Although no official announcement has been made it is everywhere accepted as a foregone conclusion that Russia will reject the Japanese terms and break off the negotiations.

As for the terms themselves, there is only one opinion, and that is that they are severe and drastic beyond a point that any self-respecting power could accept or consider. Nobody, indeed, believes that Japan herself imagines Russia will accept them.

It is therefore assumed that Japan consented to the conference with full knowledge of its futility. The question naturally asked by M. de Witte before his departure and by all Russia today is, Why did not Japan outline the nature of her demands before going through all the formalities of sending envoys to ascertain if an agreement were possible?

M. de Witte's dispatch reporting the proposals was not translated from the code and placed before the Czar at Peterhof until nearly midnight. It is not known how the terms were received by his Majesty, but what he did was most extraordinary. Ordering a carriage and escorts, he drove during the darkest hours of the night to Krasnoe Selo, the great military camp, two hours distant from Peterhof. The only other occasion on which he left Peterhof recently was to meet Kaiser Wilhelm. The object of his mysterious midnight journey was not disclosed until late tonight.

SILENT PLEDGE TO ARMY.

Then it was seen that his sudden visit to Krasnoe Selo was abundantly significant. His reply to Japan's demands is a demonstration of his personal allegiance to the army. He invited all the officers of the Imperial Guard to a luncheon. He sat at the head of the table in the barracks, and at the close of the meal he proposed a silent toast to the Imperial Guard.

Every man understood the significance of the act without a word being spoken. They stood up and drank the toast in impressive silence.

This is the first time since the war began that the Czar has fraternized with his officers. He drove back to Peterhof at 6 o'clock this morning.

Although she rejects Japan's terms she is not likely to break off the conference apparently is doomed to end in a fiasco, Russia will gain from it certain advantages which she deems of inestimable value.

RUSSIA'S NATIONAL PRIDE AROUSED.

The first is that Russia's national pride is aroused. The country is reconciled to the war, if not enthusiastic for its prosecution. This remarkable change in all classes of orthodox Russian opinion is not difficult to understand. The war was universally unpopular. National pride was not touched until after the fall of Mukden. Peace ought to have been made after the fall of Port Arthur, especially in view of Japanese tributes to the valor of Russian resistance, because the country then believed the war was useless and national prestige was not really affected.

The battle of Mukden, however, brought stories of Russian rout and panic, which, followed by the destruction of the fleet, were regarded as a serious national disgrace. Then Russia began to arouse herself. Peace talk has diminished steadily from that day to this. Russian honor was at stake. The only question was how to control internal agitation while the Empire rose to the task of vindicating its military prestige.

ROOSEVELT'S TIMELY AID.

Then came President Roosevelt's invitation, and Russia seized it as a God send opportunity. She was confident that Japan's terms would be severe and she knew the country would resent them. Therefore she sent M. de Witte, whose real task was to win American sympathy.

The knowledge of the Japanese proposals, as they become known, will solidify the nation for war as nothing else could have done. For this Russia thanks President Roosevelt with genuine gratitude.

Another advantage Russia has gained is this: Other military blows probably are in store for her. She will lose Vladivostok and probably be again defeated in Manchuria. She will then arise to the situation, when but for the invitation of President Roosevelt and the meeting at Portsmouth foreign mediation would have been offered and Russia put in an embarrassing position. This complication now is eliminated.

Russia now plans to begin her real campaign to exhaust the enemy. The Russians themselves admit that no peace made now could be permanent. Japan therefore is quite justified in naming terms which Russia will be unable to even consider.

One may go even further and say the Czar could not accept even more moderate terms at the present moment. The commander in chief and practically the whole army in the field have been imploring him for weeks to give them an opportunity to redeem national honor. To sign peace under such circumstances would cost the Romanoff dynasty its throne.

ORANGEMEN ORGANIZING.

Grand Organizer, A. W. Gray, L.O.L. for Eastern Ontario, Opens Campaign To-day

To-day, Grand Organizer A. W. Gray, L.O.L., for Eastern Ontario, will begin his active campaign of infusing new energy and increased vitality and increasing the membership of Col. Sanderson Lodge, No. 80. He will also, during his trip to this district, visit Downey's Corners, Lodge, No. 321, (Aug. 22), No. 451, Nassau, Aug. 24th, Lakefield, Aug. 28, Keene, Aug. 30, and Hall's Bridge, Bobcaygeon and Coe Hill.

Organizer Gray is a past grand master of Ontario East, and a past grand master of Grand Black Chapter, and is in every way capable of enthusing passive members, and inducing new members to apply for admission to the order.

The Orange Hall, Simcoe street, has just undergone a thorough overhauling, and everything is now fresh new and artistic. Mr. D. Bellegheim had the contract for the furnishings. A beautiful new carpet has been placed on the floor and the hall is now in great contrast with the old place.

KING TO REVIEW SCOTCH TROOPS

Edward to Look Over Volunteers at Edinburgh in September

THE PEOPLE ARE PLEASED

Anxious to Show Ruler How Popular He is—Queen May Also Attend

Edinburgh, Aug. 21.—The announcement that His Majesty, the King, is to hold a review of volunteers in Edinburgh on Monday, September 18th, has created intense satisfaction all over Scotland. It has long been known that Lord Provost Cranston has been exerting himself to the utmost in order to get His Majesty to hold a review on something like the scale which Queen Victoria held in August, 1881, when almost 40,000 volunteers were on parade from every part of Scotland. The arrangements are in the hands of the military headquarters in Scotland, who now occupy spacious offices in the palatial buildings of the "Scotsman."

It is believed that the military authorities in Scotland have already put themselves in communication with the war office with a view to ascertaining what allowance is to be made towards the expenses of the volunteers who may come to the review from a distance. As soon as definite information has been obtained upon this point no time will be lost in communication with commanders of corps throughout the country. Edinburgh is sure to make a good contribution to the gathering, for it will be the desire of the brigades, of which Lord Provost Cranston is to popular a commander, to turn out in such numbers as will demonstrate to His Majesty how admirably he has interpreted the feelings of the volunteers of the capital. All over Scotland the same feeling is believed to prevail, and there is general expectation that throughout the country the day will be observed as a general holiday. This will mean an influx of people to the capital on a scale which will help to make up for the lack of visitors recently complained of. The various railways will undoubtedly offer tempting facilities which will ensure an immense attendance of spectators. It will provide, too, another of the too rare opportunities which people from every part of England have of testifying how popular His Majesty is among his Scottish subjects.

The review will also tend to infuse new life into the volunteer movement, which in Scotland, as in some parts of England has rather suffered in popularity within recent years as the result of what, rightly or wrongly, is regarded as want of genuine practical interest in the force of the War Office. It is not yet known whether the Queen is to accompany the King, but if His Majesty is accompanied by his royal consort this will only lend additional eclat to what has every prospect of being a memorable occasion in Scottish history. Unfortunately the last review took place on what was one of the wettest days on record. But be the weather what it may this time, there is no doubt but there will be plenty of enthusiasm on the occasion of the King's visit, and will not be surprising if the muster of volunteers at the review exceeds even the great gathering which marched past Queen Victoria in 1881. General Sir C Tucker is not the man to leave anything undone that is calculated to insure the success of the review and once he returns to headquarters in Edinburgh from his tour of the Scottish volunteers no time will be lost in pushing forward the needful arrangements.

Obituary.

Death of Mrs. Fisher on Saturday Afternoon.

At 3.30 on Saturday afternoon, there passed away in the person of Mrs. Fisher, corner of London and Water streets, one of the most ardent supporters of the Murray St. Baptist church, and a leading figure in church and charitable circles.

Mrs. Fisher who has only been seriously ill for the past month or so, had been under the care of Drs. McPhail and Beamish, and despite the best medical attendance and nursing succumbed on Saturday to heart disease, at the age of 55. The deceased is a sister of Mrs. William Langford, Water street, besides whom, she leaves to mourn her loss, her daughter, Miss Ivah, living at home, and a brother, Mr. Egerton Walton, who is custom house officer at Medicine Hat. Mrs. Fisher leaves also half sisters and brothers all of whom are residing in the United States.

Mrs. Fisher moved to the city some four years ago from Ohio, on the death, there of her husband.

The funeral will be held this afternoon at 3 o'clock and proceed to the Little Lake cemetery. It is particularly sad to have to chronicle the departure of a lady so useful in church and charitable work, whose place is hard to fill. Mrs. Fisher had only recently completed and moved into the beautiful residence where she died.

INFORMATION WANTED

The Times Receives Enquiry From England for Catharine and Thos. Wm. Allen.

The Times was on Saturday, in receipt of a communication from Mrs. Maria Allen, Faramborough, Bath, England, enquiring if we knew the whereabouts of her children Catharine and Thomas William Allen, whose addresses are sorely wanted by their anxious mother.

Mrs Allen, had been in communication with the Toronto Mail and Empire some months ago, and that paper traced the girl up as being in that city five years ago, and that the boy had moved to Peterboro or vicinity about the same time.

By advice of the Empire the distracted mother wrote us. Anyone knowing anything about either of the Allens will confer a favor by notifying either this journal or Mrs. Allen.

RUSS NAVY TO REBEL IF MUTINEERS HANG

Battleship Commander Fears to Obey Order to Get Ready to Shoot Mutineers--The Sailors on Every Warship are in Rebellious Temper Awaiting News of the Result of the Trial of the Mutineers.

Moscow, Russia, Aug. 21.—Both the Russian navy and army are ripe for revolt.

The sailors on every warship that is left to the navy are in rebellious temper awaiting news of the trial of those Kniaz Potemkin mutineers who were caught and of the other sailors who mutinied at Odessa.

There is not the slightest doubt that there will be a general mutiny in the navy the moment the government carries out the sentence of death that will almost surely be imposed on the Potemkin's crew.

In proof of the spirit among the sailors I quote the commander of a battleship which is stationed at Reval. He is passing through here on his way to St. Petersburg, whither he goes to ask that orders issued to him be revoked.

"The crews of the warships at Libau are on the eve of mutiny," he said. "I have been ordered to completely supply my ship by a certain date, to make her ready for fight, and to be prepared to proceed to Libau at a moment's notice.

"The date named gives me time to reach St. Petersburg, where I intend to explain the navy department that to send my ship to Libau will only add strength to the mutineers.

"For, infallibly, my crew will kill me immediately that we are out at sea. Instead of assisting others I, myself, will need aid."

There is equal danger in the army at the front and nearer home. Rebellious ferment is working among the troops of the Moscow garrison, now encamped for the usual summer training on Khodinsko Field, where many peasants met their death during the coronation festivities of the present Czar.

Artillery was trained yesterday so as to cover the regiments known to be nearest revolt.

All artillery officers here have been directed to remain at their posts until further orders.

"IT IS MARVELLOUS"

Dr. Armshaw, Belleville, Now at 25 Weir St., City, Talks with the Times.

On Saturday afternoon, just as a Times reporter was about leaving the office on his prowl for news, a lady entered the upstairs writing room. She, being a complete stranger to the news-searcher asked "Are you the editor?" With becoming modesty, our reporter did not deny the title. The lady introduced herself by saying she had been sent by a friend stopping at her house 25 Weir St., who wanted to see the editor. Seeing "copy," the reporter took a car down, and found that the gentleman seeking an interview was Dr. Armshaw, who was still too ill to come up town, but who has a great sense of gratitude to a man whom he considers is saving his life.

The doctor, who was a student at McGill College, but since living in Belleville, had found himself some four months ago in the dread grip of consumption; he had had hemorrhages and blood spitting. After trying certain treatments in vain, he had come to Peterboro to get Dr. Johnston's (V.S.) cure, that is now earning more than a local reputation. Although he has only been taking Dr. Johnston's medicine for a very short time, he has felt such a tremendous improvement, his gratitude for what he considers the saving of his life, impelled him to ask The Times, of which his friends are readers, to devote a few lines towards letting the public know what the local man's medicine has done for him. "It is simply marvellous said Dr. Armshaw, "Since the first day, of taking Dr. Johnston's medicine, I felt a different man and am gaining strength hourly!"

Almost across the street, at No. 78, lives Mrs. West, who, hearing of The Times' man's visit to Weir St., was most earnest in her request that her case should be given publicity so that others may be saved from death by tuberculosis. Mrs. West told our reporter that last circus day, also, by her husband's request, visited Dr. Johnston. She was so far gone in consumption she had lost the power of audible speech, was almost a skeleton and could hardly accomplish the journey up town to see the doctor. Her physician had as good as told her, her case was hopeless. To-day she is a comparatively healthy woman, eats and sleeps well. It was touching the entire faith she has in the new Peterboro cure for consumption, and the intense gratitude she expressed towards Dr. Johnston. From these two interviews, which are rather, under, than over-colored, there is every reason to believe that our city will, before many months be frequently mentioned in the journals of the world as the home of a real cure for tuberculosis.

Dr. Johnston was last night interviewed by the reporter on his return, but modestly declined to talk for publication, simply saying he had the medicine for sale, but was prohibited, by law, from making examinations or giving advice. He said the medicine for sale, and those wanting it can buy it. In reply to a question by the reporter, how long after taking the medicine, was it before she noticed any real change in her condition, replied "Why at once, the very same day."

Police Court

OFFICIALS

Chief of Police, G. I. Rezel

Magistrate, D. W. Dumble

Only one case occupied his Worship's attention at Saturday morning's court, although the Knights of Rest were out in full numbers, evidently awaiting some case supposed to have been on the docket.

The case on trial was that of four boys charged with disorderly conduct in Jackson Park on Wednesday night. It appears that two lads got into what is known in the vernacular as a "mix-up," whilst the entertainment was in progress. One of them when getting "the muddy end of the stick" in the fight, went and induced a friend to return with him to the battle field; the two then pitched into Percy Dredge, one of the first participants in the gladiatorial combat. Percy pleaded that when the fuss began he did not want to fight, but when attacked his sturdy Canadian spirit made him forget the old maxim about turning the other cheek, so waded in to defend himself. McManus, the young fellow whose services were impressed to help whip Dredge, was fined $2, and given 10 days to procure the same.

Non-payment of Dog Tax

Only one case occupied his Worship's attention at the court yesterday morning when Dr. Casey living on Chamberlain street, was charged with non-payment of dog tax. Mr. Casey explained to the Magistrate that the dog did not belong to their household.

His Worship enlarged the case for one week to enable Casey to kill the dog.

Royal St. Lawrence Will not Challenge

The sailing committee of the Royal St. Lawrence Yacht Club has decided not to challenge for the Seawanhaka Cup next year. This will give the National Club of Toronto the chance that they have been looking for.

If the Toronto Club challenges several boats will be built so that this would revive the interest in the sailing of small boats.

JAPAN'S NAVAL SUCCESS. AN ASTOUNDING RECORD

Russia Lost Eighty-Eight Per Cent of Her Fleet to Japan's Three--Russia Lost Over Seventy Vessels.

London, Aug. 21.—Reports of the at the beginning of the war the Russian navy consisted of 64 battleships, 41 first class cruisers, 26 first class protected cruisers, numerous armored cruisers, torpedo boats and destroyers, and Japan 6 battleships, 8 first class cruisers, 15 first class protected cruisers, numerous armored cruisers, torpedo boats and destroyers. Russia had a total displacement of 798,705 tons, and Japan 260,000 tons. Russia had a total of 1,115 guns, and Japan 488. Russia had a total of 1,115 guns, and Japan 488. Russia had a total of 1,115 guns, and Japan 488.

Japanese have been able to raise and repair for their own use make it possible now to summarize with substantial accuracy the results of the war upon the naval forces of the belligerent powers. Excluding torpedo boats and other small fry, and reckoning only battleships, cruisers and gunboats, Russia took into the war 53 vessels, of 410,224 tons, and Japan 76, of 274,-8136 tons. Should the war end now and the interned Russian ships be allotted to Japan, Russia would come out of it with only 10 ships, of 63,636 tons, while Japan would have 78, of 312,569 tons. In other words, Russia would have lost 73 vessels, of 346,588 tons, while Japan would have made a net gain of 2 and of 48,324 tons. How this amazing and unique result has been attained is worthy of a moment's notice.

The vessels sunk in the war, in battle, by mines, by collision or otherwise, were: Russian, 57, of 245,292 tons; Japanese, 12, of 46,025 tons. Vessels captured by the enemy were: Russian, 7, of 44,456 tons; Japanese, none. Vessels interned in neutral ports, perhaps to be surrendered to the victor at the end of the war: Russian, 10, of 56,819 tons; Japanese, none. There were thus remaining of the original fleets: Russian, 10, of 63,636 tons; Japanese, 66, of 224,169 tons. But there were also these items in the account: Vessels gained by capture—By the Russians, none; by the Japanese, 7, of 44,456 tons. Also, vessels gained by raising and repairing: By Russians, none; by Japanese, 7, of 69,864 tons. Thus, while the Japanese have 2 and of 48,324 tons more than they had at the beginning of the war, the Russians have 73 less, of 346,588 tons. Or, in other words, Russia has lost 88 per cent. of her fleet, while Japan has lost 3 per cent. Russia has lost 73 per cent. of her tonnage, while Japan has lost 2 per cent. Russia has lost 57 per cent. of her men, while Japan has lost 12 per cent. Russia has lost 88 per cent. of her fleet, while Japan has lost 3 per cent. Russia has lost 73 per cent. of her tonnage, while Japan has lost 2 per cent. Russia has lost 57 per cent. of her men, while Japan has lost 12 per cent.

How Consumption Starts

Tired When You Waken—Languid All Day—Nerves Worn Out —Snap All Gone

Your limbs feel "draggy" and excessively weak. A night's sleep seldom brings satisfying rest. Continuous headaches, exhaustion and nervous sensations destroy your health. Soon every spark of vitality is used up. Then you catch tuberculosis.

Start to-day. Build up, get new nerve force, and overcome this process of decay. Use Ferrozone, which physicians consider the most vitalizing, uplifting tonic ever made.

Ferrozone cures because it can furnish the body with sufficient nutriment and building material.

Think of the instant effect—at once the appetite increases, delightful color in the cheeks proves that rich, red blood is being circulated. Tired muscles are invigorated, flesh and weight are added. Nerve force develops, and bounding, joyous health is firmly established.

This is certain Ferrozone features failing strength from any cause. The experience of Mr. Thos. Dowd, of Selkirk, Ont., proves this:

"Household worries and illness had about exhausted my strength. I was weak and miserable. My cheeks lacked the color of health, and occasionally I had spells of rheumatism. Then my appetite fell off, and nothing could tempt me to eat. Worn-out feelings, chills and despondency filled my very being. I became anaemic and dwindled down to a shadow. Consumption was very near. Ferrozone put strength in my body with a rush. It built me up, strong, virile and happy, and I have been well ever since."

Ferrozone cures sleeplessness by curing the real cause—lack of blood and nerve tone. It keeps people at their best—fit, ready and anxious for work. In 50c. boxes only, six for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterboro are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year strictly in advance.

WHEN KINGS SHALL DIE

Students of world events are beginning to forecast changes that hinge upon the lives of European rulers. The tremendous readjustment of international forces wrought by the Russo-Japanese war brings to the front active speculation as to the probable consequences of deaths among the important rulers.

Perhaps no more interesting point of observation exists in Europe from a political standpoint than Austria. In that country peace at home and abroad depends largely upon the life of Francis Joseph, the aged Emperor. Potent forces are impatiently awaiting his death to flounce civil war, and the Empire could scarcely survive. The Hungarians keep the flame of their hatred for Austria hot, while the Croats feel as bitterly against Hungary. The Bohemians and Poles will never rest until their dream of independence is realized. All these mutinous elements of discontent are more or less loyal to Emperor Francis Joseph, but his nephew and heir, Archduke Francis Ferdinand, is unpopular and would be a mere straw tossed upon the sea of rebellion.

Apparently it is only a question of time before Germany shall absorb Holland. The Queen being childless, the next heir to the throne is the Grand Duke of Saxe-Weimar, a German Prince. Of course England and France might have something to say in case the Kaiser should reach out his hand for the Netherlands, but it is doubtful if they could make any valid objection to the succession passing in a natural way to a German prince.

Italy is a veritable hotbed of rebellion and the various powerful revolutionary societies there are only waiting a favorable opportunity to strike. This would naturally come with the death of the reigning monarch. What would happen in Turkey should the Sultan die is problematical, although it is reasonably certain that complications of a most threatening character would ensue. In spite of Abdul Hamid's well earned reputation for oppression and cruelty, it is believed he has held back a general rising of his Mohammedan subjects against the Christians. If these fierce fanatics should decide to break out at the death of the Sultan, a war would be precipitated that might involve all Europe.

In Spain, great interests center in the life of the boy King. His death would reopen the battle of the Carlists and the Republicans, and civil war which has been predicted for Spain for half a century might be a fact. The only great ruler upon whom the eyes of Europe have been fixed for several years is the Kaiser. He is a powerful personal element in the preservation of European peace. His death would probably bring no material internal disturbance, because he has a son old enough to ascend the throne. But this youngster is an unknown quantity and it is considered certain that his father possesses and that he'll have strong elements in Germain progress. Of all rulers the most unhappy in the role which opens the throne of Russia. The death of the present Czar would bring to the throne his brother, Grand Duke Michael, unreputed and despotic. If there is any revolution left in the Russian nation it would probably break out under the lash of Michael.

Although the haze of uncertainty hides the future of European politics, it is almost certain that many important changes will come about within the next few decades. A universal craftiness of the people betokens that the rule of despotism and the sway of potentates must pass away.

ADVANCEMENT IN TRAVEL

Edison, promises a great improvement in automobile travel. He has a storage battery which will drive a two-ton automobile truck at the rate of 33 miles an hour, and a family automobile a distance of 100 miles at an average rate of 20 miles an hour. The battery is small and compact and enclosed in a metal case. The automobile of the present is fast enough, but the automobile of the future must be not only that, but it must require less "tinkering" on the road. There must be a machine that will not have to be "coaxed up" every five or six miles.

DEADLOCK AT CONFERENCE

No Agreement on Point Considered To-day, But Other Articles Were Also Debated

Portsmouth, N.H., Aug. 20.—The deadlock between the Russian and Japanese plenipotentiaries over article II. on the peace conditions, the limitation of Russia's naval power, limitation of Russia's naval power, which developed at yesterday afternoon's sitting of the conference, had not been broken when the envoys adjourned for luncheon at 12:30 p.m. to-day. The forenoon session was entirely given up to the consideration of the article, and the official statement issued after adjournment said that the discussion would be resumed this afternoon. The official statement, wired after the morning session, follows:

"In the sitting of this morning, the conference has continued the discussion of article II. and the discussion has not been finished. The discussion of the article will be resumed at 3 o'clock.

GENERAL DISCUSSION NOW.

While article II was the subject of consideration, as a matter of fact the discussion was not limited to that article. It was general and covered all the questions at issue. It is expected that article II and the last article, number 12, fishing rights, will be completed early this afternoon, and the plenipotentiaries will then revert briefly to the articles that have been passed over. This will be for the purpose of drawing up the final protocols to be presented next week.

TO BE "COPPER" AT COBALT

Toronto Policeman May get an Appointment From Government

Toronto, Aug. 19.—Hon. J. P. Whitney stated to-day that the Government had decided to appoint a Provincial Constable for Cobalt and vicinity. The appointment has not yet been made, but Mr. Whitney said he had a man in view; and if he was the one eventually chosen, he would be big enough and judicious enough to see that law and order was preserved in the district.

As Mr. Whitney's description tallies with the appearance of Policeman Geo. Caldbeck of the Toronto police force who called on the Premier during the forenoon, it may be assumed that Mr. Caldbeck is the man who is likely to get the appointment.

ARMY MANEUVRES

Ohe Hundred and Fifty Germas Troops Will be Engaged

Berlin Aug. 19.—The annual maneuvres of the German army, to be held next month, will take on the unique form of an attempt to drive out a French army which will be supposed to have succeeded in crossing the Rhine, and invading South Germany. One hundred and fifty thousand troops will be engaged in the campaign, which will center around Coblenz. In order that the maneuvres may be as real as possible neither of the contending armies will have the slightest knowledge of the whereabouts and disposition of its imaginary enemy.

Heretofore in these maneuvres each commander has known fairly in a general way what his antagonist would try to accomplish. Japanese offensive tactics will be employed, on a large scale, under the special direction of the Kaiser, who will participate in the manoeuvres accompanied by a large staff and invited foreign royalties.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if thesecond homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or corresponding township.

A settler who avails himself of the provisions of clauses (2), (3) or (4) must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive at the Immigration Offices in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

How to Visit Colorado

Go first to Denver. It is the State capital, as well as the largest, wealthiest and most metropolitan city between the Missouri River and the Pacific Coast. The city itself is very interesting, and from it start practically all the trains over the various roads into the mountains.

Many of the most enjoyable one-day trips in Colorado begin and end at Denver. The cost of these little journeys is not great.

After you have familiarized yourself with Denver and its surroundings will be soon enough to decide where to go for the rest of your visit. The question must be considered from several standpoints—altitude, hotel accommodations, accessibility, amusements, etc.

Our Colorado literature will help you in deciding where to go and what to do. Sent free for the asking.

VARICOCELE CURED

NO NAMES USED WITHOUT WRITTEN CONSENT.

Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on a double varicocele. When I first used hard language I became severe and I was confined to my home for weeks. My family physician said an operation was necessary, but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than rogues. One day my brother asked why I was off work so much and I told him my condition. He advised me to consult Drs. Kennedy & Kergan, and I decided to take treatment from them. Him, and find they were honest and skilful. He was right, and got the New Method Treatment for me. My nerves was the worst trouble I had. After the first month's treatment I was somewhat discouraged, but I continued treatment for three months longer and was rewarded with a complete cure. I could only earn $3 a week before I was married, but since treatment, I am earning $31 and never lose a day. I wish all sufferers knew of your methods free of charge.

HENRY C. FOREST.

HAS YOUR BLOOD BEEN DISEASED?

[illegible] and in a serious disease. These can [illegible] Blood Poison, Pimples, Boils, Ulcers, Sores, Eczema, Scrofula, Rheumatism, Kidney Complaints, Bladder Troubles, Nervousness, Impotency, Varicocele, Stricture, Loss of Power, Lost Manhood, Nervous Debility, Unnatural Discharges, Piles, Fistula, Rupture, Stomach, Liver and Bowel Troubles, Catarrh, Throat and Lung Troubles, Deafness, Eye, Ear, Skin and Blood Diseases, Female Weaknesses, Displacements, Irregularities, Suppressions, Ovarian Troubles, Tumors, Cancers, Abscesses, Etc. Don't delay. Don't drug your stomach with nauseous mixtures, because they cannot reach the seat of the disease. Don't expect local treatment, local appliances or electricity to cure you. Don't submit to operations, because they are unnecessary. Don't waste time and money on physicians who do not make a specialty of your disease. Don't be deceived by free consultation offers, because they are a fraud. Don't be humbugged by free sample cures, because they are worthless. Don't be misled by cheap rates, because they are unreliable. Don't be afraid to call, because you are not known. Don't neglect your case, because you will be sorry later on. Don't be ashamed to call, because you will find us honorable gentlemen. Don't fail to call, because we can cure you. Don't hesitate, because we have cured thousands. Don't doubt, because we have the highest testimonials. Don't delay, because you may die. Don't die, because you can be cured. Don't be discouraged, because you have tried others. Don't be prejudiced, because you have been disappointed. Don't be careless, because your life is at stake. Don't be reckless, because you will be sorry. Don't be foolish, because you will be wise. Don't be wise, because you will be foolish

DYSPEPTIC

FOOD DOES YOU NO GOOD.

Half the time don't-re afraid to eat, your tongue is coated, mouth tastes bad, stomach is bloated. If you want to get well, stop using dyspepsia tablets and go to the source of the trouble before it is too late. Strengthen your stomach, cast out the bile, regulate the bowels—do this and dyspepsia will be no more.

For your condition the best prescription is Dr. Hamilton's Pills which are made specially for the stomach, kidneys and liver, no better remedy will ever be devised, for Dr. Hamilton's Pills are perfect. To the overworked organs they give new strength. The general health is built up, and all trace of dyspepsia disappears. Here is proof;

FIVE YEARS OF DYSPEPSIA HELD

"No one could realize my sufferings from stomach trouble and indigestion. For five years I have not been well. My food did me no good because I couldn't digest or assimilate. My doctor said constipation was at the root of my trouble, so I got Dr. Hamilton's Pills. My appetite improved, pain after eating ceased, and my food digested quickly. I am delighted with the thorough cure I derived from Dr. Hamilton's Pills.

(Signed) "MARTIN E. WALKER,
"Bridgewater."

Quick results attend the use of Dr. Hamilton's Pills; this medicine cures all trouble in the stomach and digestive organs by removing the cause. You feel uplifted and strengthened at once. Furnished room, having all modern conveniences, and centrally situated, to rent. Apply at Times Bookstore.

An Englishman's Association

Local Englishmen are agitating for formation of a local society composed of the Sons of Albion. The S.O.E. whilst composed mainly of Englishmen and their descendants, does not begin to include all, or nearly all the men of English blood in Peterboro. The idea is good, push it along.

Mr. Cocks Goes Into Business

Mr. J. E. Henderson, who has for years conducted a grocery business at the corner of Water and McDonnel streets, has sold out to Mr. John J. Cocks, who has been many years in the employ of Peter Connal & Son. Mr. Cocks is an experienced man and will doubtless do a large trade. The stand which he has received is an excellent one.

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

WM. PRINGLE

MOOSE JAW HOTEL.

At Moose Jaw, in the Canadian Northwest, at the junction of the Soo Pacific road with the main line of the C. P. R., is a modernly appointed hotel elegantly furnished and has fine sample rooms for the use of Commercial guests without charge. For pamphlet of descriptive of hotels, how to reach them, dates and time tables, write to C. H. Foster, D.P.A., C.P.R., 71 Yonge Street, Toronto, Ont.

Cavan Farmer Injured

Mr. John Dundass, a retired farmer of Lindsay, met with a painful accident at Cavan, assisting Mr. Moses Sutton, with whom he was visiting, in the harvest by driving a binder. The horses taking fright from some unknown cause, ran away, throwing Mr. Dundass from his lofty seat, violently to the ground breaking his collar bone. Medical assistance was procured, and the injured man removed to his home in Lindsay. The binder was slightly damaged, and the horses got off with only a few scratches.

A 15 Pound Lunge.

Mr. Hutchinson, the well known local grocery man, who is manager for Mr. F. E. Mason's lower George street store, seems to understand something about catching fish, and big fish. He is camping with a party of friends on Rice lake, and their captures of bass and lunge being so great, on Saturday evening, Mr. Duncan sent up to Mr. Kerringhan, employed in Mr. Mason's branch store a line mackinonge that on arrival turned the scales at over 15 pounds to show their luck is genuine.

Schools Re-Open September 5th.

The chairman of the Supervision Committee of the Board of Education, will receive more groans than applause from several hundred school children to-day, when they read that he announces that on Tuesday, September 5th, the Collegiate Institute and public schools will re-open after the summer vacation. During the holidays the schools have been to a certain extent, repaired, and the scholars will go into nice class rooms on Tuesday, September 5th.

A Correction.

By a most unfortunate typographical error a mistake was made in the heading of an article in Saturday's issue of The Times, which detailed an interesting account of farming in Southern Manitoba, by Mr. John Morrow, a gentleman well known here, the heading which read "An ardent Westerner," was by an oversight, set up as "An Ardent Westerner." Mr. Morrow's friends who know him as a bustling typical adopted son of the wild and golden west, will appreciate our regret over such an error.

Mr. Snyder Met With Accident

Our readers will be pleased to learn that Mr. Snyder is doing as well as could be expected after his accident of last week. It will be remembered that Mr. Wm. Snyder the veteran lumber man and one of the pioneer residents of Peterboro who resides on McDonnel street met with a painful accident last week. It is supposed that he was walking in his room when he fell and fractured his hip. His condition is serious. Mr. Snyder is ninety years old and the mishap at his advanced age has caused his friends considerable anxiety.

$10--First of the Season--$10

Four special excursions from Suspension Bridge, Niagara Falls, to Atlantic City, Cape May, Ocean City or Sea Isle City, via Lehigh Valley Railroad, July 11, August 4 and 11, and Sept. 1. Lewis, Canadian Passenger Agent, 10 King street east, Toronto, Ont.

A Lady with Pluck.

On Friday evening, a young lady visiting with friends in the city, whose name is by request withheld was out driving in Jackson Park. The horse became frightened by an approaching street car and started making things lively for a few minutes. After doing a few stunts in rearing, and otherwise acting in a manner calculated to frighten any driver, it started to back down the embankment beyond the band stand. The young lady jumped over the dashboard and held the animal by the head, until a couple of gentlemen prevented further trouble. The drive at this point is dangerous, and steps should be taken to erect a railing around it, as otherwise accidents of a serious nature might result.

Lady's Forgetfulness.

Some amusement was caused among some naughty men enjoying the breezes of Jackson Park yesterday afternoon by a lady who must be absent minded or a sufferer from heat. The lady in question had forgotten that she had forgotten to don the next article of a ladies usual costume worn immediately next below her skirt. The lady who is young, pretty and, as verified by this tangible proof in evidence of her forgetfulness, plump, when passing through the dust laden grass of the park, relying on the treacherous petticoat, presumably, as observers passing safely out a chair or bed, raised the dainty skirt well, very well, from the ground. She walked for some hundred yards, head in air, and with unconscious grace, the observed of all observers, until the glances of the horrible men were noticed by her and her lady companion, although pointed in their direction as is customary with pretty women, were always staring from their faces; probably lowered in modesty.

KAWARTHA LAKES

Our Local Summer Resort Receives Kindly Mention by Prominent Banker.

In reference to a Pittsburg gentleman who has been summering at Buckhorn, and who made many friends here, the Toronto Saturday Mr. William Price, President of the Liverpool National Bank of Pittsburg, Pa., together with a party of six arrived at the King Edward yesterday on their way home from a very pleasant month's outing at Buckhorn on the Kawartha Lakes, where they have a cottage. "It is an ideal camping ground, said Mr. Price. "The fishing is splendid. It is twenty-four miles back of Peterboro by wagon road. We had a great drive into town this morning."

SPECIAL ANNOUNCEMENT

Norris & Rowe Will Arrange for Special Excursions During Their Engagement in This Section

There is no more welcome announcement to come to the public than the fact that the arrangements that Norris & Rowe have made with the railroads for the running of special excursion trains when the circus visits this section. The regular rates will be greatly reduced, probably to less than one fare for the round trip. When the general agents of the Norris & Rowe greater circus arrive, they will announce the running time from the various points and the rates. The public is assured that the trains will bring them to the city in ample time for all to witness the parade. In order to take good care of the tremendous crowds that the excursions will bring to the grounds, augmented by the local crowds, it was found absolutely imperative to order mammoth new tents. These are the very largest that Norris & Rowe have ever carried, but they have the satisfaction of knowing that every person of the vast crowd that attend will be promptly seated and enjoy great comfort while witnessing the exhibition. The Norris & Rowe greater circus have trains of twenty cars each this season, which makes their shows the fourth largest in the world, and the very largest show that will visit this section this year. The spectacular parade with its wealth of costumes, expert equestrians, riders, heralds, Japanese ladies in jinrikshaws drawn by Japanese coolies in their picturesque costumes, the herd of elephants, camels, Arabian cuki-walking horses, the long lines of open dens displaying wild beasts, the twenty joyous clowns, the five bands of military music, the huge steam calliope and all the glittering glories of a big prosperous circus. The Norris & Rowe Greater Circus will exhibit at Peterboro, Saturday, August 26th.

Personal

—Mrs. A. Walker, of Lindsay, is in the city visiting friends.

—Mr. J. D. Collins, who is summering at Stony Lake, is in the city.

—Miss Bertha Mark, of Lindsay, is a guest of her aunt, Mrs. Wm. Henry.

—Mrs. Pentland and daughter, Agnes, are guests of Mrs. R. H. Lundy at Stony Lake.

—Miss M. Craig of T. Harris's establishment, is spending her holidays at Niagara Falls and Lindsay.

—Mr. Will Armstrong, of Mr. T. Harris's staff, has returned after spending his holidays up the lakes.

—Mr. Botsford, who has been visiting Mr. C. S. Botsford for some weeks, left Saturday for England.

—Mr. Gordon Nicholls, who has been spending his vacation at Chemong Park, has returned to the city.

—Messrs. E. H. D. Hall and F. D. Kerr are spending a holiday in old Quebec. They are taking the boat trip down the St. Lawrence.

—Mrs. A. J. McLennan, nee Rickborn, and Miss Bryson, of Peterboro, are stopping at the Queen's for a few days—Toronto News.

—Mr. R. F. Choate, of the Examiner staff, who has been spending the last three weeks at McCracken's Landing returned to the city Saturday.

—Mrs. R. H. Hutty, of Toronto, is the guest of Mrs. J. H. Connal at Englewood, Stony Lake. Mrs. James Patterson, of Peterboro, is also the guest of her daughter, Mrs. Connal.

—Mr. Fred Davidson western traveller for the Peterboro Cereal Company returned Saturday from a three weeks' trip in the interests of the Peterboro Cereal Company. He reports things exceedingly brisk in orders for weeks' trip in the interests of his company. He reports things exceedingly brisk in orders for Canada Flakes.

Local Incidents

BY THE THIRD MAN ON THE STREET.

—The printers' excursion to Penn No. 5 was a huge success in every respect.

—Great disappointment was felt among the local sports on account of Oshawa's failure to send their ball team for Saturday's game.

—The special committee appointed by the Roads and Bridges Committee of the county council met at the court house Saturday afternoon.

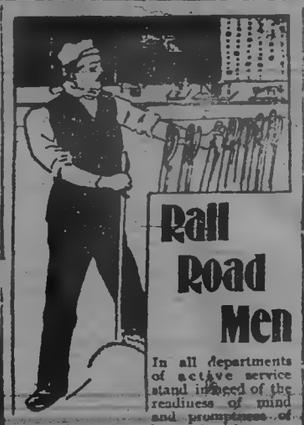
—On September 1st, Belleville bakers have agreed that they will do nothing but a cash business. The grocers have combined and hope to do the same thing.

—Mr. J. T. Calvert, of Reaboro, is the new science master engaged for the Markham High School at a salary of $750. Salaries of good teachers have been advancing rapidly of late.

—After this all automobilists must have numbers on their motors. As in a busy city like ours, the police must have the assistance of the owners of automobiles, to regulate the speed, and bring offenders to time.

—A week ago Saturday a valuable meerschaum pipe was taken from Messrs M. L. Henry & Company's grocery store on George street. The pipe belongs to one of the clerks who knows the party taking it, so if not returned there will likely be an arrest in the near future.

—Arrangements for the regatta and ball to be held to-morrow at Chemong Park have been practically completed. The ball, which is to be held in the pavilion at the Park, is under the supervision of Mr. Fred Roy, and promises to be a huge success. A special 'bus line will be run, starting from the post office at 7.30 p.m.



Rail Road Men

In all departments of active service stand ahead of the readiness of mind and promptness of action which depend on a healthy nervous system. Let a railroad man be "rattled," and every life depending on him is in danger. A great many railroad men have found in Dr. Pierce's Golden Medical Discovery a valuable tonic for the overstrained nervous system. It builds up the body, purifies the blood, nourishes the nerves, and induces a healthy appetite and refreshing sleep.

"I suffered for six years with constipation and indigestion, during which time I employed several physicians, but they could not reach my case," writes Mr. G. Popplewell, of Eureka Springs, Carroll Co., Ark. "I felt that there was no help for me; could not retain food on my stomach; had vertigo and would fall helpless to the floor. Two years ago I commenced taking Dr. Pierce's Golden Medical Discovery and little 'Pellets,' and improved from the start. After taking twelve bottles of the 'Discovery' I was able to do light work, and have been improving ever since."

Send 21 one-cent stamps to pay expense of mailing and get Dr. Pierce's Medical Adviser in paper covers, free. Address Dr. R. V. Pierce, Buffalo, N. Y.

TEN YEARS

The Story of My Wonderful Success.

Reads Like a Fairy Tale-Yet Full of Convincing Truths

An Opportunity of a Lifetime for the Investor.

TAKE ADVANTAGE OF IT.

I ask every reader of this paper to write me. I want to send you my free book entitled "Ten Years"—"The Story of My Wonderful Success." It tells about one of the greatest and most promising investment opportunities ever offered. It tells how my business grew from less than $25.00 capital to its present proportions.

I believe I have the best proposition from an investor's standpoint that could be placed before you. For ten years I have been teaching men and women to live according to the laws of Nature. My book is the history of my life. It shows what energy and ambition can accomplish in the world of affairs. It is intensely interesting to any man or woman who has a few dollars to invest in a legitimate enterprise.

I started business in the City of Brooklyn in 1896. My capital amounted to less than $25.00. My first year's business netted me over $1,000.00. Last year I paid dividends to my partners of 15 per cent. Five years ago my business had grown so large that I was compelled to remove to larger quarters. I am now at 63-65 Clark St., Brooklyn, N.Y.—in connection with Hotel St. George. Experts pronounce my institution to be the best appointed of its kind in the country. I estimate the equipment of the Mac Levy Institute of Physical Culture to be worth at least $40,000.00.

I want to have a building of my own that will enable me to accommodate my increasing business. To erect this building I need capital, but more important than this to increase my business to the proportions which I desire, I need the co-operation of men and women throughout the country and the world.

Co-operation is the Secret of Success

I recognize it. I believe that with thousands of co-operators throughout the country I can build my business to tremendous proportions to the benefit of the shareholders and myself.

The Mac Levy Company is incorporated under the laws of New York for $150,000.00. They are proprietors of The Mac Levy Institute of Physical Culture and The Mac Levy Gymnasium Equipment Company.

The last named branch of the business of the Mac Levy Company is comparatively new. I have been at work for several years to establish such a department in connection with teaching Physical Culture. The most difficult part of forming the Equipment Company has been accomplished. The business is now in condition to be pushed on a large scale. Hundreds of thousands of dollars are spent yearly on new gymnasiums and their equipment. The profits are large. A company of this kind has an immense field in which to work. Competition is slight. It is evident that the Mac Levy Gymnasium Equipment Company can build an enormous business.

The Mac Levy Company operates during the summer months at Steeplechase Park, Coney Island, and at Averne Hotel, Averne-by-the-Sea, L. I., as well as at our Brooklyn Institute. I also does an extensive mail business. I teach people how they should live and exercise. My students are scattered all over the United States, and in English speaking countries.

A PROBLEM

which arrises in the minds of every man and woman is how to secure a comfortable income in the earlier years of their life, that they may reap the full benefits which such an income affords.

I have long thought that there are hundreds of people in moderate circumstances who would like to invest a few dollars in an Institution of this kind. It is to such people that I intend this announcement shall appeal. I am offering a block of the Treasury Stock of this company to the public at its par value. My reasons for doing this are that I wish to erect a building and to extend the business of The Mac Levy Institute of Physical Culture and The Mac Levy Gymnasium Equipment Company.

I WANT YOU AS MY PARTNER

I need your help and suggestion. I want you to work with me and help me to secure a tremendous amount of new business.

I believe that if you could talk with me personally and go over the records of the business which I have done, see in black and white the figures which show the steady growth my business has experienced during the past ten years, examine my plans for future extension, and then look over the magnificent equipment of my Institute, and would want no further evidence that money put into my business would bring you the greatest possible returns consistent with safety and good management.

I ask you to write for my free book. I believe it will interest you. You have a few dollars that you want to invest. Why let it stand idle earning only 3 or 4 per cent that Savings Bank pay their depositors? Put it to work. Join it with mine. This Company ought to pay at least

TWENTY PER CENT. DIVIDENDS

within one year.

Write for my book to-day. NOW.

MAC LEVY

President of the Mac Levy Co., Inc.

A Plain Warning Handed Out to Russia by Japs

If Japan's Present Demands are Refused, the Next Meeting Must be in Tokio, and Terms Will Then be Harder.

Tokio, Aug. 23.—The Jiji, in commenting upon the proceedings of the Portsmouth Peace Conference, to-day says:

"The cession of the Island of Sakhalin and the reimbursement of the cost of the war are the vital points of our demands, and leave no room for any compromise. The moderation and reasonableness of these demands will be admitted, even by France. Should the attempt to promote peace fail, the responsibility will rest with Russia, not with Japan. If the Russian refuse to accept the proposed terms, it will be advisable for our delegates to withdraw and tell them that the next meeting will be in Tokio."

The Asahi says: "The war has won a constitution for the Russian people. It declares that Japan is fighting the Russian Government, and does not entertain any ill-feeling toward the oppressed subjects of the Russian Emperor. It expresses the belief that all true Russians must hold some appreciation for what Japan has accomplished for them.

Portsmouth, N.H., Aug. 23.—At one o'clock to-day a personal representative of President Roosevelt was closeted with Mr. Witte and Baron Rosen in the naval general stores at the Navy Yard. The appointment for the conference was made through Assistant Secretary of State Pierce last night. It is not yet known who the emissary of the President is.

This sensation is yet unknown at the Wentworth. Since 12.30 the correspondents have been waiting on the verandah of Mr. Witte's apartments, where he had an appointment to meet them at that hour to be photographed with them. They awaited his coming for half an hour and then dispersed and everyone is wondering where Mr. Witte is, and whether he forgot his engagement.

The conference is supposed to have begun about half-past twelve. Mr. Witte and Baron Rosen left the hotel this morning in automobiles, supposedly for a ride. Mr. Pierce has not been at the hotel since this morning, and it is supposed he is also at the Navy Yard, where he may have received the President's envoy, and presented him to the plenipotentiaries.

A PROPHETIC MARKET.

Paris, Aug. 23.—The Bourse to-day opened firm, but became irregular and depressed, owing to unfavorable advices from Portsmouth. Russian securities opened buoyantly, then reacted and declined towards the close. Rumors from Portsmouth regarding the outcome of the peace conference caused heavy offers and the market closed weak. Russian Imperial fours were quoted at 88.60, and Russian bonds of 1904 at 505.00.

RUSS WARSHIPS RENAMED.

Tokio, Aug. 23.—The Imperial Navy Department has re-christened the captured Russian warships, as follows:

The Peresviet has been named the Sagami; the Poltava, the Tango; the Bayan, the Aso; the Pallada, the Tsugaru, and the Varlag, the Soya.

A PARTICULARLY SAD DEATH

Demise of Mrs. Percy D. Fitzgerald on Monday Night

It is with sorrow that we chronicle the demise of Mrs. Percy D. Fitzgerald, which took place at 222 London street on Monday night, of tuberculosis. The deceased was only 23 years of age, and was only two years married. She leaves besides a husband, her parents, Mr. and Mrs. Silas McConkey, 183 Edinburgh street, two sisters and two brothers, to mourn her demise. The sisters are Misses Bertha and Della, of this city. One brother, Albert McConkey, also lives in the city, and Fred, another brother, at Selwyn.

The Times joins in extending its sincere sympathy to Mr. Fitzgerald and family in their terrible bereavement.

The funeral will take place from the residence of Mr. George W. Fitzgerald, father of Mr. Percy D. Fitzgerald, this afternoon at 2.30 o'clock and proceed to Little Lake cemetery for interment.

MR. J. B. McWILLIAMS HAS RESIGNED OFFICE

His Resignation Handed to Hon. Frank Cochrane, in Toronto, Yesterday.

Mr. J. B. McWilliams handed in his resignation as an employee of the Provincial Government yesterday. He went to Toronto for the purpose, and handed it in person to the Hon. Frank Cochrane, Commissioner of Crown Lands. It is understood that he was requested to take this step by the minister.

Mr. McWilliams for a period of thirty-three years has ably filled the position of Provincial Crown Timber Agent. During these years he has had much to do with the management and preservation of the forests of the province, has done a great deal in the way of protecting the timber of the country. His many friends throughout the Province will regret to hear of his resignation.

The Review says: The cause of Mr. McWilliams' removal from office is of course, partisanship, he having taken an active part in the election in January last, on behalf of his son, who was the candidate in West Peterboro.

It is reported that some of Mr. McWilliam's friends in Peterboro will make strong representations to the department, asking that, in view of his long services he be given a substantial retiring allowances. Mr. McWilliam's salary was $2,600 a year.

PEACE CONFERENCE WILL MEET TO-DAY.

Calming Russia by Oppression--Hundreds of Thousands of Strikers in Cities are Absolutely Starving.

St. Petersburg, Aug. 23.—P. N. Milukoff, professor of Russian history in the University of St. Petersburg; Prof. T. N. Denisevitch, and many others, all identified with the reform movement, were arrested at their respective residences by the political police and are now in prison.

The reason given by the Department of Police for the arrests is that the prisoners were arranging for a meeting to condemn the Imperial manifesto.

Their contention is that they were simply planning to continue the reform campaign.

The results of the continuous strikes are becoming terribly apparent. Among the strikers of the Putiloff Works, who with their families number 60,000, hunger and disease are making terrible ravages among the children is alarming. The state of things at Ivanovoznesensk is worse. The strike there lasted three months and 150,000 are absolutely starving. The Sormova Steel Works at St. Petersburg have closed making 14,000 idle. At Riga 15,000 men, with their families, have been fighting hunger for over three months.

Portsmouth, N.H., Aug. 23.—The following official bulletin was issued at 10.20 a.m.:—

"Owing to the impossibility of finishing before three o'clock this afternoon the work of preparing the protocols of the meetings of the conference to-day's meeting has been adjourned until 9.30 o'clock Wednesday morning."

VISIT OF THE PRINCE

Toronto Makes Definite Arrangements for Reception

Toronto, Ont., August 23. — Arrangements have been definitely made for the visit of Prince Louis of Battenberg, with his escort of five officers, 140 men and four guns to the exhibition on August 29 and 30. Prince Alexander of Battenberg, son of H. R. H. Princess Beatrice, will probably be one of the party. Arrangements also have been made for the visit of the 74th Regiment, of Buffalo, on September 2, 3 and 4, several hundred strong. The Buffalo, who will bear arms and be in full uniform, will give what is known as the ceremonial drill at the exhibition on Saturday and again on Monday. On Sunday afternoon, the 74th, accompanied by the Queen's Own Rifles, will parade for church.

The Tiny Transatlantic Traveller

St. Thomas, Ont., August 23. — Travelling by herself, little Dorothy Hardy, aged five years, arrived here by C. P. R. all the way from York, England. The father and mother preceded Dorothy to Canada some months ago, the child being unable to come, being ill in the hospital with typhoid fever. The child had a letter, asking conductors and agents to see her along safely.

Many Lot of Doukhobors

London, August 23.—The Doukhobors who have arrived en route for Canada are said to be men of fine physique, four are six feet eight inches tall, whilst the majority are over six feet.

CIRCUS DAY IS CHILDREN'S DAY

Norris & Rowe's Greater Circus Brings Happiness to the Little Ones

Circus day is children's days. It belongs essentially to them. Tradition has made it so. Years of the most careful effort by the managers of the Norris & Rowe shows to eliminate everything and anything in the slightest degree immoral or impolite in the character of their exhibitions, has at last convinced the public generally of the absolute cleanliness and morality of the circus as a place of entertainment and with such comprehensive shows as are the Norris & Rowe mammoth double menageries, museum, hippodrome, congress of trained animals and two ring circus, a source of profitable and practical instruction in this great consolidated institution. There is no longer any excuse or apology for not going to the circus. The presence of clergymen at every performance, with seldom an exception, attest the general and sensible change of consideration for the circus by church people. But all this does not release anyone from a moral obligation to take their children to see the animals and the accompanying circus performance. It is really not only a matter of extreme delight to the children to see the "show," but it is a duty as well as a pleasure upon the part of parents, relatives and friends to enable them to see it. A portion of the program of every circus is devoted to the little ones. The clever comic conceits of the congress of clowns, pretty performances by ponies, great clown bears, tiny riding bears; goats and sagacious dogs fill the fancies of the little ones to overflowing. The Norris & Rowe Greater Circus will exhibit at Peterboro, Saturday, Aug. 26th.

ROYAL Baking Powder

ROYAL BAKING POWDER CO., NEW YORK.

GENERAL SPORTING GOSSIP

THE TURF—BASEBALL—LACROSSE—FOOTBALL

Midland Baseball Team will Play Here This Afternoon.

The Midland baseball team, champions of the Northern League, will play the locals here this afternoon at three o'clock on the Riverside Park. This will be an interesting and hard fought game as the visitors play the fastest kind of ball. The visitors are running a monster excursion to town. Upwards of 1,000 people are expected from Midland and intermediate points.

Berlin Hockeyists will Not Join the Semi-Professional League

Berlin, Aug. 23.—The Berlin Hockey Club, at its annual meeting held last evening, decided unanimously not to have anything to do with projected semi-professional league advocated by Brantford.

Berlin will again be in the Ontario Hockey Association, with either an intermediate or a senior team, and likely junior as well.

Mr. H. Ed. Wettlaufer, one of the best known hockey men and referees in the west, was nominated for candidate on the O.H.A. Executive.

The receipts last season were $1,418.20, and the expenditures $1,402.10.

The officers are; Hon. Presidents, Dr. Lackner, M.P.P., Mayor Krans, Wm. Ross, C. Doerr, J. Cochrane, President, Ed. Wettlaufer; Vice-Presidents, Dr. Karn, E. Ferrier, W. H. Lament; Secretary-Treasurer, G. Debus; Assistant Secretary-Treasurer, O. Vogelsang; Manager, W. Schlichman; Delegates to O.H.A., annual, Messrs. Wettlaufer, and Doerr.

Toronto, Aug. 23.—Although the students have a long time before coming back to McMaster College, there is even now talking over the prospects of the hockey team of that institution for next winter.

The team for 1906 will be a strong one and should be able to hold its own even in the senior series of the Inter-Collegiate Association. Rolly Young, who played with the champion Marlboros, will figure on the team this year, and J. B. MacArthur, who played point for the St. George's the latter part of last season, will be another who will be on the college seven. There are nearly all of last year's team left as well as several new players to choose from.

Only One Senior O.R.F.U. Club For Toronto This Season.

Toronto, Aug. 23.—At a meeting of representatives of the Toronto Rugby Football Club, senior champions of the Eastern District, O.R.F.U., and the football section of the Argonaut Rowing Club, held last night at the English Chop House, it was decided to amalgamate and form one strong club to represent this city in the senior series of the Ontario Rugby Football Union.

The Torontos thereupon voted to become part and parcel of the football section of the Argonaut Club. A joint meeting will be held at the Chop House next Monday night, when officers will be elected and organization completed for the coming season.

The amalgamation of the two clubs should be for the good of rugby football in Toronto. The Torontos had a splendid team last year, one which would undoubtedly improve this year, and the Argonauts had also some very good material. The combination of forces and the centralization of the best rugby talent of the city in one club will undoubtedly give Toronto a team to be proud of and to cheer for. This team will undoubtedly make Hamilton look to its laurels.

The new team will be known as the Toronto Argonauts, and will wear the famous colors of the oarsmen. A junior team will also be entered in the O.R.F.U.

NEW O.R.F.U. HEADQUARTERS.

The prospects look very bright this year in the Ontario Rugby Football Union, and several new teams are expected to compete in the various series. The rule books this year are published by the Canadian Rugby Football Union, and will contain the playing rules of the Quebec, Intercollegiate, and Ontario Unions, besides other data. The book will be issued in a couple of weeks, and copies will at once be sent to clubs.

Any clubs desiring information in regard to joining the O.R.F.U., are requested to write the secretary, Frank D. Woodworth, 79 Adelaide St. east, Toronto. Teams need not delay starting practice until the rule books are issued, as there are few important changes from last year's rules. One of the principal changes is regarding off-side. Last year the "fair catch" rule was in force, and at the annual meeting the wording of this rule was changed, so that players off-side must give an opponent at least three yards in which to handle or catch the ball. Clubs starting practice should see that this rule is strictly observed, as it will save an endless amount of trouble later on in the season.

LACROSSE.

Mr. E. M. Best, Secretary of the Peterboro Lacrosse Club, has received the following letter from Mr. Allen, President of the C.L.A., in reference to the charges made against the Midland team;—

Mount Forest,
August 18.

Mr. E. M. Best,
Peterboro.

Dear Sir,—I am in receipt of your letter to Mr. Hall re the Midland game and promptly suspended the players named in your communication. The whole question will be taken up at the first meeting of the executive and the guilty parties punished as far as the association can act in the matter. I would like to see Mr. Crowley and would use my influence to have the executive pay any expense he would be at in prosecuting the case as it is an outrage that should not be tolerated.

Unless Midland can clear themselves they will be expelled from the Association for playing men under assumed names. The rules do not permit an amateur to play with or against a professional without losing his amateur standing.

I am asking Midland for explanations.

Yours truly,
GEO. L. ALLEN.

The Crown Attorney at Barrie has also taken the matter up, and has written the local club asking that a charge be laid against Aikens for biting Crowley.

Nothing definite, however, has been decided as yet.

The Toronto Star in referring to the Midland-Peterboro game and its results says:—

By order of the King—his Majesty President Allen—the Chippewas have lost their goal-keeper. If the charge against Robinson is true, his suspension should be made permanent, for the C.L.A. has made rules, and it should see that they are enforced. Not only has Robinson wrenched the team that hired him for the season, but he has professionalized the Midland team as well, and, according to the reasoning of certain lacrosse experts, the amateur standing of the Peterboro team is rather shaky. This point may not amount to very much, but the C.L.A. should see to it, that the men who enter its senior series as professionals should be honorable enough to conquer any mercenary temptation to engage in junior C.L.A. battles.

And that case of biting—if the Peterboro people are to be believed, it was rather a gruesome affair—the best way in which the C.L.A. can deal with it is to spare no effort to have it fully investigated. If the charge is true that player should never be allowed to go on a field again. The best place for vicious players is the police court.

WITTE SCORED BY JEW

Isidore Singer in Open Letter Calls Recent Meeting a Clever Trick

PLAN TO APPEASE BANKERS

Time for Begging Favors Over, and Wide Revolution in Russia is Predicted

New York, August 23.—The American Hebrew in its issue today contains the following presentation of the case of the Jews in Russia, written as an open letter by Isidore Singer, Ph. D., the projector and managing editor of the Jewish Encyclopaedia, addressed to M. Witte, the Russian plenipotentiary:

"Parlons peu, parlons bien,

"An open letter to his Excellency, Sergius de Witte.

"Your Portsmouth press bureau has certainly translated for your private use Mr. Mandelkern's de visu description in this morning's Times of darkest Russia. This masterly, because genuine, tableau of the true state of things in your own and the fatherland of about 6,000,000 of my coreligionists, together with the conference you had yesterday with five prominent Jewish gentlemen, suggested to me the thought of having a little heart to heart talk with your Excellency, not in the secrecy of your reception-room, but with thousands of American citizens as witnesses.

SEES A CLEVER TRICK

"It was very clever on your part to induce most of the sterling value and social standing of Jacob H. Schiff, Isaac N. Seligman, Oscar S. Straus, Adolph G. Lewisohn and Adolph Kraus to call on you, apparently to discuss the Jewish problem in Russia, but really in order to catch the sympathy of the Rothschilds and the Rothschild group in Europe. You know best that your government has not the slightest idea of ameliorating the unhappy lot of its Jewish subjects. Mr. Schiff's melancholic statement 'that the discussion at Portsmouth cannot lead to any practical result, although, indirectly, the mutual, frank exchange of views may finally be of beneficial consequences,' justifies on the part of those who take the trouble to study the Russian problem the question whether, after all, the noble spokesmen of the Jews of Russia have not been the victims of the Russian species of the ill-famed fides Punica.

"There is a strong party among us of the opinion that the time of begging for favors and privileges on behalf of the 6,000,000 Jewish subjects of your fatherland, whose free and relatively prosperous Polish ancestors were, 133 years ago, against their will annexed by Catherine II., is over, and over forever.

SEES SIGNS OF FREEDOM.

"No more petitions, no more supplications. The Russian Jews have thrown in their lot with that of their fellow sufferers, the 44,000,000 Poles and Finns and Germans and other non-Russian nationalities which are kept under the heels of autocracy and a corrupt police. But how long will it be before the sounds of the Russian bell of liberty will ring out from the top of the holy Kremlin—a few feet from the historic spot where Sergius, the Jew hater, was torn to pieces by a Greek orthodox bomb!

"Does your Excellency know that the entire Jewish press of this country published a few weeks ago an urgent appeal to all Jewish bankers not to participate in any Russian loan unless an amelioration of the position of our Jewish fellow citizens—if this expression be not ironic—be granted by your Imperial master, his mother and the grand ducal coterie — granted, not promised? Knowing as I do Messrs. Schiff and Seligman, I can assure you that not one penny will leave their vaults to patch up the Russian exchequer. Then, der liebe maedel ist amused—at least this time, for Japs and Jews are in the long run smarter than even men of your stamp, for they have studied the method of the Kulak more thoroughly than the Kulak himself.

"And now, does your Excellency wish that I reveal to you my uttermost thoughts about the fate of my coreligionists in your fatherland? I have studied the latter's political, agricultural, social and religious status because, according to my idea, the only question of importance before the contemporary house of Israel is the Judeo-Russian problem. Well, since I love my brethren, I would if I had the means to take them out of their present living hell and transfer them over your one-track Trans-Siberian Railway to Manchuria, which now has been torn from your clutches by Togo and Oyama, or over land and sea to some happy island in a new world. For how deep must be the misery of the down-trodden Jewish outlaw if the 86,000,000 Greek orthodox 'sovereign slaves' are slowly starving to death for the higher benefit of a greedy bureaucracy?

"You know better than anyone else that the somber tableaux of the Russian peasant's life, drawn by men like Smeharitch, Schwanebach and Lokhtin, correctly represent the truth. My pity goes out indeed, not only to the Hebrew dweller of the pale, but also to the poor moujik in the mir, earning 9 or 10 cents a day, seeing meat on his table twice a year and living in hovels, compared with which even the cabins of the miserable cotter in Western Ireland seems like palaces.

CONDITION WORSE THAN AFRICA

"Why should I not feel deep sorrow with the 160,000,000 human beings who are shamefully exploited by a vile camarilla, and whose life standard your famous countryman, the African traveller, Junker, places far below that of the negro in the Eastern Soudan?

"To conclude, whether you and Rosen reach an agreement with Komura and Takahira or not, you had had the great advantage of making the personal acquaintance of the American people and its sturdy President. Returning home, try to apply, should your Imperial Master offer you the reigns of the state carriage, the principles of American life and American government to your unhappy fatherland—unless the malady is rooted so deep that the amputation of the Empire is the only means of salvation.

"I am, your Excellency, most respectfully,

"ISIDORE SINGER."

ARE RIPE FOR REVOLT

Russian Army and Navy Said to Be on Eve of Mutiny

New York, Aug. 23.—The World's Moscow correspondent says both the Russian navy and army are ripe for revolt. Sailors on every warship that is left to the navy are in a rebellious temper, and are awaiting the news of the result of the trial of the Kniaz Potemkin mutineers, who were caught, and of the other sailors who mutinied at Odessa. There is not the slightest doubt but that there will be a general mutiny in the navy the moment the Government carries out the sentence of death that will be almost surely imposed on the Potemkin's crew. The crews of the warships at Libau are on the eve of mutiny. Rebellious ferment is working among the troops of the Moscow garrison now encamped for summer training on Khodinsko.

HAY FEVER FOR 27 YEARS

Well Known New England Woman Cured of Hay Fever—Cure Was Lasting.

The thousands of discouraged people who dread the approach of summer because they have hay fever and cannot find any relief from it, will read with interest and gratitude the following statement from Helen S. Williams, of Mansfield, Mass.

"For 27 years, from the month of August until heavy frost, I have been afflicted with hay fever, growing worse and worse each year, until of late years I was unable to attend to my work during that period.

"Last summer I fortunately gave Hyomei a trial, and I am happy to say that it entirely cured me, and I have had no occurrence of the disease since."

This letter is only one of many that have come to the proprietors of Hyomei, and the results following this treatment have been so remarkable that it is proposed at the annual convention of hay fever sufferers to recommend Hyomei.

By breathing the germ-killing and healing balsams of Hyomei, anyone can have at any moment of the day, either in their home or office, a climate like that of the White Mountains.

The complete outfit costs but $1, extra bottles 50 cents. Wm. Medill agrees to refund the money to any hay fever sufferer who uses Hyomei without benefit.

BALTIC CRUISE OF BRITISH FLEET

Berlin Thinks Situation is Serious and Issues Warning

MANY SUGGESTIONS MADE

Attitude for Disinterested Contempt Towards Uninvited Visitors is Urged

Berlin, August 23.—The relations existing between Germany and England continue to cause concern. The Berlin newspapers, which reflect the government's qualms, are devoting columns of editorial comment to the situation, which they do not hesitate to describe as serious to a degree. The Nord Deutsche Allgemeine Zeitung, the official organ of the Foreign Office, finds it necessary to issue an appeal, warning the people to beware of indulging in inflammable language and intensive actions during next week's visit of the British fleet to the Baltic.

At that time the government will run special trains to the coast to enable persons living inland to get a glimpse of the British armada. From many quarters come suggestions that an attitude of disinterested contempt is the proper one for the German people to exhibit toward the uninvited sailors when they come ashore.

King Edward's omission of a meeting with the Kaiser while he was crossing Germany a week ago, is interpreted by many as affording proof that the British Sovereign has allied himself with the elements that not only do not want the friendship of Germany, but are doing all in their power to keep the Fatherland from cementing friendship with other people.

OPEN SHOP THE BATTLE CRY

Chicago Typothetae Will Make Contest for Open Shop and Start School to Teach Men to "Stick Type."

Chicago, Aug. 23.—The long threatened contest between the International Typographical Union and the United Typothetae over the demand of the union printers for an eight-hour day in job shops after January 1 is scheduled to come to a crisis in Chicago this week.

According to the present plans of the Chicago master printers, the issue will be forced on the "open-shop" question.

For nearly a year the employers have been getting ready for the fray. Schools for the education of non-unionists have been established in various parts of the country and applicants taught how to "stick" type, and operate linotype machines. The Chicago employers, it is declared, are anxious to force the controversy before January 1, in order that they may get first chance at the available supply of non-union workers, instead of waiting until there is a demand all over the country.

EMPLOYING PRINTERS TO UNITE

Meeting to be Held in Toronto at an Early Date

In view of the action of the International Typographical Union in declaring in favor of shortening the day to eight hours after January 1st, steps are being taken to organize the employing printers of Canada. A meeting is being arranged to take place in Toronto at an early date, when steps will be taken to practically assure an open shop throughout the country in future.

A prominent Toronto employing printer said yesterday: "The master printers have been waiting for the action of the Typographical Union Convention in Toronto. We hoped the men would see the folly of their attempt to enforce the eight hour day, but now that they have not, nothing remains for employers but to meet the issue at once."

—Col.-Sergt. W. H. Moore and Pte. George Fitzgerald of the 57th Regiment, are taking part in the Ontario Rifle Association matches at Long Branch Ranges.

TIREDNESS MEANS DANGER

Indicates Faulty Blood and Worn Out Nerves—Built Up or Total Collapse Will Surely Follow

When you're tired all day, bothered by trifles, exhausted with nervousness, be sure there is something wrong.

You need bracing up, new nourishment in the blood, need a powerful medicine to vitalize the nerves and distribute force and staying power to all over-worked organs.

The most marvellous success is Ferrozone, a nourishing tonic so scientific as to be the admiration of every physician. Ferrozone performs wonders for people in poor health; acts directly on the blood, enriching it with strength and new life that is at once dispatched to all parts of the body. Ferrozone feeds the nerves and vital energies, supplies force, determination and joyous, buoyant spirits.

A case where there was lassitude and lack of strength is that of Mr. David Brown, of post-office box No. 30, Boston, Ont.: "About a year ago my health commenced to fail. My hands and feet seemed always cold. I felt worn-out and exhausted, weak as a little child. My face twitched. My limbs and arms commenced to lose their sense of feeling and finally my left side was perfectly numb. All my color left. My appetite ran down. Ferrozone was the first to give me any help. I improved with it very quickly. It toned up the blood and started circulation, so that the numbness gradually disappeared. My condition was perfectly cured by Ferrozone, and I have been well ever since. (Signed) "David Brown."

SPECIAL NOTICE.—To get satisfactory results be sure you get Ferrozone only. Fifty cents per box, or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterboro are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year strictly in advance.

Peterboro, Ontario.

UNION LABEL

PETERBORO AUGUST 25 1905

PROTESTANT FEDERATION

A meeting of great interest and, perhaps, of great importance in the religious world will take place beginning November 15, when representatives of twenty-four denominations, having an aggregate membership of 18,000,000 persons, will assemble in New York for the purpose of conferring on the advisability and feasibility of forming a federation of all the Protestant churches in America. The plan of drawing all Protestant churches together in this manner was perhaps suggested by the example of the Presbyterians, who seem now in a fair way to get together as a federal body.

The union of the various and sometimes warring sects of Protestantism into one great, homogeneous church has been dreamed of and advocated more or less ever since the reformation. Many Protestants have always conceded that it would be a good thing, but no denomination has shown a disposition to make such concessions in regard to organization, creed, and teaching as it would be necessary for all to make before it would be possible for such a union to take place. They have professed a willingness to unite, but each has tacitly or avowedly made union conditional upon such terms as no other would accept. Considerable of the old spirit still exists, and complete fusion would be as impracticable now as it was in the past.

Federation is practicable because it makes possible union without fusion. Protestants agree concerning most points. There are no differences between them regarding the fundamentals of morality. They all wish to disseminate the truths of Christianity as widely as possible, and there are no considerable variances between them concerning the best ways of doing this work. Federation would enable them to inculcate the doctrines which they all accept, to accomplish the objects they all aim at, much more effectively with a given sum of money and a given expenditure of effort than they are able to now, and that without sacrificing any of their denominational peculiarities of creed or organization. The federation would carry on the work in regard to which all were agreed. Each church would be autonomous in regard to matters as to which there was not complete agreement. It would seem there could hardly be any doubt among Protestants and the friends of Protestantism as to the desirability of organizing along these lines.

It is an interesting question whether the proposed federation, if effected, would not prove the first step toward a complete union. That it would bring about a better understanding between the various churches and cause them to look with more tolerant eyes upon each other's peculiarities of dogma and worship and with less exclusive view upon their own seems probable. That it would lead in the near future to actual coalescence seems improbable. Widespread religious revolutions are not so easily or speedily brought to pass.

STREET RAILWAY DEVELOPMENT

The growth of street railway properties since the introduction of electrical traction has been phenomenal. In no other line of effort in a corresponding time can similar prodigious development be shown, and, while it may appear that little room is left for further expansion, the yearly statistics give evidence that the limit is far from being reached.

In a careful compilation made by the Street Railway Journal from statistics contained in American Street Railway Investments for the year 1905 and 1901 it is shown that the capitalization of street railway properties in the United States amounts to $1,761,571,812, an increase for the year of $68,181,544, and that the bonded indebtedness totals $1,455,520,159, the additions for the year being $66,055,810, the aggregate capital liabilities reaching the enormous sum of $3,217,091,971. Investment in New England street railways amounts to $254,723,123, of which sum Massachusetts has $134,100,065, or $14,000,000 more than one-half of the total. The eastern group, in which New York is classified, comes first, the liabilities reaching $1,401,343,690, of which sum New York State has $635,669,985. Nevada comes at the foot of the column in the amount of her street railway investments, she having only $175,000 of bonds placed, with no capital stock. Pennsylvania comes next to New York with $394,473,200, and Illinois third with $286,699,150. Eighty per cent. of all the street and elevated cars in the United States are in New York, Massachusetts, Pennsylvania and Illinois. New York is first with 15,942, and Massachusetts second with 8,540, or 398 more than Pennsylvania and 182 more than Illinois, which comes third in the list of equipment. When it comes to the matter of track mileage, Ohio heads the list with 3,137 miles, Pennsylvania second with 3,319, New York third with 3,192, and Massachusetts fourth with 2,734 miles. South Dakota is last with only four miles, and Nevada next with five miles. The total street car track mileage in the United States is 29,548 miles, and the number of companies 993, of which Pennsylvania has 124, the largest of any of the other States, New York has 101, Ohio 98, and Massachusetts is fourth with 73.

While more than three billions of capital has been placed in street railway properties, nearly another billion has been invested in enterprises which supply road and overhead equipment. This can rightfully be classed as incidental to street railway capitalization, and these together represent one of the greatest investments in a single line of industry known to the financial world.

In Canada a corresponding increase has taken place, with the certainty of a very much greater mileage in the near future.

SUDDEN DEATH IN DOURO

Mrs. Michael O'Brien Drops Dead When Sitting in Her Chair

The residents of Douro township were shocked Sunday evening to hear of the sudden death, when sitting peacefully in her chair, of Mrs. Michael O'Brien, of heart disease. The deceased was forty years of age, and lived three miles east of the post office.

A distressing feature of the affair is the fact that her husband was brought to St. Joseph's Hospital about two weeks ago suffering from nervous prostration.

The deceased was a daughter of Mr. Michael Boland of Douro, and she has one sister, Mrs. John Barrie, of Buffalo; a brother, Mr. Edward Boland, also survives her. Her mother predeceased her. Two half sister, Mrs. Stephen Grisdale, of Douro, and Mrs. James Carr, also of that township, are living.

The funeral will take place to-day at nine o'clock from St. Joseph's church, to the Douro cemetery.

Two Boys Vanish from Town

Two boys, Hugh Burke and Pat McAuliffe, aged respectively, 15 and 14 years, who have caused their parents many a heart ache, decamped on Civic Holiday. They have not been heard of since. It is not the first time these boys have left home under similar conditions and the parents are at a loss to know what to attribute their strange behavior to. McAuliffe until lately has been working at a local drug store, and Burke has been attending the South Central school. Parents are long suffering and of great kindness towards their erring children, and these boys' relations are no exception to the general axiom, so would like greatly to get news of the boys.

Ottawa, Aug. 21.—Permission has been granted to Miss Ah Mac Wong, a Chinese lady medical student of Toronto University, to visit the United States.

FERROVIM TRADE MARK

A Tonic Wine, pleasant to take.

Gives strength
Makes new blood
Builds up the system
Throws off all weakness

A boon to those recovering from wasting fevers and long illness.

Sold by all medicine dealers.

Dawe & Lawrence Co., Ltd., Montreal.

Ayer's Sarsaparilla. Used in all parts of the world for over 60 years. Has the unqualified endorsement of the best physicians. A strong nerve tonic. A blood purifier of great power. J. C. Ayer Co. Lowell, Mass

NAVIGATION

RICE LAKE AND THE OTONABEE WATERS

Calcutt's Line of Steamers

Time Table for June, July and August, 1905

Commencing Thursday, June 1st the

STR. CITY OF PETERBOROUGH

will run as follows:

MONDAYS, TUESDAYS, WEDNESDAYS and FRIDAYS to Jubilee, Gore's Landing, (Harwood on flag) and Idyl Wyld. On the above days the steamer will leave the Peterborough wharf at 9 a.m.; returning, will arrive in Peterborough at 8 p.m.

THURSDAY and SATURDAY AFTERNOONS the "City of Peterborough will leave the Peterborough wharf at 1.30 p.m. for Jubilee and Gore's Landing; returning will arrive in Peterborough at 9 p.m.

STR. WATER LILY

will leave Harwood every Saturday morning at 6.30 a.m., calling at Gore's Landing and Jubilee, and all points on the river; returning, will leave Peterborough at 3.45 p.m.

Parties desiring to spend Sunday at Idyl Wyld or intermediate points may leave town on afternoon boat on Saturday and return Monday at 9 a.m. Special arrangements will, however, have to be made in advance at Mr. Calcutt's office for return steamer.

FARE to Jubilee, Gore's Landing, Harwood and Idyl Wyld, 50c., good to return same day only. Children half fare. Books of Family Tickets $5.00 for points between Peterborough and Idyl Wyld.

Special arrangements made for Sunday School and other excursion parties on application.

H. CALCUTT,
Telephone 98. Peterborough.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate receive authority to some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 20 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive at the Immigration Offices in Winnipeg, or any Dominion Lands Office in Manitoba or the North-west Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba or to any of the Dominion Lands Agents in Manitoba or the North-west Territories.

W. W. CORY,
Deputy Minister of the Interior

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

How to Visit Colorado

Go first to Denver. It is the State capital, as well as the largest, wealthiest and most metropolitan city between the Missouri River and the Pacific Coast. The city itself is very interesting, and from it start practically all the trains over the various roads into the mountains.

Many of the most enjoyable one-day trips in Colorado begin and end at Denver. The cost of these little journeys is not great.

After you have familiarized yourself with Denver and its surroundings will be soon enough to decide where to go for the rest of your visit. The question must be considered from several standpoints—altitude, hotel accommodations, accessibility, amusements, etc.

Our Colorado literature will help you in deciding where to go and what to do. Sent free for the asking.

Vacation Guide

To Vacation-Land

Each year several millions of people study and plan their summer's outing. Know any such, not far away?

This ad is for the undecided. Out in Colorado there are glorious times awaiting the vacation visitor. There are mountains to climb, burros to ride, fish to catch, games to play, trips to take and sights to see.

I have a booklet entitled "Under the Turquoise Sky," in which is told all about how pleasant, healthful and economical a sojourn in the ideal vacation-land may be. It gives a list of Colorado hotels and boarding houses, and tells how best to reach there—in fact it has eighty pages brimful of useful information.

Low rates to Colorado via the Rock Island in effect all summer long. Specially reduced on certain dates.

Use coupon below if you wish the book and information.

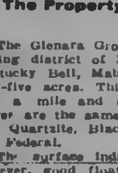
VARICOCELE & STRICTURE

No other disease is so prevalent among men as Varicocele. As it interferes with the nutrition of the sexual organs it produces weakness, loss of semen through the urine, decay of the organs, pains in the loins, aching in the back, nervousness, despondency, bashfulness, palpitation of the heart, constipation, and a combination of these results in complete LOSS OF MANHOOD. Thousands of young and middle-aged men are troubled with STRICTURE. If you have reason to believe you are afflicted with it, don't neglect it. It will ruin you. Don't let doctors experiment on you by cutting, stretching or tearing it. Our NEW METHOD TREATMENT dissolves the stricture tissue, hence it disappears and can never return. We cure Varicocele and Stricture without operation or loss of time. The treatment may be taken at home privately. Send for our Free Illustrated Book on VARICOCELE and STRICTURE. WE GUARANTEE TO CURE OR NO PAY.

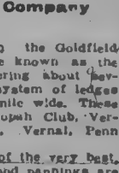
Kidneys & Bladder

All sexual complaints affect these organs, hence the kidneys are a great source of disease. Have you aching or weakness over the small of the back, tendency to urinate frequently, deposit in urine, coldness of hands or feet, a drowsy feeling in the morning. Don't neglect your kidneys. Our NEW METHOD TREATMENT is guaranteed to cure any disease of these organs or no pay.

☞ No Names Used Without Written Consent.



O. W. Rowe, of Jackson, Mich., says: I had varicocele in the secondary stage and two strictures of several standing. I was operated on twice, undergoing great suffering, but only got temporary relief. I was finally advised to try the NEW METHOD TREATMENT of Drs. K. & K. The enlarged veins disappeared in six weeks, the stricture tissue was removed in eight weeks and my sexual energy and vitality returned so I was a man in every respect. I recommend you doctors with my whole heart."



CURES GUARANTEED. NO CURE NO PAY.

Before Treatment. After Treatment.

We treat and cure Nervous Debility, Lost Manhood, Varicocele, Stricture, Blood Diseases, Kidney and Urinary Complaints. Consultation Free. Books Free. Write for Question List for Home Treatment.

DRS. KENNEDY & KERGAN

149 SHELBY STREET; DETROIT, MICH.

The Glenara Gold Mining Co.

Capitalization, 1,500,000 Shares — Stock Fully Paid and Non-Assessable

Par Value, $1.00 Per Share. — Treasury Stock, 700,000 Shares.

This Company was organized in March, 1905, under the laws of Arizona, with a capital of 1,500,000 shares. The par value of these shares is $1.00 each. They are full paid and forever non-assessable. The Company owns approximately seventy-five acres of territory in the Goldfield district. By reference to the map you will note that every acre is within the producing area, and with the systematic development this large acreage is to receive, there is no doubt that the stockholders will very shortly see the Company on a producing basis.

We desire to say right here that this Company is organized for legitimate mining, and not stock jobbing purposes, and among the directors are some of the best known mining men in the West. It is their one desire to make the GLENARA GOLD MINING COMPANY a great success at the earliest possible moment.

It is for the purpose of raising funds to vigorously develop the Company's holdings that some Treasury stock is now offered for public subscription. Out of a capitalization of 1,500,000 shares, 700,000 shares have been placed in the treasury. This treasury reserve insures the company a large working fund, if needed. It is the belief of the management, however, that it will not be necessary to dispose of over 50,000 shares of the treasury stock. The present outlook is such that the management believe that the mine will be on a paying basis before many weeks have passed.

The Property of The Glenara Gold Mining Company Consists of the Following:

The Glenara Group consists of four claims located in the Goldfield mining district of Nye County, Nevada. These claims are known as the Kentucky Bell, Mabel M., Lone Jack and June Bug, covering about seventy-five acres. This group of claims is located on a system of ledges over a mile and a half in length and about half a mile wide. These ledges are the same as those traversing the Kendall, Tonopah Club, Vernal, Quartzite, Black Butte, New York, Brooklyn, Jumbo, Vernal, Penn and Federal.

The surface indications at the time of location were of the very best, however, good float being found upon the ground and good panhings are obtainable, all of which indicate that the property can be developed into a paying proposition. The ground has been thoroughly prospected and the sinking of the shaft begun on the Kentucky Bell claim. There is a force of men sinking a shaft as rapidly as possible. Good ore has been encountered running from $3 to $16 per ton, increasing in value with depth, and it is safe to say that a strike may be looked for any day.

Taken as a whole, the investment offered by the Glenara Gold Mining Company is equal to any prospective company in the district. The claims are exceptionally well located, covering a large area; the management is conservative and honest, and is working hard for the success of the company.

The proposition will stand the very closest investigation, and, in fact, an investigation by prospective investors WILL MEAN AN INVESTMENT. WE COURT INVESTIGATION.

The allotment of stock is very small, and if you desire to become interested with this enterprise, it will be necessary for you to communicate with us at once.

The work on the property is being pushed to the utmost, and any day may bring news of a strike which will advance the price of the stock.

For prospectus and full particulars, address

CHILDREN TAUGHT CANADIAN FARMING

Land Bought in New Brunswick and Colony Will Be Started

GENEROUS LONDON BANKER

He Provides the Money to Enable the Project to be Given a Trial

London, Aug. 22.—Considerable interest is attached to a statement made by Mrs. Close in the Times today that, thanks to the generosity of a city banker, she has been enabled to purchase a farm in New Brunswick, on which to establish English poor law children, who are to be taught farming. It has always been feared here that such colonies will need very careful supervision, which Mrs. Close says will be provided by a local committee, consequently friends in Canada who are anxious for no dumping of unsatisfactory characters feel the movement is likely to do much good.

The Morning Post, in a leading article says there is no ground for unreasonable pessimism regarding the Australian Commonwealth. It contrasts representation in this country, with that of Australia in Canada, to the great advantage of the latter. It says that owing to provincial sentiment, due to delay in appointment of a Federal High Commissioner, it is unreasonable to expect the agent-general of the Australian states to individually command the same attention and respect as Lord Strathcona, the Canadian High Commissioner in the latter is very likely in the near future. Asa Penfield, chairman of the committee, said it was his opinion that a 10 per cent. reduction would be made all around.

Matter of Thanksgiving Day

There is some little talk through out the city of having Thanksgiving Day fixed for the last Monday in October. It is claimed that this would allow persons to have three days with their families who would not be able to get home at all for Thanksgiving Day if Thursday were the day. As has been customary, representations have been made to the Government on the subject, by other towns, and they will receive due consideration.

Business is Assessable

Opinion of Chatham Judge on Appeal by Telegraph Companies

Chatham, Aug. 22.—Judge Dowlin decided against the corporations that appealed against their assessment under the new act. The appeals were brought by the G.N.W. and C.P.R. Telegraph Companies, and the Dominion Express Company, against assessments levied by Thamesville, Bothwell, Dresden and Ridgetown, the companies claiming that they were not liable for any business tax, and that if anyone was assessed it should be the local agent. The judge allowed the appeal of the Dominion Express Company, holding that they were not assessable unless the business were the preponderating business carried on on the premises.

As there was no such provision regarding the telegraph companies, the judge affirmed the assessments against them, and dismissed their appeals, holding that the business carried on was the business of the telegraph company, and that the agent is not assessable. It is noteworthy that Judge Barron, of Stratford, in a decision on the same question, took the opposite view from that of Judge Dowlin.

SCHOONER SANK IN 15 MINUTES

Crew Picked up and Landed Safely at North Sydney

Halifax, N.S., Aug. 22.—The Norwegian bright Speed, bound to Bay Chaleur, put into North Sydney last night with the captain and crew of sixteen of the French schooner Reine des Anges, whom she picked up on the Grand Banks on Aug. 11. Their schooner sprung a leak, and sank 15 minutes after they left in one of the boats. The captain and crew belong to St. Malo.

Chatham, Mass., Aug. 22.—The coal laden schooner M. C. Haskell, bound from New York for Rockland, Maine is a total wreck on Handkerchief Shoal, and her mate, Nelson Tamman of Rockland, has been drowned. Captain Winfield and the other members of the crew reached shore in their own boats to-day and reported that the vessel ran aground on the shoal late last night at low tide, and when the tide turned, she rolled over and sank. A thick haze, which obscured the lights on the shoal, was the cause of the disaster.

SHALL WE DO LIKEWISE

Guelphs Clears $26,171 in Two Years by Owning the Lighting Privileges.

A despatch received yesterday from Guelph, says: Two years since the light and power plants were taken over on behalf of the city, the sum of $155,000 being demanded by the local company which owned the concern. Even with this outlay the report given out yesterday shows net profits for the past two years aggregating $26,171.86. In 1904 the profits were $1,146.28, and this has increased this year to date to $18,925.57. During 1905 the receipts for the gas plant were $28,368.64, and for the electric power plant—$24,014.30. Extensions to the gas plant are now under consideration, and this again should add to the profits, as the improvements contemplated include modern methods and machinery, which it is contended will give increased production at less expense. A reduction

NICKEL AND COPPER

A Few Thousand Treasury Shares

Only are left to be sold before all offerings are WITHDRAWN FOR FIFTEEN MONTHS' TIME.

You can buy the few remaining shares now at $1.00, but fifteen months hence you will probably pay from $5.00 to $20.00 per share.

THERE IS NOTHING EXTRAORDINARY

In shares advancing as above stated in mining propositions, for it is an old story of phenomenal advances in mining shares, Granite Mountain going from ten cents to $75 per share, Calumet & Hecla from $1.00 to $900.00, and so on down the list.

CONSIDER FOR A MOMENT

What this company offers—It controls to-day an actual territory of nearly Three thousand acres of land known to be immensely rich in nickel and copper ores, all in a district known and proven to be sixth among the greatest copper districts in the world. This company will control at least 2 thousand acres in ore. In all nearly five thousand acres, which will not be mined out in two hundred years

WE STAND READY TO PROVE

That this company offers to day the most meritorious mining proposition presented in ten years' time.

Write or call for full particulars. All shares registered by International Trust Company, Boston.

When Kidneys Fail, Health Declines

Dull Aching Back Pains, Scanty and Highly Colored Urine, Headaches and Insomnia Indicate Diseased Kidneys.

After experimenting for nearly 20 years, Dr. Hamilton discovered an absolute specific for weak kidneys. His pills of mandrake and butternut cure permanently.

Can you afford to delay? No, your interest compels you to use this certain cure now—to-day. Only take Dr. Hamilton's Pills, and an absolute recovery is guaranteed. In thousands of cases relief has been instantaneous. Such was the experience of James G. Gordon, of Marysville.

Twenty Years a Sufferer.

"My kidneys bothered me for twenty years. I had gnawing pains in the back and my limbs ached with weariness all the time. My digestion was poor and I had specks before my eyes.

"Dr. Hamilton's Pills helped me from the first day. Relief was immediate. They restored me and my health's better than ever."

All complaints kindred to kidney disease are prevented by Dr. Hamilton's Pills. Their use insures you against Diabetes, Bright's disease and liver trouble. No house should be without such a valuable medicine. Sold everywhere by druggists, 25c. per box, or five for $1.00. By mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

Route boy for south side. One dollar per week. Times Printing Co.

CANADIAN NATIONAL EXHIBITION.

will be held in Toronto, August 28th to Sept. 23th. See Grand Trunk advertisement for special rates.

Girls Wanted

A dining room girl and a kitchen girl wanted at the Snowden House. Highest Wages.

DO NOT MISS

The Great Canadian National Exhibition at Toronto this year. Specially low rates via Grand Trunk.

New Hydrants

A new hydrant is being placed at the foot of Victoria Park on Water street, and another just north of St. Paul's church. The old hydrants have been damaged with the frost.

A Correction

In our report of the proceedings at the Police Court in yesterday's issue, Police Magistrate Dumble is made to say that he does not know what "12 o'clock noon" means. This should have read "12 o'clock in the forenoon," which is entirely different. Twelve o'clock in the forenoon might mean noon hour or it might mean midnight. Any bylaw which is drawn so vaguely should, and no doubt will, be amended.

$10--First of the Season--$10

Four special sensilore excursions from Suspension Bridge, Niagara Falls, to Atlantic City, Cape May, Ocean City or Salt Lake City, via Lehigh Valley Railroad, July 11, August 4 and 11, and Sept. 1. Tickets only $10 for the round trip. Good 15 days. All trains via Philadelphia. Tickets allow stop-over returning. Tickets good on regular express trains leaving Suspension Bridge at 3.50 and 7.15 a.m., 6.20 and 10.15 p.m. For tickets, Pullman berths and further particulars, apply Robt. S. Lewis, Canadian Passenger Agent, 10 King street east, Toronto, Ont.

Peterborough BusinessCollege
larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 80 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

W. H. PRINGLE

Personal

—Mrs. W. J. Green is visiting friends in Lindsay.

—Mr. E. B. Stone, of London, is in Ottawa on business.

—Dr. and Mrs. McClelland are visiting friends in Midland.

—Mr. and Mrs. J. S. Stevenson, Sunderland, are guests of the National.

—Mr. T. E. Bradburn, M.P.P., came down from the Lakes yesterday for the day.

—Mr. G. Mitchell Thomas, Toronto, travelling passenger agent of the Intercolonial Railway, was in town yesterday on business.

—Mrs. Geo. E. Elliott and Mrs. John McPherson, arrived home yesterday from an extended visit to New York and eastern cities.

—The Misses Clarissa Clementi and Grace Bell, left yesterday for Chemong where they will be the guests of Mr. C. Dickenson of the Bank of Commerce.

—Mr. and Mrs. Herb. Dawson, of Port Arthur, have been visiting at the former's father, Mr. Alex. Dawson, Dufferin street. Mr. Dawson went to Toronto yesterday to spend a few days.

—Mr. G. H. Tovey, formerly of Peterboro, now with the General Electric Co., Schenectady, N.Y., is spending his vacation with his parents, Alderman and Mrs. J. H. Tovey.

—We had a pleasant call yesterday from Mr. M. Giroux, of Montreal, who is spending a week, the guest of his brother, Mr. Geo. H. Giroux, Stewart street. Mr. Giroux is an old Peterboro boy, and has resided in Montreal for a number of years. He holds an important and responsible position with a leading departmental store in the metropolis.

A Sign of Success.

The Colonial Weaving Company, of which Mr. R. H. Kells, is manager, have just added six additional high speed label looms to their factory. These machines are made in Philadelphia, and cost about $1,800 to $2,000 each. The company's business is rapidly growing. They now employ 35 hands.

MOOSE JAW HOTEL.

At Moose Jaw, in the Canadian Northwest, at the junction of the Soo Pacific road with the main line of the C. P. R., is a modernly appointed hotel elegantly furnished and has fine sample rooms for the use of Commercial guests without charge. For pamphlet but descriptive of hotels, how to reach them; dates and time tables, write to C. B. Foster, D.P.A., C.P.R., 71 Yonge Street, Toronto, Ont.

A Well-Earned Rest.

Police Magistrate and Mrs. Dumble left yesterday for Preston Springs, where they will remain a short time. Mrs. Dumble, who has been rather poorly lately, will, it is hoped, be completely restored to health by a sojourn at this resort. During Mr. Dumble's absence Mr. H. Rush, J.P., will dispense justice at the police court.

Mr. Richardson Honored.

Mr. Thos. Richardson, of Orillia, formerly of Peterboro, was recently presented with a gold pen and pocket by his fellow employes of the E. Long Manufacturing Company of that town, on the eve of his departure for Peterboro, where he assumes the position of superintendent of Mr. G. Walter Green's foundry.

The Council To-night.

The Council will meet this evening in Committee of the Whole, when matters of importance will come up. The Council will be asked to duplicate the grant of $100, made by the county, to the Eastern Dairymen's Association, in the event of their holding their next convention in Peterboro. The Times is of opinion that our city fathers should economise as much as possible this year. With an ever increasing tax rate, it is surely time to put on the brakes. Several other matters, involving the expenditure of considerable money, will also be considered.

A Delightful Trip.

No more delightful trip could be had over our northern lakes than by taking the seven o'clock Grand Trunk flyer in the morning for Lindsay, thence by the Trent Navigation Company's tidy little steamer Manita, to Sturgeon Point, Fenelon Falls, and Coboconk, arriving at the latter place in time for dinner. Returning the boat arrives in Lindsay at six o'clock, where you remain two hours before the train leaves for Peterboro, reaching home at nine o'clock. This trip affords a superb day's outing, and one that adds bloom to the cheek and invigorates the nerves. This great family journal has tried, and therefore can speak from experience.

Local Incidents
BY THE TIMES MAN ON THE STREET.

—The schools reopen for the fall term on September 5th.

—The Street Railway are having an exceedingly profitable summer.

—A bicycle was taken from the sidewalk in front of the City Hotel, yesterday.

—The parks of the town look fine. Everything in nature is now certainly at its best.

—Mr. Wm. Mellroy, C.P.R. ticket agent, sold four tickets to England and return, yesterday.

—The noon train from Toronto was delayed half an hour yesterday by a crushed wheel on one of the coaches.

—Col.-Sergt. W. H. Moore won 93 at the matches of the Ontario Rifle Association now being shot at Long Branch, Toronto.

—Dr. Young yesterday removed from 543 Water street to the residence recently purchased by him from Mr. Robert Neill at the corner of Charlotte and Rubidge streets.

—The mercury has been within eight degrees of frost this week in Peterboro. This conjures up thoughts of next winter's coal supply, and makes the dealers laugh the merry ha-ha.

—The Times is again in receipt of complaint regarding the overloading of a certain Upper Lake steamer. If a catastrophe should occur The Times has done its duty in calling attention to the evil.

—Lindsay Post: Peterboro people are fortunate in having several large parks, with proper seating accommodation, and they patronize them freely. The street railway has been carrying 2,000 people nightly to Jackson Park.

BOYS FALL and bruise themselves. Grown-up athletes sprain muscles by overdoing wholesome exercise. The aches and soreness are taken out with Perry Davis' Painkiller. Rub it well into the throbbing beat and relief is immediate.

$3000 Forfeit

The above will cheerfully be paid in lawful money of the United States, by the undersigned, proprietors of Dr. Pierce's Golden Medical Discovery, if they cannot show the original signature of the individual volunteering the testimonial below, and also of every testimonial among the thousands which they are constantly publishing attesting the superior curative properties of their several medicines, and thus proving the genuineness and reliability of all the multitude of testimonials volunteered by grateful people, in their behalf.

WORLD'S DISPENSARY MEDICAL ASSOCIATION, Proprietors, Buffalo, N. Y.

THE REASON.—There is no medicine equal to Dr. Pierce's Golden Medical Discovery, for purifying the blood. It carries off the poisons which contaminate the life fluid. It increases the activity of the blood-making glands and gives the body an increased supply of pure, body-building blood. It builds up the body with sound, healthy flesh instead of flabby fat, promotes the appetite, feeds the nerves, and so gives to weak, nervous people vitality and vigor.

"About a year ago I had a very bad cough and feared it would run into consumption," writes Hon. Geo. W. Lynch, of 27 Mason Street, Worcester, Mass. "When a severe attack of coughing would come on vomiting would set in. Matter accumulated in nose and my tonsils were irritated. After reading of the wonderful cures resulting from Dr. Pierce's Golden Medical Discovery began to use it, with some doubts as to the good it would do me, I am frank to say. But, after I had used one bottle I noticed quite a change for the better. Ordered five more bottles and before I had used them all the cure was complete. There is not now a trace of cough or cold in my system and my health is perfect."

To gain knowledge of your own body—in sickness and health—send for the People's Common Sense Medical Adviser. A book of 1008 pages. Send 21 one-cent stamps for paper-covered, or 50 stamps for cloth-bound copy. Address Dr. R. V. Pierce, 663 Main Street, Buffalo, N. Y.

BOYS FALL

and bruise themselves. Grown-up athletes sprain muscles by overdoing wholesome exercise. The aches and soreness are taken out with Perry Davis' Painkiller. Rub it well into the throbbing beat and relief is immediate.

THE STORM'S DAMAGE.

John Twomey, of Ennismore, a Heavy Loser.

As mentioned in yesterday's Times the barn which was destroyed by fire in the electric storm of Monday night in Ennismore, belonged to Mr. John Twomey, of that township. The barn was struck by lightning and in a few minutes was entirely destroyed, together with its contents. The loss is estimated at $1,800 to $2,000.

STREET RAILWAY EXTENSION

Survey to Young's Point Has Been Completed.

Engineer Heathcote has completed the survey of the Street Railway Company's line to Young's Point. Two routes have been surveyed, one up to Lakefield, parallel with the Grand Trunk, on the Douro side of the river, and the other through Smith. It is we believe, almost certain the Douro side will be chosen on account of the level country through which the road passes, and also on account of the varied scenery along the route, which is always a consideration in the construction of suburban street railway lines. The engineer's report has been submitted to Mr. Stuart, and his associates, who will decide at an early date, when we may look for an early beginning of the work of construction.

Police Court
OFFICIALS
Chief of Police, G.I. Read
Magistrate, D.W. Dumble

At the police court yesterday Magistrate Dumble administered a severe punishment to a man named Jim Cain, who was charged with abusing his horse. He got 20 days in jail.

A young man was fined $2 and $3.05 costs, for being drunk in a local barber shop and using abusive language.

NEW YORKERS NOT NERVOUS

But More are Dying Every Year of Bright's Disease

New York, Aug. 24.—An examination of the health records of New York, prompted by statistics recently compiled by the Chicago health department, shows that there is a remarkable decrease in deaths from nervous troubles in this city since 1870, while other ailments, such as heart disease, Bright's disease and consumption, have been gaining ground, all affections of the nervous system have diminished as New York has grown larger and more turbulent.

As stated, the investigation was inspired by a recent report from Chicago showing that deaths there from nervous disorders had fallen off from 27.6 persons per 1,000 in 1870 to 12.8 persons in 1901.

A table compiled by the registrar from the records of Manhattan and Bronx boroughs show these surprising results:

"Death rate per 1,000 inhabitants in 1870, 34.72; in 1880, 23.06; in 1890, 19.91; in 1900, 14.17; in 1904, 19.66.

Notwithstanding these statistics, Dr. Darlington, head of the health department, declares that the wear and destruction of human life and health from the pressure and complexity of New York life are constantly increasing. It is now manifest, he asserts, its diseases other than those of the nervous system. He declares also that the decrease in purely nervous diseases is very largely due to the decrease in consumption of whiskey in New York.

A PLAIN QUESTION: Do you really get the only Painkiller — Perry Davis' — when you ask for it? Better be sure than sorry. It has met, in 60 years, failed to stop hoarseness and pain in the bowels.

TEN YEARS

The Story of My Wonderful Success.

Reads Like a Fairy Tale-Yet Full of Convincing Truths

An Opportunity of a Lifetime for the Investor.

TAKE ADVANTAGE OF IT.

I ask every reader of this paper to write me. I want to send you my free book entitled "Ten Years"—"The Story of My Wonderful Success." It tells about one of the greatest and most promising investment opportunities ever offered. It tells how my business grew from less than $25.00 capital to its present proportions.

I believe I have the best proposition from an investor's standpoint that could be placed before you. For ten years I have been teaching men and women to live according to the laws of Nature. My book is the history of my life. It shows what energy and ambition can accomplish in the world of affairs. It is intensely interesting to any man or woman who has a few dollars to invest in a legitimate enterprise.

I started business in the City of Brooklyn in 1896. My capital amounted to less than $25.00. My first year's business netted me over $1,000.00. Last year I paid dividends to my partners of 15 per cent. Five years ago my business had grown so large that I was compelled to remove to larger quarters. I am now at 63-65 Clark St., Brooklyn, N.Y.—in connection with Hotel St. George. Experts pronounce my institution to be the best appointed of its kind in the country. I estimate the equipment of the Mac Levy Institute of Physical Culture to be worth at least $40,000.00.

I want to have a building of my own that will enable me to accommodate my increasing business. To erect this building I need capital, but more important than this to increase my business to the proportions which I desire, I need the co-operation of men and women throughout the country and the world.

Co-operation is the Secret of Success

I recognize it. I believe that with thousands of co-operators throughout the country I can build my business to tremendous proportions to the benefit of the shareholders and myself.

The Mac Levy Company is incorporated under the laws of New York for $150,000.00. They are proprietors of The Mac Levy Institute of Physical Culture and The Mac Levy Gymnasium Equipment Company.

The last named branch of the business of the Mac Levy Company is comparatively new. I have been at work for several years to establish such a department in connection with teaching Physical Culture. The most difficult part of forming the Equipment Company has been accomplished. The business is now in condition to be pushed on a large scale. Hundreds of thousands of dollars are spent yearly on new gymnasiums and their equipment. The profits are large. A company of this kind has an immense field in which to work. Competition is slight. It is evident that the Mac Levy Gymnasium Equipment Company can build an enormous business.

The Mac Levy Company operates during the summer months at Steeplechase Park, Coney Island, and at Averne Hotel, Averne-by-the-Sea, L. I., as well as at our Brooklyn Institute. I also does an extensive mail business. I teach people how they should live and exercise. My students are scattered all over the United States, and in English speaking countries.

A PROBLEM

which arrises in the minds of every man and woman is how to secure a comfortable income in the earlier years of their life, that they may reap the full benefits which such an income affords.

I have long thought that there are hundreds of people in moderate circumstances who would like to invest a few dollars in an Institution of this kind. It is to such people that I intend this announcement shall appeal. I am offering a block of the Treasury Stock of this company to the public at its par value. My reasons for doing this are that I wish to erect a building and to extend the business of The Mac Levy Institute of Physical Culture and The Mac Levy Gymnasium Equipment Company.

I WANT YOU AS MY PARTNER

I need your help and suggestion. I want you to work with me and help me to secure a tremendous amount of new business.

I believe that if you could talk with me personally and go over the records of the business which I have done, see in black and white the figures which show the steady growth my business has experienced during the past ten years, examine my plans for future extension, and then look over the magnificient equipment of my Institute, and would want no further evidence that money put into my business would bring you the greatest possible returns consistent with safety and good management.

I ask you to write for my free book. I believe it will interest you. You have a few dollars that you want to invest. Why let it stand idle earning only 3 or 4 per cent that Savings Bank pay their depositors? Put it to work. Join it with mine. This Company ought to pay at least

TWENTY PER CENT. DIVIDENDS

No Progress Being Made the Peace Conference

Russians Sparing for Time--Mr. Witte Will Await Another Message of Instructions from the Czar.

Portsmouth, N.H., Aug. 24.—The morning session of the Peace Conference was a complete blank so far as developments were concerned. There was no show of hands. Indeed, it was not, in reality, even a real session of the plenipotentiaries, but was given up to an attempt on the part of secretaries to settle some disputes which arose as soon as the consideration of the protocols began. It was claimed upon each side that corrections which should have gone into the French text and into the English translation had not been made, and it was therefore decided to give the secretaries an opportunity to adjust their differences as best they could, and at a formal session to begin at 2.30 this afternoon homologation of the text and translation should be made. Then such disputed points as arose were to be settled by the plenipotentiaries themselves. It is stated that Baron Komura and Mr. Takahira and Mr. Witte and Baron de Rosen remained in their respective private quarters this morning while the conference room was given up to the secretaries. An intimation is given, however, that during the morning the plenipotentiaries themselves were in private consultation. This would be very significant if true, but no confirmation is obtainable. At the conclusion of the consideration and ratification of the protocols at the afternoon session the regular proceeding, if both sides were still resolutely determined to maintain their positions, would be for them to agree to draw up the final protocol of to-day's session and bid each other adieu. But when this moment arrives it is expected that Baron Komura will submit his compromise proposition. Thereupon there may be some discussion, but in the end Mr. Witte can only ask for time to deliberate. He may say openly he desires to consult his government. Then there will be an adjournment until Friday or possibly Saturday. And delay, with the President working directly with the Emperor at St. Petersburg through Ambassador Meyer and all the peace forces of the world, financial and otherwise, bringing all the influence they can to bear means hope. It may be well again to quote the words uttered last night by a high and competent authority.

"If the conference can be prolonged into next week the influences brought to bear upon the Russian Emperor will be irresistible."

Ideal Weather in the West.

Winnipeg, Aug. 23.—The finest harvest weather in the experience of Manitoba, has created a most optimistic feeling in real estate and business circles. Hundreds of harvesters are arriving daily from the east, no danger from frost is apprehended, rust, if any, is only trifling, and everything points to the reaping of an immense crop without mishap. The weather this morning is balmy and clear.

Blanche Royal Dead in Buffalo

Toronto, Aug. 23.—Released from the Mercer Reformatory a little more than a month ago, after serving her third term for attempted suicide and vagrancy, Blanche Royal, 18 years old, was found on Broadway street in Buffalo, in an unconscious condition from what apparently is morphine poisoning. Ont., druggist.

Blanche Royal is a Barnardo girl. The last term she served was six months in length.

Upon her liberation from the Mercer Reformatory on July 10th, last, a position as a hotel at Port Dalhousie was obtained for her by the Salvation Army. Since then nothing has been heard of her.

The despatch from Buffalo is as follows:

"An unknown young woman about 19 years of age, in an unconscious condition was picked up by the police on Broadway early to-day. The police believe that she is suffering from morphine poisoning, but the surgeons at the hospital decline to express an opinion until a more thorough investigation of the case. Marks on the girl's clothing indicate that they were made in Canada. Cards found in her pocket bore the names 'Blanche Boles, 66 Muir street,' and 'Frances Boland.'"

The girl died at the Emergency Hospital this afternoon. Death was due to opium poisoning. Detective-Sergeant Holmlund searched the young woman's clothing at the hospital and found a small bottle of peppermint from the store of J. M. A. Waugh, a Port Dalhousie, Blanche Royal is well known in Peterboro, where she created quite a sensation by trying to take her life there several times. She left Peterboro for Toronto.

BRITISH AND AMERICAN SAILORS TO FRATERNIZE

Preparations Being Made on Large Scale for Entertainmene of Tars in New York

A UNIQUE DEMONSTRATION

Desire to Return in Some Measure Courtesies of Gibraltar and Portsmouth

New York, August 24.—New York will be the scene of a remarkable demonstration of fraternity and good will between the sailors of the navies of Great Britain and the United States during the first week of October, on the occasion of the visit of the second cruiser squadron of the British Atlantic fleet. On or about the first Monday in the month, 1,200 United States sailors will entertain a like number of their British confreres giving them the biggest time of their lives. Arrangements are now being made for a great banquet, smoker and theatre party, which shall repay Prince Louis of Battenberg's men for all the entertainment they have showered upon the United States sailors in times past.

A committee of three representative seamen from the North Atlantic squadron, now lying in naval anchorage at Newport, has arrived in this city. The committee is made up of B. Schumacher, chief quartermaster of the flagship Maine; G. H. Samson, chief turret captain of the Massachusetts, and J. P. Loftus, boatswain's mate, first class, of the Missouri, and has at its disposal $10,000, raised by subscription among the seamen of the squadron, every cent of which is to be spent for the entertainment of the visitors.

"The Britishers," said Chief Quartermaster Schumacher, who is chairman of the committee, "have laid themselves out in part to entertain us, and right royally they did it. Nothing in Portsmouth or in Gibraltar was too good for us. Now we have got a chance to repay courtesies and we are bound to do it right. We have figured that thirteen hundred of them can get shore leave, and have arranged for a like number of our men.

"We have concluded we ought to take the visitors in tow in the afternoon, and give them a matinee theatre party. Then we are going to feed them in the biggest hall we can get, where 2,400 plates will be laid. After dinner we are going to have a regular smoker and light vaudeville entertainment."

OFFICERS ENTERTAINED.

While the seamen are hobnobbing with the men behind the guns, the officers are expected to be entertaining their visiting comrades, but that part of the program does not worry the enlisted men. It has been arranged that the British squadron shall be escorted from Annapolis by the first squadron of the North Atlantic fleet under the command of Prince Louis of Battenberg will sail upon his flagship, Drake, and following will come the Essex, Cornwall and Berwick. The ships of the American navy which make up the first squadron of the North Atlantic fleet, are the flagship Maine, the Missouri, Kentucky, Kearsarge, Alabama, Illinois, Iowa, Massachusetts. The British squadron will be escorted into New York Bay, and is expected to arrive on Sunday, October 1. From this port the squadrons will return to Gibraltar.

THE FUTURE OF SEAL ROOKERIES

Sailing of Japanese Fleet Causes Excitement in British Columbia

VESSELS OUT FOR A RAID

They are Not Likely to Fare Any Better at Hands of Japanese Than at Those of Russians

Victoria, B. C., August 24.—There is considerable excitement in Victoria sealing circles over private advices from Tokio to the effect that a Japanese fleet under Admiral Katoka sailed early on the morning of August 11 for the Sea of Okhotsk, THE object of seizing the Russian seal rookeries. One detachment of these Japanese warships is to take possession of the Komandorofski (Copper and Behring) Islands, off Kamschatka peninsula, where there is a small Russian guard, armed with rifles, but insufficient to offer any opposition to the naval force. The other detachment, probably of two vessels, will appropriate the Robben Island rookeries, off Cape Patience—whence the guard was withdrawn at the beginning of the war.

The Japanese naval movement is viewed with considerable apprehension by sealers here, several of the local fleet now presumably hunting in Behring Sea having contemplated taking advantage of Russia's pre-occupation to do a little profitable raiding. They are likely to fare no better if caught rookery poaching by the Japanese than if they had fallen into Russian hands. The movement of the Japanese squadron is believed here also to greatly endanger the steamer Mentara (formerly the Williamette), now en route to Petropaulovski, under charter to the Kamschatka Development Company of San Francisco, and to that company's valuable concessions as lessees of the Copper Island rookeries. The sealing on the Russian islands is this month at its best. The rookery on Robben Island is not a large one, containing approximately 10,000 seals, but the rookeries on the Komandorofski Islands are of much greater importance.

RAIDED ROBBEN ISLAND.

During the first year of the war a number of Japanese sealers went out from Hakodate and raided Robben Island, five Japanese schooners having sailed there just one year ago and secured 6,000 skins in two days. The schooner Diana, flying the Japanese flag, but owned by and carrying foreigners, was prevented by force from participating in the raid of these schooners. Several Japanese vessels were seized at this time by Russian war vessels, and their crews were imprisoned, being now at Harbin with several Victoria sealing men among them.

The Komandorofski rookeries lie off Kamschatka; Rooben Island rookery is in the Okhotsk Sea. The seizure of these rookeries may be expected to have a considerable effect upon the fur seal market. In the past Russia has given leases to various companies to take seals from the rookeries, and prior to the war zealously guarded the rookeries which seem likely to pass into the care and proprietorship of the Japanese. A fleet of revenue cutters including the Aleut, Zabiaka, Ketick and others, some of which were seized and confiscated by the Japanese after the commencement of the war, guarded the rookeries. In 1886 these cutters seized a number of Victoria and Vancouver sealing schooners and caused their crews to be imprisoned at Petropaulovski, an illegal act for which Russia has since been required to pay compensation and damages. The acquisition of the rookeries will be warmly welcomed by the Japanese sealers. There are about sixty schooners all told, sailing out of Japanese ports — Hakodate and Yokohama principally. A considerable percentage of these vessels are foreign-owned, although nominally Japanese and flying the Japanese flag.

SCARED BY A DOG.

Italian Married Woman in Precarious Condition.

Yesterday morning, Lingi Repola, an Italian living on Bethune street, reported, through medium of an interpreter, to the police, that a dog had jumped at his wife as she passed along Simcoe street, badly frightening her, although the animal had not attempted to bite.

Repola's wife is now suffering from convulsions; it is feared that she may have a premature confinement, and her condition is precarious. Repola was told that he must find out who owned the dog before any prosecution could follow.

The thoroughly enraged Italian, accompanied by Mrs. Minocolo, his interpreter, set forth on a still hunt after the dog,—which if found will probably learn that "Vengeance belongs to the Italian with a weapon," and small blame to the exasperated husband should he accomplish his purpose.

—The Cold Springs Sunday School of Otonabee township will hold their annual picnic to Jubilee Point, on Wednesday, Aug. 30.

Summer Resorts.

A Day at the Landing

A DAY'S OUTING

A Newspaper Man Takes in the Beautiful Trip to Gore's Landing

Yesterday a Times' representative took in The Rice Lake trip by the well managed and commodious steamer City of Peterboro. The first object of interest catching the eye-eager-for-copy of our reporter was a party comprising pater, mater, and a family of graded sizes of children rushing toward the wharf through the Matthews Packing House yard in mistake. They find a high fence between them and the coveted steamer with the ropes just being cast off, after the last whistle had blown. With a rush pater tears after the high gates and sending the family on steps to shut them again. He then frantically climbed the gates and rushed to the boat, catching it as she pulled out. As he steps on board, one of the graded size children says, "Daddy, where is the lunch basket?" Pater then remembers he left it behind the gates in Matthew's yard. With a frantic appeal to the captain to go slow, he rushes to the fence, struggles furiously for a moment and is on the fence (alone heard) another climb with the basket and he gets the boat by a four-foot leap.

As the locks are reached, many complimentary remarks are audible from all sides, concerning the improvements made there, mainly by the systematic manner in which the long stretch of hitherto ugly earth banks along the lock is being graded and bedded down. As the good ship City swiftly eats up the miles between Peterboro and Rice Lake, the scenery mile after mile not only discloses varied and everchanging glimpses of fairyland beauty but soon developes beauteous vistas of tree clad hills between unbroken lines of close growing, water nourished frontage through which it is impossible to peer. As the boat glides smoothly along, every hundred yards or so, a startled grass, after a hasty survey of the steam propelled monster invading its sanctuary slowly rising on stretched pinions, majestically cuts away over the thickets coverlines the banks, or floating on slowly waving wings, precedes the steamer for some distance until it settles on a sunken log or clump of aquatic plants, to repeat the flight when the boat again startles it. The children take great amusement in watching these grey-blue fish pirates and the quicker brown plumage hitters; many an exclamation is heard as a turtle is seen basking on a half submerged log or rock which gently splits the even surface of the river and raises a ripple as the current goes on its endless journey to the lake.

As the flats surrounding the delta of the river are reached a wilder but still serene view of nature at its best is met with. As the voices aboard awake the stillness that seems natural along these rice and bulrush covered lowlands, clouds of clattering blackbirds, many of them, the "soldier blackbird," rise from their safe retreat among the rushes, and as though conscious of their safety, soon settle down again out of sight, always having one on guard, perched on a lofty bulrush or higher plant among the sedge. Many people leave the boat when the pretty, clean swept park at Jubilee Point is reached, and afford food for gossip as those remaining on board watch their camping outfits and effects unladen from the steamer. Shortly after the ropes are drawn aboard and the boat continues her voyage the lake is entered, between long rice grown banks, extending for a great distance into the open water. The view, both up and down Rice Lake as the steamer nears the long chain of tree covered islands, which extend for miles, east and west, is one insurpassable on the continent. Whilst not having the grandeur and overpowering majesty of mountain views, these cannot live a man fond of nature, but must have the scene observed from the passing steamer Rice Lake, impressed indelibly on his memory. In a short time Gores Landing, a pretty little tree shaded village, nestling between hills and lake, is reached. Here every resident of the place seems to vie with one another in making the visitor welcome. The place has several good hotels, where the most exacting guest finds all he wants. The fishing is, this year far superior to that of the upper lakes, and every day guests at the hotels go out in naptha launches of row boats, and return with both a good showing of bass and maskinonge and an appetite that almost defies being satisfied. After a few hours at the Landing the return trip is made, and as the sun goes down, each and every one on boards feel as that every one on board feels, as the roseate and dying rays in the western sky percolate through the trees, that life is good.

On board the boat every care is taken of its passengers, and the crew, from captain, purser, engineer to the newest deckhand seem to do all they can to make the trip a pleasure.

A POPULAR RESORU.

List of Visitors Stopping at the Hotels of Gore's Landing

The two hotels, and they are both modern in design and up-to-date in management; at the pretty little sleepy village of Gore's Landing are both full of visitors this season. There are also several well kept boarding houses where many people seeking the beauty and health giving tonic of Rice Lake air in weekendings let their spacious brick and mortar of the towns and cities do congregate. The fine new brick hotel, well laid out and situated in natural woods, owned by Mr. Tom Harris, and managed by his son, is the first public house met with as one leaves the wharf. At this hotel, called the Rice Lake House, there are now the following guests:

Mr. and Mrs. Hughes, Mr. and Mrs. Rhoades, Ellbridge, Md.; Miss Henderson, Mr. and Mrs. Pearse, Miss Pearse, Peterboro; Mr. and Mrs. J. G. W. Boyd and family, Toronto; Mr. Baldwin, Toronto; Mr. H. Callisen, Larchmont Manor, N.Y.; Mr. Slingluff, Baltimore, Md.; Mr. E. Redfern, Rochester; Mr. and Mrs. J. J. Daly, Miss Daley, Miss Ruth Daley, Cobourg; Mr. and Mrs. Wm. Miller, Mr. and Mrs. Simon, Miss Rose Simon, Rochester; Mr. Thos. H. Ambrose, Port Hope; Mrs. F. W. Frank and daughter, Cleveland; Mrs. Hsultain, Master Haultain.

At the White House, a roomy hotel, commanding a splendid view, up and down the long picturesque vista of Rice Lake, are; Mrs. Sankey and family of six, Mr. and Mrs. A. R. Bostwick, K.C., Mrs (Dr.) Cameron and son, of Omemee; Mr. Gifford and lady friend, of Chicago; Mrs. Mitchell Depew, of New York, and Mr. Loudsbury, also of New York; Mr. R. M. Willis, of Galveston, Tex., and others. The Americans stopping at Gore's Landing informed a Times' representative yesterday that Gore's Landing is an ideal spot for putting in the summer months, especially for ladies and children.

A MIDNIGHT CALL

Chief Roszel Awakened at 2.30 a.m. By Indignant Parent

As Chief Roszel was, yesterday morning, getting his beauty sleep, in the hours before the dawning, his dreams punctured by visions of celestial realms, where to the sound of tinkling cymbals and zithers, played by rosy-tinted fingers, police officers would be crowned with garlands of roses and handed draughts of nectar, his dreams were rudely dispelled by the noise of vigorous hammering at his front door. The Chief awakening, after the usual yawn and stretch, looked at his clock and saw the hands denoted the hour of 2.30 a.m. He quickly jumped into his unmentionables and going down stairs, opened the front door. There stood a well known citizen, with a most indignant cast of countenance and an evident thirst for gore. The caller at once gave his reason for calling the Chief out of bed at such an unseemly hour, by telling his tale of woe. From his story, it seems that the caller's daughter had gone with a young man to the Chemong Regatta hop, and on their return together in the buggy the young man, taking advantage of their isolation and the darkness, had made insulting and improper remarks to the lady. The Chief, recognizing the possible seriousness of the case, when the man said, "What would you advise me to do in such circumstances?" advised him to call at the station at nine o'clock in the morning and take out a warrant for the too presuming cavalier. The angry parent, however, notwithstanding his having routed out the officer at 2.30 in the morning, said he would not have time to do this, so the Chief has taken no further action.

A LOCAL SCANDAL

Prominent Local Limb of the Law Now Doing Some Tall Thinking

Now is not the appointed time for taking our readers fully into our confidence concerning a coming expose of a certain local lawyer. Not yet! But possibly very soon! We do not mean to intimate that this lawyer's clients in general are in the slightest danger of misappropriation of any of their funds. Those of this particular lawyer's clients who have money or documents in his hands are, we believe, perfectly safe. This coming expose is simply a show up of underhand advantages taken in the interests of one individual client and the client's family, whereby the lawyer has placed himself in about a tighter box than he would desire. He is now simply at the mercy of a brother barrister, who has the key to the cloak of opportunism, and can himself establish when to make the expose. We will, of course, give our readers the first intelligence that circumstances would warrant. In the meantime, as above remarked, a certain lawyer is thinking, deeply thinking, and wishing he had not made statements "on his word of honor," that he knew positively were untrue. The lawyer in question is regularly credited with being a great church worker and leading light of his particular denomination, so that when the time comes for showing up some of his trickery and strange perversion of the truth, there will be something drop "with a dull thud."

Local Concern Busy.

The William Hamilton Manufacturing Company is exceptionally busy at present manufacturing complete saw-mill plants for several lumber companies in British Columbia. Over 200 men are now employed on the work and the various contracts are being rushed.

The City's By-Laws to be Revised.

By the Solicitor--Some Are Ambiguous--Ald Mason will Move That the By-Law re Removal of Goods from Sidewalks be Rescinded.

The City Fathers met in Committee of the Whole last night, when there were present, Mayor Henry Best, and Aldermen Johnston, Scott, Mason, McIntyre, Adams, Cowie, Begley, Hatten, Hicks, Hall and Tovey.

In the absence of City Clerk Armstrong, Ald. Adams officiated at the proceedings.

ANTRIM STREET WALK.

A deputation of Antrim street residents, consisting of Messrs. Dodds, Ayres, Rothwell and Davidson, waited upon the committee re concrete sidewalks. It was decided to construct the northern walk from George St. to the railway track, and the southern one from George to B. Dore's house only, unless he signs the petition, in which event this walk will also be carried to the track.

COMMUNICATIONS.

The Mayor, Ald. Hall, Johnston, Hicks, and the city clerk were delegated to attend the annual convention of the Ontario Municipal Association, to be held in Toronto, August 30th and 31st.

The Mayor, Ald. Adams, the city engineer and clerk were authorized to represent Peterboro at the convention of the American Society for Municipal Improvement, to convene at Montreal September next.

County Councillors Moloney and Webster, County Clerk Ed. Elliott, and Messrs. Geo. Fitzgerald, Gillespie and Middleton, members of the cheese board, were a deputation to the council, with a view to securing a grant of $100 toward the expenses connected with the Eastern Dairymen's convention should they meet here next January. The county has promised $100 for this purpose.

Messrs. Gillespie, Elliott and Fitzgerald addressed the council and pointed out that it was twelve years since Peterboro had this convention, and every effort was being put forth to secure the next one. A meeting of dairymen is to be held at the Rossin House, Toronto, September 5th, when the place for this society's convention of three days next January will be decided upon. Last year Belleville gave $400 for this event—the city $200, the county $100, and $100 from the bankers. Peterboro bankers will be waited upon in the course of a few days.

On motion of Ald. Hall, seconded by Ald. Hicks, as many of the council as possible will attend the dairymen's meeting at Toronto on Tuesday, September 5th, and the town will give a grant equal with that from the county, said grant not to exceed $150.

The county will probably be asked to raise their grant by $100.

MORE POLES.

The committee will recommend that the Ontario Power Company be permitted to erected 16 poles on Chamberlain street, and 16 on Bolier street.

BY-LAWS INCORRECT.

The committee will recommend that the city solicitor look into the city's by-laws and have them put into such shape that they can be enforced by the police magistrate, when cases of infringement come up before him.

According to Ald. Hall many of our bylaws are not worded so that their provisions can be enforced.

Ald. Begley drew attention to the fact that a certain pool room is patronized even by small boys to such dusks as till a late hour at night, and the magistrate apparently cannot impose a fine either under the city's bylaws or the statutes.

Ald. Mason thought the bylaw governing the removal of goods from the sidewalks before noon should be cut out. It is a hardship on the merchants, as contingencies will arise from time to time, which render it practically impossible to keep within the provisions of the by-law. Then while the merchants on George street are compelled to toe the mark even in detriment to their business, others on side streets are allowed considerable length of rope. And the merchants on George street pay the heaviest proportion of taxes. This also applies to the exposure of fruit and other edibles.

His Worship thought the police should use a little discretion in this respect, and in urgent cases, where goods arrive after noon, allow merchants a reasonable time in which to remove them.

Ald. Mason pointed out that this by-law prohibits any merchant from placing goods on the sidewalk after noon even for a short time. He gave notice of motion that at the next council meeting he will move a resolution to rescind this bylaw.

CITY COURT OF REVISION.

The committee will instruct the solicitor to draft a bylaw to provide for the appointment of a court of revision under the act governing the city in this respect. As a town the council appointed a court of revision composed of their own members; but now that Peterboro is a city this board will have to consist

Continued on page 2.

TELEPHONE TALKS.

TO TELEPHONE USERS AND THE GENERAL PUBLIC,—

In laying the foundation for the investigation by the Parliamentary Special Committee it was claimed that Telephone conditions in Canada were not satisfactory because they do not compare favorably with European countries. In this respect statements were made and statistics presented regarding telephone service in Great Britain, Norway, Sweden, Denmark, Holland, France, Germany, and other countries of Europe. The movement for municipal telephones in England and Scotland was specially commended.

We cannot adequately deal with all of these in the limits of one "Talk." The information presented to the Committee by men well versed in the prevailing conditions in Europe was exceedingly interesting, and a brief resume will we think, be acceptable to those who are following this series.

In Great Britain the conditions briefly stated are as follows: The telegraph business is a Government monopoly and this includes the telephone. But while the Government owns and operates all the telegraph lines and the long distance telephone lines, it has been "farming out," so to speak, the local exchange telephone service under a license system limited to a term of years.

The greater portion of the exchanges are owned and operated by the National Telephone Company.

In 1899 the Government passed an Act enabling local municipalities to provide exchange telephone service.

The Government itself established a telephone exchange in the City of London to compete with the National Company. Just before service was commenced, however, the Post Office Department decided to enter into an agreement with the National Company to charge the same rates, to exchange service between the subscribers of the two systems, and to restrict their operations as far as possible to separate areas in order to avoid wasteful expenditure in duplication of plant.

The Government has also established local exchanges at a number of small places. During the past year experiments have been made in a limited way in giving rural service, but the Government report states that "the receipts have not covered the cost of attendance and maintenance."

The National Company's exchanges, the Municipal exchanges, and the Government exchanges, each have a connection with the Government long distance lines on equal terms.

The Government has contracted to take over the National Company's business on the expiry of the present license in 1911, and it is expected that at the same time it will take over all other telephone exchanges throughout the country.

This briefly outlines conditions of telephone service in Great Britain at the present time.

With the results we shall deal in subsequent "Talks."

THE BELL TELEPHONE COMPANY OF CANADA.

HEALTH FOR WOMEN

Mrs Emma Daigle of Moncton N. B., Sends an open Letter to All Sufferers

Most women are tired when they wake up. Housework drags along with great difficulty. Nervousness is always present, headaches seldom depart, tears are ever ready to flow.

But there is a cure, a true specific for women's ills that restored a prominent lady to health. Mrs. Daigle, who tells the following experience:

"About a year ago I had a serious sickness, sort of a general breakdown. My digestion failed entirely and I was able to eat but very little. I took violent stomach pains and suffered terribly from headaches. My doctor said it was "nerve exhaustion" and I might never be well. My troubles increased, for as I grew weaker I became subject to neuralgia and rheumatism. Sleep finally forsook me and I almost lost heart. Different medicines didn't help. Doctors couldn't do me any good. I was desperate when I heard of Ferrozone. The first box convinced me it was just what I needed. It toned up my stomach, gave me a splendid appetite and then my recovery seemed easier. Ferrozone increased my weight several pounds, has restored my nerves, given me a good color and strength such as I never had before. For the weak and sickly I can truthfully recommend Ferrozone." (Signed) Emma Daigle.

REMEMBER: No mere stimulant or alcoholic concoction can take the place of the nerve and blood nourishment contained in Ferrozone. This true tonic always does what is claimed for it. Sold everywhere in 50c. boxes or six for $2.50. By mail from N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterboro are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $6 per year strictly in advance.

MANITOBA AND TERRITORIES

The crop reports from Manitoba and the Territories continue to be favorable and fine weather for a few days more will ensure a crop, larger in quantity than in any previous year and which is likely to realize a price that would have seemed very high a few years ago. Perhaps few persons except those whose interests cause them to watch such matters closely have fully realized how much depended on the character of the coming harvest. While a good or bad harvest in Central Canada has for some years been a matter of interest to Eastern as well as Western Canada, there are reasons which make the harvest this year one of more than ordinary concern. There is no doubt that a very large number of the people in the prairie regions have put every cent that they owned or could borrow into real estate, and for them to come out of their speculations satisfactorily, a good crop, safely garnered, is essential. On the other hand a crop failure—or even a partial failure—would spell more than disappointment to many, and the effect would be felt by the commercial community throughout the Dominion.

Happily, so far, the outlook is propitious for a good crop to be harvested over an area much larger than has been in cultivation in any previous year. That result means much for the whole country; an influx of money that will make the financial situation easy; assures a great demand for manufactures; active business for merchants and traders and lay the foundation for another year's activity. Whether as much should be staked on the chances of a good crop, is another question.

DISTRICT NEWS

SLOPEVILLE

—The farmers are mostly through harvesting in this section of the country.

—Mr. Philiph English has erected a very handsome dwelling for Miss O'Gorman on Maine street. Mr. Philiph claims it will be ready for inspection on or before September 1st.

—Mr. Paul Towns left on Wednesday last for Manitoba, where he will make his future home.

—A very pleasant event took place on Thursday evening of last week, when a free exhibition of prize fighting was given by Mr. Jon Sharkey and Austin McCoy, in which McCoy was knocked out in the eighth round. A great crowd witnessed the fight, and claim it was refereed in a very satisfactory manner.

—Miss K. F. Marquis is visiting friends in Dummer during the past two weeks.

—Miss M. Warde has returned, after spending two months' vacation at her home in Picton.

—Mr. Anvil McGinn has disposed of his wonderful pet boar for $100. The purchaser, Mr. Oss O'Brien, claims it will be of great advantage to him, being so close to the river.

—Miss Annie Desautel, of Peterboro, is visiting with Mr. Arthur Carveth, at Lock No. 10.

—A very large crowd attended the funeral of the late Martin Foley on Sunday last.

BACKING FRANCE IN THIS

Demand for Satisfaction Morocco's Sultan Likely to Submit Promptly

Tangier, Aug. 24.—The French Minister has presented to the Sultan an energetic demand for an indemnity of $2,000 for the recent arrest of a Franco-Algerian citizen, the punishment of the official responsible for the arrest, and an additional indemnity of $100 daily until the prisoner is released.

It is believed that the Sultan will promptly grant the demands.

This incident is independent of the Franco-Germany controversy regarding the proposal international conference, indeed, it is known that Germany approves the course of France in resenting the unwarranted arrest of one of her citizens. This German approval goes even beyond the desire of France, as the German Government has given official notice of its intention to support the action of the French Government, whereas the latter has not sought, directly or indirectly, any support in maintaining the rights of French citizens.

TWO KILLED IN RUNAWAY

Amos Clough and His Wife Thrown From Buggy

Hamilton, Aug. 23.—A shocking double fatality in which Amos Clough and Mrs. Clough, two of the oldest and best-known residents of Abingdon, Caistor Township, were the victims, occurred last night.

Clough and his wife started early in the evening to drive to David Bell's a nephew's place. A few hours later a hired man named Dingmple found the old woman unconscious by the roadside. She was terribly cut and bruised, and died while he was gone for assistance.

What became of the man was a mystery for some time. Dr. McLellan was sent for, and while going to Abingdon he stumbled over the body of Clough. There were few bruises on it, although it was evident he fell out of the rig. The horse was found some hours after near the Clough farm with the pieces of the rig, which had been wrecked. It was evident that Clough fell out of the rig as soon as the horse started to run away. Mrs. Clough was probably dragged a considerable distance, judging by the mutilated condition of her body.

PROBLEMS FOR CANADA

In the West Indies the Admission of Raw Sugar Free and Treatment of Colored People

London, Aug. 23.—The Pall Mall Gazette, referring to the confederation of Canada and the West Indies, says Canada's interest is mainly in the revival of sugar planting. Confederation would mean the free admission of Jamaican raw sugar. Canada could not take these islands over without some expense, providing for their naval defences, and a difficult decision about the treatment of the colored population.

Nan Patterson a Free Woman

New York, Aug. 22.—District Attorney Jerome stated to-day that he had no intention of again bringing Nan Patterson to trial for the murder of Caesar Young, as he has no evidence against her now that was not presented when the last jury failed to agree upon a verdict in her case.

Mr. Jerome thus dismissed the rumor that the actress was to be tried again because of revelations alleged to have been made by Nat and her brother-in-law, J. Morgan Smith, in a recent quarrel in the presence of Ralph Ash.

Kingston's New Barracks

Kingston, Aug. 23.—Hon. William Harty states that the new Artillery barracks to be erected here will be commenced this coming autumn, and it is expected that the foundations will be erected before winter. Lake Ontario Park has definitely been decided upon as the site. There was some doubt as to whether the park would be used on account of its distance from town.

Mrs. Fillman Seeks Divorce

Hamilton, Aug. 24.—A Chicago report says that Mrs. Fillman, known on the stage as Dorothy Hunting, has brought suit at Chicago against her husband, Peter M. Fillman, of Hamilton, alleging cruelty and desertion. She also asks for the custody of their 10-year-old child, and an injunction restraining her husband from kidnaping him.

To Postpone for a Week

Ottawa, Aug. 24.—It is thought that the Government will consent to postpone for a week the execution of King, the Edmonton murderer. The people of that place are not desirous of having the celebrations attending the inauguration of their new province marred by a hanging.

OPEN SHOP THE BATTLE CRY

Chicago Typothetae Will Make Contest for Open Shop and Start School to Teach Men to "Stick Type."

Chicago, Aug. 23.—The long threatened contest between the International Typographical Union and the United Typothetae over the demand of the union printers for an eight-hour day in job shops after January 1 is scheduled to come to a crisis in Chicago this week.

According to the present plans of the Chicago master printers, the issue will be forced on the "open-shop" question.

For nearly a year the employers have been getting ready for the fray. Schools for the education of non-unionists have been established in various parts of the country and applicants taught how to "stick" type, and operate linotype machines. The Chicago employers, it is declared, are anxious to force the controversy before January 1, in order that they may get first chance at the available supply of non-union workers, instead of waiting until there is a demand all over the country.

Ayer's Cherry Pectoral. When threatened with consumption. It controls the cough, allays inflammation, soothes, heals. Even in advanced cases, it sometimes cures, always relieves. J. C. Ayer Co., Lowell, Mass.

NAVIGATION

RICE LAKE AND THE OTONABEE WATERS

Calcutt's Line of Steamers

Time Table for June, July and August, 1905

Commencing Thursday, June 1st the

STR. CITY OF PETERBOROUGH

will run as follows:

MONDAYS, TUESDAYS, WEDNESDAYS and FRIDAYS to Jubilee, Gore's Landing, (Harwood on flag) and Idyl Wyld. On the above days the steamer will leave the Peterborough wharf at 9 a.m., returning, will arrive in Peterborough at 8 p.m.

THURSDAY and SATURDAY AFTERNOONS the "City of Peterborough will leave the Peterborough wharf at 1.30 p.m. for Jubilee and Gore's Landing; returning will arrive in Peterborough at 9 p.m.

STR. WATER LILY

will leave Harwood every Saturday morning at 6.30 a.m., calling at Gore's Landing and Jubilee, and all points on the river; returning, will leave Peterborough at 3.45 p.m.

Parties desiring to spend Sunday at Idyl Wyld or intermediate points may leave town on afternoon boat on Saturday and return Monday at 9 a.m. Special arrangements will, however, have to be made in advance at Mr. Calcutt's office for return steamer.

FARE to Jubilee, Gore's Landing, Harwood and Idyl Wyld, 50c., good to return same day only. Children half fare. Books of Family Tickets $5.00 for points between Peterborough and Idyl Wyld.

Special arrangements made for Sunday School and other excursion parties on application.

H. CALCUTT,
Telephone 98. Peterborough.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, or to the Commissioner of Immigration, Winnipeg or the local agent for the district, obtain a duly certified authority to some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clause (2), (3) or (4) must cultivate 20 acres of his homestead, or substitute 30 head of stock, with buildings for their accommodation, and have broken 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads or entitle them to patent on or before the 3rd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive at the Immigration Offices in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, also from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

How to Visit Colorado

Go first to Denver. It is the State capital, as well as the largest, wealthiest and most metropolitan city between the Missouri River and the Pacific Coast. The city itself is very interesting, and from it start practically all the trains over the various roads into the mountains.

Many of the most enjoyable one-day trips in Colorado begin and end at Denver. The cost of these little journeys is not great.

After you have familiarized yourself with Denver and its surroundings will be soon enough to decide where to go for the rest of your visit. The question must be considered from several standpoints—altitude, hotel accommodations, accessibility, amusements, etc.

Our Colorado literature will help you in deciding where to go and what to do. Sent free for the asking.

Portland Exposition

Now open for the summer. Interesting because it demonstrates the progress made by that wonderful country—the Pacific Northwest. Interesting, too, because it affords a chance to see, cheaply and satisfactorily, the many places of interest in our Western States.

Go via Rock Island System and stop off in Colorado—visit Salt Lake City—Yellowstone National Park—and California. Round-trip rate from Chicago $56.50; from St. Louis $52.50, going and returning direct; slightly more to go via California in one direction. Cheap rates for side rides to every nearby point of attraction. Very low to Alaska also.

The Rock Island has three routes—through New Mexico, through Colorado or via St. Paul and Minneapolis.

Use coupon below if thinking about a western trip.

K&K NOT A DOLLAR NEED BE PAID K&K

ESTABLISHED 25 YEARS.

UNLESS CURED

THE MASTER SPECIALISTS OF AMERICA

We know the diseases and weaknesses of men like an open book. We have been curing them for 30 years. We have given our lives to it, and thousands upon thousands of men restored to Vigorous Vitality are today living monuments to the skill, knowledge and success of Drs. Kennedy & Kergan. We never hold out false hopes, we never undertake a case we cannot cure. We have made so thorough a study of all the diseases of men—of Varicocele, Stricture, Blood Poisons, Hydrocele, Nervous Debility, Paralysis, Bladder, Urinary and Kidney Diseases, General Weakness, Loss of Vitality, and have cured so many thousands of cases that if there is a cure for YOUR disease you will find it here. When we undertake a case there is no such thing as failure. We charge nothing for consultation and our knowledge, skill and experience are at your service. We will explain to you then and Why We Can Cure You; why the diseases of men require the knowledge and skill of Master Specialists. We do not require to experiment with your case as we know from experience in treating thousands of cases exactly what to prescribe for your symptoms. Don't be discouraged if you have treated without success with Quacks, Fakirs, Electric Belts, Free Trials, etc. You must get cured—and Doctors alone can cure you. Our New Method System of treatment has stood the test for 25 years—why should it fail in your case. Could your case prove incurable you need not pay us a dollar. We refer you to any Bank in this city as to our financial standing. If you cannot call write for a Question Blank for Home Treatment. Consultation Free. Booklets sent Free.

DRS. KENNEDY & KERGAN

148 SHELBY STREET, DETROIT, MICH.

The Glenara Gold Mining Co.

Capitalization, 1,500,000 Shares — Stock Fully Paid and Non-Assessable

Par Value, $1.00 Per Share. — Treasury Stock, 700,000 Shares.

This Company was organized in March, 1905, under the laws of Arizona; with a capital of 1,500,000 shares. The par value of these shares is $1.00 each. They are full paid and forever non-assessable. The Company owns approximately seventy-five acres of territory in the Goldfield district. By reference to the map you will note that every acre is within the producing area, and with the systematic development this large acreage is to receive, there is no doubt that the stockholders will very shortly see the Company on a producing basis.

We desire to say right here that this Company is organized for legitimate mining, and not stock jobbing purposes, and among the directors are some of the best known mining men in the West. It is their one desire to make the GLENARA GOLD MINING COMPANY a great success at the earliest possible moment.

It is for the purpose of raising funds to vigorously develop the Company's holdings that some Treasury stock is now offered for public subscription. Out of a capitalization of 1,500,000 shares, 700,000 shares have been placed in the treasury. This treasury reserve insures the company a large working fund, if needed. It is the belief of the management, however, that it will not be necessary to dispose of over 50,000 shares of the treasury stock. The present outlook is such that the management believe that the mine will be on a paying basis before many weeks have passed.

The Property of The Glenara Gold Mining Company Consists of the Following:

The Glenara Group consists of four claims located in the Goldfield mining district of Nye County, Nevada. These claims are known as the Kentucky Bell, Mabel M., Lone Jack and June Bug, covering about seventy-five acres. This group of claims is located on a system of ledges over a mile and a half in length and about half a mile wide. These ledges are the same as those traversing the Kendall, Tonopah Club, Vernal, Quartzite, Black Butte, New York, Brooklyn, Jumbo, Vernal, Penn and Federal.

The surface indications at the time of location were of the very best, however, good float being found upon the ground and good panningss are obtainable, all of which indicate that the property can be developed into a paying proposition. The ground has been thoroughly prospected and the sinking of the shaft begun on the Kentucky Bell claim. There is a force of men sinking a shaft as rapidly as possible. Good ore has been encountered running from $5 to $15 per ton, increasing in value with depth, and it is safe to say that a strike may be looked for any day.

Taken as a whole, the investment offered by the Glenara Gold Mining Company is equal to any prospective company in the district. The claims are exceptionally well located, covering a large area; the management is conservative and honest, and is working hard for the success of the company.

The proposition will stand the very closest investigation, and, in fact, an investigation by prospective investors WILL MEAN AN INVESTMENT. WE COURT INVESTIGATION.

The allotment of stock is very small, and if you desire to become interested with this enterprise, it will be necessary for you to communicate with us at once.

The work on the property is being pushed to the utmost, and any day may bring news of a strike which will advance the price of the stock.

For prospectus and full particulars, address

R. H. B. WARBURTON, Fiscal Agent,

Office, 522 McPhee Building. DENVER, COLORADO

APPEARANCE

Is such an important feature on the table. It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table.

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

THE BEST YET!!!

We have given our clients some good things in mining stocks during the past two years, but we believe one of the best propositions we have ever handled is

DILLON OIL MINING & DEVELOPMENT CO'Y., OF CANEY, KANSAS

Call and get full particulars. Watch for description of this property in The Times.

Adel Reformatory

Annual Inspection of English Institution Whose Superintendent is Related Here

Concerning the annual inspection of Adel Reformatory, by the corporation of the City of Leeds, England, and which is of local interest, as Mr. C. J. Walker, brother of Mr. Fred Walker, manager of Mr. Arthur Hountree's George street grocery establishment, is its superintendent, the Yorkshire Daily Observer, says in part;

Once a year the members of the Leeds City Council make a pilgrimage to inspect the working of the Adel Reformatory. Yesterday was the day set aside for this event, and the weather conditions could not have been more delightful. There were numerous cars, a large number of the members of the council, including the Lord Mayor, Mr. Robert Arthington; who was accompanied by the Lady Mayoress, while there were also among the party the Chief Constable, Major Tarry; the Town Clerk, Mr. R. E. Fox; Mr. W. Packer, secretary to the Education Committee; the Rev. W. Egerton Leigh, vicar of Kirkstall; Mr. J. G. Chadwick, and Mr. Wilson Warren.

The party, accompanied by Superintendent Walker, having inspected the buildings, and the strawberry gardens having been visited, tea was partaken of.

On behalf of the society, Alderman Rawlinson Ford extended a cordial welcome to the visitors, and observed that the annual visit by the members of the council was to the boys the event of the year. The corporation had bought the place many years ago, and a great deal of money had been spent to the advantage of the school. In fact the work could not have been carried on but for the support the council had given them. It had encouraged them to keep up to date, and to turn out a better class of boys, and he thought that they were at present in the front rank of reformatories.

The Lord Mayor, on behalf of the corporation, said he was sure that they would be glad to do all in their power to benefit the boys committed by the magistrate to that institution, and to see that everything which could be done should be done to enable them to start life again better, and to make them feel that their stay at Adel was the turning point in their lives.

PLUNGED OVER CHILDREN

Horse Injured Twelve, None Seriously in Circus Parade at Cornwall

Cornwall, Aug. 23.—While the street parade of Norris & Rowe's circus was passing up Pitts street today a horse took fright and ran away, plunging through a great crowd of people, and injuring about a dozen persons. None of their injuries are fatal. Archie Cameron, a boy, was cut on the head and leg; Geo. Eastman had his head cut; J. Vallance had an arm broken; Edith Phillips, Ida Ridley, two little girls named Carter, Wilfred Petterly and two other children were cut and bruised. A cowboy, who was one of the marshals of the parade, followed the runaway and lassoed the horse.

WANTS TO HOLD SAKHALIN

Protocols to be Presented To-day Will Give Both Sides of the Controversy

Portsmouth, N.H., Aug. 23.—Both the Russians and Japanese have almost finished the preparation of the protocols to be submitted at the meeting of the conference this afternoon. The feature of the protocol is the presentation of the reason advanced by both sides for the divergence of views upon the articles upon which no agreement was reached.

On note 5, the cession of Sakhalin, the Japanese claim that they are entitled to the island, as well as by reason of their national rights to its possession as because of its occupation by the Japanese forces. The Russians, on the contrary, insist that up to 1850 Japan had never claimed any right to Sakhalin and at that time only 25 unmarried Japanese lived in the south of the island during the fishing season. Admiral Procktatine opened the eyes of the Japanese to the value of Sakhalin when he went there in 1854 and initiated negotiations for the possession of the entire Island by Russia. It was then that Japan, in order to make good her claims, tried to colonize the island and stated that the Ainos race which lives there belongs to the same family as the original inhabitants of the northern islands of Japan. In 1859, Mouraviedf, governor-general of Amur, tried to persuade Japan to yield in her claim to the southern part of Sakhalin, but did not succeed as the Americans had already begun to support the Japanese in their attitude against Russia. The reports of all the Russian consuls in Sakhalin up to the year 1870 stated that the Japanese efforts to colonize the island had failed because of the rigorous climate. The negotiations between Russia and Japan started in 1855 and continued for twenty years, ending with the treaty of 1875 by which the sovereignty of Russia over the whole island was recognized.

THE INDEMNITY ISSUE.

With regard to article 9, the protocol repeats the arguments already set forth several times. The Japanese claim reimbursement for the expenses of the war on the ground that they were forced by Russia's aggressions to resort to arms for self preservation and having been victorious at all points on sea and land are entitled to reimbursement. Russia on the contrary, denies absolutely that Japan is in a position to dictate such a condition, as Russia does not acknowledge defeat and arrived at the conference, not imploring mercy, but because of her love of peace, and her willingness to conclude on an honorable basis.

Russia declares that a claim for indemnity under the circumstances is unprecedented and reviews the historical occasions where indemnity was paid in support of her contentions. Most of these precedents have already been published in connection with an interview with Mr. Martens. The protocol also states that Russia, throughout her history, has never known the Great invader. The Mongol of the Great Invader. The Mongol Empire, in 1242, and ceased to exist.

THE INTERNED WARSHIPS.

With regard to article 10, the interned warships, Japan insists that the surrender of interned warships which have sought refuge in neutral ports, as a spoil of war is not contrary to international law. Russia, however, asserts that international law affords no precedent for a claim for the possession of property in the keeping of neutrals.

Finally, with regard to article 11, the limitation of the Russian naval power in the far east, the Japanese assert that it is indispensable to insure a lasting peace. Russia rejects the whole idea as being offensive to Russian honor and dignity. While declining, however, to place such an article in a treaty, she is willing to make declaration that she has no intention of attempting to threaten the naval position of Japan or of any other power in the far east.

HANDS FOR HARVEST

Two Thousand from Maritime Provinces are the First Arrivals

Winnipeg, Aug. 23.—The first of the harvesters' excursions reached here this morning. During the morning three trains arrived, bringing in all 2,000 men from the Maritime Provinces to assist in gathering this year's great crop. They will be distributed on the branch lines as rapidly as possible.

A large party of Minnesota editors arrived to-day on a tour of the Canadian West.

There will be no reduction in grain rates over the C.P.R. this season.

Souris defeated Winnipeg lacrosse team in the Provincial championship game at Souris.

The C.N.R. graders have completed work east and are now working west of Edmonton.

Old Country footballers defeated a Canadian team in the Civic Holiday fixture on Wesley grounds.

M. O'Brien was run over and instantly killed by a C.P.R. express at Maple Creek, which he attempted to board while moving.

BANANAS GOING UP

An Advance of 25 per Cent—Italians Who Sell From Carts get a Body Blow

The days of continued low prices in that nutritious fruit, the banana, are apparently over. The importers and wholesalers of New York and Boston have gotten together, and the competition which has resulted in slaughter prices in Peterboro and other cities is expected to give place to an understanding which will prevent the fruit becoming a drug on any market. In future the surplus fruit will be rushed to whichever cities are not fully supplied or overstocked, and thus prices will generally be maintained at a fair figure all over America.

Another point decided upon by the powerful merchants of the big Eastern cities is to sell bananas by weight, and not by the bunch, and in future the sole price will be quoted at so much per hundred pounds. The present rate is slightly higher than $2, and is an advance of about 25 per cent. on the former quotations.

The action of the importers is said to have caused consternation among the street peddlers of bananas. They have been able to sell at low prices lately, because surplus fruit was rushed into Canada in large quantities early in the summer. Their one great advantage is that they have been able to sell at such low figures that many people bought their bananas. Now, with the advance in price, and the feeling that the day of cheap prices of frost-bitten and "cooked" or over-ripe bananas is practically over, they are wondering what to do. One Italian is said to have cleared $3,000 in three years in selling bananas from a cart or wagon, but, with the wholesale market likely to hold at a more even figure, such profits are not looked for in future.

THE

Montgomery Mountain Mining Company

BULLFROG

promise to be one of the greatest producers yet discovered in the TONOPAH, GOLDFIELD BULLFROG DISTRICT.

This district records the greatest discovery of Gold that has ever been made in the history of mining.

This company is a legitimate Mining enterprise, managed by honest, capable mining men.

The property is on the Montgomery Mountain, adjoining the MONTGOMERY SHOSHONE mine, which has only been operated ten weeks and which is now

Shipping Ore that runs TWENTY-THREE HUNDRED DOLLARS to the Ton.

The Capital of the Company is $1,250,000, divided into 1,250,000 shares of a par value of $1.00 each fully paid and non-assessable, 300,000 shares of which are in the Treasury.

The Officers and Directors are

President and Treasurer, D. H. PEERY, Salt Lake City, formerly President of the Salt Lake Stock and Mining Exchange

Vice-President, Hon. JOHN SPARKS, Governor of Nevada.

Directors—D. E. BURLEY, General Passenger Agent, Ogden Short Line R. R., Salt Lake City; Hon. JOHN SPARKS, Governor of Nevada; E. E. EDWARDS, of the firm of Vermilyea, Edwards & Stanley, Attorneys-at-Law, Goldfield, Nevada.

The Company refers by permission to

McCormick & Co., Bankers, Salt Lake City; John S. Cook & Co., Goldfield, Nevada; Ormsby County Bank Carson City, Goldfield & Tonopah, Nevada.

We believe this property and its stock will have an advance that will be as sensational as was the Original Tonopah immediately after its development.

We can supply orders for a limited number of shares at 75 cents per share. This price expires July 10th, after which it will be raised. For information or stock apply to Thos. Patterson & Co., Fiscal Agents, Peterborough, or.

SHOOK IN CENTRAL STATES

Illinois and Missouri Experienced an Earthquake Last Night

Poor Apple Crop

Chicago, Aug. 24.—Illinois was shaken by an earthquake shortly after 11 o'clock last night, the most severe in recent years. The shock in the southern part of the States, especially in the region surrounding East St. Louis, was severe enough to rattle dishes and furniture. Houses creaked, and in many instances their occupants rushed out in terror, fearing that the straining beams and joists would give way.

As far north as Springfield the shock was distinctly felt. Farther north it grew less perceptible, until in the region of Chicago it was not noticed.

St. Louis, Aug. 24.—St. Louis was visited by an earthquake shortly after 11 o'clock last night. Three distinct shocks were felt by thousands of persons in St. Louis and St. Louis county. The trembling of the earth was accompanied by a dull, rumbling noise resembling the passage of a distant freight train.

Toronto, Aug. 24.—Rev. Dr. Carman, General Superintendent of the Methodist Church, who has returned from a visit to the Maritime Provinces, says that the apple crop in the Annapolis Valley is a failure this season. "Only about 500,000 barrels will be exported to the Old Country," he added, "compared with 2,000,000 barrels in former years."

NICKEL AND COPPER

A Few Thousand Treasury Shares

Only are left to be sold before all offerings are WITHDRAWN FOR FIFTEEN MONTHS' TIME.

You can buy the few remaining shares now at $1.00, but fifteen months hence you will probably pay from $5.00 to $20.00 per share.

THERE IS NOTHING EXTRAORDINARY

In shares advancing as above stated in mining propositions, for it is an old story of phenomenal advances in mining shares, Granite Mountain going from ten cents to $75 per share, Calumet & Hecla from $1.00 to $930.00, and so on down the list.

CONSIDER FOR A MOMENT

What this company offers—It controls to-day an actual territory of nearly **Three thousand acres of land known to be immensely rich in nickel and copper ores, all in a district known and proven to be sixth among the greatest copper districts in the world.** This company will control at least 2 thousand acres more. In all nearly five thousand acres, which will not be mined out in two hundred years

WE STAND READY TO PROVE

That this company offers to-day the most meritorious mining proposition presented in ten years' time.

Write or call for full particulars. All shares registered by International Trust Company, Boston.

International Nickel and Copper Co., Ltd., Suite 93, Journal Building, Boston, Mass.

W. K. HALL, Fiscal Agent, Peterborough.

"THE KRAMER" Gold Mining Co.

"THE SAFE WAY" IS "THE SUCCESSFUL WAY"

CAPITAL STOCK $1,000,000, fully paid and non-assessable.

Par Value of Shares $1.00. Incorporated under the laws of Arizona.

THE SAFE WAY

AN AMERICAN DISEASE

Indigestion is Responsible for More Sickness in America Than Any Other Disease.

Some doctors go so far as to say that indigestion is the national disease of America. Repeated attacks inflame the lining of the stomach and cause the glands to secrete mucous instead of the juice of natural digestion. Consequently the blood is poisoned, nerve force is reduced, the vitality of the entire system is weakened.

There is but one rational remedy for indigestion and that remedy is Dr. Hamilton's Pills, which are being used by thousands with marvellous success.

Dr. Hamilton's Pills accelerate the action of the gastric glands and give tone to the digestive organs. They strengthen the kidneys and liver, cleanse and purify the blood, and thus add general tone to every organ of the body. Flesh and strength are fast restored and the patient can eat and digest any food he pleases.

Under the vitalizing effect of Dr. Hamilton's Pills your system will soon rally; once more you'll enjoy the blessings of health. Test Dr. Hamilton's Pills yourself. 25c. per box or five boxes for $1; at all dealers, or by mail from N. C Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

The Great Canadian National Exhibition at Toronto this year. Specially low rates via Grand Trunk.

Wanted

An experienced dressmaker wants sewing by the day. Apply at this office, or 340 1-2 Water street.

Farm Laborers' Excursion

For the Farm Laborers' Excursion on Monday, September 4th, the Canadian Pacific Railway will run a special train, leaving Peterboro at 10.15 a.m. Secure tickets early from W. McIlroy, City Passenger Agent, 343 George street, Peterboro.

A New Appointment

Mr. T. Marshall, formerly Freight Agent of the Pere Marquette Railway, has been appointed Secretary-Treasurer of the Canadian Freight Association, vice John Earls, resigned. Mr. Marshall's appointment dates from August 1st. His office will be 316 Union Station, Toronto.

A Thoughtful Husband

A newly wedded couple from Lindsay went into the Snowden House the other day. They were assigned a room on the top floor. "Is that very high up?" asked the bridegroom. "It's on the top floor, but it's fine—" replied the kindly proprietor. "Gimme something on the first floor up," interrupted the young man; "if they should be a fire or anything I want to get Nellie out. I had a hard enough time gittin' that woman to take chances on leavin' her this soon. He was accommodated.

$10--First of the Season--$10

Four special seashore excursions from Suspension Bridge, Niagara Falls, to Atlantic City, Cape May, Ocean City, or Sea Isle City, via Lehigh Valley Railroad, July 11, August 4 and 11, and Sept. 1. Tickets only $10 for the round trip. Good 15 days. All trains via Philadelphia. Tickets allow stop-over returning. Tickets good on regular express trains leaving Suspension Bridge at 3.50 and 7.15 a.m., 6.20 and 10.15 p.m. For tickets, Pullman berths and further particulars, apply Robt. S. Lewis, Canadian Passenger Agent, 10 King street east, Toronto, Ont.

Peterborough Business College

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 80 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

W. H. PRINGLE

$10--Atlantic City and Return--$10

The last $10 Excursion this season via Lehigh Valley Railroad, Friday, September 1st. Stop over allowed at Philadelphia. Tickets good 15 days. And only $10 the round trip from Suspension Bridge, Niagara Falls. For tickets and full particulars call on or address Robt. S. Lewis, Passenger Agent, Lehigh Valley Railroad, 10 King Street East, Toronto.

Last Sides Rites.

Yesterday afternoon a long and solemn cortege, of friends and relatives of the late C. D. Moore, followed his remains to the Little Lake cemetery. The funeral service was performed by Rev. Mr. McKay of St. Paul's church. The pall bearers were three brothers, Messrs. W. H. Moore, F. D. Moore, and J. K Moore, two nephews, Messrs. Alan P. Moore and Charles E. Moore, and a brother-in-law, Mr. Geo. E. Elliott.

Jackson Park Still Popular.

There was considerable improvement in the quality of music supplied at Jackson Park yesterday evening, and the band as usual kept a large crowd joyed by a large crowd. Peterboro shows that she is not fickle in her wants as far as amusement is concerned, judging by the continued large crowds which nightly flock to this beautiful resort. The street car management displayed good judgment and rare perception of popular taste in their Jackson Park venture.

A Midlander Fell.

Yesterday afternoon several of the visiting Midlanders attending a local jig-dispensary, found that Peterboro whiskey will bite like an adder if persisted in. One of the young men made quite an exhibition of himself on George street, declaring he could whip any man in this ——— city. Like the often pictured western desperado on a tout, he flung his cap on the pavement, and jumping in the air several times, with each stamp of his feet on his headgear challenged any one to dispute his title. His friends got him away just as P. C. Miller loomed up in sight a block away.

Vandalism at Central Park.

It is a mean man who will take the cowardly advantage of darkness to denude a Central Park flower bed of its blossoms. Yet some small souled individual committed just this act of vandalism on Sunday evening. It is most depressing for Caretaker Cooney, after his hard and intelligent work in making our parks the envied of all visitors, and a constant source of pleasure to thousands of our citizens, to have a monkey-souled parody of humanity do such mischief. Mr. Cooney offers a reward of $5 for his arrest, and should this individual be found, he should be treated with a dose of tar.

Chemong Yacht Club House

Several citizens were last night discussing the meeting held yesterday evening in Mr. Dennistoun's cottage at Chemong for the purpose of arranging for erection of a suitable yacht club house at the park. It is altogether probable that immediate steps will be taken towards building a suitable home for the yachtsmen, adequately equipped and furnished. During course of the conversation, one gentleman asked, "What was done with the money put into the boat house on the little island at Chemong?" adding that he had put $25 into that building, had never had any use or privileges from it, nor had he ever gotten back one cent of his $25 nor any interest on his investment.

"Public Library."

Four visiting citizens of the Georgian Bay ports of Midland and Victoria Harbor, who had been taking freely of Peterboro's liquid refreshments, yesterday afternoon spied a sign on Water street, which bore the legend "Public Library." The quartette, with undulating motions, stopped in front of the entrance, discussing the question to go or not to go and see our advertised seat of knowledge. At last a decision, nem con., was attained and the four strangers climbed the stairs. As they reached the top of the steps they saw a sign notifying the public that only subscribers were admitted. With grunts of disgust the Midlanders went swiftly for Water street, and were heard saying "That sign is a ——— con game."

Expert Bare-Back Riding Acts with the Norris and Rowe Greater Circus

Until the present season, Norris and Rowe's Greater Circus made no attempt to make a special feature of riding acts. Their contention was that until they could secure the very highest class equestrians to present to their patrons, they would not offer inferior acts of this nature. There are but few indeed of the expert equestrians in this country and it took a correspondent of over three years to secure the lady and gentlemen riders, Norris and Rowe have with them this year. However, continued offers of unusually large salaries finally won the day, and the posing circus owners now take more than ordinary pride in introducing such celebrities of the arena as Miss Rose Dockrill of the celebrated Dockrill family; Mr. George Holland and Frank Miller, the acknowledged leaders of horsemanship; Austin Kning, champion jockey and bundle rider; Dolly Miller; Wm. Sutton; Jos. Haines; Bessie Julien and Estelle Seiffert, all expert bare-back riders. The beautiful horses, under the guidance of the equestrians, seem to possess almost human intelligence and it is a genuine artistic treat to witness what trained athletes can accomplish by kindness and gentleness towards their dumb companions whom they love. While going a racing speed, the equestrians turn somersaults upon the horses backs; lightning leaps from the ground and from one horse to another. The display is thrilling in the extreme and must be seen to be fully appreciated. The Norris and Rowe Greater Circus exhibits at Peterboro, Saturday, August 26th.

DEATH OF MRS. RYAN.

Mrs. Michael Ryan, a World Wide Traveller, Passes Away

Yesterday morning at the residence of her daughter, Mrs. J. A. Sharpe, 360 Kirr street, Mrs. Michael Ryan passed away. The deceased has been a world-wide traveller all her life, having first seen the light in Ireland, whom she went to South Africa. She lived here, with her husband for some years, coming to this country 35 years ago. She leaves to mourn her loss, her husband, at present a resident of Hamilton, four sons, Prof. Michael J. of New York, bandmaster of the Vanderbilt regimental band; James of the Western Union Telegraph, New York; Wm. J., of Toronto; Thos. P., of Hamilton, and two daughters, Mrs. Blackhall, Toronto, and Mrs. J. A. Sharpe, Peterboro. When seized with her last illness, Mrs. Ryan came to this city to be with her daughter, at whose residence she expired yesterday morning.

Local Incidents
BY THE TIMES MAN ON THE STREET.

—The chief has a lady's belt for which he wants to waste.

—The City Council met in Committee of the Whole yesterday evening. A full report on page one.

—Mr. E. J. McCarthy, contractor, has purchased the residence owned by Mrs. Hiram Amey, 238 Hunter street.

—Nothing doing in police court circles yesterday. No court, no arrests, only the salaries of the officers running on.

—The Midlanders here yesterday were a fine sturdy looking set of young men, whose appearance, as a rule, indicated close acquaintance with "shoving lumber."

—Corporal Joseph Hilson, of the 57th Regiment is taking part in the Ontario Rifle Association matches at Long Branch. In the Macdonald match he scored thirty.

—Nearly 50,000 pounds of cheese sold in Peterboro yesterday. If it takes one ounce to bait a six-holed mouse trap, how many mice would the amount sold here lure to death?

—Superintendent Henderson of Water Works Department, has a gang of forty men putting in some fifteen new hydrants on Aylmer, Water and Smith streets. Other changes in the system are being made also.

—The George street church organ Woodstock, where it will be rebuilt and have many improvements added. Mr. J. S. Collins, of the Karn Organ Company, of Woodstock, is in the city superintending the work.

INVADED BY MIDLANDERS

Fully 800 Stalwart Men and Their Ladies in the City Yesterday.

Perhaps the largest crowd of visitors by any one excursion this season, visited Peterboro yesterday. The visitors came by special train of eight coaches from Midland and Victoria Harboro, arriving about 11 a.m. The excursion was gotten up by, and under the auspices of, the C.O.F., of Victoria Harbor, a village of some 700 people, mainly engaged in the lumber mills there, and distant about eight miles from Midland. On every street in the city, during the whole day, hardy, sunburned mill hands adorned by badges of varied colors, setting forth in plain language the pride they took in their respective homes, were in evidence. The men from Victoria Harbor never tired of foretelling the assured future of their village.

There are three mills in the village employing nearly 500 hands. They claim that the raison d'etre of Victoria Harbor, was the formation of a syndicate a few years ago, with a capital of $20,000,000, to control the lumber interests of the district. This had the effect of soon causing other capitalists to invest heavily in lumbering operations, mills and shipping at their village, which in the past few years has sprung from a few scattered frame houses, to a well built burg with flourishing industries, good shipping and enormous weekly pay sheets.

The visitors told a Times' representative yesterday that they had all arrangements completed for bringing a band with them; the committee in charge, however, were under the impression that the 57th Regt. band was to meet them at the depot, but by some misunderstanding this arrangement was not carried out.

The visitors took in the lift-lock, street car lines, and all principal sights of the city. A very large percentage of the visitors were descendants of a more or less remote period of Sunny France, as is not uncommon with large lumber sections. They all enjoyed their visit, and spoke very warmly of Peterboro, before leaving early last night.

City By-Laws to Be Revised.

Continued from page one.

of one member appointed by the Mayor, one named by the council, and the sheriff. The gentlemen composing this court will now receive a salary of $50 each.

OIL ON TROUBLED WATERS.

Ald. Crowe complained that a large quantity of oil is allowed to escape from the gas works into the river, to the nuisance of citizens and pleasure seekers. This was thought to be a question for the Board of Health to deal with.

PAPERS ARE LATE.

Alds. Begley thought that, perhaps a resolution of this council, coupled with one from the Board of Trade would perhaps induce the railways to make some arrangements by

How Health Is Gained.

The story of a great deal of the unhappiness of women is a story of lost health. Women wonder how it is that little by little the form loses plumpness, the cheeks grow hollow and sallow, and they feel tired and worn-out all the time. In a large proportion of cases when women are weak, run-down and falling off in flesh and looks, the root of the trouble can be traced to womanly diseases which undermine the general health. The proof of this is that women who have been cured of painful womanly diseases by the use of Dr. Pierce's Favorite Prescription have recovered their general health, gained in flesh and in appearance.

$500 Reward for Women Who Cannot be Cured.

The proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay $500 in legal money of the United States for any case of Leucorrhea, Female Weakness, Prolapsus, or Falling of Womb, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

"I suffered for three years with ovarian trouble," writes Mrs. Ann Quinn (Treasurer Woman's Athletic Club), of 604 Sycamore St., Milwaukee, Wis. "The treatment I took did not do me a particle of good, until a good neighbor who had been using Dr. Pierce's Favorite Prescription advised me to give it a trial. The first day took my first dose, and it was my first step toward recovery. In nine weeks I was a different woman; my flesh which had been flabby became firm, complexion clear and my eyes bright. It was simply an indication of the great change within from pain and suffering to health and happiness."

Dr. Pierce's Pleasant Pellets invigorate stomach, liver and bowels.

which the Toronto newspapers could reach here earlier than a little before noon. This was thought to be a matter for the Toronto publishers to deal with.

The committee then adjourned.

PERSONAL

—Mr. Henderson Nesbit, lord of the castle of that ilk, is spreading destruction among the fish at Jubilee Point and Rice Lake.

—F. Pocock, Rock Island; E. Saxton, Toronto; A. E. Mason, Rochester, N.Y.; Fraser, Winchester; J. Clegg, Midland; J. Balfour, Hamilton; Fred Hanley, Brantford, Jas. E. Cole, Belleville, W. T. Gordon, Kingston, are guests at the Snowden House.

—Mr. John C. J. Boyd of Provost's Lodge, Trinity College, Toronto, known to many of our citizens, is spending a few weeks up at the Lake House, Gore's Landing. Jack is just the same jovial chap his Peterboro friends remember for twenty-five years back.

BEWARE OF SUMMER GERMS

Will Cause Sickness Unless Stomach is Strengthened With Mi-o-na

One tablet of Mi-o-na, taken before each meal during the summer months, whenever the stomach is out of order or the digestion weak, will do more than any other treatment to prevent the diseases caused by germs at this season.

If the stomach is weak so that food does not readily digest in it, the food will become a sour, slimy, fermenting mass in the digestive organs, the ideal condition for germs to cause bowel trouble, diarrhoea, or summer illness.

Mi-o-na will soothe and heal the irritated mucous membrane of the stomach and digestive tract, stimulate the solar plexus, and strengthen the whole nervous system. This remarkable remedy will make the whole digestive system so healthy, clean and sweet that food cannot ferment, and any disease germs which may enter the stomach will be destroyed.

Just one small tablet out of a 50 cent box of Mi-o-na before eating, and you will have no headaches, back-ache, poor appetite, distress after eating, heart-burn, furred tongue, sleeplessness, or general debility. It will tone up the digestive system and give perfect health and strength.

Take Mi-o-na now, and Wm. Madill guarantees to refund the money if it does not cure. The risk is all his.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL. XXXIII, NO. 199. PETERBORO, ONTARIO, FRIDAY, AUGUST 25, 1905. PRICE TWO CENTS.

RUSSIA WILL NOT PAY A PENNY OF INDEMNITY

Nor Agree to Cession of Territory--An Official Announcement which Would Appear to Doom the Portsmouth Conference to Absolute Failure.

St. Petersburg, Aug. 25.—The correspondent of Reuter's Telegram Company was to-day authorized by Count Lamsdorff, the Foreign Minister, to state officially and in the most formal manner that Russia will pay Japan no contribution, direct or indirect, nor will it make any cession of territory whatever.

ROOSEVELT STILL BUSY.

Portsmouth, N.H., Aug. 25.—The personality of President Roosevelt looms larger and larger in the crisis. He stands between warring countries, insisting that the Peace Conference shall not fail. Had he not stepped into the breach the conference probably would already have gone to pieces. Such hopes as remain that it will end in peace and a treaty rest upon it. The strength of the President's position is that he commands the confidence of both sides. He has already accomplished much, using his good offices to impress upon each side the necessity of mutual concession, and both sides have already yielded a great deal to his persuasion. Only a single point still separates them, but it is as it has been from the beginning, the crux.

THE COMPROMISE TERMS.

It was Mr. Roosevelt's compromise which Baron Komura formally presented at yesterday's meeting, in which Japan agreed to entirely withdraw articles 10 and 11, surrender of interned warships and limitation of Russia's nav[illegible] in the far east, and to substitute articles 5 and 9, cession of Sakhalin and indemnity, a new article providing for an arrangement by which Japan should get legal title to the southern half of Sakhalin, which she possessed before the treaty of 1875, while Russia should redeem or repurchase her title to the northern half of the island for 1,200,000,000 yen, or $600,000,000.

Russia, it can be stated, while rejecting the compromise because it included remuneration for cost of war under name, was willing and, indeed, offered the island of Sakhalin, by not only restoring the status quo at the treaty of 1875, but by delimiting the frontier and forever renouncing all claim to the other half.

THE INDEMNITY STONE WALL.

With articles 10 and 11 out of the way the Japanese recession and article 5 settled by compromise, the only thing which remained was the indemnity, which has been a stone wall across the path of a complete agreement. Under the financial head, Russia offers to pay liberally for the maintenance of the Russian prisoners in Japan. Her cession of the Chinese Eastern Railway also will place a tidy sum in the Japanese exchequer, but further than that Mr. Witte has as yet no instructions to go.

Woman to Hang for Murder

Digby, N.S., Aug. 25.—After one of the briefest trials in the criminal history of this province, Mary Hope Young was yesterday found guilty of the murder of Mary Ward, and a few minutes later sentence of death, to take effect December 20th, was pronounced upon her. When asked if she had anything to say, the prisoner answered "Not guilty." As she caught the words of her death sentence her face flushed for an instant only, then it assumed its normal color, and she was no doubt for a little time the coolest person in the court room. She bade her counsel good night, and said to him as he left her; "I am as innocent of this crime as you are." Judge Meagher reserved a Crown case as to the admissibility of some of the evidence. A recommendation to mercy by the jury will be forwarded to the Government.

BITTER FIGHT IN CLEVELAND

City Council to Investigate Record o Mayor Tom Johnson

Cleveland, August 25.—As a culmination of the bitter fight between the City Council and Mayor Tom Johnson, Republicans in that body may try to impeach the Chief Executive. Councilman Wilkes said today that he would ask the Council to investigate the Mayor's record. Recently property owners in a suit to prevent the construction of the proposed belt line railway, charged that corruption in the City Council was responsible for the passage of the ordinance granting the franchise. As the Mayor signed the ordinances, the Republican Councilmen, who control the body, are contemplating action against the Mayor, basing their action on the charges of plaintiffs in the belt line suit.

FIND CURE FOR LEPROSY

Authenticated Instance is Reported from Manila

Manila, August 25.—What appears to be a well authenticated instance of the cure of leprosy by X-Rays has been found here. A few weeks ago a patient who had been afflicted with leprosy and who had been under treatment for that disease, died of liver complications. After the patient's death every part of the body was subjected to searching microscopic examination by bacteriologists, but not the slightest trace of leprosy could be found.

Dr. H. Wilkinson, physician, who treated the patient for leprosy, is a graduate of the University of Virginia.

FIRM HAND WITH DOUKHOBORS

Will Be Treated Same as Ordinary Offenders in Future

Ottawa, August 25.—The Minister of the Interior has decided to adopt a firm policy in regard to the Doukhobors. Hereafter any of these people who offend against the laws of the country or the rules of good behavior will be treated as ordinary offenders, and not as misguided followers of a peculiar religious belief. Instructions to this effect have been issued to the Mounted Police. It is also intended to throw open to homesteaders any unoccupied land in blocks that were reserved for the Doukhobors. It is thought that if there is an annual movement of outsiders among them these people will be weaned from objectionable ways.

A PERILOUS VOYAGE

FRENCH AERONAUT TO CROSS OCEAN IN BALLOON

Godard to Ascend From Point New Foundland Coast and Land on Coast of Brittany

Paris, August 24.—The first attempt to cross the Atlantic in a balloon is soon to be made by the French aeronaut, Louis Godard.

M. Godard, who has made more than 700 longer or shorter trips in his balloon, has all the details of his trip planned and the necessary money has been subscribed by a prominent member of the Aero Club.

The balloon in which he will undertake his perilous voyage will be large enough to contain 12,700 cubic metres of hydrogen. He has figured that one per cent. of this gas will leak out every day, but allows an extra margin of one-half per cent., which means that after ten days the balloon will still have a carrying capacity of four hundred and twenty pounds.

He does not think, however, that the trip will take more than four days.

To prevent the balloon from dropping into the ocean it will be equipped with a contrivance invented by M. Herve, which will keep it at a height of two hundred metres above the sea level.

The balloon will be manned by a crew of two and will carry five thousand four hundred kilogrammes of ballast and provisions, besides scientific instruments and a motor boat.

M. Godard will ascend from some point on the Newfoundland coast and counts on landing on the coast of Brittany.

Stricken Down at Wife's Grave

Napanee, August 25.—William Aiken, aged 82 years, is dead. A week ago he went to the wife's grave, where he was stricken with paralysis, and lay there all night. He never rallied, passing away on his birthday. Mr. Aiken had lived in Napanee for half a century. He was a Presbyterian elder, and leaves one son and four daughters.

Caught by Shafting and Killed

Cornwall, August 25.—A young man, named Joseph Sauve, formerly of Cornwall, was accidentally killed at Tupper Lake, N. Y. He was working in a stave mill and was shovelling away sawdust beneath the mill when he was caught by the shafting and his body struck the floor above for several revolutions. His clothing was torn from his body, and he dropped to the ground dead.

PAT. M'AULIFFE FOUND

Missing Boy Arrested in Windsor for Theft.

Our readers will remember that two local boys, Hugh Darke and Pat McAuliffe, have not been located since they disappeared from the city on Civic Holiday.

The chief is in receipt of a letter from the chief of police of Windsor, Ont., which shows that not only has one of the boys, McAuliffe been found, but that he has failed to improve his local reputation, which was not flattering.

The letter in full is as follows:

Chief Constable's Office,
Windsor, Aug. 22.

The Chief Constable,
Peterboro, Ont.

We have in custody here on a charge of theft a young boy named Patrick McAuliffe or McGuliffe. He has informed us that his uncle, Thos. Murray, with whom he has been stopping, resides at 111 Rubidge street, there, and his father, Leonard McAuliffe, is a farmer and resides about 12 miles from Peterboro. He Patrick McAuliffe, with two men, entered a country store about 12 miles from here and stole therefrom about two dollars worth of goods, and it seems too bad to have this young McAuliffe tramping about the country with tramps who chiefly make a living by crime. Would you kindly see his uncle, Thomas Murray, and ask him to forward railway fare for him to Peterboro, and I will place him in charge of a conductor, who will pass through to there. I think half fare will be sufficient. Hoping to hear from you at your earliest convenience.

Yours truly,
E. WILLS,
Chief Constable.

FAMOUS EQUESTRIAN ACTS

Celebrated Riders With the Norris & Rowe's Greater Circus

Messrs. Norris and Rowe, determined to make their circus this season the most memorable one in their history, and towards that end, have engaged performers in all departments of the arena that have gained the greatest fame in this country and Europe. Last year witnessed the inception of their greater circus and this year will witness the culmination of their triumphs as Big Show Showmen. Towards that end they have engaged such famous riders as Miss Rose Dockrill, the daring lady equestrian; Geo. Holland, the principal rider; Austin King, the clever young bubble and hockey rider. Dolly and Frank Miller, a notable duo of equestrians, brought to this country from the Paris Hippodrome, where they were at the height of their fame. William Sutton, Jas. Haines, M'lle Julien and Estelle Sother are a quartette of dashing bare-back riders. These stars will be augmented by other riders in innumerable sensational equestrian exercises. As a contrast to the expert riding, there will be many laughable climaxes to the burlesquing of these acts by famous clowns who with their fooling will create amusement for the little ones by their absurd attempts to duplicate the feats performed by the expert equestrians in the arena. Norris and Rowe contend that no circus visiting this section will be able to show as many nor as clever a list of celebrities in expert horsemanship as will be exhibited in their arenas. Exhibitions will be given at Peterboro, Saturday, August 26th.

CZAR'S MESSAGE TO HIS ENVOYS

M. Witte Said to Be Instructed Not to Yield an Inch

THE NEGOTIATIONS TO-DAY

As Long as Conference Continues Hope of a Peaceful Settlement Remains

Portsmouth, N. H., August 25.—A dispatch, it is said on good authority, reached M. Witte from St. Petersburg last night, ordering him not to recede on any of the four articles, 5, 9, 10, and 11, on which the envoys differ. As to whether the Japanese would consent to trade Sakhalin for an indemnity is a matter of pure conjecture, but for her to do so would be a complete right about. Her envoys have repeated again and again that Japan will demand Sakhalin and indemnity, too.

The Japanese feeling at home, as well as here, is that to part with either would be to part with the chief joints of victory. Still the reports of a chance of a compromise on these two points, are persistent. As long as the conference holds on, there is hope of peace. That has been denied by no well informed person from the start. The delay in the protocols gave President Roosevelt an opportunity to make an effort to break the deadlock which has existed since articles five, nine, ten and eleven came under consideration. Out of deference to him, the envoys will make every effort to reach an agreement, and are not likely to hurry the conference to a close, until all efforts at a compromise have failed.

This morning it was reported that an adjournment would be taken to-day, until Saturday, which gave color to the reports that active efforts were being made in many quarters to delay the conference. It was said that on Friday both commissions would go on an excursion to the White Mountains, as guests of Governor McLain, of New Hampshire. At noon the Governor announced that this plan had been abandoned. The commissions did not care to go together on such an excursion until peace existed; and it was also explained that the envoys did not want to get far from the ends of the cables, that connected them with their home governments.

Baron Rosen said at noon that he did not understand that there was any plan to adjourn this afternoon until Saturday.

Some comment was caused by the fact that at the noon recess M. Witte and Baron Rosen retired to their quarters at the hotel while the Japanese envoys remained at the navy yard. It is presumed that the Russian envoys came back to communicate with the Czar, for on other days it has been the custom to have luncheon in the room especially provided in the navy stores building, where the conference is held.

It was reported generally this morning that very soon Baron Komura would submit to M. Witte, at their meetings, a modified proposal, giving up the articles 10 and 11, and that if Russia would recede from her uncompromising stand on articles 5 and 10, the way would be open to further negotiations. It has been understood here, from the first, that articles 10 and 11 were put up to be knocked down and they have never been deemed of great importance, as the real deadlock has been on Sakhalin and indemnity.

GENERAL SPORTING GOSSIP

THE TURF—BASEBALL—LACROSSE—FOOTBALL

O.R.F.U. Meeting on Tuesday

Toronto, Aug. 25.—The first meeting of the Executive Committee of the O.R.F.U. for the season of 1905 will be held at the King Edward Hotel next Tuesday evening at eight o'clock sharp. The business will consist on a discussion of the season's prospects, the drawing up of the senior schedule, if possible, and any other matters which may arise out of the correspondence. Senior teams are assured in Toronto, Hamilton, and London, but Peterboro is an uncertainty.

The regular fall meeting of the Victoria Rugby Club was held last evening in the Y.M.C.A. parlors, with Mr. James Crang in the chair. The secretary presented a very creditable report from last year. Nearly all of last year's officers were re-elected, and the club's outlook for the coming season is exceptionally bright. The following officers were elected; President, James Crang; vice-president, Wm. Robinson; hon. vice-presidents, J. K. Forsyth, John Kirk, and J. D. Freeman; vice-president, A. E. Harris; hon. patrons, Messrs. Stollery, Milligan; secretary, H. E. Johnston; treasurer, D. S. Richards; manager, G. E. Harris.

Victorias withdraw from Sen. Ranks.

The withdrawal of the Victorias from the senior football ranks, taken in conjunction with the merger of the Torontos and Argonauts, should insure the city being well represented in the Ontario Rugby Football Union's series during the coming fall. Last season the material here was divided into three factions, which necessarily made it extremely difficult to secure a single fifteen that could worthily represent the city. Now a different phase is placed upon the situation, and the championship may be expected to lose with the Toronto Argonauts on the termination of the coming season. Matters will shape themselves pretty well next Tuesday evening when the first meeting of the Executive Committee of the Union will be held at the King Edward Hotel to draw up the season's schedule.

• • • •

The Tigers of Hamilton are practising already. The back division will consist of Simpson, Stinson, Moore and Tope, with George Ballard at quarter.

• • • •

There will undoubtedly be an intermediate O.R.F.U. series this year, and the Executive Committee at its first meeting will likely decide what teams will be placed in the intermediate series. An amendment was passed at the annual meeting last year giving the executive power to place any team, in any series it may deem best in the interests of the Union.

• • • •

New clubs are expected in the junior series from Hamilton, Galt, Incersoll, and St. Jerome College of Berlin. It is also possible that a junior series may be formed, composed of Peterboro, Lindsay and Port Hope.

• • • •

Any clubs desiring any information in regard to joining the Ontario Rugby Football Union are requested to write the secretary, Frank D. Wentworth, 70 Adelaide street east, Toronto.

Lacrosse.

Quite a number of the local lacrosse enthusiasts will journey to Lindsay to-day to see the Beaverton-Uxbridge game to be played off there.

• • •

Bradford, Aug. 24.—The lacrosse match here in the semi-finals yesterday resulted in a victory by 7 to 1 in favor of the home team. Shelburne scored the only game in the first quarter. In the second Bradford took two goals. In the third two, and in the fourth three goals. Wigborne refereed the game.

• • • •

Cornwall, Aug. 24.—Cornwall's unexpected victory over the champion Shamrocks last Saturday has revived local interest in lacrosse, which had dropped considerable under the strain of six consecutive defeats. Six goose eggs in the nest was rather discouraging, and would have put any other lacrosse club out of business. The colts, however, knew that experience was good, if somewhat severe teacher, and stuck to their knitting, pushing every other team hard, at home or abroad, and improving with every game. Their success against the Shamrocks has [illegible] the ultimate capacity. Cornwall's possibilities for 1905. There are a dozen junior men in town well qualified to fill all gaps in the line up, and unless too many are secured by the alarms just held out by the big city clubs Cornwall should have a hand in settling the N.A.L.U. championship next year.

• • •

Secretary Best is in receipt of a communication from the Almonte Lacrosse team, champions of the Ottawa Valley League, stating that that team are arranging a western tour and asking for a game with the Peterboros. The Almonte team will likely play Havelock and some of the Toronto teams. The local management are of the opinion that there is little to be gained in exhibition games and it is not likely that the easterners will play here.

• • • •

Trying to Swim English Channel

Dover, Eng., Aug. 24.—The thirtieth anniversary of the success of Capt. Matthew Webb in swimming across the English Channel, which occurs to-day, brought out three candidates anxious to emulate the famous swimmer. They are Miss Annette Kellerman, the woman champion swimmer of Australia; T. W. Burgess, who has already made three unsuccessful attempts to swim the Channel; and Horace Mew. All three made an early start from this vicinity under favorable weather conditions.

After covering six miles Miss Kellerman was overcome by seasickness and gave up the attempt.

On August 24, 1875, Capt. Matthew Webb dived from the Admiralty Pier, Dover, and swam to Calais Sands, France, a distance of twenty-two and a half miles, in 21 hours, 45 minutes.

On July 24, 1882 Captain Webb was drowned while attempting to swim the Niagara Rapids.

TO SECURE THE DAIRYMEN

Strenous Effort Being Made to get the E. O. Dairymens' Ass'n

Messrs. Arthur Rountree and J. M. Brooks, executive officers of the local Licensed Holders' Protective Association, were busy yesterday laying the foundation of a strenuous effort to secure for Peterboro the next annual meeting of the Eastern Ontario Dairymens' Association. As our readers are aware, the County Council have already granted the sum of $100 towards this very desirable end; an effort will be made to induce the County Council to increase their grant by another $100. As the farming community would be, by all odds, the largest and most enduring gainers by having this meeting held here, there is every expectation that the County will increase their grant.

The License Holders' Protective Association have already called a meeting for next Monday, in the Ontario Bank Chambers, to discuss ways and means of getting the dairymen here. It is expected that the hotelmen will try to raise $150 among them, and an appeal to the banks, merchants and others will likely be made. The street railway people cannot, with any proper sense of fitness, fail to give a good sum towards the fund, not altogether from philanthrophy, but certain increase in revenue, should the hundreds of dairymen decide to come here.

It might be said that another city has already offered $800 for the meeting, so our citizens will have to act promptly and unloose their purse strings to secure the meeting.

A POWERFUL AIR-DRILL

The Big Dipper Mining Company Add to Their Plant.

As noted in previous issues of The Times the Big Dipper Mining Company, whose property is located in Frontenac county, but whose management is located on Water street, city, are pushing this mine to a successful era in its history. The Times was yesterday shown some samples which had just arrived; these samples are enough to call to mind the riches so graphically described in the Arabian Nights, the flake gold being in such quantities as to predominate over the quartz. The company yesterday began operations in placing a new and powerful steam drills at drill to hasten up work on their tunnel which has been slowly advanced by hard work. The tunnel is now, sunk for a distance of about fifty feet, but by assistance of the air drills will very quickly be advanced some 150 to 200 feet further, until the riches of the main vein are reached. Every day the gold shows up richer and the outlook is most promising.

Mr. S. Sager and his partner, Mr. Fletcher, o. Buffalo, N.Y., have made a plucky fight for their mine, the two gentlemen putting in over $20,000 of their own private funds before any outside capital was looked for; they will soon however, be fully recompensed for their determined faith in the mine, as denoted not only by the good show of gold now in sight and being taken out daily, but by the strenuous insistence of outside capitalists to procure stock.

Within the past two days four capitalists from Olean, N.Y., Messrs. Ed Wilson, Bradley, Hayward and Reid, have all signed for large blocks of stock running from $5,000 to $10,000 shares each. One of the chief officers of the Star of the East Mine, which nearly adjoins the Big Dipper property was overheard, one day this week, as he walked down George street, to remark to another gentleman interested in the Star of the East property, "The Big Dipper people have certainly done wonders more than we could have done with our mine!"

Wreck Avoided by Strange Accident

St. Thomas, August 25. — What might have resulted in a very bad wreck to a fast freight was prevented by a peculiar accident last night. A wheel on a car broke, and a piece of the broken metal flew and severed the air-brake tube, bringing the train to a standstill.

Tornado Strikes Arizona Town

El Paso, Tex., Aug. 24.—A tornado struck Roosevelt, Ariz., yesterday. Almost every house in the town was overturned, but only one person was injured. The town is situated in a gorge.

Japan's Offer Only a Sham Says M. Witte

How Japan's Offer of Compromise is Sized Up by Russian Delegates--Waiting Now to See if the Emperor will Accede to the Final Terms.

Portsmouth, N.H., Aug. 24.—The Japanese plenipotentiaries at the conclusion of yesterday's session of the peace conference threw the cards upon the table. The protocols involving agreement upon eight of the 12 conditions presented by Japan had been signed.

M. Witte sat silent and the move in the great diplomatic game passed to Japan. Baron Komura in a few words explained that Japan in her great desire for peace was ready to make certain "modifications" of the original articles in the hope that Russia could find it possible to accept them.

He then presented in writing the compromise proposition. It offered to withdraw article 9, providing for the payment by Russia of Japan's bill for the cost of the war, on condition that Russia would accept article 5, which provides for the cession of Sakhalin, so modified as to include an arrangement for the repurchase by Russia of the northern half of the island for 1,200,000,000 yen. In addition it offered to withdraw entirely articles 10 and 12, surrender of the interned warships and limitation upon Russia's sea power in the far east.

CALLS IT A SHAM.

Without a moment's hesitation M. Witte explained that the modification proposed was merely a sham, a change of phraseology, a diplomatic attempt to "dorer la pilule," and ask Russia to pay war tribute under another name. He could not accept it. He told Baron Komura, Russia wanted peace. She had given the proof in accepting every article involving the issues upon which the war was fought, but she could fight, and money for tribute she would not pay—not a kopeck. He asked Baron Komura to withdraw all demands for tribute.

And so the plenipotentiaries separated to meet again on Saturday, ostensibly to permit M. Witte to place in writing, as the rules of the conference require, his reply to the Japanese compromise proposition. In reality, the adjournment over the two days was to give each side an opportunity to consult its Government for the last time. The outlook is black, many believe it was never so black as last night.

One-Fifth of Crop is Cut.

Winnipeg, Aug. 24.—The Canadian Northern crop report issued to-day shows that twenty per cent. of the wheat crop is already cut along the main line. Harvesting is general everywhere, and the prospects are of the brightest.

TELEPHONE TALKS.

TO TELEPHONE USERS AND THE GENERAL PUBLIC,—

Speaking of the long distance telephone in England one witness said "The service is universally conceded to be the "worst in the world," and this statement was not questioned by a single person throughout the enquiry.

The Chairman of the Committee said" I do not think there "is any worse place than England for a Telephone system. "That is my experience."

This is the undisputed comment on Government operation of the telephone in Great Britain.

The Chairman examining an expert witness from London as to the reason for England being so far behind the United States in telephone matters, obtained the following statement "Broadly speaking the fundamental reason is Government "monopoly. No one can establish a telephone system without "a license from the Postmaster-General, and the Postmaster-"General will only issue a license for a limited period. To "my mind the whole point is the limited license. No Com-"pany with a limited license can properly develop a business "which requires a continuous expenditure of new capital "like the telephone business does. You cannot raise money "to carry on a business when the right to do business is going "to expire in seven or eight years and exists on totally uncer-"tain conditions."

The financial results of Government operation are startling. The financial statement of the Postal Department for 1904, covering telegraphs and telephones, shows a deficit on working expenses of £983,681. If interest on capital invested is included, the deficit for last year is raised to £1,282,560—upwards of six and a quarter millions of dollars; or the deficit for the year amounted to one-third of the gross revenue from both telegraphs and telephones. The Government has not been able from earnings to pay interest on capital invested since 1872.

The Government returns show that the accumulated deficit from 1870 to 1904 of the Postal Department on the working of telegraphs and telephones, to meet interest and working expenses, amounts to £12,113,560—a total loss in thirty-four years of $60,000,000.

The Government in their reports do not separate the telephone from the telegraph but it is noted that the annual deficits have largely increased since they took over the long distance telephone lines.

The conditions of the telephone in Great Britain under Government control are indisputable,—the worst service in the world and a series of annual deficits that are astounding.

Yet experts say that the same service under such administration as a company would give, would result in greatly improved service, tremendous development, and a business profitable to the investors.

Canadians can read the lesson for themselves.

THE BELL TELEPHONE COMPANY OF CANADA.

All Thin, Pale Women

Can Learn the Cause of Their Nervous, Used up Condition

With women ill-health is usually traceable to nerve exhaustion. Feeling run-down and tired most of the time is nature's warning that more nerve-force is required.

You must build up, nourish the body, vitalize the nerves, get more flesh and blood.

It's this abundant nutriment and building material in Ferrozone that enables it to cure so many sick women. It increases the appetite, adds weight and strength, restores lost color and develops a surplus of energy and nerve force that defies sickness of any kind. There is living proof in Mrs. Daniel Ferguson, Jr., of Prescott, Ont. Read her statement:

"A year ago my health failed. I grew thin and exceedingly pale. At night it was difficult to obtain restful sleep. My appetite was variable and indigestion bothered me considerably. I became nervous and suffered from heart palpitation. You could scarcely believe the benefit I derived in one week from Ferrozone. Color came back to my cheeks. My vitality and appetite increased, renewed nerve force and better spirits came also. Ferrozone did a world of good and made me well.

Remember this: No alcoholic stimulant can nourish and build up like Ferrozone. Fifty cents per box or six boxes for $2.50. At all dealers, or N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterboro are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year strictly in advance.

SMITH COUNCIL MEETING

TOWNSHIP COUNCIL DECIDES THAT CATTLE MUST KEEP OFF THE ROADS

Tax Rate Has Been for the Township —Monthly Meeting of the Smith Council.

The council of the Township of Smith met at Township hall, Bridgenorth, on Monday, the 7th August. All the members present, the reeve in the chair. Minutes of last meeting read and confirmed.

A bylaw to levy the rates for the current year was introduced by Messrs. Northey and Graham, and passed its several readings, fixing the rates as follows: For County purposes, 2 9-10 mills on the dollar; for Township purposes, 2 1-4 mills on the dollar; and for Statutory School Rate, 1 1-5 mills on the dollar.

A bylaw to levy the required amount of money on the property in the several school sections of the township, passed its several readings and was signed and sealed.

On motion of Mr. Graham, seconded by Mr. Northey, a bylaw appointing John Chittick collector for the township for the current year, at a salary of $100, was read a first time and was also read a second time and a third time and passed.

Moved by Mr. Garbutt, seconded by Mr. White, that all payments made by the Township of Smith on orders issued by members of this council and overseers of highways be paid, the same are hereby confirmed.—Carried.

Moved by Mr. Northey, seconded by Mr. White, that the bylaw prohibiting cattle or other animals from running at large on the highways be enforced, and that the clerk give notice of the same by posters. —Carried.

Moved by Mr. Garbutt, seconded by Mr. Northey, that the treasurer of the Township of Smith be, and is, hereby authorized to overdraw the account of the said Township of Smith, with the Bank of Toronto, at Peterborough, from time to time, as may be required, until the collector of taxes collects sufficient thereof to repay overdraft, the interest to be at the rate of 5 per cent. per annum.—Carried.

Moved by Mr. Northey, seconded by Mr. Garbutt, that the sum of $100 be and is hereby granted to the Agricultural Society of Smith, Ennismore and Lakefield, to assist in purchasing land for the purposes of said society as a show ground, and that the treasurer be and is hereby authorized to pay the same on or after January 1st, 1906.—Carried.

Moved by Mr. Graham, seconded by Mr. White, that the following claims be paid:

Geo. W. Ray, work on road ...$	4 25
Times Printing Co....	20 78
R. Hicks & Co. coal for grinder.....	8 18
W. T. Cullen, work on road ...	2 00
W. Taylor, work on road	1 30
E. D. Young, goods to E. McFadden.....	6 90
E. D. Young, acct. for lumber, etc.....	9 86
W. S. Northey, work on road.	13 60
P. Westlake, work on road ...	1 50

—Carried.

The council then adjourned.

September Canadian Magazine

There is some plain speaking in the leading article of the September Canadian Magazine. The article is entitled "Moral Heroism," and is from the trenchant pen of the Hon. J. W. Longley. He seems to think that Canadians need some frank advice in this the hey-day of their prosperity. "Courting Among the Habitants," by M. P. Parent, is an illustrated contribution which will attract considerable attention. The story is told sympathetically, yet most graphically. The stories in the number are excellent. "Lord Gordon Gordon," by Charles Lewis Shaw, describes a character who made considerable commotion during his short residence in Canada. Norman Duncan's sea story, "Half-yard's Mutiny," is a strong character sketch, and yet a tale which leaves a pleasant impression. "The Other Miss Robbins," by Isabel Eleanore Mackay, is one of the most charming stories ever written by a Canadian. "Mollie in Moonland" is a beautiful tale for the children, illustrated by Emily Hand, a Canadian illustrator whose work is coming into some popularity. The poetry and the departments are quite up to the average.

A DAY'S OUTING

A Newspaper Man Takes in the Beautiful Trip to Gore's Landing

Wednesday a Times' representative took in the Rice Lake trip by the well managed and commodious steamer City of Peterboro. The first object of interest catching the eye-eager-to-copy of our reporter was a party composing pater, mater, and a family of graded sizes of children rushing toward the wharf through the Matthews Packing House yard in mistake. They find a high fence between them and the coveted steamer with the gangway just being cast off, after the last whistle had blown. With a rush pater tears after the high gates and sending the family on stops to shut them again. He then frantically climbed the gate and rushed to the boat, catching it as she pulled out. As he steps on board, one of the graded size children says, "Daddy where is the lunch basket?" Pater then remembers he left it behind the gates in Matthew's yard. With a frantic appeal to the captain to go slow, he rushes to the fence, struggles furiously for a moment and is on the fence (close board) another climb with the basket and he gets the boat by a four-foot leap.

As the locks are reached, many complimentary remarks are audibl from all sides, concerning the improvements made there, mainly by the systematic manner in which the long stretch of hitherto ugly earth banks along the lock is being graded and sodded down. As the good ship City swiftly eats up the miles between Peterboro and Rice Lake, the scenery mile after mile not only discloses varied and everchanging glimpses of fairyland beauty but soon develops beauteous vistas of tree clad hills between unbroken lines of close growing, water nourished frontage through which it is impossible to pier. As the boat glides smoothly along, every hundred yards or so, a startled crane, after a hasty survey of the steam propelled monater invading its sanctuary slowly rising on stretched pinions, majestically sweeps away over the thickets covering the banks, or floating on slowly waving wings, precedes the steamer for some distance until it settles on a sunken log or clump of aequatic plants, to repeat the flight when the boat again startles it. The children take great amusement in watching three grey-blue fish pirates and the quicker brown plumage bitters; many an exclamation is heard as a turtle is seen basking on a half submerged log or rock which gently splits the even surface of the river and raises a ripple as the current guest on its endless journey to the lake.

As the flats surrounding the delta of the river are reached, a wilder but still serene view of nature at its best is met with. As the voices aboard awake the stillness that seems natural along these rice and bulrush covered lowlands, clouds of chattering blackbirds, many of them, the "soldier blackbird," rise from their safe retreat among the rushes, and as though conscious of their safety, soon settle down again out of sight, always leaving one on guard, perched on a lofty bulrush or higher plant among the sedge. Many people leave the boat when the pretty, clean sweet park at Jubilee Point is reached, and afford food for gossip as those remaining on board watch their camping outfits and effects unladen from the steamer. Shortly after the ropes are drawn aboard and the boat continues her voyage the lake is entered, between long rice grown banks, extending for a great distance into the open water. The view, both up and down Rice Lake as the steamer nears the long chain of tree covered islands, which extend for miles, east and west, is one insurpassable on the continent. Whilst not having the grandeur and overpowering majesty of mountain views, there cannot live a man fond of nature, but must have the scenes observed from the passing steamer Rice Lake, impressed indelibly on his memory. In a short time Gore's Landing, a pretty little tree shaded village nestling between hills and lake, is reached. Here every resident of the place seems to vie with one another in making the visitor welcome. The place has several good hotels, where the most exacting guest finds all he wants. The fishing in this year far superior to that of the upper lakes, and every day guests at the hotels go out in naptha launches or row boats, and return with both a good showing of bass and maskinonge and an appetite that almost defies being satisfied. After a few hours at the Landing the return trip is made, and as the sun goes down, each and every one on boards feel abet grand, one on board feels as the reseate and dying rays in the western sky percolate through the trees, that life is good.

On board the boat every care is taken of its passengers, and the crew, from captain, purser, engineer to the newest deckhand seem to do all they can to make the trip a pleasure.

The Turbinia Chartered

Hamilton, Aug. 24.—The turbine steamer Turbinia, which plies between Toronto and Hamilton, has been chartered for winter seasons commencing January 1, and ending March 1, to run between Cuba and Jamaica.

To Search for Remains

Winnipeg, Aug. 24.—Mgr. Langevin and a party of clergy have left for Rat Portage whence they will take a yacht to Minaeres Island in the Lake of the Woods, where his Grace commenced a search some years ago for the remains of young La Verandrye and his companions who were killed there by Indians in 1736.

Ayer's Hair Vigor. You know gray hair adds twenty years to your looks! Then restore the color; keep young! Stop your hair from falling out and make it grow long and heavy. J. C. Ayer Co., Lowell, Mass.

NAVIGATION

RICE LAKE AND THE OTONABEE WATERS

Calcutt's Line of Steamers

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader lives too far, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. In the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clause [2] [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 3rd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the north west Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba or to any of the Dominion Lands Agents in Manitoba or the North-west Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

How to Visit Colorado

Go first to Denver. It is the State capital, as well as the largest, wealthiest and most metropolitan city between the Missouri River and the Pacific Coast. The city itself is very interesting, and from it start practically all the trains over the various roads into the mountains.

Many of the most enjoyable one-day trips in Colorado begin and end at Denver. The cost of these little journeys is not great.

After you have familiarized yourself with Denver and its surroundings will be soon enough to decide where to go for the rest of your visit. The question must be considered from several standpoints—altitude, hotel accommodations, accessibility, amusements, etc.

Our Colorado literature will help you in deciding where to go and what to do. Sent free for the asking.

Portland

Exposition

Now open for the summer. Interesting because it demonstrates the progress made by that wonderful country—the Pacific Northwest. Interesting, too, because it affords a chance to see, cheaply and satisfactorily, the many places of interest in our Western States.

Go via Rock Island System and stop off in Colorado—visit Salt Lake City—Yellowstone National Park—and California. Round-trip rate from Chicago $66.50; from St. Louis $62.50, going and returning direct; slightly more to go via California in one direction. Cheap rates for side rides to every nearby point of attraction. Very low to Alaska also.

The Rock Island has three routes—through New Mexico, through Colorado or via St. Paul and Minneapolis.

Use coupon below if thinking about a western trip.

K&K NOT A DOLLAR NEED BE PAID K&K

ESTABLISHED 25 YEARS.

UNLESS CURED

THE MASTER SPECIALISTS OF AMERICA

We know the diseases and weaknesses of men like an open book. We have been curing them for 30 years. We have given our lives to it, and thousands upon thousands of men restored to Vigorous Vitality are today living monuments to the skill, knowledge and success of Drs. Kennedy & Kergan. We never hold out false hopes, we never undertake a case we cannot cure. We have made so thorough a study of all the diseases of men—of Varicocele, Stricture, Blood Poisons, Hydrocele, Nervous Debility, Paralysis, Bladder, Urinary and Kidney Diseases, General Weakness, Loss of Vitality, and have cured so many thousands of cases that if there is a cure for YOUR disease you will find it here. When we undertake a case there is no such thing as failure. We charge nothing for consultation and our knowledge, skill and experience are at your service. We will explain to you How and Why We Can Cure You; why the diseases of men require the knowledge and skill of Master Specialists. We do not require to experiment with your case as we know from experience in treating thousands of cases exactly what to prescribe for your symptoms. Don't be discouraged if you have treated without success with Quacks, Fakirs, Electric Belts, Free Trials, etc. You must get cured—and Doctors alone can cure you. Our New Method System of treatment has stood the test for 25 years—why should it fail in your case. Should your case prove incurable you need not pay us a dollar. We refer you to any Bank in this city as to our financial standing. If you cannot call write for a Question Blank for Home Treatment. Consultation Free. Booklets sent Free.

DRS. KENNEDY & KERGAN,

148 SHELBY STREET, DETROIT, MICH.

The Glenara Gold Mining Co.

Capitalization, 1,500,000 Shares — Stock Fully Paid and Non-Assessable

Par Value, $1.00 Per Share. — Treasury Stock, 700,000 Shares.

This Company was organized in March, 1905, under the laws of Arizona, with a capital of 1,500,000 shares. The par value of these shares is $1.00 each. They are full paid and forever non-assessable. The Company owns approximately seventy-five acres of territory in the Goldfield district. By reference to the map you will note that every acre is within the producing area, and with the systematic development this large acreage is to receive, there is no doubt that the stockholders will very shortly see the Company on a producing basis.

We desire to say right here that this Company is organized for legitimate mining, and not stock jobbing purposes, and among the directors are some of the best known mining men in the West. It is their one desire to make the GLENARA GOLD MINING COMPANY a great success at the earliest possible moment.

It is for the purpose of raising funds to vigorously develop the Company's holdings that some Treasury stock is now offered for public subscription. Out of a capitalization of 1,500,000 shares, 700,000 shares have been placed in the treasury. This treasury reserve insures the company a large working fund, if needed. It is the belief of the management, however, that it will not be necessary to dispose of over 50,000 shares of the treasury stock. The present outlook is such that the management believe that the mine will be on a paying basis before many weeks have passed.

The Property of The Glenara Gold Mining Company Consists of the Following:

The Glenara Group consists of four claims located in the Goldfield mining district of Nye County, Nevada. These claims are known as the Kentucky Bell, Mabel M., Lone Jack and June Bug, covering about seventy-five acres. This group of claims is located on a system of ledges over a mile and a half in length and about half a mile wide. These ledges are the same as those traversing the Kendall, Tonopah Club, Vernal, Quartzite, Black Butte, New York, Brooklyn, Jumbo, Vernal, Penn and Federal.

The surface indications at the time of location were of the very best, however, good float being found upon the ground and good pannings are obtainable, all of which indicate that the property can be developed into a paying proposition. The ground has been thoroughly prospected and the sinking of the shaft begun on the Kentucky Bell claim. There is a force of men sinking a shaft as rapidly as possible. Good ore has been encountered running from $3 to $18 per ton, increasing in value with depth, and it is safe to say that a strike may be looked for any day.

Taken as a whole, the investment offered by the Glenara Gold Mining Company is equal to any prospective company in the district. The claims are exceptionally well located, covering a large area; the management is conservative and honest, and is working hard for the success of the company.

The proposition will stand the very closest investigation, and, in fact, an investigation by prospective investors WILL MEAN AN INVESTMENT. WE COURT INVESTIGATION.

The allotment of stock is very small, and if you desire to become interested with this enterprise, it will be necessary for you to communicate with us at once.

The work on the property is being pushed to the utmost, and any day may bring news of a strike which will advance the price of the stock.

For prospectus and full particulars, address

R. H. B. WARBURTON, Fiscal Agent,

Office, 522 McPhee Building. DENVER, COLORADO

APPEARANCE

Is such an important feature on the table. It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table.

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

THE BEST YET!!!

We have given our clients some good things in mining stocks during the past two years, but we believe one of the best propositions we have ever handled is

DILLON OIL MINING & DEVELOPMENT CO'Y., OF CANEY, KANSAS

REIGN OF TERROR AGAIN AT HAND

Disappointed Reformers Join Revolutionary Ranks

NO CHANCE FOR PEACE

Victory for General Linevitch is Impossible—A Short and Decisive Campaign Likely

St. Petersburg, August 24. — Russia's answer to the Czar's manifesto has come without delay. Disappointed reformers say that thousands of laborers, salaried employes and professional men, who are excluded from the franchise, are about to join the revolutionists, and that there will be everywhere a recrudescence of rioting and bomb throwing.

General Trepoff has increased his vigilance in St. Petersburg. Professor Milyoukov, late of the University of Chicago and fifteen more leaders of the reform movement have been arrested. Many Zemstvoists, it is feared, will be deported.

M. Witte's mission at Portsmouth is considered ended, and a rupture is expected at once. The dispatching of troops and provisions to the scene of war in the Far East have been vigorously resumed. A special minister of Siberian railroads and waterways has been appointed.

Nobody shares in the optimism of the Government. A general, recently returned from Manchuria, said today: "The coming campaign will be of short duration. The numerical increase in the armies will only impede the retreat which Linevitch must make, because victory is impossible. The soldiers are demoralized and undisciplined, the chiefs incapable, distrusted and disliked, the claim that Japan has reached and passed its climax and is now exhausted is ridiculous, the Japanese are gaining in strength in proportion as we are losing. Any delay will only increase the price of peace."

HOW'S THIS?

Hall's Family Pills are the best.

MUSIC EXTRAORDINARY

Solo on G. Trombone and Other Innovations at the Park.

Yesterday the lovers of music, who attended Jackson Park, Tuesday evening, were loud in their criticisms of the band's repertoire, during that interval. It is unnecessary to remind our readers that Peterboro has a band, head and shoulders, above the average, but on Tuesday evening, as the Street Car Company's entertainment was in progress the deputation sent by the 57th Regt. Band to Jackson Park rendered some selections that inspired awe in their hearers.

There has been some discussion as to whether the music played was selections from Wagner played by the inmates of an insane asylum during the full moon, or whether the tunes (?) were descriptive of a mad bull let loose in a boiler factory, with tin pan accompaniments. After a vigorous search for the truth, a local citizen acquainted with classic music, and of great experience in wrath of the muse, assures us that the band, by an oversight doubtless, played one piece over five successive times, with exchanges made during the intervals of their instruments; the musical critic assures us, but we do not fully credit his information, that one man at intervals, played successively the bass drum, E♭ cornet, piccolo and snare drum. He thinks the program, apart from the repeated selections, consisted of a solo on the G. trombone, a duet between the triangle and double bass swinetto, a quartette composed of 1st cornet, bass trombone, big drum and tin whistle, and wound up by selections in full strength from the electrocution room of Messrs. Matthews Packing House. There was to have been a vocal duet between Mr. J. Adlum and an unknown, but their music was unfortunately eaten by the park goat.

Such music may suit high toned Wagnerian admirers or men who seek relief from trouble by homeopathic remedies in alopathic doses, but the public sanity must be preserved.

WEDNESDAY'S CHEESE BOARD

Mr. Kerr is Largest Buyer of the 4,683 Boxes Boarded

Lively bidding and notable insistence on purchase by the buyers at yesterday's meeting of the Cheese Board, caused the whole supply, boarded, consisting of 4,683 boxes to be knocked down. Messrs. Kerr and Fitzgerald took the whole board, the former getting the greater part of the cheese. The highest figure was 11 9-16 cents. The buyers present were: Messrs. Kegg, Fitzgerald, Cook, Whitten, Rollins, Wrightson, Morton and Gilbert.

Mr. Whitten opened the bidding at 11c. which by raises of 1-8 at a time was led to Mr. Fitzgerald's bid of 11 1-2, which got the call.

Mr. Fitzgerald called Westwood, Rockburn, Myrtle, Central Smith, Fleetwood and Cedardale, all accepting.

At 11 9-16c. Mr. Kerr called North Smith, Keene, Warsaw, Warminster, Stewart, Pine Grove, Lakefield, East Emily, Trenton, Young's Point, Long Indian River, Bonsfort, Mount Hersent, Oakdale, Peterboro, Otonabee Union, Maple Leaf, Fraserville, North Dummer, Messing Link, Daisy D. Norwood, Ballyduff, Brickley, Ormonde, Shamrock, Bartford, Villiers, South Burleigh, Stony Lake and Crown, all but North Smith accepting.

At 11 1-2c. Mr. Fitzgerald secured North Smith, which closed the Board.

It was decided to hold the next meeting on Friday, Sept. 8th.

WAR TO THE END

Russia Enlists Recruits Despite Peace Conference

Berlin, Aug. 24.—Even while the peace conference was on, the Russian war department kept on enlisting recruits to be sent east as soon as they can receive the necessary training. The number enlisted is said to have been considerably more than last year. The reorganization of the army, which the war has shown to be absolutely necessary has already begun, and will affect all arms except the Cossacks. Especially great will be the changes in the field artillery, which has proven of so great importance in all the battles fought. Twenty-five hundred new guns of the very latest construction have been ordered from the Krupp works and will be delivered as quickly as they can be turned out.

American Cousins Take Notice

Mr. Archie Bradshaw, Fishery Inspector, has received the following notice from the Deputy Commissioner of Fisheries: "Any person from a foreign country angling in the waters of the Province of Ontario, and who is temporarily boarding at a Canadian boarding-house or hotel, having first obtained from the overseer of the district an angler's permit (the fee for which is $1), and coupon to be attached to the package containing fish, may, upon leaving the province, when the same is accompanied by him, take with him the lawful catch of two days' fishing. Fish shipped without a coupon attached are liable to seizure, and the person shipping them to prosecution."

Thinks Canadians Look Prosperous

Ottawa, Aug. 24.—Colonel Duck, of the War Office staff, London, is at present on a visit to the Capital. Col. Duck, who was director of the veterinary service during the South African war, is making his first visit to this country. He is greatly impressed with Canada. "What strikes one most forcibly," he remarked, "is the predominant air of prosperity. The people out here are all well dressed and wherever you go they appear contented and prosperous."

Investigating the Store Collapse

Albany, N.Y., Aug. 24.—The district attorney and coroner yesterday began a formal investigation of the Myers' building disaster of Aug 2, in which thirteen people lost their lives. The examination brought out that men constructing a sub-cellar had dug About the central supports of the structure, leaving them rest upon pillars of earth about nine feet high and sixteen feet square. The investigations have not announced their conclusions.

THE

Montgomery Mountain Mining Company

BULLFROG

promise to be one of the greatest producers yet discovered in the TONOPAH, GOLDFIELD BULLFROG DISTRICT.

This district records the greatest discovery of Gold that has ever been made in the history of mining. This Company is a legitimate Mining enterprise, managed by honest, capable mining men.

The property is on the Montgomery Mountain, adjoining the MONTGOMERY SHOSHONE mine, which has only been operated ten weeks and which is now

Shipping Ore that runs TWENTY-THREE HUNDRED DOLLARS to the Ton.

The Capital of the Company is $1,250,000, divided into 1,250,000 shares of a par value of $1.00 each fully paid and non-assessable, 300,000 shares of which are in the Treasury.

The Officers and Directors are

President and Treasurer, D. H. PERRY Salt Lake City, formerly President of the Salt Lake Stock and Mining Exchange

Vice-President, Hon. JOHN SPARKS, Governor of Nevada

Directors: D. E. BURLEY, General Passenger Agent, Ogden Short Line R. R., Salt Lake City; Hon. JOHN SPARKS, Governor of Nevada; E. E. EDWARDS, of the firm of Vermilyea, Edwards & Stanley, Attorneys-at-Law, Goldfield, Nevada.

The Company refers by permission to

McCormick & Co., Bankers, Salt Lake City; John S. Cook & Co., Goldfield, Nevada; Ormsby County Bank Carson City, Goldfield & Tonopah, Nevada.

We believe this property and its stock will have an advance that will be as sensational as was the Original Tonopah immediately after its development.

We can supply orders for a limited number of shares at 75 cents per share. This price expires July 10th, after which it will be raised. For information or stock apply to Thos. Patterson & Co., Fiscal Agents, Peterborough, or,

NICKEL AND COPPER

A Few Thousand Treasury Shares

Only are left to be sold before all offerings are WITHDRAWN FOR FIFTEEN MONTHS' TIME.

You can buy the few remaining shares now at $1.00, but fifteen months hence you will probably pay from $5.00 to $20.00 per share.

THERE IS NOTHING EXTRAORDINARY

In shares advancing as above stated in mining propositions, for it is an old story of phenomenal advances in mining shares, Granite Mountain going from ten cents to $75 per share, Calumet & Hecla from $1.00 to $900.00, and so on down the list.

CONSIDER FOR A MOMENT

What this company offers—It controls to-day an actual territory of nearly Three thousand acres of land known to be immensely rich in nickel and copper ores, all in a district known and proven to be sixth among the greatest copper districts in the world. This company will control at least 6 thousand acres more. In all nearly five thousand acres, which will not be tied out in two hundred years

WE STAND READY TO PROVE

That this company offers to-day the most meritorious mining proposition presented in ten years' time.

Write or call for full particulars. All shares registered by International Trust Company, Boston.

International Nickel and Copper Co., Ltd., Suite 93, Journal Building, Boston, Mass.

W. K. HALL, Fiscal Agent, Peterborough.

A GREAT LABOUR SAVING DEVICE

The Penman & Sprang

DUPLICATOR

Will produce 100 copies in ten minutes, and is without doubt one of the greatest inventions of its kind ever conceived.

THE DUPLIGRAPH

The most reliable, clearest, simplest, quickest and most up-to-date duplicating machine on the market

It will reproduce one hundred facsimile copies of a pen written original in fifteen minutes; fifty to seventy five copies of an original written on a typewriter or twenty-five copies of an original written with a copying pencil.

The original is written on ordinary paper, with an ordinary pen, typewriter or copying pencil, and the copies can be taken on ordinary paper, cardboard, wood or china.

Call and see it in operation at the

RHEUMATISM

Lives in the Blood

Consequently it requires an internal treatment—one that will reach the blood, and thereby relieve the cause of the pain.

After years of experiment Dr. Hamilton succeeded in producing a remedy that quickly cures rheumatism, gout and all uric acid disorders. This discovery surpasses all others given to the public as Dr. Hamilton's Mandrake and Butternut Pills; in every case they cure quickly.

By toning the kidneys and liver, Dr. Hamilton's Pills create a healthy body. The blood is restored to a normal healthy condition, renewed vigor is imparted to overworked organs, and thus the general health is built up, and no room is left for rheumatism to creep in.

Discouraged sufferer, relief is at hand. Use Dr. Hamilton's Pills, and you will soon shake hands for good with your old enemy. Here is substantial proof:

A Cripple's Story of Pain

"This is a glad day for me," writes James E. Brownell, from Midland, Ont., "because I can speak of my permanent cure of rheumatism. I have been all through the aching days and sleepless nights, have spent my money on worthless remedies, and consequently in recommending Dr. Hamilton's Pills I feel sure of their merit. No remedy ever gave such relief or did me so much good as Dr. Hamilton's Pills. My rheumatism they cured, and ever since my health has been perfect."

When Dr. Hamilton's Pills are to be had in any drug store, it is foolish to live on in misery and ill-health. You ought to get this medicine today and cure yourself. Price 25c. per box, or five boxes for $1 at all dealers, or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

An experienced dressmaker wants sewing by the day. Apply at this office, or 340 1-2 Water street.

Farm Laborers' Excursion

For the Farm Laborers' Excursion on Monday, September 4th, the Canadian Pacific Railway will run a special train, leaving Peterboro at 10.15 a.m. Secure tickets early from W. McIlroy, City Passenger Agent, 343 George street, Peterboro.

Mr. Harry Rogers Laid Up

Mr. Harry Rogers, son of Mr. R. B. Rogers, engineer in chief of the Trent Valley canal, of McGill College, Montreal, and who has been spending the summer at his father's cottage on Clear Lake, some days ago, developed a serious attack of sclatica. He was brought home on their private house boat on Tuesday. The ambulance met the house boat and brought him to Mr. Rogers's residence on the east side where he is now laid up.

$10--First of the Season--$10

Four special steamer excursions from Suspension Bridge, Niagara Falls, to Atlantic City, Cape May, Ocean City or Sea Isle City, via Lehigh Valley Railroad, July 11, August 4 and 11, and Sept. 1. Tickets only $10 for the round trip. Good 15 days. All trains via Philadelphia. Tickets allow stop-over returning. Tickets good on regular express trains leaving Suspension Bridge at 8.50 and 7.15 a.m., 6.20 and 10.15 p.m. For tickets, Pullman berths and further particulars, apply Robt. S. Lewis, Canadian Passenger Agent, 10 King street east, Toronto, Ont.

Peterborough Business College

Is Larger This Year Than Ever.

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 80 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER.

If you cannot attend our School write for particulars regarding our correspondence course.

WM. PRINGLE.

$10--Atlantic City and Return--$10

The last $10 Excursion this season via Lehigh Valley Railroad, Friday, September 1st. Stop over allowed at Philadelphia. Tickets good 15 days. And only $10 the round trip from Suspension Bridge, Niagara Falls. For tickets and full particulars call on or address Robt. S. Lewis, Passenger Agent, Lehigh Valley Railroad, 10 King Street East, Toronto.

New Elevator Begun

As noted in a former issue, the Peterboro Cereal Co. decided to erect a large elevator in connection with their already extensive plant. That they mean business in this matter was demonstrated yesterday, as work on the building, which will have a capacity of 60,000 bushels, was actually begun, and will be pushed to completion as rapidly as skilled workmen, backed by the necessary money, can accomplish it.

Chemong Regatta for Juniors

There will probably be some good sport at Chemong Park next Monday afternoon as a regatta will be held for juniors. Both the girls and boys now visiting at the park are taking great interest in the coming event. Young lads with sleeves rolled up, and bare arms defying the sun's rays are hourly to be seen struggling frantically to force their canoes and skiffs through the water at a 2.10 gait. The prizes for this regatta will be above the average.

At five o'clock the fourth dinghy race for the pennant offered by Mr. R. M. Dennistoun will be sailed.

Obituary.

Yesterday morning an old resident of the city, Mr. John Kelly, of the east side, passed away at the age of 73 years. Mr. Kelly was born in Ireland but came to this city when quite young and has lived here until his death yesterday. The cause of death is senility. His only near relation, as far as known is his sister Miss Mary Kelly, with whom he lived, on Maria street. The funeral will take place this afternoon to St. Peter's cathedral and thence to the Roman Catholic cemetery for burial.

License Holders' Protective Ass'n.

Peterboro License Holders' Protective Association will hold a meeting at 2 p.m. on Monday, August 28th, in the Ontario Bank Chambers, for important business. The meeting will discuss ways and means of obtaining the next annual meeting of the Eastern Ontario Dairymens' Association, for next January. The Oddfellows' annual convention for next year and matters of interest to the L. H. P. Association will be discussed. As this meeting will be of great importance, it is requested that there be a full attendance.

J. M. BROOKS, Pres.
A. ROUNTREE, Sec.

Child's Narrow Escape.

At 4.30 yesterday afternoon as several ladies and children stood in front of W. A. Cressman's dry goods establishment, 385 George street, looking with hungry eyes at the fine display of fin de siecle goods, such as delight the feminine taste, a crash overhead caused them one and all to glance up instantaneously. As one little girl, perhaps 10 years of age, lifted her face towards the place whence came the crash, a piece of window glass, larger than a man's outspread hand, sailing down through the air, caused by the end of her nose within one inch of her face. The child was noticed by a by-stander, to involuntarily shut both eyes and move her head backwards. Had her nose been one inch longer, the tip of it and her face would certainly have parted company. Some one in the fourth flat had evidently thrown something against a window overlooking George street, as the top part of the large pane, quite thirty inches from the sill was smashed out and fell to the pavement.

A PROMPT SETTLEMENT

Mr. George Stevens, Yesterday, Paid His Fire Loss in Full

Mr. R. W. Erett yesterday accompanied by the Inspector of the Standard Fire Insurance Co., of which the former is local agent, adjusted the claim of Mr. George Stevens for loss by fire of his hog-houses and caretaker's dwelling, destroyed by fire last Friday night. The property, as our readers will remember is situated near the Roman Catholic cemetery, and the buildings were rendered a complete loss by the fire.

Mr. Stevens had a policy in the Standard Fire Insurance Co. for $600, which covered the buildings and contents. Mr. Stevens had fortunately removed the tools and other contents a day or two previous to the fire, so the adjusters allowed him $400, which fully covered the whole loss, and made the payment yesterday.

A SPOON SHAKER

Straight From Coffeedom.

Coffee can undermine a good constitution of enemies and make very hard ones to overcome. A lady in Canada writes:

"I have always been very fond of good coffee, and for years drank it at least three times a day. At last, however, I found that it was injuring me.

"I became bilious, subject to frequent and violent headaches, and so very nervous, that I could not lift a spoon to my mouth without spilling part of its contents; my heart got 'rickety' and beat so fast and so hard that I could scarcely breathe, while my skin got thick and dingy, with yellow blotches on my face, caused by the condition of my liver and blood. I made up my mind that all these afflictions came from the coffee, and I determined to experiment and see.

"So I quit coffee and got a package of Postum which furnished my hot morning beverage. After a little time I was rewarded by a complete restoration of my health in every respect. I do not suffer from biliousness any more, my headaches have disappeared, my nerves are as steady as could be desired, my heart beats regularly and my complexion has cleared up beautifully—the blotches have been wiped out and it is such a pleasure to be well again." Name given by Postum Co., Battle Creek, Mich.

There's a reason.

Read the little book "The Road to Wellville," in each pkg.

ELOPED WITH HIRED MAN.

Rosemount Farmer's Wife Skips with the Hired Man.

Port Hope is on what agitated by the assumed elopement of a well-known Rosemount farmer's wife with the hired man. The happy but sinful couple have started on a honeymoon with assets, as far as known at $28 belonging to the ladies husband, a second hand revolver, and an unlimited supply of quiet love. A despatch from Port Hope says that the villagers of Rosemount are greatly excited over the disappearance of a prominent farmer's wife, who has lived there with the hired man. On Wednesday the hired man borrowed the farmer's horse and buggy to drive to Port Hope, a distance of seven miles. The farmer's wife, saying she wished to procure certain household supplies, took advantage of the trip to accompany the hired man. After procuring a cheque from her husband for $28, she and the hired man came to Port Hope, and the farmer has not seen them, nor the [illegible] He has four small children.

The couple were noticed in town promenading the streets. They were in an ice cream parlor partaking of ice cream and the hired man afterwards purchased a revolver at a second-hand store. They were not seen after that night and their whereabouts are unknown.

NEW YACHT CLUB

An Enthusiastic Meeting Elects Officers and Completes Organization.

As foretold in The Times of yesterday the meeting held on Wednesday evening at Mr. R. M. Dennistoun's cottage at Chemong Park, to organize a yacht club, proved a success in every way. The attendance was quite as good as anticipated and everything turned out most harmoniously.

The title of the club was decided on as the "Chemong Yacht Club," and the following officers were elected:

Honorary Commodore—Commodore Mackenzie.

Commodore—R. M. Dennistoun.

Vice-Commodore—G. Milne Hamilton.

Secretary-Treasurer—A. A. Hollingshead.

Committee—W. R. Hartshorne, Alex. Elliott, Howard Hopwood, G. H. Hull, T. F. Matthews, W. H. Hill, J. Hopwood, Fred Rea, and W. W. W. Dean.

The club colors will be blue and white and their club ensign a crescent.

Messrs. Belcher and Heathcote are now at work on plans for the proposed club house which will be a commodious and handsome structure placed on the high grounds near the park pavilion.

Six skippers have already entered their craft on the club books.

PERSONAL

—Toronto News says: Mrs. R. McNaught, Peterboro, is in town.

—Mr. Basil Hall, son of Mr. E. H. D. Hall, left yesterday for an outing at Chemong.

—Mrs. J. W. Miller, McDonnel St., has returned from an outing at Stony Lake.

—Mr. Chas. Loudreville, of the city, is working on the contract of repairing and decorating the Roman Catholic church at Keene.

—Mr. H. A. Littledale, formerly with the Examiner, but now on the staff of the Buffalo Courier, is in the city. He returns to Buffalo today.

—A. W. Blight, Horace G. Shaver, Toronto; Miss Bolton, Kingston; H. A. Littledale, Buffalo, N.Y.; Chas. O'Connor, Dundas, are guests at the Oriental.

—Lindsay Post says: We regret to announce the death of Mr. Geo. Fox, brother of Mr. Sam Fox, M.P.P., which occurred on Monday evening at the Ross Memorial Hospital.

—Toronto News says: Mr. H. P. Kennedy, cattle dealer, of Peterboro, was in town yesterday. Robert Fair, merchant, and Miss Little, of Peterboro, were also in town. They are at the Walker House.

—Miss Greenwood, Miss Ahlund and Miss Speer, of Toronto, who have been holidaying at Stony Lake have returned and are spending the remainder of their holidays with Mrs. R. A. Hamilton.

—Mrs. W. O. Forsythe, Miss M. Forsythe, Miss McGee, Toronto; J. P. Cockburn, G. V. Bilton, Toronto; Mrs. A. K. Duff, Pittsburg, Pa.; W. J. Wallace, C.P.R., Ottawa; J. M. Bilton, Buffalo, are guests at the Snowden House.

Local Incidents

AT THIS TIMES BEAT ON THE STREET.

—Police Magistrate Edmison will hold police court in the town hall at Norwood to-morrow.

—Rev. Father McGuire, of Dawsonville, will hold a big picnic at Omemee on Thursday, September 14th.

—All public school books and supplies for sale at Times Bookstore. A prize with every 25-cent. purchase.

—For dainty souvenirs at popular prices, buy at Times Bookstore. Largest assortment to choose from.

—E. F. Mason & Co. have handled over 600 baskets of fruit, mainly plums and peaches every day this week.

—Picnics in Jackson Park seem fashionable this summer. Over 150 people took their lunch in the park yesterday.

—The George street choir will meet on Saturday night at eight o'clock to resume practice. All members are requested to be in attendance.

—P. C. Stewart last night resumed duty after a two weeks' holiday spent on his farm. He looks as though the country air agrees with him.

Murderer Commits Suicide

Victoria, B. C., August 25—Heath, the murderer of Bobran, the hotel keeper at Mount Sicker, who had been pursued by the police ever since the crime, returned to the Mountain yesterday. He fired several shots at the hotel and then turned the gun on himself, expiring instantly.

—Lindsay Post says: Dr. Robinson of Peterboro, was in town yesterday. Mr. J. Hurley, of Peterboro, was in town yesterday.

Life at Stake

Somewhere in the world life is at stake every minute of the day. Right at our own doors, perhaps, is going on a struggle as grim and fierce as any fight or flight on record. You hear the hollow tearing cough; see the ooze of blood which tells of the wounded lungs; mark the emaciated body and hectic cheek and know a life is at stake.

The use of Dr. Pierce's Golden Medical Discovery has saved many a life in just such a crisis. It cures obstinate, deep-seated coughs, stops the hemorrhage, strengthens "weak" lungs, and restores the emaciated body to its normal weight and strength.

There is no alcohol in the "Discovery," and it is absolutely free from opium, cocaine, and all other narcotics.

"I desire to send you this brief, unsolicited testimonial," writes Rev. Joseph H. Fesperman, Barium Springs, Iredell Co., N. C. "In the case of my daughters was suffering on account of a severe cough, hectic fever, wasting of flesh and other symptoms of diseased lungs. I promptly gave her Dr. Pierce's Golden Medical Discovery with gratifying success, and she now enjoys excellent health. This experience caused me to recommend Dr. Pierce's medicines to my neighbors, who, without exception, used them with favorable results."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent *free* on receipt of 21 one-cent stamps to pay customs and mailing *only*, or if cloth-bound volume is desired send 50 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

CAUSE OF HAY FEVER

Hyomei the Only Cure—Gives Change of Climate in Your Own Home.

Fifty years ago hay fever had not been named, but undoubtedly people suffered then as now with sneezing, watery eyes, extensive running at the nose.

The direct causes appear to be heat dust, and the pollen of flowers, and the only treatment that physicians recommended prior to the discovery of Hyomei, was a change of climate.

Now by using Hyomei you can save an expensive trip to the mountains, and escape weeks of suffering. This remarkable treatment kills the germs of the disease and soothes and heals the irritated mucous membrane. It really gives you in your own home a change of climate, and hay fever sufferers know from past experience that this is the only thing that has afforded them relief. By breathing Hyomei a few times daily you can save the expense of a trip to the mountains and avoid the dangerous hay fever.

The complete Hyomei outfit costs but $1, extra bottles, 50 cents, and consists of a neat pocket inhaler, through which Hyomei is breathed and which will last a life-time, a medicine dropper and a bottle of Hyomei. Wm. Mc-dill offers to refund the money if Hyomei does not do all that is claimed for it.

PEACE PROSPECTS ARE GLOOMY, SAYS KANEKO

Japanese Envoy Sees Mr. Roosevelt, but Has No Hope of Procuring Peace--Russia will Pay No Indemnity.

Oyster Bay, Aug. 26.—Baron Kaneko had an interview with President Roosevelt yesterday, the third within ten days. He arrived on a Long Island train at 10.30 a.m.

"I cannot talk now about my mission to the President," he said. I would be delighted if I could. Some day I'll tell you all about it."

He was asked if he had seen the statement of Count Lamsdorff the Russian Minister for Foreign Affairs, in which he declared Russia would pay no indemnities to Japan or make any concession of territory.

"Oh, yes,—he replied, "I have seen it. I think it was a great mistake."

"In your opinion," the Baron was asked, "was Count Lamsdorff's statement truly representative of the intentions of Russia, or was it in the nature of a bluff?"

"It was official, I understand," responded the Baron, "and so I suppose we must swallow it?"

"What do you think of the prospect of a successful issue to the peace conference?"

Baron Kaneko hesitated an instant and, then, with a shrug of his shoulders, replied;

"Oh, it is very much like the weather down here; it is, very much."

A rain was falling heavily, and the weather was dark and gloomy and disagreeable.

CANADA AND THE WEST INDIES

Difficulties Which Stand in the Way of Confederation

A FEAR OF RETALIATION

United States Might Resent Any Preferential Treatment of Islands

London, August 26. — The Times' West Indian correspondent points out that one of the chief difficulties in the way of confederation with Canada is that the United States, resenting perferential treatment for Canadian goods, would retaliate by taxing West Indian fruit imports.

But there is a more dreaded and widespread conviction that in the cultivation of Canadian trade lies the best hope of securing a stable foundation for building up the future prosperity of the island colonies. The magnitude of the American trade would not warrant the West Indies incurring the chance of retaliation at present, but it is inevitable that better relations with Canada must sooner or later involve reciprocity, if reciprocity cannot be secured without running the risk of exciting antagonism in America. It is evident that whenever the conditions justify it, the risk will be faced. Confederation with Canada is not an unpopular political ideal in the West Indies. It is believed that cheaper administration and a more substantial commercial status would follow such a union, while Canada would find a magnificent field for enterprise, which she could easily and profitably work. One great obstacle in the way of realizing the idea has been the lack of sufficient and effective steamship communication.

That federation with Canada is the destiny of the West Indies, many who have carefully studied the trade phenomena of the New World have no doubt. It means simply taking a leaf out of the United States book. The dream of the United States is an America extending to the foot of the Carribean Sea. The aim of Jamaica might well, argue those who support federation, be a Dominion including the British West Indies. The latter according to them is a more practical scheme, and capable of earlier accomplishment. It would open up a new era of hope for the West Indies.

The Times, commenting on the federation of Canada and the West Indies, says: "On the face of it, confederation between the West Indies and Canada must be an arrangement very difficult to carry out. There are physical objections. It is some 1,200 miles from Halifax to Kingston, Jamaica. The two regions differ so much in climate and in their whole conditions of life as to make the practical working out of any such scheme almost inconceivable. A still more serious objection lies in the fact that the Dominion is in the fullest sense self governing, and that the West Indies are Crown colonies, where representative institutions are and must be very imperfectly developed. Canada also does not want to be troubled with the negro problem."

Up Go Freights

Montreal, Aug. 25.—A general advance of from 20 to 50 per cent. in steamship rates from Montreal to British ports has been agreed on by all the steamship companies running out of Montreal. The advance is due principally to the very large increase in the amount of freight offering.

THREE DAYS TO GET COURAGE TO DIE

But Wrote "Life is Hell" at the End

TOOK POISON AS HE AGREED

Two Life-Long Friends Made Death Compact

Philadelphia, August 26.—Shrinking for three days through love of his 6-year-old daughter from the fulfillment of a suicide agreement, William Webster Hoopes, member of a branch of the prominent Philadelphia family of that name, finally summoned up nerve and killed himself in Fairmount Park.

His death contract had been made with Joseph A. Thompson, a brother of millionaire William R. Thompson, of Brookville, whose body, with that of the Pittsburg Thaws, was found on Thursday. Both men drank cyanide of potassium and Hoopes' body was found in the same clump of bushes as that in which Thompson's corpse had been discovered, the existence of the death agreement being revealed by letters and memorandum found in Hoopes' pocket.

Thompson and Hoopes had been close friends for 25 years. Their death contract is made the more tragic by the fact that August 17, the day agreed upon for death, was the first anniversary of the death of Hoopes' wife.

A letter found clasped in Hoopes' hand said:

I am going to my grave, where I should have been on the 17th. O, how I wish I had gone then. Still I put it off till the last minute, but now it must be done. I hope my brother will see that I am cremated. If he does not then I give my body, for a consideration for the use of my children, to the Jefferson Hospital.

WEBSTER HOOPES.

P. S.—There will be no use of opening me as I died of cyanide of potassium. And may God have mercy on my soul. Amen. God forgive me.

"Down and out. Looked for job. No home. No hope. Shall end it either this week or next. Not a helping hand given to us. I wish I could die. I must die. Well, I am satisfied I have nothing to live for, as I can't get work. O, my dear little girl Muriel. O, how I love her."

"End it all," ran another of the notes. "We will end it all. 'Better die,' says Thompson, and I say so, too. Only a few more days now. Sherman said war is hell. I say life is hell. There is no other hell."

COLONIZATION OF SAKHALIN

Japan Said to Have a Distinct and Practical Policy

Victoria, B. C., August 26. — The Empress of China brought word that a distinct and practical policy has been inaugurated by the Japanese Government with respect to the colonization of Sakhalin with Japanese agriculturists and fishermen, who will be attached as reservists to the armies of Japan. Government aid will be granted in the first establishment of the settlers, and the former convict inhabitants will be deported, it having been decided by the Japanese Government to refuse naturalization to any Russian convict of Sakhalin, political prisoners or otherwise.

The development of the fishery interests of the island will be in the hands of private capitalists, by whom a substantial lease fee or bonus will be paid the Government. A similar system is foreshadowed with respect to the exploitation of the wealth of the sealing islands or rookeries recently taken possession of by Japanese warships, and including principally the Copper and Robben Island rookeries. Strict protection will be afforded these against both Japanese and foreign poachers, and it is probable that the Government of Japan will farm out privileges of sealing much as the Russian Government has done in past years. A San Francisco company, known as the Kamschatka Development Syndicate, being up to the present one of the most important concessionaries.

KILLED AT MONTREAL

Two Men Lose Lives by Bursting of Pipe on Steamer Laleconia

Montreal, Aug. 25.—Two lives were lost on the Donaldson Liner Laconia just as she was sailing from this port to-day, through the bursting of an auxiliary steam pipe in the engine room. The killed were Alexander Smith, of Glasgow, third engineer, and Sidney Jackson, coal trimmer, signed at Montreal. The fifth engineer, A. Miller, was severely scalded, and taken to the general hospital. He will recover.

PUTS ALL BLAME ON PETER VEREGIN

Philadelphia Quaker Says Leader is Responsible for Illiterate Doukhobors

WANTS NO SCHOOLS BUILT

Has Broken Promise Made to the Society of Friends Who Looked After Colony

Winnipeg, August 26.—Joseph Elkington, son of the late Joseph Elkington, Quaker philanthropist, of Philadelphia, is in the city, on his way back to Philadelphia, after an extended tour of the Orient. He was here three years ago and went through the Doukhobor villages for the Society of Friends, at Philadelphia, which has taken interest in the Doukhobors. Mr. Elkington made a severe arraignment of Peter Veregin, dictator of the Doukhobor colony, on whom he lays the onus of the illiterate state which still exists among the colonists. Doukhobors, he finds, have not progressed very rapidly along the line of education; but that, he says, is not the faults of the friends, it is the fault of Peter Veregin.

Before his arrival four villages in Saskatchewan had requested that a school house should be built, but after he came, very much to Mr. Elkington's surprise, they wrote saying they did not want it. He wrote to Veregin, telling him that he desired to build a school house, and in the course of a month received a letter from the men who had requested the school, saying that they did not want one. He afterwards learned that Veregin wrote the letter and told them to sign it.

Mr. Elkington adds that while the Doukhobors are thus allowed to be under the dictation of one man they cannot be expected to make any progress. There has been one school up at Good Spirit Lake, which has been conducted for two years by English Friends, but Peter Veregin was not in favor of extending the work, and the schools are now closed, owing to his influence against them. He faithfully promised the Friends and the Commissioner of Immigration two years ago that he would have a school house in every village inside a year.

Friends have $15,000 bestowed for educational purposes among the Doukhobors, but they have not been permitted to give a cent of it, owing to Peter Veregin's refusal to allow such work to be carried on. Mr. Elkington says he wrote four letters to Veregin, but the latter never answered one of them, and the whole Society of Friends in Philadelphia, in trying to co-operate with him from disinterested motives, has had the same treatment. The Friends came out to interview him, and afterwards wrote stating the desire of the committee and the object of the fund, but not a word was received in reply.

A PEST OF CRICKETS

Street Cars Have Difficulty in Running in Omaha, Neb.

Omaha, Neb., August 26.—Omaha is literally overrun with crickets. Such an army of the insects has swooped down upon the city as to cause great annoyance. They are piled up so high on the street railway rails as to interfere with traffic, and the motormen have difficulty in stopping the cars in many places. They are eating up carpets in homes and hotels and destroying clothing. At night they gather in such vast numbers around the arc lights in the streets as to make it almost impossible for pedestrians to pass. Patrons of the theatres fight the crickets while witnessing the performance, and baskets of them are swept out of the stores in the morning.

Thomas Edward Hill, Twelve-Year-Old Son of Robert Hill, Instantly Killed, and Daughter, Mabel, Seriously Injured by Mob of Neighbors--The Result of a Feud Which Has Been in Existence Some Years.

MOB INVADES THE HILL HOME AT MIDNIGHT.

Bad Blood Has Existed Between the Hill Family and the Suspected Perpetrators of the Crime for Years, and This Terrible Tragedy is the Outcome--Great Excitement and Indignation Prevails Throughout the Whole Township--Scene of the Tragedy Visited by Many Yesterday Afternoon and Evening.

It is an innovation to this county to experience in our midst a tragedy born of a family feud that would do no discredit to the proverbial Kentucky or Tennessee family disputes which frequently end in every member of a family being wiped out entirely.

At about midnight, or early Friday morning, a tragedy was enacted at the farm of Mr. Robert D. Hill, who lives at lot 14, con. 7, of Dummer, about six miles from the village of Warsaw, whereby Mr. Hill's son, Thomas Edward, aged 12 years, was shot to death, and his little daughter Mabel, aged eight, was sorely wounded.

The first intimation of the tragedy was received yesterday morning when a telegraphic despatch was received in town saying that a mob composed of Hill's neighbors had shot the boy, Robert Hill, dead, and wounded his sister Mabel in the head.

It seems that the brother and sister, who were sleeping in the same room at their father's residence, as noted above, were awakened about midnight by the approach of a mob, supposed to consist of five persons. When they, naturally looked out of the window to ascertain what caused such an unusual invasion at such an hour of the night, a thing unprecedental in this peaceful country district, a shot fired from a Winchester rifle, awoke the echoes of the nearby woods. The deadly lead-[illegible] too truly in the lad's side, piercing his heart, after passing through his little sister's hand. The murderous ball then passed completely through the unfortunate boy and buried itself in the heavy oaken bedstead behind him. He immediately fell to the floor and died in a few seconds. The calibre of murdering ball is No. 38. The noise at once aroused the whole household, of whom Mr. and Mrs. Hill slept down stairs. They immediately went outside to investigate the trouble. The eldest boy, after the fatal shot was fired, came to the window, and as soon as he exposed himself was fired upon, presumably by the same weapon, the bullet from this shot missed its target and lodged in the door behind. A third shot was fired from the rear of the house, but did no damage, striking the top of the roof.

By this time, the little girl, who had been shot upstairs, came running down to her parents, exclaiming, "O! mother, I'm streaming with blood, and Tommy's dead." The mother and father then rushed upstairs, and found the boy.

There is as yet no certain clue as to the cowardly perpetrators of this atrocious murder, further than suspicion.

As to the perpetrator or perpetrators of the crime, there is some mystery. The Hill family claim there were five men and a boy on the road, out by their house, at the time the shooting occurred. They claim to have recognized the men, partly by their voices, and partly by sight, as the boy who was shot at but missed, claims to have recognized his would be murderer as Stewart Murphy, by the flash caused when the shot was fired. The Hill family say they suspect Wm. and Stewart Murphy, who live about half a mile from the Hill homestead; George Gallagher, James, Ed, and Wm. Stewart.

Yesterday morning at six o'clock Mr. Hill went to Norwood, and sent out Dr. Douglas of Warsaw, to dress the little girl's wounds, and give the necessary attention to the dead boy.

The ostensible cause of the feud began about a year ago, when three cattle belonging to Mr. Dolgar, were poisoned, and they laid the blame on the Hill family, thus setting up a feud which has ended so disastrously.

Mr. Cochrane, High County Constable, County Crown Attorney R. E. Wood, and Coroner Dr. Gray, arrived on the scene about 4 o'clock and is awaiting the arrival of papers from the coroner before summoning a jury, which will be done immediately.

Glowing Reports of Crops.

Winnipeg, Man., Aug. 26.—All reports from the country are most glowing, and the grain men estimate that 25 per cent. of the crop has been cut. J. G. Daff, who returned from Moose Jaw yesterday, says the bulk of the crop in that district is already cut. He saw no finer yield in the whole of the territories. It is estimated by a real estate agent that farm land values will advance 25 per cent. this fall. Activity in farm lands is already visible.

Sunshine has prepared green grain for the binder in less than 100 hours. This seeming miracle of botany has taken place during the past week in Assiniboia.

"It was astounding," said George Kinzler, an American land-seeker from Muresngo, Iowa, on his return from a trip west, "I would not have believed it unless I had seen it. I went west on Friday, and the oats were green. I came back last Tuesday and the farmers were cutting their oats."

The weather to-day is again bright and warm.

NARROWLY ESCAPE DROWNING.

Two Americans Attempt to Run Dam at White Lake

While Miss Cook, a guest at Glenwood, and Mr. Miller, camped near the same spot, and both of Pittsburg, Pa., went canoeing last Wednesday to White Lake, a fishing spot noted for its good catches, and situated near the well-known Gilchrist's Bay, Stony Lake, they little anticipated being participants in what nearly proved a drowning accident. Between Gilchrist's Bay and White Lake there is a short, shallow stream, sometimes called White Creek, but really the beginning of Indian River. Here there is a dam with a fall five feet, around which boats are portaged. In attempting to run the canoe over the dam, to save the trouble of portaging, and foolishly keeping his lady companion in the slightly built and topheavy craft, Mr. Miller tried to run the dam, which has a clear fall of five feet. As might be supposed the canoe plunged, bow end on to the rocks below throwing both its occupants into the eddying waters below the fall, whence they were rapidly carried to the rapids and whirlpool below. Mr. Miller at once seized a hand of his companion, to whom he clung in desperation. A Peterboro gentleman, who was taking lunch at Gilchrist Bay, fortunately heard the crash of the canoe striking the rocks as it plunged over the falls, and hastened to aid the half-submerged pair. When he reached the whirlpool Miss Cook was almost gone. Miller still retained his grasp on her, but could not keep her head above water. The rescuer waded out into the stream, and, extending a branch to Miller, was able to drag them from their dangerous predicament. Miss Cook was nearly unconscious and fully recognizes her narrow escape. The canoe is a wreck.

—Lindsay Post says:—Mr. J. E. Firth, of Peterboro, transacted business in town to-day. Mr. J. G. Edwards is visiting his brother, Col. E. B. Edwards, Peterboro.

Peterboro Has Most Modern Switch-Board in Canada.

The Bell Telephone Company, Yesterday, Get New Switch-Board for 700 Subscribers, with Unlimited Extension Possibilities--Old System of Bell Ringing Done Away With.

That the Bell Telephone Company never sleeps whilst there is anything to be done in the interests, and for the convenience of their subscribers, is too well established a fact to require any fresh publicity. Peterboro is to-day, in possession of the most modern type of switch-board now in the Dominion. This switch board, which was on its way packed yesterday is, even to one unacquainted with its technical details a marvel of workmanship, and a sample of the highest mechanical ingenuity. It is beautifully made of the choicest specimen of selected cherry, and whilst adapted both to render quicker service to the subscriber, and save work for the operator is, very compact, considering the wonderful possibilities it will accomplish. The board is divided into narrow sections, which will at once be set up in the operating room, in front of the present switch, but will face in the opposite direction. The switch board is, as it now arrives, equipped for seven hundred subscribers, and is so arranged, that from time to time, as required, without the least confusion or delay to subscribers, additional sections can be added as required.

There are many advantages comprised in this board hitherto unknown here, and more than one or two that are unique with this particular switch, and it has the distinction of being the first of its kind to go into operation in Canada.

The board is divided into six sections for local subscribers, and three for long distance.

To enumerate the many advantages of this board would take too much space in this short notice, but we will later on give our readers a complete description of this wonderful piece of ingenious workmanship.

One of the many unique points about the board is that when two people are talking to one another, and one should be temporarily called away, a falling drop on the index surface of the board immediately notifies the operator, who can then, without changing the connecting plugs, as in switches heretofore, ascertain from the remaining customer at his telephone, whether he desires to call his correspondent again or not, and if desiring to speak further, can be connected with no delay. Another great advantage is that where there are from two to four phones on the same line, the central operator can call the particular phone required without, as with the older system, having to ring one, two, three, or four times as needed, and thus save subscribers the annoyance of listening to calls not intended for them. This is entitled the "Selective signal appliance," and will be a great boon to those subscribers having several telephones.

Work will be begun on Monday morning connecting up the new board, and so well has Mr. Dean, the local manager arranged matters, that at no time will any subscriber be inconvenienced for more than perhaps a minute or two, as his old connection is transferred from the switch board now in use to the new one. Should any temporary inconvenience occur, although none is anticipated, it would be from outside causes, not from transference from the old to the new board.

Another great innovation consequent on the change of boards is that, in future, there will be no need to ring for central, when one desires to use his telephone; one will simply take the receiver from the hook and get busy with the central operator.

In the case of residence and other telephones, not "long distance" instruments, as quickly as possible, the old phones will be replaced by a more modern appliance, a small box with the receiver and transmitter close together but no handle to turn as the bell is unnecessary.

Mr. Dean, the local agent of the Bell Company is very much impressed with the advantages accruing from this new switchboards, and anticipates this new switchboard, and anticipates that Peterboro will take second place with no city in the world as far as quick and accurate telephone service is concerned.

Mr. Dean is certainly a hustler in his business and has done more perhaps than any agent Peterboro has ever had to make the Bell Telephone considered as a friend of the people rather than as disgruntled opponents are pleased to term it, for lack of any tangible either, a "monopoly."

PETERBORO GOODS ABROAD

Canoes Known Round the Globe, Now for Bulwayo, S.A.

As every reader of sporting magazines or works on travel knows, the expression "Peterboro Canoe," is a household word wherever the English language is spoken. Peterboro canoes advertize their head center in as world wide a manner as a noted battle will invariably bring into public prominence some hitherto obscure town near which it has been fought.

The William English Canoe Company have now on file an almost unlimited order for canoes, which are in great demand for river navigation in South Africa. They have already shipped a considerable number to different parts of Africa, and are now working on an order that, on completion, will be shipped to the now historic town of Buluwayo, S.A. The canoes in demand for use on the South African rivers are invariably those known as Klondike Freighters, a broad craft adapted, by their depth, for great carrying capacity and safety. These canoes are shipped via New York and are admitted to Africa duty free. That the rivers of that newly opened up country are not the safest of that the colored gentlemen inhabiting the land do not respect the command "Thou shalt not steal," is demonstrated by the fact that with each order for canoes many extra paddles are ordered.

The fact that these Peterboro canoes are now well known in South Africa, open up a broad field for other products of our city. Africa will soon be a market that will cause keen competition between the manufacturing centers of the world, and Peterboro should get a good share of it.

When Run-down "Draggy," Used-up

You Lack the Vigor, Courage and Staying Power that "Ferrozone" Can Supply

Most days of it's hard to sleep. Mornings dreary and the anxious, tired feeling is still there. Don't neglect the gradual decline; it can be checked. Just by forcing rich, pure blood, Ferrozone will quickly supply the nutriment and building material your system craves.

Instantly you are aware that some powerful force is building up your depleted energies. Day after you feel braced, toned, strengthened. Search the world over and you won't find anything to tone up a weak system like Ferrozone. Physicians claim it is the most strengthening, uplifting medicine ever discovered.

No more spells of tiredness, but bounding, joyful health when you take Ferrozone, of which Mrs. H. S. Gold, of Bowsman, Man., speaks in the following words of praise:

"I state my case because I think it may assist other women to health. A year ago I was almost a wreck. I was pale and emaciated, suffering from nervousness, and hysteria. Little things going wrong in the house worried me. The doctor advised different treatment, but they did not help me. My low condition was due to weakness that might never be cured. Ferrozone put a peculiar grateful effect and built me up. Now I am free of all ills, I suffered from, my blood is rich and strong, I am not nervous and vigorous and was made so by Ferrozone."

Why not cast aside the claims of sickness and enter the bright, happy life of robust health. Let Ferrozone help you—let it cure you once and forever. Price 50c. per box or 6 boxes for $2.50, at all dealers, or N. C. Polson & Co., Bedford, Mass., U. S. A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterboro are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year strictly in advance.

PETERBORO AUGUST 26 1905

VENERABLE LEGISLATORS

Hon. David Wark, who died at Fredericton, N. B., on Sunday last, had been a member of the Canadian Senate since 1867, and served been in the New Brunswick Assembly and Senate from 1841 to 1867. He had thus seen some sixty-four years of legislative service, and at the time of his death had reached the great age of 101 years and 6 months. It is upon this record that he has been called, and probably truthfully, "the oldest legislator in the world."

Not long ago, however, there was a member of the British Parliament whose term of service did not fall far short of Senator Wark's, while in some respects it was more remarkable. We refer to the Right Hon. C. P. Villiers, who was known as "the father of the House of Commons," and who was returned from Wolverhampton from 1835 until his death, January 16, 1898, when he was 98 years old. Mr. Villiers's service, it will be observed, was continuous in one body and from one constituency for nearly sixty-three years. It is said, moreover, to have been unprecedented. The man who bore the title of the father of the House before Villiers was a member for only sixty years, and his record was found not to have been equaled in a search that went back into the eighteenth century.

A much more famous man than any of these venerable persons ran close to Mr. Villiers and was in Parliament with him throughout much the greater part of his political career. This was Mr. Gladstone, who was first elected to the House of Commons in 1832 and who resigned from that body in 1895. Unlike Mr. Villiers, he represented several constituencies during his life, and there was a break in his service which would have prevented him from claiming the title against such a rival. It appears also that Mr. Villiers was longer in politics than Mr. Gladstone. He was a candidate for Parliament as early as 1826, when he was 20 years old and when Mr. Gladstone was in his of 16 or 17 years and still [illegible] to his school books. The [illegible] period from Mr. Villiers's first appearance as a candidate until his death while [illegible] the House [illegible] years, or greater than the allotted life of man.

FATHER'S VACATION

The folks are gone, I'll get a rest,
My nerves are [illegible]
Of course, I'll [illegible] them
Some quiet I will get.

I didn't know [illegible]
I think I'll go to bed.
What's this? Another note from Kate,
And yesterday's not read,

By Jove! Another list of things
That I'm to find and get.
That means I'll have a rummage 'round
The house from end to end.

I think you'll find the hammock—Will,
Behind the basement door.
I'm sorry I forgot them, dear,
I never did before.

The children want their play-pen, too,
And climb the attic stair;
It's on the landing to the right,
Their bathing caps are there.

Look in the closet, and you'll find
The children's winter caps.
And my golf blouse is also there,
Or on the shelf perhaps.

And in the lower left-hand drawer,
Or maybe it's the right,
You'll find the doily I've begun,
I like to sew at night.

Dear Robbie wants his drum and gun
And Jack his soldier hat.
Send Mary's doll, and don't forget
To feed the dog and cat.

And when you come on Saturday
Please bring these things with,
My sailor hat and raincoat, too,
And our old skating disk.

Ye Gods! I see it's up to me
To buy a push-cart quick.
If I don't the cops, I'll leave the place
And hunt a new mansion.

WAITING ORDER TO STRIKE

Oyama Is Ready to Give Linevitch Crushing Blow

Marshal Oyama's Headquarters, Mukden, Aug. 25.—Marshal Oyama today received the Reputation correspondent at the general headquarters of the Japan Army.

The Chinese Government house in which he has established his accommodations also for the leading officials of his staff.

Here the commander of the Japanese forces leads a simple life, eating breakfast at 6 o'clock, then proceeding to receive reports. These are considered in councils with his staff, which are held twice daily.

The entire Japanese position in Manchuria is connected with Oyama's headquarters by telegraph and telephone, and the old marshal is in constant communication with every division. The whole invading force is on a war footing and ready at any moment to continue the movements interrupted by the Portsmouth negotiations.

There is no mistaking the fact that Oyama is only waiting the word from Tokio to resume active hostilities. That that word is expected any day is evident, and the Japanese staff believes that the blow at all depends awaits General Linevitch's army.

AGENTS OF THE RUSSIANS

Said to Looking for Blockade Runners at Frisco

Victoria, B.C., Aug. 25. — Among the passengers by the Empress of China, were Baron Wood and Mr. H. A. Kristensen, the former being a well-known member of the Russian diplomatic or secret service. They are en route to San Francisco. Their mission is stated by others to be the arrangement with American shipping firms for a number of blockade runners to carry supplies to be captured Vladivostock. Kristensen is well known in marine circles along the China coast, having been the unfortunate defendant in the suit brought by M. Pavlow, Russian minister to Korea, heard in the Shanghai courts. The suit was for recovery of the cost of the steamer Samson, purchased during the war in the Russian interest and judgment went against Kristensen with all costs.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans;

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation.

(2) If the prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation

(3) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If a settler who is entitled to and has obtained entry for a second homestead, has requirements of this Act as to residence prior to obtaining patents may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of paragraph (2) or (3) must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 10 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in searching lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba; or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

How to Visit Colorado

Go first to Denver. It is the State capital, as well as the largest, wealthiest and most metropolitan city between the Missouri River and the Pacific Coast. The city itself is very interesting, and from it start practically all the trains over the various roads into the mountains.

Many of the most enjoyable one-day trips in Colorado begin and end at Denver. The cost of these little journeys is not great.

After you have familiarized yourself with Denver and its surroundings will be soon enough to decide where to go for the rest of your visit. The question must be considered from several standpoints—altitude, hotel accommodations, accessibility, amusements, etc.

Our Colorado literature will help you in deciding where to go and what to do. Sent free for the asking.

DRS. KENNEDY & KERGAN

148 Shelby Street, - - DETROIT, MICH.

The Glenara Gold Mining Co.

Capitalization, 1,500,000 Shares — Stock Fully Paid and Non-Assessable

Par Value, $1.00 Per Share. — Treasury Stock, 700,000 Shares.

This Company was organized in March, 1906, under the laws of Arizona, with a capital of 1,500,000 shares. The par value of these shares is $1.00 each. They are full paid and forever non-assessable. The Company owns approximately seventy-five acres of territory in the Goldfield district. By reference to the map you will note that every acre is within the producing area, and with the systematic development this large acreage is to receive, there is no doubt that the stockholders will very shortly see the Company on a producing basis.

We desire to say right here that this Company is organized for legitimate mining, and not stock jobbing purposes, and among the directors are some of the best known mining men in the West. It is their one desire to make the GLENARA GOLD MINING COMPANY a great success at the earliest possible moment.

It is for the purpose of raising funds to vigorously develop the Company's holdings that some Treasury stock is now offered for public subscription. Out of a capitalization of 1,500,000 shares, 700,000 shares have been placed in the treasury. This treasury reserve insures the company a large working fund, is ample in the belief of the management, however, that it will not be necessary to dispose of over 50,000 shares of the treasury stock. The present outlook is such that the management believe that the mine will be on a paying basis before many weeks have passed.

The Property of The Glenara Gold Mining Company Consists of the Following

The Glenara Group consists of four claims located in the Goldfield mining district of Nye County, Nevada. These claims are known as the Kentucky Bell, Mabel M., Lone Jack and June Bug, covering about seventy-five acres. This group of claims is located on a system of ledges over a mile and a half in length and about half a mile wide. These ledges are the same as those traversing the Kendall, Tonopah Club, Vernal, Sunrise, Black Butte, New York, Brooklyn, Jumbo, Vernal, Penn and Federal.

The surface indications at the time of location were of the very best, and rich ore shoots have been found upon the ground and good values are obtainable, all of which indicate that the property can be developed into a paying proposition. The ground has been thoroughly prospected and the workings of the shaft begun on the Kentucky Bell claim. There is a force of men sinking a shaft as rapidly as possible. Good ore has been encountered running from $8 to $30 per ton, increasing in value with depth, and it is safe to say that a strike may be looked for any day.

The Glenara as a whole, the investment offered by the Glenara Gold Mining Company is equal to any prospective company in the district. The claims are exceptionally well located, covering a large area; the management is conservative and honest, and is working hard for the success of the company.

The proposition will stand the most closest investigation, and, in fact, an investigation by prospective investors WILL MEAN AN INVESTMENT. WE COURT INVESTIGATION.

The allotment of stock is very small, and if you desire to become interested with this enterprise, it will be necessary for you to communicate with us at once.

The work on the property is being pushed to the utmost, and any day may bring news of a strike which will advance the price of the stock. For prospectus and full particulars, address

R. H. B. WARBURTON, Fiscal Agent,

Office, 522 McPhee Building. DENVER, COLORADO

LOCAL WINNERS

Peterboro Men Capture Prizes at O. R. A. Meet.

Thursday was a perfect day for marksmanship at the Ontario Rifle Association matches now in progress at Long Branch. The wind blew steady, which has tried the friendly the convenience the marksmen.

There was some excellent shooting and in the Dolor match in the morning the marksmanship was remarkable. The possible scored in this match was 35, and four competitors obtained it by making seven successive bull's-eyes. There were 75 prizes in all for the match, and the lowest score to win a prize was 31, in addition to which 21 scores of 31 had to be counted out.

In the match Pte. G. Fitzgerald, with a score of 33, won $5. Col.-Sergt. W. H. Moore won $3 in the same match with a score of 32.

In the Duke of Cornwall and York competition Col.-Sergt. W. H. Moore won $3.

In the City of Toronto contest, 2nd stage, Col.-Sergt. Moore won $7, score of 107.

Pte. G. Fitzgerald, with a score of 104, won $6 in the same contest.

YUKONERS PLAN EXPEDITION

Men of the North to Try and Discover the Pole

San Francisco, Aug. 24.—Advices from the north state that the citizens of Dawson City have organized with a membership of 200, an international society for polar research and experiment. The ultimate object, after ascertaining the most logical and practicable plans, is to launch an expedition for the discovery of the north pole.

Mr. W. W. B. McInnis, governor of the Yukon Territory; Dr. Alfred Thompson, member of Parliament for Dawson; Judges Dugas, Craig and Macauley; Major Z. T. Wood, commander of the Northwest Mounted Police, members of the foreign consulate and others were present and drafted a preliminary plan of the meeting at which the organization was formed. The scheme is originated by Dr. Anthony Varick, an inventor and scientist, now in Winnipeg. The expedition will start next June.

The paper that goes into the homes is the most valuable medium for Summer Resort advertising.

Unequalled in this respect by any other paper in New England, The Boston Herald is without question the best medium for Summer Resort advertising in America.

Coming" as it does both quality and quantity, it brings far better results than all other cost on papers combined.

Special cash discount of 10 per cent for three insertions in one week; special cash discount of 25 per cent for eight insertions in one month.

Rates are 12½c per line solid and 25c per line displayed.

NORWAY'S ACTION APPROVED

People Want Negotiations Opened for Settlement of Differences

Christiania, Aug. 25.—Norway's action through the Storthing, following an overwhelming vote of the people for independence, in asking the Swedish Riksdag to repeal the act of union and open negotiations for the settlement of all differences between the two kingdoms is approved by the vast majority of the Norwegian people. Only the extreme radicals dissent, and these lack the power to thwart the policy of peace. It is expected that the negotiations will begin shortly, probably at the town of Karlstad. The acceptance of Sweden's conditions is considered sure, but is dependent upon the latter's agreement to an arbitration treaty rendering Norway's frontier defenses unnecessary. The threat [illegible] reveal a desire of Sweden [illegible] able to Prince Carl, Bernadotte, third son of King Oscar, for King of Norway.

HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & Co., Toledo, O.

We the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by their firm.

WEST & TRUAX, Wholesale Druggists, Toledo, O.

WALDING, KINNAN & MARVIN, Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75c. per bottle. Sold by all Druggists.

Hall's Family Pills are the best.

NO CONCERN IN TOKIO

Japanese Ready to Strike Harder Blows if Necessary

Tokio, Aug. 25.—No concern is manifested in this city as to the result of the peace conference. In consequence it is related on terms that are honorable and reasonable to the victorious nation, great joy will be felt by the Japanese. Should a rupture result in the negotiations because of Russia's unwillingness to accept the proper basis of a war, which the [illegible] rendered necessary and in which it has been defeated, Japan is ready to strike still more crushing blows than she struck in the past. Naturally, therefore, the conditions of peace offered to Russia at the next conference will be far more rigorous than those offered at present.

L.O.L. Organizer Busy

Grand Organizer Gray of the L. O. L., is a busy man these days, in his efforts to enthuse and gain membership for the Orange Order in this district. [illegible] with him are

[illegible] valuable assistance. [illegible] other lodges in this district that the organizer will visit are Apsley, Tuesday, Aug. 29; Ball's Bridge, Wednesday 30; Keene, Thursday, 31; Nassau, Sept. 1; Lakefield, Sept. 2. This fills up the time until Labor Day, after that Mr. Gray will go farther east.

THE

Montgomery Mountain Mining Company

BULLFROG

promise to be one of the greatest producers yet discovered in the TONOPAH, GOLDFIELD BULLFROG DISTRICT.

This district records the greatest discovery of Gold that has ever been made in the history of mining. This Company is a legitimate Mining enterprise, managed by honest, capable mining men.

The property is on the Montgomery Mountain, adjoining the MONTGOMERY SHOSHONE mine, which has only been operated ten weeks and which is now

Shipping Ore that runs TWENTY-THREE HUNDRED DOLLARS to the Ton.

The Capital of the Company is $1,250,000, divided into 1,250,000 shares of a par value of $1.00 each fully paid and non-assessable, 300,000 shares of which are in the Treasury.

The Officers and Directors are

President and Treasurer, D. H. PERRY, Salt Lake City, formerly President of the Salt Lake Stock and Mining Exchange.

Vice-President, Hon. JOHN SPARKS, Governor of Nevada.

Directors: D. E. BURLEY, General Passenger Agent, Ogden Short Line R. R., Salt Lake City; Hon. JOHN SPARKS, Governor of Nevada; E. E. EDWARDS, of the firm of Vermilyea, Edwards & Stanley, Attorneys-at-Law, Goldfield, Nevada.

The Company refers by permission to

McCormick & Co., Bankers, Salt Lake City; John S. Cook & Co., Goldfield, Nevada; Ormsby County Bank Carson City, Goldfield & Tonopah, Nevada.

We believe this property and its stock will have an advance that will be as sensational as was the Original Tonopah immediately after its development.

We can supply orders for a limited number of shares at 75 cents per share. This price expires July 10th, after which it will be raised. For information or stock apply to Thos Patterson & Co., Fiscal Agents, Peterborough, or.

NICKEL AND COPPER

A Few Thousand Treasury Shares

Only are left to be sold before all offerings are WITHDRAWN FOR FIFTEEN MONTHS' TIME.

You can buy the few remaining shares now at $1.00, but fifteen months hence you will probably pay from $5.00 to $20.00 per share.

THERE IS NOTHING EXTRAORDINARY

in shares advancing as above stated in mining propositions, for it is an old story of phenomenal advances in mining shares. Granby Mountain going from ten cents to $75 per share, Calumet & Hecla from $1.00 to $900.00, and so on down the list.

CONSIDER FOR A MOMENT

What this company offers—It controls to-day an actual territory of nearly **Three thousand acres of land known to be immensely rich in nickel and copper ores, all in a district known and proven to be sixth among the greatest copper districts in the world.** This company will control at least a thousand acres more. In fifteen nearly five thousand acres, which will not be mined out in two hundred years.

WE STAND READY TO PROVE

That this company offers to-day the most meritorious mining proposition presented in ten years' time.

Write or call for full particulars. All shares registered by International Trust Company, Boston.

International Nickel and Copper Co., Ltd., Suite 93, Journal Building, Boston, Mass.

W. K. HALL, Fiscal Agent, Peterborough.

"THE KRAMER" Gold Mining Co.

"THE SAFE WAY" IS "THE SUCCESSFUL WAY"

CAPITAL STOCK $1,000,000, fully paid and non-assessable.

Watch the Skin for Bad Blood

It Comes to the Surface in the Form of Pimples, Boils, Rashes and Humors.

When the blood is weak and degraved the system lacks staying power and force. Frightful ulcers and unsightly blotches break out, the skin becomes yellow and muddy, the eyes lack lustre.

Redder, does YOUR blood need attention? If so get Dr. Hamilton's Pills at once; they filter out all poisons, eliminate disease-making germs, nourish and re-vitalize every drop of blood in the body.

No medicine exerts such a marvelous influence for good as Dr. Hamilton's Pills; they clear the complexion, make it exquisitely beautiful; they cure pimples, rashes and skin troubles of every kind. Read the following carefully;

No Appetite Bad Color General Debility

"I was run down," writes Mr. Albert E. Dicroce, of Fairview P. O., "My color was dull and unhealthy, appetite was poor, and I was constantly suffered from rheumatism. I felt all hard to keep, and felt worn out and tired all the time. Dr Hamilton's Pills made an instant change. I grew stronger, my blood was restored, rheumatism vanished. To-day I am vigorous, cheery and healthy in every respect.

You will never realize what good health means until you feel the quick reliable vitalizing effect of Dr. Hamilton's Pills. Every tired, overstrained, nervous man and woman should use this grand tonic regularly. Life will then be full of happiness and buoyant health. All dealers sell Dr. Hamilton's Pills, 25c. per box, or five boxes for $1, by mail if price is forwarded to N. C. Polson & Co., Hartford, Conn., U.S.A. and Kingston, Ont.

Red-covered price list and papers. Between Lakefield and Peterboro. Return to this office and receive reward. 3tx

Farm Laborers' Excursion

For the Farm Laborers' Excursion on Monday, September 4th, the Canadian Pacific Railway will run a special train, leaving Peterboro at 10.15 a.m. Secure tickets early from W. McIlroy, City Passenger Agent, 343 George street, Peterboro.

Not Needed.

The Belleville Intelligencer says: The Peterboro police force is all tied up over the theft of an alderman's bicycle. Our local Sherlock Holmes, who recovered Magistrate Flint's in such a masterly way might go to Peterboro and give them a few pointers.

A Good Picture of Buckhorn

Mrs. J. Conroy, of the Windsor Hotel, yesterday was in receipt of a fine photograph of Buckhorne rocks, in which "Johnny off the yacht," otherwise Mr. W. Millan, a prominent Pittsburg lawyer, figures prominently, displaying his massive muscle and robust form nourished by the fish diet and ozone of Kawartha lakes. The picture is a good adv. for our northern summer resorts.

$10--Atlantic City and Return--$10

The last $10 Excursion this season via Lehigh Valley Railroad, Friday, September 1st. Stop over allowed at Philadelphia. Tickets good 15 days. And only $10 the round trip from Suspension Bridge, Niagara Falls. For tickets and full particulars call on or address Robt. S. Lewis, Passenger Agent, Lehigh Valley Railroad, 10 King Street East, Toronto.

Peterborough Business College
Is Larger This Year Than Ever.

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 80 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER.

If you cannot attend our School write for particulars regarding our correspondence course.

WM. PRINGLE.

Port Hope Boy Injured.

Master Vernon Storey, son of Mr. and Mrs. James Storey, Port Hope, is suffering from a very painful accident which befell him. He was playing with a rat trap setting it off by means of a sharp stick, when unexpectedly the trap caught it. The stick was snapped in two and one piece thrown in the air. The sharp end of this pierced the pupil of the boys' eye, and the sight is badly injured.

Col. Sam Hughes Serenaded

Col. Sam Hughes was awakened from his dreams of war and conquest Wednesday night, by a blanket-clad parade organized by delegates attending the I.O.F. meeting in his native town, Lindsay. The party of serenaders, numbering half a hundred, discoursed sweet strains from fog horns, tin kettles and "such like," and would not let up until the warrior from Victoria County arose and gave them a speech.

Blacksmith Business for Sale or Rent

Want to sell or rent, a blacksmith business, frame house and stable, and one acre of land, with a number of fruit trees and good spring well in a village five miles from C.P.R. and G.T.R. stations. Daily mail and a good thriving part of country. Good business done the year round, and no opposition. Only reason for selling is ill-health at present. For full particular write to M. C., in care of this paper.

License Holders' Protective Ass'n.

Peterboro License Holders' Protective Association will hold a meeting at 2 p.m. on Monday, August 28th, in the Ontario Bank Chambers, for important business. The meeting will discuss ways and means of obtaining the next annual meeting of the Eastern Ontario Dairymens' Association, for next January. The Oddfellows' annual convention for next year and matters of interest to the L. H. P. Association will be discussed. As this meeting will be of great importance, it is requested that there be a full attendance.

J. M. BROOKS, Pres.
A. ROUNTREE, Sec.

The Simple Life.

President Roosevelt says: "I commend this book to the nation." Beyond question the most talked-of book today, whether in the pulpit or out of it, is "The Simple Life," by Rev. Charles Wagner. It has caught the nation like wild-fire, and is constantly alluded to everywhere, backed by the endorsement of public men, literary critics and the press. President Roosevelt preaches it to his countrymen. The well-known publishers of popular-priced books, Hurst & Co., 395-399 Broadway, New York, have just issued a tasty edition, which they will mail to anyone sending 35c. This firm will also forward a complete catalogue of books upon request.

A Narrow Escape.

Mr. Arthur Graham, son of Mr. George Graham, proprietor of the Oriental Hotel, an old Peterboro boy, had a narrow escape from drowning whilst viewing the Dunnan-Sullivan rowing race on Wednesday. He, with some friends, were following the course in a gasoline launch, when the ferry boat Island Queen, bore down upon the little launch. The steersman's crew evidently did not see the smaller craft, and the ferry boat was almost on top of it before it was noticed. A quick turn at the wheel was all that saved the launch and its occupants from serious injury. As it was, the big steamer grazed the stern of the launch, taking the rudder off, but doing no further damage. It was a close call, and the ladies aboard sustained a severe mental shock.

Kinmount Fair Attracts Attention.

Local horsemen are now taking under consideration sending horses to take part in the Kinmount Fair races. The fair, which will be held on Sept. 14th and 15th, promises, for so remote a district to be excellent this year. The management is to be congratulated on the strenuous efforts they are making to ensure a good show and large attendance. In the racing section they hang up their good purses distributed respectively as follows, Free for all, $150; 2.30 class, $120; 2.40 class, $105 in prizes. One Johnston, a keen sportsman, has already entered his speedy horse "White Blaze" in the 2.30 class, and it is said that Mr. Lipsett will enter Miss Paisley for the fast event. Already some of our local sports have signified their intention of attending. Gentry, the horse recently sold by Mr. J. M. Brooks, of the Palace Restaurant, to Mr. Thos. Robinson, the Gooderham hotelman, will likely be entered in the free for all races.

Great Belford Family of American Acrobats Secured For Norris & Rowe's Greater Circus

At the beginning of the present touring season when Norris & Rowe, the enterprising young circus owners, claimed they had secured an option on the services of the great Belford Family of acrobats, many showmen said they would not be able to secure the Bellfords on account of the enormous salary the acrobats demanded for their startling act. This contention was quickly dispelled, for in line with their policy of making good their claim to the title, "Greater Circus," Messrs. Norris & Rowe willingly paid the salary demanded and the Bellford Troupe of acrobats became one of the huge family with the popular western circus. It has been generally supposed that Europe surpassed America in its acrobats. In fact, until recently, whenever something extraordinary in acrobatic performances was accomplished, European

artists were the artists to carry off the honors. America can now justly point with pride to the Bellford Family—seven in number—as the most accomplished artists that have ever appeared either in Europe or America. Their celebrated acrobatic stars are all Americans, whose feats of triumphs has been the world. The troupe comprises two young women, three young men and two older men and it seems impossible to describe the multifarious feats of skill, strength and daring they perform.

Other acrobats with the Norris and Rowe Shows this year are Melnotte, LaNole and Melnotte; the Gardner Family of four clever mid-air performers; the great Victorella troupe; the Traviolla troupe; the four Tasmanian girls, the Peralta troupe and Edith Sinclair.

These acts include the wonders of the flying trapeze, aerial bars, flying rings, and every aerial act known to the circus arena.

They will appear here with the Norris and Rowe Greater Circus—At Peterboro, Today, August 26th.

MONDAY'S PROGRAM

List of Events at Chemong Junior Regatta.

The Times was yesterday handed the program for Monday's regatta, when the boys and girls will try to beat records made by their seniors in last regatta.

The events will start at two o'clock and the list is:

1.—Boys' Tandem Canoe—11 and under.
2. Boys' Canoe Tandem—12 and under.
3. Girls' Canoe Tandem—14 and under.
4. Boys' Canoe Tandem—14 and under.
5. Boys' Single Skiff — 14 and under.
6. Girls' Double Skiff—14 and under.
7. Boys' Double Skiff — 14 and under.
8. War Canoe — Paddled in punts, teams of 10.
9. Crab Race—14 and under.
10. Tub race—14 and under.
11. Boys' Swim—12 and under.
12. Boys' Swim—14 and under.
13. Boys' Swim—11 and under.
14. Girls' Swim—14 and under.
15. Ladies' Single Canoe.
16. Open Sailing Race—Chemong Championship.

DOCTORS AGREE.

No Contract Work Will be Done by Local Physicians

In solemn conclave assembled in the Ontario Bank Chambers, Thursday night, 17 out of 27 practising physicians of this city decided unanimously not to sign all lodge work and similar cheap contract jobs. Whilst it was unanimously agreed that no lodge or society's work on the "so much per head per annum," would be accepted by those present, an exception was made over work for the railroads or engagements made with factories to attend calls in cases of accidents. The decision will take effect at the beginning of next year, when all present contracts will expire.

It is anticipated that all local physicians will loyally stick to the agreement formulated; those who were absent at the meeting above mentioned will be asked to sign the agreement, particularly as several claims in a former agreement, which did not meet with universal approval have been omitted.

The compact means that only work for the railways and factories and guarantee companies, so far as accidents are concerned, will be contracted for. All lodge attendance on members by contract will cease.

The schedule of rates was not discussed, as it had been practically adopted at a previous meeting.

The gathering was most harmonious.

DOES IT STAND TO REASON that Perry Davis' Painkiller could have held public confidence for 60 years unless it really did cure diarrhoea, cholera morbus and all similar troubles so common and so dangerous in hot weather.

PERSONAL

—Messrs. Fred A. Clarke, and W. Stroud went to Lindsay yesterday on business.

—Mr. James O'Shea has forsaken the farm for today to see the circus. Jim never misses them.

—Miss Edith Ross, of Kingston, is visiting in town the guest of Mrs. (Dr.) Wightman, Park street.

—Mr. Adolph Picord and his twins have returned home from Young's Point after spending a pleasant visit.

—Mr. "Eddie" Howell, the ex-Peterboro hockey player, and now of Sault Ste. Marie, is spending his vacation in the city.

—Mr. and Mrs. Stark of Chicago, who have been visiting with Mr. Gross, Water street, left for home yesterday morning.

—Mr. George W. Matthews, the well-known park packer of Lindsay, was in the city yesterday on business. He registered at the Oriental Hotel.

—Mr. J. A. Yorick, Toronto, Canadian Passenger and Freight Agent of the Chicago, Burlington and Quincy Railway was in town yesterday on business.

—Mr. and Mrs. C. K. Shunk and Miss Shunk, Cincinnati, O., were guests at the Oriental Hotel yesterday en route to Chemong Park, Hotel, where they will spend some days.

—T. Mortimer, Toronto; J. A. Yorick, Toronto; J. B. McLaren, Brockville; N. C. McClure, W. H. Peterson, Toronto; H. A. Brown, St. John, N. B.; W. A. Rae, Toronto, are guests at the Oriental.

—Ernest Goff, St. Catharines; Geo. L. Porter, Union City, Texas; Jos. King, Whitby; M. S. Deatzer, Buffalo, N.Y.; E. M. Deatzer, Buffalo, N.Y.; H. B. Ashby, London; J. Nicholl and wife, Norwood, are guests at the Snowden House.

—Mr. Patrick J. Cluman, the local horseman, has returned from a business trip to Little Current, Algoma. The colonel reports that the fishing there is something beyond belief. Tourists sit on the dock and haul in all the bass and pike they can carry away.

—Mr. and Mrs. B. S. Armstrong, of Cincinnati, O., are in the city the guests of Mr. Armstrong's mother, 141 Lansdowne street. Mr. Armstrong is an old Peterboro boy, who has not been home for several years, and who is now getting "the glad hand" everywhere.

MISS MARIA DUCHARME.
Every Woman in America is Interested in This Young Girl's Experience.

PELVIC CATARRH WAS DESTROYING HER LIFE. PE-RU-NA SAVED HER.

Miss Maria Ducharme, 182 St. Elizabeth street, Montreal, Can., writes:

"I am satisfied that thousands of women suffer because they do not realize how bad they really need treatment and feel a natural delicacy in consulting a physician.

"I felt badly for years, had terrible pains, and at times was unable to attend to my daily duties. I tried to cure myself, but finally my attention was called to an advertisement of Peruna in a similar case to mine, and I decided to give it a trial.

"My improvement began as soon as I started to use Peruna and soon I was a well woman. I feel that I owe my life and my health to your wonderful medicine and gratefully acknowledge this fact."—Maria Ducharme.

Local Incidents
BY THE TIMES MAN ON THE STREET.

—The Quaker Football Club will run an excursion by steamer Water Lily and Palace Barge to Jubilee Point and Gore's Landing on Labor Day.

—Pastor Stemmagel will preach a special sermon to-morrow morning on "Which Day shall we Keep, and How to Keep it." All interested are cordially invited.

—There was a large attendance at last night's band concert in Victoria park, and a splendid program was rendered. This was the last of the popular concerts in this park for the present season.

THE FIRST LESSON

That the young girl has of womanhood is not seldom a painful one. She learns to know what headache means, and backache, and sometimes is sadly borne down by this new experience of life.

All the pain and misery which young girls commonly experience at such a time, may in almost every instance be

entirely prevented or cured by the use of Dr. Pierce's Favorite Prescription. It establishes regularity. It tones up the general health, and cures headache, backache, nervousness and other consequences of womanly weakness or disease.

"I received your letter some time ago, with advice about your wonderful medicine," writes Miss Stella Johnson, of 8 Brady Street, Dayton, Ohio. "I was troubled with severe pains every month when I wrote to you for advice. After receiving your letter and following its directions, I am now happy to say that after five years of untold suffering I have not had any pains since first using your 'Favorite Prescription.' I was induced through a friend to write to you and follow your kind advice. I thank God, and Dr. R. V. Pierce for the health I now enjoy. I shall urge other women who suffer as I did to use your medicine."

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women.

Weak and sick women are invited to consult Dr. Pierce, by letter, *free*. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

FREE. Dr. Pierce's Common Sense Medical Adviser is sent *free* on receipt of stamps to pay expense of customs and mailing *only*. Send 21 one-cent stamps for the book in paper covers, or 50 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

CZAR WILLING TO DIVIDE SAKHALIN, PAY LIBERALLY FOR PRISONERS, NO INDEMNITY

(Official Bulletin)

St. Petersburg, Aug 28--The Emperor's Ultimatum is That Russia will Agree to the Divison of the Island of Sakhalin and That Liberal Payment Shall be Made to Japan for the Care of Russian Prisoners, But That No Indemnity Shall be Paid.

(Special to The Times.)

Portsmouth, Aug. 28.—At 12 o'clock Saturday, one of Russian attaches was quoted as saying that telegrams had been received from St. Petersburg, but they contained no word which would permit M. Witte to offer a counter proposition to the Japanese compromise, and that unless the Japanese had a new proposal the conference was doomed, and to-day would mark the final rupture.

President Roosevelt's intercession at Peterhof and Tokio has not been successful as yet, but enough progress has been made to insure the prolonging of the negotiations to-day. A certain result has been achieved at St. Petersburg, but if there is eventually to be peace, Japan also must change her attitude. The re-purchase of the northern half of Sakhalin Island still points the clear road to the only possible compromise, but it must be a purely commercial transaction, not a claim for indemnity in disguise.

PARALLELING THE CANADIAN PACIFIC

Protest Against the G. T. Pacific Company's Location

STRONG STAND BY C.P.R.

Sir Thomas Shaughnessy Makes Important Statement

Montreal, August 28.—It is stated that the Canadian Pacific Railway Company is registering a vigorous "kick" against the location of the Grand Trunk Pacific line in the West, on the grounds that the territory served by the Canadian Pacific Railway main or branch lines should be left free from competition. According to reports Sir Thomas Shaughnessy's recent visit to Ottawa was to emphasize the C. P. R.'s protest. The Government, however, believes that there should be the fullest possible competition among the railways receiving aid from the public exchequer.

From a man well posted on Canadian Pacific matters it is learned that the executive of that corporation hold that there is no portion of the Grand Trunk Pacific as at present definitely located from Portage to the western end of the McDonald & McMillan contract, a distance of 240 miles, that is more than ten miles from the C. P. R. or its branches. They contend, therefore, that this being the case, there is absolutely no new territory to serve and no need of a new railway throughout the entire section that has just been placed under contract. It is set forth that the hitherto well defined policy of the Government has been to keep these several transcontinental or other competing systems at least thirty miles apart, and that this policy was strenuously dwelt upon in official circles when the Grand Trunk Pacific Railway measure was receiving the assent of the Canadian Parliament.

A case, similar to that which the C. P. R. claim has happened in the West, occurred some few years ago in Nova Scotia, in connection with the early stages of the enterprise which Mackenzie and Mann are just completing between Yarmouth and Halifax. Some New York promoters, associated with local people who had obtained a charter to build a road along the south shore from Yarmouth to Halifax, got some capitalists interested and started in work. They found that, after their charter had been granted, and before the time limit has expired, the Nova Scotia Government had granted another charter for exactly the same route to a company to build a narrow gauge line. The locations were side by side and a race of engineering began to get in plans of sections for Government approval, ten miles at a time. While the two lines were under construction, and the New York people had about a thousand men at work, and a big construction plant on hand, their narrow gauge rivals (Philadelphia people) got an amendment to their charter enabling them to widen their road to standard gauge. After the New York people had spent some three hundred thousand dollars, they dropped out, and the road bed for fifteen miles stands today to illustrate what was at that time something unique in state-encouraged rivalry. About thirty miles of the other line was eventually completed and were recently acquired by Messrs. Mackenzie and Mann, who are now finishing the road.

SWEPT TO ETERNITY

Cloudburst Deluged Colorado Valley and Killed Many People

Trinidad, Colo., Aug. 27.—A cloudburst in the vicinity of Rhode Canyon, through which ordinarily a small stream of water runs, last night converted the canyon into a raging torrent which swept through the towns of Berwind and Tobasco, wrecking everything in its path and drowning at least nine persons. The property loss is estimated at hundred of thousands of dollars, suffered mostly by the Colorado Fuel and Iron Company, and the Colorado and Southern Railway Company.

It is impossible to get accurate news of the loss of life and property for the reason that communication with the stricken towns is constantly interrupted by the storm, which still continues. Relief parties have gone from Trinidad and neighboring towns, but cannot reach the canyon for several hours, as the 16 miles of distance lying between is deluged.

From all directions are coming reports of the disastrous effects of the storm which enveloped Trinidad and the territory adjacent for miles, but no further loss of life than at Berwind and Tobasco has been reported.

THE WESTERN TOUR

Still Undecided Who Will Accompany Sir Wilfrid Laurier

Ottawa, August 28.—It is still undecided which of the Ministers will accompany Sir Wilfrid Laurier to Regina and Edmonton. Seemingly they are reluctant to make the journey, and the choice is whittled down now to Sir William Mulock or Hon. William Paterson. Only one member will accompany the Premier.

There is a feeling of disgust in ministerial circles at Mr. Oliver's action, in slipping away to the Yukon without notifying anybody. The plea is put forward on his behalf that it is essential the Minister of the Interior should familiarize himself with the present conditions in the Yukon. But this is not an acceptable excuse.

CHICAGO RAILWAY SYSTEM

Experts Report on Proposals of Mayor Dunne

Chicago, Ill., August 28. — Mayor Dunne's proposed system of 261 miles of municipal street railways can be built so as to be in operation January 1st, 1908, and will show a net profit to the city of more than $4,000,000 a year, after five per cent. is paid to the stockholders, under the contract plan, according to the report and estimates of Mr. A. B. Dupont, traction expert, of Detroit. The report says that the system can be built for $25,000,000 if the overhead trolley is used in the downtown district as well as in the residence section. The estimated cost includes the track, wire, construction cars, power plant and buildings.

DOG LOOKING FOR MASTER

Walked Six Hundred Miles from Omaha, Neb., to Superior, Wis.

Omaha, Neb., August 28. — An Omaha Newfoundland dog has walked 600 miles from this city to Superior, Wis., in an attempt to find his master and mistress, who are spending the summer vacation at one of the Wisconsin resorts. The city clerk today received a letter from Thomas H. Mills, of Superior, saying a fine looking dog, bearing an Omaha tag, number 400, had been found around the Hotel Superior several days ago. The dog license records show that the animal is Stub, who belongs to G. H. Henning. Henning and family left the city for the summer for Wisconsin resorts, leaving Stub in charge of friends. Last year Stub was taken to Superior by his master. It is evident that when the dog found himself deserted this year he set out for Superior in quest of the family.

TRYING TO DODGE TAX

Quebec Government Will Strengthen Its Statutes to Cover Offenders

Montreal, Aug. 28.—A dodge which is being extensively practised by English and American travellers to avoid payment of the $300 tax imposed by the Quebec Government, was laid bare at the annual meeting of the Canadian Manufacturers' Association yesterday. It is for several of them to rent a small office in the city which makes them resident agents, and, therefore, not liable to this tax.

As an office sufficient for this purpose can be procured for between $100 and $180 a year, and is shared by several, it can readily be seen that a large saving is effected. At the meeting, various member of the association upheld the tax, while the secretary of the Montreal branch announced that Hon. Mr. McCorkill, Provincial Treasurer, stated that the intention was to so amend the law that it would cover these offenders.

OYAMA'S ARMY ACHING FOR FIGHT

Prospect of Renewed Activity Pleases Officers and Men

RIVALRY WITH THE NAVY

Veterans Hope That Last Laurels of Struggle Not Secured by Togo's Fleet

Marshal Oyama's Headquarters, Mancburia, August 26, via Fusan.—The prospect of further war through the failure of the peace conference, is pleasing to the Japanese army. The new officers and troops who have arrived in large numbers since the advance, after the battle of Mukden, are especially anxious to participate in a great conflict.

The veterans of the army also feel a friendly rivalry with the navy, and hope that the latter has not secured the last laurels of the struggle with Russia.

The long wait caused by the pleasant sojourn of the rainy season has rendered Oyama's tremendous fighting machine more effective than ever. The heavy rains have come to an end, and the roads are now in fair condition. Occasional showers are anticipated for a time, but they are not likely to affect the operations of the armies.

The Japanese commanders have information that the Russians are busily preparing for a great battle. They also know on good authority that the Russian soldiers have no heart in the preparations.

On this point a European resident of Mukden is quoted as saying: "I doubt whether the Russian troops will make another serious stand if a general engagement is brought on. I am certain that many of them will not do so. Previous to the Japanese occupation of Mukden I was intimate with men of all rank in the Russian army, and small patriotism was shown by many of them. Many begged me to help them reach the Japanese lines, in order that they might become prisoners. In the early stages of the war they accepted it as a religious crusade, but actual contact with the Japanese soon dispelled this belief, and left them without any good reason for fighting.

"The organization maintained by the Russian commander for the securing of information was absolutely worthless during the battle of Mukden. Whole divisions lost their way and wandered helplessly about the country for days. The generals acted independently and the confusion which resulted was almost incredibly great."

WAR BONDS GO LOWER

Due, of Course, to Less Favorable Peace Outlook

Montreal, August 28.—War bonds went lower yesterday on the less favorable prospects for peace. In London, Russian Imperial 4's were off 3-8 at 89, while Japanese bonds receded to a less extent; the first series at 104 1-8, old 5's at 100 3-8, new 5's at 101 5-8, 4's at 89 3-8, and 4 1-2's first series at 93 1-4, were off 1-8; premium on the 4 1-2's second series off 1-5 at 2 per cent.

OLD RESIDENT GONE

Death of Mr. George Magee of Emily, Aged 85 Years.

Yesterday afternoon a long line of friends and relatives of the late Mr. George Magee, paid their last sad tokens of respect, by following his remains to the Emily cemetery, where he was interred.

The late Mr. Magee, an old and highly respected resident of Emily township, died Friday night at the residence of his nephew, Walter Magee, lot 19, concession 1, of that township. He was 85 years of age, and the general debility of old age was the cause of his demise. He was a life-long Conservative in politics, and in religion an Anglican. The deceased who was well known, was never married. He leaves one brother, Francis, who lives in Verulam. Mr. John J. Magee and Walter Magee, of Emily, are nephews.

CANADA MIGHT AID NAVY

No Room at Westminster for Colonials

Montreal, Aug. 28.—In an interview Sir Gilbert Parker, who is now in this city, expressed himself in favor of Canada contributing warships to the British Empire, but at the same time the Canadian knight-author does not wish M. Picard, of St. Hyacinthe, at Westminster.

He said; "Under the new scheme of naval protection there is not the same need for the development of inland and coast defences as formerly, and, therefore, when Canada has offered all that may be required in the way of garrisons and forts, she might build one, two, five or ten cruisers as the years pass on, and place them under the British Admiralty for service. I have every confidence in the naval power of Great Britain, and in the way it is directed. Canadians would have no reason to fear any wrongful distribution of their contribution if it were made in this way."

CANADIANS NOT WANTED.

Referring to Canadian representation in the British House, he said:

"Representation in the Imperial Parliament direct from Canada is impracticable. Do you suppose I want Monsieur Picard, from St. Hyacinthe, for instance, or Mr. Smith, from Moose Jaw, voting on whether my constituents shall have an electric lighting system? Of course not. That will not come unless it be that such representatives vote only on matters affecting Imperial interests."

CANADA'S IMMIGRATION

London Journal Says Strong British Element is Necessary

London, August 28.—The Morning Post, in the course of a leading article on Canada's development discusses the Canadian Government's contract with European steamship agents. Regarding immigrants it says that, apart from sentiment, it is a vital matter that a sufficiently strong British element should be introduced to absorb the aliens who are pouring in from Central Europe.

MR. PORTER RETURNS

Agent of Big Casino Gives Satisfactory Reports.

Mr. Geo. L. Porter who spent some weeks in the city last spring, has returned, and will remain for a few days. Mr. Porter informs us that the mine in California in which he is interested, the Big Casino, is every day showing richer samples of ore as the cuttings get deeper into the vein. He states that a party of capitalists from Kansas City, who recently visited the spot preparatory to investing, were simply astonished at the riches already it night, and on return took block of 50,000 shares in the mine. Those looking for a good investment that gives promise of good returns in interest would do well to consult Mr. Porter, at The Times office, whilst he is here, and see his latest samples of ore. Any person or number of persons can arrange for a free trip to the mines, as purchasers but finding the mine as good as represented would have all expenses refunded.

RUSSIA RUSHING TROOPS TO FRONT BY THE THOUSANSD

Feverish Anxiety in St. Petersburg to Reinforce Manchurian Army

FOR A SUPREME STRUGGLE

Cars and Locomotives are Being Hired in Germany for Transport Purposes

St. Petersburg, August 28. — That the war is to continue, is indicated by the feverish activity shown everywhere in preparing for the supreme struggle. A large detachment of men left yesterday for the front. Half a million troops that participated in the summer manoeuvres, are available to-day in Manchuria, and a large proportion of them are to be dispatched thither is rapidly as possible.

They will be replaced in the Russian garrisons by the regular fall conscription. Twelve thousand cars and three hundred locomotives have been hired in Austria and Germany, to convey men and supplies of the war. Prince Kakkiloff, Minister of Railways, is personally hurrying to completion the St. Petersburg-Vladika Railway, which will add greatly to the transportation facilities of Russia. The new Minister of Siberian Railway and Waterways, M. Ivanitzki, is also relieving the strain on the Trans-Siberian Railway.

Prince Wolkonsky said to-day: "Peace is impossible. President Roosevelt's last attempt to bring Russia and Japan to agreement has failed, because the Czar has solemnly promised his people to pay not a single kopeck of tribute, and to surrender not an inch of territory. Never since it became an empire has Russia paid tribute or ceded territory. The first ruler of the nation who does either of these things, signs his own death warrant. Such a document, however disguised, would provoke a revolution."

"Linevitch now commands the greatest army that Russia ever put into the field. The fruits of the vast sacrifices made to bring this about must be utilized. A great victory would bring genuine peace at home and abroad, but a humiliating treaty would be the signal for the bloodiest revolution in history, the enraged army, joining with the despoiled people, and turning their ardor against the established order of government."

Conference Resumed With No Indication of Any Change

Emperor Nicholas will Not Recede from His Announced Determination Not to Pay Tribute Under Any Form to the Japanese.

Portsmouth, N.H., August 28.—The session of the peace conference scheduled for three o'clock Saturday began seven minutes after that hour. The Russian plenipotentiaries reached the navy yard in their motor car shortly before three o'clock. The Japanese were ten minutes behind the Russians in arriving.

M. Witte and Baron Rosen, accompanied by Mr. Nabokoff, started in an automobile for the concierge of the navy yard at 23. They were followed four minutes later by Baron Komura, Mr. Takahira, and by Mr. Sato, also in an automobile. Crowds were on the verandah to see them off, many of the summer guests at the hotel believing they were witnessing the departure for the last meeting of the conference.

There has not been the slightest indication up to 12 o'clock last night that Emperor Nicholas would recede from his announced determination not to pay tribute under any form. And, in the quarters most competent to judge, there is not the slightest prospect of a change. But if Japan would bend, if she would renounce formally her demand for "reimbursement for the cost of the war" by the withdrawal of the price she now puts upon the north half of Sakhalin and frankly make the proposition to sell the island on a commercial basis, it is difficult, to see how Emperor Nicholas, having already acceded to the other conditions proposed, could refuse.

COULD BE MAGNANIMOUS.

Japan, it is argued, could afford to be magnanimous to avoid wounding the sensibilities of her adversary, and Russia could with dignity come to an accord upon such a basis. Japan could not obtain what she desires, perhaps, but the amount she could secure from the sale, added to what she could obtain from the Chinese Eastern Railway and the maintenance of the Russian prisoners, would certainly cover a considerable portion of the costs of the war. The frank renunciation of the disguised claim for indemnity would greatly strengthen the M. Witte's position, by enabling him within the letter of his instructions to press for the acceptance of such a solution. There is reason to believe he himself has some such proposition in mind.

Portsmouth, N.H., Aug. 27.—It is apparent that the prospects of peace are waning. Not that there has been any significant developments at Portsmouth, but the sentiment has grown that the Russians are absolutely determined in their opposition to granting the compromise proposal of the Japanese, and are now more than ever possessed of the idea that the conference will end abortively.

From Japanese sources it is learned that Baron Komura and Mr. Takahira, who are in close communication with the government at Tokio, are not prepared to offer any other solution of the existing situation than was put forward in their proposition to return a portion of Sakhalin Island in return for the payment of a heavy cash indemnity. The Japanese hold that they have gone to the limit of concession, and that it is for Russia to say whether the negotiations shall result in success or failure.

NO YIELDING BY THE CZAR.

London, Aug. 27.—The Standard's correspondent at St. Petersburg, says the accredited spokesman of the Foreign Office said;

"I can state positively that the Government's decision not to pay one penny as indemnity or reimbursement, or whatever Japan may term it, in any form, is irrevocable."

ANXIETY IN FRANCE.

Paris, Aug. 27.—A sentiment of deep anxiety prevails in official quarters here concerning the outcome of the Portsmouth conference, owing to the receipt of discouraging advices. Private reports received through official channels show that Grand Duke Vladimir, uncle of the Emperor, is exerting his powerful influence in favor of peace.

The bourse to-day opened firm, but under the influence of contradictory news from Portsmouth, soon showed hesitation. There were some realizations.

Russian securities were somewhat erratic. Bonds of 1904 gained a frane, while fours of 1901 declined slightly. The market became steady and firm toward the close. Russian imperial fours were quoted at 89.20 and Russian bonds of 1904 at 90.00.

West of Ireland Loyal to King

Declares The Archbishop of Tuam.

Speaking at a meeting of national school teachers at Tuam on August 7, the Rev. Dr. Healy, Roman Catholic Archbishop of Tuam, referred to the recent disloyal demonstration at the teachers' dinner at Sligo. He advised the teachers to conduct their legitimate agitation with prudence and circumspection, and not to allow the behavior of a few irresponsible persons to bring discredit on their cause. The inhabitants of the West of Ireland always had been genuine loyalists in spite of much foolish talk, but the Orangemen of Belfast were not genuine loyalists at all. They only prated about loyalty to the King, but when their loyalty was tested it was a humbug. Their western forefathers were loyal to Charles I.—perhaps more than he deserved—because he was the King. They were loyal in their day to James II.—unworthy as he was—because he was the King, whilst the ancestors of those blatant loyalists sold their King, a King of their own blood, and drove his children into exile. They in the west were loyal to King Edward. They owed him an absolute and unconditional loyalty as King de jure and de facto.

The Belfast Orangemen were loyal to the King only because he was a Protestant King, and if his Majesty were to become a Roman Catholic they would kick his crown into the Boyne and bring in a usurper. These were the persons who lectured national teachers about disloyalty, when all their own loyalty was found ed on the sectarianism of the Bill of Rights, not on the true principles of Christian loyalty. He hoped that no Irish teacher or Irishman would ever fail to pay due honor to the toast of "Edward VII.," was not only royalty but personally deserved that honor at the hands of every Irishman. But if anything could set him against rising to no due honor to the name of the King, it would be that he was called upon to do so by loyalists, who had no real loyalty, and by hypocrites, who made their boasted loyalty a pretence to preserve an odious political ascendency.

Chicago Starts Printers' Fight--The "Open Shop."

Chicago, Aug. 28.—Chicago on Saturday became the center of the struggle of employing printers throughout the country against the International Typographical Union to defeat the latter's attempt to secure the eight-hour day.

Open-shop notices were posted in four of the large printing establishments, members of the Typothetae. The spirit of the independent declaration will be carried out by the employment of non-union printers at once. Other members of the Typothetae have planned to follow suit.

Union officials say that the first non-union man to appear in any of the Typothetae establishments will be the signal for a general walk-out in every plant controlled by the master printers' organization.

FORCIBLE ARGUMENT

Mr. Stocker, City Bill Poster, in Mix-Up at Circus.

Mr. Walter Stocker, the well-known public bill poster and proprietor of very extensive rights in advertising space throughout the city, had an argument on Saturday with one of the Norris & Rowe's circus people, which ended in the showman landing a heavy blow on Mr. Stocker's jaw. It seems that Mr. Stocker, as is customary with gentlemen in his profession, had some contract work for supplies for the show. The particular bone of contention, it seems, was a demand made by Mr. Stocker for payment of a certain sum for a load of sawdust for use in the ring. The showman disputed Mr. Stocker's account on this item, claiming that the sum charged for the sawdust to be extortionate. The two disputants entered into a spirited argument, which ended by the circusman clinching his end of it by a blow, which left its mark. No arrests followed.

ATHLETIC WORLD

BY OUR SPORTING EDITOR.

LACROSSE.

Junior Brants Win Round.

Brantford, August 26.—Brantford Juniors won from Chatham here this afternoon, the score being 6 to 2, making the total in the round 8 to 4 in favor of last years champions. Chatham led off with a goal, but after that were outclassed in every particular. Waglorne, of Toronto, refereed a satisfactory game.

Tecumsehs 7, Torontos 4.

The Tecumsehs defeated the Rosedale outfit in a C.L.A. championship match at the island on Saturday by 7 to 4. Only about 2,000 people were present, as it was anticipated that the Islanders would have a walk-over, but the one junior Toronto who was on the team at the last motel put up such a fast game that the management tried out three others and they were no disappointment, for they were the most aggressive players of the match. The Tecumseh ward without the services of Reg McMillan and Adamson, who were replaced by Charlie Shore and Gow, while the Torontos tried out Selby, who has been seen in senior company before; the Heal brothers and Regan, who took Bill Hanly's place in goal.

Montreal Beat Cornwall.

Cornwall, August 26.—The N.A.L.A. game here today resulted in favor of Montreal by 8 goals to 2.

Shamrocks Beat Queens of St. Kitts.

The first home semi-final between the Shamrocks and Queens of St. Kitts was played at the Junction, and resulted in favor of the home lacrosse team by 6 goals to 4. Both sides showed clever combination, the Shamrocks winning by their superior defence work.

St. Kitts Beat Chips 27 to 0.

St. Catharines, August 26. — The game here this afternoon proved a regular burlesque. The Chippewas were defeated by a score of 27 to 0, thus establishing a new record score in the C.L.A. The Chippewas worked hard to score, but they found the local defense simply impregnable, while the local home were right on edge and gave the spectators a fine exhibition of lacrosse. In the first quarter nine goals were scored, and nine again in the second, after this the locals let up a bit, and only added eleven more in the last half. In the first quarter Pitcher got hit on the eye with the ball and had to retire, Barnett going off to even up. In the early part of the last quarter Lowe got a nasty crack in the face from Graydon's stick and had to retire. The Chippewas refused to put a man off to even up and thus were playing ten men to the local nine.

WHY SO WEARY?

Always Run-down and Weak Is Not Natural—But Is Dangerous

You have to work hard. This uses up lots of nerve force and tears down the body faster than it can build up.

The result is a half-dead feeling you can't shake off. Somehow you must get more vitality. The water in your blood must be turned into nutriment and building material.

This is just what happens in using Ferrozone, which renews the blood and nerves, and makes each organ do the work that nature expects of it.

Ferrozone quickly increases your weight, brings appetite and healthy color, instills a reserve of vigor into the system that defies weariness, exhaustion, debility, or sickness of any kind.

Ferrozone quickly increases your weight, brings appetite and healthy color, instills a reserve of vigor into the system that defies weariness, exhaustion, debility, or sickness of any kind.

The enormous strengthening powers of Ferrozone is proved in the case of Mrs. Edward Hill, of Orr Lake, Ont., who says:

"Two years ago I had a nervous breakdown. At night I tossed restlessly in bed, unable to get any rest from sleep. In the morning I suffered from over-powering weakness. My appetite was poor. I grew pale, thin and despondent. A slight backing cough also added to my burden.

"My doctor said to try Ferrozone, and it did me good in a few days. I increased in strength, the nervous sensations disappeared, and with my appetite came back my color and good spirits. I have gained over ten pounds in weight, and as my age is 56, I consider Ferrozone is a marvel." (Signed) Mrs. Edward Hill.

REMEMBER THIS: Ferrozone is a true tonic—not an alcoholic stimulant. Fifty chocolate-coated tablets in a box for fifty cents, or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterboro are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year strictly in advance.

SAGHALIEN.

It would seem that the understanding that Saghalien should be, as it is said to be, a chief point of the controversy at Portsmouth. Each side has particularly strong reasons for maintaining the position it has taken, and the positions are quite irreconcilable. Japan wants to retain possession of the island of which she was deprived half a century ago, but which she has recently regained by conquest, while Russia wants it returned to her. As the island commands the mouth of the Amoor River and the coast of the Maritime Provinces for hundreds of miles, and also commands the water route between the Amoor region and Kamchatka and the northern entrance to the Sea of Japan, Russia's interest in it is obvious. She regards possession of it as absolutely essential to the welfare of Eastern Siberia. With it retained by Japan, Vladivostok would be on the shore of a Japanese lake, and the mouth of the Amoor would be guarded by a Japanese fortress, while the great Siberian railroad, an enterprise especially favored and cherished by M. Witte, would have its Pacific terminus practically under Japanese domination. It is not strange that the Russian envoys regard such an outlook with repugnance.

The Japanese, on the other hand, have a keen recollection of recent history. Down to 1852 they had undisputed possession of Saghalien. In 1847 Muravieff seized Eastern Siberia, and in 1852 Nevelskoy invaded Saghalien and seized a large part of it. In 1853 he established a "colony" of six men at Ilinsk, and in 1854 another of four men at Muravievsk, and the annexation of the island to Russia was formally proclaimed. This was done, of course, in defiance and contravention of the rights of Japan and without Japan's acquiescence. Russia regarded the Japanese as mere savages, whose lands could be seized with impunity, just as Pizarro seized Peru and just as we have seized the lands of the Red Indians. Russia needed Saghalien for strategic purposes, to safeguard her conquests on the Amoor, and so she took it. That was all. It is true, Count Nesselrode protested against it, and predicted it would cause trouble; but he was overruled by Muravieff, just as Mr. Witte was overruled by Viceroy Alexieff two years ago to Russia's unspeakable injury. The wretched Shogunate was unable to offer effective resistance, and so the spoliation became an accomplished fact.

Two years later, in 1856, Russia dictated to Japan a treaty, in which Japan conceded Russian ownership of most of the island. That treaty did not, however, indicate the boundary between the Russian and Japanese parts. On the contrary, it said explicitly there should be no such delimitation, but "things should remain as they had been." The phrase "as they had been" meant, of course, as they had been for only the preceding three or four years, with a dozen Russian soldiers pretending to colonize and to occupy nearly the whole island. Five years later Russia proposed that Japan should formally relinquish the whole island to her, taking in return four small and almost worthless islands. Japan declined, but in 1875 was prevailed upon to do so, the consideration being Russia's "cession" to her of the Kurile Islands, which already of right belonged to Japan! The Japanese have always considered that in these transactions they were much misused, and they have cherished a resolution to undo the wrong at their earliest opportunity, which opportunity, they think, has now arrived.

Besides undoing that wrong, their retention of Saghalien seems to them necessary as a safeguard against further Russian aggressions and perhaps as a means of securing the neutralization of the Amoor, as the Danube is now neutralized.

The failure of the envoys to agree upon this point would, perhaps, prove fatal to the peace negotiations, unless, having settled all other questions, they should agree to submit this to arbitration. Meantime, if the Russians do persist in demanding the retrocession of the island to them, the Japanese will remain masters of the situation. They have possession of the island, and the Russians cannot possibly take it from them, nor even menace them, until they are able to send a fleet around in Rojestvensky's track, that shall do what Rojestvensky so signally failed to do. If Japan insists upon retaining Saghalien, she will be able to do so for years to come, quite regardless of anything that may happen in Manchuria. We are not, however, prepared to believe that, having agreed on all other matters, the envoys would let this one point, important though it is, wreck the whole scheme of peacemaking.

COLONIZATION OF SAKHALIN

Japan Said to Have a Distinct and Practical Policy

Victoria, B. C., August 26.—The Empress of China brought word that a distinct and practical policy has been inaugurated by the Japanese Government with respect to the colonization of Sakhalin with Japanese agriculturists and fishermen, who will be attached as reservists to the armies of Japan. Government aid will be granted to the first establishment of the settlers, and the former convict inhabitants will be deported, it having been decided by the Japanese Government to refuse naturalization to any Russian convict of Sakhalin, political prisoners or otherwise.

The development of the fishery interests of the island will be in the hands of private capitalists, by whom a substantial lease fee or bonus will be paid the Government. A similar system is foreshadowed with respect to the exploitation of the wealth of the sealing islands or rookeries recently taken possession of by Japanese warships, and including principally the Copper and Robben Island rookeries. Strict protection will be afforded these against both Japanese and foreign poachers, and it is probable that the Government of Japan will farm out privileges of sealing much as the Russian Government has done in past years. A San Francisco company, known as the Kamchatka Development Syndicate, being up to the present one of the most important concessionaries.

A PEST OF CRICKETS

Street Cars Have Difficulty in Running in Omaha, Neb.

Omaha, Neb., August 26.—Omaha is literally overrun with crickets. Such an army of the insects has swooped down upon the city as to cause great annoyance. They are piled up as high on the street railway rails as to interfere with traffic, and the motormen have difficulty in stopping the cars in many places. They are eating up carpets in homes and hotels and destroying clothing. At night they gather in such vast numbers around the arc lights in the streets as to make it almost impossible for pedestrians to pass. Patrons of the theatres fight the crickets while witnessing the performance, and bushels of them are swept out of the stores in the morning.

Up Go Freights

Montreal, Aug. 25.—A general advance of from 20 to 50 per cent. in steamship rates from Montreal to British ports has been agreed on by all the steamship companies running out of Montreal. The advance is due principally to the very large increase in the amount of freight offering.

Demand for Unskilled Labor

Victoria, B. C., August 26.—There is a strong demand for unskilled labor in British Columbia at present, chiefly in connection with the construction of the Nicola Valley Railway, which is in the hands of McLeods Bros., of Vancouver. One thousand more men are wanted for this work, and the minimum of pay is $2.25 per diem, with $0.25 weekly deduction for board. Men will be forwarded from the coast three times a week to Spence's Bridge, being sent forward as engaged either here or at Vancouver.

An Envoy from Australia.

London, Aug. 26.—The Canadian Associated Press learns that the Australian Commonwealth intends to send a commissioner to Canada to report upon the conditions regulating immigration traffic from Europe.

Ayer's Sarsaparilla. Good for anything? Ask your parents, grandparents, neighbors, your own doctor. We will leave it to any of them. Best blood medicine. Best nerve tonic. J. C. Ayer Co., Lowell, Mass.

NAVIGATION

RICE LAKE AND THE OTONABEE WATERS

Calcutt's Line of Steamers

Time Table for June, July and August, 1905

Commencing Thursday, June 1st the

STR. CITY OF PETERBOROUGH

will run as follows:

MONDAYS, TUESDAYS, WEDNESDAYS and FRIDAYS to Jubilee, Gore's Landing, (Harwood on flag) and Idyl Wyld. On the above days the steamer will leave the Peterborough wharf at 9 a.m., returning, will arrive in Peterborough at 8 p.m.

THURSDAY and SATURDAY AFTERNOONS the "City of Peterborough will leave the Peterborough wharf a 1.30 p.m. for Jubilee and Gore's Landing; returning will arrive in Peterborough at 9 p.m.

STR. WATER LILY

will leave Harwood every Saturday morning at 6.30 a.m., calling at Gore's Landing and Jubilee, and all points on the river; returning, will leave Peterborough at 3.45 p.m.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority to some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of classes [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads o entitle them to patent on or before the 3od of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba; or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

OVER THE

WABASH

TO

The Great Lewis & Clarke Centennial Exposition, Portland, Oregon

How to Visit Colorado

Go first to Denver. It is the State capital, as well as the largest, wealthiest and most metropolitan city between the Missouri River and the Pacific Coast. The city itself is very interesting, and from it start practically all the trains over the various roads into the mountains.

Many of the most enjoyable one-day trips in Colorado begin and end at Denver. The cost of these little journeys is not great.

After you have familiarized yourself with Denver and its surroundings will be soon enough to decide where to go for the rest of your visit. The question must be considered from several standpoints—altitude, hotel accommodations, accessibility, amusements, etc.

Our Colorado literature will help you in deciding where to go and what to do. Sent free for the asking.

To Colorado

How to Go

Let us assume that you have made a wise decision and are going to Colorado for your vacation this summer. The next question is—how to go? Right here is the answer: via Rock Island System.

The Rock Island has put on a new morning train from Chicago—besides its two evening trains. The new one—COLORADO FAST MAIL—is the quickest one-night train to Denver and Colorado Springs, leaving Chicago in the morning (8.35 a. m.)

The Rocky Mountain Limited leaving Chicago at 5.45 p. m. reaches Colorado next evening—the Colorado Express is two nights in transit. Two daily trains from Kansas City; one from St. Louis; through sleeper daily from Memphis.

This season Rock Island-Colorado trains are resplendent with new equipment—electric lights, electric fans. A full score of new chair cars and coaches just placed in service.

Go via Rock Island and GO IN STYLE:—It costs no more.

Low rates all summer—away down on certain dates.

Coupon below will bring Colorado book with list of stopping places.

Rock Island System

A. C. TURPIN, General Agent,
297 Main St., BUFFALO, N. Y.

148 Shelby Street, - DETROIT, MICH.

The Glenara Gold Mining Co.

Capitalization, 1,500,000 Shares — Stock Fully Paid and Non-Assessable

Par Value, $1.00 Per Share. — Treasury Stock, 700,000 Shares.

This Company was organized in March, 1905, under the laws of Arizona, with a capital of 1,500,000 shares. The par value of these shares is $1.00 each. They are full paid and forever non-assessable. The Company owns approximately seventy-five acres of territory in the Goldfield district. By reference to the map you will note that every acre is within the producing area, and with the systematic development this large acreage is to receive, there is no doubt that the stockholders will very shortly see the Company on a producing basis.

We desire to say right here that this Company is organized for legitimate mining, and not stock jobbing purposes, and among the directors are some of the best known mining men in the West. It is their one desire to make the GLENARA GOLD MINING COMPANY a great success at the earliest possible moment.

It is for the purpose of raising funds to vigorously develop the Company's holdings that some Treasury stock is now offered for public subscription. Out of a capitalization of 1,500,000 shares, 700,000 shares have been placed in the treasury. This treasury reserve insures the company a large working fund, if needed. It is the belief of the management, however, that it will not be necessary to dispose of over 50,000 shares of the treasury stock. The present outlook is such that the management believe that the mine will be on a paying basis before many weeks have passed.

The Property of The Glenara Gold Mining Company Consists of the Following:

The Glenara Group consists of four claims located in the Goldfield mining district of Nye County, Nevada. These claims are known as the Kentucky Bell, Mabel M., Lone Jack and June Bug, covering about seventy-five acres. This group of claims is located on a system of ledges over a mile and a half in length and about half a mile wide. These ledges are the same as those traversing the Kendall, Tonopah Club, Vernal, Quartzite, Black Butte, New York, Brooklyn, Jumbo, Vernal, Penn and Federal.

The surface indications at the time of location were of the very best, [illegible] good fast being found upon the ground and good assays were obtainable, all of which indicate that the property can be developed into a paying proposition. The ground has been thoroughly prospected and the sinking of the shaft begun on the Kentucky Bell claim. There is a force of men sinking a shaft as rapidly as possible. Good ore has been encountered running from $2 to $18 per ton, increasing in value with depth, and it is safe to say that a strike may be looked for any day.

Taken as a whole, the investment offered by the Glenara Gold Mining Company is equal to any prospective company in the district. The claims are exceptionally well located, covering a large area; the management is conservative and honest, and is working hard for the success of the company.

The proposition will stand the very closest investigation, and, in fact, an investigation by prospective investors WILL MEAN AN INVESTMENT. WE COURT INVESTIGATION.

The allotment of stock is very small, and if you desire to become interested with this enterprise, it will be necessary for you to communicate with us at once.

The work on the property is being pushed to the utmost, and any day may bring news of a strike which will advance the price of the stock.

For prospectus and full particulars, address

R. H. B. WARBURTON, Fiscal Agent,

Office, 522 McPhee Building. DENVER, COLORADO

APPEARANCE

Is such an important feature on the table. It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table.

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

THE BEST YET!!!

We have given our clients some good things in mining stocks during the past two years, but we believe one of the best propositions we have ever handled is

DILLON OIL MINING & DEVELOPMENT CO'Y., OF CANEY, KANSAS

Call and get full particulars. Watch for description of this property in The Times.

Thos. Patterson & Co.,

FISCAL AGENTS, PETERBOROUGH.

CZAR'S THRONE TOTTERS

Count Ignatieff Warns Nicholas That Delay of National Assembly is Fatal

St. Petersburg, Aug. 26.—Count Ignatieff, who is not only one of Russia's most famous statesmen, but has taken the deepest interest in the present state of the country, said today:

"Failure of the negotiations at Portsmouth will hasten interior reforms. In discussing the Bouligin project at the conference at Peterhof I told the Czar:

"'I am your faithful servant; therefore I warn your Majesty that the trip which I have just made through the empire has convinced me that procrastination and juggling in regard to the granting of a constitution threatens the existence of the house of Romanoff.'

"The Czar became pale at my words and rose from his seat. Then he quietly ordered that the discussion be continued.

"Nobody is against the plan of popular representation in a national assembly, but only a majority of the council insists that it be unrestricted and democratic. The delay is actually caused by technical difficulties. M. Bouligin is to quit the ministry of interior and devote himself to the organization of national assembly. Gen. Trepoff will become minister in his stead and will be succeeded by Gen. Kleygels as governor-general of St. Petersburg."

THE GAME IN LINDSAY

It is Evident That Lindsay Baseball Team is Below the Average

That the Baseball Team in Lindsay is not appreciated by all their co-citizens is proven by the following letter, which appears in the "Post" of that burg, which reads:

(To the Editor of The Post.)

I would strongly advise the management of the Ball Club to stop at once the burlesque that is being perpetrated in baseball matters in Lindsay. Take the red suits off the backs of the players "right away. Call in the stock in trade. If there are any monkeys over, hand it to some charitable institution, as the players by their conduct and playing have forfeited any claim whatever to the funds, or perhaps, better still, put the fund in trust for the formation of a worthy Ball Club, such as Lindsay deserves. Believe that they have one game to play at Cobourg. Don't disgrace the town by sending them out any more, lose the forfeit rather than reputation. I might say that there are three or four players now on the team that we hope will not be seen in a Lindsay uniform again. I believe this expresses the feeling of many Lindsay citizens.

This may seem to some pretty harsh talk, but does not the circumstances fit the case. We think "yes."

CITIZEN.

HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & Co., Toledo, O.

We the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by their firm.

WEST & TRUAX, Wholesale Druggists, Toledo, O.

WALDING, KINNAN & MARVIN, Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75c. per bottle. Sold by all Druggists.

Hall's Family Pills are the best.

H. O. T. in Lindsay

That the good citizens of Lindsay appreciate fun, good rollicsome fun, devoid of mischief was demonstrated on Tuesday night last. The Post of that burg says:

One would have thought by the great noise and clamor of tin cans, cow bells, drums, crackling of bonfires and babble of many voices heard in our county town last night that it was hallowe'en or Guy Fawkes eve, but it was neither. It was only a bunch of visiting I.O.F. brethern who were appreciating the freedom of the good old town, and we are glad to see that the visitors are enjoying themselves.

About 11.30 last night, shortly after the show was out, some twenty-five visitors broke loose from the Pym house, like a bunch of schoolboys coming out for recess. Cow bells were much in evidence. They paraded down Kent street in awkward squad order, and were joined by a large reinforcements from the Benson house, laden with the utensils of the kitchen, from a boiler to a rat trap and spoon.

The performers then commenced to have some fun, and vented their good feelings on the firemen. At 12.30 the firemen received a call from box 5, when, attracted by a glare of fire on Kent street, they had to extinguish a bonfire. Shortly after this fire was put out, another and still another bonfire was started and extinguished, until in desperation, the firemen turned the hose on their tormentors.

Following Instructions

Peterboro has one young woman who, in time, will make an excellent stenographer for a business house. She obeys instructions to the letter, and that is the first requirement of a faithful employe. She was employed in a certain office a few days ago. Everything went smoothly, and the head of the establishment thought he had found a jewel until last Friday, when the girl made her first mistake. Her employer had a half dozen bills he wanted to pay. He dictated letters to each creditor—communications of the "enclosed please find" kind, and then to the stenographer, "You know how to fill out checks, don't you?"

"Of course I do," was the answer.

"Well, then, fill out checks for them and attach them to the letters. I'll be back in a couple of hours."

When he returned he saw no sign of the letters and checks. Upon inquiry Miss Stenographer told him that they had been mailed.

"But the checks were not signed!" exclaimed the employer.

"Oh yes, they were. I signed your name to them. You asked me if I knew how to make out checks and told me to do it."

To The Times, when relating the incident, said, "She is going to be a model employe, but she needs a little toning down just a little."

OUR MARKSMEN BEAT JACKIES

The Canadian Regulars and Volunteers Handle Rifle Better than Sailors

Quebec, Aug. 27.—In a rifle match at St. Joseph de Levis yesterday in honor of the visit of the warships the Royal Canadian Garrison Artillery won the trophy, with the English Royal Rifles second. The team from H.M.S. Drake was third. Each of the ships in port sent a team of eight men.

Drowned at Walkerville

Walkerville, Aug. 25.—A drowning accident occurred here yesterday in which Harvey Leavit, a small boy of fourteen, son of Alex. Leavit, lost his life. He was swimming with some other boys of about the same age, and venturing too far out, became exhausted.

Letter from Rojestvensky

St. Petersburg, August 26.—Vice-Admiral Rojestvensky, in a letter to his family, says he expects to have fully recovered from the wounds received in the battle of the Sea of Japan by the middle of September, when he will start for Russia, with the permission of the Japanese Government.

NICKEL AND COPPER

A Few Thousand Treasury Shares

Only are left to be sold before all offerings are WITHDRAWN FOR FIFTEEN MONTHS' TIME.

You can buy the few remaining shares now at $1.00, but fifteen months hence you will probably pay from $5.00 to $20.00 per share.

THERE IS NOTHING EXTRAORDINARY

In shares advancing as above stated in mining propositions, for it is an old story of phenomenal advances in mining shares, Granite Mountain going from ten cents to $75 per share, Calumet & Hecla from $1.00 to $900.00, and so on down the list.

CONSIDER FOR A MOMENT

What this company offers—It controls to-day an actual territory of nearly **Three thousand acres of land known to be immensely rich in nicke and copper ores, all in a district known and proven to be sixth among the greatest copper districts in the world.** This company will control at least 2 thousand acres more. In all nearly five thousand acres, which will not be mined out in two hundred years

WE STAND READY TO PROVE

That this company offers to day the most meritorious mining proposition presented in ten years' time.

Write or call for full particulars. All shares registered by International Trust Company, Boston.

International Nickel and Copper Co., Ltd., Suite 93, Journal Building, Boston, Mass.

Nourishing Blood Means Strength

Your are Pale and Weak Because Your Blood is Thin and Weak.

There can be no such thing as health without pure rich blood—no sparkling eyes, clear skin, or active brain.

The very foundation of health and strength lies in the blood, which must be kept free from poisons and impurities.

Nature has no better blood medicine than Dr. Hamilton's Pills, which are composed of such vegetable extracts as mandrake and butternut, known to all doctors for their prompt and healthy action.

If you would drive out disease and increase your force and vigor, take Dr. Hamilton's Pills. You will feel fresher, brighter, and enjoy keener appetite.

She Was Pale and Listless

"Before using Dr. Hamilton's Pills," writes Miss Edith B. Phelps of Woodstock, "I was pale and listless, my color was yellow, and my appetite very poor. To-day I am a different girl, weigh more, look better, and feel improved in every way."

Why not use Dr. Hamilton's too? You'll get that hearty bracing health that thousands and thousands are enjoying because they use this famous medicine. Price 25c. per box, or five boxes for $1.00, at all dealers, or N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Farm Laborers' Excursion

For the Farm Laborers' Excursion on Monday, September 4th, the Canadian Pacific Railway will run a special train, leaving Peterboro at 10.15 a.m. Secure tickets early from W. McIlroy, City Passenger Agent, 343 George street, Peterboro.

The Times Widely Read.

To show the widespread volume of those reading The Times, and the interest taken in it, local as well as foreign news contained in our columns, we might note that in the issue of last Monday appeared an account of the marvellous cures being wrought in cases of tuberculosis, (noting one or two cases, with places of residence, where patients who were seen by a Times reporter) by means of a locally manufactured medicine, put up by Dr. Johnston, V.S. This article was not intended as an advertisement nor did it appear but in our issue, but since the news in question was published, it has been the direct means, as indicated by the correspondence, of eliciting enquiries from a lady at 310 1st street, Fulton, N.Y., from a lady in Penelon Falls, and from a gentleman in Lewiston, N.Y., all of which letters are on file.

Peterborough Business College

Is Larger This Year Than Ever.

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 80 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER.

If you cannot attend our School write for particulars regarding our correspondence course.

W.M. PRINGLE.

Game Warden Should Act.

—The Lakefield News says: We have been informed on reliable authority that pot hunters are at work among the ducks in Lovesick Bay. It is to be hoped that the offenders will be caught and receive merited punishment.

Likes the Union Shop.

Mr. William McGregor, one of the barbers who kept open on Dominion Day, contrary to a resolution passed at the last meeting of the Barbers' Union, before the holiday, paid his fine of five dollars Friday, and the Union card is again displayed in his shop.

New Books at Library.

The following new books have recently been added to the Public Library:—

History of the Pacific Northwest —Schaefer.

And only $10 the round trip from Suspension Bridge, Niagara Falls. For tickets and full particulars call on or address Robt. S. Lewis, Passenger Agent, Lehigh Valley Railroad, 10 King Street East, Toronto.

Mr. G. Fitzgerald Convalescent

The many friends of Mr. Geo. W. Fitzgerald will be pleased to learn that he is progressing favorably since his accident of Thursday last. Mr. Fitzgerald, whilst driving on the Buckhorn road, during a cheese inspection trip, had the seat of his buggy break under him. When the seat gave way it flew up at one side and threw Mr. Fitzgerald heavily to the ground. Fortunately he had a good tight hold on the reins, which, in part, broke the severity of his fall. As it was Mr. Fitzgerald got a severe shaking up and bruising, as well as having a rib broken.

Many Joining L.O.L. No. 80.

Thanks to the strenuous efforts put forth by Organiser Gray, and his committee, Diamond Lodge, L. O. L., No. 80, is having a great boom in membership. Last Friday, before a large attendance, including many visiting brethren, several candidates "rode the goat" through the mysteries surrounding the Lodge, and quite fifty more are expected to join and be initiated next month. With this idea in view, Diamond Lodge has arranged for a meeting on the first Monday and the first Tuesday evenings in September. The members are requested to bear these dates in mind and to be present at the meetings.

License Holders' Protective Ass'n.

Peterboro License Holders' Protective Association will hold a meeting at 2 p.m. on Monday, August 28th, in the Ontario Bank Chambers, for important business. The meeting will discuss ways and means of obtaining the next annual meeting of the Eastern Ontario Dairymens' Association, for next convention for next year and matters of interest to the L. H. P. Association will be discussed. As this meeting will be of great importance, it is requested that there be a full attendance.

J. M. BROOKS, Pres.
A. ROUNTREE, Sec.

Visiting the Old Town.

Rev. R. E. Spence, M.A., B.D., of the Maryland Methodist church, of Winnipeg, after an absence of five years, has returned to the city. He is the guest of his sister, Mrs. H. A. Fife, 77 Harvey street. He is on his wedding trip, having married Miss M. M. Tuck, of Mt. Brydges, August 23rd. Mr. Spence was stationed at Winnipeg last year, and during the year the membership of church and Sunday school doubled, and before leaving the city steps were being taken for the enlargement of the church. The membership at the S.S. last a month ago was 319, and the church has not been built two years. Mr. and Mrs. Spence, after visiting friends in Toronto and London, expects to return to Winnipeg about the 1st of October by way of the Great Lakes.

A Good Local Advertisement.

Perhaps as much interest on Saturday was excited among the thousands of our visitors from the rural districts by the 12-foot high lady, in blue serge skirt, red velvet jacket, surmounted by a blond wig, and appropriate hat, whose name was Mr. W. H. Bowman Billy was followed everywhere by amused lookers of the crowd, and by scores of eager small boys. Mr. Bowman was not out for the good of his health altogether, but was advertising a local clothing concern, and the system of attracting attention to his employer's store is both unique and certain in its results. Mr. Bowman had been engaged by a local company to advertise their goods at the Toronto Fair, but after getting his costume ready and foregoing another engagement, he was on Friday, informed that his services would not be required. A law suit may follow.

—Word has been received from Miss Potter, who has been appointed the new secretary of the Y.W.C.A., to the effect that she will arrive in the city on September 4th or 5th, and will take up her duties at once.

AN EXTRAORDINARY VERDICT BY JURY.

IN THE DRUMMER SHOOTING AFFRAY.

Chas. Gow, Self-Confesses Slayer of Young Hill, Goes Free.

Since our account of the slaying of young T. H. Hill, of Dummer, by a rifle ball, which first passed through his sister's hand, on Thursday night, contained in Saturday's issue, very sensational developments were brought to light Saturday.

Charles Gow, son of Mr. John Gow, one of the most respected residents of Dummer, on Saturday morning not only surrendered himself to H. C. Gun Cochrane as the slayer of young Hill, but gave a full and detailed circumstantial account of the manner and reason of his fatal act.

According to Gow's confession, he was out with the murray and three art boys, mentioned as having been seen by the Hill people on the road, and was driving in a buggy, when they got to the Hill house a shot was fired by one of the Hill family, apparently at the occupants of the rig, when he opened fire with his rifle elevated, at the top of Hill's house to scare away the marksman who was gaping his party, but did not see, or intend to kill the boy.

THE INQUEST.

Saturday afternoon, with Coroner Dr. Gray presiding, an inquest on the dead boy was held.

After a number of witnesses, including two of the sons of Robert Hill, Charles Gow, Edward Dewart, Stewart and William Murphy, and George Gallagher, had been examined, the jury retired, and upon their return brought in a verdict exonerating Charles Gow, the young man who surrendered himself to the authorities, with the confession that he had fired the fatal shots.

The jury empannelled was as follows:

John Wilson, foreman; G. W. Reid, P. Fitzpatrick, Edwin Hamblin, Levi Payne, John W. Lynn, Thos. Doughty, Bruce Douglas, Thomas Clements, William Crowe, John Mouse, Glen. Douglas, John R. Payne, Jas. H. Clifford.

They returned the following verdict:

"We, the undersigned members of the jury, after hearing the evidence, and examining the paths of the bullets, find that Thomas E. Hill came to his death by a rifle fired by some unknown party. We further exonerate Charles Gow from blame in connection.

(Signed) JOHN WASON,
"Foreman."

The evidence, reduced to a few words, was to the effect that Charles Gow and Edward Dewart were driving in the buggy, with William and Stewart Murphy and George Gallagher walking in front of it. That as the pedestrians passed the Hill residence they cheered and a shot was fired at the buggy immediately after the cheering, supposedly by one of the Hill family. Gow fired three rifle shots at random. The Hill boy, in evidence, admitted having brought a rifle downstairs with him.

Other evidence went to show that in the Hill residence are three shot guns, one rifle and a revolver.

The evidence of the five young men was unanimous regarding the incidents of the fatal night.

The funeral of the deceased boy took place yesterday to the Norwood cemetery.

The prisoner, Gow, being exonerated by the Coroner's Jury, was discharged, and Saturday evening came to this city and will possibly leave for Ottawa today, to take part in the rifle matches in that city.

There was much criticism Saturday evening in the streets and hotels, concerning the extraordinary action of the jury in fully acquitting the self-confessed firer of the fatal shot. There will, however, in all probability, be some startling developments in regard to the real slayer of young Hill before many days, as it is likely the Ontario detective force will investigate the case.

Police Court

OFFICIALS
Chief of Police, G.I. Hood
Magistrate, D.W. Dumble

When his Worship ascended the forum on Saturday morning, only one case occupied attention. Nine boys were charged with having made an indecent exposure of person, whilst bathing near the outlet on the canal at Nicholl's. The boys pleaded guilty and eight of them were fined, and paid up $1 each for this infraction of the law. The ninth boy is out at Stony Lake, and on returning will find this little surprise awaiting him.

The Circus was Good

For many months now the small boy can sleep by night, and give over plotting whether to carry water for the elephant or creep under the canvas. The last circus of this summer has come and gone. Norris & Rowe had a fair procession, a good circus performance, and a show singularly free from objectionable features. No complaints were made to the police as to suckers biting at, and being caught on, the grafters' gilded hooks. Just previous to the procession a couple of leather-lunged barkers from the show drove through the principal streets warning drivers of all kinds of vehicles to "Watch your horses, and avoid accidents!" This circus has some very fine horses with it.

Looking for His Wife.

As the crowds were waiting for the parade on Saturday a six-foot high gentleman from the remote rural districts, carrying a 10x12 jag, staggering out of a George street harroom, went up to a prominent local citizen, of unstera mien and tangerine principles, a total stranger to the farmer, and caught him by the arm. As soon as he had steadied himself, the rural delegate said, "Say Mr. have you seen my wife?" In reply to an impatient explanation that the citizen knew neither the man with the jag nor the woman fortunate enough to be owned by him, the farmer, made an attempt which seemed to himself conclusively clear, by saying, "Why Mister, Mary has a red dress on and a basket in her hand, and I got to take her to the show this afternoon. ou don't know where she is, do you?"

Cottagers' Association Meets To-day

As noted in Saturday's issue, the Stony Lake Cottagers' Association, billed to meet on Friday in the pavilion at Juniper Island, was postponed on account of the meagre attendance. The meeting will be held this afternoon at three o'clock and it is hoped there will be a large attendance as matters of importance will be brought before the meeting. It was reported Saturday that the question of a subscription list being offered members for signature to collect funds for the proper protection of Stony Lake summer residences during the winter months, and for a general prosecution of any persons charged with breaking in or theft.

PERSONAL

—Mr. T. A. Kelly, Millbrook, was in the city Saturday on business.

—Rev. Father Kelly, P. P. Douro, was in the city on Saturday and reside. Registered at the Oriental Hotel.

—Bessie Logan, Park street, has returned home after spending a week with her uncle, Mr. Robert Telford Smith.

—The Norwood Register says: Miss Margaret Fraser, of Peterboro, is visiting friends in and around Norwood. Miss Alice Weese, of Peterboro, is spending her holidays at the home of Mr. and Mrs. A. Townsend.

—A. E. Duncan, Cleveland, O.; J. O. Kelly, G. L. Watt, Miss P. E. Fisher, Mrs. Fisher, Toronto; W. G. Heathfield and wife, Buffalo, N.Y.; R. G. Harris, Cleveland; Chas. F. Huff, R. C. Eldridge, Cincinnati, O., are guests at the Snowden.

—John A. Soule, Niagara Falls; J. W. Wood, Sidney W. Band, Fred Davidson, Walter Warren, Toronto; Jas. H. W. Fitzpatrick and T. E. McNew, with the circus, were guests at the Oriental Saturday.

—Mr. and Mrs. W. H. Irwin and Master George, of Wellville, O., who have been spending some weeks with Mrs. Gray, 196 Charlotte street, left for home on Saturday. Mr. Irwin will take charge of the National Gas and Oil Co. offices on his return.

—Mrs. Emerson, Miss Emerson and Miss Flossie, Peterboro, were in town yesterday, the guests of Mr. and Mrs. G. E. Gilbert, Glenelg street.

Local Incidents
BY THE TIMES MAN ON THE STREET.

—Circus day is over till next summer.

—The repairs on the various city schools are now almost complete.

—A Bell Telephone line has been completed from Peterboro to Buckhorn.

—Mr. T. F. Eisdale, of Cambridge University, England, sang a solo in St. John's church yesterday morning.

—Mr. George W. Fitzgerald, Saturday sent 1200 boxes of cheese to Montreal for export.

—$2 more was added to the city treasury for use of the pavement as a bicycle track.

—The chief has two keys for which he wants owners. One was picked up on Saturday.

—The crowds to see Saturday's circus were greater than were attracted by that of Lemon Bros.

—Mr. R. Fair yesterday had the large mirrors put ready for permanently placing in his newly re-built store windows.

—No complaints of pocket picking or other thefts consequent on the circus arrival were reported, nor was a single drunk arrested.

—The Steamer Rainbow yesterday brought up a party of Keene excursionists to the city. They took in the lift lock and other sights of the city.

—Mr. Bedford, of Watertown, N.Y., a talented baritone vocalist, sang during the morning service in Charlotte street Methodist church yesterday morning.

ADVERTISE IN THE TIMES.

Good Boys

Are the bad boys very often. The boy that's good for anything is generally pugnacious. He's a healthy animal, and the healthy animal will always fight for his rights.

When a boy shuns the rough sports of his companions he is apt to be a weakling, and to be conscious of the fact.

A great many mothers have testified to the wonderful curing and strengthening power of Dr. Pierce's Golden Medical Discovery. All strength comes from food after it has been perfectly digested and assimilated. By curing diseases of the stomach and other organs of digestion and nutrition, "Golden Medical Discovery" enables the perfect nourishment of the body, which is thus built up in the only way a body can be built up—by food.

There is no alcohol in "Discovery," and it entirely free from opium, cocaine, and all other narcotics.

"Dr. Pierce's medicine has done wonders for my two sons," writes Mrs. M. Hartrick, of Demster, Orange Co., N. Y. "Both had scrofula. My eldest son was taken two or three years ago with hemorrhage from the lungs. It troubled him for over a year. He took Dr. Pierce's Golden Medical Discovery and has not had one in over a year. My younger son had scrofulous sores on his neck; had two lanced, but has not had any since he commenced to take your medicine."

Dr. Pierce's Common Sense Medical Adviser, in paper cover, sent *free* on receipt of 21 one-cent stamps to pay expense of customs and mailing *only*. For cloth binding send 50 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

RUSSIA WILL NOT HELP ROOSEVELT TO GLORY

Nor Bow to Japanese Yoke in Order to Guarantee American Creditors of Japan--A Russian View of Negotiations.

St. Petersburg, Aug. 29.—The Novoe Vremya says: "The Japanese conditions for peace would only be acceptable if a Japanese fleet was threatening St. Petersburg and if Japanese army was occupying Moscow. Russia will not bow to the Japanese yoke to fulfil President Roosevelt's desire to guarantee the American creditors of Japan and to cover himself with glory as a peace maker. Japan sending peace, seeking it through the intermediary of her friend President Roosevelt, and makes exorbitant demands, while the President is striving indirectly to exact the consent of Russia. After long and fruitless negotiations it would seem that we are on the eve of what Russia has long desired—a great battle between General Linevitch and Field-Marshal Oyama."

Portsmouth, N.H., Aug. 29.—The Associated Press has definite knowledge that several days ago President Roosevelt was authorized on behalf of Japan to waive all claim for indemnity or reimbursement for the cost of the war, and to cede back to Russia the north half of Sakhalin Island, leaving the "redemption price of the same to the arbitration of a mixed commission."

This statement was transmitted to the Russian Emperor through the American Ambassador at St. Petersburg. An Associated Press telegram announced that the Czar's reply was "Partially responsive." There is reason to believe that this proposition on behalf of Japan was not clearly understood at Peterhof, but was supposed to be a revival of the effort of Japan to secure an indemnity under the guise of purchase money for the fraction of Sakhalin.

It is believed the conference which was held last evening between Messrs. Witte and Takahira was for the purpose of clearing up the situation, and it is now not improbable that, following the precedent of its ally, Great Britain, Japan will agree to settle the whole question of the redemption price of Sakhalin as the Dogger Bank troubles were adjusted. The Japanese contention is that Sakhalin Island is de facto Japanese territory, and that Russia has no means at her command for its present recovery. It is understood that M. Witte has accepted this view in principle, and expressed the judgment that Russia should pay something in the nature of redemption money. It is believed that the Tokio Council, which is in session this morning, is considering this phase of the question.

A BIG SEIZURE OF SMUGGLED CIGARS

Montezuma People Search the Vessel Themselves and Make a Haul

TO STOP MEN SMUGGLING

Nearly Four Thousand European Cigars Were Found and Reported to Customs Officers.

Montreal, August 28.—The smuggling on the Canadian Pacific steamship line, which touches Antwerp as well as London, is still going on, but it will not continue much longer.

Ever since the day that Special Officer O'Grady, of the Preventive Department of the Dominion customs service, made the seizure of cigarettes, which was reported at the time, the local customs officials have been on the watch for the Canadian Pacific Railway steamers.

The Montezuma, of the Canadian Pacific Railway line, arrived yesterday, and as usual the customs officials were on the watch. They had made a small seizure about a week or ten days ago, on one of the ships of the line, and judging by previous experiences, they were almost convinced that they would find some more contraband on the next steamer.

The Montezuma was the next steamer to come in and they were disappointed. So were those of the members of the ship's company who had expected to make a profitable little deal out of the things which they had brought with them to Canada unknown to the ship's officers.

Taught by the events that had taken place, the officers of the Canadian Pacific line had made up their mind to prevent a renewal of the occurrences, which had brought them in unpleasant contact with the customs authorities.

The only way to do this it seemed was to set as their own customs officers, and this to the surprise of the crew was done on the Montezuma.

The customs authorities have a peculiar term for the act of searching a vessel.

They call it "rummaging," and this time the company decided to do the "rummaging" themselves.

Perfectly familiar as they are with every nook and corner of their vessels, they were more successful than even the customs officers would have been, and the result was most gratifying.

The men who were responsible for the smuggling were the most surprised of any. They naturally expected to take chances of a thorough overhauling by the customs people, but they never expected that the company's officers would make a search, and as the result a seizure of cigars was made which compares very favorably with any seizure of the same kind ever made by any officers of the port of Montreal.

A BIG SEIZURE.

Between three thousand five hundred and three thousand eight hundred cigars were seized, cigars which, if the duty were paid on them, could not be sold for less than fifteen cents a piece.

There is a certain time limit which must be observed before the Government officials can search a vessel, and before this time limit expired the Canadian Pacific Railway steamer officers reported to the collector that they had nearly four thousand smuggled cigars on board, and detailed the manner in which they had discovered the fact.

The company, according to the decision made by the authorities, will again export the cigars, when the Montezuma goes back, they having been put under seal, and the members of the ship's company responsible for the smuggling will be severely dealt with.

It is expected that this seizure, made by the steamship company itself, will virtually put a stop to smuggling on the part of its employes at least.

This sort of smuggling is a very serious matter to any steamship company, because not only is the company liable for any penalties, but the vessel in which the contraband goods are found is liable to seizure and detention.

STILL A MYSTERY

Mr. Dewart Talks Concerning the Hill Murder in Dummer

A Times representative, yesterday, learning that a nearby neighbor of the Hill family in Dummer, where the fatal shooting took place last week, was a guest at the Museum House, took advantage of his presence in the city to ascertain what the majority to ascertain what the neighbors in that locality think of the verdict acquitting Gow, the young man who acknowledged firing several shots at the house, where young Thos. E. Hill was slain.

Mr. James Dewart, the gentleman interviewed, is a brother of Edward Dewart, one of the party with Gow when the tragedy was enacted. He seemed quite willing to answer any questions asked, but with the semi-secretive attitude commonly among dwellers in remote districts rather reframed from giving a comprehensive outline of the whole details of the affair. Mr. Dewart evidently considers, judging from his answer to questions asked by our reporter, that there is much more unwritten about the real truth of the affair than has yet been published. He says that whilst the Hill family are far from being universally popular in the neighborhood where he lives, and are actually at variance nd not on speaking terms with some of those comprising the party with Gow that night, that there has been no ill-feeling between Gow and any of the Hill family, Mr. Gow living at some distance away. He does not seem to think that Gow fired the shot which killed the boy, but that, if the party who fired the fatal shot could be discovered, such party would be located very near the Hill residence. He said that the ball which killed young Hill was from a 38-55 calibre Winchester whilst the gun that Gow used that night was a No. 44 Marlin.

Judging by his remarks, Mr. Dewart seems to think that the neighbors consider the jury's verdict was in accordance with evidence given at the coroner's inquest, but that others, besides himself, think Gow did not fire the fatal shot. There will likely be some startling revelations before many days.

Doukhobors in Liverpool

London, August 28.—The party of Doukhobors waiting in Liverpool for shipment to Canada are living in the foreign quarter of the town. The Mirror's correspondent states that 140 have been placed in two houses, as many as twenty occupying one bedroom.

THE GRAND TRUNK PACIFIC TERMINALS

Strained Relations Between the Government and the Company

THE WINNIPEG STATIONS

The Company are Disposed to Do What They Please and Union Station is Off

Montreal, August 28.—It is said in Winnipeg that strained relations exist between the Government and Grand Trunk Pacific Railway over location of Winnipeg terminals. While it was practically agreed first that the Government should select terminals, the Grand Trunk Pacific Company has become somewhat unsettled of late, and proposes to have terminals located where it desires.

In the meantime the Canadian Northern Railway, which has been waiting on the Government and Grand Trunk Pacific to arrive at some decision which may result in having a union depot, is tied up and while its plans are practically ready, it cannot proceed with construction.

It is said that the Government is held under obligation by some of its strong supporters to place terminals in one location, while the railway company has its own ends to serve by placing them in another.

The Transcontinental Railway Commission will take up this problem at its approaching meeting.

Mr. F. W. Morse, of the Grand Trunk Pacific, and Mr. William MacKenzie, of the Canadian Northern, are now on their way to city, so that it is likely an agreement will be arrived at when they meet.

BOARD OF HEALTH

Meeting Discusses Nuisance Caused by the Barnardo Home

A meeting of the Peterboro Board of Health was held yesterday morning in the room back of the city clerk's office.

Those present were, Messrs. Eyres, chairman pro tem., Parker, Dr. C. Burnham, Dr. McNulty and Dr. Bingham, Health Officer. The minutes of the last meeting, held on Feb 1st, were read and confirmed. The chief of police being called upon, made a report that, some time ago, complaints had been made of the lack of sewerage facilities for the Barnardo Home, and residents to the west of it. He also read a letter from a prominent citizen living to the east of the Barnardo Home, in which the writers complained that at times his windows had to be closed owing to disagreeable odors arising from the sewerage leaking from the cesspool used by the Barnardo Home, which actually came through the ground back of his residence.

The chief explained that plans had been made by the city engineer for a sewer some time ago, but the accomplishment of the construction had been blocked by parties whose property would face on the sewer proposed and who opposed the expense it would put them to.

The chairman read several sections of the act defining the powers and privileges of local boards of health.

The chief explained that he had called up the Barnardo Home and they promised to remedy the matter at once. A member moved that Barnardo Home be requested to remedy the nuisance of their cesspool.

He further moved that the city engineer be instructed to take into consideration and report in a week's time, on the sewerage from Barnardo Home and proprietors to the west of it. Another member brought before the meeting a report that the Lakefield House, formerly known as the Ornig House, was building a sewer to empty the hotel sewerage direct to the river, our source of drinking water. It was moved that the hotel proprietors be ordered to stop building their sewer and that the Provincial Health authorities be communicated with. The meeting then adjourned for one week.

BRITAIN'S NATIONAL SAFETY

Wheat Should be Stored in England Says Mr Yerburgh, M.P.

London, Aug. 29.—What the country requires for national safety is that some arrangement should be arrived at by which the American and Canadian farmers should store their wheat here instead of storing it on the other side, and let us have small quantities as we want it."

In these words Mr. Yerburgh, M. P., refers to the report of the Royal Commission which has been investigating the question of the nation's food supply in war time. It was to Mr. Yerburgh's initiation that the appointment of the commission was chiefly due.

"It has often been said that British wheat being naturally damp will not keep for any length of time, but I disproved this some time ago by buying British wheat and sending it to Berlin, where it was dried by a special process," said Mr. Yerburgh.

"That wheat kept excellently for two years and made first rate flour. I have frequently advocated the use of this drying process among farmers in England, but without avail. It is obvious that the country must depend largely on America and Canada for wheat, and I cannot see the advantage of an acreage bounty for wheat-raising at home. The soil might not be suitable. It would be far better for the Government to have large stores of wheat under its control, and to know just where to lay hands on it in case of an emergency."

THE ATLANTIC MAIL CONTRACT

The Government is Said to be Undecided as to its Future Course

ALLANS WANT EXTENSION

Present Contractors Said to be Seeking An Extension for a Period of Ten Years

Montreal, Aug. 29.—Messrs. Hugh and Andrew Allan, of Montreal were again in Ottawa on Friday urging upon the Government the advisability of extending the trans-Atlantic mail contract with the Allan Steamship Company for a further period of ten years. The present contract expires next spring, but the Messrs. Allan consider that their enterprise in placing the two fast turbine Victorian and Virginian, on the Atlantic route should receive recognition in the shape of a more permanent arrangement with the Government for carrying the mails. They are prepared on their part, if granted extension, to make still further improvements in the mail service. On the other hand, the C.P.R. has under construction a couple of very fast steamships, and have intimated that they will be prepared to tender for the mail service upon the expiration of the present contract with the Allans.

The Government is, therefore, undecided as to what action should be taken upon the proposition of the Allans.

WRONG SORT

Perhaps Plain, Old Meat, Potatoes and Bread May Be Against You for a Time

A change to the right kind of food can lift one from a sick bed. A lady in Weldon, Ill., says:

"Last Spring I became bed-fast with severe stomach trouble accompanied by sick headache. I got worse and worse until I became so low I could scarcely retain any food at all, although I tried every kind. I had become completely discouraged, had given up all hope and thought I was doomed to starve to death, till one day my husband trying to find something I could retain brought home some Grape-Nuts.

"To my surprise the food agreed with me, digested perfectly and without distress. I began to gain strength at once, my flesh (which had been flabby) grew firmer, my health improved in every way and every day, and in a very few weeks I gained 20 pounds in weight. I liked Grape-Nuts so well that for 6 months I ate no other food, and always felt as well satisfied after eating as if I had sat down to a fine banquet.

"I had no return of the miserable sick stomach nor of the headaches, that I used to have when I ate other food. I am now a well woman, doing all my own work again, and feel that life is worth living.

"Grape-Nuts food has been a god-send to my family; it surely saved my life and my two little boys have thriven on it wonderfully." Name given by Postum Co., Battle Creek, Mich.

There's a reason.

Get the little book, "The Road to Wellville," in each pkg.

OFF FOR BRANTFORD

Committee to Inspect Fire Engine Left Last Night

Yesterday evening Aldermen Johnston and Hicks and Chief of the fire brigade Rutherford, left for Brantford to inspect the fire engine now possibly to be purchased by this city. They will likely be joined this morning by City Clerk Armstrong. After completing their work of inspecting thoroughly the engine in question, they will proceed to London. This same committee has been authorized to represent the city at the Ontario Municipal Association in Toronto on Thursday and Friday of this week.

Although the gentlemen mentioned have gone on the city's business, they are not the committee originally nominated, which comprised Mayor Best, Ald. Hall, Hicks, Johnston and City Clerk Armstrong. Owing to the inability of all the committee to get away, the changes indicated in personel were made.

THE DOCTORS' POSITION

Prominent Official of C. G. E. Company's Society Gives His Opinion

An officer of the Canadian General Electric Company Employees Mutual Benefit Society is reported to have said, in speaking of the present attitude of the local medical objection to doing lodge or society work,

"I do not think anything will come of the doctors' movement. At least we have again engaged Dr. Young to attend our members and to furnish free medicine. All our men are strongly opposed to doctors' movement and will not stand for higher prices. We pay a certain sum per month and that pays for medical attendance and for medicine. Besides ourselves there are scores of lodges in the city with hundreds of members who cannot afford to pay the doctors regular charges and they will all rebel. I think when the doctors realize the proposition they are up against and see the number of men they have to fight they will drop the matter and continue in the old way with the lodge doctors.

Police Report on Anarchism

St. Petersburg, August 29. — The police department has drawn up a report of the disturbances among the Letts in the Baltic provinces, which, of late, according to the report, have assumed an anarchical character.

NO QUORUM

Hotelmen's Meeting, the Dairymen's Convention a Frazzle

Yesterday afternoon there was to have been a meeting in the Ontario Bank Chambers at two o'clock of members of the Licensed Holders' Protective Association of Peterboro to consider ways and means of securing the next annual meet of the Eastern Ontario Dairymen's Association. As is known by our readers Belleville has already offered $400 to secure this convention for next summer, and that the City of Peterboro has offered to grant $150 provided the hotels increase their present offer of $100 to $150.

The interest proposed raising $150 between them towards getting the dairymen here; it was for discussing this object, as well as conferring with Col. Sharpe, representing the Oddfellows concerning their meeting of the Grand Lodge, I.O.O.F., here next summer, that yesterday's meeting was called. Of the twenty odd License Holders only five appeared, viz., Messrs. Brooks, Lawless, Dunn, Conroy and Munroe. These gentlemen waited until 3 o'clock but as not enough to form a quorum showed up, they dispersed after thanking Col. Miller for coming and Mr. E. M. Elliott, who came to represent the dairymen.

It seems strange that the hotelmen, who were aware of the importance to both the city and themselves of securing the dairymens meeting should not have taken more interest in the matter and attended the meeting. Mr. Arthur Rountree, secretary of the Association, tried to drum a quorum but without success.

FROM BAD TO WORSE

Winnipeg Defaulter Becomes Desperate Character in Old Mexico

Winnipeg, August 29.—Cecil Branson, the young man who defaulted from the Union Bank, this city, with $5,000, will not be brought back from Mexico, where he fled, on extradition application. A. E. Ross was sent to Mexico to bring the prisoner back to Winnipeg, but on arriving at Tapaschula, State of Chiapas, Mexico, learned that Branson had already been sentenced to a penal term of fifteen years for robbery under arms.

The Winnipeg clerk became a desperate character in Mexico. The robbery was committed in Tapaschula, and the victim was a jeweler, Juan Loukola. On the night of April 17 Branson and Jorge White, with a woman accomplice, Victoria Coronado, forced an entrance to the jeweler's shop, who, when he resisted, was beaten into insensibility with the butts of their revolvers, and was tied and left for dead. He was discovered next day and liberated. Both men were convicted, but the woman was set free from lack of evidence.

CONFESSES TO POISONING HUSBAND

Doctors Had Diagnosed Death as From Indigestion

Buffalo, August 29.—Mrs. Carrie Hoser, widow of John A. Huner, the former proprietor of a small east side dry goods store, today walked into the William street station and told Captain Regan that she murdered her husband.

Huner died yesterday after an illness of several weeks. The cause of death had been diagnosed as acute indigestion and heart disease. Mrs. Huner told the police today that she had given her husband a dose of carbolic acid.

"I'm sorry I killed him," she said. "I don't know why I did it. I wish I was dead myself."

THE CROWN ACTS

County Crown Attorney Wood Takes Action on Hill Murder

County Crown Attorney Wood, who represented the Crown at the coroner's jury, which brought in no less severe criticism a verdict on the murder of T. E. Hill, the boy shot to death in Dummer last week, yesterday fired the first gun towards the destruction of any such absurd action as allowing the murder to pass unchallenged, or to let the slayer of the lad go undiscovered and unpunished. He yesterday laid all facts of the case before his department in Toronto, together with copies of the evidence.

He will await instructions from the department before taking further action. Mr. Wood says it is possible that the Attorney-General may institute proceedings or the latter may instruct him to do so. In that case, Mr. Wood says that a charge of manslaughter might be laid against Charles Gow, who was exonerated by the jury and left on Saturday night for Ottawa where he is attending the D. R. A. meet at the Rockcliffe rifle ranges.

Asked yesterday if he did not think the verdict of the coroner's jury was a rather unique one, Mr. Wood admitted that it certainly was rather strange and peculiarly worded. He added that all the jurors were representative men, who do not reside within the immediate vicinity of the tragedy, but a distance from six to twelve miles away. They were selected from a distance in order that they might not be open to the charge of local prejudice or any feeling against the Hills. Mr. John Wasson, the foreman, is one of the wealthiest and most respected men of the township of Dummer, while Mr. Reid, another member, has been a progressive merchant of Warsaw for many years. The other jurymen were equally well known and were much respected. Mr. Wood points out that the three boys—Stuart Murthy, William Murphy and George Gallagher, who did the shooting near Hill's place, were only 15 and 18 years of age and evidently had no idea of attacking the Hill homestead or creating a disturbance that would terminate in murder. Gow, who did the shooting, was an estimable young man, highly spoken of by all and was captain of the rifle company at Warsaw.

Neither Dr. Gray, the coroner, nor High Constable Cochrane will take any further action in the matter until advised by the attorney-general.

VEIL LIFTED ON ELECTION BEHIND THE SCENES

A Glimpse of Ugly Conditions in New Ontario Contest--Liquor Licenses Promised and Money Paid in Return for Votes.

Toronto, Aug. 29.—If a tenth of the charges made by the rival candidates in the last Provincial election of payment by the Preston and Bell in Port Arthur and Rainy River district are true, the riding must have been fairly flooded with liquor and bank notes.

At Osgoode Hall this morning the particulars of the charges were filed for the trial on Sept. 11, H. H. W. Kennedy is the Liberal member and Wm. A. Preston was the defeated Conservative candidate. Cash considerations, plentiful supplies of liquor and other refreshments, promises of jobs, tavern licenses, and timber limits, and the payment for rigs for the conveyance of voters, make up the bulk of the accusations against both.

Preston charges that 26 men, whose names have a decided foreign sound, voted in spite of the fact that they were not British subjects. He alleges that three men—Jack Ely, Leo Bolduc, and J. E. Marks—voted without certificates, that P. Musgrave received money, and that Alonzo Sutherland and Berkeley Bays were promised tavern licenses, and afterwards received money. He asserts that Thos. Chambers was promised a road grant in consideration for his vote and influence. He swears that Joseph J. Martin distributed liquor at Sutherland's boarding house before the election, and that Alex. McFadden was furnished with liquor and money to influence votes.

Then Preston gets after several Liberal workers, and swears that Dr. Campbell and M. J. Kenny of Fort William went to Sutherland's boarding house and brought money and liquor there to influence voters to mark their ballots for Kennedy.

A long list of minor charges follow.

AGAINST THE CONSERVATIVES.

Kennedy's charges against his opponent are just as long, but he goes out of the ordinary by alleging that an agreement existed between Preston and the lumber company, of which he was manager, to the effect that the company was to give the candidate money for his campaign, and afterwards reap its reward in timber limits when the Conservatives got into power. A few of the charges are as follows:

1. That Preston personally procured payment by the Preston and Bell Lumber and Furniture Co., of which he was manager, of $10 to George E. Parkinson of Fort Frances, on Jan. 24, 1904, to influence the latter to vote for him, and that Preston repaid the money to the firm after the election.

2. That Preston procured the said company to send to Winnipeg for one William Preston to come to Fort Frances and vote for him, and to pay his expenses, and also a sum of money for so doing. Also that Preston afterwards returned the money.

3. That Preston had the company pay George Elliot and his expenses to go from Minnesota to Emo to vote for him.

4. That Preston repeated this in the case of Edward Davis, sometimes known as Teddy Reid, of Winnipeg.

5. That Preston had the company pay A. E. Marks of Rainy River several sums of money to vote for him and influence others to do so and that a check for $100 was one of the amounts. Also that this was repaid by Preston to the company.

6. That Preston got Marks to pay certain sums to Kenneth Campbell to influence his vote.

7, 8, and 9. That Preston got company to bring John Boyd, Albert Duggon, and Isaac Howe from Rainy Lake to Fort Frances and paid them money and expenses to vote dor him.

10. That Preston paid Edward Pardon to take a sleighload of men 40 miles to Fort Frances to vote for for him.

11. That Preston made an agreement with the company by which it advanced him large sums of money to be used corruptly in the election and that he was to repay the company by obtaining timber licenses and Government concessions for it.

12. That Preston got Porter Elliot, a lumberman, to take his men to vote for him, and pay them with money and liquor to do so.

13. That Preston promised a tavern license to Eugene Leforce of Fort Arthur to influence his vote.

There are a host of others to the effect that Preston promised jobs, grants, and licenses to various people.

TELEPHONE TALKS.

TO TELEPHONE USERS AND THE GENERAL PUBLIC,—

A witness made the statement before the Parliamentary Special Committee that, "It is an undoubted fact that municipal telephony is rapidly gaining ground in Great Britain."

An Act was passed by the British Parliament in 1899 which enabled municipalities to provide telephone service. In six years just six municipal telephone plants have been established and one of these has sold out its plant to the National Telephone Company under an agreement which permitted the company to increase the rate charged by the municipality by about fifty per cent.

Of the municipal exchanges in Great Britain, Glasgow is invariably cited as the most successful. In fact the representative of Glasgow corporation who gave evidence before the Special Committee stated that theirs was really the only opposition which the National Company has in the Kingdom.

The telephone situation in Glasgow can be summed up in two statements which are indisputable. Add together the number of subscribers to both the municipal exchange and the National Company's exchange (including the duplicate services of 5000) serving a population of 1,200,000, the two services combined have a telephone per 35 of the population. In Canada the Bell Telephone Company has in Montreal and suburbs, one telephone per 22 of the population; Toronto and suburbs, one telephone per 17; Winnipeg, one per 11; and in thirty-one cities and towns of over 7,000 population we have an average of one per 21 of the population. The municipal telephone in Glasgow after three years' operation has only one telephone to about 100 of the population served, and they are now practically at a standstill. No such meagre service exists in Canada.

The Municipal Telephone in Glasgow has a flat rate of £5 5s for both Office and Residence. The National Company has a flat rate of £10 for both Office and Residence. Both systems have also a limited service rate. After three years of the most determined competition, the Municipal Service has less than 13,000 subscribers and is increasing only about 80 or 100 per month, while the National Company has over 21,000 subscribers, and is increasing at the rate of 500 to 600 per month. Of the 13,000 subscribers to the municipal exchange, at least 5,000 have the National Company's service as well. This result is in the face of the utmost obstruction of the National Company in its operations by the City Council of Glasgow, which has refused the National Telephone Company the use of any of the streets in the city.

THE BELL TELEPHONE COMPANY OF CANADA.

Pale and Anxious

Your Countenance Indicates the Body's Awful Struggle for Health.

Impossible to work or think clearly when there is no reserve of vigor, no nourishment in the blood, no supply of nerve energy.

The life of the half-sick man is pitiful, in fact, almost criminal, when bounding strength is so quickly derived from Ferrozone.

This nutritive tonic is guaranteed to strengthen all men, women and children. Weak organs get new force, vital energy is generated, Muscle and fat are added, healthy color is restored and the blood fairly tingles with new-found life.

Read the evidence of Jno. Carter, of 41 King St. East, Toronto, who says:

"After a severe attack of dripps my health was almost shattered. I suffered constantly from nervousness and dyspepsia. At night I would waken with terrible palpitation and heart pains. Work became a great effort. At last in the morning I was so tired and weak I could hardly work another minute.

"Then came a bad attack of rheumatism which laid me up in bed. I could scarcely lift the weight of a pound and to stoop or bend was impossible. My druggist recommended Ferrozone, and he knew what he was talking about, for it rebuilt my strength, gave me abundant appetite, better blood, and new nerve energy. The rheumatism has disappeared. I weigh more, feel refreshed and vigorous, and am able to work ten hours a day. Ferrozone did it all."

You will be steadied, toned and strengthened for all time to come with Ferrozone. Get the genuine in 50c boxes or six for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U.S.A., or Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterboro are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year strictly in advance.

THE UNITED STATES TO ACT AS EUROPE'S BAILIFF

President Roosevelt has been given an exposition of the Monroe doctrine which as he said, although not recognized as a part of international law is yet held to be the settled policy of the United States.

He explains the working of the Monroe doctrine as follows: It forbids the entrance of any European power on this continent. In order to effectually carry out this exclusion the United States must not allow any European Power to seize any portion of the soil, or resources of any American country whatever may be the provocation or purpose of such seizure.

By this rule any European Government will not be allowed to assist the creditors of any American Republic in securing payment of their claims by taking forcible possession of some part of the defaulter's territory, or threatening to do so.

This was done by England and Germany when the Venezuelan Government set its British and German creditors at defiance. It will be remembered that President Cleveland nearly brought on a war by coming to the defence of Venezuela against its European creditors, who had the audacity to demand payment of what was due to them!

President Roosevelt has sense enough to see and acknowledge that if the United States forbids an European Government from collecting its claims on an American State, it is bound in honor to give assistance to the creditors itself. In plain English if the United States forbids an European government putting bailiffs, as it were, into possession of the premises of an American Republic, it ought to act as bailiff, or sheriff and enforce payment of the European's claim.

The situation thus created is unique. It puts the United States under the indignity of acting as a professional bailiff in the employ of European governments. How Uncle Sam will care to be known as following this necessary, but somewhat humiliating calling, we are unable at present to judge, but it is a very sad result of the swagger of the Monroe doctrine that it compels the United States to do very dirty work for the Governments of Europe.

LURE PASTOR AND ROB HIM

A Cleveland Trio Attempt a Daring Game

Cleveland, O., August 29. — Upon entering a house to which he had been called to attend a person said to be critically ill, Rev. Benedict Rosinski, of St. Stanislas Catholic church, was early today set upon by two men and a woman and robbed of $1,000 in cash and two cheques for $500 each.

The police have made three arrests in connection with the case.

Rev. Rosinski says he received two telephone messages on Thursday urging him to call upon Jennie Olenski, of 349 Cedar avenue. He had been there but a few moments when Julian Tussynski rushed in and declaring him to be the woman's former, demanded that the priest give up $4,000 for attracting her affections. Willie Tussynski was then Czechomski, both of whom, according to Rosinski's story, started at once to beat him and tear his clothes from his back when he refused to give them any money.

His jewelry was taken from him as well as $30 and he was detained as a prisoner for 24 hours without food or drink, while he consented to sign the cheques and notes. The cheques were cashed by Tussynski and the woman, it is said. Upon their return with the money, the priest says he was released.

The two notes and $819 were found under the carpet in the woman's room. They are charged with robbery and were bound over to the grand jury.

HAS FIFTY WIVES

Bigamist Arrested in New York Has Swindled Many Women

New York, August 28.—Dr. George A. Witzloff, a suave talker and of refined appearance, about 40 years old, is sought by the police on several cities on a charge of bigamy. The police declare that the record of Witzloff as a bigamist is larger and more daring than that of Bluebeard Hoch, the convicted Chicago bigamist and wife murderer, now awaiting death.

"Witzloff has 50 wives scattered in all parts of the United States," said a lawyer, "and before we get through with him it will be shown that he operated by systems. He swindled his numerous wives out of amounts ranging from $100 to $10,000. A large number of these women will not appear or prosecute Witzloff, fearing the notoriety attached to the scandal."

District Attorney Jerome has taken the case before the grand jury and an indictment for bigamy was found against the doctor. The detective bureau has sent out an alarm for the arrest of the wholesale love-monger.

WHERE ANARCHY IS ACTIVE

Illuminating Summary of Attempted Outrages in Baltic Provinces

St. Petersburg, August 29. — The police department has drawn up a report of the disturbances among the Letts in the Baltic provinces, which, of late, according to the report, have assumed an anarchical character.

Within four months, in towns in the Province of Courland and Livonia, there have been four attempts on the lives of officials, four attacks on private persons, six attempts against the lives of police officers, three attacks on Cossack patrols and two cases in which bombs were thrown. At Riga an attempt was made to set fire to the powder stores in a cartridge factory.

BAPTISTS COMMEND BURNING

Law Abiding Negroes in Favor of Lynch Law.

Dallas, Texas, August 29. — The burning at the stake of Tom Williams, a negro, for attacking a white woman, was commended at the state convention of negro Baptists here yesterday. Rev. Mr. Jackson, of Dallas, declared that if any action was taken by the convention in reference to the lynching a resolution should be passed commending the whites. Other pastors asserted the negroes aided the whites in the capture of Williams. Every law-abiding negro was said to be in favor of lynch law in cases of the kind.

The convention refused to pass resolutions denouncing the burning.

Japanese Concentrating

St. Petersburg, August 28.—A despatch from Guntzuling, the headquarters of the Russian army in Manchuria, says that the Japanese are concentrating at Litatsi, in the valley of the rivers Tzin, Khoun, and Goumain, whence 10,000 of them are advancing in a northerly direction.

BRILLIANT RECORD OF A NEWSPAPER MAN

The success which has attended William E. Curtis, the famous correspondent of The Chicago Record-Herald, is rarely attained by newspaper writers. Beginning his career in Chicago in 1872 as reporter, he rapidly rose to the position of managing editor. He resigned that position on receiving a government appointment as secretary of the South American commission. Mr. Curtis travelled extensively in Central and South America, while in this position, producing several popular volumes as the result of his literary labors. Afterwards co-operating with Secretary of States James G. Blaine, Mr. Curtis organized the work of the bureau of American republics, with the result that he was placed in charge of that organization, and at the World's Columbian Exposition he distinguished himself by his labors as the executive head of the Latin-American department. As correspondent of the Chicago Record Herald Mr. Curtis' travels have carried him into every section of the United States as well as into all quarters of the globe. His China and Japan letters were published in book form; likewise has letters from England, Germany and France, as well as those written during his travels in Mexico and South America.

No newspaper correspondent possesses the facility shown by Mr. Curtis in writing on any of the diversified subjects embraced in his correspondence, and making it luminous. Nor is any correspondence followed so closely year after year by the thousands of readers of the Chicago Record-Herald. On his recent trip to the Holy Land Mr. Curtis' letters have been read more closely than ever, and his descriptions of that interesting section of the globe as it appears to-day have been quoted everywhere.

A daily letter from Mr. Curtis appears in the Chicago Record Herald.

Ayer's Sarsaparilla. Your doctor will tell you why he prescribes it for thin blood, weak nerves. He will explain why it gives strength, courage, endurance. Sold for 60 years. J. C. Ayer Co., Lowell, Mass.

NAVIGATION

RICE LAKE AND THE OTONABEE WATERS

Calcutt's Line of Steamers

Time Table for June, July and August, 1905

Commencing Thursday, June 1st the

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate; receive authority for some one to make entry for him. A fee of $10 is charged for a Homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 20 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 40 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive at the Immigration Offices in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulation above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

OVER THE

WABASH

TO

The Great Lewis & Clarke Centennial Exposition, Portland, Oregon

June 1 to October 15, 1905

How to Visit Colorado

Go first to Denver. It is the State capital, as well as the largest, wealthiest and most metropolitan city between the Missouri River and the Pacific Coast. The city itself is very interesting, and from it start practically all the trains over the various roads into the mountains.

Many of the most enjoyable one-day trips in Colorado begin and end at Denver. The cost of these little journeys is not great.

After you have familiarized yourself with Denver and its surroundings will be soon enough to decide where to go for the rest of your visit. The question must be considered from several standpoints—altitude, hotel accommodations, accessibility, amusements, etc.

Our Colorado literature will help you in deciding where to go and what to do. Sent free for the asking.

Pacific Coast Tours

If you've been planning a western trip and held off for a favorable opportunity, this summer's the time to go. Choose your time—choose what you shall see—choose your route, but by all means see that you're ticketed via Rock Island System.

We have several routes—via El Paso, via Colorado or via St. Paul and Minneapolis. Very low rates June to October—all important Pacific Coast points: Los Angeles, San Francisco, Portland, Seattle, Vancouver.

Visit California or the Pacific Northwest—less than one fare to either section, slightly more if you visit both.

Alaska is but a step beyond, and reached at slight additional cost.

Popular Golden State Limited in service the year 'round. Less than three days Chicago to California.

Use coupon below if interested.

Rock Island System

STRICTURE AND KIDNEY DISEASE CURED.

G. E. WRIGHT.

"I had stricture for eleven years. It finally brought on Bright's Disease of the Kidneys. I had an uncomfortable aching pain in the groin and feeling as though something was in the urethra. My back was weak and I could scarcely stoop over. Urine was full of sediment. Had a desire to urinate frequently. Family doctor, so-called specialists, patent medicines, electric belts, all failed. I was discouraged. I had spent hundreds of dollars in vain. Finally I consulted Drs. Kennedy & Kergan as the last resort. I had heard a great deal about them and concluded from the fact that they had been established over 25 years that they understood their business. I am delighted with the results. In one week I felt better and in a few weeks was entirely cured. Have gained sixteen pounds in weight."
G. E. WRIGHT, Lansing.

ESTABLISHED 25 YEARS.
CURES GUARANTEED OR NO PAY.

HAS YOUR BLOOD BEEN DISEASED?

BLOOD POISONS are the most prevalent and least understood diseases. They sap the very life blood of the victim and unless entirely eradicated from the system will cause serious complications. Beware of Mercury. It only suppresses the symptoms—our NEW METHOD positively cures all blood diseases forever.

YOUNG OR MIDDLE-AGED MEN.—Impediment, sore or fever-sores on head, have fallen down your system. You feel the symptoms stealing over you. Mentally, physically and sexually you are not the man you used to be or should be.

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you any weakness? Our New Method Treatment will cure you. What it has done for others it will do for you. CONSULTATION FREE. No matter who has treated you, write for an honest opinion Free of Charge. Charges reasonable. Cor. Michigan Ave. and Shelby St., Detroit, Mich.

The Glenara Gold Mining Co.

Capitalization, 1,500,000 Shares — Stock Fully Paid and Non-Assessable
Par Value, $1.00 Per Share. — Treasury Stock, 700,000 Shares.

This Company was organized in March, 1906, under the laws of Arizona, with a capital of 1,500,000 shares. The par value of these shares is $1.00 each. They are full paid and forever non-assessable. The Company owns approximately seventy-five acres of territory in the Goldfield district. By reference to the map you will note that every acre is within the producing area, and with the systematic development this large acreage is to receive, there is no doubt that the stockholders will very shortly see the Company on a producing basis.

We desire to say right here that this Company is organized for legitimate mining, and not stock jobbing purposes, and among the directors are some of the best known mining men in the West. It is their one desire to make the GLENARA GOLD MINING COMPANY a great success at the earliest possible moment.

It is for the purpose of raising funds to vigorously develop the Company's holdings that some Treasury stock is now offered for public subscription. Out of a capitalization of 1,500,000 shares, 700,000 shares have been placed in the treasury. This treasury reserve insures the Company a large working fund, if needed. It is the belief of the management, however, that it will not be necessary to dispose of over 50,000 shares of the treasury stock. The present outlook is such that the management believes that the mine will be on a paying basis before many weeks have passed.

The Property of The Glenara Gold Mining Company Consists of the Following:

The Glenara Group consists of four claims located in the Goldfield mining district of Nye County, Nevada. These claims are known as the Kentucky Bell, Mabel M., Lone Jack and June Bug, covering about seventy-five acres. This group of claims is located on a system of ledges over a mile and a half in length and about half a mile wide. These ledges are the same as those traversing the Kendall, Tonopah Club, Vernal, Quartzite, Black Butte, New York, Brooklyn, Jumbo, Vernal, Penn and Federal.

The surface indications at the time of location were of the very best, however, good float being found upon the ground and good pannings are obtainable, all of which indicate that the property can be developed into a paying proposition. The ground has been thoroughly prospected and the sinking of the shaft begun on the Kentucky Bell claim. There is a force of men sinking a shaft as rapidly as possible. Good ore has been encountered running from $8 to $18 per ton, increasing in value with depth, and it is safe to say that a strike may be looked for any day.

Taken as a whole, the investment offered by the Glenara Gold Mining Company is equal to any prospective company in the district. The claims are exceptionally well located, covering a large area; the management is conservative and honest, and is working hard for the success of the company.

The proposition will stand the very closest investigation, and, in fact, an investigation by prospective investors WILL MEAN AN INVESTMENT. WE COURT INVESTIGATION.

The allotment of stock is very small, and if you desire to become interested with this enterprise, it will be necessary for you to communicate with us at once.

The work on the property is being pushed to the utmost, and any day may bring news of a strike which will advance the price of the stock.

For prospectus and full particulars, address

R. H. B. WARBURTON, Fiscal Agent,

Office, 322 McPhee Building. DENVER, COLORADO

APPEARANCE

Is such an important feature on the table. It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table.

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

THE BEST YET!!!

We have given our clients some good things in mining stocks during the past two years, but we believe one of the best propositions we have ever handled is

DILLON OIL MINING & DEVELOPMENT CO'Y., OF CANEY, KANSAS

PARALLELING THE CANADIAN PACIFIC

Protest Against the G. T. Pacific Company's Location

STRONG STAND BY C.P.R.

Sir Thomas Shaughnessy Makes Important Statement

Montreal, August 28.—It is stated that the Canadian Pacific Railway Company is registering a vigorous "kick" against the location of the Grand Trunk Pacific line in the West, on the grounds that the territory served by the Canadian Pacific Railway "main or branch lines should be left free from competition. According to report Sir Thomas Shaughnessy's recent visit to Ottawa was to emphasize the C. P. R.'s protest. The Government, however, believes that there should be the freest possible competition among the railways receiving aid from the public exchequer.

From a man well posted in Canadian Pacific matters it is learned that the executive of that corporation hold that there is no portion of the Grand Trunk Pacific as at present definitely located above Fortage to the western end of the McDonald & McMillan contract, a distance of 275 miles, that is more than ten miles from the C. P. R. or its branches. They contend, therefore, that this being the case, there is absolutely no new territory to serve and no need of a new railway throughout the entire section that has just been placed under contract. It is set forth that the hitherto well defined policy of the Government has been to keep these several transcontinental or other competing systems at least thirty miles apart, and that this policy was strenuously dwelt upon in official circles when the Grand Trunk Pacific Railway measure was receiving the assent of the Canadian Parliament.

A case similar to that which the C. P. R. claim has happened in the West, occurred some few years ago in Nova Scotia, in connection with the early stages of the enterprise which Mackenzie and Mann are just completing between Yarmouth and Halifax. Some New York promoters, associated with local people who had obtained a charter to build a road along the south shore from Yarmouth to Halifax, got some capitalists interested and started in work. They found that, after their charter had been granted, and before the time limit has expired, the Nova Scotia Government had granted another charter for exactly the same route to a company to build a narrow gauge line. The locations were side by side and the engineering began to get in plans of sections for Government approval, ten miles at a time. While the two lines were under construction, and the New York people had about a thousand men at work, and a big construction plant on hand, their narrow gauge rivals (Philadelphia people) got an amendment to their charter enabling them to widen their road to standard gauge. After the New York people had spent some three hundred thousand dollars, they dropped out, and the road bed for fifteen miles stands today to illustrate what was at that time something unique in state-encouraged rivalry. About thirty miles of the other line was eventually completed and were recently acquired by Messrs. Mackenzie and Mann, who are now finishing the road.

HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & Co., Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75c. per bottle. Sold by all Druggists.

Hall's Family Pills are the best.

PLANNED SEVERAL MURDERS

Death of B. C. Man Whose Sudden Passion Resulted in Attempted Carnival of Crime

Victoria, B. C., August 28.—At Mount Sicker the last scene has been enacted with the burial of Fred Beach, murderer and suicide, in the only tragedy darkening the record of this camp on the face of the Cowichan Hills.

It was on Sunday last that the first chapter was written in the blood of Joe Rideau, Beach's rifle carrying to him the fatal messenger of death where he sought to protect Mrs. Campbell from Beach's importunities. Then, after a harmless fusillade into a group of men and women, the assassin was swallowed up in the bush. Indian trackers searched for him in vain.

Suddenly he appeared at the scene of his crime, and began firing aimlessly at the Mount Sicker Hotel, where Constable Halhed and his posse were lunching. They rushed out and Beach, laughing, turned his weapon upon himself.

After the shooting of Rideau and before his flight, Beach wrote three letters, and these give the key to his terrible intentions and his disordered condition of mind. The charitable believe the killing of Rideau was done in liquor and that with the realization of the enormity of the deed came mental collapse. It is more logical, however, to believe that he deliberately returned to Mount Sicker to resume his probable flat hurriedly scrawled on Sunday, but that he lost his nerve or realized the futility of resistance at the sight of the police party.

A scheme of death, outlined in letters left behind, is revealed. In the letters Beach declared he intended to kill Mrs. Campbell and afterwards James Harris, of Nanaimo, whom he looked upon as his rival. It was also his intention to get one Woodruff, of Nanaimo, and a friend of whose name Beach was ignorant.

Against Woodruff he cherished especial spite, since in protecting Mrs. Campbell, Woodruff had felt it his duty to administer a sound thrashing. This Beach never forgave. Harris also had incurred a double enmity, since he had accompanied Mrs. Campbell when she interviewed Mr. Musgrave, J.P., preliminary to having Beach bound over to keep the peace towards her.

THREE DIE IN FIRE

Destruction of Maine Hostelry Attended by Several Casualties

Maronicook, Maine, August 29.—Three persons perished and five others were burned or injured in a fire which destroyed the Hotel Maranacook in this town early today. Over four score guests and employes escaped in night attire after they had been awakened by the hotel clerk, many of them leaping from the windows.

That there had been loss of life was not known until a search of the ruins during the forenoon revealed the charred bodies. There was apparently no means of identifying the dead, the hotel register had been burned and others means of identification were missing.

The fire, which is supposed to have been caused by a defective chimney, spread rapidly through the two and one-half storeys of the wooden structure.

PLANNING BATTLE

Russian Commander Hopes to Split the Japanese Army

Newchwang, August 28.—Gen. Linevitch is still detaching a considerable force to strengthen his extreme right. His plan appears to be to divide the Japanese army into two or more bodies by compelling them to devote their attention to their left flank, thus preventing them from cutting the railway between Harbin and Vladivostok.

Numbers of Russians are continually surrendering as the outcome of the revolutionary spirit which prevails throughout the army, even among the higher officers.

This is why Gen. Linevitch probably will assume the offensive. There are skirmishes between rival scouts almost daily, the men sometimes getting within fifty yards of each other. Most of the advance lines on both sides are so irregular and make so many sharp angles that each side is able to menace the other's left.

THE

Montgomery Mountain Mining Company

BULLFROG

promises to be one of the greatest producers yet discovered in the TONOPAH, GOLDFIELD BULLFROG DISTRICT.

This district records the greatest discovery of Gold that has ever been made in the history of mining

This Company is a legitimate Mining enterprise, managed by honest, capable mining men.

The property is on the Montgomery Mountain, adjoining the MONTGOMERY SHOSHONE mine, which has only been operated ten weeks and which is now

Shipping Ore that runs TWENTY-THREE HUNDRED DOLLARS to the Ton.

The Capital of the Company is $1,250,000, divided into 1,250,000 shares of a par value of $1.00 each fully paid and non-assessable, 300,000 shares of which are in the Treasury.

The Officers and Directors are

President and Treasurer, D. H. PEERY, Salt Lake City, formerly President of the Salt Lake Stock and Mining Exchange.

Vice-President, Hon. JOHN SPARKS, Governor of Nevada.

Directors: D. E. BURLEY, General Passenger Agent, Ogden Short Line R. R., Salt Lake City; Hon. JOHN SPARKS, Governor of Nevada; E. E. EDWARDS, of the firm of Vermilyea, Edwards & Stanley, Attorneys-at-Law, Goldfield, Nevada.

The Company refers by permission to

McCormick & Co., Bankers, Salt Lake City; John S. Cook & Co., Goldfield, Nevada; Ormsby County Bank Carson City, Goldfield & Tonopah, Nevada.

We believe this property and its stock will have an advance that will be as sensational as was the Original Tonopah immediately after its development.

We can supply orders for a limited number of shares at 75 cents per share. This price expires July 10th, after which it will be raised. For information or stock apply to Thos Patterson & Co., Fiscal Agents, Peterborough, or

NICKEL AND COPPER

A Few Thousand Treasury Shares

Only are left to be sold before all offerings are WITHDRAWN FOR FIFTEEN MONTHS' TIME.

You can buy the few remaining shares now at $1.00, but fifteen months hence you will probably pay from $5.00 to $20.00 per share.

THERE IS NOTHING EXTRAORDINARY

In shares advancing as above stated in mining propositions, for it is an old story of phenomenal advances in mining shares, Granite Mountain going from ten cents to $75 per share, Calumet & Hecla from $1.00 to $300.00, and so on down the list.

CONSIDER FOR A MOMENT

What this company offers—It controls to-day an actual territory of nearly **Three thousand acres of land known to be immensely rich in nickel and copper ores, all in a district known and proven to be sixth among the greatest copper districts in the world.** This company will control at least 5 thousand acres more. In all nearly five thousand acres, which will not be mined out in two hundred years

WE STAND READY TO PROVE

That this company offers to day the most meritorious mining proposition presented in ten years' time.

Write or call for full particulars. All shares registered by International Trust Company, Boston.

International Nickel and Copper Co., Ltd., Suite 93, Journal Building, Boston, Mass.

W. K. HALL, Fiscal Agent, Peterborough.

Lumbago, Sciatica, Gout, Neuralgia

All Caused by Rheumatic Poison in the Blood—Cure Guaranteed —Relief Swift and Sure from

D.. HAMILTON'S PILLS.

There is a new life ahead for every sufferer from rheumatic poison who has not yet used Dr. Hamilton's Pills; their prompt cures are the marvel of the medical profession of many nations.

The unspeakable anguish of rheumatic torture need no longer be suffered—use Dr. Hamilton's Pills and permanent cure is assured. In so many thousands of cases have Dr. Hamilton's Pills been successful, the manufacturers are willing to guarantee a lasting cure to all that use them.

No one can doubt the efficacy of Dr. Hamilton's Pills after reading the experience of Miss Minnie Saunders, of Halifax, who says:

"Scores of different remedies failed to relieve me. I suffered inconceivably from neuralgia and sciatica. Sometimes the pain was unbearable.

"A friend recommended Dr. Hamilton's Pills. In a few days I was relieved. I continued the treatment, using in all five boxes, and was cured.

"I have no fear the slightest pain or ache since taking Dr. Hamilton's Pills, and consider my cure absolutely perfect."

Why delay any longer? Get Dr. Hamilton's Pills at once. They will restore your health in a short time. Price 25c. per box, or five boxes for $1 at all dealers, or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Local Incidents
BY THE TIMES MAN ON THE STREET.

—Board of Works met last night to open tenders for several sewers which will be built this fall.

—The Peterboro Lacrosse Club journey to Beaverton on Friday, and the return game will be played here on Monday, Sept. 4, Labor Day.

—The first consignment of citizens to the Toronto Exhibition left yesterday.

—Nothing doing in police court circles yesterday.

—Keep your dates open for next Monday, Labor Day.

—Several canoe and boating enthusiasts went to Chemong yesterday to take in the junior regatta.

—All clergymen who have been away on their holidays will return to the city this week.

Band and NEW moving pictures this week at Jackson Park.

—Messrs. J. J. Turner & Sons will make a big display at Toronto Exhibition. W. F. and R. H. Turner will be in charge of the firm's exhibit and are now in Toronto.

—There are rumors that the Irish Guards Band, now playing in Toronto Exhibition will be brought to Peterboro before they leave the country.

CHANGE IN TRAINS

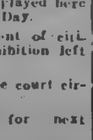
G. T. R. Flyer to Start From Campbellford at 6.30 a.m.

A new and important departure in the local G.T.R. train service will be inaugurated at once.

The Toronto flyer, which has in the past departed from Peterboro at 7.20 o'clock a.m., will, during the two weeks of the Toronto Exhibition, be run from Campbellford, leaving that place at about 6.20 o'clock, and arriving here at the usual time. These arrangements will, if the present traffic justifies it, be made permanent, and Mr. W. Hunton, the local ticket agent yesterday took a trip to Campbellford for the purpose of looking thoroughly into the conditions.

Should the contemplated change be made it will prove a great convenience to passengers at points east of the city, and will undoubtedly receive a generous patronage.

Police Court
OFFICIALS
Chief of Police, G.I. Hazel
Magistrate, D.W. Dumble



Yesterday morning a young man came into the police station to enquire whether a young man who had been working for Mr. J. Milburn, of the township of Smith, by name Davis was in limbo, as he had come to the city on Saturday to take in the circus and had not since returned. Finding the missing man was not registered at the Hotel des Cons, with a sigh of resignation the young man said, "Well I guess he has gone with the circus, as he had been talking some days ago of the fine life of adventure shows led."

Boy at Nassau Breaks a Leg

We are pleased to state that enquiries made late last night at the C. G.E. power house, show that little Leonard Bell is doing as well as could be expected after his accident of Saturday. We might recall the fact that on Saturday the boy, who is 13 years old, a son of Mr. J. R. Bell caretaker at the power house, when riding a horse home from the field where it had been grazing, with no saddle or bridle, was thrown with great force from its back, breaking his leg a short distance above the knee. He was at once removed to the house where the fracture was reduced by Dr. Halliday, who was hastily summoned.

DUTTON'S MARKET,

R. A. DUTTON
Phone 304. 418-420 George street.

Rev. H. B. Ketchen Ill

The many friends of Rev. H. B. Ketchen, formerly assistant pastor of St. Paul's church, will learn with deep regret that the rev. gentleman now lies ill in St. Joseph's Hospital, Hamilton, being threatened with symptoms of typhoid fever. Mr. Ketchen, who as our readers are doubtless aware, is now pastor of McNab street Presbyterian church, Hamilton. The news of his illness is particularly distressing in view of the fact that he was to have been married to a lady of Hamilton to-morrow, Aug. 30th; the happy event will however, owing to his deplorable illness, have to be postponed.

HAMILTON WINS AGAIN

Junior Regatta at Chemong Well Contested

A number of citizens both seniors and juniors, but the latter in a majority, went out to Chemong yesterday to witness the long talked of regatta of the rising generation. Although a fair crowd watched the different events with much interest and more amusement, the inclement weather was undoubtedly to blame for there not being a larger attendance. The youngsters were in their element, and many a mother's stringent instructions to her boy, "Now don't get your feet wet," held as large a place in his mind as next term's lessons in school. The various events were well contested, a full account of the results, crowded out of this issue will appear to-morrow. In the tub race, which perhaps gave the most amusement, Master Jack Dennistoun captured 1st prize. The dinghy sailing race for the pennant was well contested, Mr. Milne Hamilton again winning the event. The order of merit in the dinghy race, as their boats passed the winning point was 1st Messrs. M. Hamilton, Dennistoun, Hogwood, with Mr. Bollingshead making a good fourth.

PERSONAL

—Mr. Carlos LeBrun, of Toronto, has been spending a few days at Mr. H. LeBrun's cottage, "Belle Chasse" Stony Lake.

—Mrs. Frank Neal has returned from Stony Lake, where she has been the guest of Mrs. M. A. Morrison.

—Rev. J. C. Davidson is expected to arrive home to-morrow and will occupy the pulpit in St. John's church next Sunday.

Band and NEW moving pictures this week at Jackson Park

—Dr. E. A. Spillsbury, an old Peterboro boy, but now Professor in a leading New York hospital, with headquarters at Yonkers, N.Y., is visiting his aunt Mrs. Durand, and his sister Miss Spillsbury, Water St.

—Mr. E. S. Clarry spent Sunday at Millbrook.

—Ald. and Mrs. E. F. Mason are guests at Smith Beach, Clear Lake.

—Mr. J. J. Turner, jr., has returned from spending a few days in Toronto.

—Mr. H. LeBrun will close his Stony Lake cottage "Belle Chasse" to-day.

—Mr. F. J. Might, of the J. C. Turnbull Co., left last night on a buying trip.

—Mr. Jos. Hallany of Peterboro, was in town yesterday on business—Lindsay Post.

Band and NEW moving pictures this week at Jackson Park.

—Miss Laura Gunsolus, Peterboro, is visiting friends in Napanee for a couple of weeks.

—Mrs. W. J. Morrow has returned to the city after spending a very pleasant holiday at the lakes.

—Mrs. Casper and Miss McIlvena, of Warsaw, have returned home after visiting friends in Toronto, Lindsay, Peterboro and Perrytown.

—Rev. Dr. Torrance, who has been spending his holidays in Cobourg, Port Hope and other points will return to the city this week and occupy the pulpit of St. Paul's church next Sunday evening.

Band and NEW moving pictures this week at Jackson Park.

A Ride for Life

Yesterday at 10 a.m., an operation for appendicitis, was performed at the General Hospital, Toronto on Mr. Donald Cain a Bobcaygeon merchant. Mr. Cain Saturday evening was taken with very symptoms of appendicitis, and by order of Dr. Boyd, his family physician, went to bed. However he grew rapidly worse and by Sunday afternoon it was a choice between probable death or operation in Toronto. As the only train was one leaving at 7.30 yesterday, a special train was ordered. A brother of the sick man, his wife and Dr. Boyd accompanied him on the train, which left there at 5.20 p.m., arriving in Toronto at 7.10 p.m. The ambulance met them at the station and the patient was hurried to the General Hospital, arriving there about 7.30 p.m. The trip from Bobcaygeon constitutes a record on the line.

On his arrival at the hospital the sick man was examined by Dr. George Bingham, who said an immediate operation was necessary.

A Hard Nut to Crack

Mayor Beat has received a letter from the manager of the Municipal Telephone system, of Glasgow, Scotland, seeking information in reference to the working of the Canadian Machine telephone system which was to have been in operation some months ago, but whose only visible signs of existence seems to be poles decorating (?) the city and a liberal number of promises of what does not seem to be coming to pass. His answer, will likely be a curious piece of literature, if his decision is formed from results at present in sight.

SEWER TENDERS OPENED

Board of Works Discuss Tenders, Lowest for $18,670.28

A meeting of the Board of Works was held last night with Ald. Adams in the chair. A number of applications for granolithic pavements were considered. Mr. Henry of the north end, Cambridge street, complained that the street had been flooded and was in bad condition, he wanted a culvert put at the foot of Walnut street, the matter will be considered. The matter of the crossing at George and Dalhousie streets was taken under consideration.

The important matter of opening up the tenders for the sewers as advertised for, of which a description appeared in former issues of The Times, was next taken up. The tenders accompanied by the customary cheques to ensure faith, were from; R. Shrehy, total tender ... $19,307.36
J. F. Hayes, total tender ... 18,672.28
J. Robson, total tender ... 19,307.36

No action was taken on the tenders further than to refer them to Mr. Hay, city engineer, with instructions to thoroughly look them through and report later on.

Prince to Stalk Deer

St. John's, Nfld., August 29.—Prince Louis of Battenberg, with his squadron, will arrive here Tuesday, September 5. It is announced that the Prince will attend but one function in his honor here, as he expects to spend most of the time of his visit travelling in the interior. It is believed he will go deer stalking.

"I am well now and enjoying better health than ever before in my whole life."

That is the statement of a woman who had never been well until she was made well by the use of Dr. Pierce's Favorite Prescription. There are a great many other women in like case. They have always been sufferers from disease. They have never known the joy of perfect health.

For all such women Dr. Pierce's Favorite Prescription holds out the prospect of perfect and permanent health, by the cure of the womanly diseases which weaken women. It establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness. It makes weak women strong and sick women well.

"It gives me pleasure to let you know of the great benefit received from Dr. Pierce's medicines and the advice which you so kindly sent," writes Mrs. Bertie Parker, of Bonham, Fannin Co., Texas. "I took your 'Favorite Prescription,' 'Golden Medical Discovery' and 'Pleasant Pellets,' and followed your advice regarding the 'Lotion Tablets,' and am cured. I had been treated by different doctors and spent one hundred dollars for treatment and medicine, but received very little relief. I have only spent seventeen dollars and fifty cents for your medicine and it has cured me in three or four months of ulceration and falling of uterus. I suffered severe misery in my back, also irregular periods. Had bearing-down in lower portion of body and great pain all through my body. Pain in uterus was very severe. Had smothering spells, breath was very short all the time, had pain in stomach, pain in my thighs, pain in breast, also between my shoulders. Bowels constipated. I am well now and enjoying better health than ever before in my whole life. Am happy to tell you that I was cured by your good advice and good medicines, the 'Favorite Prescription,' 'Golden Medical Discovery,' 'Pleasant Pellets' and 'Lotion Tablets.' These medicines cured me and will cure others also."

The dealer who offers a substitute for "Favorite Prescription" does so to gain the little more profit paid on the sale of less meritorious medicines. His profit is your loss, therefore accept no substitute. Dr. Pierce's Pleasant Pellets regulate the bowels.

HOME FROM THE WEST

Mr. J. J. Lang Speaks Highly of the Western Country.

Mr. J. J. Lang, 711 Stewart street, has returned from an extended trip through the North-West Territories as far as British Columbia. Mr. Lang speaks in very glowing terms of the western country, both as regards the immense wheat and grain crops of Manitoba and the ranching life and prospects in the far west. He spent three days in Regina, three in Moose Jaw and four in Medicine Hat, and various periods in other towns and cities of the west. At Pincher Creek, in Southern Alberta, Mr. Lang says there is the richest wheat country in the world, he saw their wheat, heavily grained standing over six feet high on the level, the richest wheat lands, he stated, between the Belly and Kootenay rivers. At McLeod he had the pleasure of meeting an old Peterboro boy, who studied at the Collegiate Institute here, Dr. Wes. Milburn, whose wife, was a Miss Methveal of this city. At Maple Creek, he met Mr. A. E. Dixon's brothers who run a large general store and are engaged in the ranching business there. Mr. Lang had peculiar facilities for becoming thoroughly acquainted with the country as he drove over 500 miles in a buck board. Near Moose Mountains he met a lad 16 years old who bought a quarter section of land there for $6 an acre, two years ago, and who was recently offered and refused $15 per acre for the same property. Mr. Lang will remain at the residence he recently purchased but will visit the west next summer.

A New Yacht

A new yacht has been added to the rapidly growing fleet that now covers our local waters. The most recent addition to the local pleasure craft was made by Mr. Herb Allen, Rubidge street. The boat is a steam yacht 36½ feet, designed and built by Mr. Hickey, the boat builder, and constructed in the yard of Mr. A. McDonald. The engine, which was built by Mr. Allen himself, is of five horse power and is able to propel the boat at about ten miles per hour

CHILDREN POISONED

Two Are Dead--Source of Poison is a Mystery

St John, N. B., August 28.—Two young sons of Warren Reid, of Middle Coverdale, Albert County, N. B., are dead, and a third is dying, from poisoning, though how they were poisoned cannot be told.

Last week the children, who range from 2 to 5 years of age, became ill and physicians suspected arsenic poisoning, but search revealed only one possible clue to the source of the poison, the well. This was dragged and a number of cans were found there, and it is thought possible the water had been poisoned by them. One boy died Tuesday last, another died today and the third is not expected to live.

NOW IS THE TIME TO GET WELL

Nature Helps Mi-o-na Cure Stomach Trouble in Short Order

The summer months are the best in the whole year for the treatment and cure of stomach troubles. The out-door life, with natural exercise, the fruit and berries which are so freely eaten, all help to restore healthy action to the digestive organs.

Now when Nature will aid Mi-o-na in curing indigestion and giving strength to the stomach and whole digestive system, is the best time to use this remarkable remedy.

Taken before each meal, Mi-o-na will soothe and heal the inflamed and irritated lining of the stomach and solar-plexus and strengthen the nerves of the digestive tract. Used at any time of the year, it cures all diseases of the stomach, excepting cancer, but in the summer months it gives health and strength twice as quickly.

If you suffer with headaches, indigestion, flatulency, specks before the eyes, fermentation, heart burn, dizziness, or have a variable appetite, and a general feeling of despondency or weakness, it shows clearly that the stomach is not digesting the food as it should. Instead of the food being assimilated and making rich, red blood and good solid flesh and muscle, it is turned in the stomach into a sour, slimy, fermenting mass that causes gases, distress after eating, and poisonous germs that fill the whole body with poor health.

Just one little tablet out of a 50 cent box of Mi-o-na for a few days, and all this will be changed for the better and health restored. Ask Wm. Medill to show you the Mi-o-na guarantee.

SALE OF BURNT TIMBER
A quantity of pine timber on what is known as Berth B.I, containing 21 square miles more or less, situated South of Wanup River station on the Canadian Pacific Railway 120 miles west of Sudbury in the District of Algoma, having been damaged by fire, the undersigned hereby calls for tenders for the right to cut same.
Tenders will be received up to and including the 30th day of September next, and must state the rate per thousand feet board measure, including dues, which the tenderer is prepared to pay for the timber, or per thousand feet cubic for whatever proportion of it may be manufactured into waney or square timber, including dues. The timber to be cut during the present winter. Tenders to be accompanied by a marked cheque for $500.00 payable to the Honorable the Treasurer of Ontario. The timber to be sold subject to the Crown Timber Regulations except when varied by the conditions of this sale. The party awarded the right to cut will be required to give a bond with satisfactory sureties for the payment of the price and the due performance of all terms and conditions required by this Department.
The Department does not bind itself to accept the highest or any tender.
Tenders to be marked "Tenders for burnt timber," and addressed to the Honorable the Minister of Lands and Mines, Toronto.

CITY OF WINNIPEG NOW BASKS IN PROSPERITY

Real Estate Business Booming Everywhere---The House Famine---Although Building is Rapidly Going on Accommodation is Still Woefully Inadequate.

Winnipeg, Aug. 30.—A feeling of absolute confidence in the future pervades the whole business community of Winnipeg. Progress in every direction has been remarkable. The erection of four or five thousand houses and scores of apartment blocks has had no apparent effect on the house famine. A large business continues to be done in real estate offices in homes. All agents are besieged with inquirers looking for homes at moderate prices.

The effects of the certainty of a great harvest are already apparent in the renewal of activity in real estate business. A number of large deals were closed during the week, and these, better than anything else, show the condition of the market. The movement has been general, with probably an increase in the speculative business. The general belief is that next year will see the greatest growth in Winnipeg's history, discounting the building record of 1904, when it was estimated that new buildings were erected to the value of $9,500,000.

Outside of great centers of population in the United States, such as Chicago, and New York, Winnipeg leads the continent in her building record. No city of the same size or double the size is within hailing distance.

Is it any wonder in view of all this that Winnipeg has a steady and ever-rising real estate market?

New subdivisions are daily being placed on the market, and the rapid sale is surprising. Of the older subdivisions, the lots are being rapidly taken up and some are practically sold out.

RALPH CONNOR DOES WELL.

Rev. C. W. Gordon ("Ralph Connor") had a large block of property subdivided and put on the market a short time ago. To-day there is not a foot left. Lots were sold within a mile and a half west of the post-office at $12 per foot. To-day holders are asking $15 and $18 ... I expect $20 before spring.

Probably the greatest activity within the past few weeks has been in the rapidly filling up section of the city between Portage avenue and Notre Dame street, extending into St. James and even into St. Charles. The first incentive to purchase was in the opening of the large C.P.R. shops. The building of the great railway works started the movement last year, and the paving of Logan avenue and the double tracking of the street railway have had a very noticeable effect on property. Fifty feet frontage on Logan avenue, between Sherman and Tecumseh Sts., was sold a short time ago at $40 a foot. Along Notre Dame avenue, west of Nena street, there has been quite an active demand and a piece of property near the Royal Lumber Company's yards, a few blocks west of Nena street, was sold at $100 per foot.

Building lots near the new C.P.R. shops have been resold in large numbers at $200 each. Boarding houses and store property is in great demand.

To estimate the value of property in the vicinity of the C.P.R. shops one has only to visit the locality and see the wonderful progress that is being made. Three or four months' operations have changed the whole perspective in this section of Winnipeg.

THE CHEMONG REGATTA

List of Winners in the Junior Races With the Fourth Dinghy Race Results

In our issue of yesterday's date, we gave a partial account of the regatta for juniors and the fourth match in the struggle for Mr. Denistoun's trophy, in which Mr. Hamilton once more carried off the laurels of victory. By an error, through misinformation, we named Mr. Hopwood as taking the third place, with Mr. Hollingshead fourth, which should have been reversed. The races, with list of winners in full; were as follows:

Boys' canoe tandem, paddling, 11 and under—1, J. Dennistoun and G. Matthews; 2, H. Hill and H. Eastwood.

Boys' canoe tandem, 12 years and under—1, Jack Dennistoun and H. Matthews; 2, Jim Dennistoun and C. G. Halpine.

Girls' canoe tandem, 14 and under—1, Marion and Phyllis Denne; 2, Mildred Bull and Jean Hill.

Boys' canoe tandem, 14 and under—1, Gordon Cumming and J. McDonald; 2, Harold Hill and C. G. Halpine.

Boys' single skiff, Gordon Cumming barred—1, J. McDonald; 2, Stuart Hayes.

Girls' double skiff, 14 and under—1, Robina Cumming and Marion Denne; 2, Mildred Bull and Jean Hill.

Boys' double skiff, 14 and under—1, Stuart Hayes and Harold Hill; 2, H. Munro and R. Hutchinson.

War canoe race paddled in punts by teams of ten—Won by the punt navigated by Commodore Cumming; 2, by Commodore Ray.

Crab race, 14 years and under—1 Jas Dennistoun; 2, Roy Dixon.

Tub race, open to world—1, J. Denistoun; 2, Kenneth Halpine.

Boys' swim—14 years and under—1, Gordon Cumming; 2, Kenneth Halpine.

Boys' swim, 12 and under—1, C. G. Halpine; 2, Jas. Dennistoun.

Boys' swim, 11 years and under—1, Harold Matthews; 2, Jack Dennistoun.

Girls' swim, 14 and under, 1, Marion Denne; 2, Mildred Bull.

Ladies' single canoe race for the championship of Chemong—1, Vieva Hunter; 2, Allison Hamilton.

The open sailing race for the championship and the pennant offered by Mr. R. M. Denniston resulted in Milne Hamilton's boat, "303," being first, R. M. Denniston's Wa Ha, second; A. A. Hollingshead's Vonda, third, and Jack Hopwood's Arrow 4th. [illegible] one, and a distance of six miles. It was raining steadily when the race was concluded. This makes the third time in four races that Milne Hamilton's boat, "303," has led the contest.

Housekeepers

have been vexed when using cream of tartar and soda to find their work uneven. If sometimes good, at others the biscuit and cake will be heavy or sour or full of lumps of soda that set the teeth on edge. Flour, eggs and butter wasted. This is because the cream of tartar is adulterated or cannot be used in the proper proportions.

Food always sweet and light can be assured only by the use of Royal Baking Powder exclusively. Royal is absolutely pure and healthful and does even work at every baking.

ROYAL BAKING POWDER CO., NEW YORK.

PROPAGANDA IN SUPPORT OG WAR

Manufacturing Loyal Expressions Among Peasants

CRYING IN WILDERNESS

'Russia's Struggle Against Three Foes" Securing a Widespread Sale Throughout the Country

London, Aug. 30—The Moscow correspondent of the Standard says there is a widespread sale of a broadside entitled, "Russia's struggle Against Three Foes," the object of which is to secure signatures in support of the continuance of the war. The broadside was passed by the censor at St. Petersburg on Aug. 21. It emanates from a party that is endeavoring to manufacture loyal expressions of feeling among the peasantry by the most unscrupulous misrepresentations, assisted by a liberal use of public money. The sheet begins:—"A cry of pain arises at the manifold trials of Russia." Details of calamities follow. It then says:—"Last year we were attacked by a foe who proved terrible by reason of his bravery, determination and preparedness for assault. This foe, who, declaring himself openly, fought openly, was and is assisted by secret friends, but real enemies, the English and Americans. Although the whole world rejoiced at our misfortunes, yet the Japanese, even with the assistance of the entire world, found it hard to meet us in the field. Four months after the defeat at Mukden the enemy was still unable to recover losses we inflicted or even prevent our repairing our own, and now, at the very moment when our army has attained numbers unprecedented, when it finds itself supplied abundantly with every necessary for war, when Japan finds it more difficult than ever to continue the campaign, there rings out the voice of the President of the United States inviting us to enter negotiations for peace. We are convinced the voice will remain as one crying in the wilderness."

One newspaper, which distributed 30,000 copies of the broadside, issued supplementary leaflets to the peasants plainly stating that if peace is concluded on the basis of the payment of an indemnity it will mean a tax of quite $50 extra per capita for the peasantry. This is about equal to ten years' taxes in normal times.

STRONG PROTEST ENTERED BY C.P.R.

Petitions Against G. T. Pacific's Laying of Western Line

LINE AN ENCROACHMENT

Contend it is Contrary to Spirit and Letter of the Act and Previous Declaration of Premier.

Montreal, August 30. — The protest of the Canadian Pacific Railway Company against the route of the Grand Trunk Pacific west of Winnipeg sets forth clearly and vigorously the objections of the established line to the alleged encroachment by the new company's route. After quoting the law on the subject, the protest proceeds to add the declarations of the Ministers, and then marshalls the facts in such masterly style as to present the C. P. R.'s case in the strongest possible light. The text of the document is as follows:

The petition of the undersigned, the Canadian Pacific Railway Company, humbly showeth:

1. That your petitioners, the Canadian Pacific Railway Company, now own and operate a system of railway across the continent of North America, affording uninterrupted railway communication between the Atlantic and Pacific seaports of the Dominion of Canada, together with a large number of branch lines, and in the construction and operation of said railway, the Canadian Pacific Railway Company have opened up for colonization a large tract of fertile country, in the different provinces of the Dominion, which said country now affords to the said railway company a profitable business.

WHAT CHARTER PROVIDES.

2. That in the year 1903, the Grand Trunk Pacific Railway Company was incorporated by the Parliament of Canada;

3. That at the time the act for the incorporation of the Grand Trunk Pacific Railway Company was before the Railway Committee of the House of Commons, the following clause was carried, and inserted in the said act:

"Provided always and before the construction of the prairie section is commenced, the location thereof shall be approved by the Governor-in-Council, and no part of such location shall be nearer than thirty miles to any constructed or located line of any railway, unless for special reasons to be named by an order-in-council, unless the Governor-in-Council may otherwise order."

Subsequently to this clause being carried in the Railway Committee, the bill came before the House of Commons, and was referred back to the Railway Committee, there being some difficulty as to the language of the clause, being one of the clauses of sub-section "E," of Section 12, of chapter 122, of 3 Ed. VII., 1903, was inserted:

"Provided always that before the construction of any portion of the prairie section in the North-West Territories is commenced, the location thereof shall be subject to the approval of the Governor-in-Council, having regard to the principle that except for the purpose of reaching proposed common points, or for other satisfactory reasons, such location shall, as far as practicable, be so made that such main line of railway shall be constructed at such a distance, generally not less than thirty miles from any other main line of railway, running in the same direction, already constructed or located by plans sanctioned by the Minister of Railways and Canals, prior to the passing of this act, as the Governor-in-Council may deem reasonable."

4. That the act incorporating the Grand Trunk Pacific, was assented to on the 24th day of October, 1903.

OBJECT OF NEW ROAD.

5. That in the same year, 1903, an act respecting the construction of a National Transcontinental Railway was introduced.

6. The preamble of the act recites:

"Whereas by reason of the growth in population, and the rapid development in the productiveness and trade of Canada, and especially of the western part thereof, and with a view to the opening up of new territory available for settlement, both in the eastern provinces and west, and to afford transportation facilities for such territory, and for other reasons, the necessity has arrived for the construction of a national transcontinental railway, to be operated as a common railway highway across the Dominion of Canada, from ocean to ocean, and wholly within Canadian territory."

The said preamble further recites:

"The agreement was entered into between certain parties on behalf of the Grand Trunk Pacific Railway Company and His Majesty the King."

Under this act and the amending act of the year 1904, the Government agreed to pledge the credit of the country to a very large amount, and to assist the railway company in many ways, no doubt owing to the fact, as stated in the preamble, that the object of this railway was to open up new territory, available for settlement, both in the eastern provinces and in the west, and to afford transportation facilities for such territory so opened up.

THE GOVERNMENT'S POLICY.

7. That the Government has repeatedly declared it to be their policy in Manitoba and the North-West Territories, to keep a distance of 30 miles between the railway lines in that country.

8. That during the discussion in the House of Commons of the act respecting the construction of a national transcontinental railway, the Right Hon. Sir Wilfrid Laurier, dealing with the question of paralleling the Intercolonial Railway, stated that there should be a distance of 30 miles between the Intercolonial Railway and the new line, although they might start at the same point, and end at the same point; and he also stated, when dealing with the question as to whether the Grand Trunk Pacific might pass between the Canadian Northern and the Canadian Pacific Railway, west of Winnipeg, that there was no foundation for the statement that it was the intention of the Government to locate a line between the line of the Canadian Pacific Railway and the line of the Canadian Northern Railway; that it was largely a matter for the engineers to select a route; he stated, however:

"It would remind the House of the condition which was enjoyed upon this company when it was granted its charter, a condition by which the Government will have to abide, and which cannot be discarded. A stipulation was made by this House, when the charter was granted to the Grand Trunk Pacific Railway, that whenever it located its line, it must place it, except at terminal points, at a distance of at least 30 miles from any existing railways, or from any railways that have been located."

The Hon. Mr. Fielding, Minister of Finance, in discussing the same bill, and in describing the route for the railway, stated that:

"In the far West it will touch "Winnipeg, and once more plunge "into new territory, and so on and "on, always touching, as far as "practicable, the new centres on "the way, and always striking out "again into new and yet undevelop-"ed Canadian lands."

He further stated:

"Have we not during this very "session, laid down the policy in "the Railway Committee, that char-"ters may be granted for parallel "railways, so long as they are thirty "miles from other railways."

TO AID COLONIZATION.

Sir William Mulock, in addressing the House on this bill, stated:

"There is a feature in connection "with our scheme which must com-"mend itself to all those who fair-"ly understand it; from the com-"mencement to the end, from Monc-"ton through New Brunswick, Que-"bec, Ontario, Manitoba, the Terri-"tories and British Columbia, from "ocean to ocean, in addition to its "being a trunk line, it is a coloniza-"tion line, opening up and making "available millions of acres of pro-"ductive land which is at present "valueless to the people of Canada."

The Hon. William Patterson stated:

"We are building a road through "a new country, the Government "are going to open up three thou-"sand miles of new territory; we "are going to have a Grand Trunk "Railway, and a Grand Trunk Paci-"fic Railway, developing our west-"ern prairies. We are getting a "Transcontinental Railway which "will stretch from ocean to ocean, "and will open up, and develop, the "middle districts of New Bruns-"wick, the five counties of Quebec, "on the South Shore of the St. Law-"rence, and will open up northern "Quebec, and northern Ontario; "north of the Canadian Pacific Rail-"way, in Manitoba and the North-"West Territories, and the mineral "regions of British Columbia."

SIFTON AND FITZPATRICK.

The Minister of the Interior, also was very explicit in his statements as to the object and location of the road. He said:

"I do not think that anybody will "dispute that the Government ought "not to take a leap in the dark. "We are taking a leap in the dark. "We are taking a leap exactly on "the line and over the road sug-"gested by the Halifax Board of "Trade on the exact road they sug-"gested (the Halifax Board of Trade "have suggested that the road be "built north of Lake Winnipeg.)"

Every Minister of the Crown, speaking on the bill, was clear and explicit, that the object of this road was to open up new territory available for settlement, both in the Eastern Provinces and in the West.

The Hon. Minister of Justice stated:

"What we desire to do is to open "up our hinterland and give breadth "as well as length to Canada, and "that would be the result of the "construction of this railway. It "would open up for settlement "enormous areas of New Brunswick,

(Concluded on Page Two.)

Agricultural Societies

Provincial Superintendent of Agricultural Societies H. B. Cowan has been gathering information in regard to a number of fairs which hold horse races at their fall exhibitions. As a result of a series of questions sent out to societies it has been found that 144 societies are in favor of horse racing and 126 against it. Many of the societies in favor of horse racing believe that the value of the purses should be limited. 140 societies report that they believe horse racing to be necessary for the success of their exhibitions, while 130 are not of this opinion. In reply to a question asked the societies as to whether they would consider horse racing necessary were there fewer exhibitions in their vicinity, 118 societies replied that they would, while 152 stated that they would not. The value of the purses offered at the exhibitions last year amounted to considerably over $25,000, 125 societies are in favor of restricting the races to horses owned by men living within 20 miles of the fair, while 142 societies stated that they would not be in favor of such a restriction. Quite a number of the societies are in favor of restricting the value of the purses for horse races to a sum not to exceed one-third of the value of the total amount paid in prizes for all agricultural purposes.

"Get your telescope out to-day and take a look for the eclipse. If this is unsatisfactory dally for a while with the cup that cheers, and reverse the instrument. The double vision will even things up.

PETERBORO MARKSMEN

D. R. A. Matches at Rockliffe Open Most Auspiciously

The Dominion Rifle Association matches at Rockliffe, opened most auspiciously, the weather being all that could be desired, and the shooting above the average. In the Tyro match yesterday the shooting was particularly good, seven scores of 34 being made, as against one of that figure last year. In "the Bankers," seven shots at 600 yards the wind veering about prevented perfect marksmanship.

There were only 443 entries this year, as against 487 last. This is due to the Maritime Provinces dropping off and Manitoba not being so well represented.

The executive have appointed the following gentlemen as a Match Committee, with power to substitute in case unable to form a quorum:—Lieut.-Col. Sherwood, C.M.G.; Major M. Mercer, Q.O.R.; Lieut.-Col. J. W. Wilson, 3rd Vics.; Major J. H. McRobbie, 8th Hussars; Capt. H. H. Gray, R.O.

The rain of Monday night interfered sadly with social events that officers and men had arranged for.

Lieut.-Col. Henshaw, chairman of the D.R.A. Council, will hold a reception at the camp to-morrow from 4 to 6.30 p.m. No formal invitations will be issued.

The Peterboro marksmen upheld the credit of the 57th Regiment, and did remarkably well in the big matches and won prizes as follows:

Hiram Walker Cup. Seven shots each at 500 and 600 yards—Sergt. F. Bartlett scored 60 and won $5.00; Col.-Sergt. W. H. Moore, Pte. Miles, Pte. Geo. Fitzgerald, each scored 57, and Corp. A. McMillan scored 56, and all won $4 each.

The Bankers Match, 800 yards and 7 shots—Sergt. F. Bartlett scored 30 and won $5.

The Tyro Match—Corp. A. McMillan scored 30 and won $3.

ATTEMPTED SUICIDE?

William Dugan Whilst Drunk Walks Into the Otonabee

Yesterday evening about 6.30 William Dugan, when carrying a massive jag, not one of these little $2 and costs nuisances, attempted to either solve the great mystery or sober up on the get straight quick plan. He was on the Hunter street bridge, and overcome by remorse on account of his present condition, or attracted by the wet water flowing beneath his feet, climbed down the steep steps leading to Mr. Faint's property adjoining the bank, next he managed to climb the fence between him and sobriety by the cold water cure, and on reaching the swiftly passing water began to wade bodily out to where the water was deepest and the current was stronger. A friend with him, in a less complete state of hilarity, tried to call him back, but Dugan insisted on his excellent march to the middle of the stream. His friend recognizing Dugan's danger, plunged boldly in and hauled the intoxicated man back to terra firma. Dugan had walked in about to his [illegible] and will now require his odd change to get the unmentionables be wore pressed out.

Late in the person of P.C. Miller awaited him on his return to safety, so Dugan avoided the sylla of a watery grave to meet with the charybdis of a cold, uncongenial, hard-perforced plank in the local dog cops.

He will explain his actions, if memory serves him this morning, when the Ever Easy club forms a quorum at the police court.

WHERE IS BEETESON?

Ex-Peterboro Man's Trunk Found in Montreal Harbor

The police authorities of Montreal are searching for some trace of T. Beeteson, whose trunk it is supposed, was taken from Montreal harbor yesterday. The trunk was labelled T. Beeteson, Winson Green, Birmingham, England.

The trunk was burst open, when papers were found inside indicating that Beeteson had left Peterboro previous to August 17. On some of the papers was the address, 62 Chamberlain street, Peterboro. The Montreal police are endeavoring to ascertain if it is a possible case of murder or one merely of robbery.

Thomas Beeteson removed to Canada about a year and a half ago from Birmingham, Eng., and after about 11-2 years' residence in Winnipeg and Brandon, came to Peterboro. He had been boarding at 62 Chamberlain street, with Mrs. Booth, and was engaged as a brass finisher in the C.G.E. Works.

Mr. Beeteson left by the midnight C.P.R. train for Montreal on Sunday, at which time he was accompanied to the station by about twenty-five of his friends to wish him bon voyage. He was also banquetted on Saturday night at the Montreal House. His intention on leaving Peterboro was to proceed at once to London, Eng., and expected to sail from Montreal yesterday.

GOW TO BE TRIED

Attorney General Issues Instructions for Prosecution

It now seems that the Dummer murder case will cause the county officials to wake up and take the action the lack of which, people in the city, are criticising them for.

Crown Attorney R. E. Wood yesterday received, in reply to his report on the subject, notice that the Attorney-General's office has issued an order for the prosecution of Chas. Gow, who admitted the shooting, but who was acquitted by the coroner's jury. The charge to be laid will be determined by Crown Attorney Wood. Gow is at present in Ottawa attending the D.R.A. matches. It is thought by some that a change of venue will be asked for, but this and other details of the prosecution are in the hands of the Crown Attorney, R. E. Wood, Peterboro.

PEACE IS REACHED JAPAN YIELDS ALL

No Indemnity and No Redemption Fund For Half of Sakhalin Island--Interned Warships Also Given Up.

Portsmouth, Aug. 30.—The Japanese yielded practically everything.

Portsmouth, N.H., Aug. 30.—Scenes of the greatest excitement followed the receipt of the news in the lobby of the Hotel Wentworth. The bulletin was telephoned from the conference room at the Navy Yard by Mr. Sato, and, like an electric thrill, flooded through the room. There were screams of joy. Men threw their hats aloft, women actually wept. Then there was a rush for the telegraph offices, and in an instant the news was speeding to the remotest corners of the earth.

Portsmouth, Aug. 30.—The Japanese practically yielded everything. They accepted the Russian ultimatum no indemnity, and a division of Sakhalin without payment of redemption money.

The Japanese yielded interned warships and limitation of naval power.

Portsmouth, Aug. 30.—Peace between Russia and Japan was practically concluded at this morning's session of the peace conference. In the final struggle the Russians achieved a victory. For the sake of peace, the Japanese, with a magnanimity worthy of their heroic achievements in this war, not the ultimatum of the Czar, and abandoned their demands not only for reimbursement for the cost of the war, but for the re-purchase of the northern half of Sakhalin. Russia at the same time agreeing to a division of the island. The Japanese also withdrew articles 10 and 11 of the peace conditions originally proposed, demand for the surrender of the interned warships and limitation of the Russian naval power in the far east. The delegates of the respective missions will be called in at the afternoon session, and the actual work of formulating the treaty of peace will begin. The news that peace had been agreed upon caused the most intense excitement at the hotel where the envoys have been staying. Everywhere there was a delirium of jubilation. An armistice probably will be arranged this afternoon.

BEFORE THE MEETING.

Portsmouth, N.H., Aug. 29.—When the peace plenipotentiaries started for the conference room to-day there was a recognition on both sides that the decisive hour in the fate of the peace conference had come. M. Witte seemed not in a pleasant state of mind. He had received new instructions during the night reiterating the old. They left him no leeway. Unless the new Japanese proposal met the Emperor's "ultimatum," as given to President Roosevelt through Ambassador Meyer, no indemnity, but the cession of half of Sakhalin, without money payment beyond that for the maintenance of the Russian prisoners and that involved in the cession of the Chinese Eastern Railway, he considered that he had full authority to reject it flatly without reference to St. Petersburg.

M. Witte considered that the Emperor had figuratively burned the bridges behind him in the replies he had given to the head of the American republic. His superior having thus committed himself, M. Witte felt himself tied hand and foot. Unless the Japanese proposal this morning, therefore, came strictly within his instructions. He would, according to his views, not only be justified in refusing it, but he compelled to do so. Diplomatically he would according to the Russian council, have that right.

To a proud man like Witte, the position was insufferable. He was playing a "dogs' comedy," he said to a friend.

CHEERS FOR RUSSIA.

Portsmouth, Aug. 29.—M. Witte, accompanied by Baron de Rosen, came to the hotel for luncheon. There was a wonderful demonstration upon their arrival. A great crowd had collected under the porte cochere of the annex where the Russians are quartered, and when their automobile drew up, the air was torn with frantic cheers. Hats were thrown aloft. M. Witte seemed quite overcome. Too full for utterance, he could only grasp and shake the hands that were extended to him. Baron Rosen also was equally moved, and received the congratulations of the crowd in silence. For about five minutes the two plenipotentiaries were kept upon the porch, listening to the incoherent praises of the hotel guests.

"Do you pay indemnity?" was the universal interrogation.

"Not a cent," was his response.

The two plenipotentiaries have respectively proposed to their Emperors the conclusion of an immediate armistice. The details of the armistice will be discussed at this afternoon's meeting, and immediately thereafter the questions of the release of the Russian prisoners.

Forcing his way to the door, M. Witte encountered the members of the Russian mission, who rushed forward to shake his hand. Briefly in Russian he gave them the joyful tidings. Then as he started up the stairs the newspaper correspondents clamored for information.

"What have you done? How is it settled?" they cried.

"We pay not a kopeck of indemnity," he replied as he turned at the landing half way up the stairs. "We get half of Sakhalin. That is the agreement in a nutshell."

WEATHER NOTES.

A few scattered showers or thunderstorms, but mostly fair and warm.

TELEPHONE TALKS.

TO TELEPHONE USERS AND THE GENERAL PUBLIC,—

The statements given in our last "Talk" tell the story of the result of Municipal competition in Glasgow. The municipality, operating a service at charges fifty per cent. lower than the rates charged by the National Company, is hopelessly behind the Company in number of subscribers, and consequently, in the value of its service to the public. The difference between the two services is increasing rapidly day by day.

Judged by another standard set up before the Special Committee, the capitalization per subscriber, Glasgow after three years' operation admits a capitalization at the end of the fiscal year of 1904 of $136.60 per subscriber, while the Bell Telephone Company of Canada after twenty-five years' operations has a capitalization, for its exchange service of only $92.00 per subscriber. Glasgow is even now expending another half million of dollars in rebuilding its telephone plant, which has not been included in the previous statement.

These facts and figures which we have given regarding Glasgow's service are taken entirely from the evidence of the Chairman of the Committee of the Glasgow City Council which has charge of their Municipal Telephone plant.

Of the financial results, different contentions have been set up. We need not enter upon this point, "time will tell." No evidence has been offered that the other four municipal telephone ventures have been even as successful as the Glasgow one. Sufficient undisputed facts have been given to show that Great Britain, either in Government or Municipal administration of the telephone, does not offer an example which Canadians should be anxious to follow.

We shall draw a few conclusions in our next.

THE BELL TELEPHONE COMPANY OF CANADA.

How Consumption Starts

Tired When You Waken--Languid All Day—Nerves Worn Out —Snap All Gone

Your limbs feel "draggy" and excessively weak. A night's sleep seldom brings satisfying rest. Continuous headaches, exhaustion and nervous sensations destroy your health. Soon every spark of vitality is used up. Then you catch tuberculosis.

Start to-day. Build up, get new nerve force, and overcome this process of decay. Use Ferrozone, which physicians consider the most vitalizing, uplifting tonic ever made.

Ferrozone cures because it can furnish the body with sufficient nutriment and building material.

Think of the instant effect—at once the appetite increases, delightful color in the cheeks proves that rich, red blood is being circulated. Tired muscles are invigorated, flesh and weight are added. Nerve force develops, and bounding, joyous health is firmly established.

This is certain—Ferrozone restores failing strength from any cause. The experience of Mr. Thos Dowd, of Schreiber, Ont., proves this;

"Household worries and cares had about exhausted my strength. I was weak and miserable. My cheeks lacked the color of health, and occasionally I had spells of rheumatism. Then my appetite fell off, and nothing could tempt me to eat. Worn-out feelings, chills and despondency filled my very being. I became unanemic and dwindled down to a shadow. Consumption was very near. Ferrozone put strength in my body, with a rush. It built me up, strong, virile and happy, and I have been well ever since."

Ferrozone cures sickness by curing the real cause—lack of blood and nerve tone. It keeps people at their best—fit, ready and anxious for work. In 50c. boxes only, six for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterboro are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $3 per year strictly in advance.

PETERBORO AUGUST 30 1905

JUSTICE IN THE UNITED STATES

The case of John Hoch, convicted bigamist and wife-murderer, suggests one case for the popular contempt for law in the United States. This man, after being found guilty and sentenced to death, had his execution delayed and his case reopened on payment of $1,000 to cover the costs of an appeal. According to the Montreal Witness, if a friend, a woman, too, strange to say, had not come forward with this money, he would have gone to the gallows. Six hundred dollars had been raised, but the statutes of Illinois required five hundred more. The money was found at almost the last moment, and the public was treated to the spectacle of a murderer, convicted on the most convincing evidence, escaping the penalty of the law by making a cash payment. It thus appears that justice, or what passes for a superior chance of justice, can be bought by the criminal who has the money, while he who has it not must hang. If Hoch was entitled to have his trial reviewed by the Supreme Court, his appeal should have been granted without money or price, as a matter of simple justice. But as the law stands money is the test even in capital cases, whether a man shall have the assumed last recourse of justice or not, the cost of appeal being closed to the man who has none. Another instance in that of the lawyer Patrick, of New York, convicted of one of the most cold-blooded murders on record. Through one technicality and another he has managed for many months to escape the penalty of his crime, and is reported as quite hopeful of escaping altogether. With such examples of law frustrated by men guilty of the most atrocious crimes, because they have the money to buy their way in the courts, is it any wonder that there should be lynchings, whitecapping and conditions approaching anarchy in many parts of the country? Such cases occurring frequently have bred popular distrust and contempt for the law. Justice has been made a mockery. Until the legal system under which such cases are possible had been thoroughly reformed, lawlessness will prevail and the great deterrent to crime remain a dead letter to villains with money.

ATHLETIC WORLD

BY OUR SPORTING EDITOR.

Toronto Won From Newark.

Toronto, August 31.—The Toronto bench heard on Saturday that Ed. Barrow was coming to take Harley's place as manager, and in view of this they played like fiends and won a double-header from Newark. Moulan shut out the visitors in the first, 2 to 0. Long won the second by one run.

STRONG PROTEST ENTERED BY C.P.R.

(Continued from Page One.)

"Quebec, Ontario, Manitoba, the Territories, and British Columbia."

9. Your Petitioners leave referred to the preamble of the act and to the statements made by different members of the Government, for the purpose of showing clearly that the object and intention of the Government in pledging the country's credit and in expending an enormous amount of money in connection with this enterprise, was for the purpose of opening up new territory, available for settlement, both in the Eastern Provinces and in the West, and to afford transportation facilities for such territory so opened up.

PLANS OF COMPANY.

10. That the Grand Trunk Pacific Railway Company have filed plans for the location of their line of railway from Portage la Prairie west, a distance of some 250 miles; that the location is not in accordance with the act respecting the construction of the National Transcontinental Railway, for the reason that it does not open up new territory available for settlement, but runs through territory already served by existing lines. For some three hundred miles west of Winnipeg it is simply designed as a competitor to existing lines, and in no part of that distance does the location of the Grand Trunk Pacific show that they are more than six miles from existing lines.

Your petitioners contend that if the application of the Grand Trunk Pacific is approved, it will be directly contrary to the spirit and letter of the act respecting the construction of a national transcontinental railway, and directly contrary to the principle laid down and revealed from time to time by the Right Honorable the Prime Minister, and the different members of his government, that the line must be located, except at terminal points, at a distance of at least thirty miles from any existing railways, or from any railways that have been located.

NO OPPOSITION TO CHARTER.

Your petitioners, replying upon the preamble of the act, respecting the construction of the National Transcontinental Railway, and upon the clause in the Grand Trunk Pacific Act, that having regard to the principle that except for the purpose of reaching proposed common points or for other reasons, such location should be, as far as practicable, generally not less than thirty miles from any other main line of railway, running in the same direction, already constructed, or located; and also relying upon the statements made by the Prime Minister and the different members of the Government, that the object of the construction of the Grand Trunk Pacific was to open up new territory, did not in any way oppose the granting of the charter to the Grand Trunk Pacific or the acts confirming the agreements with the Grand Trunk Pacific.

However, when it is now proposed that from Portage la Prairie west, for a distance of two hundred and fifty miles, the Grand Trunk Pacific line should be located about midway between two existing lines of railway, in a territory where no farmer is now more than twenty miles from a railway, and where the average distance is very much less than twelve miles, and where the construction of this line will not, throughout that distance, encourage the cultivation of any additional land, but that said road will merely compete for the tonnage now carried by the existing lines.

A GROSS INJUSTICE.

Your petitioners feel that a gross injustice will be done to the existing lines if this location is approved of and that the location of the line in this territory is directly contrary to the preamble of the act, respecting the construction of the National Transcontinental Railway, in that the construction of the line on this location would not open up new territory for settlement, but, on the contrary, would extend through a country already amply provided with railway facilities.

Your petitioners desire to point out that the Grand Trunk Pacific Railway Company, in filing their plans and applications for the location of their lines, for two hundred and fifty miles west of Portage la Prairie, have entirely ignored the object of the legislation providing assistance to them, and have ignored the principles as laid down in their act of incorporation, and also by the Right Honorable the Prime Minister of Canada, in regard to the thirty-mile limit, and are endeavoring to obtain approval of the location of their line west of Winnipeg through a well settled, well served district, and within a distance of three to twelve miles from existing railway lines, built largely with private capital.

Your petitioners see no reason on the part of the existing railway lines for opposing the construction of the Grand Trunk Pacific Railway, if said railway is located and constructed according to the spirit of the act, and the location is according to the principle laid down in their act of incorporation, and by the Prime Minister and the different members of his Government.

NEW LOCATION HURTFUL.

Your petitioners desire to point out that if the location of the Grand Trunk Pacific Railway west of Winnipeg, as applied for, is approved, then, the bonds of the company having been guaranteed, both as to principal and interest, by the Dominion, the credit of Canada will be utilized in the construction of a line through a part of the country already amply served by railways, and to the detriment of existing railways, and that such location would be in direct violation of the principle laid down by Parliament in relation thereto, as herein shown.

Wherefore your petitioners humbly pray that your Excellency may be pleased to refuse the application of the Grand Trunk Pacific Railway Co. now made, for the location of their line west of Winnipeg. And, as in duty bound, your petitioners will ever pray.

Dated at Montreal, this 18th day of August, 1905.

THE CANADIAN PACIFIC RAILWAY COMPANY.
Thomas G. Shaughnessy, President.
C. Drinkwater, Secretary.

Ayer's Hair Vigor. Does four things and does them well. Restores color to gray hair, stops falling hair, makes the hair grow, cures dandruff. Isn't this enough for one preparation? J. C. Ayer Co., Lowell, Mass.

NAVIGATION

RICE LAKE AND THE OTONABEE WATERS

Calcutt's Line of Steamers

Time Table for June, July and August, 1905

Commencing Thursday, June 1st the STR. CITY OF PETERBOROUGH will run as follows:

MONDAYS, TUESDAYS, WEDNESDAYS and FRIDAYS to Jubilee, Gore's Landing, Harwood (or Bay) and Idyl Wyld. On the above days the steamer will leave the Peterborough wharf at 9 a.m.; returning, will arrive in Peterborough at 8 p.m.

THURSDAY and SATURDAY AFTERNOONS the "City of Peterborough will leave the Peterborough wharf a 1.30 p.m. for Jubilee and Gore's Landing; returning will arrive in Peterborough at 9 p.m.

STR. WATER LILY

will leave Harwood every Saturday morning at 6.30 a.m., calling at Gore's Landing and Jubilee, and all points on the river; returning, will leave Peterborough at 3.45 p.m.

Parties desiring to spend Sunday at Idyl Wyld or intermediate points may leave town on afternoon boat on Saturday and return Monday at 9 a.m. Special arrangements will, however, have to be made in advance at Mr. Calcutt's office for return steamer.

FARE to Jubilee, Gore's Landing, Harwood and Idyl Wyld, 50c., good to return same day only. Children half fare. Books of Family Tickets $5.00 for points between Peterborough and Idyl Wyld.

Special arrangements made for Sunday School and other excursion parties on application.

H. CALCUTT,
Telephone 98. Peterborough.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendment thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clause [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 30 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive at the Immigration Offices in Winnipeg, or at any Dominion Lands Office in Manitoba or the North-west Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba; or any of the Dominion Lands Agents in Manitoba or the North-west Territories.

W. W. CORY,
Deputy Minister of the Interior

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

How to Visit Colorado

Go first to Denver. It is the State capital, as well as the largest, wealthiest and most metropolitan city between the Missouri River and the Pacific Coast. The city itself is very interesting, and from it start practically all the trains over the various roads into the mountains.

Many of the most enjoyable one-day trips in Colorado begin and end at Denver. The cost of these little journeys is not great.

After you have familiarized yourself with Denver and its surroundings will be soon enough to decide where to go for the rest of your visit. The question must be considered from several standpoints—altitude, hotel accommodations, accessibility, amusements, etc.

Our Colorado literature will help you in deciding where to go and what to do. Sent free for the asking.

BLOOD DISEASES CURED

Drs. K. & K. Established 25 Years.

NO NAMES USED WITHOUT WRITTEN CONSENT.

Before Treatment.

After Treatment.

He was surprised at how the sores healed—"I took your New Method Treatment for a serious blood disease with which I had been afflicted for twelve years. I had consulted a score of physicians, taken all kinds of blood medicine, visited Hot Springs and other mineral water resorts, but only got temporary relief. They would help me for a time, but after discontinuing the medicines the symptoms would break out again—running sores, blotches, rheumatic pains, looseness of the hair, swellings of the glands, pains of the hands scaling, itchiness of the skin, dyspeptic stomach, etc. I had given up in despair when a friend advised me to consult you, as you had cured him of a similar disease 8 years ago. I had no hope, but took his advice. In three weeks time the sores commenced to heal up and I became encouraged. I continued the New Method Treatment for four months and at the end of that time every symptom had disappeared. I was cured 12 years ago and no signs of any disease since. My boy, three years old is sound and healthy. I certainly can recommend your treatment with all my heart. You can refer any person to me privately, but you can use this testimonial as you wish.

W. H. S.

We treat Nervous Debility, Varicocele, Stricture, Vital Weakness, Blood and Skin diseases, Urinary, Bladder and Kidney complaints of men and women.

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Are you any weakness? Our New Method Treatment will cure you. What it has done for others it will do for you. CONSULTATION FREE. No matter who has treated you, write for an honest opinion Free of Charge. Charges reasonable. BOOKS FREE—"The Golden Monitor" (illustrated), on Diseases of Men. Sealed Book on "Diseases of Women" Free.

NO NAMES USED WITHOUT WRITTEN CONSENT. Everything confidential. Question list and cost of treatment FREE.

The Glenara Gold Mining Co.

Capitalization, 1,500,000 Shares — Stock Fully Paid and Non-Assessable

Par Value, $1.00 Per Share. — Treasury Stock, 700,000 Shares.

This Company was organized in March, 1905, under the laws of Arizona, with a capital of 1,500,000 shares. The par value of these shares is $1.00 each. They are full paid and forever non-assessable. The Company owns approximately seventy-five acres of territory in the Goldfield district. By reference to the map you will note that every acre is within the producing area, and with the systematic development this large acreage is to receive, there is no doubt that the stockholders will very shortly see the Company on a producing basis.

We desire to say right here that this Company is organized for legitimate mining, and not stock jobbing purposes, and among the directors are some of the best known mining men in the West. It is their one desire to make the GLENARA GOLD MINING COMPANY a great success at the earliest possible moment.

It is for the purpose of raising funds to vigorously develop the Company's holdings that some Treasury stock is now offered for public subscription. Out of a capitalization of 1,500,000 shares, 700,000 shares have been placed in the treasury. This treasury reserve insures the company a large working fund, if needed. It is the belief of the management, however, that it will not be necessary to dispose of over 50,000 shares of the treasury stock. The present outlook is such that the management believe that the mine will be on a paying basis before many weeks have passed.

The Property of The Glenara Gold Mining Company Consists of the Following:

The Glenara Group consists of four claims located in the Goldfield mining district of Nye County, Nevada. These claims are known as the Kentucky Bell, Mabel M., Lone Jack and June Bug, covering about seventy-five acres. This group of claims is located on a system of ledges over a mile and a half in length and about half a mile wide. These ledges are the same as those traversing the Kendall, Tonopah Club, Vernal, Quartzite, Black Butte, New York, Brooklyn, Jumbo, Vernal, Penn and Federal.

The surface indications at the time of location were of the very best, however, good float being found upon the ground and good panhings are obtainable, all of which indicate that the property can be developed into a paying proposition. The ground has been thoroughly prospected and the sinking of the shaft begun on the Kentucky Bell claim. There is a force of men sinking a shaft as rapidly as possible. Good ore has been encountered running from $8 to $15 per ton, increasing in value with depth, and it is safe to say that a strike may be looked for any day.

Taken as a whole, the investment offered by the Glenara Gold Mining Company is equal to any prospective company in the district. The claims are exceptionally well located, covering a large area; the management is conservative and honest, and is working hard for the success of the company.

The proposition will stand the very closest investigation, and, in fact, an investigation by prospective investors WILL MEAN AN INVESTMENT. WE COURT INVESTIGATION.

The allotment of stock is very small, and if you desire to become interested with this enterprise, it will be necessary for you to communicate with us at once.

The work on the property is being pushed to the utmost, and any day may bring news of a strike which will advance the price of the stock.

For prospectus and full particulars, address

R. H. B. WARBURTON, Fiscal Agent,

Office, 522 McPhee Building. DENVER, COLORADO

APPEARANCE

Is such an important feature on the table. It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table.

St. Lawrence Extra Granulated Sugar

Is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

THE BEST YET !!!

We have given our clients some good things in mining stocks, during the past two years, but we believe one of the best propositions we have ever handled is

THE GRAND TRUNK PACIFIC TERMINALS

Strained Relations Between the Government and the Company

THE WINNIPEG STATIONS

The Company are Disposed to Do What They Please and Union Station is Off

Montreal, August 28.—It is said in Winnipeg that strained relations exist between the Government and Grand Trunk Pacific Railway over location of Winnipeg terminals. While it was practically agreed first that the Government should select terminals, the Grand Trunk Pacific Company has become somewhat unsettled of late, and proposes to have terminals located where it desires.

In the meantime the Canadian Northern Railway, which have been waiting on the Government and Grand Trunk Pacific to arrive at some decision which may result in having a union depot, is tied up and while its plans are practically ready, it cannot proceed with construction.

It is said that the Government is held under obligation by some of its strong supporters to place terminals in one location, while the railway company has its own ends to serve by placing them in another.

The Transcontinental Railway Commission will take up this problem at its approaching meeting.

Mr. E. W. Morse, of the Grand Trunk Pacific, and Mr. William MacKenzie, of the Canadian Northern, are now on their way to city, so that it is likely an agreement will be arrived at when they meet.

KOMURA MAY COME

Expected to Visit Canada if Peace Results From Conference

Ottawa, Aug. 29.—Consul-General T. Nosse, thinks that if the conference at Portsmouth results in peace, Baron Komura, the Japanese envoy, who has been invited to Canada, will accept the invitation. If there should be no peace, he thinks the Baron will return to Japan immediately.

3,100 Harvesters go West

Winnipeg, August 28.—To date, the C. P. R. officials have ticketed 3,100 eastern harvesters from Winnipeg to western points.

The Outing Magazine for September.

Hundreds of hitherto unknown incidents of the life of John Paul Jones have been dug up from the deposit of over a hundred years, and by far the most important and vitally interesting—is forging below the surface and showing the hero as he was, not as history makes him—are disclosed in "John Paul Jones—the man," by Lynn Tow Sprague.

"The Ballads of Roughing It," by Robert Dunne shows the diversity of the human intellect when it comes to camping out. One tenderfoot is imbued with the idea that it is impossible to pack along too large an outfit; another that it is rank stupidity to carry more than a frying pan and a tooth brush; while many others think it a terrible hardship to enter the wilds at all and spend their summer in a gaudily ornamental shack, reading Marie Corelli and drinking gin-fizzes.

In 1740 "The Outlaw Hunters of Russia" flocked over to Western America and began a wild scramble for wealth that is only equaled by the early Spaniards. The natives of the Aleutian Islands were robbed; their homes were destroyed, and thousands were done to death by those bands of marauders. How fearful vengeance was finally wrecked is told most vividly by A. C. Laut.

The fourth installment of "The Romance of Red Fox," by Chas. G. D. Roberts, is even better than the three that preceded it. The hero is finally captured by the ingenious Boy and sold to a member of a Hunt Club. Then comes a desperate race for life with the whole pack at his heels, but contrary to the usual run of animal stories Red Fox eludes his enemies by a brilliant trick and regains the beloved wilderness. Here the story closes on one of the best serials of the summer.

"The Last War For the Cattle Range," by Arthur Chapman, involves some of the most dramatic pages of the frontier history—when the "Rustlers" and the great cattle owners contended for mastery.

"What the Plant Bureau is Doing for the Farmer," by Rene Bache, is a story of untold research and experiment. One of the most difficult feats an amateur could undertake is to train his own dog, and his mistakes are infinite. James H. Tuckerman gives some sound advice that all dog owners would do well to follow. "Where Two Great Rivers Meet" is a splendidly illustrated description of life at the mouth of the Ohio. "Pheasant Shooting in China" tells of the cost and pleasure of hunting that toothsome bird; "Toll From the Salmon Host" is full of the wild thrill of salmon fishing in Puget Sound, and "The Ride of His Life," a runaway motorboat story, by Sewell Ford, gives a touch of real humor to the Magazine.

"When the Railroad Came" depicts the pioneer life of our grandfathers before the locomotive put in an appearance. The Erie line was begun at Deposit, N.Y.,—where, by the way, the Outing Magazine has its printing presses,—and at that time only about fifty miles of track were laid in America. Then "The View-Point" by Caspar Whitney and the "School and College World" by Ralph D. Paine, together with the timely and practical articles on "Everyday Woodcraft For Everyday People," "The Most Killing Lures for Bass and Late Season Trout," "The Lawn Tennis Twist Service Fallacy," and "Automobile Emergencies" go to make a complete, beautiful and helpful number.

BRITAIN'S NATIONAL SAFETY

Wheat Should be Stored in England Says Mr Yerburgh, M P.

London, Aug. 29.—"What the country requires for national safety is that some arrangement should be arrived at by which the American and Canadian farmers should store their wheat here instead of storing it on the other side, and let us have small quantities as we want it."

In these words Mr. Yerburgh, M. P., refers to the report of the Royal Commission which has been investigating the question of the nation's food supply in war time. It was to Mr. Yerburgh's initiation that the appointment of the commission was chiefly due.

"It has often been said that British wheat being naturally damp will not keep for any length of time, but I disproved this some time ago by buying British wheat and sending it to Berlin, where it was dried by a special process," said Mr. Yerburgh. "That wheat kept excellently for two years and made first rate flour. I have frequently advocated the use of this drying process among farmers in England, but without avail. It is obvious that the country must depend largely on America and Canada for wheat, and I cannot see the advantage of an acreage bounty for wheat-raising at home. The soil might not be suitable. It would be far better for the Government to have large stores of wheat under its control, and to know just where to lay hands on it in case of an emergency."

ADVERTISE IN THE TIMES.

THE

Montgomery Mountain Mining Company

BULLFROG

promise to be one of the greatest producers yet discovered in the TONOPAH, GOLDFIELD BULLFROG DISTRICT.

This district records the greatest discovery of Gold that has ever been made in the history of mining

This Company is a legitimate Mining enterprise, managed by honest, capable mining men.

The property is on the Montgomery Mountain, adjoining the MONTGOMERY SHOSHONE mine, which has only been operated ten weeks and which is now

Shipping Ore that runs TWENTY-THREE HUNDRED DOLLARS to the Ton.

The Capital of the Company is $1,250,000, divided into 1,250,000 shares of a par value of $1.00 each fully paid and non-assessable, 300,000 shares of which are in the Treasury.

The Officers and Directors are

President and Treasurer, D. H. PERRY, Salt Lake City, formerly President of the Salt Lake Stock and Mining Exchange.

Vice-President, Hon. JOHN SPARKS, Governor of Nevada.

Directors: D. E. FURLEY, General Passenger Agent, Ogden Short Line R. R., Salt Lake City; Hon. JOHN SPARKS, Governor of Nevada; E. E. EDWARDS, of the firm of Vermilyea, Edwards & Stanley, Attorneys-at-Law, Goldfield, Nevada.

The Company refers by permission to

McCormick & Co, Bankers, Salt Lake City; John S. Cook & Co., Goldfield, Nevada; Ormsby County Bank Carson City, Goldfield & Tonopah, Nevada.

We believe this property and its stock will have an advance that will be as sensational as was the Original Tonopah immediately after its development.

We can supply orders for a limited number of shares at 75 cents per share. This price expires July 10th, after which it will be raised. For information or stock apply to Thos. Patterson & Co., Fiscal Agents, Peterborough, or,

D. D. PEERY COMPANY, Brokers, Goldfield, Nevada

NICKEL AND COPPER

A Few Thousand Treasury Shares

Only are left to be sold before all offerings are WITHDRAWN FOR FIFTEEN MONTHS' TIME.

You can buy the few remaining shares now at $1.00, but fifteen months hence you will probably pay from $5.00 to $20.00 per share.

THERE IS NOTHING EXTRAORDINARY

In shares advancing as above stated in mining propositions, for it is an old story of phenomenal advances in mining shares, Granite Mountain going from ten cents to $75 per share, Calumet & Hecla from $1.00 to $900.00, and so on down the list.

CONSIDER FOR A MOMENT

What this company offers—It controls to-day an actual territory of nearly **Three thousand acres of land known to be immensely rich in nickel and copper ores, all in a district known and proven to be sixth among the greatest copper districts in the world.** This company will control at least 6 thousand acres more. In all nearly five thousand acres, which will not be mined out in two hundred years

WE STAND READY TO PROVE

That this company offers to day the most meritorious mining proposition presented in ten years' time.

Write or call for full particulars. All shares registered by International Trust Company, Boston.

International Nickel and Copper Co., Ltd., Suite 93, Journal Building, Boston, Mass.

Bright's Disease

A Cure of Marvelous Merit That Gives Instant Effect Found at Last.

No malady is more stealthy or fatal than Bright's Disease.

Every year it claims more victims than famine and war combined.

In the beginning it is marked by puffiness under the eyes, yellow, sallow skin and pain in the back. The urine becomes scanty, often contains sediment, causes great irritation and pain.

Reader, if you are troubled with these symptoms, get Dr. Hamilton's Pills at once. This vitalizing medicine will fast restore brilliance to your dull anxious eyes. Exhaustion will be replaced by surplus vigor. Your back pains and urinary disorders will cease.

Renewed life is put into the kidneys, and Bright's Disease passes away forever.

Permanent Cure in Every Case.

"I was stricken with Bright's disease two years ago," writes Mrs. G. K. Matthewson, Middletown. "I grew worse. Swan was almost down and out, and the doctors gave me up.

"After using Dr. Hamilton's Pills one week I began to mend.

"Dr. Hamilton's Pills have made a well woman of me, and I know others who have been cured also by this medicine."

Why suffer any longer? Dr. Hamilton's Pills will restore you to robust good health. No medicine in the world so efficient for diabetes, Bright's Disease and affection of the kidneys, liver and bladder. Price 25c. per box, or five boxes for $1, at all dealers, or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A. and Kingston, Ont.

Canadian National Exhibition.

will be held in Toronto, August 28th to Sept. 29th. See Grand Trunk advertisement for special rates.

Do Not Miss

The Great Canadian National Exhibition at Toronto this year. Specially low rates via Grand Trunk.

Bright Boy Wanted

To learn bookbinding. This is one of the best trades a young man can learn. Apply at Times office.

Bindery Girls Wanted

We require two good, steady girls, to learn bookbinding. Apply at Times Bookstore without delay.

$10--Atlantic City and Return--$10

The last $10 Excursion this season via Lehigh Valley Railroad, Friday, September 1st. Stop over allowed at Philadelphia. Tickets good 15 days. And only $10 the round trip from Suspension Bridge, Niagara Falls. For tickets and full particulars call on or address Robt. S. Lewis, Passenger Agent, Lehigh Valley Railroad, 10 King Street East, Toronto.

Settlers Low Rates West

The Chicago and North Western Railway will sell low one way second class settlers tickets daily, from September 15th to October 31st, 1905, to points in Utah, Montana, Nevada, Idaho, Oregon, Washington, California and British Columbia. Rate from Toronto to Vancouver, Victoria, New Westminster, B.C., Seattle, Wash., or Portland, Ore., $42.25; to San Francisco or Los Angeles, Cal., $41.00. Correspondingly low rates from all points in Canada. Choice of routes. Best of service. For full particulars and folders write to B. H. Bennett, General Agent, 2 East King Street, Toronto, Ont.

Peterborough Business College

Is Larger This Year Than Ever.

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 80 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER.

If you cannot attend our School write for particulars regarding our correspondence course.

WM. PRINGLE.

Local Incidents
BY THE TIMES MAN ON THE STREET.

—Total eclipse of the sun takes place today, visible on Southern Manitoba.

—The Chief of Police has a pocket-book which was picked up on George street, near the C.P.R. station, and wants an owner.

—The financial district meeting of the Methodist Church will take place at Lakefield on the morning of Sept. 12th. In the afternoon a Sunday School convention will be held.

—Before starting for a visit, come in and look over our 25-cent bargain counter, and pick out a dainty souvenir to take your friend. Times Bookstore.

—Come to the Times Bookstore for the latest in stationery. Big shipment from New York just in. Prices only 25 and 30 cents per box for the best.

—The Stony Lake Cottagers' Association has offered a reward of $20 for conviction of house-breakers or thieves. This will probably result in more summer residents being left alone during the winter months.

—A misunderstanding has arisen in Otonabee between the council and several land owners over the building of the new Beaver meadow ditch. On Monday Mr. Fife, the reeve, and Mr. Drummond, the clerk, together with several who are helping to pay for the work, went over the ground and inspected it. It is expected that differences will shortly be adjusted.

C. P. R. Train Service

The train service by the Canadian Pacific Railway to and from Toronto, during the Exhibition, will be as follows: Going to Toronto, 5.12 a.m. special August 29th to September 12th, except Sunday, 5.42 a.m. and the local at 8 o'clock. Returning, August 28th to September 9th, Sunday excepted, the local train will leave Toronto at 6 o'clock, instead of 5 o'clock, 10 p.m. train and the special at 10.30 p.m.

A CATHEDRAL WEDDING

Miss Julia May Butler Becomes the Bride of Mr. H. Kellett

Yesterday morning, at the early hour of six, a happy gathering of friends of both bride and groom gathered in St. Peter's Cathedral to witness the solemn but interesting ceremony of the nuptials of Mr. Henry Kellett, of Messrs. Richard Hall & Son's, and Miss Julia May Butler.

The ceremony, which was very prettily arranged, was celebrated by Rev. Father P. Kelly. The bride is a daughter of Mr. Pierce Butler. The bridesmaid was Miss Margaret Herr. While Mr. James Sox supported the groom. The bride is a native of Asgood, and the numerous and costly presents received by the bride testified to the esteem in which she is held by a large circle of friends.

BUSINESS CHANGE

Cubitt & Porter to Handle and Rent Guns and Rifles

Mr. F. C. Cubitt, the sporting goods and picture frame merchant at 206 Charlotte street, has, owing to extended volume of business, taken into partnership a gentleman well known in the city, Mr. W. F. Porter. The new firm of Cubitt & Porter will extend the scope of the past successful business by adding to their present stock a complete line of sheet music, musical instruments, guns, rifles, ammunitions, etc.

The firm will inaugurate a new departure in such branches of business by renting out guns and rifles to sportsmen at reasonable rates. These young men are both hustlers and and should get a share of public patronage.

Gipsy Dies at Jackson Park

At 11 o'clock Sunday morning the band of Gipsies camped near Jackson Park, had the number of their company lessened by one member, in the person of William Watson, who died there of pneumonia. The deceased was 20 years of age and unmarried. The remains were taken to Montreal for interment.

C. P. R. Officials Here

Yesterday morning a party of C.P.R. officials, who arrived in the city on Monday night inspected the gates, switches, station buildings and yards. On the whole everything was found to be in satisfactory condition and working order. With the party were Mr. Timmerman, General Superintendent, and Mr. A. McAuley, road master. A private car was in waiting.

CAUSE OF HAY FEVER

Hyomei the Only Cure—Gives Change of Climate in Your Own Home.

Fifty years ago hay fever had not been named, but undoubtedly people suffered then as now with sneezing, watery eyes, excessive running at the nose.

The direct causes appear to be heat dust, and the pollen of flowers, and the only treatment that physicians recommended prior to the discovery of Hyomei, was a change of climate.

Now by using Hyomei you can save an expensive trip to the mountains, and escape weeks of suffering. This remarkable treatment kills the germs of the disease and soothes and heals the irritated mucous membrane. It really gives you in your own home a change of climate, and hay fever sufferers know from past experience that this is the only thing that has afforded them relief. By breathing Hyomei a few times daily you can save the expense of a trip to the mountains and avoid the dangerous hay fever.

The complete Hyomei outfit costs but $1, extra bottles, 50 cents, and consists of a neat pocket inhaler, through which Hyomei is breathed and which will last a life-time, a medicine dropper and a bottle of Hyomei. Wm. Madill offers to refund the money if Hyomei does not do all that is claimed for it.

Excavating for Elevator

Excavation for the elevators being constructed by the Peterboro Cereal Co., on Simcoe street, just east of their present large mills is being hastened forward rapidly. The gravel is being removed by horses and scrapers, and a hole now somewhat three feet deeper than the concrete foundations of the large mill has already been dug. The earth taken from this excavation is being placed in front of the north or Simcoe St. platform of the mill. This will make a better approach to the mill by raising the street grade.

Best Ice Season on Record

Now that the local icemen's season is about over, and the harvest of good big dollars is about to be gleaned, the smiles that continued hot weather have caused to ripple over their faces all summer are becoming almost alarming in extent. The two large ice men, Messrs. Allin and Rebill report that last summer's sales were better than ever before, more ice was sold, the system of delivery, from continuous experience, was more satisfactory, and although prices were somewhat higher, the demand for ice was more general. Mr. Rebill yesterday told a Times reporter that his sales last summer exceeded any previous season by over 15 per cent. He also says that if arrangements can be made for a cheaper system of delivery, that the price of ice will be reduced so that even the smaller class of homes will be able to procure ice regularly.

Street Car Runs Amuck

On Monday evening as car No. 17 was on its eastbound trip from the Canadian General Electric Works, shortly after six o'clock, it collided with the safety gates guarding the G.T.R. crossing on Charlotte street. The long arms that guard the crossing were smashed away and the heavy castings were completely put out of business. As a result of the gates being candidates for the repair shop, yesterday this railway crossing was protected in the old-fashioned way, by a man armed with the usual red danger flag.

Mr. George Davidson, the night-watchman, had just gone on duty on duty when the accident occurred. This is the first mishap that has befallen the gates, and it is attributed to the slippery condition of the tracks. Mr. Sandy, the station agent, will have the gates repaired immediately.

A LIVELY ROCK

Two Local Sports Mistake a 16 pound Lunge for the Earth

Mr. J. Cottingham, wine clerk at the Commercial Hotel, is a fisherman who catches real live fish, and neither hauls in red herrings nor gets his grey with a "silver bait." Yesterday he and Mr. Shea jr., were taking a paddle down the Otonabee in search of water lillies and health when the two voyageurs decided to try for a fish. Just about Hall's Bridge they threw out the trolling line, and before hauling it two hundred yards, felt a tug that perceptibly checked the canoe. "Back her up, we've caught a rock," cried Mr. O'Shea. The two gentlemen not wanting to lose their tackle began to back water with their paddles, but suddenly a splash behind them, and the sight of what looked like a silver plated log, followed by a tug at the line which fairly out Mr. Cottingham's hands, showed the fishermen they had a fish and not terra firma on their hooks. After a good hill hour's fight the struggling fish was hauled alongside their canoe, and by a mighty heave landed in the craft by Mr. Cottingham. Jack says he thought it was a shark they were hauling in, when it towed the two fishermen's boat up stream several yards. The muskinonge weighed 16 pounds three ounces, three hours after it was caught, and was a beautiful fish of the build that fights to the last.

A Safe Investment

It is not generally known throughout Canada that a large amount of dividends and money made in Goldfield, Tonopah and Bull Frog districts of Nevada has been paid to Canadians. They were some of the first to get in on the ground floor of the good investments and by their far-sightedness picked up many of the stocks when put on the market at a low price, and as the mines became producers these stocks quickly advanced. Among those who have made great fortunes in southern Nevada are Malcom McDonald and John Y. McKane, both Canadians, who came west from Toronto, landing in Tonopah, Nevada, when the first gold excitement was on. These men with their many Canadian friends are now interested in no less than 100 of the very best mines in Nevada. Both are rated at over a million dollars each in actual cash, and the present market value of their stocks would make them worth double this sum. Both men came to Nevada poor and looking for work, and now have money to burn. They advised their friends to invest in good stocks when these stocks were low and the mines mere prospects, and all have made money, and are doing so to-day. The Goldfield Security Co. Company, through its agent, Mr. W. K. Hall, of Peterboro, is offering an excellent stock to investors in the Financier's Security Gold Mining Co., at five cents per share, for a short time only. Their Gold Run claim adjoins the Ridge lease where rich ore is being backed and shipped every day from the workings of the property, and the same ledge is plainly shown on the Security Company's ground, and this company will begin work at once on their Gold Run claim and propose to sink a shaft to cut the vein and the cross cut and begin stoping out ore. The Semi-Monthly market letter of the Goldfield Securities Co., is the best publication of its kind in the gold country to obtain correct information about stocks and mining properties. An information bureau is a special feature and authentic reports of mines and stocks furnished to investors free of all costs. A copy will be mailed free to any address. Mr. W. K. Hall is fiscal agent for the above companies in Peterboro.

"WHIZ IT WALK A MILE"

Is a laconic definition of a toboggan ride. It's quick work going down the slide, but it's a long climb back to the starting point. It is very much that way with health; it is quickly lost and slowly regained. When the first symptoms of failing health appear, proper care may prevent the descent to utter weakness and debility. Usually the complication of disorders known as general debility has its origin in a diseased condition of the stomach and other organs of digestion and nutrition. These diseases are perfectly cured by the use of Dr. Pierce's Golden Medical Discovery. It cures through the stomach disorders which have their origin in a diseased condition of the stomach.

There is no alcohol in the "Discovery," neither opium, cocaine nor other narcotic.

"I was all run down; had no strength; had sharp darting pains all through me; head and back ache every day," writes Mrs. Frank Caswell, of Salamanca, N.Y. "I was also troubled with a distressed feeling in the stomach and pain in front of the hip bones. I had a severe cough and it nearly killed me to draw a long breath. I was so sore through my lungs.

"I wrote to Dr. Pierce, telling my symptoms as near as I could. He sent me a very kind letter, advising me to try his medicines, which I did, and before I had taken them a week I was decidedly better. I took two bottles of the 'Golden Medical Discovery' and two of the 'Favorite Prescription,' and am sure I never felt better in my life than when I quit taking them."

Dr. Pierce's Pleasant Pellets are a cure for biliousness.

SAVINGS DEPARTMENT

Interest on deposits of $1.00 and upwards will be allowed at the rate of 3 per cent. per annum, credited half yearly.

The Bank of Ottawa
ASSETS OVER $23,000,000.00

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL. XXXIII, NO. 204. PETERBORO, ONTARIO, THURSDAY, AUGUST 31, 1905. PRICE TWO CENTS.

The Navies of the Three Great Powers

England, France and United States controls the World.

London, August 29. — The United States office of Naval Intelligence has revised its figures of the navies of the world to June 1 of this year, including all changes to that date caused by the Russo-Japanese War, by total completed tonnage of each navy the record is -

	Tons.
Great Britain	1,595,871
France	603,721
Germany	441,249
United States	316,523
Italy	254,510
Japan	252,661
Russia	224,237

By battleships of the first class the ranking is:

	Number.	Tonnage.
Great Britain	51	682,200
France	19	212,589
Germany	16	178,575
Italy	13	162,814
United States	12	137,329
Russia	7	82,809
Japan	5	70,516

By armored cruisers the order is:

Great Britain	29	282,100
France	18	145,805
Japan	8	72,738
Russia	8	31,283
Italy	5	31,891
Germany	4	39,047
United States	2	17,415

By cruisers above 6,000 tons:

Great Britain	21	201,950
France	4	31,513
Russia	4	25,911
United States	2	14,750

By cruisers of 3,000 to 6,000 tons:

Great Britain	50	221,460
France	18	74,378
United States	16	58,279
Japan	11	42,596
Germany	9	46,749
Italy	5	17,490
Russia	3	12,593

By cruisers of 1,000 to 3,000 tons:

Great Britain	56	103,960
Germany	27	58,859
United States	21	29,407
Italy	12	26,216
Japan	11	21,276
Russia	7	8,760

By torpedo boats:

France	238	20,735
Germany	105	13,921
Italy	101	9,936
Great Britain	90	8,036
Russia	82	8,000
Japan	81	7,317
United States	27	4,230

By torpedo-boat destroyers:

Russia	83	10,000
Germany	37	12,600
France	41	9,250
Great Britain	23	44,565
Japan	22	7,326
United States	16	6,695
Italy	11	3,503

By submarines:

France	37	3,935
Russia	13	1,495
Japan	11	1,205
Great Britain	9	1,400
United States	8	913
Germany	1	120
Italy	1	107

By coast-defense vessels:

France	17	73,368
Germany	16	91,336
United States	12	47,415
Russia	7	43,301
Great Britain	6	49,900
Japan	5	29,527
Italy	1	3,913

A combination of the navies of Great Britain, France and the United States, leaving out the coast-defense vessels, would have the following strength:

	Number.	Tonnage.
Battleships, first class	82	1,032,118
Armored cruisers	49	444,900
Cruisers above 6,000 tons	27	247,853
Cruisers, 3,000 to 6,000 tons	84	354,117
Cruisers, 1,000 to 3,000 tons	95	196,236
Torpedo boats	355	33,001
Torpedo-boat destroyers	73	60,510
Submarines	54	6,248
Combined total strength	819	2,344,982

Such a combination could dictate the world's peace.

JAPAN GRANTS GENEROUS TERMS

Formal Work Remaining to be Finished at Portsmouth

FULL TERMS OF PEACE

All the World Rejoices at the Successful Issue of the Peace Conference

Russia, in the agreement reached at Portsmouth, has relinquished her rights in Manchuria, with the exception of the common right of all nations to the "open door" as affects commerce, and she concedes, besides, control of Korea by Japan. The Mikado's Government has withdrawn its demand for an indemnity for the cost of the war, for possession of interned Russian warships, and for the limiting of Russia's naval power in the east, and "splits the difference" as regards Sakhalin Island. Charges for the care of prisoners of war will be decided by arbitration." Appended are the original demands of the Japanese envoys and the agreements and compromises effected;

AGREED TO.

Article 1—Recognition of Japanese preponderance in Korea, with the right to preserve order and to give military and financial advice to the Emperor; but to maintain the policy of the "open door" and to observe the territorial integrity of Korea.

Article 2—Mutual evacuation of Manchuria.

Article 3—Obligation by Japan to restore Chinese sovereignty in Manchuria, including civil administration.

Article 4—Mutual obligations to respect in the future the territorial integrity and "administrative entity" of China and Manchuria, with equal opportunity "The open door" for the industry and commerce of all nations.

Article 5—Division of Sakhalin Island. Russia to retain the northern part of the island and Japan the southern; that is, revert to the conditions that prevailed before 1875.

Article 6—Russia to surrender its leases of the Liaotung peninsula, including Port Arthur, Dalny and the Blonde and Elliott Islands.

Article 7—Surrender to China of the railway from Harbin to Port Arthur and New Chwang, with the surrender of all privileges obtained under the concession of 1896.

Article 8—Limiting the Rothstein Ukhtomsky concession of 1896, under which the cut-off road through northern Manchuria was built to connect the Trans-Siberian and Usuri line, but providing for the ownership and operation of the road by the Chinese Eastern; and providing further, for substitution in the future of Chinese Imperial police for Russian railway guards.

Article 9—Remuneration for the cost of the war (indemnity). Abandoned by Japan, the cost of maintaining the prisoners of war to be arbitrated, which debt can be liquidated without loss of national honor or self-respect.

DEMAND WITHDRAWN.

Article 10—Russia to surrender its warships now interned at Tsingtau, Shanghai, Saigon and Manila.

Article 11—Limiting in the future the number of war vessels that Russia shall keep in the Pacific.

ACCEPTED.

Article 12—Special fishery rights to citizens of Japan in waters of the Russian littoral from Vladivostok to [illegible]

"NERVE" GETS THERE!

Local Citizen Outwits a Sharp Local Lawyer

There are three qualifications essential to success in business in this 20th century, steady plodding, luck and, what in the vernacular is entitled "nerve," and often the greatest of these is nerve.

Some two weeks ago a local merchant who had borrowed $6,000 from the client, and through the medium of, a local lawyer, and on which money he was paying six per cent. interest, found the time for repayment of the principal was due yesterday. He also found, to his dismay that he could not repay the amount by a considerable sum, so went to a friend of his on George street, and telling his tale of woe, asked the friend to help him out.

About ten days ago the friend assured the merchant, he had spoken to a capitalist, an acquaintance of his, and the man of thousands had promised to advance the money at five per cent. to enable the merchant to take up the original loan. Yesterday morning the merchant, previous to seeing the lawyer, to whom he owed the $6,000, due that day, saw the capitalist, preparatory to getting a cheque for the $6,000, and having a new mortgage made out. Alas and alack! the man of wealth had either changed his mind or invested his money elsewhere, and could not let the merchant have the sum required.

Nothing daunted the merchant, just before noon, called on the lawyer saying he would take up the mortgage before three o'clock that afternoon, and would pay it off in full with money that a friend had promised him. The lawyer scenting a possible renewal of the mortgage at six per cent. said, "If you wantto extend the time of the mortgage, I will let you have the money at the same old rate." "No thank you," replied the bluffer, "I can get all the coin I want at five per cent." The lawyer offered then to take 5 1-2 per cent. but the merchant, walking towards the door, replied "No sir! Not one cent more than five per cent. will I pay, and I shall arrange your mortgage to be paid off by two o'clock. Just as the merchant reached the door, the man of law calling him back said, "Well seeing it's you, old man, I will give you a three years' extension at five per cent." Nerve gets there sometimes.

Committed Suicide in Church.

Minneapolis, August 31.—At the close of Rev. W. B. Riley's address at the First Baptist church Sunday a man who is thought to be William Rowen, of Sublette, Ill., got up in a pew and fired a bullet through his heart, dying instantly. A cheque for $400 was found on his person. At the discharge of the revolver many women became greatly frightened.

COULDN'T STAND IT ANY LONGER

German Gives Himself up to Sheriff and Says He is a Murderer.

HE ASKS TO PAY PENALTY

The Story of His Crime Has Been Verified—Large Reward was offered.

Woodbury, N. J., August 31.—"I killed a man and want to pay the penalty," said a strange man as he stood in the office of Sheriff Jones, in this city, last night.

The sheriff looked upon the man in astonishment, believing him to be a maniac, but as the stranger was accompanied by John Rambo, a farmer, by whom he had been employed and who seemed to feel that his story was true, the official paid closer attention and gave credence too. The story was verified, and the conscience-stricken man will be held to await removal to Virginia, where the murder was committed last winter.

The self-confessed slayer is Carl Verbeke, a bright, ableboiled German, or about 21 years. He came to work for Rambo last February, and his work was entirely satisfactory.

At times, though he seemed to be suffering from attacks of deepest melancholy and sometimes in the night he would cry out and groan in greatest agony.

Yesterday the man went to his employer, and, with tears in his eyes, said: "Mr. Rambo, this thing has gone far enough, I am a murderer, and want to give myself up to the authorities. The man I killed has been before my eyes every minute since I committed the crime and I can't stand it any longer. I want you to take me to jail."

Verbeke's story is that on the night of January 19 last he had gotten into a quarrel over a small amount of money in a game of cards with one Joseph Gentry, in a barn at Gate City, Scott County, Virginia, and, felling his antagonist with a heavy club, was struck with horror to find that he had killed him. He fled at once, and made his way to New Jersey, and after a time secured employment on Rambo's farm, where he was known as "Pearl Barbie."

Several times, he said, he was on the point of giving himself up, but visions of the gallows always came to him, and he did not know which was the worst, to suffer from these visions or those of the man he had slain.

Rambo said Verbeke had been industrious and attentive to his duties, making a good employee, but that he had feared Rambo's manner to a small note, the amount of which he afterwards made good, and was retained on the farm. Sometime later a neighbor, to whose daughter the young German had become attentive, told Rambo that if he did not discharge the farm hand there would be trouble.

It has since developed that the man had been quite a favorite with a number of young women in the vicinity of Paulsboro, where the Rambo farm is located.

As soon as the story was completed Sheriff Jones wired the authorities of Gate City, and locked the man in a cell in the county jail, where he seemed to find great comfort. This morning the sheriff received a dispatch from Virginia stating that the man's story is entirely true, and that a large reward had been offered for his arrest, search for him having been kept up for months.

Action Being Taken

Board of Works Will at Once Lay Badly Needed Crossings

As noted in former issues of The Times, the Board of Works, some time ago passed a resolution to lay certain crossings on George street, but apparently their good intentions had passed into "innocuous desuetude," as nothing was since done in this direction. The Board however seems to now have awakened to a sense of the duty to their constituents, and report now that before many days have passed, men will be tearing up the old block crossings. The new crossings will be granolithic and will be five and six feet wide. Those which will be done at present will be the crossings running north and south on George street at Brock, Hunter, Simcoe and Charlotte streets, and these will be six feet wide, while the crossings at the corner of Water and Hunter streets, will be five feet wide.

This is a commendable action on the part of our city fathers, as the present crossings are a disgrace to the city and a temptation to the use of profanity.

Remarkable Case of Catalepsy.

New York, August 31. — Medical scientists throughout the country have had their attention directed to a remarkable case of catalepsy in Yonkers. Charles Kane, six years old, has been in an unbroken trance like sleep for more than four months, and it is probable specialists in nervous diseases will be called in to investigate.

Three Died of Poisoning.

Boston, August 31.—Three members of the same family died at Peddock's Island, Boston harbor, on Sunday, of ptomine poisoning. The dead are: Antonia Gomes, 67 years of age, of East Cambridge; his son-in-law, Joseph Oliver, 38 years of age, and the latter's son, Joseph Oliver, jr., about three years of age.

CROWN TAKES ACTION

Chas. Gow Arrested on Charge of Manslaughter

At last the wheels of Justice are grinding, perhaps slowly, but towards the certain completion of redeeming this county from an otherwise inevitable name of lawlessness.

Much comment has been made at the lax way in which Chas. Gow, the self-confessed firer of several shots at the Hill house, the night, the young boy was killed, has been up till yesterday allowed to go where he chose.

Yesterday however, following on his very properly accomplished arrest, Gow, who is charged with manslaughter in connection with the Dummer tragedy, was arranged before County Police Magistrate Edmison for a preminary hearing.

The prisoner, who was not represented by counsel, was not asked to plead, but was remanded until Wednesday, Sept. 6th, when he will have a hearing in Norwood.

Until then Gow will remain in custody at the common jail. Bail is likely to be applied for.

As noted in yesterday's issue, on Tuesday night, Acting Deputy Attorney-General A. M. Dymond, of Toronto, wired Crown Attorney R. E. Wood to prosecute Charles Gow, the leading actor of the Thomas Edward Hill tragedy.

Mr. Wood immediately wired Chief of Police de la Ronde of Ottawa to place Gow under arrest. A prompt reply stated that Gow had already left the Capital, where he was attending the D.R.A. meet, and was on his way back to Peterboro.

County Constable Archie Moore was instructed to meet the 5.12 train from Ottawa, and he met Gow who was immediately arrested for manslaughter on a warrant issued before Magistrate Edmison.

Gow took his seat quite coolly but as the charge was made out against him he became very attentive and seemed to realize the serious position in which he is placed.

He was dressed neatly in a black suit with turn down collar and four-in-hand tie. He was not asked to plead.

The prisoner has communicated with his friends towards trying to obtain bail.

Methodists to Meet

Peterboro District Methodists to Meet in Lakefield Sept. 12th.

Lakefield is to have an important convention, Tuesday, Sept. 12th, when the annual financial meeting of the Peterboro district of the Methodist church will meet in Lakefield Methodist church, Rev. T. W. Leggett, pastor.

A Sunday school convention will be held in the afternoon.

Rev. W. J. Jolliffe of Charlotte St. Methodist church, is the chairman of the district and Rev. J. G. Lewis, pastor of Mark street church, is the secretary.

Following is the program for the Sunday school convention:

AFTERNOON SESSION.

2 p.m.—Address on "Decision Day," by Rev. M. E. Sexsmith, B.A., LL.B.

2.20—Discussion.

3.00—Address, "The Pastor in Relation to S. S. Work," by Rev. Geo. Nickle.

3.20—Discussion.

EVENING SESSION.

7.30—Open parliament in "The qualifications and duties of superintendent and of teachers," conducted by Rev. G. R. Clare.

8.40—Address, "A Force in Mission Work," by Rev. W. J. Crothers, M.A., D.D.

DUMMER MURDER CASE

What the Press Have to Say About the Verdict

It may be of interest to our readers to learn that not only in Peterboro, but in the press of Toronto and Montreal, the extraordinary verdict of the coroner's jury creates adverse comment.

The Toronto Star says;

It is freely conceded that Charles Gow had no desire nor intention of shooting twelve-year-old Tommy Hill in Dummer township the other night. The night was dark and the boy could not have been seen at the window from the point in the road from which the shot was fired—perhaps even the window could not have been seen from that point. Yet Gow, an expert rifleman, fired three shots from a powerful gun into an inhabited house, and however much he may now regret the killing of the boy, he cannot be exonerated from blame without injury being done to the cause of justice. Gow naturally tells the story in the way most favorable to himself—how he thought he heard a shot fired from the house, and merely pulled his lever and fired three shots at random while the rifle lay across his knee. But he is a practiced shot, knew the great carrying power of his weapon, and his action was as dangerous as its results were fatal. If his crime was not a murder, clearly it was manslaughter.

The coroner's jury has found that Tommy Hill's death was accidental, but it is very improbable that the Attorney-General's department will be able to concur in this local estimate of the affair. The jury seems to have reflected the local feeling, that it would be a pity to punish a popular young man for having unintentionally killed a Hill. If Crown Attorney Wood is correctly reported in saying that in Dummer township the careless use of firearms is considered a small thing, it becomes more than ever the duty of the authorities to take such action as will improve the state of opinion in that locality. Where a family feud occurs in a rural community, and where firearms begin to be used to frighten people into moving away, the tolerance of the authorities for such lawless acts will soon permit these feuds to progress to bloodshed. If the law overlooks the killing of this boy, the Hills may fall back on the loaded gun as a crude means of securing justice. There is this danger always where local feeling is allowed to palliate offences.

FARMER CHARGED WITH MURDER

A Shocking Crime in Pontiac County

WAS ROBBED AND KNIFED

Evidence Against James Laderoute in Connection With the Death of a Syrian Peddler

Ottawa, Aug. 30.—James Laderoute, 26, farmer, of Aluft la township, Pontiac county, was arraign'd this morning at Bryson on a charge of murdering George Ciarly, or Selman, a Syrian, from Ottawa. He pleaded not guilty and was remanded until Monday. The jury last night found that deceased came to his death on Friday, Aug. 25, by being struck with a stone and blunt and sharp instruments in the hands of some unknown person. The evidence against Laderoute is entirely circumstantial. The victim was evidently first struck with a stone, and then stabbed 11 times. He sank into unconsciousness and his murderer left him for dead. Subsequently the Syrian revived, climbed upon his rig and drove a mile to the farm house of Thomas Gray. He was without hat or coat, bleeding from several wounds, and scarcely able to stand. But he had sufficient strength to say that he had been robbed and knifed by a Frenchman. Reeling to the farm house, he reached the kitchen and, there, dropped insensible to the floor. Medical aid was summoned, but the physician arrived just as the injured man passed away.

The scene of the assault upon Selman is a lonely valley between two lofty hills. The Syrian was last seen driving towards this valley on his way to Shawville. Laderoute had previously gone in the same direction. Afterwards cries for help were heard by a farmer named Lebrun, but he was unable to locate them. After Selman's death Mr. Gray, in whose house he had taken refuge, went down and viewed the spot where the man had received his mortal injuries. Blood-stains marked a log, and the leaves all around were dripping gore. A huge stone also bore crimson marks. It was quite evident that there had been a terrible struggle, and that the participants had rolled over and over in the scuffle. How Selman, mortally wounded as he was, managed to make his way to the Gray homestead is a mystery to the doctors.

There are several suspicious circumstances that tell against Laderoute. His reputation is none too good. On the day of the murder he visited stores and made several purchases, having apparently lots of money. Previously he had been without any. He had a knife, but it is missing, and Laderoute says he lost it in the woods. The trousers he wore on the day of the murder have disappeared, and the shirt he had on when arrested seemed to have been recently washed. Laderoute manifested no concern when arrested, nor did he show signs of being moved when the body of his alleged victim was uncovered at the inquest. He declares that the police have arrested an innocent man. Laderoute is married and has two children.

TORONTO COUPLE DROWNED

Young Man and Woman Committed Suicide at Allendale, Michigan

Kalamazoo, Mich., Aug. 31.—William Todd and Ida Seibert committed suicide yesterday afternoon by jumping from the dock at Allendale into Gull Lake. John Ebert, keeper of the boat-house adjoining the dock, threw a life preserver to the man, but they made no attempt to save themselves. After dragging ten minutes the bodies were recovered. Two days ago the couple came to the lake and registered at the hotel as from Toronto. Todd told the hotel clerk they were engaged to be married. In his room was found a note saying that they preferred to die rather than to live. Not a shred of evidence was found that would otherwise identify them, and the hotel register is the only guide the local police have. It is possible that the names given at the hotel are assumed.

Name for the New Regiment.

Ottawa, August 31. — The name given the new cavalry regiment authorized to be raised in the Province of Alberta, is the Alberta Light Horse. Major James Walker, of Calgary, commands, with Major Campbell, a second in command.

Two Years for Striking Officer.

London, August 31.—Able Seaman Holbrook, of the Cruiser Cornwall, now at Quebec, has been sentenced to two years' imprisonment, with hard labor, and ordered to be dismissed from the service for striking Lieut. E. Ford.

The Cheap Beer Combine

The "Combine" beer waggon took a rest yesterday. The driver and the "Combine's" representative were both, well ——— we will not tell tales outside the school house. A letter was yesterday sent to a local driver asking him if he would take the job of driving their waggon, but the driver, an old hand on a beer waggon, simply gave the emissary of the would be monopolists a haughty stare and a decided negative.

—Mr. Lewis Brooks, of the Palace Cafe, left this morning to visit the Toronto Exhibition.

Peterboro will not be represented in the Senior Ontario Rugby Football Union this season. This will leave only Toronto, Hamilton and London in the senior series.

A Great Moral Victory for Japan

Russian Prince Says Moral Advantage Rests With Her--She has Acquired a Commanding Position in Asia and Russian Prestige Has Suffered a Heavy Blow.

St. Petersburg, Aug. 31.—A great diplomatic victory for M. Witte, but a great moral victory for Japan," is the verdict of Prince Oukhtomsky, in his editorial in the Viedomosti to-day. He says;

"Notwithstanding the difficult circumstances under which the negotiations commenced, M. Witte carried out his task with the greatest skill and obtained from Japan the utmost she was prepared to give. More we expected to receive, but though M. Witte wrested out of defeat these advantageous terms the moral advantage rests with Japan. She will be recognized in the eyes of the east and of Europe as the victor, and she has acquired a predominant position in Asia, while Russia's prestige has suffered a correspondingly heavy blow. However, Russia is only reaping the reward of a war, conceived in injustice and resting on a policy of aggression toward a weak nation, against which I and others warned the government. I was for peace before and have been ever since the commencement of the war, and I rejoice that peace has been concluded. I have no fear of the results on the army. Some of the men will object to this peace, but the great mass will be glad of the termination of the war on so honorable a basis, and will be content to return to their homes.

"It is impossible to tell what will be the result of peace on the internal situation. The revolutionary movement has roots a generation deep and its causes are entirely independent of the war, which it preceded, though its growth has been fostered by the misfortunes of the conflict. The agitation and turmoil will no doubt find an outlet in the coming elections for the Douma, regardless of the outcome of the war."

In conclusion, Prince Oukhtomsky pays a high tribute to President Roosevelt, "whose name should be blessed throughout Russia."

London, Aug. 31.—Speaking of the probable effect of the Anglo-Japanese treaty on the conclusion of peace, The Pall Mall Gazette says; "The enlarged treaty with England may have had considerable weight in persuading the Mikado and his advisers that Japan's position in the far east is now practically impregnable, and that peace may be made without pressing for the payment of costs."

Lightning Again Visits the County

Roger Torpey of Otonabee and E. Deyell Lose Heavily by Fire, From Tuesday's Electric Storm.

That Father Jove did not exhaust his supply of thunderbolts or electric messengers of destruction during the recent storm, when so many farmers of this district had their barns destroyed by fire generated by the electric fluid.

The thunder storm of Tuesday night equals if not surpasses the damage of its recent predecessor, as reports came in yesterday morning from every point of the compass, of destruction to buildings, crops, stock and farm machinery.

Although the weather was threatening on Tuesday evening, no one anticipated that so severe an electric storm was holding its pamoclean sword of destruction over the county, and whilst many a lady and child, in the city was grumbling over being awakened by the reverberations of the thunder, farmers throughout the surrounding county were not only awake, but fighting for their barns and very existence, against the all devouring flames that were quickly turning the results of last summer's labor into ashes and Dead Sea fruit.

During the storm, the stable on Mr. Roger Torpey's farm on lot 21, con. 8 of Otonabee, was struck by lightning about three o'clock yesterday morning and completely destroyed. His large barn adjoining took fire and was burned to the ground, together, with all the year's crops. The implements and wagons were successfully removed. Mr. Torpey who farms some hundred acres of good land, thus saw, in a few minutes, the labor and hopes of months, go up in smoke, so his loss was exceedingly heavy. He intended to have threshed his grain in a day or two. What Mr. Torpey carried some insurance, the amount does not [illegible] his loss.

The first symptom of danger, arousing him to a real sense of his danger was when, awakened by the thunder, and looking out of the bedroom window, which faces the scene of his loss, Mr. Torpey saw what looked to him like a huge ball of fire passing through the barn. This bolt of fire not only set the barn in flames but tore off and flung to a distance of 100 feet some of the boards forming the gable end of the structure. Some live stock in the barn was saved, but the crops were destroyed.

ANOTHER SUFFERER.

Mr. Ernest Deyell, lot 17, con. 18, Otonabee, was also a heavy loser by the storm. A large hog pen, 100 by 25 feet, and containing 90 hogs, was struck by lightning about one o'clock, and completely destroyed. The loss, according to Mr. Deyell, will be between $1,500 and $2,000, and there is very little insurance.

As soon as Mr. Deyell saw that his pen was on fire, he summoned the near-by neighbors, by whose aid he managed to save the barns and other buildings, after a hard fight. The burning structure was within 50 feet of the barns, and between the latter and the pen there was a straw stack, which was also burned.

It was currently reported yesterday that other sections of the county, notably the township of Smith, and parts of Durham county were visited with destruction arising from the electric storm.

CANADIANS IN RUSSIAN GOAL

Robert Finlay and C. Grant Seized on Japanese Schooner.

TWO MEN WERE SEALERS

One of them is well known in Victoria Where His Parents Live.

London, August 31.—Captain Anderson, who commanded the Sadu Maru, the Japanese vessel captured by the Russians last year, stated that in prison at Medwied are two Canadians, R. Finlay, of Victoria, B. C., and C. Grant, of Pictou, Nova Scotia, seal hunters, who were on board the Japanese sailing schooner captured by the Grembol 250 miles east of Vladivostok. The Russians took the vessel in tow (or some hours, but receiving a wireless message that the Japanese squadron was approaching, they blew up the vessel.

The men were sealers, and had nothing whatever to do with the war. Nothing is known in this country of the continued imprisonment of the Canadians, their case not having been reported to the Foreign Office, nor to Lord Strathcona. Medwied is an extensive military station not far from St. Petersburg.

FINLAY KNOWN IN VICTORIA.

Victoria, B.C., August 31.—Robert Finlay, who is reported a captive of the Russians, having been made prisoner in the seizure of a Japanese schooner, and was a member of the crew, is very well known among the seafaring and seal hunting community. Finlay is a New Brunswicker, and has lived most of his life with his parents, moving west in the middle eighties, and now living on Beary street, here. Being a skidid shot, Finlay, when still in his teens, signed as hunter with one of the Victoria fleet, going out for several years with the Triumph, and afterwards as one of the Canoe crew. When the Japanese schooner, Sifu Maru came here, in the autumn of 1903 to sell her catch, her skipper picked up Finlay and three other crack hunters and took them back to Japan with him. When last heard from by friends here, Finlay was head hunter on one of the King's fleet of schooners sealing out of Hakodate, and owned by T. M. Laffin and Company, of Yokohama. Although no direct news of Finlay's misadventure has reached here, it is surmised he was still with Laffin and Company.

The Scourge of Consumption

Thousands Are Dying—If Tired Languid or Run Down Get Protection Before Too Late

No child, man or woman is safe from consumption unless their blood is pure, rich and nourishing.

Allow the blood to become thin, and immediately the whole system grows weak. The lungs are deprived of resisting power and the ever-present tubercular bacilli develops.

The most positive protection against consumption is Ferrozone, which restores the blood to full strength. Weak organs are instantly strengthened. Worn-out tissues are rebuilt. New life is given to the lungs and all danger of consumption is destroyed.

Mrs. E. J. Richardson, Manotick, Ont., tells as follows of her enormous gain in health from Ferrozone: "For two years I was not well. I was thin and anaemic. Towards spring I fell into a condition of nervous exhaustion. A dead tired-ness hung over me like a cloud of lead. Housework of any kind I simply couldn't do. A bad cough developed that worried me greatly for I thought it might be tubercular. When I first read of Ferrozone I was convinced it was good. I took it regularly for eight weeks and the change in my condition was wonderful. My cheeks filled out and became clear and rosy. I gained eight pounds and now am strong and vigorous as possible."

Ferrozone feeds, nourishes and tones up the body—it sends the thrill and vim of robust health from head to foot—makes you feel better at once. Won't you use Ferrozone? Price 50c. per box, or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterboro are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year strictly in advance.

LEARNING WAR FROM JAPAN

Japan stands acknowledged as the Little Schoolmaster of the world as to military science.

Even Germany, the drill sergeant of Europe, is taking lessons.

[illegible] men could not understand how the little brown man got over so much ground. Well, his gun is lighter, for one thing. And all his metal harness—buckles, canteen, cup, etc.—are made of aluminum. His load is so light that he can carry a pick and shovel also.

That's new.

The Jap fights under cover of earth.

And this is the way it is done: The first line of skirmishers dig shallow trenches. The second line occupies them and moves forward. The third line digs them still deeper and the fourth completes them. Cross trenches also lead back to each line. And so the Japanese Army—skirmishers, wagons, reserves, hospital corps—moves on its belly. Therefore the light mortality.

And this is the tactics of the trenches. The shrewd Japs evacuate the first line, inviting the big Russians on. The Russian thinks victory. He finds gatling guns and reserves on the last line and is cut down in his pride.

Besides, the Jap never fires blindly. No order is given to fire until the range finders get the distance.

All this is a distinctly new contribution to the art of war, just as the superb work of the medical corps is new and, as George Kennan has shown us, as the siege methods at Port Arthur were new. It goes without saying that the admirals of the nations can learn a great deal about how to fight ships from Togo.

And those are the people who we were told were nothing but "imitators."

DEATH OF DR. POOLE

Former Peterboro Journalist Dies in Lindsay

Many of our older citizens will learn with regret that Dr. Thomas W. Poole, formerly editor of the Peterboro Review has passed away in Lindsay, where he lived for the past 35 years.

Dr. Poole, who practised his profession for some years at Norwood, took the editorship of the Review, when owned by Mr. Robert Romaine. While he was employed on the paper, Dr. Poole compiled and published a history of the County and Town of Peterboro. After several years as editor he removed to Lindsay and resumed the practice of his profession, in which he was employed until the last year, when failing health intervened. He was a brother of Rev. W. H. Poole, at one time pastor of the George street Methodist church here.

The body will be interred at Lindsay, the funeral taking place to-day.

EVERYBODY READS THE TIMES.

DOURO.

—Mr. Philigh English spent Sunday in Peterboro.

—Mr. Bart. Leahy spent Tuesday evening last at Bonnie Grove.

—Miss E. E. Morgan was visiting the city during the past week.

—Mr. Bob Barry spent Sunday last, the guest of Mr. Jas. Allen.

—Mr. Frank Devlin was the guest of Miss Minnie McCann on Sunday.

—Mr. Greg O'Connor made his usual trip to the village on Sunday.

—Misses Joe Connors and Wm. Torpey were the guests of Misses O'Shea.

—Mr. Anvil McGann attended the circus on Saturday last. He also got a new hat.

—The many friends of Mr. Geo. Towns will be pleased to learn that he is quite well again.

—Mr. Frank Sheehan and Arthur Carveth were guests at the Nesbitt House on Sunday last.

—Misses Annie and Nell Walsh, of Hastings, were the guests of Miss Loretta Allen on Sunday last.

—Miss Minnie J. Sullivan, of Warsaw, spent a very pleasant time on Sunday last in Norwood, the guest of Mrs. Wm. O'Shea.

—Mr. Stanz Buck, Dr. Burk and his sister, Nell, of Lindsay, took an auto trip through the country, en route to Mount Pleasant.

—Misses Mary and Maggie Molser and their brothers, of Peterboro, also Miss Clara Maloney, of Toledo, Ohio, spent Sunday last, the guest of Miss Agnes Molser.

—Miss Mary Gorman has accepted Messrs. Tat Walsh's and Quirk's Barry's tender for the inspection of work rebuilding house by Mr. P. English. The above gentlemen will make this inspection on Monday, September 4, at 10 o'clock, a.m. All visitors are cordially invited.

—Mr. Jos Brisk gave an open air performance on Saturday evening last at Burn's bridge, with his wonderful pet bear. A great crowd witnessed the performance. Among the guests were Mr. and Mrs. A. McCann, Mr. and Mrs. Dan. O'Brien, Mr. and Mrs. John Condon, and a great many more.

The Engineering Magazine.

The leading paper in The Engineering Magazine for September is "The Actual Problems of the Panama Canal," from the pen of John F. Wallace, who recently resigned his position as Chief Engineer of the Isthmian Canal Commission. In this article (and others which are expected to follow), Mr. Wallace places in strong light the popular misunderstanding of the true inwardness of this undertaking, considering the subject from the standpoint of a disinterested and unprejudiced investigator, without fear or favor of those who may be selfishly interested politically, financially or otherwise, eliminating all motives of malice or self-interest, and discussing the various factors entering into problems of administration and control, as well as technical features of plan and construction. Perusal of this paper in connection with others which he proposes to contribute will make clear his attitude toward—as he terms it—this "Isthmian addition to Pandora's box, . . . the price for which is yet to be paid in lives, resources and [illegible]."

Mr. Franz Koester contributes another very interesting and instructive article on "Modern Power Plant Design and Economics," which those desiring to keep abreast with modern progress in this department of engineering will find extremely interesting.

Mr. Charles Atherton, who resided for more than six years in Japan, practising his profession as engineer, and whose practise has been largely directed to the construction of dock yards and shipyards, contributes an illustrated paper on "The Dock Yards and Shipbuilding Plants of Japan," which will prove to be one of the most interesting articles comprised in any of the technical publications of the month.

An illustrated paper on Hydraulic Generation and Application of Motive Power, by Mr. William M. Barr, a well known engineer, deals with the subject in a comprehensive and masterly manner.

"Working Examples of Successful Stores Management," by W. B. Snow, gives an illustrated description of the system of stores management in operation at the works of the B. F. Sturtevant Company at Hyde Park, Mass., a system worthy of attention on account of its simplicity and effectiveness. "Fitting the business because an evolution of it."

A profusely illustrated paper, entitled "A Discussion of Mine Hoisting," by R. V. Norris, shows a remarkable progress in this vital feature of coal mining during the last twenty-five years, and comprehends all the engineering features of coal hoisting engines and apparatus.

The possible economies, as well as the practical conditions of success in the use of high speed steel, in machine shops and factories is treated most ably in a paper jointly contributed by O. M. Baker and Walter Brown, and entitled "High Speed Steel in the Factory." The propositions and practical instructions included in this well written article are based upon experience with the remarkable alloys to which the name 'high-speed steel' has been popularly given, and also upon scientific investigation of their different qualities.

Lastly, the contents of The Engineering Magazine for the month are completed by a practical paper on "Cost-Keeping in Construction and Contract Work," by John P. Cowing, which presents the particulars of a simple, effective, and accurate system of forms whereby contractors can keep in constant touch with the cost of work during its performance.

This issue of the magazine is unusually rich in its half-tone illustrations. There is also the usual comprehensive Review and Index of the Engineering Press.

Blacksmith Business for Sale or Rent

Want to sell or rent, a blacksmith business, frame house and stable, and one acre of land, with a number of fruit trees and good spring well in a village five miles from C.P.R. and G.T.R. stations. Daily mail and a good thriving part of country. Good business done the year round, and no opposition. Only reason for selling is ill-health at present. For full particular write to M. C., in care of this paper.

Ayer's Sarsaparilla. The doctors' Sarsaparilla. The tested and tried Sarsaparilla. The Sarsaparilla that makes rich, red blood; strengthens the nerves; builds up the whole system.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses (2) (3) or (4) must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive at the Immigration Offices in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

OVER THE

WABASH

TO

The Great Lewis & Clarke Centennial Exposition, Portland, Oregon

How to Visit Colorado

Go first to Denver. It is the State capital, as well as the largest, wealthiest and most metropolitan city between the Missouri River and the Pacific Coast. The city itself is very interesting, and from it start practically all the trains over the various roads into the mountains.

Many of the most enjoyable one-day trips in Colorado begin and end at Denver. The cost of these little journeys is not great.

After you have familiarized yourself with Denver and its surroundings will be soon enough to decide where to go for the rest of your visit. The question must be considered from several standpoints—altitude, hotel accommodations, accessibility, amusements, etc.

Our Colorado literature will help you in deciding where to go and what to do. Sent free for the asking.

BLOOD DISEASES

If you inherited or contracted any Blood Disease you are never safe unless the virus or poison has been eradicated from the system. At times you see alarming symptoms, but live in hopes no serious results will follow. Have you any of the following symptoms? Sore throat, ulcers on the tongue or in the mouth, hair falling out, aching pains, itchiness of the skin, sores or blotches on the body, eyes red and smart, dyspeptic stomach, sexual weakness—enlarged glands. Don't trust to luck. Don't ruin your system with the old fogy treatment—mercury, potash and patent medicines, which suppress the symptoms for a time only to break out again when happy in domestic life. Don't let quacks experiment on you. Our NEW METHOD TREATMENT is guaranteed to cure you. OUR GUARANTEES ARE BACKED BY BANK BONDS that the Blood or Skin disease will never return. Thousands of patients have been already cured by our NEW METHOD TREATMENT for over 30 years, and no return of the disease. No experiment, no risk—not a "patch up," but a positive cure. The worst cases solicited.

W. H. PATTERSON NO NAMES USED WITHOUT WRITTEN CONSENT. W. H. PATTERSON

HAD BLOOD POISON 12 YEARS

The New Method Treatment Cured Him after Drugs, Mercury, Hot Springs, &c., all failed.

Wm. H. Patterson, of Saginaw, Mich., relates his experience: "I do not like notoriety and especially of this kind, but I feel I owe this much to Drs. K. & K. for the great good they have done me. I had a serious blood disease when 24 years of age. The skin and blood eruptions gradually developed. Pimples and ulcers formed, running sores broke out, hair became loose, pains in the bones and joints. Before Treatment dyspeptic stomach, foul breath, itchy skin, etc. It is needless for me to say I tried doctors. I grew to hate the looks of one. I visited Hot Springs twice for three months each time. It helped me temporarily, but in six months after returning home I was as bad as ever. Finally a Doctor friend of mine advised me to see Drs. Kennedy & Kergan. He said he had known of them for over 20 years, and as they made a specialty of these diseases and treated the worst cases by the hundred they ought to be expert in curing them. I was afraid of advertising doctors, but I took his advice. They agreed to treat me under a guarantee to pay, I investigated their financial standing and found they were perfectly reliable, so I commenced the new method Treatment. The eruptions disappeared in two weeks, the bone pains in four weeks and in four months I was entirely cured. Yes, sir, I can recommend the New Method Treatment for Blood and Skin Diseases."

CURES GUARANTEED OR NO PAY.

PROPAGANDA IN SUPPORT OF WAR

Manufacturing Loyal Expressions Among Peasants

CRYING IN WILDERNESS

"Russia's Struggle Against Three Foes" Securing a Widespread Sale Throughout the Country

London, Aug. 30—The Moscow correspondent of the Standard says there is a widespread sale of a broadside entitled, "Russia's Struggle Against Three Foes," the object of which is to secure signatures in support of the continuance of the war. The broadside was passed by the censor at St. Petersburg on Aug. 21. It emanates from a party that is endeavoring to manufacture loyal expressions of feeling among the peasantry by the most unscrupulous misrepresentations, assisted by a liberal use of public money. The latest legend, "a cry of pain arises at the manifold trials of Russia." Details of calamities follow. It then says:—"Last year we were attacked by a foe who proved terrible by reason of his bravery, determination and preparedness for assault. This foe, who, declaring himself openly, fought openly, was and is assisted by secret friends, but our enemies, the English and Americans. Although the whole world rejoiced at our misfortunes, yet the Japanese, even with the assistance of the entire world, found it hard to meet us in the field. Four months after the defeat at Mukden the enemy was still unable to recover losses we inflicted or even prevent our repairing our own, and now, at the very moment when our army has attained numbers unprecedented, when it finds itself supplied abundantly with every necessary for war, when Japan finds it more difficult than ever to continue the campaign, there rings out the voice of the President of the United States inviting us to enter negotiations for peace. We are convinced the voice will remain as one crying in the wilderness."

One newspaper, which distributed 30,000 copies of the broadside, issued supplementary leaflets to the peasants plainly stating that if peace is concluded on the basis of the payment of an indemnity it will mean a tax of quite $50 extra per capita for the peasantry. This is about equal to ten years' taxes in normal times.

GOW TO BE TRIED

Attorney General Issues Instructions for Prosecution

It now seems that the Dunmore murder case will cause the county officials to wake up and take the action the lack of which, people in the city, are criticising them for.

Crown Attorney R. E. Wood yesterday received, in reply to his report on the subject, notice that the Attorney-General's office has issued an order for the prosecution of Chas. Gow, who admitted the shooting, but who was acquitted by the coroner's jury. The charge to be laid will be determined by Crown Attorney Wood. Gow is at present in Ottawa attending the D.R.A. matches. It is thought by some that a change of venue will be asked for, but this and other details of the prosecution are in the hands of the Crown Attorney, R. E. Wood, Peterboro.

MUCH IMPROVED

Rev. D. O'Connell, Who was Sick at St. Joseph's Hospital, Reported to Be Much Better

The condition of Rev. D. O'Connell, who is at present a patient at St. Joseph's Hospital, was last night reported to be much improved by the attending physicians.

Rev. Father O'Connell was on Friday last stricken with a severe attack of acute gastritis and his condition gradually became more critical till grave fears were entertained for his recovery.

His improved condition, however, warrants the hope by his physicians of an early convalescence.

Former Citizen Dead

The Times conveys, with regret, to his many friends in this city, the sad intelligence that a former citizen of Peterboro, Mr. James Fisher, who resided for 16 years at Auburn, is dead in New Westminster, B.C.

Mr. and Mrs. Fisher went to reside in British Columbia some two years ago. The death occurred from blood poisoning on Tuesday, Aug. 22nd.

Those left to mourn his loss are his wife, a brother, Charles, and six children, three boys, Edwin, Bruce and Henry, and three girls, nearly all of whom are grown up.

DAIRYMENS' CONVENTION

Peterboro May Still get Next Years Convention

Notwithstanding the abortive attempts made by our local hotelmen to hold a meeting on Monday afternoon, to discuss ways and means of securing next annual meeting of the Eastern Ontario Dairymen's Association, for this city, there is still a chance that this most desirable object may be obtained. Strenuous efforts were being made by Mr. Gillespie, of the local Dairymen's Association, to secure subscriptions personally from the L.H.P. Association members towards a fund necessary to secure the meeting. There seemed yesterday to be a spirit of discontent among the hotelmen because the proprietors of the most important hotels, the ones who would be the largest gainers by securing the convention, refused to take no active interest in Monday's advertised meeting, still to-day will tell the tale of whether the license holders intend to subscribe as they should or not.

The executive of the Eastern Ontario Dairymens Association will meet in Toronto on Tuesday, September 5th, to decide upon the place where the next convention in January will be held.

The city and county councils have already made grants and strong deputation from the city council as well as nearly all the members of the Peterboro county council will be in attendance, together with a deputation from the Peterboro cheese board, to urge that this city be selected ab the next meeting place.

The Eastern Ontario Dairymen's convention is a very important assembly and if Peterboro secures the meeting it will not only mean extensive advertizing for the city, but will confer great benefit upon the local farming community from the advice and practical lessons they would gain, but would result in many hundreds of dollars circulated among our hotels, restaurants and merchants.

THE

Montgomery Mountain Mining Company

BULLFROG

promise to be one of the greatest producers yet discovered in the TONOPAH, GOLDFIELD BULLFROG DISTRICT.

This district records the greatest discovery of Gold that has ever been made in the history of mining

This Company is a legitimate Mining enterprise, managed by honest, capable mining men.

The property is on the Montgomery Mountain, adjoining the MONTGOMERY SHOSHONE mine, which has only been operated ten weeks and which is now

Shipping Ore that runs TWENTY-THREE HUNDRED DOLLARS to the Ton.

The Capital of the Company is $1,250,000, divided into 1,250,000 shares of a par value of $1.00 each fully paid and non-assessable, 300,000 shares of which are in the Treasury.

The Officers and Directors are

President and Treasurer, D. H. PEERY, Salt Lake City, formerly President of the Salt Lake Stock and Mining Exchange

Vice President, Hon. JOHN SPARKS, Governor of Nevada.

Directors: D. F. FURLEY, General Passenger Agent, Ogden Short Line R. R., Salt Lake City; Hon. JOHN SPARKS, Governor of Nevada; E. E. EDWARDS, of the firm of Vermilyea, Edwards & Stanley, Attorneys-at-Law, Goldfield, Nevada.

The Company refers by permission to

McCormick & Co., Bankers, Salt Lake City; John S. Cook & Co., Goldfield, Nevada; Ormsby County Bank Carson City, Goldfield & Tonopah, Nevada.

We believe this property and its stock will have an advance that will be as sensational as was the Original Tonopah immediately after its development.

We can supply orders for a limited number of shares at 75 cents per share This price expires July 10th, after which it will be raised. For information or stock apply to Thos Patterson & Co., Fiscal Agents, Peterborough, or.

D. D. PEERY COMPANY, Brokers, Goldfield, Nevada

The Glenara Gold Mining Co.

Capitalization, 1,500,000 Shares **Stock Fully Paid and Non-Assessable**

Par Value, $1.00 Per Share. **Treasury Stock, 700,000 Shares.**

This Company was organized in March, 1905, under the laws of Arizona, with a capital of 1,500,000 shares. The par value of these shares is $1.00 each. They are full paid and forever non-assessable. The Company owns approximately seventy-five acres of territory in the Goldfield district. By reference to the map you will note that every acre is within the producing area, and with the systematic development this large acreage is to receive, there is no doubt that the stockholders will very shortly see the Company on a producing basis.

We desire to say right here that this Company is organized for legitimate mining, and not stock jobbing purposes, and among the directors are some of the best known mining men in the West. It is their and desire to make the GLENARA GOLD MINING COMPANY a great success at the earliest possible moment.

It is for the purpose of raising funds to vigorously develop the Company's holdings that some Treasury stock is now offered for public subscription. Out of a capitalization of 1,500,000 shares, 700,000 shares have been placed in the treasury. This treasury reserve insures the company a large working fund, if needed. It is the belief of the management, however, that it will not be necessary to dispose of over 50,000 shares of the treasury stock. The present outlook is such that the management believe that the mine will be on a paying basis before many weeks have passed.

The Property of The Glenara Gold Mining Company Consists of the Following:

The Glenara Group consists of four claims located in the Goldfield mining district of Nye County, Nevada. These claims are known as the Kentucky Bell, Mabel M., Lone Jack and June Bug, covering about seventy-five acres. This group of claims is located on a system of ledges over a mile and a half in length and about half a mile wide. These ledges are the same as those traversing the Kendall, Tonopah Club, Vernal, Quartzite, Black Butte, New York, Brooklyn, Jumbo, Vernal, Fenn and Federal.

The surface indications at the time of location were of the very best, however good float being found upon the ground. Assays were obtainable, all of which indicate that the property can be developed into a paying proposition. The ground has been thoroughly prospected and the sinking of the shaft begun on the Kentucky Bell claim. There is a force of men sinking a shaft as rapidly as possible. Good ore has been encountered running from $3 to $15 per ton, increasing in value with depth, and it is safe to say that a strike may be looked for any day.

Taken as a whole, the investment offered by the Glenara Gold Mining Company is equal to any prospective company in the district. The claims are exceptionally well located, covering a large area; the management is conservative and honest, and is working hard for the success of the company.

The proposition will stand the very closest investigation, and, in fact, an investigation by prospective investors WILL MEAN AN INVESTMENT. WE COURT INVESTIGATION.

The allotment of stock is very small, and if you desire to become interested with this enterprise, it will be necessary for you to communicate with us at once.

The work on the property is being pushed to the utmost, and any day may bring news of a strike which will advance the price of the stock.

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

NICKEL AND COPPER

A Few Thousand Treasury Shares

Only are left to be sold before all offerings are WITHDRAWN FOR FIFTEEN MONTHS' TIME.

You can buy the few remaining shares now at $1.00, but fifteen months hence you will probably pay from $5.00 to $20.00 per share.

THERE IS NOTHING EXTRAORDINARY

In shares advancing as above stated in mining propositions, for it is an old story of phenomenal advances in mining shares, Granite Mountain going from ten cents to $75 per share, Calumet & Hecla from $1.00 to $900.00, and so on down the list.

CONSIDER FOR A MOMENT

What this company offers—It controls to day an actual territory of nearly **Three thousand acres of land known to be immensely rich in nickel and copper ores, all in a district known and proven to be sixth among the greatest copper districts in the world.** This company will control at least 2 thousand acres more. In all nearly five thousand acres, which will not be mined out in two hundred years

WE STAND READY TO PROVE

That this company offers to day the most meritorious mining proposition presented in ten years' time.

Write or call for full particulars. All shares registered by International Trust Company, Boston.

Exhaustion All Gone!

To-day She is Buoyant With Health and Vital Energy Given by A Medicine Suited to the Female Sex.

There is no medicine for health and strength that accomplishes as much as Dr. Hamilton's Pills. For womanly troubles they have no equal.

Miss Katie E. Emerson, one of Brockton's popular young ladies, in the following letter voices the conviction of hosts of her friends:

"Two months ago I was completely used up. I was weak and miserable. My strength was gone, and I had no appetite or energy left. What I needed was a blood purifier and systematic tonic which I found in Dr. Hamilton's Pills. To-day I am brimming over with spirits and vital good health that came from using Dr. Hamilton's Pills."

No one can over-estimate the true worth of Dr. Hamilton's Pills Their enormous curative power makes one marvel. You soon have richer blood, better appetite, clearer complexion, freedom from weakness and ill-health. Dr. Hamilton's Pills are sold everywhere 25c. per box, or five boxes for $1. By mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Do Not Miss

The Great Canadian National Exhibition at Toronto this year. Specially low rates via Grand Trunk.

Bright Boy Wanted.

To learn bookbinding. This is one of the best trades a young man can learn. Apply at Times office.

Bindery Girls Wanted

We require two good, steady girls, to learn bookbinding. Apply at Times Bookstore without delay.

$10--Atlantic City and Return--$10

The last $10 Excursion this season via Lehigh Valley Railroad, Friday, September 1st. Stop over allowed at Philadelphia. Tickets good 15 days. And only $10 the round trip from Suspension Bridge, Niagara Falls. For tickets and full particulars call on or address Robt. S. Lewis, Passenger Agent, Lehigh Valley Railroad, 10 King Street East, Toronto.

C. P. R. Train Service

The train service by the Canadian Pacific Railway to and from Toronto, during the Exhibition, will be as follows: Going to Toronto, 5.12 a.m., special August 29th to September 12th, except Sunday, 5.45 a.m., and the local at 8 o'clock. Returning, August 28th to September 9th, Sunday excepted, the local train will leave Toronto at 6 o'clock, instead of 5 o'clock, 10 p.m. train and the special at 10.30 p.m.

Mr. Pringle's Medals

The three silver medals, the annual prizes for efficiency in writing, open to Public and Separate schools and the first form of the Institute, are now on exhibition in Mr. Gibson's store. They are about the size of a silver dollar, and engraved with the winner's name, the year in which it was won, and the class in which the pupil was when the medal was won. Mr. Gibson is to be congratulated on the beautiful specimens of the engraver's art procured at his establishment. The Collegiate Institute medal was won by Ruby Fitzgerald, the fourth book medal by Bernadette McDonald, who attended the convent, and the third book medal was captured by Marjorie Tarriner, of the South Central school.

Improving in Health

The many friends of the Rev. H. Beverley Ketchen will be pleased to learn that he is improving in health. It is thought that the symptoms of typhoid which were threatening will not supervene. Much regret has been expressed in the city about the rev. gentleman's illness, particularly at so inopportune a time.

Tenders Awarded

Meeting Held by the Board of Works Last Night

Yesterday evening an important meeting of the Board of Works was held, with Ald. Adams in the chair. After discussing some minor matters appertaining to street improvements, the important question of awarding tenders, opened on Monday evening, to the successful bidders. The tenders were awarded as follows:

J. ROBSON—

12 inch pipe, Rubidge street, 609 feet at $1.17.

King street, 406 feet at $1.16.
King street, 1,509 feet at $1.10.
Charlotte street, 930 feet at $1.05.
Bolivar street, 1660 feet at $1.05.
Hunter street, 1039 feet at $1.07.
Hunter street, east, 278 feet at $1.45.
9-inch pipe, Stewart street, 450 feet at 82 cents.
Total 7,228 feet.

R. SHEEHY—

12-inch pipe, Lake street, 1140 feet at $1.15.
9-inch pipe, Brock street, 485 feet at $1.09.
Downie street, 515 feet at 89c.
Edinburg street, 490 feet at 93c.
Union street, 453 feet at 85c.
Housewood Ave., 453 ft. at 83c.
Perry street, 585 feet at 93c.
Rogers street, 807 feet at 93c.
Sophia street, 477 ft. at 97c.
Total, 5,205 feet.

J. E. HAYES—

12-inch pipe, Reid street, 526 feet, at $1.14.
Park street, 1070 feet, at $1.15.
Park street, 1412 feet at $1.12.
Sherbrooke street, 260 feet at 98 cents.
Aylmer street, 950 feet at $1.13.
9-inch pipe, Simcoe street, 280 feet at 80c.
Total 4,498 feet.

It was moved by Ald. Hall that the north side walk on London street between Bethune and Reid streets be built on the inside of the tree line, and that the walk between Aylmer and Bethune streets, be built outside the line.—Carried.

A SUCCESSFUL SEASON

Last Excursions by the Calcutt Line of Steamers

The season of excursion navigation is about over, so far as the Rice lake route is concerned. To-day is the last day included in the regular schedule of the Calcutt Line of steamers, and the popular boat City of Peterboro, will, in a few days go into winter quarters. The management report that despite one or two unfortunate but unavoidable minor accidents to the steamers of this line, the Calcutt boats have had a very successful season. There are a few excursions still booked by this line, which tell, in no uncertain way, at this fag-end of the season, that the local boats are in great popular demand.

EXCURSIONS BOOKED.

The excursions still to be carried by the Peterboro boats are:

To-day, Aug. 31st.—Zion Sunday school, Benefort and Competition, per Str. Water Lily to Jubilee Point and Idle Wyld.

Friday, Sept. 1st—The Peter Hamilton Manufacturing Company's employees, per City of Peterboro to Jubilee Point.

Sept. 4th—American Cereal Company's Foot Ball Club, per Str. Water Lily to Gore's Landing.

Sept. 5th—Bethel Epworth League, Emily, and Queen's Own L.O.L. No. 294, per Water Lily, over the lift lock to Burleigh Falls.

Police Court
OFFICIALS
Chief of Police, G. I. Reed
Magistrate, D. W. Dumble

The city treasury was enriched yesterday morning to the extent of $4, said ducats being contributed by two gentlemen who had partaken not wisely but too well of the treacherous forty rod on Tuesday morning. Magistrate Rush held the scales of justice. The two perpetrants reduced the coin of the realm, so Justice smiled and winked the other eye.

An Amateur Complains

The Times was yesterday in receipt of the following letter which is given verbatim, and possibly explains itself.

(To the Editor of The Times.)

Sir,—Please put your papers today some good items. As I paddled canoe race in Chemong Park Regatta and entered in races, and came in first single and double. I came in first single canoe race. Jack Jacobs double canoe race and smoke. Jack Jacobs and I never paddeling for $1.00 in my Life, and I don't see Why I Couldn't get Prizes for Amateure Races, means next to Profession Races. those People that thinks around Lakefield could Paddle can't Paddle at all, and I Will Paddle any thing in second-class even canoes for fun any day.

PERSONAL

—Mr. F. L. Brown, Hastings, was in the city yesterday on business.

—Mr. and Mrs. Hill, whose boy Thos. Ed. Hill, was shot to death last week at the family residence in Dummer, were in the city yesterday.

—Mr. Harry Neil, manager of the Calcutt's Brewing and Malting Co., leaves to-day at noon on a duck shooting trip at Rice lake.

—E. O. Graham, Rochester, N.Y.; F. M. Hodgett, Schenectady, N.Y., H. C. Thompson, Orillia; A. W. Coleman, J. B. Hodge, Toronto; H. M. Davidson, Allegheny, N.Y., are guests at the Snowden House.

—Capt. Mabbitt, who was in command of the yacht Iroquois that so closely snatched the palm of victory from the Canadian yacht Temeraira, was a guest at the Snowden House yesterday en route for home.

—Messrs. Geo. Doctor and L. J. Kelly, district organizer of the National Protective Legion, Rochester, N.Y., passed through the city yesterday, en route home after a pleasant two weeks' outing at Stony Lake.

—Mr. J. Tillerson, of A. W. Creasman's carpet department, has returned home from a trip to some of the large wholesale houses, where he has been buying goods for that department.

—Ald. Stewart, of Toronto, arrived in the city last night and will this morning go to Rice Lake to join Mr. M. C. Tooley's duck shooting, fishing and historical club, now camped at Campbellton. Arrangements are now being made with the local carters to meet them on return and convey the game away.

Mr. John Britton Dead

Demise of One of Peterboro's Oldest Citizens.

Yesterday afternoon Mr. John Britton, who resides on Harvey street, passed away, at the ripe old age of 82 years. Mr. Britton was one of Peterboro's oldest and best known citizens, and after having carried on for many years a cooperage business on Harvey street, retired a few years ago.

He had been ill for about six months, but was able to get about until quite recently. The funeral will leave the family residence tomorrow afternoon.

OCTOGENARIANS WED

Mr. James Miller 83 Years Old Takes a Bride of 82 Years

Dan Cupid last Monday afternoon smiled to himself at the targets in adults of love had struck, and did not go on strike for overtime work when he saw a marriage celebrated in the Charlotte street Methodist church, at which a groom aged 86 took to his protecting arms a blushing bride of 82.

The ceremony was performed by Rev. Mr. Jolliffe, and the principal parties concerned were Mr. James Miller and Mrs. Aylmer. The courting, which led to this happy sequel, has extended over two years, but when Cupid aims his darts at the ardent human heart, time nor age counts. The husband, aged in years, but young in affection, has moved to the room formerly occupied by his bride, on London street, in the rear of Alexander's store. Mr. Miller is no novice in the matrimonial yoke, having previously bent his head beneath it.

He is a native of Cambridgeshire, Eng. By his first wife he had three children, two daughters, who are still living in England, and one son of this city. After the death of his first wife, Mr. Miller was again united in holy bonds shortly before he moved to Canada, some thirty-five years ago, bringing his second wife with him. They settled in Montreal first, but about a year later moved to Peterboro, where Mr. Miller has lived since. By his second marriage there were three daughters, one living in Alberta, one in Nebraska and one in the city, and also one son, who lives in the city. Mr. Miller's second wife died about five years ago, but he has for the past nine years lived with his son.

Mr. Moore Returns

After Addressing Important Meeting in Arnprior

Mr. W. H. Moore arrived in the city yesterday morning from Arnprior, where he had gone by the request of friends of his interested in carrying a by-law for giving a bonus of $35,000 to a large shirt manufacturing concern, to speak in their interests.

He was greeted by a large meeting of electors on Monday evening, spoke altogether on the bonuses and encouragement the city of Peterboro gave to the different industries and the results that had been obtained. The by-law was voted on on Tuesday and was carried by 61 for and 32 against. The new factory will start construction work at once and rush it ahead as quickly as possible. The building will be 140 feet by 80, and five stories high, and it is expected it will employ 500 hands.

Why do not our city fathers try and get such factories as Arnprior has now purchased for comparatively little, instead of rushing round with all kinds of property offered to a one-horse company that engages to employ six men and a dog?

To Make a Bride

Many a woman would make a beautiful bride but she is deterred from entering the married state because of ill-health.

$500 REWARD FOR WOMEN
WHO CANNOT BE CURED.

The proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay $500 in legal money of the United States, for any case of Leucorrhœa, Prostatic Weakness, Prolapsus, or Falling of Womb which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

"If women would study the laws of health and use a little more common sense there would not be such a large number to-day suffering with the ills peculiar to our sex," writes Mrs. Sallie Martins (President Mutual Social Science Club), of 180 South Halstead Street, Chicago, Ill. "Then when medicine is needed if they would take the 'Favorite Prescription,' they would have a chance to get well. I used Dr. Pierce's Favorite Prescription three years ago and it cured me of female weakness of several years' standing, so I know what I am talking about when I praise it and always know what the result will be where it is used."

Dr. Pierce's Pleasant Pellets should be used with "Favorite Prescription" whenever a laxative is required.

SAVINGS DEPARTMENT

Interest on deposits of $1.00 and upwards will be allowed at the rate of 3 per cent. per annum, credited half yearly.

The Bank of Ottawa
ASSETS OVER $23,000,000.00

A. A. HOLLINGSHEAD, Manager

Local Incidents
BY THE THIRD MAN ON THE STREET.

—A further medal to any asset citizen who saw the eclipse yesterday.

—Now is the golden opportunity for the smooth tongued lightning rod man to sell his wares.

—Quite a number of local sports are leaving to-day for Rice lake after ducks.

—The executive of the Young Conservative Club will meet on Saturday evening to map out a program for the winter.

—Children are now hunting up books and bags have not worked anything for many weeks, as the schools reopens to-morrow.

—Johnny get your gun," and go after the ducks to-morrow, and what you shoot this evening, don't forget to label as products of the 1st of Sept.

—The funeral of the late Wallace Nicholson Ferguson of Calvan, whose death occurred on Sunday, took place yesterday to St. John's cemetery, Ida.

—The roomers at the Y.M.C.A. will now have a place to hang their other suits, as commodious wardrobes are now being placed in the top story.

—Mr. Albert Dunsdow, late of the C.G.E. Co., has rented the billiard room to the rear of Mr. Jas. Dolan's cigar store, and will carry on the business himself.

—And still the populace of Peterboro nightly throngs to Jackson Park. The band last night was in good trim and gave some excellent selection. The pictures were greatly appreciated.

—The next meeting of the Rural Deanery of Northumberland will be held at Brighton on Sept. 19th, at 2 o'clock. At the special deanery service on the 19th Rev. E. A. Langfeldt will be one of the preachers.

—Mine Host Jackson, of the Crown Hotel, has secured the services of a new wine clerk in the person of Mr. George A. Lee. Mr. Lee has been engaged in a similar capacity at the Nixan House, Little Current, Manitoulin, and more recently at the Daly House, Lindsay.

—The improvements in Messrs. Ormond & Walsh's drug store are being rapidly pushed forward. Mr. Higgins, who has the contract, for placing the new metallic ceiling, has begun work, but is waiting for the carpenters to get out before completing the job. Mr. Davidson is going to have a handsome store when finished.

PATENTS PROMPTLY SECURED
Inventors and others who realize the advisability of having their Patent business transacted by Experts. Preliminary advice free. Charges moderate. Our Inventor's Advisor sent upon request. Marion & Marion, New York Life Bldg., Montreal; and Washington, D.C., U.S.A.

BIG G
Cures in 1 to 5 days. Guaranteed not to stricture. Prevents contagion. Painless, and not astringent or poisonous. Sold by druggists, or sent in plain wrapper, by express, prepaid, for $1.00, or 3 bottles $2.75. Circular sent on request.
BIG G CHEMICAL CO. U.S.A.
MEN AND WOMEN.
Use Big G for unnatural discharges, inflammations, irritations or ulcerations of mucous membranes. Painless, and not astringent or poisonous.

LOOK OUT FOR GERMS NOW.

Summer Months Call for Constant Vigilance and Use of Mi-o-na

In the summer months constant vigilance is necessary, or dangerous disease germs will be absorbed from food or drink.

The so-called summer complaints and bowel troubles do not come to people with a healthy stomach, for Dame Nature kills the disease germs with the natural juices secreted by the healthy digestive organs.

Persons with a weak stomach and poor digestion in the summer season live in constant fear of germs of disease. Let those people use Mi-o-na before each meal, and the stomach and the whole digestive system will be strengthened so that disease germs will have no effect whatever. You can eat what you want and all you want without any fear of indigestion or bowel trouble, if you take a Mi-o-na tablet before each meal.

When there are pains or distress after eating, headache, belching of gases, sour food, and bad taste in the mouth, dizziness, heart-burn, specks before the eyes, furred tongue, sleeplessness, and debility or weakness, it shows that the stomach needs the help of Mi-o-na. Just one little tablet out of a 50 cent box of Mi-o-na before each meal for a few days, and you will regain perfect health and strength, and be proof against the germs of summer diseases.

Ask Wm. Madill to show you the guarantee under which he sells Mi-o-na. It costs nothing unless it restores health.

WHERE JAPAN GAINS IN A MONEY SENSE

Transfer of Chinese Eastern Railway Means Exchange of Millions --Matter to be Settled Between Japan and China

Portsmouth, N.H., Sept. 1.—The Associated Press is able to give one additional and interesting as well as important detail in regard to the conditions of peace. Most important of all is the fact that the formal recognition of Japan's possession of the Chinese Eastern Railway below Kuenchangtse, the junction of the branch to Kirin, involves a payment by Russia to China of a sum estimated at $75,000,000. This is the Chinese interest in the road, and for it China must be remunerated. The question of the ultimate possession of the road is a matter to be settled between Japan and China. Japan can keep the road or surrender it to China, demanding in return the money paid by Russia to China. If she elects the latter course Japan will therefore obtain as an indirect "spoil of war" from Russia the above mentioned sum, in addition to reimbursement for the cost of maintaining the Russian prisoners of war, for which Japan will present an itemized bill. Japan is known to have given her word to China not to retain the railway, which was really built for strategic purposes. But if China prefers the money to the railway, Japan could not be accused of bad faith. Inasmuch as Japan was desirous even before the war of extending the then projected Korean Railway, which is already in operation, so as to eventually connect with the Eastern Chinese and Chanhaikwang roads, and in the negotiations which preceded hostilities asked Russia to bind herself not to impose this aim, it is considered likely that she would much prefer the railway to the money. In addition to turning over the money obtained from Russia, China, if she took the railway, would therefore have to reimburse Japan for the expense incurred by her in restoring the road, rebuilding the bridge storing the road, rebuilding the bridge and changing the gauge.

RUSSIA'S PART IN THE DEAL.

Whether it remains in the hands of Japan or ultimately becomes a part of the system of Chinese imperial railways, a traffic arrangement must be made with the part still in the possession of the old Chinese Eastern Company, the stock of which is held by the Russo-Chinese Bank. This adjustment will be arranged later. Both Russia and Japan, if the latter retains the road, are to be allowed to have "railway guards" for the protection of the railway property, and the same considerations which threaten its interests, are mutually to be permitted to send troops, but the number is in no case to exceed those required, and they are to be forthwith recalled as soon as their mission is accomplished. This, likewise, is a very important provision, and with the East and West Chinese Eastern line and the Southern line as far as Kuenchangtse still in Russia's possession, would in case of a future issue give her control of the largest part of Manchuria — the whole vast territory from the fertile valley of the Sungari, called the "granery" of the Province, northward.

Another important provision is that Japan's succession to the Port Arthur and Liao Tung leases, which Russia surrenders, is conditional upon China's assent.

The armistice has not yet been arranged. The War Departments at St. Petersburg and Tokio are consulting Gens. Linevitch and Oyama respectively, and it is not improbable that the armistice will be concluded directly by the generals on the field of battle.

TUNNEL NIAGARA RIVER

Vanderbilts Practically Determined to Secure Quicker Transit.

New York, September 1.—The Vanderbilts have practically determined to tunnel the Niagara River for the purpose of securing quicker transit of traffic to and from the West through Canda. Civil engineers, representing the Michigan Central Railway, are now looking over the ground between Buffalo and Niagara Falls, with the view of ascertaining the best locality to construct a tunnel. Plans have already been prepared for a new railway bridge across the Niagara River, but such a bridge would have to be a drawbridge, as boat traffic on this river has increased to such an extent that even on the present international bridge railway traffic is frequently obstructed and delayed.

WITTE'S NIECE A CHORUS GIRL

Young Woman in Company Playing at Buffalo N.Y.

Buffalo, N. Y., September 1.—Iva Padgett, who is singing in the chorus of a theatrical company at a theater here this week, says her real name is Catura de Witte, of Russia, and that she is a niece of M. de Witte, chief Russian envoy at the Portsmouth conference.

Miss de Witte says she ran away from home and came to America. M. de Witte, she says, was asked by her father to locate her and induce her to return with him to Russia.

She says she has received a letter from de Witte requesting her to meet him tomorrow night at the Fifth Avenue hotel, New York. Miss de Witte declares she will meet the envoy, but that she will not return to Russia with him.

She refuses to show a letter which she says M. de Witte sent to her.

THE INTERNED SHIPS

The interned warships to which Japan has waived her claim, and which will be returned to Russia, are: The battleships Czarevitch, Atsuma, Tsu, the cruiser Askold, the gunboat Manjur, and the torpedo destroyer Grozobol, at Shanghai; the cruiser Diana, at Saigon, French Indo-China; the cruiser Aurora, Oleg and Pamiatchug, at Manila; the cruiser Lena, at Mare Island, San Francisco Bay.

DYING BY THE THOUSANDS

Men, Women and Children Starving to Death in Spain

GREAT MANY LIVE ON ROOTS

Goaded to Riot, Murder and Theft by Pangs of Hunger.

Seville, Spain, August 31.—Heart-rending reports continue to reach the provincial authorities from the outlying famine-stricken districts. The latest reports received from Osuna and Almogia, the respective mayors of which notify the authorities that their resources are exhausted and that they are unable to further assist the famished laborers and the women and children as the distress is too acute.

At Ecija the population has looted the bakers' stores.

The mortality among infants and aged persons is attaining terrifying proportions, and in many localities the working people are living on roots. The government has organized public works on a small scale, employing about 600 men, but this is a mere drop in the ocean of misery, as a moderate calculation shows that 200,000 are out of employment.

Cardinal Sancha, having exhausted the available charitable funds is going from house to house in Seville, begging for contributions, while the employees of several banks and the commercial houses here decided to devote a portion of their wages toward the relief of the destitute.

Count Romanones, Minister of Agriculture, has just concluded an exhaustive personal inquiry in the distressed districts, following on the relief fund of $800,000 voted by the government. His report creates the impression that heroic measures for relief are essential. The Count journeyed from end to end of Andalusia and everywhere in the four provinces comprised therein he was confronted with pictures of desolation.

The territory most stricken forms a circle embracing Seville, Jeres, Malaga and Cordova, where natural forces appear to have been combined against the people's welfare. The rivers for years past have been gradually filling with sand, preventing navigation and hindering commerce. The district always has been dry, but this year a two months' drought, beginning in the spring, destroyed all hopes for the reaping of crops and rendered the landscape practically a desert, resembling portions of Morocco. The population is almost entirely composed of day laborers, who depend on agricultural employment, and, when that fails, which is a frequent occurrence, though more marked this year than before, practically everybody is thrown into a condition of indigence.

It is calculated that a third of the population emigrated in recent years to South America, and these emigrants naturally included the most robust. The condition of the remainder, however, was not ameliorated therefrom. The soil, owing to lack of irrigation, is becoming more and more unproductive and the patience of the people is now nearly exhausted.

The absence of the landlords and unfulfilled electioneering promises, added to the fact that women and children are suffering the agonies of slow starvation, have led the people to listen to agitators, who incited them to violence, the result of which is seen in attacks on farms, the seizure and killing of flocks of sheep and the threat of armed invasion of the towns.

Murmurs of revolution have awakened apprehension and the farmers everywhere are taking refuge in the cities, while the police regard acts of pillage with indifference, refusing to arrest men who frequently accuse themselves in order to obtain food.

NEWSPAPER ATTACK ON WITTE

Moscow Editor Accuses Peace Envoy of Incapacity and Ignorance

Moscow, September 1.—The Moscow Gazette, the organ of the monarchicals, today savagely attacks M. de Witte, the article transcending in violence anything that has appeared in the last decade. It accuses M. de Witte of incapacity, ignorance, and empty headed vanity

WEATHER NOTES.

Fresh north-west to north winds, fine and comparatively cool.

VESUVIUS BURSTS INTO ERUPTION

Large Columns of Fire and Lava from Volcano

SEVERAL PEOPLE KILLED

Earthquakes add to the Horror--Houses Rocked with Severe Shocks

Naples, September 1.—Vesuvius, about five o'clock yesterday morning, burst suddenly into eruption, throwing up great columns of fire, large stones, and prodigious quantities of lava. The eruption is especially violent.

Dispatches from Messina state that about the same hour the Volcano of Stromboli, which had been silent for some months, suddenly broke forth. A terrible detonation was heard, and large incandescent stones were hurled to great heights, accompanied by a great column of smoke and fire, which soon covered the whole island on which the volcano is situated.

All the windows of the little town were broken, and the houses rocked with the severe shocks. There was a terrible panic and many persons were injured.

A violent earthquake is also reported from Sultana and Palena, simultaneously with the eruption of Vesuvius and Stromboli. Many houses fell, church steeples tottered, and there was great panic. The population fled to the country, two persons being killed and more than a hundred injured.

A New Enterprise

Mr. P. Downham Will Open Creamery and Butter Factory

Peterboro, now known all over the Dominion as a rapidly growing and sound industrial center, is to have still another class of industry within her borders.

Mr. P. Downham, has completed all arrangements for the erection of a new building which will be fitted up and equipped in the most modern manner as a creamery.

The new edifice will be situated upon Aylmer street between Hunter and Simcoe streets. That is the property upon which it was proposed to erect a new fire hall.

Mr. Downham yesterday assured The Times, that not only will work on the factory be pushed ahead with all possible celerity, and that in all probability, it will be ready for active operations by November 1st, but that some of the tenders, such as for foundation and other parts of the structure are already let.

The factory is unique of its kind, and whilst only to be one story in height, as is customary in large creameries and butter factories, will have very massive walls, far thicker and more substantial than required by the by-laws regulating buildings within the fire limits. It will be constructed of specially made cement bricks, to ensure dryness, with concrete floors, for sanitary purposes, and will be 55x30 feet in size.

The factory will be in operation the year round in a general creamery business which will include the manufacture and sale of butter and pasteurized cream. The machinery for the new building has been ordered from Messrs. White & Gilleglie, and will include receiving vats, steam separators, weigh scales, pasteurizers and Babcock testers, boiler and engine.

Mr. Downham applied at Monday's meeting of the Board of Works for a fixed assessment of $1,000 per year, which was granted. The negotiations for the property which were then in progress have since been completed. Mr. Downham having secured it from the Bradburn estate.

This new venture in Peterboro will not only add to our long and rapidly growing list of factories, but will be a great source of revenue to the farmers living within reasonable distance of the town.

The creamery will have a capacity of from 20,000 to 30,000 pounds of milk a day, and as this means from 2,000 to 3,000 gallons of milk every 24 hours, it will easily be seen the boom it will give the farmers of Smith, Monaghan, Otonabee, Douro and nearby townships. As many farmers now possess separators of their own, they will for the sake of space and weight bring in their cream. Those bringing milk, will have it put through the creameries' separators and get back the skimmed milk for hog feed or other purposes. The buttermilk will command a ready sale in The city during hot weather. Mr. Downham is a thoroughly practical man in this business, having been engaged in creameries all his life.

A Gipsy Runaway

Yesterday morning, Robt. Watson, one of the Gipsy band located near Jackson Park, left his horse and rig standing near the Grand Trunk ticket office. A street car came along and the horse dashed down George street. Watson rushed out and made a grab for the horse and seized the shafts. After being dragged some distance, the wagon passed over his left foot, bruising it badly. The horse was stopped at King St.

To Organize

Chief Constables to Form an Association

Chief Rexel has sent a favorable reply to the communication he recently received from Deputy Chief Constable Wm. Stark, of Toronto, requesting his attendance at a convention of the Chief Constables of the Dominion to be held at Toronto on Tuesday, September 5th. Indications point to a good attendance at the convention, and our local chief has signified his intention of being present. The object of the convention is to organize a Chief Constables Association of the Dominion of Canada.

Obituary

Sudden Death of Mr. Wm. Rutherford of Otonabee

Mr. William Rutherford, a well-known and highly respected farmer dropped dead at his home lot 17, con. II, Otonabee township, while sitting on a sofa about nine o'clock Wednesday night.

Mr. Rutherford had worked hard in the fields all day apparently in good health, but after supper complained of transitory pains in the region of his heart. He, when seated on a sofa, seemingly all right, suddenly fell back dead. Mr. Rutherford, who was 69 years old, at the time of his sudden call, leaves to mourn his loss, his wife, who was a Miss Anne Young of Hastings, and three children.

Mr. William Rutherford, the only son, resides at home and the two daughters are Mrs. Walter Dickson, of Otonabee, and Mrs. W. D. Methcalf, Bethune street, Peterboro. Two sisters also survive. They are Mrs. John McWilliams, Ashburnham, and Mrs. W. J. Romrough, of Toronto.

The funeral will take place this afternoon at two o'clock from the family residence, lot 17, con. II, Otonabee, near Graystock, and proceed to Little Lake cemetery for interment.

Changes in Train Service

In addition to the notice contained in yesterday's issue regarding the Grand Trunk flyer now to start from Campbellford, we might add that the C.P.R. local which arrives from Toronto at 7.10 p.m. has been changed, to arrive here at 9 o'clock. A heavier engine and an increased number of coaches have been put on. This gives visitors to the Toronto Exhibition two hours more in the city.

Local Singer Appreciated

Referring to a lady well known in this city, the Welland Telegraph says; "Miss Rickey, of Peterboro, who is the guest of her aunt, Mrs. John McCaw was the soloist in the Presbyterian church on Sunday. Miss Rickey is a contralto and possesses a voice of remarkable purity and beauty. In the morning "Face to Face" was heard by the congregation with a great deal of appreciation, and in the evening Miss Rickey strengthened a very favorable impression by singing "My God and Father While I Stray."

A Yachting Party

The following ladies and gentlemen, Mrs. Dr. Race, Mr. D. L. Case, Mr. L. C. Klouser, Mrs. and Miss Sloan, of New York, Mr. A. E. Thompson, Montreal, Mr. and Mrs. F. D. McKay, Toronto, Miss A. Robinson, Miss Jean Davidson, Miss Beth Morrow, Miss E. Morrow, Miss M. Rush, Miss L. Rush, and Mr. Duncan Walker, of Peterboro, were the guests of Mr. and the Misses G. W. Morrow yesterday afternoon. The party were conveyed for a pleasant outing on the yacht Maytlowe, which was specially engaged for the occasion.

Senator Cox Buys Land

Our former fellow citizen Senator Geo. A. Cox, has recently added to his already extensive holdings in Toronto and elsewhere, a valuable Toronto property, for which he paid $41,500 to Mr. P. Jamieson. The property is situated on Yonge street, Toronto, opposite Sloter street, and is occupied by the Dale Furniture Co. The lot has a frontage on Yonge street of 25 feet 4 inches by a depth of 108 feet.

Wedding of Local Interest

The London, Ont., Free Press, of recent date, contains a long account of a wedding that is of local interest. The marriage in question was that of Miss Maude Tuck, eldest daughter of Mrs. John Betts, who was married to Rev. Robt E. Pierce, M.A., B.D., Winnipeg. The groom is a brother of Mr. Stanley Pierce, city, and brother-in-law of Mr. H. A. Fife, 77 Harvey street, with whom the happy pair are spending a fortnight of their honeymoon.

Czar Nicholas Glad of Peace

Oyster Bay, Sept. 1.—Emperor Nicholas of Russia has recognized the part which President Roosevelt played in the successful negotiations for peace. A cablegram received by the President today from the Emperor reads;

"Peterhof, August 31.

"President Roosevelt.—Accept my congratulations and earnest thanks for having brought the peace negotiations to a successful conclusion, owing to your personal energetic efforts. My country will gratefully recognize the great part you have played in the Portsmouth Peace Conference.

(Signed) NICHOLAS."

UNBROTHERLY ACT

Will Charge Duty on Rail Freight Costs on Goods From Canada

Ottawa, Sept. 2—The Department of Trade and Commerce received today a cable message from D. H. Ross, its Australian representative, stating that the Commonwealth Government had decided to include the cost of rail freights for computing the duty. The effect, he says, will be disastrous to Canadian shipping on the Pacific. Canadian manufacturers in Eastern Canada must include in their statement of valuation the freight paid to the point of shipment, and as a result the long haul on the Canadian Pacific to Vancouver, will add heavily to the duty. The tendency thus will be to throw shipments to New York and the Pacific line will lose a large proportion of its business.

A Doctor Weds

Miss Mary E. Lipsett Married to Dr. C. H. Amys

A wedding that has caused some interest in local social circles, that of Dr. Amy's, who recently purchased as a comfortable nest for his bride, the residence lately occupied by the late Mr. Lipsett was celebrated yesterday in St. Luke's church, the rector, Rev. E. A. Langfeldt tying the knot. The doctor's bride was Miss Mary Elizabeth Lipsett, youngest daughter of the late George Lipsett, and sister of Mr. George Lipsett, jr., fifth ward.

The wedding was quietly celebrated, the happy pair dispensing with all unnecessary attendants and formalities. The bride was becomingly attired in a gray travelling suit.

Dr. and Mrs. Amys left on the 11.38 C.P.R. train for Kingston where they will embark on a boat trip to Montreal and Quebec. They will reside on Charlotte street on their return.

Treatment of Jews in Russia

New York, Sept. 1.—The American today, in a Bar Harbor, Me., despatch, gives the text of a letter sent by the committee of Hebrew bankers and business men to Sergius Witte concerning the treatment by Russia of her Jewish residents. They take issue with the envoy's claim that the Jewish situation is a domestic problem, and made a strong protest against the treatment of the race. The statement is signed by Jacob H. Schiff, Jacob Seligman, Adolph Lewisohn and other representative Hebrews, and covers the contentions and arguments made by them and by M. Witte in relation to the amelioration of the condition of the Jews in Russia urged by the delegation.

ATHLETIC WORLD

BY OUR SPORTING EDITOR.

LACROSSE.

The great attraction in the city on Labor Day is the return game which the Beaverton Checkers play here with George Lynch's Indians. As several Orillia players of last season are on the Beaverton list of players it is likely that both sides will have to hustle for victory.

• • • •

The locals play in Beaverton tomorrow and a good fast game is assured. The northern team play the return game here on Labor Day.

• • • •

BASEBALL.

On Saturday afternoon at three o'clock Riverside Park will be the scene of one of the greatest contests seen in the Midland League this year. The Port Hope nine will be on hand in a strong endeavor to pull out the game and tie for the league leadership, but the Pirates have something similar ideas and a great game may be expected. Quinlan will be on the slab for the locals, and Rattray will officiate behind the bat.

• • • •

A game between Charlotte Street Guild League Champions, and a crack team picked from the remainder of the Guild League teams is in prospect.

• • • •

The Port Hope nine is practising faithfully this week for their game here on Saturday.

• • • •

Peterboro have asked for Jack Rosevear to umpire the game there on Saturday.—Port Hope Guide.

• • • •

It is rumored that Bowmanville has decided to bring an umpire from Toronto for the Cobourg—Bowmanville game. This, of course, is contrary to the rules of the league and further there are just as good officials in the Midland League District as in the Queen City. It is to be hoped that Cobourg will not submit to such an arrangement. — Port Hope Guide.

• • • •

GOLF.

Rosedale will send a team to Peterboro on Monday.

• • • •

FOOTBALL.

The annual general meeting of the Peterboro Rugby Club has been called for Wednesday evening next, when officers for the ensuing year will be elected, and the prospects for the coming season generally discussed. The meeting will be held in the Oriental Hotel parlors, and all rugby enthusiasts of the town are cordially invited to attend.

• • • •

It behooves every lover of Rugby football to see that Peterboro could have a try for the junior Rugby championship, since there seems no possibility of the city being represented in either the senior or intermediate series of the Ontario Rugby Football Union. Even to secure the junior championship involves steady practice and interest in the game.

THE RUSSIAN PRESS IS RESIGNED TO THE TERMS

But One Leading Journal in St. Petersburg Does Not Believe it Will be Permanent Peace --Radicals Glad the War is Over.

London, Sept. 1.—M. Koretiyo Takahashi, the Financial Commissioner of Japan in an interview today said, "The Japanese Government in prosecuting the war never had in mind the question of having to demand upon an indemnity. The Government had prepared itself for any emergency, and at the present moment there is no less than $175,000,000 untouched in London, Germany, and the United States. This being the case, I see no necessity for the issue of a new loan. Had peace not been concluded, my Government would have raised an internal loan of $100,000,000 for the further prosecution of the war. This was the plan of the Government at the time the conference met. I consider that the present resources of Japan are ample for clearing up the war and meeting the incidental expenses thereby involved.

"All far-seeing Japanese will hail with satisfaction the conclusion of peace, although there must be a feeling of general regret that Russia did not display a more reasonable attitude. But in the circumstances all Japanese who take a broad-minded view of the situation must recognize that the decision of their Emperor was the wisest possible course. Had the Government insisted on an indemnity it is clear that the war would have continued. The objects for which this war was waged have already been more than achieved, and to continue the war for a pecuniary consideration would not have been worthy of the Japanese nation. I do not share the view that this is a patched up peace or that fresh conflicts are likely to ensue. Such a contingency has been amply provided for by the new Anglo-Japanese alliance."

M. Takahashi looks for the earliest development in the far east in the education of China by western methods, which has already commenced.

St. Petersburg, Aug. 31.—The general tone of the press this morning is one of resignation. The Novoe Vremya is a noteworthy exception. The editor, M. Souverin, refuses to believe in the solidity of peace, and contends that it is simply a stage towards a new struggle between Russia and Japan. The Novoe Vremya's article displays further irritation towards President Roosevelt for his mediation, which the paper considers was "Regrettable, importune, and even disastrous for Russia."

The Syn Ontechestva (Son of the Fatherland) says: "After a shameful war Russia could certainly lay no claim to an honorable peace. She should congratulate herself on the cessation of the war, the continuing of which would have cost immeasurably great sacrifices."

Other radical papers, while criticizing the peace terms, express pleasure at the conclusion of the war, which they hope will be followed by a concerted effort at internal development.

ADMIRATION OF THE LITTLE JAPS

Fighting Machines That the Russians Could Not Beat

MIGHT BE MORE TROUBLE

The War Ended There Should be a Betterment of Trade Conditions With Japan.

Ottawa, September 1.—In all quarters there is the greatest pleasure expressed that the war in the far East has been brought to a close. A prominent military officer who saw service in South Africa, when asked to express an opinion, said that he shared with other military men an unbounded admiration for the military genius of the Japanese nation. They were fighting machines and could not be beaten by such a nation as the Russians. This officer's only fear was that Japan, owing to her action, might have to fight Russia again at the end of another quarter of a century. "She has saved Great Britain from having to do the trick in Northern India, and it will be too bad if she has not effectually disposed of Russia for all time." He also expressed the fear that the occupation of the Island of Sakhalin by the two nations, would lead to endless friction. Japan, however, had displayed a wonderfully generous spirit and in this respect had shown the way to other nations of the world.

The officials of the Trade and Commerce Department, when seen today in reference to the effect of peace between Russia and Japan on Canada's trade with the Mikado's kingdom, expressed the opinion that there would naturally be a betterment of conditions as soon as matters resumed their normal condition. With Japan at peace, it is confidently expected that there will be a gradual increase in the trade with the Flowery Kingdom.

ROUTE OF CANADA'S WHEAT

British Liberal Talks About Frozen Harbors.

London, September 1.—J. M. Henderson, the prospective Liberal candidate for West Aberdeenshire, addressing a meeting at Hreemar, said the tariff reformers talked about Britain's wheat supply from Canada, but did they know, as a matter of fact, that half of the wheat from the Dominion came through the United States, owing to the fact that the harbors of Canada were frozen in winter. It was impossible to believe the government would jeopardize the great import trade with foreign countries for the purpose of securing intercolonial trade with Canada.

Mr. Perks, M.P., addressing the same meeting, said he did not believe the government would hesitate to press such a suggestion.

BITTER VEXATION OF RUSS COURT

Japan's Sensational Step Came Like a Thunderbolt.

THERE IS NO REJOICING

National Sense of Relief at End of the War Manifested Quietly

St. Petersburg, September 1.—The national sense of relief, that a costly and inglorious war has ended, manifests itself quietly, without rejoicing. The most startling circumstance in connection with the rejection of the news of peace in the bitter vexation openly displayed in court circles. The news of Japan's sensational step struck the Imperial household like a thunderbolt. The circles which had regarded General Linevitch in his militant assurances of his ability to retrieve the glory of the Russian army, and which has just secured the Czar's signature to a great mobilization scheme are today in a state of consternation at the spectacle of Russia, at peace, after a war in which it had lost every battle. Their feeling may be best understood from the pregnant remark of an distinguished European diplomat here;

"Japan has acted with her usual sagacity. She has already secured all that she had gone to war for; and, when she became convinced at the conference that the Russian rulers did not desire peace, she quietly made peace herself."

M. Witte is coming home to all intents and purposes with $500,000,000 in his pocket.

This is the total extent of his diplomatic victory.

KILLED BY A LOCOMOTIVE.

A Citizen of St. Genevieve Hit by G. T. R. Train.

Montreal, August 31.—A. Fabre, a well known citizen of Ste. Genevieve, was run over by the Ottawa express, on the Grand Trunk Railway, at the Beconsfield crossing, at 9 a.m. today. His torn and bleeding body was found after the train had passed. The victim, who was trying to make the crossing when he was struck by the locomotive, did not appear to have heard the express coming. His body was terribly mangled and his skull was crushed. The remains were taken to the station and Coroner McMahon was notified.

Profitable Municipal Plant.

Kingston, September 1. — The financial report for the past eleven months, during which the city has owned its lighting plant, was made public yesterday. The revenue for gas was $31,546, and electricity $31,240. The net profit was $11,192. This profit is in spite of a reduction during the year of electricity from 14 to 12 cents, and gas from $2 to $1.50

TIREDNESS MEANS DANGER

Indicates Faulty Blood and Worn Out Nerves — with Up or Total Collapse Will Surely Follow

When you're tired all day, bothered by trifles, exhausted with nervousness, be sure there is something wrong.

You need bracing up, you need nourishment in the blood, need a powerful medicine to vitalize the nerves and distribute force and staying power to all over-worked organs.

The most marvelous success is Ferrozone, a nourishing tonic so scientific as to be the admiration of every physician. Ferrozone performs wonders for people in poor health; acts directly on the blood, enriching it with strength and new life that is at once dispatched to all parts of the body. Ferrozone feeds the nerves and vital energies, supplies force, determination and joyous, buoyant spirits.

A case where there was ingratitude and lack of strength is told by Mr. David Brown, of peterstiffage box No. 30, Boston, Ont.: "About a year ago my health commenced to fail. My hands and feet seemed always cold. I felt worn-out and exhausted, weak as a little child. My face twitched. My limbs and arms commenced to lose their sense of feeling and finally my left side was perfectly numb. All my color left. My appetite ran down. Ferrozone was the first to give me any help. I improved with it very quickly. It toned up the blood and started circulation, so that the numbness gradually disappeared. My condition was perfectly cured by Ferrozone, and I have been well ever since. (Signed) "David Brown."

SPECIAL NOTICE.—To get satisfactory results be sure you get Ferrozone only. Fifty cents per box, or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterboro are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $3 per year strictly in advance.

LAUGHTER IN CHURCH.

Dr. James M. Buckley, a prominent American Methodist divine, is quoted as saying that a clergyman has no right to make his congregation laugh—that it is irreverence to do so. Perhaps Dr. Buckley did not in reality make so broad a statement as that. Perhaps there were reservations and qualifications which the reporter omitted. Dr. Buckley may not have gone so far as to say that laughter in church is sinful under all circumstances.

Assuredly a church is not a "house of mirth," but there may be such a thing as godly laughter. The minister who clowns it in order to tickle the risibles of his audience certainly sins against the canons of good taste. He does not belong in the ministry but in the circus tent. There have been preachers who, without any desire to make their hearers smile, have done so through their quaint and forcible language or because they were themselves so full of innocent mirth that they could not help letting a little bubble out, even in the sanctuary.

It is not recorded that the laughter which was occasionally provoked by the remarks of Peter Cartwright or Henry Ward Beecher did any harm to the cause of religion or justly exposed either preacher to the charge of irreverence. The only effect of the mirth provoking remarks were to rivet the attention of those who sat under them. If any were asleep they woke up and remained awake.

The day of the terrifying and denunciatory sermon has gone by. The preacher no longer describes in agonizing detail the suffering of lost souls in the bottomless pit, thus keeping his congregation awake. It is not an easy matter to gain or flagging attention for a long sermon on a warm summer day. Pews are more comfortable than they were when the Puritans went to meetings, and the temptation to doze is sometimes strong. A quaint conceit or pious jest at such a moment is like a stone cast into a still pool. A ripple of laughter follows and there is life and animation instead of silence and stolidity. Dr. Buckley ought to see that there are occasions when a gale of laughter in a church may do good by banishing spiritual stagnation.

There are preachers who cannot reach the well springs of mirth even when they make desperate attempts to do so. Inevitably those preachers eye with disfavor the canny souls who are so full of godly cheerfulness that they cannot resist showing it even in the pulpit. It is not certain that the sober preachers do the most good. The effective evangelist is the one who can sweep all the chords of human nature and make men laugh as well as weep.

JAPAN'S GREAT SACRIFICE.

Baron Komura will go away from Portsmouth somewhat fuller-handed than he came, namely, by one-half of Sakhalin Island. All other territorial and political gains achieved by Japan in war remain to her credit, and it's perhaps worth mentioning that her right to Sakhalin and the Siberian coast fishing is to be recognized. M. Witte gives up nothing that had not already been wrested from Russia by Japanese arms, and he regains one-half of Sakhalin Island. Above all he has successfully maintained his principle of "not one kopeck." It will be seen, therefore, that the basis of treaty is to be almost literally the victor keeps what he has taken, the vanquished surrenders nothing, save that which he has unsuccessfully defended, that of which war had already deprived him. The world will now turn with keenest interest to see how the two nations will behave in endeavoring to repair the wastes and the make up of gains due to war. Japan has sufficiently a rich reward in the territory she has brought under her control, and in the opportunity for expansion that she has won.

GOOD HARVEST WEATHER

AMERICAN LANDSEEKERS MUCH IMPRESSED.

Marketing New Wheat at Melita, Man.—Cutting Almost Finished.

Winnipeg, Aug. 31.—Good harvest weather prevails throughout the wheat zone to-day.

A large party of American landseekers reached the city this morning, returning from Arcola, where many of them have secured farms for their future homes. They all speak in the highest terms of the fine crops.

Melita, Aug. 31.—Mr. Neely brought in the first load of new wheat today. It graded No. 1 northern. Several farmers have finished cutting. Threshing has already started, and the weather is perfect.

Hartney, Aug. 31.—The work of reaping is now far advanced. A few more days and wheat cutting will be completed in this district. This season the wheat all became ripe nearly at the same time all over, and somewhat earlier than was expected by anyone. Consequently there has been a rush with the reapers and a great scarcity of stookers. Everywhere fields are covered by sheaves, just as the binders have left them, lying upon the stubble. Help from the east is anxiously awaited. Threshing will commence early. Some machines will be started in this district about the end of this week. Threshing will be general from the stock.

POISON IN THE WINE.

Young Man Accussed of Attempt on Lady's Life.

Niagara Falls, Ont., Aug. 30. — A young man named Donald is a prisoner [illegible] as a result of his attempt to poison a daughter of Mrs. Rood, who keeps a boarding house on Ferry street. Donald boarded at Roods, and, it is said, has been courting the landlady's daughter. Lately he has been drinking and his actions have given cause for anxiety as to his sanity. Yesterday he took some wine to the boarding house and invited Miss Rood to have a glass.

When she tasted the liquor she found it to be heavily charged with carbolic acid. A doctor was summoned and her injuries were found to be slight. Donald escaped, but came back later and was arrested. The bottle from which the acid was taken was found hidden in his room.

LAURIER PLEASED AT VICTORY

Delighted to Help in Admission of Two New Provinces to the Federation.

Winnipeg, Aug. 31.—The Viceregal party and Sir Wilfrid Laurier's party passed through the city last night en route to the inauguration at Edmonton. Sir Wilfrid was talkative to his friends. Mr. H. M. Howell began to congratulate the Premier on the results of the session.

"Well," replied the Premier, "there is no victory without some fighting. We are quite satisfied." He also expressed his satisfaction at having the honor of adding two new provinces to the Dominion. "It is a thing that has not happened for some time, and is not likely to happen again for a long time."

Lady Grey and daughter will remain here for a few days at Government House.

HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

The Canadian Northwest

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority to some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2] [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

How to Visit Colorado

Go first to Denver. It is the State capital, as well as the largest, wealthiest and most metropolitan city between the Missouri River and the Pacific Coast. The city itself is very interesting, and from it start practically all the trains over the various roads into the mountains.

Many of the most enjoyable one-day trips in Colorado begin and end at Denver. The cost of these little journeys is not great.

After you have familiarized yourself with Denver and its surroundings will be soon enough to decide where to go for the rest of your visit. The question must be considered from several standpoints—altitude, hotel accommodations, accessibility, amusements, etc.

Our Colorado literature will help you in deciding where to go and what to do. Sent free for the asking.

Little Journeys

At Little Cost

To the scenic land—short trips from Denver and Colorado Springs into the mountains—made in a day and at slight expense—that is one of the enjoyable pastimes of Colorado.

Denver has at least a dozen such trips that are worth while; for instance: Around the Georgetown Loop, to Platte Canon, to Greeley, to Boulder and to Ward "up the Switzerland Trail."

Colorado Springs will keep you occupied for as long a time as you can stay. You should go up Pike's Peak, over to Cripple Creek, to Manitou, through the Garden of the Gods and to North and South Cheyenne Canons.

You may also go beyond the state to Salt Lake City and Ogden. Special reduction for all these trips to summer visitors.

The trip to Colorado is also a pleasure. Quick, convenient service via Rock Island System. Two one-night trains daily from Chicago—one two-nights train. Through daily trains from St. Louis and Kansas City and through daily sleeping car service from Memphis.

Use this coupon if you want a good vacation help.

Rock Island System

The Glenara Gold Mining Co.

Capitalization, 1,500,000 Shares — Stock Fully Paid and Non-Assessable

Par Value, $1.00 Per Share. — Treasury Stock, 700,000 Shares.

This Company was organized in March, 1906, under the laws of Arizona, with a capital of 1,500,000 shares. The par value of these shares is $1.00 each. They are full paid and forever non-assessable. The Company owns approximately seventy-five acres of territory in the Goldfield district. By reference to the map you will note that every acre is within the producing area, and with the systematic development this large acreage is to receive, there is no doubt that the stockholders will very shortly see the Company on a producing basis.

We desire to say right here that this Company is organized for legitimate mining, and not stock jobbing purposes, and among the directors are some of the best known mining men in the West. It is their one desire to make the GLENARA GOLD MINING COMPANY a great success at the earliest possible moment.

It is for the purpose of raising funds to vigorously develop the Company's holdings that some Treasury stock is now offered for public subscription. Out of a capitalization of 1,500,000 shares, 700,000 shares have been placed in the treasury. This treasury reserve insures the company a large working fund, if needed. It is the belief of the management, however, that it will not be necessary to dispose of over 50,000 shares of the treasury stock. The present outlook is such that the management believe that the mine will be on a paying basis before many weeks have passed.

The Property of The Glenara Gold Mining Company Consists of the Following:

The Glenara Group consists of four claims located in the Goldfield mining district of Nye County, Nevada. These claims are known as the Kentucky Bell, Mabel M., Lone Jack and June Bug, covering about seventy-five acres. This group of claims is located on a system of ledges over a mile and a half in length and about half a mile wide. These ledges are the same as those traversing the Kendall, Tonopah Club, Vernal, Quartzite, Black Butte, New York, Brooklyn, Jumbo, Vernal, Penn and Federal.

The surface indications at the time of location were of the very best, however, good float being found upon the ground and good pannings are obtainable, all of which indicate that the property can be developed into a paying proposition. The ground has been thoroughly prospected and the sinking of the shaft begun on the Kentucky Bell claim. There is a force of men sinking a shaft as rapidly as possible. Good ore has been encountered running from $8 to $18 per ton, increasing in value with depth, and it is safe to say that a strike may be looked for any day.

Taken as a whole, the investment offered by the Glenara Gold Mining Company is equal to any prospective company in the district. The claims are exceptionally well located, covering a large area; the management is conservative and honest, and is working hard for the success of the company.

The proposition will stand the very closest investigation, and, in fact, an investigation by prospective investors WILL MEAN AN INVESTMENT. WE COURT INVESTIGATION.

The allotment of stock is very small, and if you desire to become interested with this enterprise, it will be necessary for you to communicate with us at once.

The work on the property is being pushed to the utmost, and any day may bring news of a strike which will advance the price of the stock.

For prospectus and full particulars, address

FULL TERMS OF PEACE

All the World Rejoices at the Successful Issue of the Peace Conference

Russia, in the agreement reached at Portsmouth, has relinquished her rights in Manchuria, with the exception of the common right of all nations to the "open door" as affects commerce, and she concedes, besides, control of Korea by Japan. The Mikado's Government has withdrawn its demand for an indemnity for the cost of the war, for possession of interned Russian warships, and for the limiting of Russia's naval power in the east, and "splits the difference" as regards Saghalin Island. Charges for the care of prisoners of war will be decided by arbitration. Appended are the original demands of the Japanese envoys and the agreements and compromises effected.

AGREED TO.

Article 1—Recognition of Japanese preponderance in Korea, with the right to preserve order and to give military and financial advice to the Emperor; but to maintain the policy of the "open door" and to observe the territorial integrity of Korea.

Article 2—Mutual evacuation of Manchuria.

Article 3—Obligation by Japan to restore Chinese sovereignty in Manchuria, including civil administration.

Article 4—Mutual obligations to respect in the future the territorial integrity and "administrative entity" of China and Manchuria, with equal opportunity "The open door" for the industry and commerce of all nations.

Article 5—Division of Sakhalin Island, Russia to retain the northern part of the island and Japan the southern; that is, revert to the conditions that prevailed before 1875.

Article 6—Russia to surrender its leases of the Liaotung peninsula, including Port Arthur, Dalny and the Islands and Elliott Islands.

Article 7—Surrender to China of the railway from Harbin to Port Arthur and New Chwang, with the surrender of all privileges obtained under the concession of 1898.

Article 8—Limiting the Rothstein Ekhtomsky concession of 1898, under which the cut-off road through northern Manchuria was built to connect the Trans-Siberian and Usuri line, but providing for the ownership and operation of the road by the Chinese Eastern; and providing further, for substitution in the future of Chinese imperial police for Russian railway guards.

Article 9—Reimbursement of the cost of the war (indemnity). Abandoned by Japan, the cost of maintaining the prisoners of war to be arbitrated, which debt can be liquidated without loss of national honor or self-respect.

DEMAND WITHDRAWN.

Article 10—Russia to surrender its warships now interned at Tsingtau, Shanghai, Saigon and Manila.

Article 11—Limiting in the future the number of war vessels that Russia shall keep in the Pacific.

ACCEPTED.

Article 12—Special fishery rights to citizens of Japan in waters of the Russian littoral from Vladivostok to the Behring Sea.

A SUCCESSFUL SEASON

Last Excursions by the Calcutt Line of Steamers

The season of excursion navigation is about over, as far as the Rice Lake is concerned. Wednesday was the last day included in the regular schedule of the Calcutt Line of steamers, and the popular boat City of Peterboro, will, in a few days go into winter quarters. The management report that despite one or two unfortunate but unavoidable minor accidents to the steamers of this line, the Calcutt boats have had a very successful season. There are a few excursions still booked by this line, which tell, in no uncertain way, at this fag-end of the season, that the local boats are in great popular demand.

EXCURSIONS BOOKED.

The excursions still to be carried by the Peterboro boats are;

To-day, Aug. 31st.—Zion Sunday school, Benefort and Campbellton, per Str. Water Lily to Jubilee Point and Idle Wyld.

Friday, Sept. 1st—The Peter Hamilton Manufacturing Company's employees, per City of Peterboro to Jubilee Point.

Sept. 4th—American Cereal Company's Foot Ball Club, per Str. Water Lily to Gore's Landing.

Sept. 5th—Bethel Epworth League, Emily, and Queen's Own L.O.L. No. 294, per Water Lily, over the lift lock to Burleigh Falls.

TORONTO COUPLE DROWNED

Young Man and Woman Committed Suicide at Allendale, Michigan

Kalamazoo, Mich., Aug. 31.—William Todd and Ida Seibert committed suicide yesterday afternoon by jumping from the dock at Allendale into Gull Lake. John Ebert, keeper of the boat-house adjoining the dock, threw a life preserver to the man, but they made no attempt to save themselves. After dragging ten minutes the bodies were recovered. Two days ago the couple came to the lake and registered at the hotel as from Toronto. Todd told the hotel clerk they were engaged to be married. In his room was found a note saying that they preferred to die rather than to live. Not a shred of evidence was found that would other-wise identify them, and the hotel register is the only guide the local police have. It is possible that the names given at the hotel are assumed.

CROWN TAKES ACTION

Chas. Gow Arrested on Charge of Manslaughter

At last the wheels of Justice are grinding, perhaps slowly, but towards the certain completion of redeeming this county from an otherwise inevitable name of lawlessness.

Much comment has been made at the lax way in which Chas. Gow, the self-confessed firer of several shots at the Hill house, the night the young boy was killed, has been up till Wednesday allowed to go where he chose.

Wednesday, however, following on his very properly accomplished arrest, Gow, who is charged with manslaughter in connection with the Dunmer tragedy, was arraigned before County Police Magistrate Edmison for a preliminary hearing.

The prisoner, who was not represented by counsel, was not asked to plead, but was remanded until Wednesday, Sept. 6th, when he will have a hearing in Norwood.

Until then Gow will remain in custody at the common gaol. Bail is likely to be applied for.

As noted in Wednesday's issue, on Tuesday night, Acting Deputy Attorney-General A. M. Dymond, of Toronto, wired Crown Attorney R. E. Wood to prosecute Charles Gow, the leading actor of the Thomas Edward Hill tragedy.

Mr. Wood immediately wired Chief of Police de la Ronde of Ottawa to place Gow under arrest. A prompt reply stated that Gow had already left the Capital, where he was attending the D.R.A. meet, and was on his way back to Peterboro.

County Constable Archie Moore was instructed to meet the 5.12 train from Ottawa, and he met Gow who was immediately arrested for manslaughter on a warrant issued before Magistrate Edmison.

Gow took his seat quite coolly but as the charge was read out against him he became very attentive and seemed to realize the serious position in which he is placed.

He was dressed neatly in a black suit with turn down collar and four-in-hand tie. He was not asked to plead.

The prisoner has communicated with his friends towards trying to obtain bail.

Got New Vitality Increased Appetite

True Strength, Vigor and Buoyant Health Quickly Followed the Use of DR. HAMILTON'S PILLS.

By purifying and nourishing the blood, Dr. Hamilton's Pills quickly impart new vigor to all weak organs. The kidneys and liver are stimulated, disease-breeding poisons are carried off, the entire body is renewed and restored.

Lack of appetite is changed into keen zest for food. Digestion and assimilation are made perfect. Thus all you eat is turned into nourishment and building material.

Read the evidence published here; it tells just how Dr. Hamilton's Pills cure the sick and help the weak:

Vital Energy Increased.

"I always felt 'draggy' and tired. When I arose in the morning my limbs ached and I felt dull. I didn't enjoy my meals and couldn't digest properly. Dr. Hamilton's Pills at once set my stomach, purified my blood, made me feel like new. No better medicine exists."

Thos. H. M. Morang, Minto, N. B.

By relying on Dr. Hamilton's Pills you are sure of strong vitality, nourishing blood, bright, cheery spirits. The marvel of this medicine is that it keeps you well—prevents and wards off sickness of every kind.

Dr. Hamilton's Pills keep thousands of people healthy. Won't you use them also? Sold everywhere in 25c. boxes or five boxes for $1. by mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

G. P. R. Train Service

The train service by the Canadian Pacific Railway to and from Toronto, during the Exhibition, will be as follows: Going to Toronto, 5.12 a.m., special August 29th to September 12th, except Sunday, 5.42 a.m., and the local at 8 o'clock. Returning, August 29th to September 9th, Sunday excepted, the local train will leave Toronto at 6 o'clock, instead of 5 o'clock, 10 p.m. train and the special at 10.30 p.m.

Good Campaign Literature

The Times was yesterday in receipt of a well printed and suitably illustrated book entitled "Protection and Prices, and the Farmer's Home Market," a copy of the third edition of Mr. Watson Griffin's work. This edition is a large one, consisting of one hundred and fifty-eight thousand copies; this speaks volumes for popularity of the preceding issues. The work is gotten out both in cloth and paper binding, is put together in neat form and the type is particularly clear and legible. Mr. Griffin is an ardent advocate of Canada for the Canadians, and his work is full from cover to cover with sound arguments, plausibly stated, for protection of both our farmers and manufacturers. The illustrations are both interesting and conveyances of more argument in a page than many columns of text.

Mining School for Sydney

Sydney, N. S., September 1. — The University of Dalhousie has decided to found a mining school at Sydney mines. The work of forming classes is to be begun at once. For a time the High School building will be used for lectures but a permanent building is likely to be erected later.

J. Conroy of the Windsor Sells Out to Edward Cassidy

Mr. J. Conroy, proprietor of the Windsor Hotel, has disposed of the business to Mr. Ed. Cassidy, of Dorset, near Huntsville. The new proprietor will take possession either today or to-morrow, as a large deposit has been made to bind the bargain. We understand that the consideration paid is $4,000, as this stand has always been a money-maker. Mr. Conroy has not yet determined what business he will enter on, after formally handing over the Windsor, but seriously contemplates resuming his old trade, the butchering business.

Mr. Cassidy, the new proprietor has carried on a successful hotel business in Dorset for the past three years, being property of the Dorset House. He was previous to entering the hotel business, fireman of the Mickle & Diamond Saw Co., lumbermen, carrying on a large business.

Important Sale

Farm and Village Lots, With Grand Island, and Stock to go

The Times was yesterday in receipt of a notice that on Wednesday, Sept. 20th, Messrs. McDougall, Brandon and Austin, of Fenelon Falls, will sell, by public auction a vast amount of property, real estate, live stock of all kinds, and implements.

The real estate includes Grand Island in Balsam Lake, six miles from Fenelon Falls, which contains some 1200 acres. The island is partly under cultivation and contains some 700 acres of valuable timber land. There is also a farm of 200 acres and some village lots. The live stock consists of a herd of valuable cattle and horses. These are also to be sold a great collection of waggons, sleighs, harness, tools and other sundries.

The sale is called as the vendors are winding up their partnership, as Mr. Brandon has recently gone into the milling business at Fenelon Falls.

The Mystery Solved

Thos. Beeteson, Whose Trunk Was in Montreal Harbor is Safe

As noted in yesterday's issue of The Times, there has been some considerable excitement in Montreal over the discovery in the harbor of a trunk found on Point Beaumont Market, with documents enclosed establishing the fact that it belonged to one Thos. Beeteson, lately in this city. It has been ascertained that the trunk did belong to Thomas Beeteson, who left Peterboro, Ont., on Sunday last for Montreal, and sailed on Tuesday on the Canadian Pacific Railway steamer Montezuma as a cattleman to England.

It is supposed that his trunk may have fallen from the ship into the river.

The following telegram was received yesterday morning by Mrs. J. Booth, with whom Mr. Beeteson boarded, regarding Beeteson;—

J. Booth,
62 Chamberlain street,
Beeteson all right. Sails on Montezuma. Writing.

(Signed) SILAS H. CARPENTER.

Barnado Home Sewer

Unsatisfactory Conditions Now Existing Must be Changed

Dr R. W. Bell, Provincial Health Inspector, accompanied by Dr. Bingham, medical health officer, and Chief Rassel, yesterday morning visited the Barnardo Home property for the purpose of making an inspection of the sanitary conditions of the buildings and surroundings.

Dr. Bell states that the Provincial Board of Health insists that the sewer be constructed, or that some satisfactory arrangements be made to remedy the present conditions.

If the city does not proceed with the construction of the sewer, which has been proposed, upon Barnardo avenue, it will be imperatively necessary that a connection be secured with the George street main by private means, or that the septic tank system be utilized at the buildings.

These septic tanks are made of metral and so constructed that all offensive liquid portions of the sewerage is conveyed away deep in the ground by a system of pipes.

A Gallant Peterboro Boy.

A scene of humor and a delicate compliment was that of a Peterboro boy who was lying in the hospital a short time ago. The pretty nurse overheard him exclaim, "Oh, my Lord." Wishing to rebuke him kindly she came to the bedside and said, "I think that I heard you call upon the name of the Lord. I am one of his daughters. Is there anything that I can do for you?" He looked up into her pretty face and with every mark of respect and admiration remarked: "Yes, ask Him how He would like me for a son-in-law.' This young man, it is needless to say, was soon on the way to recovery.

Horse Repository for Peterboro

Arrangements are now in progress for the erection of a new building which will be fitted up in the most modern manner as a Horse Repository with accommodation for about ninety animals. The buildings will, if present arrangements are carried out, be situated upon Water street and will be under the proprietorship of Mr. C. P. Pearson, a local horse dealer and shipper. Work will be begun at once on the stables and every indication points towards the new venture being successful, as this county raises a class of horse in good demand.

Every Berth Will be Taken.

Toronto, September 1.—It is stated that practically every berth in the shipyard of the lakes will be taken before fall, and from the prospects now based upon a number of the important contracts pending, nearly all the companies will add their entire capacity ahead until the closing months of navigation, next year.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—Contractors are still very busy with more work ahead.

—The summer outers are now pouring to the city and an early acquaintance with the coal dealers.

—Many a duck that has to-day's date on its death certificate passed into the sweet subsequently yesterday or perhaps further back.

—The strong wind Wednesday afternoon badly damaged the Peterboro Light and Power Company's awnings near the corner of Brock and George streets.

—Mr. R. M. Dennistoun, who has been engaged as counsel, by Gow, accused of shooting young Hill of Dummer, states he will not, in all likelihood, apply for bail for his client.

—To show the enormously increased demand for gas in Peterboro, the local works yesterday between 9 and 10 a.m. manufactured 35,000 feet. This exceeds the output of 24 hours of the works one year ago.

—We learn that the dredge which is at present engaged in the Keene River will be moved to Hastings about the last of October, where it will spend the winter cleaning out the channel below the locks.—Hastings Star.

—Local Agent R. W. Errett yesterday afternoon gave Aaron J. Tulley of Smith township a check for $75 from the York Mutual Fire Insurance Company to cover the loss of his horse which was struck by lightning some time ago.

—According to the by-law the regular meeting of the council should be held next Monday night, but as that is Labor Day and as a number of the aldermen intend going to Montreal on Tuesday there will not likely be a meeting until the following Monday night.

KINDLY RECOGNITION

Ex-Churchwarden Hogan Presented With Silver Service.

On Wednesday evening Mr. John Hogan, superintendent of the local gas works, was called to Toronto by the Rector of St. Bartholomew's English church, and his former fellow worshippers. Mr. Hogan has been for many years sidesman, and successively peoples' and rector's warden of St. Bartholomew's, but having, a few weeks ago, resigned his position owing to taking charge of the local gas works, his friends, in the church, decided to testify, in a practical manner, the esteem in which he was held. Mr. Hogan went up by the evening train, and went straight to the church Sunday school. Here about one hundred and fifty of the congregation had gathered, with the Rector, Rev. G. I. Taylor in the chair. As Mr. Hogan had to leave again for Peterboro by the late train, the proceedings were entered into at once. The rector, in a short speech, referred feelingly to the pleasant relations that had existed between Mr. Hogan and all present, and expressed the regret all present felt at his enforced severance from active interest in the church, and on behalf of the congregation, presented Mr. Hogan with a beautiful chased silver tea service. Mr. Hogan replied in appropriate terms, saying that although his business enforced a residence in Peterboro, he would always have the kindest feelings towards the old church. He thanked those present in suitable words for the handsome present they had given him.

Mr. Hogan's furniture arrived in the city yesterday and will at once be taken to the house he has secured, corner of London and Water streets.

Beware of Ointments for Catarrh that Contains Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists, price 75c. per bottle.

Hall's Family Pills are the best.

Preparing for I. O. O. F.

Local Hoteimen Sign Agreement as to Terms etc.

Yesterday a list was taken round the city to which the local hotelkeepers were asked to denote how many guests they could accommodate during the coming visit of the Grand Lodge I.O.O.F., and also certifying as to prices they would guarantee to charge. This guarantee is essential as the Ottawa hotels, when the Grand Lodge met there recently, at once raised their prices, to gather in a harvest whilst they had the Oddfellows at their mercy. Such of the local bonifaces as were called on signified their intention to act square and fair and not raise prices. Such of the hotels as were not called on will be asked to-day to sign the list. With this fair guarantee signed, Peterboro is not only sure to secure the Grand Lodge, which means some 600 good citizens here for some three days, with plethoric pocket books easily opened, but will ensure this city a good name as a place for conventions of all kinds.

To-day Detroit, Mich., is the greatest convention city on the continent, and it was by just such means, that of binding the hotels not to overcharge, that gained Detroit her reputation as a convention center, and confirmed her name as a place where strangers would not be fleeced during a crowded time. Peterboro has the men, the hotels and the sights that should land her high among the cities that catch popular approval as a convention town.

Jolly Jack Tar.

"Jolly" is the word generally associated with the jack tar. He is the picture of health, and the health babbles over in mirth and merriment. When people are sick, especially when sickness attacks the lungs the doctor often advises a sea voyage. But in the large majority of cases the sea voyage is impossible.

It is to the men and women of the workaday world to whom sea voyages or change of climate are impossible, that Dr. Pierce's Golden Medical Discovery comes as the greatest earthly boon. The effect of this medicine upon those whose lungs are "weak" is remarkable. Even where there is bronchitis, spitting of blood, emaciation, weakness, conditions which if unchecked or unskillfully treated lead to consumption, "Golden Medical Discovery" in ninety-eight cases out of a hundred works a perfect and permanent cure. It strengthens the stomach and other organs of digestion and nutrition, so that the body in all its parts is not merely fed but nourished. And it is by nourishment that Nature builds up the body to resist or throw off disease.

"I had a terrible cough something over a year ago and could find nothing to stop it, or even to do me a particle of good," writes J. M. Farr, Esq., of Cameron, Screven Co., Ga. "I chanced to see an advertisement of yours, and forthwith bought a bottle of your invaluable 'Golden Medical Discovery.' Before I had taken half a bottle I was entirely well."

Dr. Pierce's Pellets cure constipation.

PERSONAL

—Mr. Thomas Barrie went up the lakes yesterday morning.

—Mr. J. Hurley left yesterday morning on a fishing trip to Goose Lake.

—Mr. Ed. Scott, of Chicago, formerly of Peterboro, is in the city renewing old acquaintances.

—Mr. William Snowden returned last night much improved in health, from his visit to Preston Springs.

—Rev. Dr. Torrance has returned to the city after spending his holidays in Cobourg, Port Hope and other places.

—Rev. J. C. Davidson, who has been spending his holidays at Wellington, Prince Edward county, has returned to the city.

—John McComb, the man who disappeared from 43 Chamberlain street, on Monday night and whose whereabouts was unknown to his friends, has turned up safe and sound at Stony Lake.

—Mr. A. J. Delaira for some time employed in the Bell Telephone Company's office, has severed his connection with that company. We understand he will enter the insurance business.

—It is expected that Mrs. Sherwood, accompanied by her daughter, Mrs. Rufus Stevenson, of DeKalb, Ill., with the latter's children, will arrive in the city next Tuesday. Mrs. Sherwood has been visiting in the North-West for some weeks past.

Game Regulations

As the season is now at hand when the sportsman gets out his well-oiled, and oft carefully inspected shooting irons, it might be in order to remind our readers as to the dates of the open and close seasons for speckled trout, bass, lunge and ducks. It may be mentioned that the open season for speckled trout is between April 30 and September 15; for bass and lunge between June 15 and April 15, and for wild ducks the open season is between September 1 and December 15, both days included.

Lands 26 Pound Lunge

Mr. Justice, of Buffalo, N.Y., who is a guest at South Beach Hotel, on Clear Lake, on Wednesday afternoon, whilst out trolling on Clear Lake, with Mrs. Justice, suddenly thought his wife's line had become safely attached to the whole wide world, as the boat was perceptibly checked, and his course started towards the stern end. However, a second violent tug at the tackle soon disabused their minds, and after half an hour's hard fighting a 26-lb. maskinonge was safely captured and landed in the skiff.

Small Pox in Campbellford

Dr. R. W. Bell, of the Provincial Board of Health, Toronto, who some years ago practised in this city, passed through town yesterday on his way from Campbellford, where he has been investigating an outbreak of smallpox. Two men residing in the vicinity of Hoard's Station, have contracted the disease, an epidemic. It is hoped, will be prevented. The patients have been placed in quarantine, and every precaution taken to prevented contagion.

The Campbellford authorities have not as yet discovered whence or how the disease arrived in this village.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL. XXXIII, NO. 206. PETERBORO, ONTARIO, SATURDAY, SEPTEMBER 2, 1905. PRICE TWO CENTS.

NO ARMISTICE UNTIL TREATY IS SIGNED

Its Envoys Realize the Unpopularity of Terms With Their People and Expect Stones or Dynamite on Their Return Home.

Portsmouth, Sept. 1.—Japan has refused to consent to the cessation of hostilities until the treaty of peace has been signed.

The Russian plenipotentiaries accompanied by their secretaries, called on Baron Komura and Mr. Takahira shortly after noon to-day, and were in conference with them for half an hour.

It is now expected that the text of the peace treaty will be completed by to-morrow night or Sunday. Full summaries, if not the actual text will then be cabled to Tokio and St. Petersburg for the approval of the respective Governments and by Tuesday or Wednesday at the latest Mr. Witte and Baron Komura expect to receive final authority to affix their signatures. The subsequent exchange of ratifications by the two Governments will be simply a formality. The ceremony of signing the "Treaty of Portsmouth" will be as quiet and unostentatious as possible. Both sides desire to avoid any spectacular features. Both realize that, for different reasons, the treaty will not be popular in their respective countries. In Japan especially there is expected to be a great popular outcry "We know," said a member of the Japanese missions to-day, 'that we are going home to stones and perhaps dynamite."

Portsmouth, N.H., Sept. 1.—The "Treaty of Portsmouth," is to be given to the world. There is to be no secret about it, neither Government having any reason to withhold it. Its provisions are, therefore to be published broadcast textually. But not immediately. Mr. Sato said to the Associated Press to-day that it would not be given out until the final ratifications had been exchanged by the sovereigns of the two countries.

No arrangements looking to a joint farewell visit to President Roosevelt have been made or even suggested. Baron Komura and Mr. Witte will go separately to Oyster Bay to express thanks on behalf of their respective countries, and say, "Good-bye." Mr. Witte expects to sail September 12 on the Kaiser Wilhelm II. He has already provisionally engaged a suite of rooms on that steamer. Baron Komura has provisionally engaged cabins on a steamer sailing from the Pacific Coast on September 20. He and his suite expect to leave New York September 12. The projected trips of the missions to the White Mountains have practically abandoned because of lack of time.

CHICAGO CRIME CARNIVAL

"Special Bureau" to Stop Murders Proves Useless

Chicago, September 2. — Seventy murders since January 1; 21 murders in August; 41 murders in July; hold-ups, assaults and burglaries too numerous to classify. This is the appalling record at Chicago for this year, and the police are seemingly helpless.

The celebrated "Detmar, Special bureau" and "flying squadron" and numerous orders to the department by Chief of Police Collins, seem to have had no suppressive effect whatever, but on the contrary crimes of violence have become numerous and vicious and human life cheaper than ever.

WITTE'S MESSAGE

Posted Throughout the Length and Breadth of St. Petersburg

St. Petersburg, September 2. — M. Witte's triumphant, yet fawning message to the Czar, that "Japan has accepted your demands," that "thanks to your wisdom and firmness," peace has been re-established, and that "Russia as hitherto, will remain forever a great power in the Far East," has been posted to-day in public places. This action has dissipated the rumors that General Linevitch would begin an attack upon the Japanese forces before an armistice is signed.

Prince Golitsin asserts that the army in Manchuria received the news of peace with shouts of gladness, which fact has afflicted the Czar. The satisfaction throughout the country at the ending of the war is growing.

WEATHER NOTES.

Moderate to fresh northerly to easterly winds, some showers, not much change in temperature.

INSURANCE INVESTIGATION

Officers of All Big Companies Have Been Subpoenaed

New York, September 2.—The Legislative investigation committee has subpoenaed all the officers of all the big life insurance companies. They are summoned to appear at the opening session on Wednesday next. The companies whose officials have been called are: Equitable, New York Life, Mutual Life, Metropolitan and Murray Reserve.

Among the well-known men for whom subpoenas have been issued are: John A. McCall, George W. Perkins, Darwin P. Kingsley, Thomas A. Buckner, Richard A. McCurdy, John R. Hegeman, Haley Fiske, Frederick A. Burnham.

Senator Depew has not been served with a subpoena. James Hazen Hyde is in Newport, but it is said he will return and testify.

CUSTOMS RETURNS

Collections at Peterboro Show $7,888 Increase for Last Month

As an indication of the progress of the city in commercial and industrial matters, we note that during the month of August, just passed, the local Customs House officers took in $7,886.11 more than in the corresponding month of 1904. The exact figures of the collections are:

August, 1905	$34,235.30
August, 1904	26,347.19
Increase	$ 7,888.11

Confederation of British States

London, September 2.—W. J. Carter, of Victoria, Australia, addressing a meeting at Elgin in the Unionist interests, said Canada, Australia, New Zealand and South Africa were beginning to find in accordance with their best interests that there should be reciprocity between them. It meant federation of the British states. The question was, "Shall it be with Great Britain left out?" That was for Great Britain to decide.

WHAT RUSSIA WILL PAY CHINA

The Sum of $75,000,000 for Interest in the Chinese Eastern Railway.

ULTIMATE POSSESSION

This Question is One That Will Have to be Settled Sooner or Later.

Portsmouth, N. H., September 2.—The formal recognition of Japan's possession of the Chinese-Eastern Railway below Kuanchengtse, the junction of the branch to Kirin, involves a payment by Russia to China of a sum estimated at $75,000,000. This is the Chinese interest in the road, and for it China must be remunerated.

The question of the ultimate possession of the road is one that will be settled between Japan and China. Japan can keep the road or surrender it to China, demanding in return the money paid by Russia to China. If she selects the latter course Japan will therefore obtain an indirect spoil of war from Russia, in addition to reimbursement for the cost of maintaining the Russian prisoners of war, for which Japan will present an itemized bill. Japan is known to have given her word to China not to, but if China prefers the money to the railroad, Japan could not be accused of bad faith. Inasmuch as Japan was desirous, even before the war, of extending the then projected Kaiyuen Railroad (which was already in operation) so as to eventually connect with the Eastern Chinese and Shan-Hai-Kwang roads, and in the negotiations which preceded hostilities asked this claim, it is considered likely that she would prefer the road to the money.

In addition to turning over the money obtained from Russia, China, if she took the railroad, would therefore have to reimburse Japan for the expense incurred by her in restoring the road, rebuilding the bridges and changing the gauge. Whether it remains in the hands of Japan, or ultimately becomes a part of the system of Chinese Imperial railroads, a traffic arrangement must be made with the part still in possession of the old Chinese-Eastern Company, the stock of which is held by the Russo-Chinese bank. This adjustment will be arranged later.

Both Russia and Japan, if the latter retains the road, are to be allowed to have "railroad guards" for the protection of the railroad property, and in case of disorder calculated to threaten her interest, are mutually to be permitted to send troops, but the number is in no case to exceed those required, and they are to be recalled as soon as their mission is accomplished. This likewise is also an important provision, and with the rest and west Chinese-Eastern line, and the southern line as far as Kuenchengtse, still in Russian possession, would, in case of a future issue, give her control of the largest part of Manchuria—the whole vast territory from the fertile valley of the Sugari, called the granary of the province, northward.

Another important provision is that Japan's succession to the Port Arthur and Liao Tung leases, which Russia surrendered, is conditional upon China's assent. The armistice was not arranged today. The War Departments at St. Petersburg and Tokio are consulting Linevitch and Oyama, respectively, and it is not improbable that the armistice will be concluded directly by the generals on the field of battle.

OFFICIAL RUSSIA MOURNS

GOVERNMENT DISMAYED AT THE SUDDEN ENDING OF WAR

Doesn't Know What to do With Peace Now That it is Assured—Internal Situation is Complicated and All Plans Are Upset

St. Petersburg, September 2.—The news of the peace agreement did not reach here until 9 o'clock Tuesday evening. It speedily circulated by word of mouth and was received with general incredulity.

It is the understatement to say that it produced dismay in official circles and amazement to the general public. Not for a moment had it been expected here that Japan would abandon all her essential demands. Not for a moment have the members of the war party believed that peace was a possible outcome of the conference. Their attitude tonight is one of furious exasperation, as of people who have been tricked into a false position.

GOVERNMENT PLANS UPSET.

The plans of the government are completely upset by the sudden change in the situation. The reactionaries talk chiefly of future revenge against Japan, but they are more immediately concerned by the vital effect of peace upon the internal situation, and the resulting confusion in all the government plans.

There is even rash talk of sending Gen. Linevitch's army immediately against Constantinople in order to prevent the return of the troops to their homes to foment revolution, and for the purpose also to retrieve the military prestige of the empire.

COUNTRY WELCOMES PEACE.

There cannot be the smallest doubt that the country at large will welcome peace with the utmost enthusiasm now that an indemnity has been abandoned and the territorial sacrifices will be a mere trifle. Russia, outside of official circles, is only too glad to settle the issue with Japan on the basis of a drawn battle. The public satisfaction is still further increased by the discomfiture of the war party.

Less than an hour before the news of the agreement arrived the Ministry of Foreign Affairs gave out a statement to the effect that it would be impossible to reach a settlement through the introduction of an arbitration commission to fix the valuation of a recession of the northern part of Sakhalin.

It was declared that all such projects would be refused consideration because they contained the principle of a money payment.

HALIFAX FORTIFICATIONS

Doubtful Whether Canada Will Take Them Over To-morrow

Ottawa, September 2.—Doubt is expressed as to whether the Government would be able on or before the Halifax fortifications, as the British Government appear to have made no arrangements for the departure of the Royal Garrison Regiment. Until the British regulars move out the Candian troops cannot take possession. Lieut. Eaton and a party of some 300 men will leave Toronto today, to augment the strength of the Royal Canadian Regiment at Halifax.

CRUISER QUELLING RIOTS

Armed Force Landed at Amoy for the Purpose of Restoring Order.

Hong Kong, September 2. — The British cruiser Iphigenia has been hurried to Amoy, where rioting was in progress and business suspended. An armed force was landed from the vessel to restore order. Four persons were killed and a number wounded in the rioting. It is expected that the British cruisers, Bonaventura and Cadmus, will remain at that port to protect Europeans.

Members of the Singapore guild are responsible for the trouble.

Safe Aboard Ship

Mr. Beeteson's Safety Assured by Letter from Lyons & Co.

As noted in yesterday's issue, the safety of Mr. Thos. Beeteson, whose trunks and effects were recently found in Montreal Harbor, was practically assumed, but a letter received by Mrs. J. Booth from Lyons Bros., 123 McGill street, Montreal, has placed it beyond possibility of doubt that Mr. Beeteson is safe and sound aboard the good ship Montezuma, although minus his baggage and effects. This will reassure his friends in the city who have been uneasy in view of the alarming reports contained in the local press.

The letter reads as follows:

Montreal, Aug. 30, 1905.

Mrs. J. Booth,
62 Chamberlain street,
Peterboro, Ont.

Madame,—In reply to yours of the 28th inst. re T. Beeteson, we beg to inform you that he sailed for London on the C.P.R., S.S. Montezuma, on August 29th. As regards the finding of his trunk in the river, we cannot help but think that it must have fallen overboard, or thrown over by someone who had no right to interfere with it, however, you may rest assured that T. Beeteson is safe and on his way to London, Eng., en route for Birmingham.

We are, however, sorry that this incident should have caused any of his friends alarm, and we ourselves always endeavor to protect and set in safe keeping all baggage belonging to cattlemen whom we ship. We remain,

Yours truly,
LYONS & CO.

To Inspect Esquimalt Forts

Ottawa, September 2. — Sir Frederick Borden, Minister of Militia, leaves for the coast on Saturday to inspect the military forts at Esquimalt.

Rainbow Wins

Close Contest Between Strs. Rainbow and Beaver

A few days ago a steamboat race was held on the Otonabee, which in the closely contested trial and excitement enthusing passengers aboard the rival crafts reminded passengers of "Olden days on the Mississippi when such swift flyers as the "Lee" and the "Natchez used to contend for supremacy; then as all readers of Mark Twain's "Life on the Mississippi," will remember, the pilots used to send the heaviest rigger deck hand on the safety valve and burn up everything in the way of fuel from a side of bacon to bundles of crinolines.

There has long been a spirit of rivalry between the steamers Beaver and Rainbow, Rice Lake boats. The Beaver for many years has been recognized as one of the fastest boats on these waters. The Rainbow, which is owned by Mr. Frank Burnett, has of late been making exceptional times.

When going down the river this week the Beaver and Rainbow drew alongside each other about two miles above Hale's Bridge. Then the captains arose to the occasion, and their engineers fired up till all steam compatible with law and safety was pumping the pistons to their limit.

The Rainbow had about 125 passengers and the Beaver, which, is a somewhat smaller craft, had had passengers on board to the number of thirty. The boats were not any more than two feet apart for almost the entire distance. When they arrived at the Bridge the Rainbow was slightly in the lead after a most interesting contest.

interesting content.

A Chicago Sheriff

Mr. W. A. Beach, Chicago Once More at Home

Mr. William A. Beach and wife, deputy sheriff, Chicago, an old Peterboro boy, who studied his A.B.C.'s under Mr. Flavelle, is in the city renewing acquaintance with friends of yore.

It is over 19 years since Mr. Beach has been in Peterboro, and expresses great astonishment at the improved appearance of the city. Mr. Beach is visiting with his brother on College street. He now holds an important post with headquarters in the north side court house, Chicago. Mr. Beach yesterday, chatting with some old friends, gave a few of his experiences in the Windy City, which went to prove that some of the Chicago officials know how to spell the word "graft" but are still better acquited with its practical application.

Mr. Beach is greatly interested in forming a Peterboro Old Boys' Association in his present home, and says there is a very large Peterboro colony there. He will probably be secretary of the association in Chicago.

Bishop Dowling

Operated Upon in Guelph, His Condition Serious

The many friends and former parishioners of his lordship Bishop Dowling of Hamilton, will regret to hear that his present condition of health is far from satisfactory. After the completion of arduous duties of the spring he went to Guelph for a complete rest. Soon afterwards it was found that a slight operation was advisable. This was performed in Guelph Hospital, and His Lordship showed very satisfactory improvement for a time.

A few days ago, however, a consultation of physicians decided a serious operation was necessary. The operation took place on Monday of this week. His Lordship is doing as well as could be looked for under the circumstances, but his condition is still the cause of anxiety.

Matriculants

Miss Mattie Robertson and Mr. B. Miller Have Passed Full Examinations

Owing to an error in the official certificates furnished by the Education Department, Miss Mattie Robertson and Mr. B. Miller, who passed the full matriculation, were reported as having passed partial matriculation.

To Burn the Mortgage

Special services will be conducted at Park street Baptist church by the pastor, Rev. A. H. Brace tomorrow when the final offerings for sweeping off the mortgage will be presented.

Dr. Thomas, late of Jarvis street Baptist church, Toronto, has consented to preach on Sunday, Sept. 10th and give one of his popular lectures on the 11th and together with Rev. W. E. Norton and the trustees will burn the mortgage amid great rejoicing on the 12th.

Gow Fired a 44 Ball

High Constable Geo. Cochrane arrived in the city Thursday night in company with Detective Wells, of the Attorney General's department, from Dummer. During their search they made an important discovery which clears up the mysterious discrepancy in reports as to calibre of the rifle ball supposed to have killed Young Hill. It was found to be of 44 calibre and not 38 as was reported.

The officers by aid of a civil engineer located as nearly as possible the direction or line of flight of the bullet supposed to have killed the boy. An empty shell was found near where the Hills say one shot was fired from. Mr. Cochrane however thinks the shell has been placed there since the killing of the boy.

Mr. J. M. Watt Leaving

The many friends in this city of Mr. J. M. Watt, of the G.T.R. freight office, will regret to learn of his coming departure for Midland, Ont., for which place he will depart on Monday, having been advanced to a more responsible position in the service of the railway. His new position at Midland will be that of cashier.

PRUNING KNIFE USED IN EQUITABLE LIFE

Recent Revelations Have Reduced Company's Business by More Than Nine Million Dollars --Trust Companies to Lose Big Accounts.

New York, Sept. 2.—Paul Morton, president of the Equitable Life Assurance Society, has given further indication of his policy of retrenchment by cutting off the pension of $25,000 a year, which has been received by Mrs. Henry B. Hyde since the death of her husband, six years ago. Further than this Mr. Morton disallowed the prospective pension of $18,000 a year, which was to have been paid to Mrs. James W. Alexander in case she survived her husband, the former president of the society.

This action was taken at a meeting of the Board of Directors, at which Mr. Morton presided. Besides cutting off the pensions that the new president believes to be an unnecessary drain upon the treasury of the society, by a vote of the Board, the matter of allowing the Commercial Trust Company, of Philadelphia, and the Equitable Trust Company, of New York, to make a large profit on the business accruing from agents' advances, aggregating $6,000,000, was referred to Mr. Morton, with power to withdraw these funds from the institutions mentioned and carry these loans so that the society would benefit thereby to the extent $150,000 a year.

It also developed during the meeting that the business of the Equitable during the part of 1905 already elapsed has fallen off $9,204,750 from a corresponding period in 1904.

The looked for resignations of several members of the board, including Chauncey M. Depew, did not materialize. Mr. Depew emerged from the meeting with his usual smile, and announced that he was still a director of the Equitable Life Assurance Society, and that there was no immediate prospect of his severing his connection with the Board.

MR. MORTON'S COMMENT.

"While much routine business was disposed of," said Mr. Morton, "several matters having a direct bearing upon the welfare of the society were considered. One of the most important discussed was the question of agents' balances, which have been heretofore placed in the hands of two subsidiary trust companies, the amount reaching approximately $6,000,000. After considerable discussion the matter was referred to me with power to hereafter carry these loans as a society matter, thereby insuring to the Equitable an additional income approximating $150,000 a year.

"A report of paid business done in the United States and Canada during the seven months of 1905, ending August 1, showed that the company had done business to the amount of $89,741,715, as against $98,946,465 last year, during the same period. While this would seem to be a great falling off, more than $9,000,000, it is really a decrease of less than 10 per cent.

"The special counsel appointed some months ago to report upon the matter of pensions paid by the Equitable to various persons told the Board the facts concerning the pension which Mr. Henry B. Hyde, widow of the founder, has been receiving for several years, and also the pension which previous to my connection with the company, it had been decided to give to the wife of James W. Alexander, should Mr. Alexander, die first. It was decided after discussion that both these pensions should be disallowed."

ATHLETIC WORLD

BY OUR SPORTING EDITOR.

LACROSSE.

Yesterday the first game in the second round, semi-finals, junior lacrosse series, proved a Waterloo for Peterboro. The game was played before a large audience on the Beaverton grounds, and resulted in a win for the home team, Beaverton scoring 3 goals to Peterboro's 2. This gives Beaverton a lead of two goals, Peterboro to win will have to score three goals more than Beaverton at the game on Labor Day, to be played on Riverside Park.

• • •

BASEBALL.

The line-up of the locals for to-day's great game will probably be:—Quinlan, P, Rattray c, Graham 1b, Callaban 2b, W. Parnell, 3b, Shea ss, Sheridan lf, Connors cf, Pilling rf.

• • •

Sunlglis the Port Hope twirler, is said to be a find, but we think after a survey of local talent that he is not the only tin can on the dump.

• • • •

The local nine will be extra strong for this game and feel confident that they can pull out a victory. The return fare to Peterboro will be 95c, and a large crowd is expected to accompany the team. Train leaves at 7.20 sharp.—Port Hope Guide.

• • • •

The locals had a good workout last night, and will be Johnnies on the spot at today's championship game with the Port Hope talent.

• • • •

GOLF.

Sam Ray, the veteran tobacconist, cricketer, curler, horseman, golfer and general sport, on Thursday did the local links in twenty-five strokes, equalling the lowest score yet bonded in on the present course.

Mr. Ray naturally feels jubilant over so successfully distinguishing himself, as Mr. Hamilton's record was seemingly invincible.

The Best Yet

Peter Hamilton Mfg. Co. Employes' Excursion

Despite the threatening appearances of yesterday morning's weather, a large gathering of the employees of the Peter Hamilton Mfg. Co., their families, and friends, were at the Wolfe street wharf to take in the annual excursion of that firm, and this year the outing was the biggest and best.

The steamer City of Peterboro, left the wharf at 8.15 with about 300 excursionists on board, and soon after leaving the locks, the dull, threatening clouds melted away and the bright, warm sun came out making everyone on board happy, and those who had been deterred by the unfavorable appearance of the weather earlier in the morning, regretted that they were now unable to leave the outing of the season.

The boat arrived at Jubilee Point before noon and everyone scampered off to get a table.

A good program of sports was run off and with a ball game, the afternoon passed all too quickly, and when supper was over a well pleased party took ship and thoroughly enjoyed the beautiful trip up the river.

Handsome Windows

Murray Street Baptist Church Greatly Improved

The new colored windows have been placed in the Murray street Baptist church and add materially to the handsome appearance of the church, which has been painted and decorated throughout. A memorial window has been placed in the church by the family of the late James Stratton in his memory. Mr. Stratton was one of the foremost members of the church for a great many years, almost from the time of the organization of the congregation. The pastor of the church, Rev. F. J. Scott, has returned from his vacation, and will occupy the pulpit of the church to-morrow.

Col. Halliday

Popular Medical Man to be Lieutenant Colonel in 57th

Yesterday Col. Miller of the local crack regiment, the good only 57th, was advised that Dr. J. T. I. Halliday, who has for some 15 years held the position of Surgeon-Major of the local corps, has been promoted to the higher and important position of Lieut.-Col. The Times offers its respectful and heartiest congratulations to the doctor, may he yet write Brig.-General after his signature.

Leak in Lift Lock

Kirkfield Lift Lock Leaking Badly Alleged Defective Concrete

There is every probability that a searching enquiry and investigation will be made on account of the present alleged defective condition of the concrete work of the new lift lock on the Trent Valley Canal at Kirkfield.

Information from Kirkfield asserts that the upper reach of the canal approaching the lift lock, leaks very badly. Measured approximately by temporary weirs, it is estimated that the leaks amount to the enormous quantity of a million gallons of water an hour, a quantity which, without effectual repairs, renders the locks useless.

The Dominion Bridge Co., of Montreal, has the contract for the steel superstructure. The company had, it is said, counted upon using the power to be developed by the water coming through the upper reach to drive their machinery for hoisting, drilling and other work in connection with the placing of the steel. However, it was found impossible to raise the water in the reach to a height to affect the turbines, and give a pound of power. The upper reach in question is about a quarter of a mile in length, consisting of high side walls of concrete but which is said to be so porous that it will not hold water. It is also said that the breast wall is not water atight, especially the lower stratum.

ROYAL BAKING POWDER
ABSOLUTELY—PURE

Healthful cream of tartar, derived solely from grapes, refined to absolute purity, is the active principle of every pound of Royal Baking Powder.

Hence it is that Royal Baking Powder produces food remarkable both in fine flavor and wholesomeness.

ROYAL BAKING POWDER CO., NEW YORK.

HEALTH FOR WOMEN

Mrs. Emma Daigle of Moncton N B., Sends an open Letter to All Sufferers.

Most women are tired when they wake up. Housework drags along with great difficulty. Nervousness is always present, headaches seldom depart, tears are ever ready to flow.

But there is a cure, a true specific for women's ills that restored a prominent lady in Moncton, Mrs. Daigle, who tells the following experience:

"About a year ago I had a serious sickness, sort of a general breakdown. My digestion failed entirely and I was able to eat but very little. I took violent stomach pains and suffered terribly from headaches. My doctor said it was "nerve exhaustion" and I might never be well. My troubles increased, for as I grew weaker I became subject to neuralgia and rheumatism. Sleep finally forsook me and I almost lost heart. Different medicines did me no good. Doctors couldn't do me any good. I was desperate when I heard of Ferrozone. The first box convinced me it was just what I needed. It toned up my stomach, gave me a splendid appetite and then my recovery seemed easier. Ferrozone increased my weight several pounds, has restored my nerves, given me a good color and strength such as I never had before. For the weak and sickly I can truthfully recommend Ferrozone." (Signed) Emma Daigle.

REMEMBER: No mere stimulant or alcoholic concoction can take the place of the nerve and blood nourishment contained in Ferrozone. This true tonic always does what is claimed for it. Sold everywhere in 50c. boxes or six for $2.50. By mail from N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterboro are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year strictly in advance.

TREAT CHILDREN LIKE PLANTS

Luther Burbank, the Washington man who grows yellow calla lilies and who makes tomatoes and potatoes ripen on the same plant, has an idea that if people would raise children as he treats plants there would be less evil in the world. He says that he has wrought miracles with plants by bringing them into contact with the elements of their environment to which they readily respond, and he thinks that child natures should be treated in the same fashion. He has discovered the things which the plants and weeds like best, "and children," he says, "are infinitely more responsive."

Experiments which have been in progress in London for some years give color to Mr. Burbank's theories. In the training of waifs taken in from the streets it has been found that the character of children depends quite as much upon their surroundings when they are developing as upon the traits which they are supposed to have inherited. In fact, these results in London have dealt a severe blow at the importance of heredity. In other words, a child who is the offspring of thieves will become a thief if he is brought up amid the environments which envelop his thievish ancestors. If, on the other hand, he is transplanted into better soil, he will grow up an honest man. This is the theory, too, upon which modern civilization is attempting to improve the race. It is the basis of the house of detention and the juvenile court, to which youthful offenders are taken in order that they may be kept aloof from hardened criminals. It is the principle upon which rests the idea of guardianship for the children who, having no homes or being surrounded by vicious influences, are liable to become enemies of society. In these cases the state and municipal authorities interfere, so to speak, with the ordinary duty of the parent, in order that the community shall not suffer.

In Massachusetts the system of child guardianship has been in vogue long enough to show some good results, although it will take a generation or two to produce statistics of real value. In the meantime, however, there is enough of plausibility in Mr. Burbank's theory to warrant giving it a thorough test. It is simply the scientific way of applying the old proverb which says that as the twig is bent the tree is inclined. If it be true beyond peradventure that early environment means more for the development of a child's character than does heredity, it will pay to surround young children with the best influences. It would even be a wise expenditure of public money to care for the children who would otherwise find their only education among the degraving surroundings of the alleys and streets. If care in tender years can make good citizens out of children handicapped by vicious parentage. That care ought to be exercised in the highest degree.

There are so many foolish fads and reforms in the world today that all theories and experiments as to improving the human race are apt to come under the ban. It is worth while, however, to select those which seem to be sensible and put them into actual practice. This suggestion as to the value of environment in developing character, for instance, cannot do any harm and may result in incalculable good.

A MONEY MAKER

Rare Opportunity for Investment in well Developed Mine.

As is doubtless known to most of our readers, this city holds many investors in mining stocks, many of them now paying good dividends and others holding good promises of future golden harvests. Among the good propositions recently placed with the enterprising firm of Thos. Patterson & Co. is that of the West Gold Hill Mining Co., whose head offices are at 420 Exchange Building, Denver, Col. This company owns some 200 acres of developed mineral territory, exposing 20,000 tons of mill ore, having an approximate value of $12 per ton, and a fissure vein five feet wide, that when developed will add fivefold to the tonnage of the ore reserves. The company has lately completed a 50 ton cyanide mill, a complete electric light and power plant, one tram 2,400 feet long, and another now building 2,135 feet long; when this latter is completed it will give the present mill a net earning capacity of $300 per day. The Times is in receipt of photographs showing various views of the property owned and operated by the company, which show that quite a large business is being carried on. For full particulars and prices of stock apply to Thos. Patterson & Co., Fiscal Agents, City.

Beware of Ointments for Catarrh that Contains Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used, except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists, price 75c. per bottle.

Hall's Family Pills are the best.

BISHOP'S SALOON CHANGES HANDS

New York's Subway Tavern will no Longer be an Aid to Reform.

New York, Sept. 2.—The Tribune says: The Subway Tavern, after thirteen months of existence in which it bred many religious discussions, but attracted comparatively few customers, has passed into other hands. At 12 o'clock last night it became the property of W. G. Skidmore, who has for some time conducted the rathskellar there. With the elimination of Joseph Johnson, Jr., President of the Subway Tavern Company, the sociological experiment will be ended and other principles are to be put into operation, from Monday morning. The sign will be taken down Saturday night.

The Tavern was opened at Bleecker and Mulberry streets on Aug. 3, 1904. Bishop Potter consecrated it with prayer. The enterprise is similar to many that are working well in England. In the front, men, women, boys and girls are invited to buy soda water and the place has the appearance of an ordinary soda water store. A curtain in the rear leads to a saloon, where liquor and free lunch abound. Down stairs in a restaurant.

"You can't follow the Lord and chase the devil at the same time," said Mr. Skidmore, in relating how he had come to be identified with the management of the place. "I have had the restaurant privileges for more than three months," he continued. "I used to run a restaurant in Brooklyn, and I think I can make this one go.

"I expect that by Thursday or Friday the whole tavern will be transferred to me. Negotiations are now in progress looking to that end. I intend to rip the place to pieces, tear out the water wagon attachments, and run the place as a straight saloon and restaurant."

C. P. R. Train Service

The train service by the Canadian Pacific Railway to and from Toronto, during the Exhibition, will be as follows: Going to Toronto, 5.42 a.m., special August 29th to September 12th, except Sunday, 5.42 a.m., and the local at 8 o'clock. Returning, August 28th to September 9th, Sunday excepted, the local train will leave Toronto at 6 o'clock, instead of 5 o'clock, 10 p.m. train and the special at 10.30 p.m.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the *home leader desires*, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 30 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2] [3] or [4] must cultivate 30 acres of his homestead, or substitute 30 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 3rd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive at the Immigration Offices in Winnipeg, or at any Dominion Lands Office in Manitoba or the North-west Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba or to any of the Dominion Lands Agents in Manitoba or the North-west Territories.

W. W. CORY,
Deputy Minister of the Interior

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

How to Visit Colorado

Go first to Denver. It is the State capital, as well as the largest, wealthiest and most metropolitan city between the Missouri River and the Pacific Coast. The city itself is very interesting, and from it start practically all the trains over the various roads into the mountains.

Many of the most enjoyable one-day trips in Colorado begin and end at Denver. The cost of these little journeys is not great.

After you have familiarized yourself with Denver and its surroundings will be soon enough to decide where to go for the rest of your visit. The question must be considered from several standpoints—altitude, hotel accommodations, accessibility, amusements, etc.

Our Colorado literature will help you in deciding where to go and what to do. Sent free for the asking.

VARICOCELE CURED

NO NAMES USED WITHOUT WRITTEN CONSENT.

Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on a double varicocele. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was the only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than rogues. One day my boss asked me why I was off work so much and I told him my condition. He advised me to consult Drs. Kennedy and Kergan, as he had taken treatment from them himself and knew they were square and skilful. He wrote them and put the New Method Treatment for me. My progress was somewhat slow and during the first month's treatment I was somewhat discouraged. However, I continued treatment for three months longer and was rewarded with a complete cure. I could only earn $18 a week in a machine shop before treatment, now I can earning $21 and never lose a day. I wish all sufferers knew of your valuable treatment.
HENRY C. LOCUST.

HAS YOUR BLOOD BEEN DISEASED?

BLOOD POISONS are the most prevalent and most serious diseases. They eat away the blood of its vitality and render it utterly unfitted from the system. Will cause serious complications, Heredity or Disease. It only suppresses the symptoms—our NEW METHOD positively cures all blood diseases forever.

DRS. KENNEDY & KERGAN

Cor. Mich. Ave. and Shelby St., Detroit, Mich.

The Glenara Gold Mining Co.

Capitalization, 1,500,000 Shares — Stock Fully Paid and Non-Assessable
Par Value, $1.00 Per Share. — Treasury Stock, 700,000 Shares.

This Company was organized in March, 1905, under the laws of Arizona, with a capital of 1,500,000 shares. The par value of these shares is $1.00 each. They are full paid and forever non-assessable. The Company owns approximately seventy-five acres of territory in the Goldfield district. By reference to the map you will note that every acre is within the producing area, and with the systematic development this large acreage is to receive, there is no doubt that the stockholders will very shortly see the Company on a producing basis.

We desire to say right here that this Company is organized for legitimate mining and not stock jobbing purposes, and among the directors are some of the best known mining men in the West. It is their one desire to make the GLENARA GOLD MINING COMPANY a great success at the earliest possible moment.

It is for the purpose of raising funds to vigorously develop the Company's holdings that some Treasury stock is now offered for public subscription. Out of a capitalization of 1,500,000 shares, 700,000 shares have been placed in the treasury. This treasury reserve insures the company a large working fund, if needed. It is the belief of the management, however, that it will not be necessary to dispose of over 50,000 shares of the treasury stock. The present outlook is such that the management believe that the mine will be on a paying basis before many weeks have passed.

The Property of The Glenara Gold Mining Company Consists of the Following:

The Glenara Group consists of four claims located in the Goldfield mining district of Nye County, Nevada. These claims are known as the Kentucky Bell, Mabel M., Lone Jack and June Bug, covering about seventy-five acres. This group of claims is located on a system of ledges over a mile and a half in length and about half a mile wide. These ledges are the same as those traversing the Kendall, Tonopah Club, Vernal, Quartzite, Black Butte, New York, Brooklyn, Jumbo, Vernal, Penn and Federal.

The surface indications at the time of location were of the very best, however, good ore bodies, lower in copper, iron and sulphur contents were obtainable, all of which indicate that the property can be developed into a paying proposition. The ground has been thoroughly prospected and the sinking of the shaft begun on the Kentucky Bell claim. There is a force of men sinking a shaft as rapidly as possible. Good ore has been encountered running from $3 to $15 per ton, increasing in value with depth, and it is safe to say that a strike may be looked for any day.

Taken as a whole, the investment offered by the Glenara Gold Mining Company is equal to any prospective company in the district. The claims are exceptionally well located, covering a large area; the management is conservative and honest, and is working hard for the success of the company.

The proposition will stand the very closest investigation, and, in fact, an investigation by prospective investors WILL MEAN AN INVESTMENT. WE COURT INVESTIGATION.

The allotment of stock is very small, and if you desire to become interested with this enterprise, it will be necessary for you to communicate with us at once.

The work on the property is being pushed to the utmost, and any day may bring news of a strike which will advance the price of the stock.

For prospectus and full particulars, address

NORWAY'S VOTE WAS UNFAIR

Friend of King Oscar Says Ballots Used at Polls were marked beforehand

Chicago, Sept. 1.—Dr. P. Waldenstrom, one of the leading figures in Swedish politics, close friend of King Oscar, member of the Riksdag for twenty years, and a leader in religious reform in Scandinavian countries, reached Chicago yesterday for a brief stay.

In an interview, Dr. Waldenstrom asserted that Norway was drifting with apparent certainty toward the formation of a republic. While Norway, he declared, may yet get a king, his personal view was that the republicans as against the friends of the monarchial idea, were gaining ground.

Asked if Sweden accepted in good faith the recent referendum vote in Norway for dissolution, Dr. Waldenstrom replied that the vote did not properly express the views of the Norwegian people as a whole. He then disclosed an alleged trick, by which he hinted the tremendous affirmative vote was obtained.

"The ballots used at the polls all were marked 'Yes,' and no one was expected to vote 'No' in any event," said the doctor. "The only way a negative vote could be cast was by writing out a special ballot. In addition, the men in charge of the election showed strong antipathy to anyone casting a negative ballot, and prosecution or what amounted to it followed him who flew in the face of the influence behind the referendum."

Dr. Waldenstrom said the action of Norway had been a hard blow to King Oscar, who, he declared, had aged rapidly in the past few months.

TRIED SUICIDE WITH RUSTY GUN

Arthur Haysmith, an Englishman, Tried to End His Life This Morning.

Toronto, Sept. 1.—Arthur Lionel Haysmith, an Englishman and an employe of the J. D. Ivey Company, shot himself in the ear at his boarding house, 76 William street, this morning, and owing to the fact that the revolver he used was in a rusty condition, the bullet penetrated only a short distance into his head. He is in the Emergency Hospital, and is still conscious. There is danger, however, of blood poisoning.

"I'M SHOT!" HE CRIED.

A muffled report and "I'm shot, I'm shot!" coming from Haysmith's room attracted the attention of Mrs. O'Brien, his landlady, this morning at eight o'clock. She called Thomas Gale, who lives in the rear of the house, and Haysmith was found in his room with blood pouring from the orifice of his ear. The revolver, which is a 32-calibre one, was found on the bed where he had thrown it.

No. 2 Police Station was notified, and P. C. John Wood had Haysmith removed in the ambulance to the Emergency Hospital.

Haysmith has been despondent through illness for a week past and has been acting strangely. He borrowed the revolver from Thomas Harrison, 168 Oak street, on Monday, stating that he wanted to shoot a dog. He has been in the country six months, and came from London, Eng., originally. He is 25 years of age, and unmarried.

If Haysmith recovers he will be charged in the police court with attempted suicide.

The paper that goes into the homes is the most valuable medium for Summer Resort advertising.

Unequalled in this respect by any other paper in New England, The Boston Herald is without question the best medium for Summer Resort advertising in America.

Combining as it does both quality and quantity, it brings far better results than all other Boston papers combined.

VESUVIUS BURSTS INTO ERUPTION

Large Columns of Fire and Lava from Volcano

SEVERAL PEOPLE KILLED

Earthquakes add to the Horror—Houses Rocked with Severe Shocks

Naples, September 1. — Vesuvius, about five o'clock yesterday morning, burst suddenly into eruption, throwing up great columns of fire, large stones, and profligious quantities of lava. The eruption is especially violent.

Dispatches from Messina state that about the same hour the Volcano of Stromboli, which had been silent for some months, suddenly broke forth. A terrible detonation was heard, and large incandescent stones were hurled to great heights, accompanied by a great column of smoke and fire, which soon covered the whole island on which the volcano is situated.

All the windows of the little town were broken, and the houses rocked with the severe shocks. There was a terrible panic and many persons were injured.

A violent earthquake is also reported from Sultana and Palena, simultaneously with the eruption of Vesuvius and Stromboli. Many houses fell, church steeples tottered, and there was great panic. The population fled to the country, two persons being killed and more than a hundred injured.

NICKEL AND COPPER

A Few Thousand Treasury Shares

Only are left to be sold before all offerings are WITHDRAWN FOR FIFTEEN MONTHS' TIME.

You can buy the few remaining shares now at $1.00, but fifteen months hence you will probably pay from $5.00 to $20.00 per share.

THERE IS NOTHING EXTRAORDINARY

In shares advancing as above stated in mining propositions, for it is an old story of phenomenal advances in mining shares, Granite Mountain going from ten cents to $75 per share, Calumet & Hecla from $1.00 to $900.00, and so on down the list.

CONSIDER FOR A MOMENT

What this company offers—It controls to-day an actual territory of nearly **Three thousand acres of land known to be immensely rich in nickel and copper ores, all in a district known and proven to be sixth among the greatest copper districts in the world.** This company will control at least one thousand acres more. In all nearly five thousand acres, which will not be mined out in two hundred years

WE STAND READY TO PROVE

That this company offers to-day the most meritorious mining proposition presented in ten years' time.

Write or call for full particulars. All shares registered by International Trust Company, Boston.

International Nickel and Copper Co., Ltd., Suite 93, Journal Building, Boston, Mass.

Try to Escape - Bright's Disease

Look Well to Your Kidneys—Keep Them Healthy and Thus Avoid Incurable Diabetes and Bright's Disease

If you would avoid Bright's disease take Dr. Hamilton's Pills at once—no delay about their action which is swift and thorough. In every case complete cure attends their use.

Read the following symptoms—they tell if your kidneys are sick or well—whether or no you require a medicine such as Dr. Hamilton's Pills:

WATCH YOUR WATER!
Does it smell bad?
Is it red bloody?
Painful and too frequent?
Does it drip?
Discolor the linen?
After standing 24 hours, if the urine is cloudy, highly colored, stingy, contains sediment like brick-dust then
YOUR KIDNEYS ARE DISEASED.

To protect your system against the further inroads of kidney complaint rely on Dr. Hamilton's Pills. They give instant relief to the backache, those dragging sensations, desire to urinate too often or too seldom. You'll feel invigorated and braced, your appetite will improve, sleep will be restful. No medicine on earth will do you more lasting good. Price 25c. per box, or five bottles for $1, at all dealers, or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

$10--Atlantic City and Return--$10

The last $10 Excursion this season via Lehigh Valley Railroad, Friday, September 1st. Stop over allowed at Philadelphia. Tickets good 15 days. And only $10 the round trip from Suspension Bridge, Niagara Falls. For tickets and full particulars call on or address Robt. S. Lewis, Passenger Agent, Lehigh Valley Railroad, 10 King Street East, Toronto.

Building Operations

Building operations were never as brisk in Peterboro as during the present season. More houses have been erected in this city during the summer months than in any preceding year of Peterboro's history. Mr. C. H. Clementi yesterday let the contract for an extensive improvement to his Water street property, 451 and 453 Water street, fronting on Victoria Park. These two houses are to have the rear portions including kitchens, bath rooms, etc., torn down and rebuilt, making them even in width and breadth with the front parts of the houses. The contract has been let to Mr. James Graham and the plumbing to Messrs. McGregor and Reid. Work will be commenced at once and will take possibly two months until completed.

Settlers Low Rates West

The Chicago and North Western Railway will sell low one way second class settlers tickets daily, from September 15th to October 31st, 1905, to points in Utah, Montana, Nevada, Idaho, Oregon, Washington, California and British Columbia. Rate from Toronto to Vancouver, Victoria, New Westminster, B.C., Seattle, Wash., or Portland, Ore., $42.25, to San Francisco or Los Angeles, Cal., $41.00. Correspondingly low rates from all points in Canada. Choice of routes. Best of service. For full particulars and folders write to B. H. Bennett, General Agent, 2 East King Street, Toronto, Ont.

As Others See

Montreal Herald Speaks of Peterboro's Growth

The Montreal Herald in a summary of the progressive cities and towns of the Province, in its Progress Number of Saturday last, remarks as follows regarding Peterboro.

Peterboro has grown more rapidly than any other place in eastern Ontario, (exclusive Ottawa). As a manufacturing center for electrical and engineering supplies it has recently attained considerable prominence. Sawmills, flour mills, agricultural implements manufactories, pork and furniture factories, add to its industrial importance, and leather, fur, brick and pottery employees are kept busy. Peterboro is 102 miles west of Montreal, and 76 miles east of Toronto, on the Canadian Pacific and Grand Trunk Railways. The city has also excellent water communication, which is capable of still further development. Last year the construction of a great lift lock upon the Trent Valley Canal was an engineering work of importance which much enhances the value of the water communications. The town itself is built on both banks of the Otonabee River, which is spanned by several bridges, and the water power can be so utilized as to provide unlimited power for manufacturing and other useful purposes. Like other Canadian cities, it has its electric railway and light service and excellent public buildings, largely built of the white brick manufactured locally. The population has risen from 4,611 in 1871, to 11,239 at the last census, and progress continues, and is now easily 15,000.

A Sudden Death

Mr. S. H. Weir Dies Suddenly at His Father's Residence

It was with feelings of regret and surprise that the many acquaintances of Mr. Simon Henry Weir yesterday heard of his sudden death, which occurred yesterday morning at his father's residence, 309 McDonnel street.

The deceased has been a sufferer during the past month from heart disease, which resulted in his demise yesterday morning at 7.30 o'clock. The late Mr. Weir was a lifelong resident of Peterboro, and followed the occupation of a tailor. He was a prominent member of the Order of Chosen Friends and the I.O.F.

He leaves to mourn his loss, his wife and four children; three daughters and one son, all residing in town. The children are Wanda, Bessie, Emma and Harry. There are also five brothers, John, of this city, Alfred Fred, Sydney and Maxwell, of Toronto. The funeral will probably take place to-morrow.

Sold to the Wrong Party

The Hastings Star says: Inspector Goodrich and Provincial Officer Chapman have added a few shekels to the treasury in the way of collections from our local hotelkeepers on charges of breaking the liquor law. Recently at Colborne, J. Miller, J.P., imposed a penalty of $50 and costs—$59.20 in all—against Mrs. Wm Gambol, of Myersburg, for alleged irregularities in license. The specific sale was indiscreetly to Inspector Goodrich, who was on his official rounds and called at the place to ascertain if there was cause for complaints which had reached his ears.

Local Incidents
BY THE TIMES MAN ON THE STREET.

—Monday is a holiday, Labor Day.

—The schools re-open on Tuesday.

—Yesterday was a blank at the police court.

—The Collegiate Institute, Public and Separate schools will reopen on Tuesday.

—Now the oysters will get what the chicken got in the region of his neck. This month contains an "R."

—It is rumored that Goldman the junk dealer "has flown his kite." Many citizens mourn his and their loss.

—The Turner Lumber Co. yesterday morning sent 32 men from Bellville to the lumbering camp at South River.

—Game Warden Fitzgerald went down to Rice Lake yesterday morning, where certain infractions of the game laws are reported.

—Monday being Labor Day there will be no meeting of the City Council. The meeting will probably be held on Tuesday night.

—The work of rebuilding the hotel at Burleigh Falls has been commenced. The new building will be 40x50 feet in size.

—It is rumored that the Canadian General Electric Company is so busy that arrangements will shortly be made to run certain departments night and day.

—Toronto is to have good music next week as the 57th Regt. band, 30 strong, go there to make sweet sounds for delegation of visitors at the Exhibition on Thursday.

—A number of young men of town met by appointment Thursday night, in the Y.M.C.A. parlors, and organized a social club to be known as the "Knockers." The club will be limited to thirty members.

GRUMBLING AND COMPLAINING will not take out the pain of an insect's sting, but Perry Davis' Painkiller will do so every time. Apply it with your finger to the sore spot. Price 25c. and 50c.

—As a well-known south end resident was riding his wheel north on George street on his return to work he took a sudden turn near the street railway switch above Rink street, and rode over the bank into the river, rider and wheel both naturally getting wet.

—Lindsay Post: Cheese Buyer Geo. Fitzgerald, of Peterboro, was in town this morning looking after his shipment of cheese. At the last sale he secured about six hundred boxes at 11 7-16c. It is seldom Mr. Fitzgerald does not secure his full share of cheese.

Highway Robbery

W. Weston, Arrested by P. C. McGinty for Stealing 1 Cent

Yesterday afternoon a semi-comic arrest was made by P.C. McGinty of a well-dressed man of practically no charge of highway robbery, the culmination of which resulted in what should have done as to the judicious application of a good toasted slipper on the north end of a boy's anatomy.

Mr. W. Weston, who represents the Kain Medicine Co., of Toronto, is stopping at the C.P.R. Hotel on Simcoe street, and is in the city selling the goods of his employers. Mr. Weston, who is married and has little boys of his own, is a lover of smartness of the human kind. Yesterday, Mr. Weston, who by the way, is an expert sleight of hand operator in an amateur way, seeing a couple of little lads, some ten years of age on the sidewalk, went up to one of them, and with a coin in his hand, pretended to take a cent from the lad's pocket. To his surprise and disgust about half an hour after his fun with the boys, the heavy hand of the law was laid on his shoulder by P. C. McGinty.

It appears that the boy, precocious beyond his years, went to the police station and said Weston had stolen a cent his mother had given him, out of his pocket. Weston was not only taken to the station but locked up in a cell for a long time until the boy's mother came and denied she had given the boy a cent, saying that she did not have a cent of his own. When the matter was thus explained Mr. Weston was of course released at once.

If Mr. Weston's version of the affair is correct, the police might have kept Mr. Weston in the office until the boy's mother was sent for, instead of placing him under the indignity of being locked up in a cell. Mr. Weston would hardly require to rob a 10-year-old boy of one cent as he had a roll of bills that made several people's eyes open, when they saw it, in his pocket. He is the man who drives through the streets in a cab every evening to the market square, where he gives an excellent banjo entertainment gratis, preparatory to beginning his business.

PERSONAL

—Mr. J. A. Kerr, Belleville, was in the city yesterday on business.

—Mr. Chas. Wilson, Minden, was registered at the National yesterday.

—Mr. Gilbert Bedford and Miss M. Bedford, of Campbellford, were in the city yesterday.

—Miss Byers, of Port Hope, was in the city yesterday, registered at the National Hotel.

—Mr. and Mrs. Franklin Hardinge with their daughter, Chicago, are visiting with Dr. Bradd. Mrs. Hardinge is Mrs. Bradd's sister.

—Miss B. A. Downing, Boston, who has assumed the position of head milliner with Stressman & Co., is registered at the Snowden House.

—Mr. Gordon Smith and party of six, who have been spending a week or two at Stony Lake, were guests at the Snowden House, en route for home.

—Mr. and Mrs. Justice, of Buffalo, were guests at the home of Mr. Everett Olee, Stewart street, on their return from South Beach, where they spent some weeks.

—Late arrivals at the Snowden House: W. H. Welch, Mr. W. Welch, West Bloomfield; Thos. Long, Hamilton; H. W. Longland, Sarnia; S. Oliver, R. Walker, Jr., F. Clarke, Warkworth.

—Mr. E. B. Stone, of London, passed through the city yesterday, en route to Belleville on a business trip. Mr. Stone looks hale and hearty and not a day older than when he practised in Peterboro.

—P. Rieder, Berlin; Chas. Wilson, Minden; W. J. Tumelty, Seaforth; W. H. Hammell, Toronto; R. H. Curry, Nassau, N.P.; S. L. May, L. Mc Weiver, Toronto; E. B. Stone, London; J. L. Richardson, Toronto; R. A. Grant, Toronto, are guests at the National.

—Hastings Star: Mr. Wm. Runton, of Peterboro, was in Hastings on Monday. Miss Pansy Runnels spent the past week with friends in Peterborough. Messrs. Jno. and E. Shannon and Misses Jessie and Ethel Shannon, of Percy, and Mr. V. McFadden, of Peterborough, were the guests of Mrs. T. Coughlan last week.

$500 REWARD FOR WOMEN
WHO CANNOT BE CURED.

So uniformly successful has Dr. Pierce's Favorite Prescription proven in all forms of Female Weakness, Prolapsus, or Falling of Womb, and Leucorrhea, that, after over a third of a century's experience in curing the worst cases of these distressing and debilitating ailments, Dr. Pierce now feels fully warranted in offering to pay $500 in cash for any case of these diseases which he cannot cure.

IT STANDS ALONE.—The "Favorite Prescription" stands alone, as the one and only remedy for these distressingly common forms of weakness, possessed of such positively specific curative properties as to warrant its makers in proposing, and binding themselves to forfeit, as we, the undersigned proprietors of that wonderful remedy hereby do, to pay the sum of $500 in cash, (money of the United States) in any case of the above diseases in which after a fair and reasonable trial of our treatment, we fail to cure. No other medicine for the cure of woman's peculiar ailments is backed by such a remarkable guarantee; no other medicine for woman's ills is possessed of the unparalleled curative properties that would warrant its manufacturers in making such an offer; no other remedy has such a record of cures on which to base such a remarkable offer.

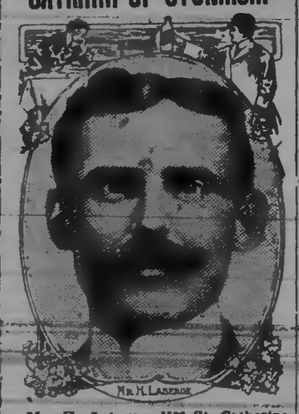
Therefore, insist on having Dr. Pierce's Favorite Prescription and turn your back on any unscrupulous dealer who would insult your intelligence by attempting to foist upon you some inferior substitute, under the plea that "it is just as good." Insist on having the article which has a record of a third of a century of cures and which is backed by those willing to forfeit $500 if they cannot cure you.

In cases attended by a leucorrheal drain a solution of Dr. Pierce's Lotion Tablets should be used conjointly with the use of the "Favorite Prescription." They are sold by all druggists, or sent post-paid to any address, on receipt of 25 cents in stamps. Send 50 cents in stamps for Dr. Pierce's Common Sense Medical Adviser. Address WORLD'S DISPENSARY, Buffalo, N. Y.

Weak and sick women are invited to consult Dr. Pierce, by letter, free. All correspondence is held as strictly private. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pellets cure biliousness.

DYSPEPSIA NOW CALLED CATARRH OF STOMACH.



Mr. H. Laberge, 1536 St. Catherine street, Montreal, Can., writes:

"I would be ungrateful if I did not write you of the good your medicine, Peruna, has done me.

"For six years I suffered from indigestion and dyspepsia. I tried a number of remedies for this dreaded complaint with little or no good results. A friend of mine brought me a bottle of your celebrated medicine and I began taking it.

"I soon found it to be just the remedy I required, and after taking a few bottles of it I was completely cured.

"I cheerfully recommend Peruna to all sufferers from dyspepsia and indigestion."

We have on file thousands of testimonials from persons who have been cured of dyspepsia and catarrh of the stomach by taking Peruna.

We can give our readers only a slight glimpse of the vast array of unsolicited endorsements Dr. Hartman is constantly receiving.

If you suffer from stomach catarrh, write at once to Dr. S. B. Hartman, President of The Hartman Sanitarium, Columbus, O., and he will be pleased to give you the benefit of his medical advice free.

Father Conway Honored

In reference to a reverend gentleman who has a host of friends in this city, the Hastings Star says: At the conclusion of the retreat of the clergy of the Roman Catholic diocese of Peterboro on Saturday, Rev. Father Conway, parish priest of Norwood, was invited to the parlors of St. Peter's rectory, where were assembled Bishop O'Connor and the priests. In recognition of the golden jubilee of Rev. Father Conway, who has completed the fifty year of his priesthood, Bishop O'Connor and the priests presented the honored gentleman with a beautiful collection of gifts, ecclesiastical vestments, altar furniture, etc. The presentation was made by the Rev. Father Murray, of Cobourg, who on behalf of the priests, passed a warm eulogy upon Rev. Father Conway's long, faithful, and fruitful services, to which a suitable reply was made.

VOL. XXXIII, NO 207. PETERBORO, ONTARIO, MONDAY, SEPTEMBER 4, 1905. PRICE TWO CENTS

RUSSIA ENSURES IT! NO EASTERN GIBRALTAR

Objected to Jap Definition in Regard to La Perouse Straits That Might Conceal Offensive Designs--Status in Manchuria to be Made Plain.

Portsmouth, N. H., September 2.—(after... which, although open, could, if England desired, be instantly closed.

M. Wittew and Baron de Rosen are now in conference with Baron Komura and Mr. Takashira in Baron Komura's apartments. It is understood that the article dealing with the division of Sakhalin is under discussion.

The statement last night that the conferences which continued until almost after midnight related to differences over the article concerning the division of Sakhalin is fully confirmed. The Japanese at first were inclined to be obdurate, but an arrangement mutually satisfactory was provisionally agreed to and is expected to be finally ratified by the chief plenipotentiaries during the day.

The Japanese desired that the word describing the status of La Perouse Straits should be "open," but the Russians wanted it distinctly specified that no fortifications should be erected on Japan's side which would support a war fleet or under whose guns a fleet could operate. They didn't want the situation to be similar to that of Gib.

WOULD LEAVE RAW SPOT.

As to the evacuation of Manchuria, the Japanese want the method and time of the withdrawal of the troops particularized and the number of the "railroad guards" which are to remain in the bond. To permit this question to be left open would be equivalent to a tacit understanding that Russia was to retain her "sphere of influence" in Northern and Japan hers in Southern Manchuria. It would revive in a way the very situation which existed before the war. Control of Manchuria might become a bone of contention leading eventually to another war.

It is expected, however, that the text of the treaty will be completed today. Only two articles remain to be drafted. Two calligraphers from the State Department are already here to begin the work of engrossing, and everything now indicates that the ceremony of signing the treaty can take place Tuesday at the latest, possibly Monday.

certainly be visited upon any action not destined to further the legitimate desires of France.

As an official of the Foreign Office said today. "In dealing with Oriental races it is usually fatal to allow any let down in the steady maintenance of a firm hand.

"It is only thus that the Orientals' respect is won. In the present instance, Morocco must learn that its prompt obedience to our demands must be followed by an ample apology, and an indemnity, or there will be another method of settlement, which will be outside the province of this ministry. The old cry, heard so often five years ago, 'Keep your eye on Fashoda,' should be changed to one indicating that it is necessary to 'Watch Morocco.'"

THE STRENGTH OF CANADIAN PACIFIC

The Reason the Securities are so Firm in the English Market

250,000, on which interest is charged at 6 per cent., so that the investing public can see that the land grant bonds are practically no charge on the company, for while the interest on $15,250,000 is six per cent., that to be paid by the company on the balance of its loan is only three and a half.

"To state the case in another way, the interest on the undue instalments amounts to $950,000, while the interest to be paid, by the company on the unprovided portion of its loan amounts to $402,500, so that on June 30th, 1901, the company was receiving in interest $548,500 more than it had to pay the Government for interest on the portion of the loan with reference to the quantity of land held by the company under its grants amounts to 17,882,000 acres, so that the profit to be made upon that land is clear to all investors."

PARALLELING OF THE LINE.

"The paralleling of the Canadian Pacific line by the Grand Trunk Pacific for nearly three hundred miles will not affect the optimistic views of investors in England and the Continent with regard to the future of the road. Some people may regard this as a dangerous sign, but the investors over there study the enterprises in which they place their money. They are well aware of the extent of the Canadian Pacific line, and they realize that even if another road parallels it for a few hundred miles this will not interfere with the through traffic which constitutes the profitable business of the road."

Mr. Skinner is an enthusiastic believer in the establishment of a fast steamship service between Canada and Liverpool. He believes that faster communication will lead to a better knowledge of Canada on the part of the people of England and vice versa. He is of the opinion that the new steamships now under construction for the Canadian Pacific Railway will prove to be a step in the direction of faster and better communication between the old land and Canada.

Quebec Dominates

London, September 4.—The Outlook has an article "by an Englishman in Canada," on the development of the North-West, who says, "so long as the influence of Quebec predominates in the counsels of the Laurier Government, it is perhaps unreasonable to expect that direct encouragement will be given the British immigrant. Not the least remarkable feature of the present official immigration policy is the entry into Canada of a great number of European Roman Catholics. Most of these go to the North-West, and their children in due course will come under French influences in Separate school perpetuated by the Autonomy bills. At present no organized or systematic effort is being made within or without the Dominion towards the retention of the present favorable balance of the Anglo-Saxon element in Canada."

THE NEW PROVINCE BIRTH OF ALBERTA

Earl Grey and Sir Wilfrid Laurier Made Speeches the Premier Appealing to Citizens of New Province to Take Their Part in the Nation's Affairs.

Edmonton, N. W. T., September 2.—The festivities in commemoration of the formation of the new Province of Alberta to the Canadian Confederation were even more decided a success than had been anticipated. The Governor-General and the Federal Premier honored the event with their presence.

After the inauguration day parade, in which several thousands participated, had been reviewed by the Governor-General, came the formal admission of Alberta as a Province. This took the form of the swearing in of Hon. G. H. V. Bulyea, the new Lieutenant-Governor, to whom the oath of allegiance was administered by Mr. J. J. McGee, Clerk of the Privy Council. This ceremony was completed by the firing of a salute of 21 guns, and the playing of the National Anthem.

EARL GREY'S SPEECH.

An address of welcome to the Governor-General, which was read by Mayor Mackenzie, on behalf of the city, evoked a reply by his Excellency, in which he referred to the aid the Federal Government as well as to their own energy that Alberta had perhaps better opportunities for successful farming homes than any other part of the world.

PREMIER'S SPEECH.

The chief event of the day was, however, the eloquent speech of Sir Wilfrid Laurier, who appealed to all the cities of the new Province, to co-operate and do their share for the development of Alberta and the Dominion.

In the course of his speech, Sir Wilfrid said, in part:

Gentlemen, in order to bring this new Province [illegible] the standard we have set for it, it is necessary that we should have the hearty co-operation of all the people, of all the citizens of Alberta. And since it happens that I have the honor of occupying the post of the first servant of the Crown in this country, let me say, on behalf of the Crown, with the concurrence of his Excellency the Governor-General, to these new fellow-countrymen, to these new subjects of the King, I offer the most cordial of all welcomes, a welcome to those of our own kin from the lands beyond the sea, a welcome also to those who have come from the neighboring kindred republic. Let them become Canadians, British subjects, and give their heart and soul, their energy, their vows to Canada, to its institutions, to its King, who, like his illustrious mother, is a model constitutional Sovereign. (Loud cheers).

Sir Wilfrid referred to his previous visit to Edmonton eleven years ago, and spoke of the rapid progress made by the West. He said Winnipeg was now the third city in the Dominion, having passed in the race the historic city of Quebec.

Sir Wilfrid Laurier received prolonged applause on resuming his seat.

The gathering was also addressed by Hon. William Paterson, Minister of Customs, and Sir Gilbert Parker, M.P.

A DAY OF FESTIVITIES.

In the afternoon there were horse races, baseball, lacrosse, polo, a musical ride by the Mounted Police, and band concerts. In the evening the town was illuminated and there was a brilliant State ball, which was attended by Earl Grey, Sir Wilfrid Laurier and hundreds of ladies and gentlemen from all over the Dominion, though, of course, the people of Alberta predominated.

REGINA ALSO CELEBRATED.

Regina, N. W. T., September 2.—The birth of the Province of Saskatchewan was fittingly observed here, though the inauguration ceremonies are reserved for Monday. The day was observed as a public holiday. The function of the day was the civil service ball in the evening at the Government Buildings, at which Hon. F. W. G. Haultain was in attendance.

MOOSE JAW WAS EN FETE.

Moose Jaw, N. W. T., September 2.—The inauguration of the new Province of Saskatchewan was celebrated at Moose Jaw by a parade of school children through the main streets to the City Hall, where an excellent program was carried out, consisting of songs by the children and speeches by prominent citizens.

New Y. W. C. A. Secretary

Miss Jessie Potter, B.A., the new secretary of the Y.W.C.A., will arrive this evening to commence her duties in connection with the work here. The Dominion Council of this admirable institution has sent Miss Lough, who, to the regret of all concerned, lately gave up her position as secretary to assist Miss Potter for a while. Miss Lough arrived on Saturday and was made heartily welcome.

THE CZAR STILL FACES A NEW FOE

Peace News Coldly Received in Russia and Reform Agitation Grows

PEASANT MOVEMENT IS ON

Tens of Thousands Are Said to Be Armed and Ready for Activity in the Autumn.

St. Petersburg, September 4.—Dissatisfaction is the dominant note in Russian comment on the terms of peace arranged at Portsmouth. Those who do not criticise are indifferent. Expressions of relief are heard that there will be no further bloodshed, but the "inglorious peace" is a disappointment to a majority. A revival of internal troubles has come with the announcement of the relief of the government from pressure in the far East. At a meeting of 300 members of the intellectual classes of St. Petersburg at Terijoki, near here, one of the speakers described the peasant agitation in the provinces of Saratoff and Samara, saying that there were tens of thousands of men supplied with arms and that an enormous peasant movement was being organized for the autumn. A force of Cossacks and infantry has been sent to Terijoki.

It has been decided to form territorial zones for Jews and lists are now being drawn up of new townships and villages where they will be permitted to live.

GENERAL STRIKE AT LIBAU.

A general strike was brought about at Libau by the recent order for the mobilization of troops. Factories were closed, port loading was discontinued, and the street railroads stopped operations. Steam railroad communication was interrupted and no newspapers were issued. The arrival of recruits from the neighboring country districts added to the confusion as well as to the possibilities of disorder. The situation there was tense, and many soldiers patrolled the streets. The announcement of peace had a quieting effect, but this is believed to be only temporary.

The reception of the news in St. Petersburg shows plainly that the war has been foreign to the masses, who in no sense have been in sympathy with its objects. The more intelligent classes have never shown any capacity for appreciating the plans or ideas of the government and seem to have lost sight of the vital interests of the state because of the revelations of official corruption discovered in connection with the Yalu enterprises, and as a result of the unpreparedness and incapacity of the army and navy to cope with the problem and also because they have been fully occupied at home with the struggle to obtain a representative government.

Dispatches from Odessa, Saratoff and Nijni Novgorod say the news of the ending of the war was received with enthusiasm, particularly by the commercial classes. The feeling is based on a hope for improvement in internal affairs and a revival of business.

PROTESTS FROM THE PRESS.

The Novoe Vreyma today, deploring the conclusion of peace, says: "God grant that the blow has not fallen on Russia at the moment when Japan was ready to make every concession to terminate the ruinous war and when the Russian army had become stronger than ever before."

M. Souvorin, editor of the Novoe Vreyma, says he regrets that General Linevitch, who telegraphed recently to St. Petersburg and Portsmouth imploring Emperor Nicholas and M. Witte not to conclude peace, did not lead his army against the Japanese to support the plenipotentiaries instead of allowing them to [illegible] the disgraceful [illegible]. Souvorin considers the concessions made by Japan to be of little importance, and says they do not weaken her position, and adds:

"If the national assembly does not succeed better in renovating the country than the army has in defending it Russia will be lost."

The Russ described the conclusion of peace as being "of supreme benefit to the foe."

The Pan-Slavic Svet says: All the Japanese concessions pale before the news that Japan has acquired the better part of the Island of Sakhalin."

The popular Listok welcomes peace as enabling Russia to enter heart and soul into interior reorganization.

FULL SATISFACTION FROM SULTAN

France Not Content With the Mere Release of the Algerian Prisoners

DEMONSTRATION AT SEA

To Impress on Morocco that Franco-German Trouble Has Not Weakened French Will

Paris, September 4. — France has not received full satisfaction from the Sultan of Morocco.

The mere release of the imprisoned Algerian subject is said to be not sufficient to satisfy the government, which yesterday evening gave instructions to the squadron, preparing to depart from Toulon, to make a demonstration in the Mediterranean. The press believes that, in view of this activity, it will possibly prove unnecessary to send the squadron to Tangier, but the Government is quite willing to impress it on the Sultan's mind that the French-Germany squabble has not at all weakened the force of the French will.

Premier Rouvier is perfectly aware that Morocco tried to show contempt for the French demand, desiring thus to prove that the French claim to predominance in that country has no foundation.

The Sultan's initiative has been a dismal fiasco, for, though indications are lacking as to what attitude Germany might feel called upon to take, if the matter grows grave, many officials think that, nevertheless, the overwhelming condemnation of the whole world would

Sues for $10,000

Writ Issued Against Mr. G. N. Kidd, M.P.P.

Mr. E. B. Stone has issued a writ for $10,000 against Mr. G. N. Kidd, M.P.P., of Carleton. The action is taken on behalf of Mr. R. J. Kidd, of this city, and is down for trial at the Court of Assize, which will sit here on October 9th.

It appears that Mr. Kidd, the defendant, is alleged to have opened a letter addressed to his namesake, Mr. R. J. Kidd, who was at that time an employee of the Ontario Government. The latter was, it is also alleged, handed to Hon. Mr. Hanna, Provincial Secretary, who made use of the information contained therein, and dismissed Mr. R. J. Kidd from the employ of the Government. The case will attract considerable attention throughout the Province, and particularly in that district, where Mr. R. J. Kidd is well and favorably known.

Artistic Music Printing

The Times on Saturday was in receipt of a package of sheet music which, from its artistic cover designs, make up and tin de siecle excellency of print, is deserving of special mention. The music, both vocal and instrumental, is from the large establishment of Messrs. Chappell & Co., of 50 New Bond street, Lordon, Eng. Messrs. Chappell & Co. are the largest and one of, if not actually the oldest publishers of music now in business in the world, having been founded in 1812. When they were established, bread in England was 36 cents a loaf, and the price of music almost prohibitory to ordinary individuals. Messrs. Chappell & Co. produce sheet music that is most pleasing, not only to the performer, but to a connoisseur in artistic printing and engraving.

A STREET CAR INCIDENT

Two Well Known Women Who Disputed Over Fare

The other night two women board[illegible] They were stylishly dressed and had every evidence of culture. Both women opened up chatlaine bags with great haste, as though the biggest bargain of the day depended on who should get out the money first. It was a tie.

"Now this be my turn to pay," said one, in a voice loud enough to be heard all around.

"No, I shall insist on paying," said the other, "and then you can pay next time."

The conductor had approached in the meantime and stood patiently awaiting the 10 cents due.

"I really think you're mean," said the first woman. "You know very well that it is my turn."

"No, I beg your pardon," replied the other. "It is my turn and I will pay."

The conductor reached down and took the ten-cent piece out of the nearest woman's hand.

"I think you're real mean," remarked the one with the ten-cent piece, "it was my turn, and I will pay the car fare for two times now to make up."

The woman whom ten-cent piece was gone watched the conductor put the fares in the box without even the trace of a smile. "It was my turn, and I won, anyhow," she remarked to her companion.

The conductor bent over a man in one of the smoking seats.

"Don't it beat everything," he said. "Did you see 'em contend as to who would pay the fare, and both of 'em were hanging onto their money as thought it was the last. Neither wanted to pay the fare, and so they both bluffed. It's almost an everyday occurrence."

"Charlotte street," yelled the conductor, and the two women, still discussing the fare question, got off. As the car sped on its way the conversation could be faintly heard.

"It was my turn," said one. "No it was mine," said the other.

HAD CHOICE OF DEATHS

Preferred Electrocution to Plunge Into Tank of Hot Metal

Chicago, September 4.—Nels Anderson, a motor inspector for the Illinois Steel Company, chose death by electrocution in preference to a more horrible fate in one of the company's metal pits Saturday at the South Chicago works.

Anderson was doing repair work on the arm of a crane directly above one of the hot metal pits. A slight movement of the arm caused him to lose his balance. The only support within reach was an uninsulated live wire, which connected the crane with power. The doomed man gave one glance at the white hot metal below and caught the wire as he was falling.

He was almost instantly killed, and the body hung over the wire until the current could be shut off.

ALL CANADIAN STOCK HIGH

Paralleling of the Line Does not Affect the Standing of the Company

Montreal, September 4. — "Confidence in the administration and management of the company, and unlimited faith in the future of the country which it serves," are the reasons attributed by Mr. Thomas Skinner, director and financial agent of the C. P. R., in London, for the high position held by his company's shares.

Mr. Skinner is in the city with Mrs. Skinner, and his sister-in-law, Mrs. Long. They will remain here for a few days, and then proceed west, along the line of the C. P. R. He has not visited Vancouver for the past five years.

The increased value of land in Western Canada was the prime factor in inducing capitalists to put their money into the C. P. R., and the same reason has affected the shares of the Hudson Bay Company, which have had such a phenomenal rise within the past few weeks. In fact, everything Canadian is now looked upon with favor in the great money market of the world, and this feeling is reflected in France and other European markets. The situation is likely to be even better now that the uneasiness over the position of Russia has been allayed.

THE SITUATION OF THE COMPANY.

Mr. Skinner explained the situation of his company and the effect which the land sales will have on the future. "As regards the land question of the C. P. R., he said, "the position is this: "In its earlier days, the C. P. R. issued five per cent. land mortgage bonds. Subsequently, with a view to raising money towards the completion of the road, the company issued three and a half per cent. land bonds, [illegible] the interest, and it was then agreed that all cash proceeds of land sales should be first applied to the redemption of the five per cent. land mortgage bonds, and after they were paid off, the proceeds were to be paid into the Dominion Treasury until the amount so paid in should be equal to the loan, the Government in the meantime to pay the company three and a half per cent. on these payments. Later, when the amounts so paid into the Dominion Treasury equal the amount of the loan, the Government was to become responsible for the loan, both for the interest and the capital, and to discharge the lien upon the company's land grant.

"As to the probable time when this result will be attained, the following facts disclosed in the last report published by the company, for the year ending July 1st, 1904, may serve as a guide. The sales of land in that year amounted to close upon a million acres, sold for a sum close upon $4,000,000. Up to that date, $3,500,000 had been deposited with the Government towards the paying off of the $15,000,000 loan. Of this, as much as $3,000,000 was paid off in that one year. It is understood that in the year just about to be reported upon, the sales were about in the same proportion, so that the period when the whole loan will be paid off is within measurable distance.

PRACTICALLY NO CHARGE ON COMPANY.

"In addition to this, we have the statement that up to June 30th, 1904, the undue instalments on land sold by the Canadian Pacific Railway in the Canadian West amounted to $15,-

ATHLETIC WORLD

BY OUR SPORTING EDITOR.

Saturday's game was perhaps the most exciting played in the Midland League this season. There was a fair-sized attendance, and by the time the last ball was pitched every spectator, whether in favor of the winning side or desirous of having the Port Hope bunch carry off the victory, got the worth of their admission. Up to the fifth innings it looked like Port Hope's game, as their side had 7 runs to Peterboro's 2. Peterboro won out by good, heavy slugging, intelligently paced. The result of Peterboro's 14 to Port Hope's "baker's dozen," a win of only one run, was exciting enough for the most pronounced yeller on the bleachers. Saturday's game now places Peterboro ahead in the Midland League championship series. On Saturday Cobourg and Bowmanville will play off, when Peterboro will play home and home games for the final with the winner of Saturday's game. On Saturday both teams put up good work. Quinlan pitched and Rattray caught for the home team, with Surplice and Andrews doing similar work for the Port Hope boys. It would be invidious to particularize good play by individuals on either side, as the game was hot and well put up by all engaged.

LACROSSE.

Do not forget the big lacrosse match this afternoon at three o'clock at Riverside Park. The contestants will be the Peterboro and Beavertons. A great game is expected, and the locals will make a big effort to win.

THE RUSSIAN ARMY HEARS THE NEWS

Arrangements Have Been Instituted for the Establishment and Maintenance of a Neutral Zone.

Gunshu Pass, Manchurin, September 2.—The first intimation of agreement between the peace plenipotentiaries was printed in today's issue of the army organ, but Mr. Witte's message to Emperor Nicholas, received today, was held over for tomorrow.

From various sources the news of the agreement percolated into the communities at Koshiatien and Gunshu Pass August 31, but comment was withheld pending military sanction for its publication, and the news is yet too vaguely known or realised to note its effect.

Arrangements have already been instituted, however, for the establishment and maintenance of a neutral zone between the armies pending their demobilization. The army has had ample time to accustom itself to the idea of peace. The men have followed the discussions as closely as the delayed despatches permitted, and it is evident that the idea of paying an indemnity was the most unwelcome of the Japanese conditions.

The foreign military attaches are expecting to be recalled, and are arranging for formal leave taking of the commanders.

TELEPHONE TALKS.

TO TELEPHONE USERS AND THE GENERAL PUBLIC,—

The net result of five years' effort at municipalizing the exchange telephone service of Great Britain is that five exchanges are still in operation. The Municipalities have about 20,000 subscribers, or four per cent. of the total exchange subscribers in the Kingdom. As about half of these have the National Company's service as well, the two and a half millions of dollars that have been spent on municipal telephone plants have given telephone service to only 10,000 new subscribers—an enormous waste of capital in support of a theory.

That there are not more municipal telephone plants in Great Britain is not for lack of agitation, or lack of interest on the part of municipal representatives. Forty-one municipalities have considered the matter, made a thorough investigation of the questions involved, and have decided that a municipal telephone service was an unwise venture.

It must be borne in mind in considering these results that in Great Britain all local telephone exchanges have the same service and facilities over the long distance lines, which are owned and operated by the Government. This refutes the theory that ownership of the long distance lines by the Government would enable successful competition against an established company.

Following the disclosure made in evidence before the Special Committee, of the disastrous results financially, of Government operation of telegraphs, the question naturally arises why the Government should have also taken over the long distance telephone lines. The reason is plain. The long distance telephone lines owned and operated by an agressive company were encroaching on the business of the already unprofitable Government telegraphs. The Government therefore decided to take control of the telephone service to avert competition.

Government ownership of long distance lines with the local exchanges in the hands of a company having but aggravated the condition of Government monopoly, the final step has been decided upon, and the whole exchange business, whether in the hands of a Company or of the municipalities, will be taken over by the Government within a few years. The opinion of experts is that the last state will be found worse than the first or the second stage, bad as they have been.

This is confirmed by the experience of other countries which have a complete Government control of the telephone service, as we shall be able to demonstrate later from the sworn evidence of those who are familiar with the existing conditions in European countries.

THE BELL TELEPHONE COMPANY OF CANADA.

All Thin; Pale Women

Can Learn the Cause of Their Nervous, Used up Condition

With women, ill-health is usually traceable to nerve exhaustion. Feeling run-down and tired most of the time is nature's warning that more nerve-force is required.

You must build up, nourish the body, vitalize the nerves, get more flesh and blood.

It's the abundant nutriment and building material in Ferrozone that enables it to cure so many sick women. It increases the appetite, adds weight and strength, restores lost color and develops a surplus of energy and nerve force that defies sickness of any kind. There is living proof in Mrs. Daniel Ferguson, Jr., of Prescott, Ont. Read her statement:

"A year ago my health failed. I grew thin and exceedingly pale. At night it was difficult to obtain restful sleep. My appetite was variable and indigestion both red me considerably. I became nervous and suffered from bowel complaint. You could scarcely believe the benefit I derived in one week from Ferrozone. Color came back to my cheeks. My vitality and appetite increased, renewed nerve force and better spirits came also. Ferrozone did a world of good and made me well.

Remember that no alcoholic stimulant can nourish and build up like Ferrozone. Fifty cents per box or six boxes for $2.50. At all dealers, or N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterboro are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year strictly in advance.

SUCCESSFUL OPERATIONS

During the last few years great surgeons and surgeons aiming to be great have done much operating, and they or their press agents have had a way of reporting most operations in which the patient did not immediately die as "successful." Often after such a report the next item concerning the progress of the case would be the report of the death of the patient. Of course this report would be rather saddening to the successful surgeon, but he could console himself with the fact that the first report of his success had traveled far and probably wouldn't be entirely shorn of effect on his fame and fees by the second report. Now it appears that there is at least one surgeon in this country who doesn't look upon an operation as a success just because it is neatly done. One of the members of the American Medical Association at its recent meeting actually pointed out the absurdity of calling a surgical operation successful, just because it was technically so, though it was followed by the death of the patient. No matter how thorough the operation so far as technique is concerned, he said, it cannot be other than a failure if it fails to afford the patient relief.

This is a new wrinkle, but it will strike most unprejudiced people as correct. Perhaps a patient or his friends really ought to be allowed to have some notion about the success of an operation, and perhaps they are justified in not calling an operation soon followed by death entirely successful.

NOT POWERFUL ENOUGH

All the great powers seem to be afraid that they may not be powerful enough when the test comes, but they mean to try to be. In a recent speech on "Imperial defense" Lord Roberts declared that in case of war with Russia England would require 500,000 men, whereas under the existing organization of the British army not more than 200,000 could be supplied. Perhaps some 50,000 militia, 50,000 volunteers and 30,000 colonial troops might be raised, but there would still be 170,000 lacking. "There is no option," the late Commander-in-Chief held, "but to [illegible] military service for home defense." In another speech in the House of Lords the Commander-in-Chief stated that "this country is as absolutely unfitted and unprepared for war as it was in 1899-1900," when in the first six months but 100,000 regulars regulars could be sent to South Africa in a properly organized condition.

The fact that Russia, notwithstanding the war with Japan, still keeps a large army on the frontier of Afghanistan explains Lord Roberts' solicitude and accounts for General Kitchener's determination to convert his Indian army into a real fighting force.

"TAINTED MONEY."

A great fight is predicted at the coming meeting of the American Board of Missions over "tainted money." The meeting will be held at Seattle next month. Congregational ladies say that the controversy started by the Rev. Dr. Washington Gladden, moderator of the Congregational Council, who John D. Rockefeller gave $100,000 to the American Board a few months ago, will have its final settlement at the Seattle meeting.

It was forecasted several weeks ago that the matter would come up at the Seattle meeting, but there was no thought that it would assume the proportions now deemed probable.

Dr. Gladden, it is stated by a leading Congregationalist, has been for several months in correspondence with prominent men in the denomination who hold similar opinions to his own. These men have promised, it is asserted, to support the moderator at the meeting at Seattle, and the forces are all prepared to make a fight for what they consider the financial purity of Congregational mission effort.

A LONG LIFE

There are several ways to live long. About sixteen months before his death (at 101) Senator David Wark, of Fredericton, N. B., wrote a letter about his way of living. For breakfast, he said, he had oatmeal porridge and milk, to which he had always been accustomed, with a slice of plain bread and a cup of black tea. For many years he had eaten neither beef, mutton or pork, but took a little fish or fowl at 1 o'clock, with another cup of tea. At 6 o'clock a slice of bread and a cup of tea once more constituted his evening meal. He ate neither pie nor pudding, and drank nothing stronger than tea."

REDUCING NUMBER OF PROVINCES

The matter of reducing the number of Provinces in the Dominion is to come up for discussion at the proposed conference between the Dominion Ministers and the Provincial Premiers re the division of Keewatin and the remainder of the North-West. Among the Maritime Provinces also the idea of federation is seriously mooted, and may ere long become a live question in the east.

Beware of Ointments for Catarrh that Contains Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists, price 75c. per bottle.

Hall's Family Pills are the best.

NO VISIT FROM KAISER

Officers of Channel Squadron Are Still Waiting

Berlin, September 4.—Officers of the English Channel squadron are still waiting for the Kaiser to visit them at Swinemuende. In court circles it is said today, that it is highly improbable that the Kaiser will visit the fleet at any time, and popular opinion demands that no such honor be shown the guests.

Because of the recent cases of cholera in West Prussia, it is announced that the British fleet will probably give up the intended visit to Dantzig, where it was planned to arrive Saturday.

DEMAND MORE PAY

Sheet Metal Workers Out on Strike in New York

New York, September 4.—A strike of the sheet metal workers in this district was called last night by the Amalgamated Sheet Metal Workers Union. About 2,300 members attended the meeting and the call for the strike was almost unanimous.

The strike will affect about two hundred buildings which are in course of construction, and about three hundred shops in which the metal workers are employed. The men demand an advance of 50 cents a day.

Sir Charles Tupper on Ocean

London, September 4. — Sir Charles Tupper has sailed for Canada. He is reported to have said, before leaving, that Canadians were united in favor of Mr. Chamberlain's policy.

THE CANADIAN PACIFIC RAILWAY COMPANY.

Notice to Shareholders

The Twenty-Fourth Annual meeting of the Shareholders of this Company, for the election of the Directors to take the places of the retiring Directors, and the transaction of business generally, will be held on Wednesday, the 4th day of October next, at the principal office of the Company at Montreal, at twelve o'clock, noon.

The Common Stock transfer books will close in Montreal, New York and London. Preference Stock books London at 3 p.m. on Friday, September 1st. The Preference Stock Books will also close at 3 p.m. on Friday, 1st September.

All books will be re-opened on Thursday, 5th October. By order of the Board.
